ELECTRICAL PERMIT TIPS

*Would you like to have your building permit reviewed as quickly as possible?
Would you like the permit process to be stress-free?*

We hope that a careful review of the following tips will help to facilitate the permit review and issuance process.

1. Present a complete permit application package (see reverse side for a basic, minimum check off guide). The Department of Building and Zoning now requires digital submissions for all applications and supporting documents. Applicants that have digital files 10MB or less are encouraged to email their submittals to sean.pierce@cookcountyil.gov. If your submittal is larger, we accept an electronic copy on a flash drive or CD (PDF format).

After you have received a permit application number, please wait for the Department of Building and Zoning to send you a letter asking you to address comments and deficiencies following the technical permit process.

The letter will outline each department's concerns or questions

In order to best serve you and your permit process at this point, we would ask that you bring a digital copy or e-mail everything to Permit Control on Monday, Wednesday or Friday. It is most expeditious for permit review, if the majority of deficiency items are submitted at one time rather than in a piecemeal fashion.

2. If your application submittal did not have any deficiencies or upon satisfaction of all permit deficiencies, your permit application is approved and ready for issuance, Please be advised, that you will be sent an invoice by mail of the permit fee to be remitted. Upon receipt of payment, we will mail you the building permit.

Of course, after notification, you can bring the permit fee in person, and you will immediately be issued the building permit.

3. Inspections are required all during the construction process. Upon issuance of your permit, you will receive the name and phone numbers of the field inspectors and the stages of construction which must be inspected.

Your cooperation in adhering to these procedures will help us to better serve you during the permit process. If you have any questions or need additional assistance, please do not hesitate to contact the Department of Building and Zoning. Thank you.

Timothy P. Bleuher
Commissioner

DEPARTMENT OF BUILDING AND ZONING
OF COOK COUNTY, ILLINOIS

Timothy P. Bleuher
COMMISSIONER OF BUILDING AND ZONING
OF COOK COUNTY

County Administration Building
69 W. Washington, Suite 2830
Chicago, IL 60602-3169
TEL (312) 603-0500
FAX (312) 603-9940
TDD (800) 526-0857

ELECTRICAL PERMIT REQUIREMENTS

1. Complete the application in its entirety for the scope of work you are applying for.
2. All contractors performing work on your proposed project must be registered with the Cook County Department of Building and Zoning (not the City of Chicago). Their registration must be current for the year. They must give you a letter of intent (to be submitted at time of permit application) and this letter must be signed by the authorized signature of the person registered with us.
3. If the proposed work is in a FloodPlain, FloodWay or adjacent to wetlands or otherwise protected areas, please contact this office prior to submittal to discuss several additional application requirements.

NOTE: Being certain of your contractors and their registration can save you many days of delay. To check contractor registration, you can contact the electrical department:

Sean Pierce, Electrical Plan Examiner at 312.603.0515 or sean.pierce@cookcountyil.gov
