

**SUPPLEMENT TO
OFFICIAL STATEMENT DATED AUGUST 11, 2022
Relating to**

**\$277,705,000
THE COUNTY OF COOK, ILLINOIS**

**\$268,530,000 General Obligation Refunding Bonds, Series 2022A
\$9,175,000 Taxable General Obligation Refunding Bonds, Series 2022B**

PLEASE BE ADVISED that this Supplement (this “*Supplement*”) sets forth information supplementing the above-referenced Official Statement (the “*Official Statement*”). Capitalized terms used herein and not defined herein shall have the meanings specified in the Official Statement.

The Inflation Reduction Act, H.R. 5376 (the “*IRA*”), was passed by both houses of the U.S. Congress and was signed into law by President Biden on August 16, 2022. As enacted, the IRA includes a 15 percent alternative minimum tax to be imposed on the “adjusted financial statement income” of “applicable corporations” (each as defined in the IRA) for tax years beginning after December 31, 2022. Interest on the Series 2022A Bonds will be included in the “adjusted financial statement income” of such corporations for purposes of computing the corporate alternative minimum tax.

As a result of the foregoing, information contained in the Official Statement is hereby supplemented, revised and amended as follows:

1. The first paragraph on the cover page of the Official Statement is modified to read as follows (*new language is underscored*):

In the opinion of Nixon Peabody LLP, Chicago, Illinois and Hardwick Law Firm, LLC, Chicago, Illinois, Co-Bond Counsel, under existing law and assuming compliance with the tax covenants described herein, and the accuracy of certain representations and certifications made by the County described herein, interest on the Series 2022A Bonds is excluded from gross income for federal income tax purposes under Section 103 of the Internal Revenue Code of 1986, as amended (the “Code”). Co-Bond Counsel is also of the opinion that interest on the Series 2022A Bonds is not treated as a preference item in calculating the alternative minimum tax imposed under the Code. For taxable years beginning after December 31, 2022, interest on the Series 2022A Bonds will be taken into account in computing the alternative minimum tax imposed on certain corporations under the Code to the extent that such interest is included in the “adjusted financial statement income” of such corporations. Interest on the Series 2022B Bonds is not excluded from gross income for federal income tax purposes. Interest on the Bonds is not exempt from present Illinois income taxes. See “TAX MATTERS” herein regarding certain other tax considerations.

2. The language under the section titled “OVERVIEW – Tax Matters” of the Official Statement is modified to read as follows (*new language is underscored*):

In the opinion of Nixon Peabody LLP, Chicago, Illinois and Hardwick Law Firm, LLC, Chicago, Illinois, Co-Bond Counsel, under existing law and assuming compliance with the tax covenants described herein, and the accuracy of certain representations and certifications made by the County described herein, interest on the Series 2022A Bonds is excluded from gross income for federal income tax purposes under Section 103 of the Internal Revenue Code of 1986, as amended (the “Code”). For taxable years beginning after December 31, 2022, interest

on the Series 2022A Bonds will be taken into account in computing the alternative minimum tax imposed on certain corporations under the Code to the extent that such interest is included in the “adjusted financial statement income” of such corporations. Co-Bond Counsel is also of the opinion that interest on the Series 2022A Bonds is not treated as a preference item in calculating the alternative minimum tax imposed under the Code. Interest on the Series 2022B Bonds is not excluded from gross income for federal income tax purposes. Interest on the Bonds is not exempt from present Illinois income taxes. See “TAX MATTERS” herein regarding certain other tax considerations.

3. The second paragraph under the section titled “TAX MATTERS – Series 2022A Bonds – Federal Income Taxes” of the Official Statement is modified to read as follows (*new language is underscored*):

In the opinion of Nixon Peabody LLP and Hardwick Law Firm, LLC, Co-Bond Counsel, under existing law and assuming compliance with the aforementioned covenants, and the accuracy of certain representations and certifications made by the County described above, interest on the Series 2022A Bonds is excluded from gross income for federal income tax purposes under Section 103 of the Code. Co-Bond Counsel is also of the opinion that such interest is not treated as a preference item in calculating the alternative minimum tax imposed under the Code. For taxable years beginning after December 31, 2022, interest on the Series 2022A Bonds will be taken into account in computing the alternative minimum tax imposed on certain corporations under the Code to the extent that such interest is included in the “adjusted financial statement income” of such corporations.

4. The ninth paragraph of the form of Co-Bond Counsel opinion for the Series 2022A Bonds as set forth in “APPENDIX C – FORMS OF OPINIONS OF CO-BOND COUNSEL” attached to the Official Statement is modified to read as follows (*new language is underscored*):

Under existing law, and assuming compliance with the tax covenants described above and the accuracy of the aforementioned representations and certifications of the County, interest on the Series 2022A Bonds is excluded from gross income for federal income tax purposes under Section 103 of the Code. We are also of the opinion that such interest is not treated as a preference item in calculating the alternative minimum tax imposed under the Code. For taxable years beginning after December 31, 2022, interest on the Series 2022A Bonds will be taken into account in computing the alternative minimum tax imposed on certain corporations under the Code to the extent that such interest is included in the “adjusted financial statement income” of such corporations.

THE INFORMATION CONTAINED IN THIS SUPPLEMENT IS SUBJECT TO MORE COMPLETE INFORMATION CONTAINED IN THE OFFICIAL STATEMENT. THIS SUPPLEMENT IS TO BE READ ONLY IN CONJUNCTION WITH THE OFFICIAL STATEMENT. THIS SUPPLEMENT SHOULD NOT BE SEPARATED FROM THE OFFICIAL STATEMENT AND NEITHER THIS SUPPLEMENT, NOR THE OFFICIAL STATEMENT, MAY BE RELIED UPON IN ANY WAY INDEPENDENT OF EACH OTHER.

The date of this Supplement is **August 22, 2022.**

(See "RATINGS" herein)

In the opinion of Nixon Peabody LLP, Chicago, Illinois and Hardwick Law Firm, LLC, Chicago, Illinois, Co-Bond Counsel, under existing law and assuming compliance with the tax covenants described herein, and the accuracy of certain representations and certifications made by the County described herein, interest on the Series 2022A Bonds is excluded from gross income for federal income tax purposes under Section 103 of the Internal Revenue Code of 1986, as amended (the "Code"). Co-Bond Counsel is also of the opinion that interest on the Series 2022A Bonds is not treated as a preference item in calculating the alternative minimum tax imposed under the Code. Interest on the Series 2022B Bonds is not excluded from gross income for federal income tax purposes. Interest on the Bonds is not exempt from present Illinois income taxes. See "TAX MATTERS" herein regarding certain other tax considerations.

**\$277,705,000****THE COUNTY OF COOK, ILLINOIS****\$268,530,000 General Obligation Refunding Bonds, Series 2022A****\$9,175,000 Taxable General Obligation Refunding Bonds, Series 2022B****Dated: Date of Issuance****Due: See Inside Cover**

The General Obligation Refunding Bonds, Series 2022A (the "*Series 2022A Bonds*") and the Taxable General Obligation Refunding Bonds, Series 2022B (the "*Series 2022B Bonds*") and together with the Series 2022A Bonds, the "*Bonds*") are direct and general obligations of The County of Cook, Illinois (the "*County*"). The full faith and credit of the County is irrevocably pledged to the punctual payment of principal of and interest on the Bonds and the County is obligated under the Bond Ordinance (as defined herein) to levy annual ad valorem taxes on all taxable real property in the County in amounts sufficient to pay principal of and interest on the Bonds as those amounts come due. These taxes are to be extended for collection without limitation as to rate or amount. Collections of such taxes are to be deposited directly by the County Treasurer, acting *ex officio* as the County Collector, with Zions Bancorporation, National Association, as trustee (the "*Trustee*"), for the purpose of paying principal of and interest on the Bonds. The Bonds are being offered for sale in book-entry only form and will be registered in the name of Cede & Co., the nominee of The Depository Trust Company, New York, New York ("*DTC*"). DTC will act as securities depository for the Bonds.

The Bonds are being issued to (i) refund the County's outstanding General Obligation Refunding Bonds, Series 2012C maturing on or after November 2, 2023 and (ii) pay certain costs of issuance of the Bonds.

The Bonds are issuable in denominations of \$5,000 and any integral multiples thereof. Interest on the Bonds is payable on each May 15 and November 15, beginning November 15, 2022. The principal of the Bonds is payable at the principal office maintained for that purpose by the Trustee or its successor. Interest on the Bonds, together with the principal of the Bonds, will be paid by the Trustee directly to DTC so long as DTC or its nominee is the registered owner of the Bonds. The final disbursements of such payments to the Beneficial Owners (as defined in Appendix D hereto) will be the responsibility of the DTC participants or indirect participants. See "THE BONDS - Book-Entry Only System" for more information.

The Bonds are subject to optional redemption prior to maturity as described herein.

Maturities, Principal Amounts, Interest Rates, Yields, Prices and CUSIP Numbers are set forth on the inside cover page.

The Bonds are offered when, as and if issued and accepted by the Underwriters and subject to delivery of separate approving legal opinions by Nixon Peabody LLP, Chicago, Illinois and Hardwick Law Firm, LLC, Chicago, Illinois, Co-Bond Counsel. Certain legal matters will be passed upon for the Underwriters by Neal & Leroy, LLC, Chicago, Illinois, Underwriters' Counsel. Greenberg Traurig, LLP, Chicago, Illinois and Reyes Kurson, Ltd., Chicago, Illinois will serve as Co-Disclosure Counsel. Clark Hill PLC, Chicago, Illinois, will serve as Special Disclosure Counsel to the County with respect to pension disclosure matters. It is expected that the Bonds will be available for delivery through the facilities of DTC on or about August 25, 2022.

⁺ CUSIP data herein is provided by the CUSIP Global Services (“CGS”). CGS is managed on behalf of the American Bankers Association by FactSet Research Systems Inc. Neither the County, the Co-Financial Advisors nor the Underwriters (as defined herein) or their agents or counsel is responsible for the selection, use or accuracy of the CUSIP numbers nor is any representation made as to their correctness with respect to the Bonds as included herein or at any time in the future. The CUSIP number for a specific maturity is subject to being changed after the issuance of the Bonds as a result of various subsequent actions including, but not limited to, a refunding in whole or in part, or as a result of the procurement of secondary market portfolio insurance or other similar enhancement by investors that is applicable to all or a portion of certain maturities of the Bonds.

Certain information contained or incorporated by reference in this Official Statement has been obtained by the County from DTC and other sources that are deemed reliable. No representation or warranty is made, however, as to the accuracy or completeness of such information by the Underwriters or the County. Nothing contained or incorporated by reference in this Official Statement is or shall be relied on as a promise or representation by the Underwriters. This Official Statement is being used in connection with the sale of securities as referred to herein and may not be used, in whole or in part, for any other purpose. The delivery of this Official Statement at any time does not imply that information herein is correct as of any time subsequent to its date.

No dealer, broker, salesman or other person has been authorized to give any information or to make any representation other than as contained in this Official Statement. Any such other information or representations must not be relied upon as statements of the County or of the Underwriters. This Official Statement does not constitute an offer to sell or the solicitation of an offer to buy nor shall there be any sale of the Bonds by any person in any jurisdiction in which it is unlawful to make such an offer, solicitation or sale. The information set forth in this Official Statement is not guaranteed as to accuracy or completeness. Unless otherwise indicated, the County is the source of the tables and statistical and financial information contained in this Official Statement, except information relating to governmental bodies other than the County, which has been obtained from those governmental bodies or from other sources. The information and opinions expressed in this Official Statement are subject to change without notice. Neither the delivery of this Official Statement nor any sale of Bonds made under it shall, under any circumstances, create any implication that there has been no change in the financial condition or the operations of the County since the date of this Official Statement. The County is not making any representations regarding its financial condition beyond the date of the auditor's opinion nor, for interim financial information presented, beyond the date of this Official Statement.

This Official Statement speaks only as of its date, and the information contained herein is subject to change without notice. Certain statements contained in this Official Statement are projections, forecasts and other statements about future events. These statements ("*Forward-Looking Statements*") are not statements of historical facts and no assurance can be given that the results shown in these Forward-Looking Statements will be achieved. Any such Forward-Looking Statements inherently are subject to a variety of risks and uncertainties that could cause actual results or performance to differ materially from those that have been forecast, estimated or projected. Such risks and uncertainties include, among others, public health emergencies, such as the Coronavirus Disease 2019 pandemic, changes in social and economic conditions, federal, state and local statutory and regulatory initiatives, litigation, population changes, seismic events and various other events, conditions and circumstances, many of which are beyond the control of the County. See "INVESTMENT CONSIDERATIONS - Forward-Looking Statements" herein. All estimates set forth herein have been made on the best information available and are believed to be reliable, but no representations whatsoever are made that such estimates are correct. So far as any statements herein involve any matters of opinion, whether or not expressly so stated, they are intended merely as such and are not representations of fact.

This Official Statement should be considered in its entirety and no one factor considered less important than any other by reason of its position in this Official Statement. Where statutes, resolutions, reports or other documents are referred to in this Official Statement, reference is made to those items for more complete information.

THE BONDS HAVE NOT BEEN REGISTERED UNDER THE SECURITIES ACT OF 1933, AS AMENDED, NOR HAS THE BOND ORDINANCE BEEN QUALIFIED UNDER THE TRUST INDENTURE ACT OF 1939, AS AMENDED, IN RELIANCE UPON EXEMPTIONS CONTAINED IN SUCH ACTS. THE BONDS HAVE NOT BEEN RECOMMENDED BY ANY FEDERAL OR STATE SECURITIES COMMISSION OR REGULATORY AUTHORITY. FURTHERMORE, THE

FOREGOING AUTHORITIES HAVE NOT CONFIRMED THE ACCURACY OR DETERMINED THE ADEQUACY OF THIS DOCUMENT. ANY REPRESENTATION TO THE CONTRARY MAY BE A CRIMINAL OFFENSE.

In connection with this offering, the Underwriters may over allot or effect transactions which stabilize or maintain the market price of the Bonds at a level above that which might otherwise prevail in the open market. Such stabilizing transactions, if begun, may be ended or interrupted at any time without notice. The Underwriters may offer and sell the Bonds to certain dealers and dealer banks and banks acting as agents at prices lower or yields higher than the public offering prices or yields stated on the inside cover page hereof and said public offering prices and yields may be changed from time to time by the Underwriters without notice.

The Underwriters have reviewed the information in this Official Statement in accordance with, and as part of, their respective responsibilities to investors under the federal securities laws as applied to the facts and circumstances of this transaction, but the Underwriters do not guarantee the accuracy or completeness of such information.

OVERVIEW

This Overview does not purport to be complete and is presented solely for the convenience of the reader. This Overview is for informational purposes only and is subject to the more complete discussion contained in the Official Statement. Capitalized terms used in this Overview are defined herein or in the Official Statement.

Issuer With an estimated population of 5,173,146 as of July 1, 2021. The County of Cook, Illinois (the “*County*”) is the second largest county in the United States by population. The County performs three principal functions: the protection of persons and property, the provision of public health services and the provision of general government services including, among others, the assessment of property, the levy, collection and distribution of property taxes, and maintenance of certain highways. The County is a home rule unit of government under the 1970 Constitution of the State of Illinois (the “*Illinois Constitution*”), whose powers are exercised through the President, as Chief Executive Officer, and a 17-member Board of Commissioners (the “*County Board*”). The President of the County Board and the members of the County Board have the responsibility for administration of the financial affairs of the County.

For a more complete discussion of the County and its operations, see “COOK COUNTY,” “APPENDIX A - Annual Comprehensive Financial Report for the Year Ended November 30, 2021” and “APPENDIX E - Demographic and Economic Information.”

Authority The Bonds are being issued pursuant to the County’s home rule powers under the Illinois Constitution and an authorizing ordinance adopted by the County Board on July 28, 2022 as supplemented by a Bond Order, Notification of Sale and Direction to Levy Taxes (together the “*Bond Ordinance*”).

The Bonds \$268,530,000 General Obligation Refunding Bonds, Series 2022A (the “*Series 2022A Bonds*”) and \$9,175,000 Taxable General Obligation Refunding Bonds, Series 2022B (the “*Series 2022B Bonds*” and together with the Series 2022A Bonds, the “*Bonds*”)

Ratings The Bonds have been assigned the underlying ratings of “A2” (positive outlook) by Moody’s Investors Service (“*Moody’s*”), “A+” (stable outlook) by S&P Global Ratings (“*S&P*”), and “AA-” (stable outlook) by Fitch Ratings, Inc. (“*Fitch*”), respectively. See “RATINGS.”

Refunding Proceeds of the Bonds will be used to (i) refund the County’s outstanding General Obligation Refunding Bonds, Series 2012C maturing on or after November 1, 2023 and (ii) pay certain costs of issuance of the Bonds. See “REFUNDING.”

Security for the Bonds The full faith and credit of the County are irrevocably pledged to the punctual payment of the principal of and interest on the Bonds. The Bonds are direct and general obligations of the County, and the County is obligated and covenants and agrees in the Bond Ordinance to levy ad valorem taxes upon all the taxable property in the County for the payment of the Bonds and the interest thereon, without limitation as to rate or amount (the “*Pledged Taxes*”). An account for the Bonds will be established with the Trustee as the “General Obligation Refunding Bonds, Series 2022 Bond Fund” (the “*Bond Fund*”). All Pledged Taxes received by the County Treasurer, acting *ex officio* as the County Collector, shall be deposited daily, as far as practicable, with the Trustee and deposited

by the Trustee into the Bond Fund and applied to pay principal of and interest on the Bonds. Such amounts may not be withdrawn by the County after they have been deposited into the Bond Fund except as required to make payments on the Bonds, or for transfer to other Bond Funds of the County for debt service payments, and may not be used for other non-debt service payment purposes.

Interest or principal coming due at any time when there are insufficient funds on hand from the Pledged Taxes to pay the same will be paid promptly by the County when due from current funds on hand and when the Pledged Taxes have been collected, reimbursement will be made to said funds in the amount so advanced. See “SECURITY FOR THE BONDS.” For a discussion of the levy and extension procedures for the ad valorem taxes levied by the County for the payment of the Bonds, see “REAL PROPERTY ASSESSMENT, TAX LEVY AND COLLECTION PROCEDURES.” For a discussion of the establishment and operation of the Bond Fund, see “APPENDIX F - Summary of Certain Provisions of the Bond Ordinance - Bond Fund.”

The COVID-19 Pandemic	In March 2020, the novel coronavirus disease (“ <i>COVID-19</i> ”) was declared a global pandemic by the World Health Organization. During 2020 and 2021, stay-at-home orders, work-at-home requirements, mandated closures of offices and businesses, and other restrictions imposed to contain the pandemic caused an unprecedented disruption of local, state, national, and global economies. See “CERTAIN IMPACTS OF THE COVID-19 PANDEMIC ON THE COUNTY” and “INVESTMENT CONSIDERATIONS - The COVID-19 Pandemic” herein.
Interest Payment Dates	Interest on the Bonds will be payable on each May 15 and November 15, beginning November 15, 2022 until maturity. Interest is computed on the basis of a 360-day year consisting of twelve 30-day months at the rates set forth on the inside cover of the Official Statement.
Optional Redemption	The Bonds will be subject to optional redemption prior to maturity at the prices and manner and at the times set forth in this Official Statement. See “THE BONDS - Redemption.”
Trustee	Zions Bancorporation, National Association, will serve as Bond Registrar, Paying Agent and Trustee.
Book-Entry Form and Denominations	The Bonds will be issued in fully registered book-entry form in denominations of \$5,000 or any integral multiple thereof.
Investment Considerations	There are a number of factors associated with owning the Bonds that prospective investors should consider prior to investing in the Bonds. For a discussion of these factors, see “INVESTMENT CONSIDERATIONS.”
Tax Matters	In the opinion of Nixon Peabody LLP, Chicago, Illinois and Hardwick Law Firm, LLC, Chicago, Illinois, Co-Bond Counsel, under existing law and assuming compliance with the tax covenants described herein, and the accuracy of certain representations and certifications made by the County described herein, interest on the Series 2022A Bonds is excluded from gross income for federal income tax purposes under Section 103 of the Internal Revenue Code of 1986, as amended (the “ <i>Code</i> ”). Co-Bond Counsel is also of the opinion that interest on the Series 2022A Bonds is not treated as a preference item in

calculating the alternative minimum tax imposed under the Code. Interest on the Series 2022B Bonds is not excluded from gross income for federal income tax purposes. Interest on the Bonds is not exempt from present Illinois income taxes. See “TAX MATTERS” herein regarding certain other tax considerations.

- Delivery The Bonds are expected to be available for delivery through the facilities of DTC in New York, New York on or about August 25, 2022.
- Legal Matters Certain legal matters will be passed upon for the parties to the financing as set forth on the cover page to the Official Statement.
- Additional
Information Additional information may be obtained upon request to the County’s Acting Chief Financial Officer and County Comptroller, 118 North Clark Street, Room 1127, Chicago, Illinois 60602, telephone (312) 603-4458.

OFFICIAL STATEMENT

\$277,705,000

THE COUNTY OF COOK, ILLINOIS

\$268,530,000 General Obligation Refunding Bonds, Series 2022A

\$9,175,000 Taxable General Obligation Refunding Bonds, Series 2022B

INTRODUCTION

General

This Official Statement is furnished by The County of Cook, Illinois (the “*County*”), to provide information about its \$268,530,000 aggregate principal amount of General Obligation Refunding Bonds, Series 2022A (the “*Series 2022A Bonds*”) and its \$9,175,000 aggregate principal amount of Taxable General Obligation Bonds, Series 2022B (the “*Series 2022B Bonds*” and together with the Series 2022A Bonds, the “*Bonds*”). The Bonds are being issued pursuant to the County’s home rule powers under the 1970 Constitution of the State of Illinois (the “*Illinois Constitution*”) and an ordinance adopted by the Board of Commissioners of the County (the “*County Board*”) on July 28, 2022 as supplemented by a Bond Order and Notification of Sale and Direction to Levy Taxes (together, the “*Bond Ordinance*”).

The Bonds are direct and general obligations of the County. The full faith and credit of the County has been irrevocably pledged to the punctual payment of the principal of and interest on the Bonds and the County is obligated by the Bond Ordinance to levy, without limit as to rate or amount, ad valorem real property taxes in an amount that will be sufficient to provide for the payment of the principal of and interest on the Bonds as those amounts come due. These taxes are required to be extended for collection against all taxable real property within the County. Collections of the Pledged Taxes (as hereinafter defined) are to be deposited directly by the County Treasurer, acting *ex officio* as the County Collector, with Zions Bancorporation, National Association, as trustee (the “*Trustee*”) for the Bonds, for the purpose of paying principal of and interest on the Bonds. See “SECURITY FOR THE BONDS.”

The Bonds are being issued to (i) refund the County’s outstanding General Obligation Refunding Bonds, Series 2012C (the “*Series 2012C Bonds*”) and such Series 2012C maturing on or after November 1, 2023 Bonds being referred to herein as the “*Refunded 2012C Bonds*”) and (ii) pay certain costs of issuance of the Bonds, all as more particularly described herein. See “REFUNDING.”

Additional Information

Certain factors concerning the Bonds are described throughout this Official Statement, which should be read in its entirety. All references herein to laws, ordinances, resolutions, agreements and documents are qualified in their entirety by reference to the definitive forms thereof, and all references to the Bonds are further qualified by reference to the information with respect thereto contained in the Bond Ordinance.

All statements, information and statistics contained in this Official Statement are believed to be correct but are not guaranteed by the County, the Underwriters (as set forth on the cover page hereof), Co-Bond Counsel, Underwriters’ Counsel, Co-Disclosure Counsel, Special Disclosure Counsel, the Co-Financial Advisors (as defined under the heading “CO-FINANCIAL ADVISORS”) or the Trustee, and all expressions of opinion, whether or not expressly so stated, are intended merely as such and not as representations of fact. The information contained herein regarding The Depository Trust Company, New York, New York (“*DTC*”) and the global book-entry system (the “*Book-Entry Only System*”) was provided

by DTC and has not been verified by the County, the Underwriters, Co-Bond Counsel, Underwriters' Counsel, Co-Disclosure Counsel, Special Disclosure Counsel, the Co-Financial Advisors or the Trustee. The information and expressions of opinion contained herein are provided as of the date hereof, are subject to change without notice or amendment or update hereto, and neither the delivery of this Official Statement nor any sale made hereunder shall, under any circumstances, create any implication that there has been no change in the affairs of the County or in the information or opinions set forth herein, since the date of this Official Statement.

The projections set forth in this Official Statement were not prepared with a view toward complying with the guidelines established by the American Institute of Certified Public Accountants with respect to prospective financial information, but, in the view of the County's management, were prepared on a reasonable basis, reflect the best currently available estimates and judgments, and present, to the best of management's knowledge and belief, the expected course of action and the expected future financial performance of the County. However, this information is not fact and should not be relied upon as being necessarily indicative of future results, and readers of this Official Statement are cautioned not to place undue reliance on the prospective financial information. Neither the County's independent auditors, nor any other independent auditors, have compiled, examined, or performed any procedures with respect to the prospective financial information contained herein, nor have they expressed any opinion or any other form of assurance on such information or its achievability and disclaim any association with the prospective financial information. Neither the County's independent auditors, nor any other independent auditors, have been consulted in connection with the preparation of the prospective financial information set forth in this Official Statement, which is solely the product of the County, and the independent auditors assume no responsibility for its content.

Copies of statutes, ordinances, resolutions or other documents referred to in this Official Statement are available, upon request, from the County's Acting Chief Financial Officer (the "*Chief Financial Officer*") and County Comptroller, 118 North Clark Street, Room 1127, Chicago, Illinois 60602, telephone (312) 603-4458 or facsimile (312) 603-3681.

THE BONDS

General

The Bonds are dated their date of issuance (the "*Date of Issuance*") and bear interest at the rates per annum set forth on the inside cover page hereof and are issuable as fully registered Bonds. The Bonds will mature on November 15 of the years and in the principal amounts as set forth on the inside cover page hereof.

Interest on the Bonds is payable on each May 15 and November 15, beginning November 15, 2022. Each Bond will bear interest from the later of the Date of Issuance or the most recent interest payment date to which interest has been paid or duly provided for. Interest on the Bonds will be computed on the basis of a 360-day year consisting of twelve 30-day months.

The Bonds will initially be registered through the Book-Entry Only System operated by DTC. The Bonds will be issued in denominations of \$5,000 or integral multiples thereof. See "APPENDIX D - Book-Entry Only System."

Redemption

Optional Redemption. The Series 2022A Bonds maturing on November 15, 2033 are subject to optional redemption prior to maturity at the option of the County on or after November 15, 2032, at a redemption price of par plus accrued interest to the date fixed for redemption, in whole or in part, and if in part, in such principal amounts and from such maturities as determined by the County and within any maturity by lot.

The Series 2022B Bonds are subject to optional redemption prior to maturity at the option of the County on any business day at the Make-Whole Redemption Price, in whole or in part, and if in part, in such principal amounts and from such maturities as determined by the County and within any maturity by lot. The Chief Financial Officer shall confirm and transmit the Make-Whole Redemption Price on such dates and to such parties as shall be necessary to effectuate such make-whole redemption.

“*Make-Whole Redemption Price*” is equal to the greater of (i) 100% of the principal amount of the Series 2022B Bonds to be redeemed and (ii) the sum of the present values of the applicable remaining scheduled payments of principal and interest on the Series 2022B Bonds to be redeemed (exclusive of interest accrued to the date of redemption) discounted to said redemption date on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) at the Treasury Rate (as defined below) plus the applicable basis points for each maturity as set forth in the below table:

Maturity (November 15)	Basis Points
2022	5
2023	10
2024	10
2025	15
2029	20
2033	30

“*Treasury Rate*” means, with respect to any redemption date, the rate per annum equal to the semiannual equivalent yield to maturity or interpolated (on a day count basis) with respect to the Series 2022B Bonds of the Comparable Treasury Issue, computed no sooner than 5 business days immediately preceding such redemption date), assuming a price for the Comparable Treasury Issue (expressed as a percentage of its principal amount) equal to the Comparable Treasury Price for such redemption date.

“*Comparable Treasury Issue*” means the United States Treasury security or securities selected by a Designated Investment Banker as having an actual or interpolated maturity comparable to the remaining term of the Series 2022B Bonds to be redeemed that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of a comparable maturity to the remaining term of such Series 2022B Bonds.

“*Comparable Treasury Price*” means, with respect to any redemption date, the average of the Reference Treasury Dealer Quotations for such redemption date or, if the Designated Investment Banker obtains only one Reference Treasury Dealer Quotation, such Reference Treasury Dealer Quotation.

“*Designated Investment Banker*” means a Reference Treasury Dealer appointed by the County.

“*Reference Treasury Dealer*” means a primary United States government securities dealer.

“Reference Treasury Dealer Quotations” means, with respect to each Reference Treasury Dealer and any redemption date for the Series 2022B Bonds, the average, as determined by the Designated Investment Banker, of the bid and asked prices for the applicable Comparable Treasury Issue (expressed in each case as a percentage of its principal amount) quoted in writing to the Designated Investment Banker and communicated to the Trustee by such Reference Treasury Dealer at 3:30 p.m. Eastern time on the third business day preceding such redemption date).

Notice of Redemption. The County will, at least 30 days prior to any optional redemption date (unless a shorter time period shall be satisfactory to the Trustee), notify the Trustee of such redemption date and of the principal amount and maturity or maturities of Bonds to be redeemed.

During any period in which DTC or its nominee is the sole registered owner of the Series 2022A Bonds, if less than a particular maturity of the Series 2022A Bonds is to be redeemed, under current DTC procedures, the portions to be redeemed will be selected by lot such that such selection will be in principal amounts of \$5,000 and integral multiples thereof. See “THE BONDS Book Entry Only System” herein.

