

Illinois PTAC at the Women's Business Development Center

Government Contracting Services

The Illinois PTAC offers a wide variety of services to help you succeed with government contracting. Our no cost assistance comes in the form of teaching, mentoring and coaching. We also provide our clients with a complete set of tools to research and identify contracting opportunities.

Market Research | Conduct market research, find government opportunities, and establish relationships with agencies. Read and understand government bid and proposal solicitations

Registrations | Execute SAM and other governmental vendor registrations.

Prepare to Bid | Prepare, review, and finalize a bid or proposal. Locate technical information and pricing data. Prepare for pre-bid conferences, short-list interviews, debriefings and pre-award meetings.

Contract Assistance | Understand RFID, UID, and packaging standards. Participate in electronic and other Internet-based bid opportunities. Handle post-award contract administration.

Interested in learning more on how to compete for government contracts?

Get advice from WBDC's Illinois PTAC (Illinois Procurement Technical Assistance Center) advisors on how to do business with federal, state, county, and city agencies, and other Illinois municipalities! Our Illinois PTAC (Procurement Technical Assistance Center) is all about government contracting and provides businesses with one-on-one advising, education via workshops and multi-week training cohorts, tools to conduct research and identify contract opportunities, and many more valuable resources. These services and tools are essential for becoming an effective competitor, and for enhancing your potential to win government contracts.
