PROPOSED TRANSFER OF FUNDS

Department: Facilities Management

Request: Transfer of funds

Reason: To allow Facilities Management to procure material needed for the Branch Courts; Grand, Wentworth, 111th, Belmont and Flournoy.

From Account(s): 200-330 Cleaning Supplies, \$18,000.00)

To Account(s): 200-333 Institutional Supplies, \$18,000.00

Total Amount of Transfer: \$18,000.00

On what date did it become apparent that the receiving account would require an infusion of funds in order to meet current obligations? What was the balance in the account on that date, and what was the balance 30 days prior to that date?

On January 22nd it became apparent that a funds transfer would be needed in the Branch Court program Institutional Supplies. Therefore, funds will be transferred into account 333 program 11375. There was a typo when funds were initially loaded-funds were loaded into account 330 instead of 333.

How was the account used for the source of transferred funds identified? List any other accounts that were also considered (but not used) as the source of the transferred funds.

This account was chosen because the funds were placed in account 330 in error.

Identify any projects, purchases, programs, contracts, or other obligations that will be deferred, delayed, or canceled as a result of the reduction in available spending authority that will result in the account that funds are transferred from.

None

If the answer to the above question is “none” then please explain why this account was originally budgeted in a manner that caused an unobligated surplus to develop at this point in the fiscal year.

Funding for the above was placed in the wrong account by error.

Summary: This three month extension would allow Sentinel Offender services, LLC to continue to provide electronic monitoring and Global Positioning System (GPS) services for the Adult Probation Department and Juvenile Probation and Court Services Department for minor and adult clients who are ordered by the court to wear electronic monitoring devices. Sentinel provides GPS monitoring equipment and services for adult probationers and pretrial defendants in order to comply with Public Act 95-0773, also known as the Cindy Bischof Law, which calls for the monitoring of certain domestic violence offenders through GPS technology. The law allows the court to order adults charged with certain domestic violence offenses to be monitored electronically by the Adult Probation Department Home Confinement Unit as a condition of bail or probation. Offenders are ordered to wear a GPS tracking device to help monitor compliance with orders to stay away from the complaining witness, the complaining witness's home/workplace, or any other protected address specified. There are currently more than 210 adults under GPS monitoring and 110 victims who carry GPS devices to create mobile exclusion zones. Effective on 1/1/2015, new legislation (Public Act 98-1012, 725 ILCS 5/110-5) significantly expanded the types of

charges required to be considered for GPS monitoring as a condition of bail.

GPS technology is used by the Juvenile Probation and Court Services Department to monitor high-risk youth in home confinement as an alternative to secure detention or as a condition of release into the community. These devices are deployed at various points of the judicial process from pre- adjudication through post-dispositional stages of court proceedings. For the month of November 2017, there were 381 court-involved youth under GPS electronic surveillance, 55% of whom are on pretrial status. .

A new Request for Proposal process is concluding for a new contract. The extension provides a brief period of time as a contingency to transition services to a new provider.

The contract was awarded through the Request for Proposals (RFP) process in accordance with the CookCounty Procurement Code. Sentinel Offender Services, LLC. was awarded this contract based on established evaluation criteria

Summary: On 2/5/2013, the Cook County Board of Commissioners approved a ten-month contract with Heartland Human Care Services, Inc. to manage the Cook County Juvenile Detention Reduction Project (DRP) to serve court-involved, moderate and high-risk youth in jeopardy of imminent referral to the Juvenile Temporary Detention Center due to non-compliance with court orders.

The DRP augments the court's nationally recognized Juvenile Detention Alternatives Initiative which is a continuum of community-based services that judges and probation officers may use to divert at-risk minors from detention. Both the Initiative and the DRP programs allow minors to remain in their communities and engage in pro-social interventions. The DRP currently provides services to youth living in targeted Chicago communities. The contract provides a wide range of interventions and mentoring, including educational, therapeutic and recreational programming, which responds to the needs of the juveniles who are referred to participate in this project. Heartland partners with 13 faith-based and other community based-agencies to facilitate direct access to services and care. Since the beginning of the project, more than 3,750 referrals have been processed for DRP services.

The request for the increase is to continue services until a new contract is executed, while a corresponding Request for Proposal ("RFP") process is completed.

This is a Sole Source Contract pursuant to Section 34-139 of the Cook County Procurement Code.