During any period in which DTC or its nominee is the sole registered owner of the Series 2022B Bonds, if less than a particular maturity of the Series 2022B Bonds is to be redeemed, under current DTC procedures, the portions to be redeemed will be allocated on a pro rata pass-through distribution of principal basis. However, if at the same time of said selection DTC operational arrangements do not allow for redemption on a pro rata pass-through distribution of principal basis, the Series 2022B Bonds will be selected for redemption by lot (or such other method pursuant to DTC procedure at said time) such that such selection will be in principal amounts of \$5,000 and integral multiples thereof.

Unless waived by the owner of Bonds to be redeemed, written notice of any optional redemption shall be given by the Trustee on behalf of the County not less than 15 days and not more than 60 days prior to the date fixed for redemption to each registered owner of the Bond or Bonds to be redeemed at the address shown on the bond register or at such other address as is furnished in writing by such registered owners to the Trustee.

All notices of redemption shall include at least the information as follows: (1) the redemption date; (2) the redemption price; (3) if less than all of the Bonds are to be redeemed, the identification (and, in the case of partial redemption, the respective principal amounts) of the Bonds to be redeemed; (4) a statement that on the redemption date the redemption price will become due and payable upon each such Bond or portion thereof called for redemption and that interest thereon shall cease to accrue from and after said date; and (5) the place where such Bonds are to be surrendered for payment of the redemption price, which place of payment shall be the principal corporate trust office of the Trustee.

On or prior to any redemption date, the County shall deposit with the Trustee an amount of money sufficient to pay the redemption price of all the Bonds or portions of Bonds which are to be redeemed on that date.

Notice of redemption having been given as aforesaid, the Bonds or portions of Bonds so to be redeemed shall, on the redemption date, become due and payable at the redemption price therein specified, and from and after such date (unless the County shall default in the payment of the redemption price) such Bonds or portions of Bonds shall cease to bear interest. Neither the failure to mail such redemption notice nor any defect in any notice so mailed to any particular registered owner of a Bond shall affect the sufficiency of such notice with respect to other registered owners. Notice having been properly given, failure of a registered owner of a Bond to receive such notice shall not be deemed to invalidate, limit or delay the effect of the notice or the redemption action described in the notice. Such notice may be waived in writing by a registered owner of a Bond, either before or after the event, and such waiver shall be the

equivalent of such notice. Waivers of notice shall be filed with the Trustee, but such filing shall not be a condition precedent to the validity of any action taken in reliance upon such waiver. Upon surrender of such Bonds for redemption in accordance with said notice, such Bonds shall be paid by the Trustee at the redemption price. Interest due on or prior to the redemption date shall be payable as herein provided for payment of interest. Upon surrender for any partial redemption of any Bond, there shall be prepared for the registered owner a new Bond or Bonds of the same maturity in the amount of the unpaid principal.

With respect to an optional redemption of Bonds, unless moneys sufficient to pay the redemption price of the Bonds to be redeemed shall have been received by the Trustee prior to the giving of the notice of such optional redemption, such notice may, at the option of the County, state that such optional redemption shall be conditional upon the receipt of such moneys by the Trustee on or prior to the date fixed for optional redemption. If such moneys are not received, such notice shall be of no force and effect, the Trustee shall not redeem such Bonds, and the Trustee shall give notice, in the same manner in which the notice of optional redemption was given, that such moneys were not so received and that such Bonds will not be optionally redeemed.

Book-Entry Only System

DTC will act as securities depository for the Bonds. The Bonds will be issued as fully-registered bonds registered in the name of Cede & Co. (DTC's partnership nominee). One fully-registered Bond certificate will be issued for each maturity of the Bonds in the aggregate principal amount of each such maturity of the Bonds, and will be deposited with DTC. The Bonds will initially be available for purchase only in book-entry only form in authorized denominations.

In reading this Official Statement it should be understood that, while the Bonds are in the Book-Entry Only System, references in other sections of this Official Statement to registered owners should be read to include the Beneficial Owner, but (a) all rights of ownership must be exercised through DTC and the Book-Entry Only System and (b) notices that are to be given to registered owners by the County or the Trustee will be given only to DTC will be governed by DTC procedures. Information about the Book-Entry Only System and DTC is set forth in APPENDIX D.

SECURITY FOR THE BONDS

The full faith and credit of the County are irrevocably pledged to the punctual payment of the principal of and interest on the Bonds. The Bonds are direct and general obligations of the County, and the Bond Ordinance provides for the levy of annual ad valorem taxes upon all the taxable property in the County in amounts sufficient to provide for the funds required to pay the principal of and interest on or redemption price of and interest on the Bonds promptly as the same become due, without limitation as to rate or amount (the "*Pledged Taxes*"). The County has pledged in the Bond Ordinance, as equal and ratable security for the Bonds, all present and future proceeds of the Pledged Taxes on deposit or to be deposited in the Bond Fund created under the Bond Ordinance (the "*Bond Fund*") for the sole benefit of the registered owners of the Bonds, subject to the right of the County to transfer certain interest income, investment profit earned and other amounts accumulated in the Bond Fund to other funds of the County. Further, whenever and only when other funds from any lawful source are made available for the purpose of paying any principal of and interest on or redemption price of the Bonds, so as to enable the abatement of the Pledged Taxes, the County will deposit such funds into the Bond Fund and will cause the Pledged Taxes to be abated by the amount so deposited.

All receipts of the Pledged Taxes received by the County Treasurer, acting *ex officio* as the County Collector, shall be deposited daily, as far as practicable, with the Trustee, along with all other moneys

appropriated or used by the County for the payment of the principal and interest on or redemption price of the Bonds. Interest or principal coming due at any time when there are insufficient funds on hand from the Pledged Taxes to pay the same shall be paid promptly when due from current funds on hand in advance of the collection of the Pledged Taxes; and when the Pledged Taxes shall have been collected, reimbursement shall be made to said funds in the amount so advanced.

In the Bond Ordinance, the County covenants and agrees with the purchasers and registered owners of the Bonds that so long as any of the Bonds remain outstanding, the County will take no action or fail to take any action which in any way would adversely affect the ability of the County to levy and collect the Pledged Taxes. The County and its officers have covenanted to comply with all present and future applicable laws in order to assure that the Pledged Taxes will be levied, extended and collected (unless properly abated as described above) as provided in the Bond Ordinance and deposited into the Bond Fund.

The Pledged Taxes and all other moneys deposited or to be deposited into the Bond Fund are pledged as security for the payment of the Bonds. The pledge is made pursuant to Section 13 of the Local Government Debt Reform Act of the State of Illinois, as supplemented and amended, to the fullest extent applicable and will be valid and binding upon the issuance of the Bonds. All Pledged Taxes and the moneys held in the Bond Fund are subject to the lien of such pledge without any physical delivery or further act and the lien of such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract or otherwise against the Country irrespective of whether such parties have notice thereof.

The Pledged Taxes and other moneys, securities and funds so pledged are required by the Bond Ordinance to be free and clear of any pledge, lien, charge or encumbrance thereon or with respect thereto prior to, or of equal rank with, the pledge created by the Bond Ordinance. The County is required at all times, to the extent permitted by law, to defend, preserve and protect the pledge of the Pledged Taxes and other moneys, securities and funds pledged under the Bond Ordinance and all the rights thereto of the holders of the Bonds under the Bond Ordinance against all claims and demands of all persons whomsoever.

In the event of a failure to pay the principal of and interest on the Bonds when due, or the occurrence of any other "Event of Default" under the Bond Ordinance, the Trustee may, and upon the written request of the registered owners of 25% in aggregate principal amount of Bonds affected by the Event of Default and then outstanding, shall enforce the rights of the holders of the Bonds. See "APPENDIX F - Summary of Certain Provisions of the Bond Ordinance - Events of Default" and "- Remedies Cumulative."

CERTAIN IMPACTS OF THE COVID-19 PANDEMIC ON THE COUNTY

General

In March 2020, the novel coronavirus disease ("*COVID-19*") was declared a global pandemic by the World Health Organization. During 2020 and 2021, stay-at-home orders, work-at-home requirements, mandated closures of offices and businesses, and other restrictions imposed to contain the pandemic caused an unprecedented disruption of local, state, national, and global economies. See "CERTAIN IMPACTS OF THE COVID-19 PANDEMIC ON THE COUNTY - Additional Discussion Regarding the Impact of the COVID-19 Pandemic and Limitation on Information" below and "INVESTMENT CONSIDERATIONS - The COVID-19 Pandemic" herein.

Additional Discussion Regarding the Impact of the COVID-19 Pandemic and Limitation on Information

The succeeding paragraphs in this section “CERTAIN IMPACTS OF THE COVID-19 PANDEMIC ON THE COUNTY” include Forward-Looking Statements which represent the County’s best estimates and current understanding of the economic effects of the COVID-19 pandemic. The County does not guarantee the accuracy of such Forward-Looking Statements which are subject to a variety of risks and uncertainties that could cause actual results or performance to differ materially from those that have been forecast, and are subject to change at any time based on the receipt of new information from global, national and state health authorities. Also see “INVESTMENT CONSIDERATIONS - Forward-Looking Statements” herein. Additionally, the following paragraphs include statements of interim financial information which are the County’s best estimates and have not been audited. The County does not plan to supplement this Official Statement based on changes to any information in this section. See also “INVESTMENT CONSIDERATIONS - The COVID-19 Pandemic” herein.

Additional information regarding the impact of the COVID-19 pandemic on the County is contained throughout this Official Statement. See “BUDGETARY PROCEDURES AND INFORMATION - Key Provisions in Fiscal Year 2022 Budget” herein. Due to the evolving nature of the COVID-19 pandemic and the responses of governments, businesses, and individuals to the COVID-19 pandemic, the County is unable to predict, among other things: (a) the scope, duration or extent of the COVID-19 pandemic or any other outbreak or pandemic on: (i) the existing restrictions and warnings or any additional restrictions and warnings which may be imposed by local, State or federal governments, nor the timing of the relaxation or release of such restrictions; and (ii) any additional short- or long-term effects the restrictions and warnings imposed by local, State or federal governments may have on the County’s operations, revenues or expenditures; (b) the scope, duration or extent of the COVID-19 pandemic or any other outbreak or pandemic on the local, State, national or global economy or the impact of such disruption on the County’s operations, revenues and expenditures; or (c) whether any of the foregoing may have a material adverse effect on the finances and operations of the County. In addition, there may be unknown consequences of the COVID-19 pandemic, which the County is unable to forecast.

Federal Aid Related to COVID-19

The CARES Act. The Coronavirus Aid, Relief, and Economic Security Act (the “*CARES Act*”), approved by the United States Congress and signed into law by the President of the United States on March 27, 2020, provided for, among other things, payments from the Coronavirus Relief Fund to states and local governments navigating the impact of the COVID-19 outbreak. The CARES Act required that the payments from the Coronavirus Relief Fund only be used to cover expenses that: (a) were necessary expenditures incurred due to the public health emergency with respect to COVID-19; (b) were not accounted for in the budget most recently approved as of March 27, 2020 (the date of enactment of the CARES Act) for the state or local government; and (c) were incurred during the period that began on March 1, 2020, and ended on December 31, 2021. The CARES Act explicitly prevented the use of such funds to offset losses in revenue.

Under the CARES Act, the County received \$428.6 million in funding (the “*CARES Act Funds*”). The following table presents a summary of the County’s allocation of the CARES Act Funds.

**County’s Allocation of the CARES Act Funds
(amounts in millions)**

	Allocation of CARES Act Funds
Direct Costs for COVID-19 related expenses within County government	\$300.5
COVID-19 related expenses incurred by local municipalities and other units of local government	50.8
Economic development and assistance programs within the County	69.2
Operational Initiatives aimed at providing a safe working environment for county employees	8.1
	\$428.6

Source: Cook County

American Rescue Plan Act of 2021. The American Rescue Plan Act of 2021 (“*ARPA*”), approved by the United States Congress and signed into law by the President on March 11, 2021, provided for, among other things, payments from the Coronavirus State and Local Fiscal Recovery Funds (“*SLFRF*”) program to states and local governments to support their response to and recovery from the impacts of COVID-19. The SLFRF funds can cover eligible costs incurred during the period beginning March 3, 2021, and ending on December 31, 2024. Further, obligated funds incurred by December 31, 2024 must be expended by December 31, 2026.

Under ARPA, the County received more than \$1.0 billion in SLFRF funds (the “*SLFRF Funds*”). The County received approximately 50% of the SLFRF Funds on May 9, 2021 and received the remaining 50% of the SLFRF Funds on June 9, 2022.

The County’s strategy for use of the SLFRF Funds, as set forth in the *Roadmap to Recovery: Cook County’s American Rescue Plan 2021 Performance Report* (the “*County’s American Rescue Plan*”), was modeled on the following six policy priorities in the *Cook County Policy Roadmap: Five-Year Strategic Plan for Offices Under the County President* released on November 14, 2018 (the “*Strategic Plan*”): (a) Healthy Communities, (b) Vital Communities, (c) Safe and Thriving Communities, (d) Sustainable Communities, (e) Smart Communities, and (f) Open Communities (collectively, the “*Policy Roadmap Priorities*”). SLFRF Funds are expected to be used for strategic investments in the Policy Roadmap Priorities and such investments are intended to address long-standing inequities among County residents that were deepened by the COVID-19 pandemic, encourage economic development, support public infrastructure, promote health and wellness, advance criminal justice goals, and work towards environmental sustainability. The County’s American Rescue Plan may be updated from time to time to reflect revisions to the uses of the SLFRF Funds, as approved by the County Board. For additional information regarding the County’s strategy for use of the SLFRF Funds and the Policy Roadmap Priorities, see the County’s American Rescue Plan and the Strategic Plan, which are available on the County’s website.

The following chart presents an overview of the County’s current expected allocation of the SLFRF Funds for Fiscal Year 2022.

Policy Roadmap Category		# of Initiatives	2022	Total Allocation*
Health Communities		20	\$57.6M	\$167.2M
Vital Communities		22	\$87.4M	\$280.0M
Safe & Thriving Communities		14	\$54.5M	\$158.0M
Sustainable Communities		9	\$44.1M	\$88.9M
Smart Communities		10	\$49.9M	\$110.6M

* Total Allocations are subject to the annual appropriation bill passed by the Cook County Board of Commissioners.

Funding for Open Communities has also been allocated for initiatives and internal operational capacity building, including for one-time costs for personnel and capital projects.

Source: Cook County

In Fiscal Year 2022, the County has allocated or expects to allocate a portion of the SLFRF Funds to each of the Policy Roadmap Priorities as follows:

(a) Healthy Communities. Approximately \$57.6 million for 20 initiatives to improve the physical, mental and social wellbeing of County residents and communities.

(b) Vital Communities. Approximately \$87.4 million for 22 initiatives to pursue inclusive economic and community growth by supporting County residents, growing businesses, attracting investment and nurturing talent.

(c) Safe and Thriving Communities. Approximately \$54.5 million for 14 initiatives to create safe communities and an equitable and fair justice system for all County residents.

(d) Sustainable Communities. Approximately \$44.1 million for 9 initiatives to support healthy, resilient communities that thrive economically, socially and environmentally.

(e) Smart Communities. Approximately \$49.9 million for 10 initiatives to provide an innovative infrastructure that will change how Cook County residents live, work and connect.

(f) Open Communities. Approximately \$100 million to enable the County to provide responsive, transparent services and develop a thriving, professional workforce that reflects the communities served. A portion has also been allocated for initiative and internal operational capacity building, including for one-time costs for personnel and capital projects.

Certain Financial Impacts of COVID-19 on the County

Related to Fiscal Year 2021. The COVID-19 pandemic had historic impacts on the County’s operations as well as the regional and national economy. The County continued to assess the potential impact of the COVID-19 pandemic, which includes the costs of its response, potential revenue loss, and the effect of available federal aid, on the County’s General Fund (as defined herein)*. Expenditures and encumbrances within the General Fund were \$38.54 million favorable to budget on a Non-GAAP budgetary basis as the County was able to leverage Federal funding from ARPA and FEMA to offset personnel and

* The General Fund is the primary operating fund of the County. See also “DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION - Fund Balances and Operations” for more information about the General Fund.

non-personnel expenses related to the provision of services aimed to mitigate the impact of COVID-19. In Fiscal Year 2021, total General Fund revenues were \$78.8 million favorable to budget on a Non-GAAP budgetary basis. Non-property taxes were favorable to budget as Sales Tax and Use Tax revenue experienced higher than anticipated results due to the impact of pent-up demand, inflationary pressures and the residual impact of stimulus payments on consumer spending. Additionally, General Fund fees experienced higher than anticipated results as higher than anticipated volume in late payments of property taxes were collected by the County Treasurer's office and the County Clerk's office saw increased revenues related to a strong housing market, which was bolstered by historically low mortgage rates. As a result, the County's net results were \$117.2 million favorable to budget on a Non-GAAP budgetary basis*.

Related to Fiscal Year 2022 Budget. The FY 2022 Budget (as defined herein) assumed that increasing demand resulting from over a year of economic and social restrictions, would continue to have a positive impact on retail-based non-property taxes, such as the County's Sales Taxes and Use Taxes. However, because the trajectory of COVID-19 and the timeline for reaching herd immunity through the administration of the vaccine were still uncertain, certain tourism-based taxes, such as the Hotel Accommodations Tax and Parking Lot and Garage Operations Tax, were forecasted to have only modest year-over-year increases.

The FY 2022 Budget assumed expenses for the Cook County General and Health Enterprise Funds would be \$5.87 billion, which is a \$585.9 million increase in total expenses over Fiscal Year 2021. This increase can be largely attributed to Cook County Health, which is expected to see a \$471.1 million revenue increase over the FY 2021 Budget, primarily driven by increases in CountyCare revenue of \$413.9 million, which is largely offset by a \$404.1 million increase in managed care claims. The financial impacts of COVID-19 have resulted in changes that have significantly increased membership in the County's managed care community network (commonly referred to as "*CountyCare*"). Individuals that find themselves unemployed are attracted to CountyCare's relatively inexpensive health insurance coverage. Additionally, administrative policies at the State, which has temporarily suspended automatic unenrollment in Medicaid, have allowed CountyCare and other managed care plans to retain a greater number of their members at a time when applications for Medicaid have been increasing. Within the General Fund, revenues are projected to increase by \$113.1 million or 6.0% due to easing of COVID-19 restrictions, leading to increases in Sales Tax revenues budgeted at \$968.3 million in Fiscal Year 2022, an increase of 12.4% over Fiscal Year 2021. Budgeted personnel expenses for Fiscal Year 2022 increased by \$104.5 million or 8.5% due to the addition of 388 vacant full-time equivalent positions.

See "BUDGETARY PROCEDURES AND INFORMATION - Fiscal Year 2022 Budget" herein for more information regarding the County's FY 2022 Budget. Additional information regarding the County's FY 2022 Budget can be found at <http://www.cookcountyil.gov/Budget> which is not intended to be, and should not be interpreted as being, incorporated herein by this reference. See "MISCELLANEOUS" herein.

REFUNDING

A portion of the proceeds of the Bonds will be used to refund all or a portion of the Series 2012C Bonds. The Refunded 2012C Bonds will be called for redemption on November 15, 2022 (the "*Redemption Date*") at a redemption price equal to 100% of par plus accrued interest. The Refunded 2012C Bonds are more fully described in the following table:

* FY 2021 Annual Comprehensive Financial Report of the County - Schedule of Revenue, Expenditures and Encumbrances Budget and Actual (Non-GAAP Budget Basis)

Refunded 2012C Bonds

CUSIP	Maturity (November 15)	Interest Rate	Principal Amount Refunded
213185GC9	2023	5.00%	\$18,100,000
213185GD7	2024	5.00%	77,705,000
213185GE5	2025	5.00%	80,915,000
213185GF2	2026	5.00%	4,935,000
213185GG0	2027	5.00%	4,945,000
213185GH8	2028	5.00%	4,955,000
213185GP0	2029	5.00%	55,365,000
213185GN5	2029	4.00%	25,000,000
213185GQ8	2033	5.00%	25,240,000
			<u>\$297,160,000</u>

SOURCES AND USES

The following table sets forth the estimated sources and uses of funds in connection with the issuance of the Bonds and the implementation of the Refunding:

	<u>Series 2022A</u>	<u>Series 2022B</u>	<u>Total</u>
SOURCES OF FUNDS			
Par Amount of the Bonds	\$268,530,000.00	\$9,175,000.00	\$277,705,000.00
Original Issue Premium	27,015,353.95	0.00	27,015,353.95
Total Sources of Funds	<u>\$295,545,353.95</u>	<u>\$9,175,000.00</u>	<u>\$304,720,353.95</u>
USES OF FUNDS			
Escrow Deposit	\$293,714,009.94	\$9,110,423.92	\$302,824,433.86
Costs of Issuance ⁽¹⁾	<u>1,831,344.01</u>	<u>64,576.08</u>	<u>1,895,920.09</u>
Total Uses of Funds	<u>\$295,545,353.95</u>	<u>\$9,175,000.00</u>	<u>\$304,720,353.95</u>

⁽¹⁾ Includes underwriters' discount and other costs related to the issuance of the Bonds.

COOK COUNTY

General Description

The County was created on January 15, 1831 by an act of the Illinois General Assembly (the "General Assembly") and became the 54th county established in the State. On May 7, 1831, the County elected its first officials. The population of the County was estimated at 5,173,146 as of July 1, 2021, making it the second most populous county in the United States.

Within the County, there are 131 municipalities, including the City of Chicago (the "City"), 29 townships, 220 special districts, and 164 school districts. The City and the suburban municipalities account for approximately 85% of the County's 946 square miles, while unincorporated areas make up the remaining 15%. The unincorporated areas of the County are under the jurisdiction of the County Board. The U.S. Census Bureau estimated the City's population to be 2,746,388 as of April 2020, approximately 51% of the County's estimated population as of such date. Approximately half of the Equalized Assessed Valuation ("EAV") of taxable property in the County is located in the City. As of the 2020 Census several

other municipalities located in the County had populations in excess of 55,000, including: Arlington Heights, Cicero, Des Plaines, Elgin (also partially located in Kane County, Illinois), Evanston, Mount Prospect, Oak Lawn, Orland Park, Palatine, Schaumburg, Skokie and Tinley Park. Based upon data published by the St Louis Federal Reserve Board, Cook County Gross Domestic Product (GDP) for all industries was \$407.4 billion in 2020 - comparable to the State of Maryland per Bureau of Economic Analysis (BEA) compiled data.

Under the Illinois Constitution, the County is a home rule unit of government and, except as limited by State law, may exercise any power and perform any function relating to its government and affairs, including the power to borrow money and levy taxes. There are no current statutory limitations on the power of the County to levy real property taxes or to issue general obligation bonds or notes; however, the Illinois Constitution contains a provision that limits the maturity of County debt payable from ad valorem property taxation to 40 years.

The County's powers are exercised through the 17-member County Board. The County Board is the County's legislative authority and is led by its President (the "*Board President*"). The Commissioners are elected from single member districts to four-year terms, while the Board President is elected by the voters of the entire County to a four-year term.

Based on the U.S. Bureau of Economic Analysis's data, the County's per capita personal income in 2020 was \$69,935 which is higher than that of the State which was \$62,930 and that of the United States which was \$59,510. Per the US. Bureau of Economic Analysis, the compound annual growth rate (CAGR) for per capita personal income in the County was 4.7% over the 2010 to 2020 period. The unemployment rate for the County for May 2022 was 4.6% according to the Bureau of Labor Statistics, same as the State's rate and above 3.6% for the national average for the same period. The County is home to 19 Fortune 500 company headquarters, and the Chicago metropolitan statistical area is home to 34 Fortune 500 company headquarters.

The County operates on a fiscal year basis ending each November 30.

Principal Functions of Cook County Government

The County presently performs three principal functions: the protection of persons and property; the provision of public health services; and general governmental services including, among others, the assessment of property, levy, collection and distribution of taxes to underlying jurisdictions, and maintenance of certain highways.

Protection of Persons and Property (Public Safety Fund). Protection of persons and property consists mainly of the operation of the Circuit Court of Cook County (the "*Circuit Court*"), prosecution of persons charged with criminal offenses, operation of the County Jail and operation of a Sheriff's police department. The Circuit Court is the second largest unified court system in the United States, and the County Jail is the largest single site jail facility in the country.

In recent years the County has made a reduction in the pre-trial detainee population at the Cook County Department of Corrections (the "*Department of Corrections*") one of its primary policy goals, which has the secondary benefit of reducing costs associated therewith. As of August 2022, the resident detainee population averaged approximately 5,566. The detainee population experienced a steady decline from September 2013, when the resident population averaged 10,139, to the present. This reduction was driven by a concerted effort on the part of the Board President to work with public safety stakeholders, and primarily resulted from an increased usage of electronic monitoring and self-recognizance along with implementation of a risk-assessment process in Bond Court at County facilities. The sustained population

reduction was the driving factor in the County's decision to close and demolish three divisions of the County Jail in Fiscal Year 2017. Division III and XVII were demolished in early Spring 2017. Division I was demolished in 2021 and a majority of Division IA has been demolished.

Cook County Health and Hospitals Systems (“CCHHS”) (formerly Cook County Bureau of Health Services) (Health Fund). The CCHHS operates a health care delivery system composed of the following elements: John H. Stroger, Jr. Hospital of Cook County (“*Stroger Hospital*”), Provident Hospital of Cook County (“*Provident Hospital*”), Oak Forest Health Center of Cook County, the Ambulatory and Community Health Network of Cook County, Cermak Health Services of Cook County (“*Cermak*”), the Ruth M. Rothstein CORE Center and the Cook County Department of Public Health (“*Department of Public Health*”).

The CCHHS is one of the largest hospital systems in the U.S. operated by a unit of local government and is the largest provider of medical care to the uninsured and underinsured within the State.

Stroger Hospital, which opened in December 2002 and replaced the old Cook County Hospital, is located in the Near Westside neighborhood of the City and is currently operating 450 beds. Stroger Hospital is the flagship of CCHHS and serves as the hub for CCHHS’ delivery of specialty and sub-specialty care, with over 40% of the space dedicated to a specialty care center. Stroger Hospital contains a neonatal intensive care unit and one of the oldest burn units in the nation The Level 1 Trauma Center, the busiest in Illinois, cares for nearly 120,000 patients annually.

Provident Hospital is a community teaching hospital located on the South side of Chicago. Currently staffed for 25 beds, Provident Hospital had approximately 748 admissions in Fiscal Year 2021. Provident Hospital’s emergency department approximately had more than 21,394 visits in Fiscal Year 2021.

In 2011, the Illinois Health Facilities and Review Board approved the County’s plan to convert Oak Forest Hospital of Cook County into an out-patient center to be known as Oak Forest Health Center of Cook County. The change means that this suburban County facility no longer admits patients for long-term care. Instead, the facility is now used as a regional health center offering out-patient services. The facility also provides access to non-emergency immediate care.

The Ambulatory and Community Health Network of Cook County operates 48 clinics throughout Chicago and suburban areas of the County. The network coordinates primary and specialty outpatient care in community and hospital outpatient settings. The network experienced 922,101 visits in Fiscal Year 2021, and approximately 346,000 were from uninsured patients.

Cermak, which serves approximately 5,700 detainees at the Department of Corrections, is the largest single-site correctional health service in the country. The facility provides a comprehensive range of services including primary care, specialty care, dental and mental health services, a pharmacy, rehabilitative care and a 129-bed infirmary.

The Ruth M. Rothstein CORE Center is an outpatient facility dedicated to the care of patients with HIV/AIDS and other infectious diseases. This facility is a collaboration with Rush University Medical Center.

The Department of Public Health is responsible for the public and environmental health protection of suburban areas of the County. In addition to its regulatory and protective functions, the department provides over 40,000 clinical visits (well-baby, communicable disease screenings, etc.) each year. The department is supported by federal and state grants in addition to County funding.

CCHHS (Health Fund) - Medicaid Developments. The County receives a Per Member Per Month (“PMPM”) reimbursement for each valid enrolled participant in the County’s managed care community network (commonly referred to as “CountyCare”), with the PMPM based on an estimate of associated costs to serve the population in the program. In Fiscal Year 2015, CountyCare expanded its populations served beyond Affordable Care Act adults to all Medicaid-covered populations, including Family Health Plan (“FHP”) individuals and Seniors and Persons with Disabilities. In FY 2018, CCHHS acquired the membership of two competing health plans, Family Health Network and Aetna Better Health, which increased CountyCare membership to over 300,000 members. In Fiscal Year 2022, CountyCare expects to have an average of 390,000 members.

No assurances can be made with regards to the actual patient population that will remain within the CountyCare managed care initiative, that the Affordable Care Act will not be repealed or significantly modified from its present form or that the federal Affordable Care Act will continue to be implemented as currently anticipated under the relevant federal and State laws.

Since 1991, the State and County have cooperated under several Intergovernmental Transfer Agreements (the “IGT Agreements”) that specify the County’s Medicaid reimbursement from the State and the County’s fund transfers to the State to finance a portion of the State Medicaid program. In 2000 and 2001, federal legislation was enacted and regulations were promulgated by the federal Centers for Medicare and Medicaid Services that had the prospective effect of restricting the State’s ability to make payments to the County consistent with then-existing IGT Agreements. The IGT Agreements were amended in 2005 to conform to the federal regulations and legislation. The IGT Agreements were further amended to implement, retroactive to July 1, 2008, the term of the Illinois Medicaid State Plan Amendment, approved by the State’s Central Management Services on December 4, 2008, as that amendment pertains to payments to the health care facilities of the CCHHS, as approved by the County Board on April 15, 2009.

