

# Bureau of Technology

Strategic Plan: 2020-2025

# Strategy Components

APPLICATION  
MODERNIZATION

HYBRID CLOUD  
INFRASTRUCTURE

RESIDENT TECHNOLOGY  
ENGAGEMENT

# Application Modernization

Migrate legacy applications to a new platform, merging redundant applications whenever possible.

Focus on systems flexible enough to meet the needs of the County that require minimal changes; saving cost and eliminating excessive time to completion.

Align staff and skills to a more customer-centric approach.

# Hybrid Cloud Infrastructure

Smart mix of on-premises and off-premises infrastructure

Disaster recovery for all critical applications and data

Keeping pace with the exponential growth of data and digital records

# Resident Technology Engagement

Open Data

Digital access for  
underserved residents

Digital mapping services