The County annually provides an operating tax allocation to CCHHS to cover annual operating shortfalls and a separate indirect tax allocation consisting of debt service and pension payments. Decreased operating tax allocations in recent years have been driven by a reduction in uninsured patients under the Affordable Care Act. CountyCare increased membership to an average of 390,689 in 2021 resulting in a \$407.6 million cost increase related to managed care claims.

Administration of the County

The Board President, the County Board and the County Treasurer share responsibility for the administration of the financial affairs of the County. The Board President appoints, with the approval of the County Board, a Chief Financial Officer and the County Comptroller.

President of the County Board. President Toni Preckwinkle was re-elected Board President on November 6, 2018 to a third four-year term ending December 2022. Prior to serving as Board President, she served on the Chicago City Council as Alderman of the 4th Ward for 19 continuous years. Before her tenure in public office, she taught high school history for ten years, and completed her Master’s degree from The University of Chicago. During her service as 4th Ward Alderman, President Preckwinkle sought transparency and accountability in leadership, and through building a professional and responsive ward organization, she successfully advanced funding for education and affordable housing in her ward. Through collaboration, President Preckwinkle is working with the County Board, elected officials and County employees in order to reform and reshape County government into a world class institution founded on a common commitment to the core tenets of her administration: fiscal responsibility, innovative leadership, transparency, accountability and improved services.

The Board President is required to submit to the Committee on Finance of the County Board an Executive Budget recommendation (for each applicable fiscal year, an “*Executive Budget Recommendation*”) that provides the basis upon which the Annual Appropriation Bill is prepared and enacted.

County Board. The County Board is the legislative body for County government. The County Board consists of 17 Commissioners elected for four-year terms. The Commissioners are elected from single member districts. The present Commissioners, all of whose terms expire in December 2022, are as follows:

Frank J. Aguilar	Alma E. Anaya	Luis Arroyo Jr.
Scott R. Britton	John P. Daley	Dennis Deer
Bridget Degnen	Bridget Gainer	Brandon Johnson
Bill Lowry	Donna Miller	Stanley Moore
Kevin B. Morrison	Sean M. Morrison	Peter N. Silvestri
Deborah Sims	Larry Suffredin	

Chairman, Committee on Finance. John P. Daley is the Chairman of the Committee on Finance of the County Board, which consists of all the members of the County Board. Mr. Daley is a former Illinois State Senator, Illinois State Representative, and school teacher.

County Treasurer. Maria Pappas has served as County Treasurer since 1998 and was most recently re-elected to a four-year term on November 6, 2018. Prior to serving as County Treasurer, Ms. Pappas served as a County Commissioner for eight years. The County Treasurer is responsible for the receipt and custody of County funds, and, as *ex officio* County Collector, is responsible for the collection and distribution of property taxes.

Acting Chief Financial Officer. Lawrence Wilson was appointed by the Board President as Acting Chief Financial Officer and confirmed by the County Board on May 12, 2022. Mr. Wilson is also the County Comptroller and has held that position since July 31, 2013. See the succeeding paragraph for more information regarding Mr. Wilson’s experience. In June 2022, the prior Chief Financial Officer Ammar M. Rizki resigned to take a position in the not-for-profit sector. Mr. Rizki had served as Chief Financial Officer since October 2017 and Acting Chief Financial Officer since June 2017 and previously served as Deputy Chief Financial Officer starting in August 2013. The County is currently conducting a nationwide search for a permanent Chief Financial Officer.

County Comptroller. Lawrence Wilson was appointed County Comptroller by the Board President and approved by the County Board effective July 31, 2013. Mr. Wilson has over 30 years of diverse executive management experience, including Chief Executive Officer, Chief Financial Officer, Investment Banker, and Big-4 Public Accounting positions and over ten years of government experience. His governmental experience includes serving the Forest Preserve District (as defined herein) as Chief Financial Officer and Comptroller and serving the City of Chicago as Deputy Comptroller of Accounting and Deputy Commissioner of Finance in the Department of Planning and Development. Mr. Wilson has a B.S. from Southern Illinois University, an M.B.A. in Finance from Cornell University, and a Professional Accounting Program Certificate from Kellogg School of Management, Northwestern University. He is also a Certified Public Accountant.

Other Offices. In addition to the Board President and the County Treasurer, there are 11 additional governmental offices of the County. Nine of the offices have their own independently elected officials. Two have officials appointed by other officials. The independently elected officials are the Assessor, the three commissioners of the Board of Review, the Clerk of the Circuit Court, the County Clerk, the Recorder

of Deeds, the Sheriff and the State’s Attorney. The appointed officials are the Chairman of the Board of Election Commissioners, who is elected by and from the three commissioners who are appointed by the Circuit Court; and the Public Administrator, who is appointed by the Governor of Illinois. On November 8, 2016, County voters approved a binding referendum to eliminate the office of the Recorder of Deeds and transfer its functions to the office of the County Clerk by December 7, 2020 and this elimination and transfer has been completed.

Employees. The County budgeted for 23,538 full time equivalent employees in Fiscal Year 2022. Information relating to the budgeted number of employees for the past five years is set forth in the following table:

YEAR	NUMBER
2021	21,820
2020	22,074
2019	22,438
2018	22,171
2017	23,233
2016	23,439

Source: Cook County Annual Appropriation Bills.

The County has 63 Collective Bargaining Agreements with 15 different Bargaining Unions that represent over 15,000 employees or approximately 83% of the total County workforce. The collective bargaining agreements covering the 2017-2020 period, as approved by the County Board have expired at the end of 2020 and the County is in the process of negotiating successor agreements. The County is currently in negotiation on successor agreements, until which time the provisions in the expired agreements remain in effect.

The County Board has approved 47 of the 63 Collective Bargaining Agreements. This represents approximately 10,700 unionized employees (80%). The County has tentative agreements (awaiting signatures to go the County Board) with six (6) bargaining units, which represents approximately 3,100 employees. This brings the total numbers that have agreed to the pattern to 49 Collective Bargaining Agreements, representing approximately 13,800 employees (92%).

The Forest Preserve District of Cook County

While the Forest Preserve District of Cook County (the “*Forest Preserve District*”) is a separate governmental entity from the County, it is coterminous with the County and is governed by a board composed of the members of the County Board. The Board President serves as President of the Forest Preserve District. The Forest Preserve District establishes, maintains and operates more than 70,000 acres of forest preserves, making it the largest such district in the country. Within the forest preserves are numerous recreation facilities including 350 miles of trails, 10 golf courses and six nature centers. Brookfield Zoo and the Chicago Botanic Garden, operated by private, not-for-profit organizations, are located on property owned by the Forest Preserve District. The Forest Preserve District includes amounts in its property tax levy to pay a portion of costs of the operations of these two institutions.

Obligations of the Forest Preserve District are not obligations of the County. The cash of the Forest Preserve District is not commingled with the cash of the County. The Retirement Fund Board (defined in APPENDIX B) for the County also serves as the retirement board for the Forest Preserve District.

The financial operations of the Forest Preserve District are included in the County's Annual Comprehensive Financial Report as a component unit.

Payments from the State

Over recent fiscal years, a backlog of payments to the County from the State has developed. Principally, such backlogged payments relate to pass-through funds from the federal government and other reimbursements from the State and include: (1) Medicaid payments under the Affordable Care Act; (2) reimbursement for child support enforcement costs under certain grant agreements; (3) reimbursement for adult probation officers from the Administrative Offices of Illinois Courts; (4) rent for State agencies leasing space in County-owned buildings; and (5) certain other State grant payments. The following paragraphs include statements of interim financial information which are the County's best estimates and have not been audited. Through May 31, 2022, the State owes the County \$266.3 million.

The Fiscal Year 2022 Administrative Office of Illinois Court ("*AOIC*") reimbursement amount (such amount, the "*State AOIC Amount*") reflects funding to be received from the State for invoice vouchers billed through May 31, 2022, which is used to pay the salaries of probation officers and administrative staff working in adult, social service and juvenile probation. As of May 31, 2022, \$24.5 million of the \$266.3 million owed by the State to the County was the State AOIC Amount.

As of May 31, 2022, \$89.0 million of the \$266.3 million owed by the State to the County was past due capitation revenue from the State to the Health System in FHP and Integrated Care Program (ICP).

Continuing Capital Improvement Program

Due to the scope and nature of its activities and the need to maintain its current facilities, the County has and will continue to have various ongoing capital improvement projects, and capital equipment projects. For Fiscal Years 2021 through 2030, the County has a capital improvement program of capital improvement projects in the approximate amount of \$2.04 billion for County-wide physical plant, CCHHS and public safety improvements, certain of which have been financed with proceeds of earlier borrowings.

The 2022 Capital Improvement Program (which includes capital improvement projects), in the amount of approximately \$244.7 million, emphasizes the County's commitment to improving the residents' and visitors' experience as continuing priorities by facilitating projects to improve security, fire and life systems, and code compliance, and continuing to make strides to comply with the Americans with Disabilities Act. The County also is continuing initiatives to reduce energy and natural resource usage. In addition, the County anticipates approximately \$122.1 million in capital equipment projects in connection with the Fiscal Year 2022 Budget Recommendation. The County anticipates financing the 2022 Capital Improvement Program in large part with additional draws on its revolving lines of credit, after they are refunded, and proceeds of additional bonds of the County.

The Board President has established the Bureau of Asset Management, which creates the plan for the design, construction and renovation of building and building systems to make them safe, functional, efficient and cost effective to deliver County services to the public. The Bureau of Asset Management reviews all current and planned capital projects in conjunction with the Department of Budget and Management Services. Capital equipment projects are reviewed by the Department of Budget and Management Services, in partnership with the Bureau of Technology, the Office of the Chief Administrator, the Department of Capital Planning and Policy, and the Department of Facilities Management.

Population and Business Profile

As the most populous of 102 counties in the State, the County is the economic and cultural hub of the State, and is central to the third largest metropolitan area in the nation after Los Angeles and New York. The County represents approximately 41.2% of the State's population based on the April 2020 estimate of the U.S. Census Bureau.

The County is a diverse industrial center and a leading economic center of the Midwest. According to the U.S. Census Bureau data, the median household income in 2020 within the County was \$67,886 which is 0.80% lower than that of the State's \$68,428 and exceeds the national median household income which was \$64,994.

The County's industrial profile resembles that of the U.S., with a slightly larger services sector and somewhat smaller governmental presence. The County has a strong transportation network, with current expansion underway at both Chicago O'Hare International Airport and the Illinois Tollway. Leading service sector industries in the County include health care and related services. Nineteen Fortune 500 companies have their headquarters located in the County: Archer Daniels Midland, Kraft Heinz, McDonald's, United Airlines Holdings, Exelon, Conagra Brands, LKQ, R.R. Donnelley & Sons, Jones Lang LaSalle, Northern Trust, Old Republic International and Boeing, which are all located in Chicago and Allstate, US Foods Holdings, Illinois Tool Works, Anixter International, Motorola Solutions, Ingredion and Arthur J. Gallagher & Co., which are located in suburban Cook County.

The County has significantly increased its engagement with the business community since creating a County Bureau of Economic Development in 2011, by working directly with business organizations and owners, assisting municipalities throughout the County, actively working to identify potential sites for new business development and expansions, and implementing broad economic development programs. These efforts have provided assistance to more than 412 companies. See "APPENDIX E - Demographic and Economic Information" for further information regarding the economic and demographic profile of the County.

Reflecting the importance of regional growth to the long-term sustainability of the County's continued prosperity, the County has in recent years led efforts to collaborate across the region. Since late 2013, the County has led the seven major counties of Northeastern Illinois and the City in focusing initiatives in support of: key industrial clusters (metals and food specifically), streamlining the transit of goods across the region, promoting greater export activity by small and medium businesses, and leading efforts to develop a Foreign Direct Investment plan for the region through The Brookings Institution's "Global Cities Initiative". As an example of these efforts, the County has helped create Metro Chicago Exports ("MCE"). Thus far MCE has worked with over 125 enterprises to understand the importance of growing their businesses through exports.

Capitalizing on the area's central location and extensive transportation network, the region has focused on tourism as one of several growth areas for the local economy.

County Sales Tax

In 2011, the County Board passed an ordinance amendment to the Cook County Home Rule County Retail Occupation Tax Ordinance and the Cook County Home Rule Service Occupation Tax Ordinance (together, the "*Home Rule Sales Taxes*") to roll back the Home Rule Sales Taxes from 1.25 percent to 0.75 percent over two different dates, following an earlier 0.5 percent reduction in 2010. The rate was reduced by 0.25 percent on January 1, 2012, and 0.25 percent on January 1, 2013. The County made key reductions in operating appropriations from 2011 to 2015 to compensate for the reduction in revenue, in

addition to securing additional funding for the CCHHS via federal reimbursement under the Affordable Care Act.

However, by 2015 the County’s legacy costs associated with legacy bonded indebtedness and the unfunded liabilities at the Cook County Employees’ and Officers’ Annuity and Benefit Fund of Cook County (the “*Retirement Fund*”) continued to grow at an accelerated rate. As of December 31, 2021, the Retirement Fund’s actuarially projected shortfalls associated with the pension liability were determined to exceed \$6 billion, which if unaddressed were projected to render the Retirement Fund insolvent by 2054, under the current statutory finance and benefit framework. In addition, the County’s highway and transportation infrastructure also require funding to ensure unmet needs are addressed.

In connection with the foregoing, on July 15, 2015, the County Board passed an ordinance amendment to the Home Rule Sales Taxes that increased them from 0.75 percent to 1.75 percent. The change became effective on January 1, 2016, with the first revenue received in April, 2016. Pursuant to an accompanying resolution, the County Board expressed its intention that proceeds of the new tax are to be specifically allocated to address the County’s and the Retirement Fund’s legacy liability costs and critical infrastructure funding needs. The County’s commitment expressed in such resolution was a non-binding expression of intent only, and no assurance can be given that the additional revenues generated by this tax increase will be sufficient for the purpose expressed in such resolution, or that the County Board will not determine that other budget priorities will take precedence.

The County has received \$4,719,441,325 in revenues from Home Rule Sales Taxes from fiscal years 2016 - 2021.

In 2019, the State of Illinois enacted Public Act 101-0031, which allows the County to apply its 1.75 percent Home Rules Sales Taxes to online sales made within the County. Beginning on January 1, 2021, retailers were required to start collecting both state and local taxes based on the address of delivery for online sales.

While no reductions in the rate of the Home Rule Sales Taxes are contemplated at this time there can be no assurance given that rate of the Home Rule Sales Taxes will not change again in the future. The County sales tax collections in each of the last 12 years can be found in “DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION.” The following table shows how the County’s Home Rule Sales Tax Rates have changed over the past eleven years:

Home Rule Sales Taxes Rates (2010-Present)

Fiscal Year Ended 11/30	Home Rule Sales Taxes Rate	Effective Date
2021	1.75%	
2020	1.75%	
2019	1.75%	
2018	1.75%	
2017	1.75%	
2016	1.75%	1/1/2016
2015	0.75%	
2014	0.75%	
2013	0.75%	1/1/2013
2012	1.00%	1/1/2012
2011	1.25%	
2010	1.75%	7/1/2010

Home Rule Sales Tax Base

The County's Home Rule Sales Taxes tax base is diverse, drawing from many retail sectors. The table below illustrates the various sectors that comprise the tax base and their relative share of the total annual receipts in calendar year 2021.

Sales Tax Mix by Sector

Sector	Percent of Total⁽¹⁾
Drugs and Miscellaneous Retail ⁽²⁾	23.3%
Drinking and Eating Places	20.3%
Agricultural and All Others	10.4%
Automotive & Filling Stations	8.7%
General Merchandise	8.1%
Food	7.4%
Apparel	6.6%
Lumber, Building, Hardware	6.5%
Furniture, household and radio	6.0%
Manufacturers	2.8%

COUNTY EMPLOYEES' AND OFFICERS' ANNUITY AND BENEFIT FUND

The County Employees' and Officers' Annuity and Benefit Fund of Cook County (the "*Retirement Fund*") was established by the State and is administered and financed under the Illinois Pension Code (the "*Pension Code*") as an independent and separate body politic and corporate, for the benefit of eligible Cook County employees and their beneficiaries. According to the reports prepared by the *Actuary* (Cavanaugh Macdonald Consulting, LLC) engaged by the Retirement Fund, as of December 31, 2021, the Retirement Fund had a total membership of 55,489, consisting of 18,320 active members, 16,945 retired members and surviving annuitants receiving benefits, and 17,313 inactive members. The benefits provided by the Retirement Fund have historically been financed through receipts from a County property tax levy; receipts from sums disbursed to the County from the State Personal Property Tax Replacement Fund; contributions made by active County employees; investment income generated by the Retirement Fund's assets; and, since 2016, receipts from Cook County sales taxes.

According to the 2021 Actuarial Valuation Report (as defined in APPENDIX B), the value of the Retirement Fund's assets on a fair value basis was approximately \$14.3 billion; the Actuarial Value of Assets (as defined in APPENDIX B) was approximately \$12.8 billion; and the Actuarial Accrued Liability (as defined in APPENDIX B) was approximately \$19.1 billion based on the actuarial process and standards discussed in APPENDIX B. The Unfunded Actuarial Accrued Liability (as defined in APPENDIX B) of the Retirement Fund as of December 31, 2021, determined on an actuarial basis, was approximately \$6.27 billion, resulting in a Funded Ratio (as defined in APPENDIX B) of 67.16% (compared to 63.87% in 2020). The foregoing results include, in addition to pensions, optional retiree healthcare benefits (in the form of a partial subsidy for the retirees' healthcare insurance premiums) that the Retirement Fund Board (as defined in APPENDIX B) pays from the Retirement Fund. No assets of the Retirement Fund are allocated to optional retiree healthcare benefits. According to the 2021 Actuarial Valuation Report, under the current statutory structure and based on certain assumptions and historical trends as of December 31, 2021, the Retirement Fund will become insolvent in 2054. The projections were prepared by the Actuary based on a variety of assumptions that may not necessarily be realized. These assumptions are based on the results of an Experience Study done by the Actuary for the years from January 1, 2017 through December 31, 2020. The County is not making any representation as to the validity and accuracy of these actuarial projections. Additional and more detailed information regarding the Retirement Fund's structure, operation, funding levels and actuarial projections is set forth in APPENDIX B.

Despite the statutory limit on the County's contributions and as part of its efforts to promote the long-term fiscal viability of the Retirement Fund, the County has entered into Intergovernmental Agreements (as defined under "Determination of County's Contribution," "Intergovernmental Agreements between the County and Retirement Fund" in APPENDIX B) with the Retirement Fund Board (as defined in APPENDIX B) for County Fiscal Years 2016-2021, under which the County made total supplemental contributions to the Retirement Fund of \$339,961,760 in 2021, \$309,214,508 in 2020, \$320,296,720 in 2019, \$378,436,000 in 2018, \$353,800,000 in 2017 and \$270,526,000 in 2016*. On December 27, 2021, the County entered into a one-year Intergovernmental Agreement with the Retirement Fund, under which, in Fiscal Year 2022, the County committed to making supplemental contributions to the Retirement Fund in the sum of \$324,200,000 which the County would begin as of December 2021.

Under the terms of the Intergovernmental Agreements, the supplemental contributions are and were subject to relevant law and any order entered by a court regarding this matter. As of the date of this Official Statement, no party has challenged the validity of the Intergovernmental Agreements or the related disbursement of additional contributions to the Retirement Fund. No assurances can be given that the

* Payments reflects Retirement Fund Fiscal year.

County will enter into similar agreements in the future, or that the County has or will have the authority or ability to enter into similar agreements in the future or that the Intergovernmental Agreements or any future agreements and the funds disbursed by the County to the Retirement Fund would survive legal challenges as to their validity under Illinois statutes. Any future intergovernmental agreements with the Retirement Fund, and the moneys committed thereunder, will be subject to annual County appropriation.

Under the current Internal Revenue Code and Treasury Regulations,^[2] neither the County nor its employees are required to, nor do they, contribute to the Social Security system, so long as County employees participate in a qualified public retirement system (such as the Retirement Fund under its current structure). No assurances can be made that the County and its employees will, in the future, continue to be exempt from a requirement that they contribute to the Social Security system

OTHER LOCAL GOVERNMENTAL UNITS

There are more than 700 governmental units (the “Units”) located in whole or in part within the boundaries of the County, each of which (i) is separately incorporated and derives its power and authority under laws of the State, (ii) has an independent tax levy or revenue source and (iii) maintains its own financial records and accounts. Most of such Units are authorized to issue debt obligations. Although the taxing units share tax bases to some extent, they are separate entities with separate financial circumstances.

In tax year 2020 (collected in calendar year 2021), approximately 51% of the EAV of taxable property in the County is located within the City. The remainder is located in other municipalities and unincorporated areas.

Other major governments within the County include the City, the Forest Preserve District, the Metropolitan Water Reclamation District of Greater Chicago, the Chicago Park District, the Board of Education of the City of Chicago (the “*Chicago Board of Education*”) and Community College District Number 508 (“*City Colleges of Chicago*”) and various cities, villages, and school districts. The financial impact of certain of these units of government is further described in the tables captioned “TAXATION OF REAL PROPERTY - STATISTICAL INFORMATION - Tax Rates Extended by City-Wide Local Governmental Units for Real Property in the City of Chicago” and “DEBT INFORMATION - Direct and Overlapping Debt.”

A variety of special purpose entities have been created under State law to facilitate the operations and financing of municipal, park, educational, transportation, health, sports, convention and port facilities, highways, housing, industrial development and other activities, none of which are authorized to impose real property taxes. These include (1) the Public Building Commission of Chicago, which issues bonds to finance the acquisition, construction and improvement of public buildings and leases its facilities to certain governmental units; (2) the Regional Transportation Authority, which provides planning, funding, coordination and fiscal oversight of public mass transportation services in a six-county area of northeastern Illinois, including the County (the RTA Act provides for three service boards: Chicago Transit Authority (“CTA”), commuter rail division and the suburban bus division); (3) the CTA, which owns, operates and maintains a transportation system (including both rail and bus transport) in the metropolitan area of the County and receives an annual \$2,000,000 contribution from the County which is required by State law; (4) the Metropolitan Pier and Exposition Authority, which owns and operates the McCormick Place convention, exposition and related hotel facilities; and (5) the Illinois Sports Facilities Authority, which has issued revenue bonds to provide funds for the construction of Guaranteed Rate Field (formerly known as

^[2] 26 U.S.C. § 3121(b)(7)(F); 26 C.F.R. §31.3121(b)(7)(1).

U.S. Cellular Field and the New Comiskey Park) and the reconstruction of Soldier Field and the provision of lakefront improvements.

REAL PROPERTY ASSESSMENT, TAX LEVY AND COLLECTION PROCEDURES

Information under this caption describes the procedures in effect as of the date of this Official Statement for real property assessment, tax levy and tax collection in the County. There can be no assurance that the procedures described herein will not be changed. Illinois laws relating to real property taxation are contained in the Illinois Property Tax Code (30 ILCS 200) (the "*Property Tax Code*").

Assessment

The County Assessor, who is elected by the voters of the County, is responsible for the assessment of all taxable real property within the County, except for certain types of property (e.g. certain railroad property, low sulfur dioxide emission coal fueled devices, pollution control equipment and water treatment facilities which are assessed directly by the State). Approximately one third of the real property in the County is reassessed each year on a repeating triennial schedule established by the County Assessor statute. The City is currently being reassessed in 2022. The suburbs in the northern and northwestern portions of the County were last reassessed in 2019. The suburbs in the southwestern and southern portions of the County were last assessed in 2020.

Real property in the County is separated into classifications for assessment purposes. After the County Assessor establishes the fair market value of a parcel of property, that value is multiplied by the appropriate classification percentages to arrive at the assessed valuation (the "*Assessed Valuation*") for the parcel. The current classification percentages range from 10 to 25 percent depending on the type of property (e.g., residential, industrial, commercial) and whether it qualified for certain incentive classification wherein a property would be assessed at a reduced percentage, not lower than 10 percent.

The County Board has adopted various amendments to the County's Real Property Assessment Classification Ordinance (Section 74-60 of the County Code) (the "*Classification Ordinance*"), pursuant to which the Assessed Valuation of real property is established. Among other things, these amendments have reduced certain property classification percentages, lengthened certain renewal periods of classifications and created new property classifications.

Procedures have been established enabling taxpayers to contest their tentative Assessed Valuations. Once the County Assessor certifies the Assessed Valuations, a taxpayer can seek review of the assessment by the County Assessor, and by the Cook County Board of Review (the "*Board of Review*") consisting of three commissioners elected by the voters of the County. The Board of Review has powers to review and adjust Assessed Valuations set by the County Assessor.

Property taxpayers can appeal decisions of the Board of Review to the Illinois Property Tax Appeal Board ("*PTAB*"), a Statewide administrative body. The PTAB has the power to determine the Assessed Valuation of real property based on equity and the weight of the evidence. Depending on the amount of the proposed change in Assessed Valuation, taxpayers may appeal decisions of PTAB to either the Circuit Court of Cook County or the Illinois Appellate Court under the Illinois Administrative Review Law (735 ILCS 5/3).

In a series of PTAB decisions, PTAB reduced the Assessed Valuations of certain commercial and industrial property in the County based upon the application of median levels of assessment derived from

Illinois Department of Revenue sales ratio studies instead of utilizing the assessment percentages provided in the Classification Ordinance. On appeal, the Illinois Appellate Court determined that it was improper for PTAB, on its own initiative, to use the sales ratio studies when such studies were not even raised as an issue by the taxpayer before the Board of Review or in its appeal to PTAB.

The Appellate Court decisions do not preclude a taxpayer in a properly presented case from introducing into evidence sales ratio studies for the purpose of obtaining an assessment below that which would result from application of the Classification Ordinance. No prediction can be made whether any currently pending or future case would be successful. The County believes that the impact of any such case on the County would be minimal, as the County's ability to levy or collect real property taxes would be unaffected.

As an alternative to seeking review of Assessed Valuations by PTAB, taxpayers who have first exhausted their remedies before the Board of Review may file an objection in the Circuit Court of Cook County. In addition, subject to certain time limits, in cases where the County Assessor agrees that an assessment error has been made after the assessment process is completed, the County Assessor can correct the Assessed Value, and thus reduce the amount of taxes due, by issuing a certificate of error. In any of these three remedies (PTAB, Circuit Court or Certificates of Error), if a decision is issued reducing a property's values, corresponding property taxes are refunded from current collections for districts associated with those properties.

All reviews of assessments, whether before the Board of Review, PTAB or the courts, are decided on a case by case basis.

Equalization

After the Assessed Valuation for each parcel of real estate in a county has been determined for a given year (including any revisions made by the Board of Review), the Illinois Department of Revenue reviews the assessments and determines an equalization factor (the "*Equalization Factor*"), commonly called the "*multiplier*," for each county. The purpose of equalization is to bring the aggregate assessed value of all real estate in each county, except farmland and undeveloped coal, to the statutory requirement of 33-1/3 percent of estimated fair cash value. Adjustments in Assessed Valuation made by PTAB or the courts are not reflected in the Equalization Factor. The Assessed Valuation of each parcel of real estate in the County is multiplied by the County's Equalization Factor to determine the parcel's EAV.

The EAV for each parcel is the final property valuation used for determination of tax liability. The aggregate EAV for all parcels in any taxing body's jurisdiction, after reduction for all applicable exemptions, plus the valuation of property assessed directly by the State, constitutes the total real estate tax base for the taxing body and is the amount used to calculate tax rates (the "*Assessment Base*").

The following table sets forth the Equalization Factors for tax levy years 2010 through 2020:

Tax Year	Equalization Factor
2020	3.2234
2019	2.9160
2018	2.9109
2017	2.9627
2016	2.8032
2015	2.6685
2014	2.7253
2013	2.6621
2012	2.8056
2011	2.9706
2010	3.3000

Tax bills in Cook County are based on the Assessment Base for the preceding year. Property taxes billed in 2021 (for the 2020 tax year) were based on the 2020 EAV.

Exemptions

The Property Tax Code fully or partially exempts certain property from taxation. Certain property is fully exempt from taxation on the basis of ownership and/or use (e.g. public parks, not for profit schools, public schools, municipally and state owned property, churches, not for profit hospitals and public hospitals). In addition, the Property Tax Code provides a variety of partial homestead exemptions, some of which are discussed below.

The General Homestead Exemption provides that the EAV of certain property owned and used for residential purposes may be reduced by the amount of any increase over the 1977 EAV, up to a maximum reduction of \$7,000 in the County for assessment years 2012 through 2016. Beginning in assessment year 2017, in the County, the maximum reduction is \$10,000.

The Long Time Occupant Homestead Exemption limits the increase in EAV of a taxpayer's homestead property to 10% per year if such taxpayer has owned the property for at least 10 years as of January 1 of the assessment year (or 5 years if purchased with certain government assistance) and has a household income of \$100,000 or less ("*Qualified Homestead Property*"). If the taxpayer's annual income is \$75,000 or less, the EAV of the Qualified Homestead Property may increase by no more than 7% per year. There is no exemption limit for Qualified Homestead Properties. Properties cannot receive this exemption and the General Homestead Exemption or Senior Citizens Assessment Freeze Homestead Exemption.

The Homestead Improvement Exemption applies to residential properties that have been improved and to properties that have been rebuilt in the two years following a catastrophic event, as defined in the Property Tax Code. The exemption is limited to \$75,000 per year, to the extent the Assessed Valuation is attributable solely to such improvements or rebuilding.

The Senior Citizens Homestead Exemption annually reduces the EAV on residences owned and occupied by persons who are 65 or older. The maximum exemption is \$5,000. Beginning in tax year 2017, in the County, the maximum exemption is \$8,000. For taxable years 2019 through 2023, a County taxpayer who has been granted a Senior Citizens Homestead Exemption need not reapply.

The Senior Citizens Assessment Freeze Homestead Exemption freezes property tax assessments for homeowners who are 65 and older, reside in their property as their principal place of residence and receive a household income not in excess of \$65,000. This exemption grants to qualifying homeowners an exemption equal to the greater of (i) the difference between (a) the current EAV of the residence and (b) the EAV of a senior citizen's residence for the year prior to the year in which he or she first qualifies and applies for the exemption, plus the EAV of improvements since such year or (ii) \$2,000.

The Natural Disaster Homestead Exemption applies to homestead properties containing a residential structure that has been rebuilt following a natural disaster occurring in taxable year 2012 or any taxable year thereafter. A natural disaster is an occurrence of widespread or severe damage or loss of property resulting from any catastrophic cause including but not limited to fire, flood, earthquake, wind, or storm. The Natural Disaster Homestead Exemption is equal to the EAV of the residence in the first taxable year for which the taxpayer applies for the exemption minus the EAV of the immediately prior taxable year. To be eligible for the Natural Disaster Homestead Exemption, the residential structure must be rebuilt within two years after the date of the natural disaster, and the square footage of the rebuilt residential structure may not be more than 110% of the square footage of the original residential structure as it existed immediately prior to the natural disaster. The Natural Disaster Homestead Exemption remains at a constant amount until the taxable year in which the property is sold or transferred.

The Veterans with Disabilities Exemption for Specially-Adapted Housing exempts properties with Assessed Valuation of up to \$100,000 owned and used exclusively by veterans, their spouses or unmarried surviving spouses. Qualification for this exemption requires the veteran's disability to be of such a nature that the federal government has authorized payment for purchase of specially adapted housing under the U.S. Code as certified to annually by the Illinois Department of Veterans Affairs. This exemption cannot be claimed by those claiming the Homestead Exemption for Persons with Disabilities or the Standard Homestead Exemption for Veterans with Disabilities.

The Standard Homestead Exemption for the Veterans with Disabilities provides annual homestead exemptions for properties with an EAV less than \$250,000 and not used for commercial purposes of (i) \$2,500 to veterans with a service connected disability of 30% or more but less than 50%, (ii) \$5,000 to veterans with a service connected disability of 50% or more but less than 70%, and (iii) the entire property value to veterans with a service connected disability of 70% or more. All service connected disabilities must be certified by the United States Department of Veterans Affairs.

The Returning Veterans' Homestead Exemption is available for property owned and occupied as the principal residence of a veteran in the assessment year, or the year following the assessment year, in which the veteran returns from an armed conflict while on active duty in the United States armed forces. This provision grants a one-time homestead exemption of \$5,000.

The Homestead Exemption for Persons with Disabilities provides an annual homestead exemption in the amount of \$2,000 for property that is owned and occupied by certain persons with disabilities who meet State mandated guidelines. This exemption cannot be claimed by those claiming the Veterans with Disabilities Exemption for Specially-Adapted Housing or the Standard Homestead Exemption for Veterans with Disabilities.

Tax Levy

In addition to the County, the other Units having taxing power over real property within the County include the City, the Forest Preserve District, the Metropolitan Water Reclamation District of Greater Chicago, the Chicago Park District, the Chicago Board of Education, City Colleges of Chicago, and various cities, villages, school districts, and other smaller units of local government located in the County.

As part of the annual budgetary process of the Units, proceedings are adopted by the governing body for each Unit for each year in which it determines to levy real estate taxes. Such proceedings levy the Units' respective real estate taxes in terms of a dollar amount. Each Unit certifies its real estate tax levy, as established by the proceedings, to the County Clerk's Office. The remaining administration and collection of the real estate taxes is statutorily assigned to the County Clerk and the County Treasurer, who is ex officio the County Collector.

After the Units file their annual tax levies, the County Clerk computes the annual tax rate for each Unit by dividing the levy of each Unit by the Assessment Base of the respective Unit. If any tax rate thus calculated or any component of such a tax rate (such as a levy for a particular fund) exceeds any applicable statutory rate limit, the County Clerk disregards the excessive rate and applies the maximum rate permitted by law.

The County Clerk then computes the total tax rate applicable to each parcel of real property by aggregating the tax rates of all of the Units having jurisdiction over that particular parcel. The County Clerk enters the tax (determined by multiplying the total tax rate by the EAV of that parcel) in the Warrant Books prepared for the County Collector, along with the tax rates, the Assessed Valuation and EAV. The Warrant Books are the County Collector's authority for the collection of taxes and are used by the County Collector as the basis for issuing tax bills to all property owners.

The Illinois Truth in Taxation Law (35 ILCS 200/18-55) contained within the Property Tax Code (the "*Truth in Taxation Law*") imposes procedural limitations on a Unit's real estate taxing powers and requires that notice in the prescribed form must be published if the aggregate annual levy is estimated to exceed 105% of the levy of the preceding year, exclusive of levies for debt service, election costs and payments due under Public Building Commission leases. A public hearing must also be held, which may not be in conjunction with the budget hearing of the Unit on the adoption of the annual levy. No amount in excess of 105% of the preceding year's levy may be used as the basis for issuing tax bills to property owners unless the levy is accompanied by a certification of compliance with the foregoing procedures. This Truth in Taxation Law does not impose any limitations on the rate or the amount of the levy to pay principal of and interest on County general obligation bonds and notes.

Collection

Property taxes for all Units located in the County are collected by the County Collector, who distributes to each Unit its share of the collections. Property taxes levied in one year are extended and become payable during the following year in two installments, the first due on March 1 and the second on the later of August 1 or 30 days after the mailing of the tax bills. Pursuant to the Property Tax Code, the first installment is equal to 55% of the prior year's tax bill. The second installment is for the balance of the current year's tax bill, and is based on the levy, Assessed Valuation and Equalization Factor and applicable tax rates, and reflects any changes from the prior year in those factors. Taxes on railroad real property used for transportation purposes are payable in one lump sum on the same date as the second installment.

The following table sets forth the second installment due date for the last eleven years for which information is available; the first installment due date has been March 1 for all years. Penalties and interest consisting of 1.5% per month are charged to unpaid amounts after each due date until the date of the Annual Tax Sale (as defined herein) as described below.

<u>Tax Year</u>	<u>Second Installment Due Date</u>
2021	Not yet available ¹
2020	October 1, 2021
2019	October 1, 2020 ²
2018	August 1, 2019
2017	August 1, 2018
2016	August 1, 2017
2015	August 1, 2016
2014	August 3, 2015
2013	August 1, 2014
2012	August 1, 2013

- (1) The second installment due date for tax year 2021 is not yet available since the County’s second installment of property tax bills for tax year 2021 have not yet been mailed out. See “REAL PROPERTY ASSESSMENT, TAX LEVY AND COLLECTION PROCEDURES - Property Tax Delay” below for additional information regarding this property tax delay and “REAL PROPERTY ASSESSMENT, TAX LEVY AND COLLECTION PROCEDURES - Local Taxing District Loan Program” below. See also “INVESTMENT CONSIDERATIONS - Property Tax Delay” herein.
- (2) Due to the impact of COVID-19, the County approved an ordinance declaring that no interest will accrue on the second installment of 2019 taxes, due on August 3, 2020, provided the taxes are paid on or before October 1, 2020.

Source: Cook County Clerk’s Office

During periods of peak collections, the County Collector, as recipient of property tax collections, distributes tax receipts to each Unit, including the County, on no less than a weekly basis. Upon receipt of property taxes from the County Collector, the County Treasurer, as holder of County funds, promptly credits the property taxes received to the funds for which they were levied. Amounts for debt service for certain bonds issued by the County in the past are deposited directly with escrow agents or trustees for those obligations. Property taxes collected to pay debt service on the Bonds will be deposited by the County Collector directly with the Trustee.

At the end of each collection year, the County Collector presents the Warrant Books to the Circuit Court and applies for a judgment for all unpaid taxes. The court order resulting from the application for judgment provides for an annual sale of all unpaid property taxes shown on that year’s Warrant Books (the “Annual Tax Sale”). The Annual Tax Sale is a public sale, at which time successful tax buyers pay the unpaid property taxes plus penalties. Unpaid property taxes accrue penalties at the rate of 1.5% per month from their due date until the date of sale. Taxpayers can redeem their property by paying the amount paid at the sale, plus a maximum of 18% interest for each six-month period after the sale. If no redemption is made within the applicable period (ranging from six months to two and one half years depending on the type and occupancy of the property) and the tax buyer files a petition in Circuit Court, notifying the necessary parties in accordance with applicable law, the tax buyer receives a deed to the property. In addition, there are miscellaneous statutory provisions for foreclosure of tax liens and for civil actions to collect property taxes.

In March 2020, the County Treasurer successfully petitioned the Circuit Court to postpone the Annual Tax Sale for tax year 2018 (which includes properties in the County eligible for sale due to delinquent taxes due in 2019; the sale was originally scheduled to take place in early 2020) until further order by the court. Subsequently, the State enacted legislation that, among other things, extended from nine months to 13 months the time that taxpayers have to pay delinquent County property taxes before they are subject to a tax sale, and postponed the Annual Tax Sale for tax year 2018 until after the Governor's pandemic disaster declaration has been lifted. The Annual Tax Sale for tax year 2018 was the first week of November 2021, and the Annual Tax Sale for tax year 2019 was held in early 2022. The amount of property taxes that could be realized from the Annual Tax Sale are not believed to be large enough to have a material effect on amounts of collected property taxes available for repayment of the Bonds. Properties with delinquent taxes will continue to be charged 1.5 percent interest per month as required by state law, but it is impossible to predict what effect this may have on the collection of such unpaid back taxes. The 1.5% per month is credited to the County.

If there is no sale of the tax lien on a parcel of property at the Annual Tax Sale, and the property taxes remain unpaid, the property taxes are forfeited and eligible to be purchased at any time thereafter at an amount equal to all delinquent property taxes and penalties and interest to the date of purchase. Redemption periods and procedures are the same as applicable to the Annual Tax Sale.

A scavenger sale (the "*Scavenger Sale*"), like the Annual Tax Sale, is a sale of unpaid property taxes. The Scavenger Sale is scheduled every two years on all property on which three or more years' taxes are delinquent. The sale price of the unpaid taxes is the amount bid (minimum bid of \$250 is required) at the Scavenger Sale, which may be less than the amount of the delinquent taxes. Redemption periods vary from six months to two and one half years, depending upon the type and occupancy of the property. The Scavenger Sale was last held on March 3, 2022.

The Annual Appropriation Bill of the County has a provision for an allowance for uncollectible property taxes. The County reviews this provision annually and will make adjustments if appropriate. The allowance for uncollected property taxes will not be more than 3% of the property taxes allocated to the General Fund and Health Enterprise Fund for Tax Year 2020. For financial reporting purposes, uncollected property taxes are written off by the County at the end of the Fiscal Year immediately following the year in which the property taxes become due, although property taxes remain liens against the properties taxed.

Property Tax Delay

The County's second installment of property tax bills for tax year 2021 are expected to be issued up to six (6) months later than usual. This delay can be attributed primarily to the following: (1) ongoing efforts to modernization technology within the various Cook County Property Tax agencies; (2) personnel shortages and turnover attributable to the COVID-19 pandemic; and (3) the complicated nature of the reassessment of property taxes in the City of Chicago, Illinois. The payment for the second installment of property taxes for tax year 2021 will be due 30 days after the issuance of the property tax bills for the second installment of property taxes for tax year 2021. The full impact of the delay in issuing the property tax bills for tax year 2021 on the County is not measurable at this time. However, based on certain preliminary estimates and timing assumptions regarding the collection of the second installment of property taxes for tax year 2021 and the availability of certain other funds, the County anticipates that it will continue to be able to: (a) timely make its debt service payments and (b) fund its operations.

Local Taxing District Loan Program

To assist certain local taxing jurisdictions within the County (the “*Taxing Districts*”) in paying their bills during the property tax delay described in the subcaption “Property Tax Delay” above, the County Board adopted an ordinance on July 28, 2022 establishing the Bridge Funding Program (the “*Loan Program*”). Under the Loan Program, the County will provide short-term operational cash assistance to the Taxing Districts by purchasing tax anticipation warrants issued by such Taxing Districts pursuant to applicable law (the “*Warrants*”). The County is funding the Loan Program by entering into a line of credit agreement with PNC Bank, National Association (the “*Lender*”) providing for a non-revolving line of credit (the “*Line of Credit*”) and by issuing a general obligation tax anticipation note of the County evidencing borrowings by the County under the Line of Credit (the “*Note*”). The Note will bear interest at a market rate negotiated by the County with the Lender, but in no event shall the rate exceed ten percent (10.00%) per annum. The obligation to make the payments due on the Note is a lawful direct general obligation of the County payable from the general funds of the County and such other sources of payment as are otherwise lawfully available, including revenues derived from the payment of the principal of and interest (if any) on the Warrants.

Under the Loan Program, the County is authorized to purchase an aggregate principal amount of not to exceed \$500 million of Warrants which will bear no interest (other than upon the occurrence of a payment default). The County currently anticipates that it will purchase not more than \$300 million in Warrants in calendar year 2022. The Warrants will be due no later than March 1, 2023. The County will require that a Taxing District authorize, execute and deliver a tax intercept agreement in connection with the sale of a Warrant to the County. The County will also require that a Taxing District covenant that it has not issued, and will not issue, any other tax anticipation warrants secured by the same taxes which secure a Warrant purchased by the County which become due and payable or are subject to redemption prior to maturity on or before the maturity date of such Warrant.

State and County Limitation Laws

Through the adoption of the Cook County Tax Relief Ordinance (described below), the County has controlled the growth of property taxes that it imposes on its citizens. By virtue of its constitutional home rule powers, the enactment of any legislation by the State applying any statutory tax rate limit to the County would require a three-fifths vote of each house of the General Assembly. Legislation which would impose limitations on the ability of home-rule units, such as the County, to increase real property taxes was proposed in the most recent legislative session, but no such legislation has been enacted. See “INVESTMENT CONSIDERATIONS - Cap on Property Taxes.” It is not possible to predict whether, or in what form, any property tax limitations applicable to the County would be enacted by the General Assembly. The adoption by the General Assembly of any such limits on the extension of real property taxes may, in future years, adversely affect the County’s ability to levy property taxes to finance operations at current levels and the County’s power to issue additional general obligation debt without the prior approval of voters.

The Property Tax Extension Limitation Law. The Property Tax Extension Limitation Law within the Property Tax Code (35 ILCS 200/18-135) (“*PTELL*”) limits (a) the amount of property taxes that can be extended for non-home rule units located in the County and counties contiguous to the County and (b) the ability of those taxing districts to issue unlimited tax general obligation bonds without voter approval. Generally, the extension of property taxes for a taxing district subject to PTELL may increase in any year by 5% or the percent increase in the Consumer Price Index, whichever is less, or the amount approved by referendum. In 1995, PTELL was amended to authorize the issuance of “limited bonds” payable from the “debt service extension base” and to exclude from PTELL “double-barreled alternate bonds” issued pursuant to Section 15 of the Local Government Debt Reform Act of the State. Pursuant to an amendment

to the Property Tax Code, commencing with the 2009 levy year, a taxing district's debt service extension base will increase each year by the lesser of five percent or the percentage increase in the Consumer Price Index during the twelve-month calendar period preceding the levy year. The County, as a home rule unit, is not subject to the limitations created by PTELL.

The Cook County Tax Relief Ordinance. In 1994, the County Board approved Ordinance No. 94-O-15, known as the Cook County Property Tax Relief Ordinance (Section 74-38 of the County Code) (the "*County Ordinance*"), which was subsequently amended. Beginning with the real estate tax levies for the Corporate, Public Safety and Health Funds for 1995 for taxes paid in 1996 and thereafter, the County Board has resolved, with certain exceptions, not to increase the aggregate tax levy for such funds for any year over the prior year's aggregate levy by an amount greater than 5% or the percentage increase in the Consumer Price Index during the calendar year preceding the levy year, whichever is less. The County Board may adopt an aggregate levy for any year in excess of the foregoing limitations if approved by a two-thirds vote of the members of the County Board then in office. Tax levy increases for pensions, elections and debt service are excluded from the limit imposed by the County Ordinance. Effective tax year 2020, any increase in excess of the limitation set forth in Section 74-38(b) of the County Ordinance shall require the Bureau of Finance to first undertake a fiscal planning exercise and provide a forecast of revenues based upon the proposed increase prior to taking such vote. Such forecast of revenues shall include at a minimum a 36-month projection of revenues based upon the proposed increase or decrease as well as a brief analysis of anticipated expenditures for the same time period. The fiscal forecast must expressly include any planned or anticipated debt issuance as called for in the most recent Capital Budget as presented to the County Board, as well as specifically describe the assumptions used for inflation and other key economic assumptions. The forecast shall identify any expected growth in aggregate expenses and take into consideration the County's debt structure and labor costs, in the succeeding 36-month period. Any projected growth in aggregate expenses in excess of inflation shall require an explanation of how such costs will be covered in order to provide greater certainty to County taxpayers. The County Board shall not increase the Aggregate Levy in excess of the limitation set forth in Subsection (b) of this Section for 36 months following an increase in the Aggregate Levy or the Cook County Retailers' Occupation Tax and Service Occupation Tax without first considering the Bureau of Finance's fiscal forecast as required herein. The County Ordinance can be repealed or amended by the County Board by a vote of a simple majority of the members of the County Board.

TAXATION OF REAL PROPERTY - STATISTICAL INFORMATION

The historical information presented in the following tables is provided as of the respective dates and for the periods specified in each of the tables, which may have occurred before the COVID-19 pandemic and before realizing the economic impact of measures instituted to slow the spread of COVID-19. Accordingly, the historical information in the following tables may not be indicative of future results or performance due to these and other factors. For additional information regarding certain impacts of the COVID-19 pandemic on the County, see "CERTAIN IMPACTS OF THE COVID-19 PANDEMIC ON THE COUNTY" and "INVESTMENT CONSIDERATIONS - The COVID-19 Pandemic" herein.

The estimated fair market value of real property in and EAV of the County over recent years are set forth below. The figures shown for each year for estimated fair market value correspond to the EAV for the same year. The estimated fair market value of real property in and EAV of the County over recent years are set forth below. The figures shown for each year for estimated fair market value correspond to the EAV for the same year.

Estimated Fair Market Value
(\$ in thousands)

Tax Year	Chicago	Outside Chicago	Total Cook County
2019	\$335,856,711	\$299,019,544	\$634,876,256
2018	323,128,275	286,434,067	609,562,342
2017	306,074,350	279,217,426	585,291,776

⁽²⁾ CCHHS and Forest Preserve District are excluded from the table.

DEBT INFORMATION

The following tables describe the County’s direct and overlapping bonded debt.

Direct and Overlapping Debt

The following table sets forth the direct and overlapping bonded debt of certain major governmental units applicable to the County as of July 15, 2022, and is intended to provide a view of the debt applicable to taxpayers within the City of Chicago as the County’s largest underlying city and is not intended to incorporate the debt levels of suburban jurisdictions, taking into account the issuance of the Bonds, the refunding of the Refunded Series 2012C Bonds, the expected issuance in August 2022 of (i) the County’s Sales Tax Revenue Bonds, Series 2022A Bonds (the “*Series 2022A Sales Tax Bonds*”) and (ii) the County’s Sales Tax Revenue Bonds, Refunding Series 2022B (the “*Series 2022B Sales Tax Bonds*”) and the refunding of all or a portion of the County’s outstanding Sales Tax Revenue Bonds, Series 2012B (the “*Refunded Series 2012B Sales Tax Bonds*”) (except as noted below).

Direct Debt

General Obligation Bonds	\$2,425,146,750
General Obligation Revolving Line of Credit	171,000,000
Plus: The Bonds	277,705,000
Less: The Refunded Series 2012C Bonds	(297,160,000)
	564,135,000
Sales Tax Bonds	564,135,000
Less: The Refunded Series 2012B Sales Tax Bonds	(65,375,000)
Plus: The Series 2022B Sales Tax Bonds	57,950,000
Plus: The Series 2022A Sales Tax Bonds	153,195,000
	\$3,286,596,750
Major Government Overlapping Debt ⁽¹⁾	
City of Chicago ⁽²⁾⁽⁴⁾⁽⁵⁾	\$7,093,076,000

Totals may not foot due to rounding.

- (1) Interest rate on variable rate bonds assumed to be 5% for the Series 2004D Bonds and the Series 2012B Bonds bearing interest at taxable rates and 4.5% for the Series 2012A Bonds bearing interest at tax-exempt rates.
- (2) Interest rate fixed to 1.00% for the Series 2014C Bonds, which are subject to mandatory tender on September 30, 2023 and revert to 4.5% until stated maturity thereafter.
- (3) No effect given to receipt of payments from the federal government in connection with "Build America Bonds."

Variable Rate Debt

The County currently has four outstanding variable rate bond issues as well as a tax-exempt Revolving Line of Credit and a taxable Revolving Credit Agreement as discussed below.

The Series 2004D Bonds are variable rate demand bonds that are publicly remarketed and subject to investor put options. The Series 2012A Bonds, Series 2012B Bonds and Series 2014C Bonds were directly purchased by banks and are not remarketed or subject to investor put options.

The bank credit agreements, including the Revolving Credit Agreement, discussed below contain events of default if the County's General Obligation Bond rating drops to BBB-/BBB-/Baa3 for Fitch, S&P Global Ratings ("S&P") and Moody's, respectively, and certain of the agreements rely on the lowest two ratings in the event of a split rating for determining whether such an event of default has occurred. See "RATINGS" herein for more information about the County's underlying rating on its general obligation bonds. An event of default would trigger a mandatory redemption of the bonds. In the event of a mandatory redemption of the bonds, all outstanding bonds shall be mandatorily redeemed on the 1st day of January following the 15th day of February following the first business day after the bonds began to bear interest at the Term Out rate.

Under the terms of the associated credit agreements with the County's outstanding variable rate bond series, on the occurrence of a failure to extend a direct purchase agreement prior to the tender date, or in the instance of a failed remarketing for the Series 2004D Bonds, the amount of interest required at each interest payment date would increase significantly, and the due dates for the principal retirements would be significantly accelerated.

A more detailed description of the County's variable rate bonds is set forth in "APPENDIX A - Annual Comprehensive Financial Report for the Year Ended November 30, 2021 - B. FINANCIAL SECTION - Basic Financial Statements - Notes to Basic Financial Statements - Note III(E)(2)". See "APPENDIX A - Annual Comprehensive Financial Report for the Year Ended November 30, 2021", which includes a table summarizing the debt service requirements that would be necessary if these provisions were exercised (GASB defined take-out agreements) as of November 30, 2021.

Series 2004D

The Series 2004D variable rate taxable bonds, of which \$130 million are outstanding, are currently in a Weekly Rate Mode and bear interest (computed on the basis of a 365-day or 366-day year as applicable for the actual number of days in the period) at the Weekly Rate. The Weekly Rate for each Weekly Interest Period is determined by the Remarketing Agent and is the lowest rate of interest which will, in the judgment of the Remarketing Agent, having due regard for prevailing financial market conditions, permit the bonds to be remarketed at par, plus accrued interest, on the first day of such Weekly Interest Period.

Under certain circumstances, investors in the Series 2004D Bonds have the right to demand payment of their demand bonds. Pursuant to a Direct Pay Letter of Credit issued by Barclays Bank PLC, (the "*Direct Pay Letter of Credit*") the County is authorized to borrow money, under certain conditions, for the purchase of Series 2004D Bonds that are not remarketed. The Direct Pay Letter of Credit expires on December 1, 2022.

Series 2012A

In July 2012, the County issued \$145.5 million Series 2012A variable rate bonds in a direct purchase with JPMorgan Chase Bank, NA. The interest rate for these bonds is reset monthly and is equal to 80% of Adjusted Term SOFR rate plus an applicable spread which is subject to adjustment based on the current long-term, unenhanced credit rating of the County's general obligation bonds. The County is required to comply with certain agreed bank covenants which run exclusively to, and can be waived or amended at any time in the sole discretion of, the holder of such bonds; non-compliance would result in an event of default triggering a mandatory redemption of the Series 2012A Bonds. The covenants and events of default applicable to the Series 2012A Bonds are not applicable to the Bonds; such covenants and events of default run only to the holder of the Series 2012A Bonds and may be waived or amended at any time without the consent of the holders of the Bonds. The Series 2012A Bonds direct purchase agreement was extended from March 1, 2022 to November 1, 2028.

Series 2012B

In August 2012, the County issued \$107.8 million Series 2012B variable rate taxable bonds in a direct purchase with JPMorgan Chase Bank, NA of which \$85,070,000 are currently outstanding. The interest rate for the series is reset monthly and is equal to the one-month LIBOR rate plus an applicable margin. If the County's long-term unenhanced general obligation credit ratings adjust downward, the applicable spread will automatically increase. The County is required to comply with the agreed bank covenants which run exclusively to, and can be waived or amended at any time in the sole discretion of, the holder of such bonds; non-compliance would result in an event of default triggering a mandatory redemption of the Series 2012B Bonds. The covenants and events of default applicable to the Series 2012B Bonds are not applicable to the Bonds; such covenants and events of default run only to the holder of the Series 2012B Bonds and may be waived or amended at any time without the consent of the holders of the Bonds. The Series 2012B Bonds are subject to a mandatory purchase date of August 1, 2024 at a purchase price equal to 100% of the principal amount thereof plus accrued interest on the purchase date.

Series 2014C

In October 2014, the County issued \$100.1 million Series 2014C variable rate bonds in a direct purchase with Wells Fargo Municipal Capital Strategies LLC. If the County's long-term unenhanced general obligation credit ratings adjust downward, the applicable rate will automatically increase. As of September 25, 2020, the fixed interest rate is 1.00%. The County is required to comply with the agreed bank covenants which run exclusively to, and can be waived or amended at any time in the sole discretion of, the holder of such bonds; non-compliance would result in an event of default triggering a mandatory redemption of the Series 2014C Bonds. The covenants and events of default applicable to the Series 2014C Bonds are not applicable to the Bonds; such covenants and events of default run only to the holder of the Series 2014C Bonds and may be waived or amended at any time without the consent of the holders of the Bonds. The Series 2014C Bonds are subject to a mandatory tender date of September 29, 2023 at a purchase price equal to par plus accrued and unpaid interest at the end of the initial interest rate period.

Revolving Line of Credit - Series 2014D

On November 1, 2018, the County extended an agreement for \$125 million General Obligation Bonds Series 2014D and Series 2018 for \$50 million as a variable rate revolving line of credit with PNC Bank (the "*PNC Revolver*"). On October 30, 2020, the County extended the maturity date of the PNC Revolver to November 1, 2022. The purpose of the PNC Revolver is to provide for a financing mechanism for capital projects during the acquisition or construction phase of each such project. Currently, the interest rate is reset daily and is equal to 80% of the daily LIBOR rate plus an applicable spread. Earlier in 2021,

the County issued its fixed rate Sales Tax Revenue Bonds, Series 2021A to pay off the then outstanding balance of \$175,000,000 on the PNC Revolver. As of July 15, 2022, there is \$171,000,000 outstanding under the PNC Revolver.

Revolving Credit Agreement

On February 25, 2016 the County entered into the BMO Credit Agreement. The BMO Credit Agreement is for an amount not to exceed \$100 million. The BMO Credit Agreement was extended on February 25, 2022 and it is set to expire in February 2025. The interest rate is reset monthly and is equal to the SOFR rate plus the applicable spread which is subject to adjustment based on the current long-term, unenhanced credit rating of the County's general obligation bonds. The BMO Credit Agreement contains covenants and events of default that are not applicable to the Bonds; such covenants and events of default run only to BMO Harris Bank, N.A., and may be waived or amended at any time without the consent of the holders of the Bonds. As of July 15, 2022, no amounts were outstanding under the BMO Credit Agreement.

FUTURE FINANCINGS

The County has undertaken a long-term plan to manage its debt service in a manner which will target the rate at which its debt service will grow in future years to no more than 2 percent annually until a \$400 million threshold is reached. The County intends to achieve this result through a mixture of refundings for debt service savings, principal re-amortization as necessary, and by restraining its new money borrowings.

From time to time and subject to the approval of the County Board and market conditions, the County may issue sales tax revenue bonds and/or its general obligation bonds for purposes of the County's Capital Improvement Program or for refunding purposes. The County plans to issue sales tax revenue bonds in the principal amount of \$211,145,000 also in August 2022, a portion of which are to be used to refund all or a portion of the County's outstanding General Obligation Bonds, Series 2014D and the County's outstanding General Obligation Bonds, Series 2018. The County currently anticipates that it will purchase Warrants pursuant to the Loan Program in calendar year 2022. Under the Loan Program, the County is authorized to purchase an aggregate principal amount of not to exceed \$500 million of Warrants from certain local taxing jurisdictions to assist them in paying their bills during the property tax delay described further in "INVESTMENT CONSIDERATIONS – Property Tax Delay." See also "REAL PROPERTY ASSESSMENT, TAX LEVY AND COLLECTION PROCEDURES - Property Tax Delay" and "REAL PROPERTY ASSESSMENT, TAX LEVY AND COLLECTION PROCEDURES - Local Taxing District Loan Program." The County currently anticipates that it will purchase not more than \$300 million of Warrants in calendar year 2022.

INVESTMENT CONSIDERATIONS

The following discussion of investment considerations should be reviewed by prospective investors prior to purchasing the Bonds. Any one or more of the investment considerations discussed herein could lead to a decrease in the market value and the liquidity of the Bonds or, ultimately, a payment default on the Bonds. This section is not intended to be a comprehensive listing of investment considerations and there can be no assurance that other factors not discussed herein will not become material in the future.

Property Tax Delay

The County's second installment of property tax bills for tax year 2021 are expected to be issued up to six (6) months later than usual. The payment for the second installment of property taxes for tax year 2021 will be due 30 days after the issuance of the property tax bills for the second installment of property taxes for tax year 2021. The full impact of the delay in issuing the property tax bills for tax year 2021 on the County is not measurable at this time. However, based on certain preliminary estimates and timing assumptions regarding the collection of the second installment of property taxes for tax year 2021 and the availability of certain other funds, the County anticipates that it will continue to be able to: (a) timely make its debt service payments and (b) fund its operations. See "REAL PROPERTY ASSESSMENT, TAX LEVY AND COLLECTION PROCEDURES - Property Tax Delay" and "REAL PROPERTY ASSESSMENT, TAX LEVY AND COLLECTION PROCEDURES - Local Taxing District Loan Program."

The COVID-19 Pandemic

In March 2020, COVID-19 was declared a global pandemic by the World Health Organization. During 2020 and 2021, stay-at-home orders, work-at-home requirements, mandated closures of offices and businesses, and other restrictions imposed to contain the pandemic caused an unprecedented disruption of local, state, national, and global economies including the County's. There can be no assurance that the spread of COVID-19, will not materially affect the County or have a material adverse impact upon the County's collection of property taxes. See "CERTAIN IMPACTS OF THE COVID-19 PANDEMIC ON THE COUNTY" herein.

Overlapping Taxing Districts

A number of overlapping taxing districts whose jurisdictional limits overlap with the County have the power to raise taxes, including property taxes, subject to applicable statutory constraints, if any (the "*Overlapping Tax Districts*"). The Overlapping Tax Districts include among others the City and the Chicago Board of Education. The County does not control the amount or timing of the taxes levied or imposed by these or other Overlapping Tax Districts. Depending on the amount of such increase(s), an increase in the amount of taxes by these overlapping taxing districts could potentially be harmful to the County's economy and/or tax base and may make it more difficult for the County to increase taxes, including property taxes. See "TAXATION OF REAL PROPERTY - STATISTICAL INFORMATION - Tax Rates Extended by City-Wide Local Governmental Units for Real Property in the City of Chicago" above.

Financial Condition of City of Chicago and Chicago Board of Education

In recent years the City and the Chicago Board of Education have experienced continued budget deficits, underfunded pension obligations and credit rating downgrades. If, in an effort to address the financial condition thereof or otherwise, either or both of such entities were to impair the level of services provided thereby or increase the property taxes payable thereto, it could have an adverse effect on the County's economy and/or tax base. The County has no obligation to contribute financially to either entity.

State Economy

The financial health of the County is in part dependent on the strength of the local economy which in turn is a component of the State economy. Many factors affect all economies, including the rates of unemployment, per capita income, population trends, the level of residential and commercial development.

The State has experienced and continues to experience a structural deficit and underfunded pension obligations that result annually in significant shortfalls between the State's general fund revenues and spending demands. There can be no certainty as to if and when the State will resolve its structural deficit.

Any failure of the State to resolve its current and future deficits or resolve them by budget cuts and/or increases in taxes, could have an adverse effect on the local and State economy and/or property tax base and therefore an adverse impact on the County's economy and/or tax base. The adverse impact on the State's finances may also, in turn, adversely affect the County's finances due to delays or reductions in the amounts received by the County from the State. See "COOK COUNTY - Payments from the State" herein.

State Payments

See "COOK COUNTY - Payments from the State" herein.

Supplemental Pension Funding

Despite the statutory limit on the County's contributions and as part of its efforts to promote the long-term fiscal viability of the Retirement Fund, the County has entered into Intergovernmental Agreements (as defined under "Determination of County's Contribution - Intergovernmental Agreements between the County and Retirement Fund" in APPENDIX B) with the Retirement Fund Board (as defined in APPENDIX B) for County Fiscal Years 2016-2021, under which the County made total supplemental contributions to the Retirement Fund of \$339,961,760 in 2021, \$309,214,508 in 2020, \$320,296,720 in 2019, \$378,436,000 in 2018, \$353,800,000 in 2017 and \$270,526,000 in 2016*. On December 2, 2021, the County entered into a one-year Intergovernmental Agreement with the Retirement Fund, under which, in Fiscal Year 2022, the County committed to making supplemental contributions to the Retirement Fund in the sum of \$324,200,000 which the County would begin as of December 2021. Under the terms of the Intergovernmental Agreements, the supplemental contributions are and were subject to relevant law and any order entered by a court regarding this matter. As of the date of this Official Statement, no party has challenged the validity of the Intergovernmental Agreements or the related disbursement of additional contributions to the Retirement Fund. No assurances can be given that the County will enter into similar agreements in the future, or that the County has or will have the authority or ability to enter into similar agreements in the future or that the Intergovernmental Agreements or any future agreements and the funds disbursed by the County to the Retirement Fund would survive legal challenges as to their validity under Illinois statutes. Any future intergovernmental agreements with the Retirement Fund, and the moneys committed thereunder, will be subject to annual County appropriation.

Cap on Property Taxes

The Illinois Property Tax Code limits, among other things, the amount of property tax that can be extended for non-home rule units of local government located in Cook County and five adjacent counties. As a home rule unit of government, the County is not subject to PTELL. A number of bills have been introduced in the General Assembly to limit or freeze property taxes, including those imposed by home rule units of local government such as the County. The application of PTELL to the County or any other measure that would limit or freeze property taxes would require three-fifths vote of each house of the General Assembly. To date none of the proposals for State-imposed property tax limitations have been more restrictive than the current practice of the County which has significantly limited any changes in the County levy of property taxes since 1995, but if any restriction or freeze on property taxes were to be adopted which was more restrictive than the County's practice, the County's ability to levy property taxes in amounts needed for its future funding needs may be adversely affected. Furthermore, should the County

** Payments reflects Retirement Fund Fiscal year

Board deem such action necessary, the County is able to unilaterally modify the County's practice; the County would not enjoy the same flexibility with a State-imposed limitation.

Bankruptcy

Local governments (including municipalities, counties and special purpose districts) cannot file for protection under the U.S. Bankruptcy Code unless specifically authorized to be a debtor by state law or by a governmental officer or organization empowered by state law to authorize such entity to be a debtor in a bankruptcy proceeding. State law does not currently permit local governments in Illinois to file for bankruptcy; however, legislation has been introduced previously and could be introduced in the future in the General Assembly which, if enacted, would permit local governments in the State to file for bankruptcy under the U.S. Bankruptcy Code. No assurance can be provided as to whether the General Assembly or United States Congress may adopt any such legislation that would permit local governments such as the County to file for bankruptcy.

Adverse Change in Laws

There are a variety of State and federal laws, regulations and constitutional provisions that apply to the County's ability to raise taxes, fund its pension obligations or to reorganize its debts. There is no assurance that there will not be any change in, interpretation of, or addition to such applicable laws, regulations and provisions. Any such change, interpretation or addition may have a material adverse effect, either directly or indirectly, on the County or the taxing authority of the County, which could materially adversely affect the County's operations or financial condition.

Limitations on Remedies of Owners

The remedies available upon an event of default under the Bond Ordinance are in many respects dependent upon judicial actions that are often subject to discretion and delay. The legal opinions to be delivered by Co-Bond Counsel concurrently with the delivered of the Bonds will be qualified as to the enforceability of the Bonds and the Bond Ordinance by bankruptcy, insolvency or other similar laws affecting the rights of creditors generally.

Tax Matters

See "TAX MATTERS" herein for additional tax-related risks.

Cyber Security

Nationwide, cyber security is an increasing concern for both the public and private sectors. In recent years, many local governments, including the County, have experienced cyberattacks which have heightened awareness of data security. The County has a proactive and collaborative approach to information security, which reflects, among other items, the implementation of: (a) a County-wide information security working group (the "*ISWG*"), (b) comprehensive and written information security plans, policies, procedures, standards, and guidelines (collectively, the "*Information Security Framework*"), (c) review, remediation and enforcement measures, and (d) reporting requirements, all as required by the Cook County Information Security Ordinance (Ordinance 14-1481) passed by the County Board on June 18, 2014 (the "*Information Security Ordinance*"). The Information Security Ordinance requires, among other things, that (a) all separately elected County and State officials, departments, office institutions or agencies funded by the County Board take the appropriate precautions to protect the integrity and confidentiality of information and (b) the ISWG assist the Chief Information Security Officer (CISO) in creating, and updating as necessary, the Information Security Framework to reasonably ensure

information security. Computer networks and data transmission and collection are vital to the safe and efficient operation of the County, which could be impacted by disruption or other loss of information. The County's Information Security Office works with all County agencies to: (a) protect the confidentiality, integrity and availability of County information by leveraging cybersecurity capabilities across the enterprise and informing system stakeholders on cyber risk and (b) provide tools, policies, security engineering, training and awareness focused on defeating evolving cybersecurity threats. In recent years, the County has continued to expand the ongoing development of cyber security initiatives through policy development, training and improvement of the County's cybersecurity infrastructure. Additionally, to enhance the County's security posture, the County collaborates across a range of state and federal agencies, to take advantage of all available open source intelligence (OSI). These agencies include, but are not limited to the Multi-State Information Sharing and Analysis Center (MS-ISAC), the Elections Infrastructure Information Sharing and Analysis Center (EI-ISAC), the Illinois State Board of Elections, the Statewide Terrorism & Intelligence Center (STIC), the City, the State, the Cybersecurity and Infrastructure Security Agency (CISA), and the Federal Bureau of Investigation. Despite such security measures, including the Information Security Framework, the information technology and data of the County may be vulnerable to cyberattacks by outside or internal actors or by employee error, negligence or malfeasance. The County is unable to predict the direct or indirect impact of any future cyberattacks on the County.

Force Majeure Events

There are certain unanticipated events beyond the County's control that could have a material adverse impact on the County's operations and financial conditions if they were to occur. These events include fire, flood, earthquake, epidemic, adverse health conditions or other unavoidable casualties or acts of God, freight embargo, labor strikes or work stoppages, civil commotion, new acts of war or escalation of existing war conditions, sabotage, terrorism or enemy action, pollution, unknown subsurface or concealed conditions affecting the environment, and any similar causes. No assurance can be provided that such events will not occur, and, if any such events were to occur, no prediction can be provided as to the actual impact or severity of the impact on the County's operations and financial condition.

Forward-Looking Statements

This Official Statement contains certain statements relating to future results that are Forward-Looking Statements. When used in this Official Statement, the words "estimate," "intend," "expect" and similar expressions identify Forward-Looking Statements. Any Forward-Looking Statement is subject to uncertainty and risks (including, but not limited to risks related to the COVID-19 pandemic) that could cause actual results to differ, possibly materially, from those contemplated in such Forward-Looking Statements. Inevitably, some assumptions used to develop Forward-Looking Statements will not be realized or unanticipated events and circumstances may occur. Therefore, holders of Bonds and potential investors should be aware that there are likely to be differences between Forward-Looking Statements and actual results; those differences could be material. The County does not undertake any obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events or otherwise.

ACCOUNTING AND FINANCIAL INFORMATION

Description of Accounting Practices

Pursuant to its home rule authority, the County enjoys significant discretion in managing its governmental and fiscal affairs. The County's management is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the County are protected from loss, theft

or misuse, and to ensure the adequate compilation of accounting data to enable the preparation of financial statements in conformity with GAAP.

The accounting system of the County is operated and maintained on a fund accounting basis implemented to present the financial position and results of operations of each fund. The accounting system of the County is also designed to provide budgetary control over the revenues and expenditures of each fund. For a summary of significant accounting practices of the County, see “APPENDIX A - Annual Comprehensive Financial Report for the Year Ended November 30, 2021 - B. FINANCIAL SECTION - Basic Financial Statements - Notes to Basic Financial Statements.” The unaudited budgetary actual information contained herein is obtained from the County’s general ledger.

The County’s Annual Comprehensive Financial Reports for several prior years are available online at the County’s website can be found at <http://www.cookcountyil.gov/service/financial-reports> which are not intended to be, and should not be interpreted as being, incorporated herein by this reference. The County’s Annual Comprehensive Financial Report, including Management’s Discussion and Analysis, is intended to provide the reader with a broad overview of the financial position and operating results of the County’s governmental and business-type activities and its major funds.

Cash Management

The cash records of all major County funds are maintained by the County Treasurer and/or County Comptroller. Except for cash escrowed and held by trustees for debt service, capital improvements, and other bond related accounts that are managed by the County’s Chief Financial Officer, the County Treasurer deposits all cash for operating funds into the County’s master operating account. On no less than a weekly basis, scheduled payments are made to third parties, and funds from the master operating bank account are transferred to four disbursement accounts: Salary, Supply, Juror and Election. Cash temporarily idle during the year is invested in instruments authorized by State statute, including U.S. Treasury Securities, tax exempt municipal securities, certificates of deposit, mutual funds, time deposits and interest bearing savings accounts. Investments are made on an aggregate basis, but the interest thereon is posted to the individual funds.

Investment Policy

The County Treasurer, who is responsible for the investment of certain County funds, has a written investment policy applicable to County funds held by the County Treasurer. Under the current policy, safety of principal is the primary investment objective, followed by liquidity and rate of return. All public moneys are deposited in banks that are required to collateralize deposited funds with approved securities equal to 102% of market value. The County Treasurer maintains a system to monitor the market value of such collateral securities. All collateral is held at third party safekeeping institutions acting as custodian. Securities approved for investment include (1) U.S. Treasury Bills, Notes and Bonds, (2) certificates of deposit or time deposits issued by national or state chartered banks within Cook County, and (3) certain other investments permitted by State law, including, (a) interest-bearing savings accounts constituting direct obligations of a bank, (b) shares or other securities issued by savings and loan associations, provided they are insured by the Federal Deposit Insurance Corporation, and (c) securities guaranteed by the full faith and credit of the United States of America as to principal and interest. This investment policy is subject to change by the County Treasurer in accordance with applicable law. In addition, the County Treasurer is authorized to invest in the Illinois Treasurer’s Investment Pool pursuant to an ordinance adopted by the County Board.

Funds held by the Trustee for the benefit of the Bonds may be invested at the discretion of the Chief Financial Officer of the County in the manner described in APPENDIX F under the caption “Investment of

Funds.” The referenced funds held by the Trustee are invested at the direction of the Chief Financial Officer. As outlined in the FY 2021 Budget (as defined herein) resolution of the County Board, it is the policy of the County to manage public funds in a manner that will ensure security of principal, meet cash flow needs, and maximize investment return while voluntarily complying with the Illinois Public Funds Investment Act (30 ILCS 235), though the County as a home rule unit of government is not bound by the Act.

Fiduciary Funds

County Employees’ and Officers’ Annuity and Benefit Fund. Information on the County Employees’ and Officers’ Annuity and Benefit Fund is available under “COUNTY EMPLOYEES’ AND OFFICERS’ ANNUITY AND BENEFIT FUND” and “APPENDIX B - County Employees’ and Officers’ Annuity and Benefit Fund of Cook County” herein.

Agency Funds. The Agency Funds consist of all funds received by the County as an agent. These funds will be expended or invested by the County in its agency capacity at a scheduled time in the future. Such Agency Funds account for the property tax as collected by the County Treasurer’s Office as the fiscal agent for all taxing bodies within the County. The County Treasurer’s Office then disburses the allocated taxes to the 1,522 local governmental agencies and sub-agencies across the County. Similarly, the County Circuit Clerk’s Office collects statutory and court ordered fines, fees, penalties, costs and assessments and then disburses to the County, State and other Units.

Special Revenue Funds

The Special Revenue Funds consist of funds of the County that are used to account for the proceeds of specific revenue sources (other than major capital projects) that are legally or, through regulation, restricted to expenditure for specific purposes and other funds considered restricted by management. Special Revenue Funds are comprised of budgeted funds included in the Annual Appropriation Bill and nonbudgeted funds.

Pursuant to State statute, the County is responsible for certain election costs in the City in even-numbered years causing the allocation of the property tax levy for the Election Fund to be significantly lower in odd-numbered years.

Financial Information (Budgetary Basis)

Financial information on the following pages pertaining to the final adopted budget for Fiscal Year 2022 (the “*FY 2022 Budget*”) and the final adopted budget for Fiscal Year 2021 (the “*FY 2021 Budget*”) is prepared on a legally prescribed budgetary basis of accounting that differs from GAAP. Such financial information as presented herein was prepared based on records maintained by the County Comptroller and the County Office of Management and Budget, and this presentation has not been examined by the County’s external auditors. The FY 2022 Budget was approved by the County Board on November 18, 2021.

The significant differences in accounting practices between the operating statements presented under GAAP and the budgetary operating statements are as follows:

- i) Property tax levies and Personal Property Tax Replacement Taxes (“*PPRT*”) are recognized as revenue in the budgetary statements in the year levied or the year replacement personal property taxes would have been levied. The fund operating statements prepared under GAAP recognize property tax levies as revenue in the subsequent year when they become available; *PPRT* are recognized when collected by the county.

ii) Expenditures related to specific property tax levies (i.e., pension obligation, principal and interest on general obligation bonds, rental obligations and allowances for uncollectible taxes) are recognized in the budgetary statements in the year the taxes are levied. The GAAP fund operating statements recognize these expenditures when the related liability is incurred with the exception of principal and interest on general long-term debt, which is recognized when due.

iii) Encumbrances are combined with expenditures in the budgetary statements but are excluded in the GAAP fund operating statements.

iv) Incurred obligations (i.e., accounts payable and accrued salaries) are recognized as expenditures when paid in the budgetary statements, while the GAAP fund operating statements recognize these items when the related liability is incurred.

v) Revenue is recognized when received in the budgetary statements, while the GAAP fund operating statements recognize these items when measurable and available for financing current obligations.

Reconciliation of the differences between the GAAP and audited budgetary operating statements for the year ended November 30, 2021 is set forth in “APPENDIX A - Annual Comprehensive Financial Report for the Year Ended November 30, 2021 - B. FINANCIAL SECTION - Basic Financial Statements - Notes to Financial Statements - Note 2.”

DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION

Discussion of Financial Operations (Budgetary Basis)

This discussion is based on the FY 2022 Budget which is prepared on the budgetary basis of accounting. The budgetary basis of accounting is different in several respects from GAAP. The financial information presented herein was prepared based on records maintained by the County Comptroller and the County Office of Management and Budget. The County’s largest tax revenue sources continue to be the home rule sales tax and the property tax levy, however the implementation of several additional revenue sources over the last two decades, in addition to the substantial fee revenues have diversified funding for the operating funds. Certain revenue sources, such as the property tax, patient fees and court fees, are required to be expended in the respective funds. The sales tax, however, may be allocated to any of the operating funds. From year to year the County may change that allocation.

Fund Balances and Operations

The historical information presented in the following tables is provided as of the respective dates and for the periods specified in each of the tables, which may have occurred before the COVID-19 pandemic and before realizing the economic impact of measures instituted to slow the spread of COVID-19. Accordingly, the historical information in the following tables may not be indicative of future results or performance due to these and other factors. For additional information regarding certain impacts of the COVID-19 pandemic on the County, see “CERTAIN IMPACTS OF THE COVID-19 PANDEMIC ON THE COUNTY” and “INVESTMENT CONSIDERATIONS - The COVID-19 Pandemic” herein.

The General Fund is the primary operating fund of the County for governmental purposes (the “General Fund”). The following subsections provide additional detail on the historical composition of the General Fund revenues.

The following table illustrates the year-end closing balances of the County’s General Fund from Fiscal Years 2017 to 2021.

Liquidity

Section 3-11003 of the Counties Code (55 ILCS 5/3-11003), classifies moneys held by the County as Class A, Class B, Class C, and Class D funds, according to their various sources and purposes. Under the statute, “All moneys belonging to the county in its corporate capacity shall be known as ‘Class C’ funds.” State statute further requires that the County Treasurer deposit “Class C funds” in a separate account under Section 3-11004 of the Counties Code (55 ILCS 5/3-11004). That account, known as the “C-Fund,” entails all moneys belonging to the County in its corporate capacity, which includes the County’s General Fund, Health Enterprise Fund, Election Fund and other non-major governmental funds. In Fiscal Year 2021, the County’s C-Fund cash balance averaged \$1,283.7 million and the County Comptroller continued to target payment of invoices within seven to 10 days of the office’s receipt thereof.

The County’s C-Fund monthly cash balances for Fiscal Year 2022 were:

<u>Dec.</u>	<u>Jan.</u>	<u>Feb.</u>	<u>Mar.</u>	<u>Apr.</u>	<u>May</u>	<u>June</u>	<u>July*</u>
1,537.1	1,576.7	1,595	2,026.3	2,035.4	2,060.3	2,581.5	2,597.6

* July FY 2021 Cash balance as of 7/5/2022.

The County’s C-Fund monthly cash balances for Fiscal Year 2021 were:

<u>Dec.</u>	<u>Jan.</u>	<u>Feb.</u>	<u>Mar.</u>	<u>Apr.</u>	<u>May</u>	<u>June</u>	<u>July</u>	<u>Aug.</u>	<u>Sep.</u>	<u>Oct.</u>	<u>Nov.</u>

Home Rule Taxes

Home Rule Taxes (“HRT”) are taxes imposed by the County under the home rule authority derived from the Illinois Constitution and related statutes. HRT revenues comprise a significant percentage of the County’s total revenues. The largest single component of the HRT are the Home Rule Sales Taxes which are imposed on the general sale of goods. In addition to the Home Rule Sales Taxes, the County imposes taxes on certain specialized goods (such as tobacco, motor fuel and alcohol), certain specialized services (such as parking and amusement), and the sale or purchase of motor vehicles (“Other Home Rule Taxes”). The following table shows the County’s total actual or projected HRT collections in each of the last nine years, along with a breakdown between those collections for the Home Rule Sales Taxes and the Other Home Rule Taxes in each given year (stated in millions).

Total Actual or Projected Home Rule Taxes Collections Fiscal Years (2012-2020) (dollars in millions)

Fiscal Year	Home Rule Sales Taxes ⁽¹⁾	Other Home Rule Taxes	Total Home Rule Taxes
2012	\$458.2	\$391.1	\$ 849.3
2013	363.8	461.4	825.2
2014	333.5	451.6	785.1
2015	346.8	487.3	834.1
2016	643.8	527.7	1,171.5
2017	811.0	584.4	1,395.4
2018	842.6	508.3	1,350.9
2019	838.7	484.2	1,322.9
2020	721.6	437.2	1,158.8
2021 ⁽³⁾	857.3	454.6 ⁽²⁾	1,311.9

Source Documents: Fiscal Year 2012-2021 Executive Budget Recommendations.

⁽¹⁾ For a discussion of the Sales Tax Rates see “Cook County - County Sales Tax” above.

⁽²⁾ For estimated Fiscal Year 2021, the components of the \$454.62 million in Other Home Rule Taxes were 20.9% cigarette taxes, 0.6% new motor vehicle taxes, 20.1% use taxes, 7.2% parking and garage operations, 3.4% amusement taxes, 8.3% alcohol taxes and 39.6% from other taxes.

⁽³⁾ Information presented for Fiscal Year 2021 in this table are statements of interim financial information which are the County’s best estimates and have not been audited.

Self-Insurance

The County uses a combination of self-insurance and insurance for a number of risks, including medical malpractice, workers’ compensation, general liability, automobile liability and other liability. When the County is a defendant in lawsuits alleging medical malpractice, work related injuries and other claims, these cases can be in various stages of the legal process and insurance is utilized to mitigate potential losses.

The County engages an external actuary to provide an actuarial estimate of its liabilities for self-insured expenses. The liability recorded reflects a discount rate of 0.81%. If the discounted estimate were not used, the ultimate liability for the self-insured programs would be approximately \$22 million higher than the amount recorded in the audited financial statements at November 30, 2021.

Since December 31, 2000, the County has purchased excess liability insurance coverage related to medical malpractice and other claims. The current excess medical malpractice policy, as of November 30, 2021, is on a claims-made basis and provides up to \$75,000,000 of limits above the County's self-insured retention of \$35,000,000 per claim / \$80,000,000 Annual Aggregate. The excess municipal policy is on an occurrence basis and provides \$20,000,000 of coverage above the County's retention of \$30,000,000 per claim. The excess municipal policy provides coverage not only for bodily injury and third-party property damage losses but extends coverage to include employment practices liability, law enforcement liability, public official's liability and employee benefits liability. The County purchases property insurance which provides replacement cost coverage for physical damage to the County's buildings, contents and inventory from covered causes of loss. It also provides coverage for extra expenses incurred to continue operations after a loss. The County's deductible is \$1,000,000. The County also purchases Cyber insurance since 2015 with a limit of \$25,000,000 aggregate and a self-insured retention of \$100,000 with an eight hour waiting period on 1st claims. The County is self-insured for workers' compensation losses and purchases no insurance related to these claims.

The liability recorded as of November 30, 2021 (audited) reflects the net liability of the County.

The County funds its self-insurance liabilities, including those of the CCHHS, on a current basis and has the authority to finance such liabilities through the issuance of Bonds, the levy of property taxes or other means. While it is difficult to estimate the timing or amount of expenditures, management of the County believes that the self-insurance liabilities recorded at November 30, 2021 (audited) are adequate to provide for potential losses resulting from medical malpractice, workers' compensation and other claims including incurred but not reported claims. The self-insurance liabilities recorded are based on facts known at the current time; however, the discovery of additional information concerning specific cases could affect estimated costs in the future.

For the Fiscal Year ended November 30, 2021 (audited), amounts charged by the self-insurance fund to other County funds for worker's compensation are reported as revenues to the self-insurance fund and expenditure/expenses of the fund charged.

BUDGETARY PROCEDURES AND INFORMATION

The Fiscal Year of the County begins on December 1. The County Board adopted the Annual Appropriation Bill for Fiscal Year 2022 on November 18, 2021.

The development of the annual budget begins with a Preliminary Budget released by the County Office of Management and Budget by June 30 of each year (for each such fiscal year, a “*Preliminary Budget*”). The Preliminary Budget identifies both the status of the annual budget during the current Fiscal Year, as well as projections for the following Fiscal Year, absent corrective actions or measures that may be undertaken by the County during the forthcoming budget making process. The County released the Fiscal Year 2023 Preliminary Budget on June 23, 2022.

It is County policy to limit year-to-year increases in debt service to no more than 2 percent, based on a long-term target for inflation, until it reaches \$400 million threshold. This policy was reflected in the Fiscal Year 2023 Preliminary Budget figure for debt service expenditures.

Following release of the Preliminary Budget, each department submits a detailed request for appropriation. Meetings are then held by the Department of Budget and Management Services with each department to review the requests. Based on department requests and available resources, an Executive Budget Recommendation is prepared for the Board President by the Chief Financial Officer, in conjunction with the Budget Director of the County and the County Comptroller.

The Executive Budget Recommendation, as proposed by the Board President, is submitted to the Committee on Finance, which in turn holds hearings involving each department. The Committee on Finance prepares the Annual Appropriation Bill in tentative form, which is made available for public inspection for at least ten days prior to final action. Public hearings on the tentative Annual Appropriation Bill are then held. Amendments to the tentative Annual Appropriation Bill may then be approved by the Committee on Finance. Subsequently, the final budget in the form of the Annual Appropriation Bill is approved and adopted by the County Board (for each such fiscal year, a “*Budget*”). For a summary of budgetary procedures of the County, see “APPENDIX A - Comprehensive Annual Financial Report for the

Key Provisions in Fiscal Year 2022 Budget

The County Board approved the County’s FY 2022 Budget on November 18, 2021. The FY 2022 Budget includes measures to help mitigate the costs and revenue impacts to the County of the COVID-19 pandemic assuming COVID-19 is still a significant cost element until 2022. The situation remains fluid and the revenue projections in the FY 2022 Budget represent a snapshot in time. There is no way to predict the full impact of COVID-19 to the County and its finances. See also “CERTAIN IMPACTS OF THE COVID-19 PANDEMIC ON THE COUNTY” and “INVESTMENT CONSIDERATIONS - The COVID-19 Pandemic” herein.

The FY 2022 Budget includes County-wide revenues for FY 2022 budgeted at \$8.11 billion, which is comprised of Health Enterprise revenue at \$3.70 billion or 46.0%; Property Tax and Personal Property Replacement Tax revenue at \$870.0 million or 10.7%; other tax and fee revenues at \$1.99 billion or 24.6%; Grants and Intergovernmental revenues at \$1.05 billion or 12.9%; and Miscellaneous and other revenues at \$497.3 million or 6.1%.

The FY 2022 Budget estimates total revenue for the Cook County General and Health Enterprise Funds, which are the two main operating funds, at \$5.87 billion, a \$585.9 million increase, or 11.1%, over the FY 2021 Budget. This total revenue increase for Cook County Health (CCH) of \$471.1 million is primarily driven by increases in CountyCare revenues, which are expected to be \$413.9 million greater than the FY 2021 Budget.

The FY 2022 Budget anticipates General Fund revenues to increase by \$113.1 million, or 6.0%, from the Fiscal Year 2021 appropriation. This increase in the General Fund revenues can be attributed to the easing of COVID-19 restrictions on the local economy, leading to increases in Sales Tax revenues budgeted at \$968.3 million, an increase of \$138.1 million or 16.6% over the Fiscal Year 2021 Budget; County Use Tax revenues budgeted at \$82.0 million, an increase of \$11.9 million, or 17.0% over Fiscal Year 2021; and Amusement Tax revenues budgeted at \$36.3 million, an increase of \$12.0 million, or 49.4%, over Fiscal Year 2021.

The FY 2022 Budget includes County-wide expenditures of \$8.11 billion which are to be allocated to Cook County’s five service areas of Health Care, Public Safety, Property and Taxation, Economic Development and Finance and Administration. Additionally, operating expenses, such as building utility payments and technology maintenance costs, are categorized as Administrative Overhead. Debt service payments on the County’s outstanding bonds and the County’s employer contribution for pension are also major expenditures, with capital expenditures accounting for only 8.2% of the total budget. Two major service areas are Healthcare and Public Safety representing 81.1% of the operating budget when capital, debt service, and pension related payments are excluded. The remaining areas are comprised of Finance and Administration, Economic Development, Property and Taxation and Administrative Overhead, which account for \$1.25 billion of total expenditures. The FY 2022 Budget includes Annuity and Benefit allocations to the Retirement Fund of \$547.2 million, which consist of \$202.2 million in statutory payments and \$325.0 million in supplemental pension payments. In addition, the County is also allocating \$20.0 million to the pension reserve account for future pension payment increases. Beyond that, capital project related expenditures are proposed at \$670.1 million and debt service payments are allocated to be \$289.8 million.

The FY 2022 Budget includes expenses for the Cook County General and Health Enterprise Funds of \$5.87 billion, which is a \$585.9 million increase in total expenses over Fiscal Year 2021. Within CCH,

there is an expected \$471.1 million increase. This increase can be largely attributed to the \$404.1 million increase in managed care claims related to increased membership in the CountyCare healthcare program, which is expected to decline to 390,689 from an expected peak of 422,856 members in December 2021.

The FY 2022 Budget also includes within the General Fund, an increase in costs projected at \$113.1 million or 6.0% over Fiscal Year 2021. Budgeted personnel expenses increased by \$104.5 million or 8.5% in the FY 2021 Budget due to the addition of 388 vacant full-time equivalent positions. Total positions in FY 2022 Budget are 13,934 compared to 13,546 in the Fiscal Year 2021 adopted appropriation, a 2.9% increase. Operations and maintenance costs are projected to increase in the FY 2022 Budget by \$12.7 million or 11.9% due to technology investments. Contractual services, supplies and materials, rental and leasing, capital outlay, and contingencies and special purposes categories are collectively decreasing by \$4.1 million in the FY 2022 Budget.

Additional information regarding the FY 2022 Budget can be found at <http://www.cookcountyil.gov/Budget> which is not intended to be, and should not be interpreted as being, incorporated herein by this reference. See "MISCELLANEOUS" herein.

Source: Fiscal Year 2022 Annual Appropriation Bill.

(1) Property Tax Levy includes Expiring TIF/Incentives & New Property Value Capture and excludes Allowance for Uncollected Taxes.

(2) Includes, among other taxes, the County's Home Rule Sales Tax, Amusement Tax, County Parking Lot Garage and Operations Tax.

(3) Fees include Fees from County Offices, Patient Fees, IGT, DSH & Cable Television Franchise Tax.

(4) Inter-governmental includes Motor Fuel Tax, Off-Track Betting Commissions, Personal Property Replacement Tax, Retailers' and Services Occupation Tax, State Income Derivative Share Grants and Reimbursements from Other Governments.

(5) Other includes Bond Proceeds (Capital Improvement) and Miscellaneous Revenues.

LITIGATION

The County, like other large units of state and local government, is involved in litigation on matters relating principally to claims arising from contracts, personal injury, property damage, tax claims, discrimination, civil rights actions and other matters. See “DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION – Self-Insurance.” However, there is no litigation pending, or, to the best of the County’s knowledge, threatened, seeking to restrain, enjoin or adversely affect the issuance or delivery of the Bonds or in any way contesting the validity or enforceability of the Bonds or, except as disclosed herein, materially affecting the collection, pledge or application of the County’s full faith, credit and taxing power for their payment.

Apart from the specific litigation referenced in this section, the County is also a defendant or possible defendant in other various pending or threatened individual or class action litigation relating principally to claims arising from personal injury, property damage, employment, civil rights actions, medical malpractice, general liability, and workers’ compensation. Projected expenditures associated with these cases could take place over a matter of years. While it is difficult to project both the value and the timing of expenditures associated with such lawsuits, the County’s projected self-insurance liabilities as of November 30, 2021 were \$727.8 million on a discounted basis, including claims projected as incurred but not reported, and claims projected to be paid in the years ahead. Self-insurance projections are based on facts known at the time, and additional information concerning specific cases and the County’s insurance carriers could affect the value and timing of projected expenditures. Taking into account these factors, along with excess liability insurance and the County’s budgeting process relative to self-insurance funds, the County believes that the ultimate resolution of these matters will not have a material adverse effect on the financial position of the County.

Constitutional Amendment Restricting Transportation Funds. On May 5, 2016, the Illinois legislature approved a ballot measure to amend the Revenue Article of the Illinois Constitution (the “Amendment”) and the Amendment was included on the November 8, 2016 general election ballot. On November 8, 2016, the voters of the State approved the Amendment which added a new section to the Revenue Article of the Illinois Constitution. On December 5, 2016, the Illinois State Board of Elections certified that the Amendment had received the constitutionally required majority at the November 8, 2016 election. The Amendment restricts the expenditure of “moneys, including bond proceeds, derived from taxes, fees, excises, or license taxes relating to the registration, title, or operation or use of vehicles, or related to the use for highways, roads, streets, bridges, mass transit, intercity passenger rail, ports, airports, or to fuels used for propelling vehicles, or derived from taxes, fees, excises, or license taxes relating to any other transportation infrastructure or transportation operation” (“*Transportation Revenues*”), to transportation purposes, as more fully described in the Amendment (“*Transportation Purposes*”).

Certain construction interest groups sued the County in 2018, alleging that, the County has “diverted” revenues from certain taxes allegedly subject to the Amendment for purposes other than Transportation Purposes. Such taxes identified by the interest groups are the Cook County Home Rule County Use Tax, Cook County Retail Sale of Gasoline and Diesel Fuel Tax, Cook County New Motor Vehicle and Trailer Excise Tax, Cook County Home Rule Use Tax for Non-Retailer Transfers of Motor Vehicles, Cook County Wheel Tax, and the Cook County Parking Lot and Garage Operations Tax. In 2019, the County won its motion to dismiss the interest groups’ complaint in the Cook County Circuit Court on the grounds that the Amendment does not apply to the County, and in March 2021, the Illinois Appellate Court affirmed the Cook County Circuit Court’s decision. The Illinois Supreme Court then granted the interest groups’ Petition for Leave to Appeal.

On April 21, 2022, the Illinois Supreme Court held in the case of *Illinois Road and Transportation Builders Ass'n, et al. v. County of Cook*, 2022 IL 127126, that the Amendment applies to Transportation Revenues generated through the acts of home rule units of local government like Cook County. The Illinois Supreme Court then remanded the case to the Cook County Circuit Court for further proceedings. The true fiscal impact of the Amendment on the County is not yet known, as litigation continues over the Amendment's scope.

Criminal Courts and Jail Sexual Harassment Litigation. In November 2017, three putative class actions were filed against Cook County, Thomas Dart (Cook County Sheriff), and the Cook County Sheriff's Office. The claims brought against Thomas Dart in his individual capacity were dismissed. One of those putative class actions also named Amy Campanelli and the Office of the Public Defender as a defendant (*Brown*). The two putative class actions against the Sheriff's Office were consolidated into one action (*Howard*). In 2018, three individual actions were filed against the Defendants (*Caloca*, *Ramos*, and *Dave*). The gist of the allegations in all five lawsuits is that Cook County Jail detainees exposed themselves or masturbated in the presence of female employees (Sheriff's Deputies, Assistant Public Defenders, and other County employees) in the lock-ups at the Leighton Criminal Courts Building, the Cook County Jail, and Cermak Health Services of Cook County ("*Cermak*"), thus creating a hostile work environment on the basis of sex. The court entered an agreed preliminary injunction order setting forth steps the Defendants were taking to address the detainees' behaviors and limit the potential for additional incidents. The three individual cases have settled and were paid out in 2019 and 2020: *Caloca* (\$29,999), *Ramos* (\$95,000), and *Dave* (\$95,000). The *Brown* class action settled in 2020 for \$14,000,000. There are four layers of excess insurance coverage above the County's \$15 million self-insured retention (SIR): The first layer is \$5 million, and the next three layers are \$10 million each. The *Brown* settlement was funded by (1) the remainder of the County's SIR, (2) \$5 million from the carrier providing the first layer of excess coverage, and (3) the remaining amount being paid by a portion of the second layer of excess coverage. The only suit remaining is *Howard*. In that case, the trial court's grant of class certification (of approximately 2,100 employee) was reversed by the Seventh Circuit in March 2021. Consequently, it is now proceeding as a mass action of 561 individual plaintiffs. In July 2022, the parties reached a settlement of \$31,000,000, but in order for the settlement to be binding at least 95% or 533 of the 561 individual plaintiffs must sign on. If 95% or more of the individual plaintiffs sign on, then the settlement payout will exhaust the remaining excess coverage (of approximately \$28.5 million) and include a payout of County funds.

Keith Rogers v. Dart & Cook County. This claim was brought by three former detainees at the Cook County Jail on their own behalf and on behalf of a class of similarly situated individuals. The three named Plaintiffs have Section 1983 claims pursuant to the Eighth and Fourteenth Amendments for delay in methadone treatment, and due to Cook County Health's historical policy of mandatorily "tapering" patients' methadone use. Plaintiffs allege that while in custody, they were not provided methadone in a timely manner, and that once they were provided methadone it was tapered down each day. They allege that this caused them painful withdrawal symptoms, in violation of their Eighth and Fourteenth Amendment rights. Plaintiffs further allege *Monell* (pattern and practice) claims that the County and the Sheriff had a practice of denying detainees enrolled in methadone programs their methadone for more than 3 days, and that the Cermak Health Services program to taper methadone use was deliberate indifference to the detainees' medical needs. The case is defensible in that the County's methadone taper program has been approved by various federal agencies that regulate methadone programs, and that it was one of the few detention facilities in the country to provide methadone to detainees. The district court has certified two subclasses on the issue of mandatory tapering only – one for pretrial detainees, and one for post-trial detainees. The period for both classes is December 23, 2013 to October 7, 2019. Expert reports and discovery will occur in the coming months.

Estate of Helena Lukasik, et al. v. Dart, et al. This matter involves the death of two sisters in an automobile accident with Sheriff's Deputy Thomas Nortman, who at the time of the accident was driving

to work in a Sheriff's vehicle owned by the County. Prosecutors allege that at the time of the accident, Nortman was traveling at a high rate of speed in a 35 mile per hour zone, weaving in and out of traffic without his emergency lights activated. The issues in the case include whether Nortman was acting within the scope of his employment at the time of the accident. In July, 2022, the case settled in principle for \$8,500,000, and that amount has been approved by the Finance Subcommittee on Litigation on July 20, 2022. The settlement will be paid once approved by the Finance Committee and then by the full Cook County Board of Commissioners at their September, 2022 meetings.

Matthew Sopron v. Scott Cassidy, et al. This matter involves Section 1983 and constitutional claims, as well as a state law malicious prosecution claim, by a plaintiff who was incarcerated for 20 years on two murder convictions until his conviction was vacated. Plaintiff was not present at the time of the murders, but was alleged by prosecutors to have ordered the shooting to be carried out. The case is in the fact discovery stage.

Cook County Sheriff's Merit Board Litigation: Goral, Matthew, et al. v. Dart, Cook County, and the Cook County Sheriff's Merit Board, and similar cases. In this case, the Sheriff brought charges against six Plaintiffs for violating the Sheriff's rules, regulations, and code of conduct and sought their termination. The Sheriff brought written charges in the Merit Board against each Plaintiff between September 2016 and July 2017. All of the Plaintiffs were placed on unpaid leaves of absence while the Merit Board was considering their cases. Plaintiffs filed their lawsuit in the Cook County Circuit Court on November 27, 2017, before the Merit Board made any decisions on the Sheriff's written charges against them. The Plaintiffs' Second Amended Complaint alleges that the Merit Board suffered from compositional appointment defects that render any Merit Board actions void. The Sheriff filed two motions to dismiss the Second Amended Complaint. The Circuit Court granted the Sheriff's first motion on July 28, 2018, on the ground that Plaintiffs had not exhausted their administrative remedies before the Merit Board. On that basis, the Circuit Court required Plaintiffs to return to the Merit Board and argue their appointment challenges before the Merit Board, along with the underlying disciplinary charges against them. The Circuit Court did not reach the issues raised in the Sheriff's second motion, including whether the post-December 2017 Merit Board is properly appointed. The Merit Board exonerated five of the six Plaintiffs (Goral, Mendez, Stojkovic, Badon and Evans), and returned them to paid and working status at the Sheriff's Office. The five exonerated Plaintiffs continue to seek back pay and benefits for the time they were on unpaid leave, and the Sheriff disputes the amount of back pay and benefits Plaintiffs claim they are owed. Plaintiffs appealed the decision on exhaustion, and the Illinois Appellate Court found in Plaintiffs' favor, holding that Plaintiffs did not have to exhaust their administrative remedies on their claims because they had challenged the authority of the Merit Board to address the charges. The Sheriff sought review in the Illinois Supreme Court. On October 22, 2020, the Illinois Supreme Court affirmed the judgment of the Appellate Court and remanded the case to the Circuit Court for further proceedings to the extent claims had not been "rendered moot" during the appeal. On remand, the Sheriff, joined by the County, moved to dismiss the Second Amended Complaint on legal grounds not addressed in the prior Appellate Court and Supreme Court opinions. On January 31, 2022, the Circuit Court granted the Defendants' motions, and dismissed the Second Amended Complaint without prejudice and with leave to replead. On February 22, 2022, Plaintiffs filed a Third Amended Complaint, as well as to strike the class-action allegations in that complaint. These motions to dismiss remain pending. Because plaintiffs seek to file a class action here, the potential exposure extends beyond the Plaintiffs in this case to other cases with procedural histories similar to *Goral*, and the back pay in these cases may be significant.

Hiring Discrimination Class Action: Monae v. Dart, 18 C 424; Simpson v. Dart, 18 C 553. This matter involves a putative class action alleging race discrimination in the process of certifying and hiring candidates for correctional officer positions within the Cook County Jail. Plaintiffs allege that African American applicants were intentionally discriminated against by the Sheriff and the Sheriff's Merit Board. The claims are 1) Title VII- Disparate Impact; 2) Title VII- Disparate Treatment; 3) Equal Protection -

Section 1983; 4) Section 1981; 5) Illinois Civil Rights Act and 6) Indemnification against Cook County. These claims arise out of the certification process used by the Merit Board, and following certification; those hiring processes used by the Sheriff's Office to hire correctional officers. Damages under Title VII would include equitable relief (instatement, declaratory relief, and back pay) as well as legal relief (compensatory and punitive damages) and the same generally would hold true for a Section 1981 claim. Section 1981 has no caps, unlike Title VII, which has damage caps on compensatory and punitive damages. Also, all the federal claims carry a fee-shifting provision. In September 2021, the district court denied class certification. On January 6, 2022, the Seventh Circuit reversed the denial of class certification. Following this reversal, the parties conducted supplemental briefing of Plaintiffs' motion for class certification, and the motion is thus once again pending before the district court.

Medical Malpractice Litigation: Victoria Marin on behalf of minor, Sebastian Marin v. St. Anthony's Hospital and Cook County. This matter involves a labor and delivery that resulted in catastrophic, permanent injuries to the minor plaintiff, Sebastian Marin. Plaintiff, Victoria Marin, is the mother of Sebastian Marin, a minor, who was born on August 18, 2015, at co-defendant St. Anthony Hospital. Dr. Vazquez, a former Cook County family medicine physician, was assigned as Ms. Marin's admitting attendee. An Amended Complaint was filed by the Plaintiff that no longer names any individual Cook County physicians; it now names Cook County as a direct defendant and alleges the physicians were actual and/or apparent agents of Cook County under a respondeat superior theory. It is too early in this case to fully assess value, however, birth injury cases in Cook County have exceedingly high value potential, with recent verdicts and settlements between \$50 million and \$101 million.

Clarrisha Flowers (Estate of Shania Williams) v. County of Cook, et al. Plaintiff alleges that Cook County is liable through its agents at Stroger Hospital for negligence under theories of wrongful death and the survival act for failing to treat superimposed preeclampsia; failing to recognize the significance of superimposed preeclampsia in conjunction with sickle cell crisis; failing to monitor the fetal condition; and failing to timely deliver. In July, 2022, the case settled in principle for \$9,750,000, and that amount has been approved by the Finance Subcommittee on Litigation on July 20, 2022. The settlement will be paid once approved by the Finance Committee and then by the full Cook County Board of Commissioners at their September, 2022 meetings.

RATINGS

The Bonds have been assigned the underlying ratings of "A2" (positive outlook) by Moody's, "A+" (stable outlook) by S&P and "AA-" (stable outlook) by Fitch, respectively.

A rating reflects only the views of the rating agency assigning such rating and an explanation of the significance of such rating may be obtained from the respective rating agencies.

The County has furnished to Moody's, S&P and Fitch certain information and materials relating to the Bonds and the County, including certain information and materials that have not been included in this Official Statement. Generally, rating agencies base their ratings on such information and materials and investigations, studies and assumptions by the respective rating agency. There is no assurance that any rating of the Bonds will continue for any given period of time, or that any rating of the Bonds will not be revised downward or withdrawn entirely by any such rating agency if, in its judgment, circumstances so warrant. Any such downward revision or withdrawal of any such rating may have an adverse effect on the market price of the Bonds.

A securities rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time.

TAX MATTERS

Series 2022A Bonds

Federal Income Taxes

The Internal Revenue Code of 1986, as amended (the “Code”), imposes certain requirements that must be met subsequent to the issuance and delivery of the Series 2022A Bonds for interest thereon to be and remain excluded from gross income for federal income tax purposes. Noncompliance with such requirements could cause the interest on the Series 2022A Bonds to be included in gross income for federal income tax purposes retroactive to the date of issue of the Series 2022A Bonds. Pursuant to the Bond Ordinance and a Tax Regulatory Agreement dated the date of delivery of the Series 2022A Bonds (the “*Tax Certificate*”), the County has covenanted to comply with the applicable requirements of the Code in order to maintain the exclusion of the interest on the Series 2022A Bonds from gross income for federal income tax purposes under Section 103 of the Code. In addition, the County has made certain representations and certifications in the Tax Certificate. Co-Bond Counsel will not independently verify the accuracy of those representations and certifications.

In the opinion of Nixon Peabody LLP and Hardwick Law Firm, LLC, Co-Bond Counsel, under existing law and assuming compliance with the aforementioned covenants, and the accuracy of certain representations and certifications made by the County described above, interest on the Series 2022A Bonds is excluded from gross income for federal income tax purposes under Section 103 of the Code. Co-Bond Counsel is also of the opinion that such interest is not treated as a preference item in calculating the alternative minimum tax imposed under the Code.

State Taxes

Interest on the Series 2022A Bonds is not exempt from present Illinois income taxes. Co-Bond Counsel expresses no opinion as to other state or local tax consequences arising with respect to the Series 2021A Bonds nor as to the taxability of the Series 2022A Bonds or the income therefrom under the laws of any jurisdiction other than the State.

Original Issue Discount

Co-Bond Counsel is further of the opinion that the excess of the principal amount of a maturity of the Series 2022A Bonds over its issue price (i.e., the first price at which price a substantial amount of such maturity of the Series 2022A Bonds was sold to the public, excluding bond houses, brokers or similar persons or organizations acting in the capacity of underwriters or wholesalers) (each a “*Discount Series 2022A Bond*” and collectively, the “*Discount Series 2022A Bonds*”) constitutes original issue discount which is excluded from gross income for federal income tax purposes to the same extent as interest on the Series 2022A Bonds. Further, such original issue discount accrues actuarially on a constant interest rate basis over the term of each Discount Series 2022A Bond and the basis of each Discount Series 2022A Bond acquired at such issue price by an initial purchaser thereof will be increased by the amount of such accrued original issue discount. The accrual of original issue discount may be taken into account as an increase in the amount of tax-exempt income for purposes of determining various other tax consequences of owning the Discount Series 2022A Bonds, even though there will not be a corresponding cash payment. Owners of the Discount Series 2022A Bonds are advised that they should consult with their own advisors with respect to the state and local tax consequences of owning such Discount Series 2022A Bonds.

Original Issue Premium

Series 2022A Bonds sold at prices in excess of their principal amounts are “*Premium Bonds*”. An initial purchaser with an initial adjusted basis in a Premium Bond in excess of its principal amount will have amortizable bond premium which offsets the amount of tax-exempt interest and is not deductible from gross income for federal income tax purposes. The amount of amortizable bond premium for a taxable year is determined actuarially on a constant interest rate basis over the term of each Premium Bond based on the purchaser’s yield to maturity (or, in the case of Premium Bonds callable prior to their maturity, over the period to the call date, based on the purchaser’s yield to the call date and giving effect to any call premium). For purposes of determining gain or loss on the sale or other disposition of a Premium Bond, an initial purchaser who acquires such obligation with an amortizable bond premium is required to decrease such purchaser’s adjusted basis in such Premium Bond annually by the amount of amortizable bond premium for the taxable year. The amortization of bond premium may be taken into account as a reduction in the amount of tax-exempt income for purposes of determining various other tax consequences of owning such Premium Bonds. Owners of the Premium Bonds are advised that they should consult with their own advisors with respect to the state and local tax consequences of owning such Premium Bonds.

Ancillary Tax Matters

Ownership of the Series 2022A Bonds may result in other federal tax consequences to certain taxpayers, including, without limitation, certain S corporations, foreign corporations with branches in the United States, property and casualty insurance companies, individuals receiving Social Security or Railroad Retirement benefits, individuals seeking to claim the earned income credit, and taxpayers (including banks, thrift institutions and other financial institutions) who may be deemed to have incurred or continued indebtedness to purchase or to carry the Series 2022A Bonds. Prospective investors are advised to consult their own tax advisors regarding these rules.

Interest paid on tax-exempt obligations such as the Series 2022A Bonds is subject to information reporting to the Internal Revenue Service (the “*IRS*”) in a manner similar to interest paid on taxable obligations. In addition, interest on the Series 2022A Bonds may be subject to backup withholding if such interest is paid to a registered owner that (a) fails to provide certain identifying information (such as the registered owner’s taxpayer identification number) in the manner required by the IRS, or (b) has been identified by the IRS as being subject to backup withholding.

Co-Bond Counsel is not rendering any opinion as to any federal tax matters with respect to the Series 2022A Bonds other than those described in the opinion attached as Appendix F hereto relating to the Series 2022A Bonds. Prospective investors, particularly those who may be subject to special rules described above, are advised to consult their own tax advisors regarding the federal tax consequences of owning and disposing of the Series 2022A Bonds, as well as any tax consequences arising under the laws of any state or other taxing jurisdiction.

Changes in Law and Post Issuance Events

Legislative or administrative actions and court decisions, at either the federal or state level, could have an adverse impact on the potential benefits of the exclusion from gross income of the interest on the Series 2022A Bonds for federal or state income tax purposes, and thus on the value or marketability of the Series 2022A Bonds. This could result from changes to federal or state income tax rates, changes in the structure of federal or state income taxes (including replacement with another type of tax), repeal of the exclusion of the interest on the Series 2022A Bonds from gross income for federal or state income tax purposes, or otherwise. It is not possible to predict whether any legislative or administrative actions or court decisions having an adverse impact on the federal or state income tax treatment of holders of the

Series 2022A Bonds may occur. Prospective purchasers of the Series 2022A Bonds should consult their own tax advisors regarding the impact of any change in law on the Series 2022A Bonds.

Co-Bond Counsel has not undertaken to advise in the future whether any events after the date of issuance and delivery of the Series 2022A Bonds may affect the tax status of interest on the Series 2022A Bonds. Co-Bond Counsel expresses no opinion as to any federal, state or local tax law consequences with respect to the Series 2022A Bonds, or the interest thereon, if any action is taken with respect to the Series 2022A Bonds or the proceeds thereof upon the advice or approval of other counsel.

Series 2022B Bonds

Federal Income Taxes

The following is a summary of certain anticipated United States federal income tax consequences of the purchase, ownership and disposition of the Series 2022B Bonds. The summary is based upon the provisions of the Code, the Treasury Regulations promulgated thereunder and the judicial and administrative rulings and decisions now in effect, all of which are subject to change. Such authorities may be repealed, revoked, or modified, possibly with retroactive effect, so as to result in United States federal income tax consequences different from those described below. The summary generally addresses Series 2022B Bonds held as capital assets within the meaning of Section 1221 of the Code and does not purport to address all aspects of federal income taxation that may affect particular investors in light of their individual circumstances or certain types of investors subject to special treatment under the federal income tax laws, including but not limited to financial institutions, insurance companies, dealers in securities or currencies, persons holding such Series 2022B Bonds as a hedge against currency risks or as a position in a “straddle,” “hedge,” “constructive sale transaction” or “conversion transaction” for tax purposes, or persons whose functional currency is not the United States dollar. It also does not deal with holders other than original purchasers that acquire Series 2022B Bonds at their initial issue price except where otherwise specifically noted. Potential purchasers of the Series 2022B Bonds should consult their own tax advisors in determining the federal, state, local, foreign and other tax consequences to them of the purchase, holding and disposition of the Series 2022B Bonds.

The County has not sought and will not seek any rulings from the IRS with respect to any matter discussed herein. No assurance can be given that the IRS would not assert, or that a court would not sustain, a position contrary to any of the tax characterizations and tax consequences set forth below.

U.S. Holders

As used herein, the term “*U.S. Holder*” means a beneficial owner of Series 2022B Bonds that is (a) an individual citizen or resident of the United States for federal income tax purposes, (b) a corporation, including an entity treated as a corporation for federal income tax purposes, created or organized in or under the laws of the United States or any state thereof (including the District of Columbia), (c) an estate whose income is subject to federal income taxation regardless of its source, or (d) a trust if a court within the United States can exercise primary supervision over the administration of the trust and one or more U.S. persons have the authority to control all substantial decisions of the trust. Notwithstanding clause (d) of the preceding sentence, to the extent provided in Treasury regulations, certain trusts in existence on August 20, 1996, and treated as United States persons prior to that date that elect to continue to be treated as United States persons also will be U.S. Holders. In addition, if a partnership (or other entity or arrangement treated as a partnership for federal income tax purposes) holds Series 2022B Bonds, the tax treatment of a partner in the partnership generally will depend upon the status of the partner and the activities of the partnership. If a U.S. Holder is a partner in a partnership (or other entity or arrangement treated as a partnership for federal income tax purposes) that holds Series 2022B Bonds, the U.S. Holder

is urged to consult its own tax advisor regarding the specific tax consequences of the purchase, ownership and dispositions of the Series 2022B Bonds.

Taxation of Interest Generally

Interest on the Series 2022B Bonds is not excluded from gross income for federal income tax purposes under Section 103 of the Code and so will be fully subject to federal income taxation. Purchasers will be subject to federal income tax accounting rules affecting the timing and/or characterization of payments received with respect to such Series 2022B Bonds. In general, interest paid on the Series 2022B Bonds and recovery of any accrued original issue discount and market discount will be treated as ordinary income to a bondholder, and after adjustment for the foregoing, principal payments will be treated as a return of capital to the extent of the U.S. Holder's adjusted tax basis in the Series 2022B Bonds and capital gain to the extent of any excess received over such basis.

Recognition of Income Generally

Section 451(b) of the Code provides that purchasers using an accrual method of accounting for U.S. federal income tax purposes may be required to include certain amounts in income no later than the time such amounts are reflected on certain financial statements of such purchaser. In this regard, Treasury Regulations provide that, with the exception of certain fees, the rule in section 451(b) will generally not apply to the timing rules for original issue discount and market discount, or to the timing rules for de minimis original issue discount and market discount. Prospective purchasers of the Series 2022B Bonds should consult their own tax advisors regarding any potential applicability of these rules and their impact on the timing of the recognition of income related to the Series 2022B Bonds under the Code.

Original Issue Discount

The following summary is a general discussion of certain federal income tax consequences of the purchase, ownership and disposition of Series 2022B Bonds issued with original issue discount ("*Discount Series 2022B Bonds*"). A Series 2022B Bond will be treated as having been issued with an original issue discount if the excess of its "stated redemption price at maturity" (defined below) over its issue price (defined as the initial offering price to the public at which a substantial amount of the Series 2022B Bonds of the same maturity have first been sold to the public, excluding bond houses and brokers) equals or exceeds one quarter of one percent of such Series 2022B Bond's stated redemption price at maturity multiplied by the number of complete years to its maturity (or, in the case of an installment obligation, its weighted average maturity).

A Series 2022B Bond's "stated redemption price at maturity" is the total of all payments provided by the Series 2022B Bond that are not payments of "qualified stated interest." Generally, the term "qualified stated interest" includes stated interest that is unconditionally payable in cash or property (other than debt instruments of the issuer) at least annually at a single fixed rate or certain floating rates.

In general, the amount of original issue discount includible in income by the initial holder of a Discount Series 2022B Bond is the sum of the "daily portions" of original issue discount with respect to such Discount Series 2022B Bond for each day during the taxable year in which such holder held such Series 2022B Bond. The daily portion of original issue discount on any Discount Series 2022B Bond is determined by allocating to each day in any "accrual period" a ratable portion of the original issue discount allocable to that accrual period.

An accrual period may be of any length, and may vary in length over the term of a Discount Series 2022B Bond, provided that each accrual period is not longer than one year and each scheduled payment of

principal or interest occurs at the end of an accrual period. The amount of original issue discount allocable to each accrual period is equal to the difference between (i) the product of the Discount Series 2022B Bond's adjusted issue price at the beginning of such accrual period and its yield to maturity (determined on the basis of compounding at the close of each accrual period and appropriately adjusted to take into account the length of the particular accrual period) and (ii) the amount of any qualified stated interest payments allocable to such accrual period. The "adjusted issue price" of a Discount Series 2022B Bond at the beginning of any accrual period is the sum of the issue price of the Discount Series 2022B Bond plus the amount of original issue discount allocable to all prior accrual periods minus the amount of any prior payments on the Discount Series 2022B Bond that were not qualified stated interest payments. Under these rules, holders generally will have to include in income increasingly greater amounts of original issue discount in successive accrual periods.

Holders utilizing the accrual method of accounting may generally, upon election, include in gross income all interest (including stated interest, acquisition discount, original issue discount, de minimis original issue discount, market discount, de minimis market discount, and unstated interest, as adjusted by any amortizable bond premium or acquisition premium) on a Series 2022B Bond by using the constant yield method applicable to original issue discount, subject to certain limitations and exceptions.

Market Discount

A holder who purchases a Series 2022B Bond at a price which includes market discount (i.e., at a purchase price that is less than its adjusted issue price in the hands of an original owner) in excess of a prescribed de minimis amount will be required to recharacterize all or a portion of the gain as ordinary income upon receipt of each scheduled or unscheduled principal payment or upon other disposition. In particular, such holder will generally be required either (a) to allocate each such principal payment to accrued market discount not previously included in income and to recognize ordinary income to that extent and to treat any gain upon sale or other disposition of such a Series 2022B Bond as ordinary income to the extent of any remaining accrued market discount or (b) to elect to include such market discount in income currently as it accrues on all market discount instruments acquired by such holder on or after the first day of the taxable year to which such election applies.

The Code authorizes the Treasury Department to issue regulations providing for the method for accruing market discount on debt instruments the principal of which is payable in more than one installment. Until such time as regulations are issued by the Treasury Department, certain rules described in the legislative history of the Tax Reform Act of 1986 will apply. Under those rules, market discount will be included in income either (a) on a constant interest basis or (b) in proportion to the accrual of stated interest.

A holder of a Series 2022B Bond who acquires such Series 2022B Bond at a market discount also may be required to defer, until the maturity date of such Series 2022B Bond or the earlier disposition in a taxable transaction, the deduction of a portion of the amount of interest that the holder paid or accrued during the taxable year on indebtedness incurred or maintained to purchase or carry a Series 2022B Bond in excess of the aggregate amount of interest (including original issue discount) includible in such holder's gross income for the taxable year with respect to such Series 2022B Bond. The amount of such net interest expense deferred in a taxable year may not exceed the amount of market discount accrued on the Series 2022B Bond for the days during the taxable year on which the holder held the Series 2022B Bond and, in general, would be deductible when such market discount is includable in income. The amount of any remaining deferred deduction is to be taken into account in the taxable year in which the Series 2022B Bond matures or is disposed of in a taxable transaction. In the case of a disposition in which gain or loss is not recognized in whole or in part, any remaining deferred deduction will be allowed to the extent gain is recognized on the disposition. This deferral rule does not apply if the bondholder elects to include such market discount in income currently as described above.

Bond Premium

A holder of a Series 2022B Bond who purchases such Series 2022B Bond at a cost greater than its remaining redemption amount will have amortizable bond premium. If the holder elects to amortize this premium under Section 171 of the Code (which election will apply to all Series 2022B Bonds held by the holder on the first day of the taxable year to which the election applies and to all Series 2022B Bonds thereafter acquired by the holder), such a holder must amortize the premium using constant yield principles based on the holder's yield to maturity. Amortizable bond premium is generally treated as an offset to interest income, and a reduction in basis is required for amortizable bond premium that is applied to reduce interest payments. Purchasers of Series 2022B Bonds who acquire such Series 2022B Bonds at a premium should consult with their own tax advisors with respect to federal, state and local tax consequences of owning such Series 2022B Bonds.

Surtax on Unearned Income

Section 1411 of the Code generally imposes a tax of 3.8% on the "net investment income" of certain individuals, trusts and estates. Among other items, net investment income generally includes gross income from interest and net gain attributable to the disposition of certain property, less certain deductions. U.S. Holders should consult their own tax advisors regarding the possible implications of this provision in their particular circumstances.

Sale or Redemption of Series 2022B Bonds

A bondholder's adjusted tax basis for a Series 2022B Bond is the price such holder pays for the Series 2022B Bond plus the amount of original issue discount and market discount previously included in income and reduced on account of any payments received on such Series 2022B Bond other than "qualified stated interest" and any amortized bond premium. Gain or loss recognized on a sale, exchange or redemption of a Series 2022B Bond, measured by the difference between the amount realized and the bondholder's tax basis as so adjusted, will generally give rise to capital gain or loss if the Series 2022B Bond is held as a capital asset (except in the case of Series 2022B Bonds acquired at a market discount, in which case a portion of the gain will be characterized as interest and therefore ordinary income).

If the terms of a Series 2022B Bond are materially modified, in certain circumstances, a new debt obligation would be deemed "reissued", or created and exchanged for the prior obligation in a taxable transaction. Among the modifications which may be treated as material are those related to the redemption provisions and, in the case of a nonrecourse obligation, those which involve the substitution of collateral. In addition, the defeasance of a Series 2022B Bond under the defeasance provisions of the Bond Ordinance could result in a deemed sale or exchange of such Series 2022B Bond.

EACH POTENTIAL HOLDER OF SERIES 2022B BONDS SHOULD CONSULT ITS OWN TAX ADVISOR CONCERNING (1) THE TREATMENT OF GAIN OR LOSS ON SALE, REDEMPTION OR DEFEASANCE OF THE SERIES 2022B BONDS, AND (2) THE CIRCUMSTANCES IN WHICH SERIES 2022B BONDS WOULD BE DEEMED REISSUED AND THE LIKELY EFFECTS, IF ANY, OF SUCH REISSUANCE.

Non-U.S. Holders

The following is a general discussion of certain United States federal income tax consequences resulting from the beneficial ownership of Series 2022B Bonds by a person other than a U.S. Holder, a former United States citizen or resident, or a partnership or entity treated as a partnership for United States federal income tax purposes (a "Non-U.S. Holder").

Subject to the discussion of backup withholding and the Foreign Account Tax Compliance Act (“*FATCA*”), payments of principal by the County or any of its agents (acting in its capacity as agent) to any Non-U.S. Holder will not be subject to federal withholding tax. In the case of payments of interest to any Non-U.S. Holder, however, federal withholding tax will apply unless the Non-U.S. Holder (1) does not own (actually or constructively) 10 percent or more of the voting equity interests of the County, (2) is not a controlled foreign corporation for United States tax purposes that is related to the County (directly or indirectly) through stock ownership, and (3) is not a bank receiving interest in the manner described in Section 881(c)(3)(A) of the Code. In addition, either (1) the Non-U.S. Holder must certify on the applicable IRS Form W-8 (series) (or successor form) to the County, its agents or paying agents or a broker under penalties of perjury that it is not a U.S. person and must provide its name and address, or (2) a securities clearing organization, bank or other financial institution, that holds customers’ securities in the ordinary course of its trade or business and that also holds the Series 2022B Bonds must certify to the County or its agent under penalties of perjury that such statement on the applicable IRS Form W-8 (series) (or successor form) has been received from the Non-U.S. Holder by it or by another financial institution and must furnish the interest payor with a copy.

Interest payments may also be exempt from federal withholding tax depending on the terms of an existing federal income tax treaty, if any, in force between the U.S. and the resident country of the Non-U.S. Holder. The U.S. has entered into an income tax treaty with a limited number of countries. In addition, the terms of each treaty differ in their treatment of interest and original issue discount payments. Non-U.S. Holders are urged to consult their own tax advisor regarding the specific tax consequences of the receipt of interest payments, including original issue discount. A Non-U.S. Holder that does not qualify for exemption from withholding as described above must provide the County or its agent with documentation as to his, her, or its identity to avoid the U.S. backup withholding tax on the amount allocable to a Non-U.S. Holder. The documentation may require that the Non-U.S. Holder provide a U.S. tax identification number.

If a Non-U.S. Holder is engaged in a trade or business in the United States and interest on a Series 2022B Bond held by such holder is effectively connected with the conduct of such trade or business, the Non-U.S. Holder, although exempt from the withholding tax discussed above (provided that such holder timely furnishes the required certification to claim such exemption), may be subject to United States federal income tax on such interest in the same manner as if it were a U.S. Holder. In addition, if the Non-U.S. Holder is a foreign corporation, it may be subject to a branch profits tax equal to 30% (subject to a reduced rate under an applicable treaty) of its effectively connected earnings and profits for the taxable year, subject to certain adjustments. For purposes of the branch profits tax, interest on a Series 2022B Bond will be included in the earnings and profits of the holder if the interest is effectively connected with the conduct by the holder of a trade or business in the United States. Such a holder must provide the payor with a properly executed IRS Form W-8ECI (or successor form) to claim an exemption from United States federal withholding tax.

Generally, any capital gain realized on the sale, exchange, retirement or other disposition of a Series 2022B Bond by a Non-U.S. Holder will not be subject to United States federal income or withholding taxes if (1) the gain is not effectively connected with a United States trade or business of the Non-U.S. Holder, and (2) in the case of an individual, the Non-U.S. Holder is not present in the United States for 183 days or more in the taxable year of the sale, exchange, retirement or other disposition, and certain other conditions are met.

For newly issued or reissued obligations, such as the Series 2022B Bonds, FATCA imposes U.S. withholding tax on interest payments and, for dispositions after December 31, 2018, gross proceeds of the sale of the Series 2022B Bonds paid to certain foreign financial institutions (which is broadly defined for this purpose to generally include non-U.S. investment funds) and certain other non-U.S. entities if certain

disclosure and due diligence requirements related to U.S. accounts or ownership are not satisfied, unless an exemption applies. An intergovernmental agreement between the United States and an applicable non-U.S. country may modify these requirements. In any event, bondholders or beneficial owners of the Series 2022B Bonds shall have no recourse against the County, nor will the County be obligated to pay any additional amounts to “gross up” payments to such persons, as a result of any withholding or deduction for, or on account of, any present or future taxes, duties, assessments or government charges with respect to payments in respect of the Series 2022B Bonds. However, it should be noted that on December 13, 2018, the IRS issued Proposed Treasury Regulation Section 1.1473-1(a)(1) which proposes to remove gross proceeds from the definition of “withholdable payment” for this purpose.

Non-U.S. Holders should consult their own tax advisors with respect to the possible applicability of federal withholding and other taxes upon income realized in respect of the Series 2022B Bonds.

Information Reporting and Backup Withholding

For each calendar year in which the Series 2022B Bonds are outstanding, the County, its agents or paying agents or a broker is required to provide the IRS with certain information, including a holder’s name, address and taxpayer identification number (either the holder’s Social Security number or its employer identification number, as the case may be), the aggregate amount of principal and interest paid to that holder during the calendar year and the amount of tax withheld, if any. This obligation, however, does not apply with respect to certain U.S. Holders, including corporations, tax-exempt organizations, qualified pension and profit sharing trusts, and individual retirement accounts and annuities.

If a U.S. Holder subject to the reporting requirements described above fails to supply its correct taxpayer identification number in the manner required by applicable law or under-reports its tax liability, the County, its agents or paying agents or a broker may be required to make “backup” withholding of tax on each payment of interest or principal on the Series 2022B Bonds. This backup withholding is not an additional tax and may be credited against the U.S. Holder’s federal income tax liability, provided that the U.S. Holder furnishes the required information to the IRS.

Under current Treasury Regulations, backup withholding and information reporting will not apply to payments of interest made by the County, its agents (in their capacity as such) or paying agents or a broker to a Non-U.S. Holder if such holder has provided the required certification that it is not a U.S. person (as set forth in the second paragraph under “Non-U.S. Holders” above), or has otherwise established an exemption (provided that neither the County nor its agent has actual knowledge that the holder is a U.S. person or that the conditions of an exemption are not in fact satisfied).

Payments of the proceeds from the sale of a Series 2022B Bond to or through a foreign office of a broker generally will not be subject to information reporting or backup withholding. However, information reporting (but not backup withholding) may apply to those payments if the broker is one of the following: (i) a U.S. person; (ii) a controlled foreign corporation for U.S. tax purposes; (iii) a foreign person 50-percent or more of whose gross income from all sources for the three-year period ending with the close of its taxable year preceding the payment was effectively connected with a United States trade or business; or (iv) a foreign partnership with certain connections to the United States.

Payment of the proceeds from a sale of a Series 2022B Bond to or through the United States office of a broker is subject to information reporting and backup withholding unless the holder or beneficial owner certifies as to its taxpayer identification number or otherwise establishes an exemption from information reporting and backup withholding.

The preceding federal income tax discussion is included for general information only and may not be applicable depending upon a holder's particular situation. Holders should consult their tax advisors with respect to the tax consequences to them of the purchase, ownership and disposition of the Series 2022B Bonds, including the tax consequences under federal, state, local, foreign and other tax laws and the possible effects of changes in those tax laws.

State Taxes

Interest on the Series 2022B Bonds is not exempt from present Illinois income taxes. Co-Bond Counsel expresses no opinion as to any state or local tax consequences arising with respect to the Series 2022B Bonds nor as to the taxability of the Series 2022B Bonds or the income therefrom under the laws of any jurisdiction other than the State.

Changes in Law and Post Issuance Events

Legislative or administrative actions and court decisions, at either the federal or state level, could have an impact on the inclusion in gross income of interest on the Series 2022B Bonds for federal or state income tax purposes, and thus on the value or marketability of the Series 2022B Bonds. This could result from changes to federal or state income tax rates, changes in the structure of federal or state income taxes (including replacement with another type of tax), or otherwise. It is not possible to predict whether any such legislative or administrative actions or court decisions will occur or have an adverse impact on the federal or state income tax treatment of holders of the Series 2022B Bonds. Prospective purchasers of the Series 2022B Bonds should consult their own tax advisors regarding the impact of any change in law or proposed change in law on the Series 2022B Bonds.

IN ALL EVENTS, ALL INVESTORS SHOULD CONSULT THEIR OWN TAX ADVISORS IN DETERMINING THE FEDERAL, STATE, LOCAL, FOREIGN AND OTHER TAX CONSEQUENCES TO THEM OF THE PURCHASE, OWNERSHIP AND DISPOSITION OF THE SERIES 2022B BONDS.

Consideration for ERISA and Other U.S. Benefit Plan Investors

The Employee Retirement Income Security Act of 1974, as amended ("*ERISA*"), imposes certain fiduciary obligations and prohibited transaction restrictions on employee pension and welfare benefit plans subject to Title I of ERISA ("*ERISA Plans*"). Section 4975 of the Code imposes essentially the same prohibited transaction restrictions on tax-qualified retirement plans described in Section 401(a) and 403(a) of the Code, which are exempt from tax under Section 501(a) of the Code, other than governmental and church plans as defined herein ("*Qualified Retirement Plans*"), and on Individual Retirement Accounts ("*IRAs*") described in Section 408(b) of the Code (collectively, "*Tax-Favored Plans*"). Certain employee benefit plans such as governmental plans (as defined in Section 3(32) of ERISA) ("*Governmental Plans*"), and, if no election has been made under Section 410(d) of the Code, church plans (as defined in Section 3(33) of ERISA) ("*Church Plans*"), are not subject to ERISA requirements. Additionally, such Governmental and Church Plans are not subject to the requirements of Section 4975 of the Code but may be subject to applicable federal, state or local law ("*Similar Laws*") which is, to a material extent, similar to the foregoing provisions of ERISA or the Code. Accordingly, assets of such plans may be invested in the Bonds without regard to the ERISA and Code considerations described below, subject to the provisions of Similar Laws.

In addition to the imposition of general fiduciary obligations, including those of investment prudence and diversification and the requirement that a plan's investment be made in accordance with the documents governing the plan, Section 406 of ERISA and Section 4975 of the Code prohibit a broad range of transactions involving assets of ERISA Plans and Tax-Favored Plans and entities whose underlying

assets include plan assets by reason of ERISA Plans or Tax-Favored Plans investing in such entities (collectively, “Benefit Plans”) and persons who have certain specified relationships to the Benefit Plans (“Parties In Interest” or “Disqualified Persons”), unless a statutory or administrative exemption is available. The definitions of “Party in Interest” and “Disqualified Person” are expansive. While other entities may be encompassed by these definitions, they include, most notably: (1) fiduciary with respect to a plan; (2) a person providing services to a plan; (3) an employer or employee organization any of whose employees or members are covered by the plan; and (4) the owner of an IRA. Certain Parties in Interest (or Disqualified Persons) that participate in a prohibited transaction may be subject to a penalty (or an excise tax) imposed pursuant to Section 502(i) of ERISA (or Section 4975 of the Code) unless a statutory or administrative exemption is available. Without an exemption an IRA owner may disqualify his or her IRA.

Certain transactions involving the purchase, holding or transfer of the Bonds might be deemed to constitute prohibited transactions under ERISA and Section 4975 of the Code if assets of the County were deemed to be assets of a Benefit Plan. Under final regulations issued by the United States Department of Labor (the “Plan Assets Regulation”), the assets of the County would be treated as plan assets of a Benefit Plan for the purposes of ERISA and Section 4975 only of the Code if the Benefit Plan acquires an “equity interest” in the County and none of the exceptions contained in the Plan Assets Regulation is applicable. An equity interest is defined under the Plan Assets Regulation as an interest in an entity other than an instrument which is treated as indebtedness under applicable local law and which has no substantial equity features. Although there is little guidance on this matter, it appears that the Bonds should be treated as debt without substantial equity features for purposes of the Plan Assets Regulation. This determination is based upon the traditional debt features of the Bonds, including the reasonable expectation of purchasers of Series Bonds that the Bonds will be repaid when due, traditional default remedies, as well as the absence of conversion rights, warrants and other typical equity features.

However, without regard to whether the Bonds are treated as an equity interest for such purposes, though, the acquisition or holding of Bonds by or on behalf of a Benefit Plan could be considered to give rise to a prohibited transaction if the County or the Trustee, or any of their respective affiliates, is or becomes a Party in Interest or a Disqualified Person with respect to such Benefit Plan.

Most notably, ERISA and the Code generally prohibit the lending of money or other extension of credit between an ERISA Plan or Tax-Favored Plan and a Party in Interest or a Disqualified Person, and the acquisition of any of the Bonds by a Benefit Plan would involve the lending of money or extension of credit by the Benefit Plan. In such a case, however, certain exemptions from the prohibited transaction rules could be applicable depending on the type and circumstances of the plan fiduciary making the decision to acquire a Bond. Included among these exemptions are: Prohibited Transaction Class Exemption (“PTCE”) 96-23, regarding transactions effected by certain “in-house asset managers”; PTCE 90-1, regarding investments by insurance company pooled separate accounts; PTCE 95-60, regarding transactions effected by “insurance company general accounts”; PTCE 91-38, regarding investments by bank collective investment funds; and PTCE 84-14, regarding transactions effected by “qualified professional asset managers.” Further, the statutory exemption in Section 408(b)(17) of ERISA and Section 4975(d)(20) of the Code provides for an exemption for transactions involving “adequate consideration” with persons who are Parties in Interest or Disqualified Persons solely by reason of their (or their affiliate’s) status as a service provider to the Benefit Plan involved and none of whom is a fiduciary with respect to the Benefit Plan assets involved (or an affiliate of such a fiduciary). There can be no assurance that any class or other exemption will be available with respect to any particular transaction involving the Bonds, or that, if available, the exemption would cover all possible prohibited transactions.

By acquiring a Bond (or interest therein), each purchaser and transferee (and if the purchaser or transferee is a plan, its fiduciary) is deemed to represent and warrant that either (i) it is not acquiring the

Bond (or interest therein) with the assets of a Benefit Plan, Governmental plan or Church plan; or (ii) the acquisition and holding of the Bond (or interest therein) will not give rise to a nonexempt prohibited transaction under Section 406 of ERISA or Section 4975 of the Code or Similar Laws. A purchaser or transferee who acquires Bonds with assets of a Benefit Plan represents that such purchaser or transferee has considered the fiduciary requirements of ERISA, the Code or Similar Laws and has consulted with counsel with regard to the purchase or transfer.

Because the County may receive certain benefits in connection with the sale of the Bonds, the purchase of the Bonds using plan assets of a Benefit Plan over which any of such parties has investment authority or provides investment advice for a direct or indirect fee may be deemed to be a violation of the prohibited transaction rules of ERISA or Section 4975 of the Code or Similar Laws for which no exemption may be available. Accordingly, any investor considering a purchase of Bonds using plan assets of a Benefit Plan should consult with its counsel if the County, the Trustee or the Underwriters or any of their respective affiliates has investment authority or provides investment advice for a direct or indirect fee with respect to such assets or is an employer maintaining or contributing to the Benefit Plan.

Any ERISA Plan fiduciary considering whether to purchase the Bonds on behalf of an ERISA Plan should consult with its counsel regarding the applicability of the fiduciary responsibility and prohibited transaction provisions of ERISA and Section 4975 of the Code to such an investment and the availability of any of the exemptions referred to above. Persons responsible for investing the assets of Tax-Favored Plans that are not ERISA Plans should seek similar counsel with respect to the prohibited transaction provisions of the Code and the applicability of Similar Laws.

CERTAIN LEGAL MATTERS

Certain legal matters incident to the authorization, issuance and sale of the Bonds are subject to the separate approving legal opinions of Nixon Peabody LLP, Chicago, Illinois, and Hardwick Law Firm, LLC, Chicago, Illinois, Co-Bond Counsel (“*Co-Bond Counsel*”), who have been retained by, and act as, Co-Bond Counsel to the County. The forms of such legal opinions are attached hereto as APPENDIX C. Co-Bond Counsel have not been retained or consulted on disclosure matters and have not undertaken to review or verify the accuracy, completeness or sufficiency of this Official Statement or other offering material relating to the Bonds and assume no responsibility for the statements or information contained in or incorporated by reference in this Official Statement, except that in their respective capacities as Co-Bond Counsel, Nixon Peabody LLP and Hardwick Law Firm, LLC have, at the request of the County, reviewed only those portions of this Official Statement involving the description of the Bonds, the security for the Bonds (excluding forecasts, projections, estimates or any other financial or economic information in connection therewith), and the description of the federal tax status of interest on the Bonds. This review was undertaken solely at the request and for the benefit of the County and did not include any obligation to establish or confirm factual matters set forth herein.

Certain legal matters will be passed upon for the Underwriters by Neal & Leroy, LLC, Chicago, Illinois, Underwriters’ Counsel. Greenberg Traurig, LLP, Chicago, Illinois and Reyes Kurson, Ltd., Chicago, Illinois will serve as Co-Disclosure Counsel. Clark Hill PLC, Chicago, Illinois will serve as Special Disclosure Counsel to the County with respect to pension disclosure matters.

FINANCIAL STATEMENTS

The financial statements of the County for the Fiscal Year Ended November 30, 2021 are included in APPENDIX A to this Official Statement. These financial statements have been audited by RSM US

LLP, the County's independent auditor, whose report contained an unqualified opinion thereon. RSM US LLP, the County's independent auditor, has not been engaged to perform, and has not performed, since the date of its report included herein, any procedures on the financial statements addressed in that report. RSM US LLP also has not performed any procedures relating to this Official Statement.

CO-FINANCIAL ADVISORS

The County has engaged Acacia Financial Group, Inc., Chicago, Illinois and Columbia Capital Management, LLC, Chicago, Illinois, as Co-Financial Advisors (the "*Co-Financial Advisors*") in connection with the authorization, issuance and sale of the Bonds.

The Co-Financial Advisors are not obligated to undertake and have not undertaken either to make an independent verification of or to assume any responsibility for the accuracy, completeness or fairness of the information contained in this Official Statement and the Appendices hereto. The Co-Financial Advisors are independent firms and are not engaged in the business of underwriting, trading or distributing municipal securities or other public securities.

UNDERWRITING

The Underwriters set forth on the cover page of this Official Statement have agreed to purchase: (1) the Series 2022A Bonds at the price of \$294,495,419.45 (representing the principal amount of \$268,530,000.00 less an underwriters' discount of \$1,049,934.50 plus an original issue premium of \$27,015,353.95); and (2) the Series 2022B Bonds at the price of \$9,141,828.67 (representing the principal amount of \$9,175,000.00 less an underwriters' discount of \$33,171.33). The Underwriters reserve the right to join with dealers and other underwriters in offering the Bonds to the public. The obligations of the Underwriters to accept delivery of the Bonds are subject to various conditions of the bond purchase agreement with respect to the Bonds, but the Underwriters are obligated to purchase all of the Bonds if they purchase any of the Bonds.

The Underwriters' affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, principal investment, hedging, financing and brokerage activities. The Underwriters and their respective affiliates have, from time to time, performed, and may in the future perform, various investment banking services for the County for which they received or will receive customary fees and expenses.

In the ordinary course of their various business activities, the Underwriters and their respective affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (which may include bank loans and/or credit default swaps) for their own account and for the accounts of their customers and may at any time hold long and short positions in such securities and instruments. Such investment and securities activities may involve securities and instruments of the County.

Jefferies LLC ("*Jefferies*") has entered into a distribution agreement with InspereX LLC ("*InspereX*") for the retail distribution of municipal securities. Pursuant to the agreement, if Jefferies sells the Bonds to InspereX, it will share a portion of its selling concession compensation with InspereX.

SECONDARY MARKET DISCLOSURE

In order to assist the Underwriters in complying with paragraph(b)(5) of Rule 15c2-12 of the Securities and Exchange Commission (the “SEC”) promulgated pursuant to the Securities Exchange Act of 1934 (the “Exchange Act”), as in effect on the date hereof (the “Rule”), simultaneously with the issuance of the Bonds, the County will enter into the Continuing Disclosure Undertaking (the “Continuing Disclosure Undertaking”), for the benefit of the holders of the Bonds, substantially in the form attached hereto as “APPENDIX G - FORM OF CONTINUING DISCLOSURE UNDERTAKING.” The County, as an “obligated person” under the Rule, will undertake in the Continuing Disclosure Undertaking to provide: (a) certain financial information and operating data relating to the County and the Bonds in each year (the “Annual Filing”) and (b) notice of the occurrence of certain enumerated events (each a “Notice Event Filing”). The Annual Filing and each Notice Event Filing, if applicable, will be filed by the County on EMMA, a service of the Municipal Securities Rulemaking Board. The specific nature and timing of filing the Annual Filing and each Notice Event Filing, and other details of the County's undertakings are more fully described in “APPENDIX G - FORM OF CONTINUING DISCLOSURE UNDERTAKING.”

The following disclosure is being provided by the County for the sole purpose of assisting the Underwriters in complying with the Rule: The County previously entered into continuing disclosure undertakings, as an “obligated person” under the Rule (the “Undertakings”). In the previous five year period beginning on August 3, 2017 and ending on August 3, 2022 (the “Compliance Period”), the County has, on several instances during the Compliance Period, failed to comply with certain provisions of the Undertakings, including: (a) failing to file or timely file certain annual financial information and/or operating data; (b) failing to provide certain required financial information and/or operating data in its annual filings; and (c) failing to file or timely file certain notices. With respect to the foregoing, the County filed a corrective notice on January 4, 2021, which is available on EMMA.

MISCELLANEOUS

The references, excerpts and summaries of all documents referred to herein do not purport to be complete statements of the provisions of such documents, and reference is directed to all such documents for full and complete statements of all matters of fact relating to the Bonds, the security for the payment or purchase of the Bonds and the rights and obligations of the registered owners thereof.

Except as specifically provided herein, references to website addresses presented herein, including the County’s website or any other website containing information about the County, are for informational purposes only and may be in the form of a hyperlink solely for the reader's convenience. Unless specified otherwise, such websites and the information or links contained therein are not incorporated into, and are not part of, this Official Statement for any purpose including for purposes of Rule promulgated pursuant to the Exchange Act.

Any statements made in this Official Statement involving matters of opinion or estimates, whether or not so expressly stated, are set forth as such and not as representations of fact, and no representation is made that any of the estimates will be realized. Neither this Official Statement nor any statement that may have been made verbally or in writing is to be construed as a contract with the registered owners of the Bonds.

CERTIFICATION AS TO OFFICIAL STATEMENT

At the time of delivery of the Bonds, the County will furnish a certificate executed by the Chief Financial Officer stating that to the best of his knowledge, after reasonable investigation, this Official Statement did not (as of its date) and does not (at the date of delivery of the Bonds) contain any untrue statement of a material fact or omit to state a material fact necessary in order to make the statements in it, in the light of the circumstances under which they were made, not misleading.

This Official Statement has been duly executed and delivered by the following officer on behalf of the County.

June 7, 2022

To the Honorable President Toni Preckwinkle
Members of the Cook County Board of Commissioners,
and Citizens of Cook County

Ladies and Gentlemen:

We are pleased to present the Annual Comprehensive Financial Report of Cook County, Illinois (the “County”) for the fiscal year ended November 30, 2021. The Annual Comprehensive Financial Report has been prepared by the County in accordance with the principles and standards for financial reporting set forth by the Government Accounting Standards Board (“GASB”) and audited by various firms of independent auditors retained by the County.

Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the management of the County. The County’s financial management is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the government are protected from loss, theft, or misuse and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America. We believe the data, as presented, is accurate in all material respects, presents fairly the financial position and results of operations of the County, as measured by the financial activity of its various funds, and provides the reader with disclosure of the County’s activities.

The internal control structure is designed to provide reasonable but not absolute assurance that these objectives are met. The concept of reasonable assurance recognizes the cost of control should not exceed the benefits likely to be derived and that the valuation of costs and benefits requires estimates and judgments by management.

The independent auditor’s report on the basic financial statements and the supplemental combining and individual funds statements and schedules, is included in the Financial Section of this Report. The goal of the independent audit is to obtain reasonable assurance as to whether the financial statements are free from material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures contained in the financial statements. The fiscal year 2021 audit of the basic financial statements was performed, and an unmodified audit opinion was issued by the certified public accounting firm of RSM US LLP.

In addition to meeting the requirements set forth, an additional audit designed to meet the requirements of the Single Audit Act Amendments of 1996 and Title 2 U.S. Code of Federal Regulations (CFR) Part 200 - Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) is performed annually.

The County has prepared the Annual Comprehensive Financial Report in accordance with generally accepted accounting principles in the United States of America (“GAAP”). GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of a Management’s Discussion & Analysis (“MD&A”). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The MD&A can be found immediately following the report of the independent auditors.

PROFILE OF COOK COUNTY GOVERNMENT

The County was created on January 15, 1831, by an act of the Illinois General Assembly and became the 54th county established in the State of Illinois (the “State”). On May 7, 1831, the County elected its first officials. The population of the County was estimated at 5,106,779 as of July 1, 2021, making it the second most populous county in the United States.

Within the County, there are 134 municipalities, (including the City of Chicago [the “City”], also including the City of Elmhurst which lies partially in Cook County but has no taxable value in Cook), 29 townships, 221 special districts, and 164 school districts. The City and the suburban municipalities account for approximately 85% of the County’s 946 square miles, while unincorporated areas make up the remaining 15%. The unincorporated areas of the County are under the jurisdiction of the County Board.

Under the Illinois Constitution, the County is a home rule unit of government and, except as limited by state law, may exercise any power, and perform any function relating to its government and affairs, including the power to borrow money and levy taxes. There are no current statutory limitations on the power of the County to levy real property taxes or to issue general obligation bonds or notes; however, the Illinois constitution contains a provision that limits the maturity of County debt payable from ad valorem property taxation to 40 years.

The County’s powers are exercised through a 17-member Board of Commissioners. The County Board is the legislative authority which is led by its President. The Commissioners are elected from single member districts to four-year terms, while the President is elected by the voters of the entire County to a four-year term.

The County presently performs three principal functions: the protection of persons and property; the provision of public health services; and general governmental services including, among others, the assessment of property, levy, collection and distribution of property taxes, and maintenance of certain highways.

Protection of Persons and Property (“Public Safety Fund”). Protection of persons and property consists of the operation of the Circuit Court of Cook County, prosecution of persons charged with criminal offenses, and other activities of the State’s Attorney’s Office, operation of the County Jail (including Cermak Hospital, which serves inmates), operation of a Sheriff’s police department, and other costs, such as those associated with facilities, highways, and administration. The Circuit Court of Cook County is one of the largest unified court systems in the United States, and the County Jail is one of the largest single site jail facilities in the country.

Public Health in the form of Cook County Health (“CCH” or “Health Fund”). Cook County Health (“CCH”) serves as the safety net for health care in Chicago and suburban Cook County. CCH is comprised of two Joint Commission-accredited hospitals, Stroger and Provident, more than a dozen community health centers, the Ruth M. Rothstein Core Center, a primary care center for patients with HIV and other infectious diseases, the Cook County Department of Public Health and Cermak Health Services, which provides primary and specialty care to individuals at the Cook County Jail and the Juvenile Temporary Detention Center, and CountyCare, a managed Medicaid health plan with more than 417,000 members in FY2021.

CCH patients exceeded 221,000 adjusted patient days, which includes more than 102,000 emergency room visits. CCH’s commitment to its patients, including health plan members, is demonstrated each year by continuing to provide comprehensive, compassionate, and high-quality care. CCH’s flagship 450-bed John H. Stroger Jr. Hospital provides nationally certified stroke, oncology and burn care and has centers of excellence in emergency medicine, infectious disease, endocrinology, and others. The nation’s first comprehensive trauma unit opened at Cook County Hospital in 1966. In fiscal year 2008, a new independent CCH Board was created by the Cook County Board of Commissioners to provide oversight of health care operations, and in May 2010, the Cook County Board of Commissioners voted to make the CCH Board permanent. The CCH Board is accountable to the Cook County Board of Commissioners.

In Fiscal Year 2019, the CCH Strategic Plan, Impact 2023 was approved. Impact 2023 affirms CCH Board and Management focus on transforming the provision of health care in Cook County by promoting community-based primary and preventive care, developing a robust, collaborative health plan, and enhancing the patient experience.

General Government Services (“Corporate Fund”). The Corporate Fund includes County revenues and expenditures for government management and supporting services, control of environment, certain operating costs related to maintenance of highways, economic and human development, the assessment of real property, the levy extension, collection and distribution of taxes and the recording of property transfers.

In addition to general governmental services, the County has component units that are included in its reporting entity, due to the significance of their operational and/or financial relationships with the County: The Forest Preserve District and the Emergency Telephone 911 System. Additional information on these component units can be found in the notes to the financial statements.

BUDGET PROCESS

The development of the annual budget begins in April of each year when departments submit requests for their capital needs for the upcoming fiscal year to the Department of Budget and Management Services (“DBMS”). DBMS reviews each department’s capital request and balances them against the County’s resources and priority goals. Approved capital projects are then folded into the President’s executive budget recommendation for the next fiscal year. The budget process continues in late spring when departments provide DBMS preliminary revenue and expense estimates for the next fiscal year. DBMS aggregates such revenue and expense estimates and analyzes other resources available to accurately forecast the fiscal outlook for the coming year and prepare the preliminary budget forecast, which is provided to the Cook County Board of Commissioners (the “Board”) and made available to residents. The budget process continues in the summer with departments submitting a detailed request for appropriation based on criteria established by Ordinance of the Board in the format and timeframe as proscribed by the Director of DBMS. Meetings are then held by the President of the County Board, or her designee the Budget Director, with each department to review the requests. Based on department requests and available resources, an Executive Budget Recommendation is prepared for the President of the County Board by the Budget Director.

The Executive Budget Recommendation, as approved by the President of the County Board, is submitted to the Cook County Board, and subsequently referred to the Committee on Finance, which in turn holds hearings involving each department. The Committee on Finance makes available the Annual Appropriation Bill in tentative form, which is made available for public inspection for at least ten days prior to final action. Public hearings on the tentative Annual Appropriation Bill are then held. Amendments to the tentative Annual Appropriation Bill may then be proposed and approved or denied by the Committee on Finance. Subsequently, the Executive Budget Recommendation, as amended and in the form of the Annual Appropriation Bill, is then approved and adopted by the County Board.

The County’s total appropriation, including such sums as are appropriated on a continuing basis for the Health and Hospital System, represents the maximum expenditure amount authorized during the fiscal year, and cannot be legally exceeded unless subsequently amended by the County Board or as required by law. Unencumbered appropriations lapse at the end of each fiscal year. Unencumbered balances in the various fund accounts of the County and other fund accounts may be inadequate to pay for services already rendered because of unforeseen commitments at the time the Annual Appropriation Bill is passed. The Comptroller, Budget Director, and the Treasurer are authorized by the County Board to use unexpended balances as transfers so that fund deficiencies may be appropriately adjusted. The Capital Projects Fund applies project length budgets for fiscal control.

For FY2021, a combined General and Health Fund preliminary forecasted budget deficit of \$409.6 million was addressed through a combination of non-personnel and personnel cost reductions, favorable revenue growth in certain home rules taxes and TIF surplus revenue distributed to the County and use of the County’s unassigned fund balance. These measures were a part of the FY2021 Annual Appropriation Bill, which was approved and adopted by the County Board on November 24, 2020.

For FY2021 the General Fund net results were favorable to budget by \$117.2 million. Revenues were favorable to budget by \$78.8 million largely due to County Sales tax receipts coming in higher than anticipated as well as positive variance across a number of fee revenues, including fees collected by the Treasurer, County Clerk, and the Clerk of the Circuit Court. The favorable net result within the General Fund can largely be attributed to both higher than anticipated revenues and lower than anticipated expenditures. Overall, expenditures within the General Fund of \$1.858 billion were lower than budget by \$38.4 million. Non-personnel expenses of \$659.4 million were favorable to budget by \$22.5 million prior to encumbrances and \$38.9 million after encumbrances, while personnel expenditures of \$1.192 billion were favorable to budget by \$36.0 million, largely due to reimbursements from the County’s COVID-19 grants.

FY2021 Health Fund net results were favorable to budget by \$129.0 million. The favorable results are largely attributed to higher than anticipated membership in CountyCare, higher DSH payment, and a positive variance in patient fee revenue due to a more favorable payor mix. Overall, expenses within the Health Fund of \$3.866 billion were favorable to budget by \$65.6 million. The favorable variance is primarily attributed to continuing appropriations for Health Plan Services due to increased revenue, and lower than anticipated personnel costs caused by delays in the hiring process.

LOCAL ECONOMIC CONDITION AND OUTLOOK

As the largest of 102 counties in the State, the County is the economic and cultural hub of the State and is the third largest metropolitan area in the nation after Los Angeles and New York. The County is a diverse industrial center and a leading economic center of the Midwest. Income figures for the County are comparable with state and national rates; the most recent data from the U.S. Bureau of Economic Analysis available is for 2020 and shows the County's median household income of \$71,611 versus the State's \$73,753 and the nation's \$67,521.

The County's industrial profile resembles that of the U.S., with a slightly larger services sector and somewhat smaller governmental presence. The County is the preeminent hub of transportation in North America, with multiple transnational interstates; the intersection of nearly every Class I railroad in the country, which carry half of all intermodal trains through Chicagoland; O'Hare International Airport, one of the world's busiest; and more intermodal container traffic than any other port on the continent. Leading service sector industries in the County include health care and related services. Some of the leading private local employers with regional or national headquarters located in the County are Amazon.com Inc., Advocate Aurora Health, Northwestern Memorial Healthcare, University of Chicago, Walmart Inc., Walgreens Boots Alliance Inc., JPMorgan Chase & Co., United Airlines Holdings Inc., Amity Health, and Jewel-Osco. The County is home to nineteen (19) Fortune 500 companies.

According to the Bureau of Labor Statistics, the County's unemployment rate in January 2022 was 5.1%, compared with 5.0% for the State and 4.0% for the nation in the same period.

DEBT ADMINISTRATION AND BOND RATINGS

The County continues to have access to the debt markets to finance the acquisition, renovation, or construction of various long-term assets. It is management's objective to adequately plan to meet the County's ongoing demands for essential capital improvement projects and equipment without overburdening taxpayers with general obligation bonds payable from ad valorem taxes, nor overly leveraging other county revenue sources. The County had \$2.9 billion in bonded indebtedness at the end of Fiscal Year 2021, comprised of both fixed rate and variable rate General Obligation Bonds and a smaller amount of fixed rate Sales Tax Revenue Bonds.

The County's underlying rating on its general obligation bonds is currently "A2" (Stable outlook) by Moody's, "A+" (Stable outlook) by S&P Global Ratings and "AA-" (Stable outlook) by Fitch, respectively. The County also has outstanding Sales Tax Revenue Bonds that are rated "AA-" (Stable outlook) by S&P Global Ratings and "AAA" (Stable outlook) by Kroll Bond Rating Agency.

A rating reflects only the views of the rating agency assigning such rating and an explanation of the significance of such rating may be obtained from the respective rating agency. The County has furnished to the rating agencies certain information and materials relating to the Bonds and the County, including certain information and materials that have not been included in this financial report.

LONG-TERM FINANCIAL PLANNING & MAJOR INITIATIVES

County Sales Tax

In 2011, the County Board passed an ordinance amendment to the Cook County Home Rule County Retail Occupation Tax Ordinance and the Cook County Home Rule Service Occupation Tax Ordinance (together, the "Home Rule Sales Tax") to roll back the Home Rule Sales Tax from 1.25 percent to 0.75 percent over two different dates. The first change reduced the rate by 0.25 percent on January 1, 2012, and the second reduction of 0.25 percent occurred on January 1, 2013. The County made key reductions in operating appropriations from 2011 to 2015 to compensate for the reduction in revenue, in addition to securing additional funding for the CCH via federal reimbursement under the Affordable Care Act.

However, by 2015 the unfunded liabilities at the County Employees' and Officers' Annuity and Benefit Fund of Cook County ("Pension Fund"), along with the debt service costs associated with legacy bonded indebtedness, continued to grow at an accelerated rate. In addition, the County's highway and transportation infrastructure also required funding to ensure unmet needs were addressed.

Therefore, on July 15, 2015, the County Board passed an ordinance amendment to the Home Rule County Retailer's Occupation Tax Law that increased it from 0.75 percent to 1.75 percent. The change was effective on January 1, 2016, with the first revenue received in April 2016. Pursuant to an accompanying non-binding resolution, the County board expressed its intention that proceeds of the new tax would be allocated to address the County's and the Pension Fund's legacy liability costs and infrastructure funding needs.

In FY2021, the increase in Sales taxes allowed the County to continue to provide supplemental contributions of \$342.0 million to the Pension Fund for supplemental contributions and increased the assigned fund balance an additional \$20.0 million within the General Fund to help offset future volatility from the actuarially established contribution value.

Tax Abatement

Cook County encourages the development and rehabilitation of industrial property and commercial property located in areas of severe economic stagnation by providing tax abatement programs to individuals, local businesses, and developers. Additionally, the tax abatement programs support and expand multi-family residential affordable housing. The programs are designed to stimulate economic growth, increase job opportunities, revitalize neighborhood business services, and offer a wide range of benefits to low-income communities. For FY 2021, the amount of property tax revenue forgone by the County due to these incentives is estimated at \$16.8 million.

Performance Management

The Office of Research, Operations, and Innovation ("ROI") was established in 2018 to continue the County's commitment to improvement and innovation. ROI has three primary functions: continuous improvement training, process improvement facilitation, and performance management.

Performance Management by the constituent departments and offices of Cook County are governed by Article X of the Cook County Code (PERFORMANCE BASED MANAGEMENT AND BUDGETING). This article was amended on February 27, 2020, to reflect current operations, organizational structure, and terminology. "Within 45 days of Fiscal Year end, each County Agency shall prepare an Annual Report in a form and manner as described by the Director of Research, Operations, and Innovation ("ROI") wherein the Agency shall provide year-end values for their key performance indicators ("KPIs") related to their mission, goals, and operation." ROI works with each office to develop a comprehensive Annual Performance Report that aligns the performance data and other information with each office's mission.

In 2020, the President's Office Open Performance Team launched mission KPI public facing websites for each department to highlight their performance. This data continues to be entered monthly in 2021 into an internal data system by each office and is reflected on the website quarterly. In 2021, ROI worked with each agency to identify and utilize operational KPIs based on their functional programs. Annual operational performance sessions are conducted with each department to discuss their KPIs and how they are using the data to make decisions and to identify areas in need of improvement. Additionally, ROI has begun to work with the separately elected offices to incorporate similar performance program methodologies.

Highlights of FY2021 for ROI include conducting 21 continuous improvement training sessions, reaching 213 champions across County agencies resulting in a 5% increase from previous year. In addition, ROI completed 12 process improvement projects and realized \$313,940 of implemented innovations. Some notable completed process improvement projects were the Comptroller's Office Capital Asset Improvement, Department of Human Rights and Ethics Campaign Contribution Audit Improvement and the Child Support Enforcement process. In addition, the County was honored with receiving 17 National Association of Counties ("NACo") Achievement Awards across various County agencies which recognizes innovative county programs, some notable awards that were received were the Cook County Department of Highway & Transportation Fair Transit Plan, the Department of Environment & Sustainability and Bureau of Asset Management Clean Energy Plan and the Bureau of Finance achievement for the Equitable Distribution Model for the CARES Act Funding.

Economic Development

In FY2021 the Bureau of Economic Development ("BED") continued the work of the [Cook County Community Recovery Initiative](#) ("CRI"), to support businesses and residents in response to the continuing impact of COVID.

2021 Community Recovery Initiative Highlights	
Program Area	Results
Small Business Assistance Program	<ul style="list-style-type: none"> • 1500+ businesses served with direct one-on-one direct assistance • 66% of businesses served are owned by BBINAA • 800+ attendees in 13+ webinars • 16,000 touched by general outreach, phone banking, hotline and door knocking.
Emergency Rental Assistance	<ul style="list-style-type: none"> • \$ \$83,666,667.09 was distributed in rental assistance to 9,949 residents
Critical Social Services	<ul style="list-style-type: none"> • 1,799 residents received 295,000 shelter nights and 886,000 meals • 37,000 calls received by the legal aid hotline • 6,400 legal aid referrals made from court proceedings • Capacity-building investments in 16 suburban food distribution sites serving over 4,500 households per month

The Bureau continued to partner with business service organizations and non-profits to help businesses stay open, workers stay employed, and families stay housed and meet their basic needs. BED’s CRI programs that continued through 2021 included small business assistance, housing assistance and legal aid. Cook County continues to target resources to advance the transformation of the Southland. For example, in 2021 with continued support from Cook County, the Southland Development Authority (“SDA”)’s Business Growth Services program provided assistance to an additional 425+ small businesses (See Community Recovery Initiative table above).

While utilizing over \$100 million of federal funding to continue the above Covid-relief programming for Cook County residents and businesses, BED also maintained and advanced its core portfolio of programs that support residents through affordable housing with 158 new housing units, critical social services, and local infrastructure investments of \$8.7 million awarded to support 48 capital improvement projects in suburban Cook County.

In 2021, BED also worked to foster business retention and expansion through support of 51 tax incentives that leveraged over \$141.2 million in private investment, closing two projects utilizing the Cook County Commercial Property Assessed Clean Energy (“CPACE”) program to facilitate investments in sustainability, providing guidance to over 500 businesses regarding talent solutions and apprenticeships; and creating opportunities for over 150 manufacturers to identify new customers.

Using our federal grant funds from HUD, our investments in real estate and community infrastructure further leverage investment in neglected areas boosting the economic value of properties and attracting resources to enhance community development.

Cook County Equity Fund

In FY2022, the Cook County Equity Fund was established to address historic disparities and disinvestments in Black, Latinx, and other marginalized communities. The County will continue our commitment to building safe, thriving, and vital communities through additional investments in the Equity Fund for a total of \$54.4 million in FY2022.

The County’s Equity Fund will include funding for the first of its kind transformative place-based pilot in several vulnerable communities identified by the administration and Equity Fund stakeholders.

The Equity Fund’s investments will also remain flexible to allow for a more immediate and nimble response to community and social challenges like providing planning assistance and capacity building support to community-based programs focused on providing equitable services to residents, setting up rapid response funds to solve specific problems, reimagining the County’s traditional community-based grant opportunities in the justice arena, and fostering economic and community development.

INDEPENDENT AUDIT

Portions of the audit were implemented as a subcontractor agreement between RSM US LLP and a consortium of Cook County-based minority and women-owned certified public accounting firms.

In addition to the fiscal 2021 County basic financial statements, RSM US LLP also conducted the CCH audit and the County Treasurer's audit. The Clerk of the Circuit Court audit was conducted by Prado & Renteria. Washington, Pittman & McKeever conducted the Single Audit of the County's various federal grant programs. Baker Tilly Virchow Krause LLP conducted the Forest Preserve District's audit and RSM US LLP conducted the separate pension fund audits. The Cook County Emergency Telephone System Board audit was performed by Mitchell Titus. All the independent audits have been performed in accordance with auditing standards generally accepted in the United States of America and received unmodified opinions.

Copies of each audit report, including the schedule of expenditures of federal awards, findings and recommendations, and the auditor's report on internal control and compliance with applicable laws and regulations, are included in separate annual audit reports and may be obtained from the Comptroller's Office, Richard J. Daley Center, 50 W. Washington Street, Suite CL-25, Chicago, Illinois 60602.

AWARDS AND ACKNOWLEDGEMENTS

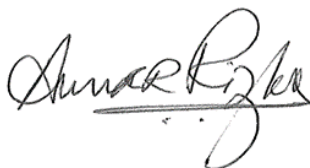

The Government Finance Officers Association of the United States and Canada ("GFOA") awarded a Certificate of Achievement for Excellence in Financial Reporting to Cook County for its annual comprehensive financial report for the fiscal year ended November 30, 2020. This was the eighth consecutive year that the County has achieved this prestigious award. In order to be awarded a Certificate of Achievement, the County had to publish an easily readable and efficiently organized Annual Comprehensive Financial Report that satisfied both generally accepted accounting principles and applicable program requirements.

A Certificate of Achievement for Excellence in Financial Reporting is valid for a period of one year only. We believe that our current annual comprehensive financial report continues to meet the Certificate of Achievement for Excellence in Financial Reporting Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another such certificate.

The County also received the GFOA's Distinguished Budget Presentation Award for its fiscal year 2021 annual budget document. To qualify for the Distinguished Budget Presentation Award, the government's budget document had to be judged proficient as a policy document, a financial plan, an operations guide, and a communications device.

The preparation and completion of this Annual Comprehensive Financial Report represents the culmination of numerous efforts by many County employees, and the cooperation and assistance of the various accounting firms engaged to audit the County's operations. We would like to express our sincere appreciation to the members of our staff, the staff of the certified public accounting firms of RSM US LLP, Washington, Pittman & McKeever, Prado & Renteria, Baker Tilly Virchow Krause LLP, Mitchell Titus, and the staff of the County Auditor for making this report possible. Credit also is due to the President and the Board of Commissioners for their unflinching support for maintaining the highest standards of professionalism in the management of Cook County's finances.

Respectfully submitted,

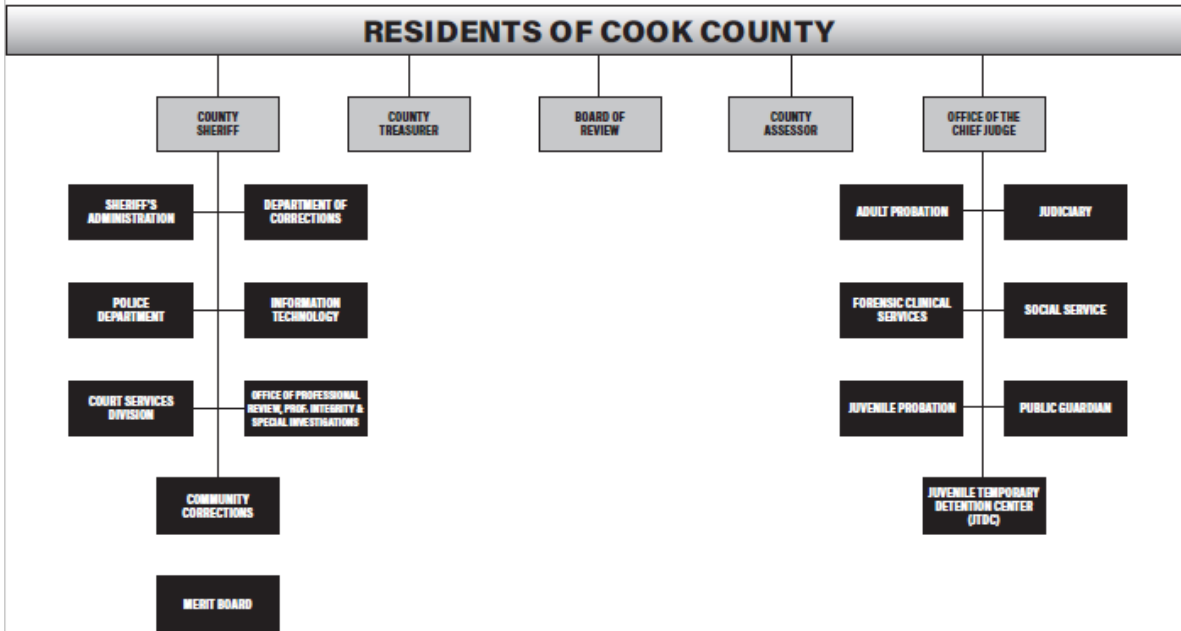

Ammar Rizki
Chief Financial Officer

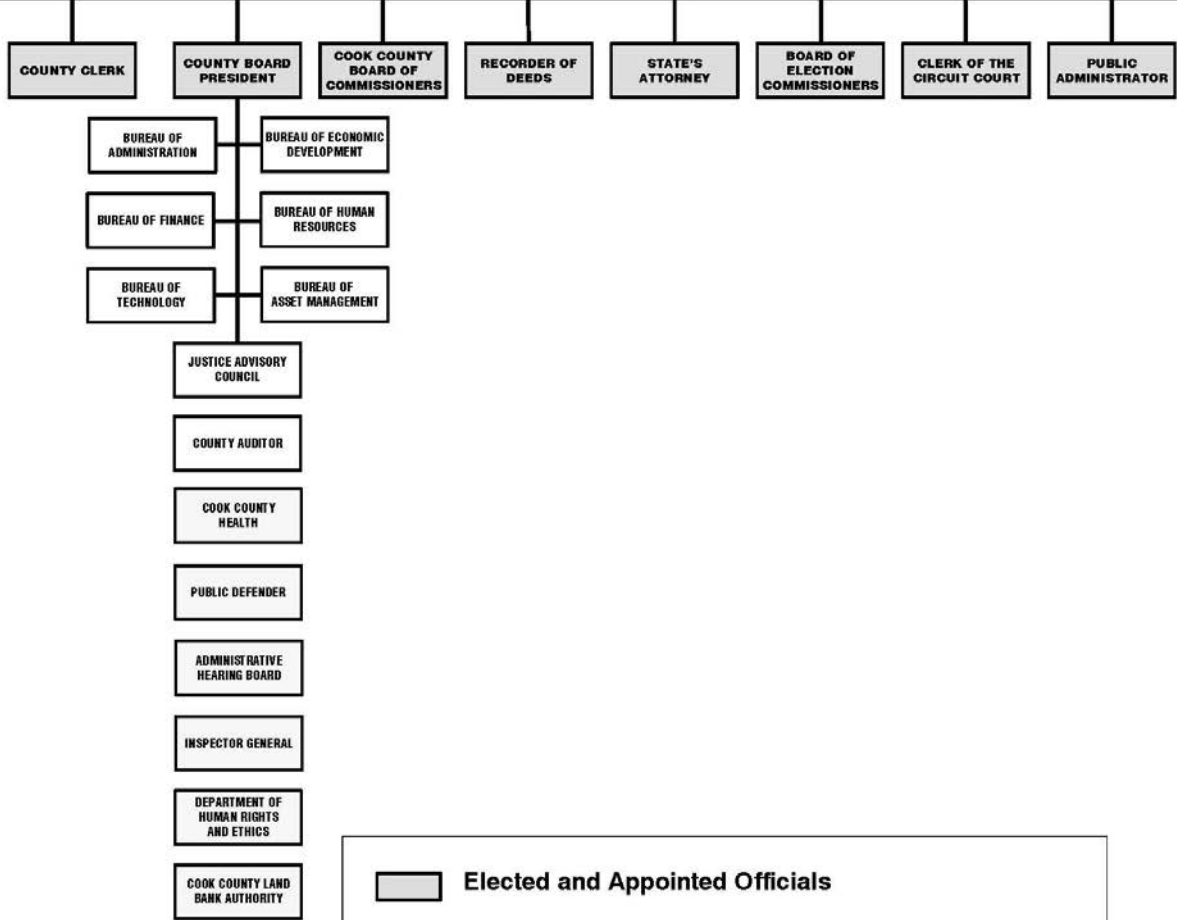

Lawrence L. Wilson, CPA

Independent Auditor's Report

The Honorable Toni Preckwinkle, County Board President
and Members of the County Board of Commissioners
Cook County, Illinois

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Cook County, Illinois (County), as of and for the year ended November 30, 2021, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the aggregate discretely presented component units (which consist of the Forest Preserve District of Cook County and the Emergency Telephone System). We also did not audit the financial statements of the Clerk of the Circuit Court Custodial Fund which represents 0.5 percent of the assets and 0.5 percent of the revenues/additions of the aggregate remaining fund information. Those statements were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts included for the discretely presented component units and the Clerk of the Circuit Court Custodial Fund, is based solely on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

THE POWER OF BEING UNDERSTOOD
AUDIT | TAX | CONSULTING

Opinions

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Cook County, Illinois, as of November 30, 2021, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note X to the financial statements, the County restated beginning net position for Governmental Activities and Fiduciary Activities, and restated beginning fund balance for the General Fund, as a result of implementing GASB Statement No. 84, *Fiduciary Activities*.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis, pension and other post-employment benefit obligations (OPEB) information and budgetary schedules for the General Fund and major special revenue funds, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The accompanying supplemental combining and individual fund statements and schedules, the introductory section, and the statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The accompanying supplemental combining and individual fund statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and other auditors. In our opinion, based on our audit, the procedures performed as described above, and the reports of the other auditors, the accompanying supplemental combining and individual fund statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The Introductory and Statistical Sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Cook County, Illinois
Management's Discussion and Analysis
Year Ended November 30, 2021

As management of Cook County, Illinois (the "County"), we offer the readers of the Management's Discussion and Analysis (the "MD&A") section of the County's Annual Comprehensive Financial Report a narrative overview and analysis of the financial activities of the County for the fiscal year ended November 30, 2021. The reader is encouraged to consider the information presented here in conjunction with the basic financial statements and the accompanying notes, which follow this section.

Financial Highlights for FY 2021

- The County's FY2021 preliminary forecasted Operating Budget Surplus for the General Fund in July of 2021 was \$59.7 million. By the end of the fiscal year this favorable variance increased to \$117.2 million primarily due to favorable results in taxes and fees.
- General Fund, revenues were \$78.8 million favorable and expenses were \$38.5 million favorable to budget. Favorable revenues could be largely attributed to higher than projected revenues for the Sales Tax, Use Tax, and County Treasurer revenue which were above budget by \$80.6, \$24.3, and \$37.7 million, respectively. Personnel expenses within the General Fund of \$1.190 billion were lower than budget by \$37.6 million.
- On January 26, 2021, the County issued \$169.3 million Sales Tax Revenue_Bonds Series 2021A. These bonds were issued to repay the outstanding balance of the General Obligation Bonds Series 2014D and 2018 variable rate revolving line of credit and to fund an additional \$35 million of capital projects. Principal amounts are due in annual installments ranging from \$1.7 million to \$36.4 million and interest from 4.00% to 5.00%. The pledge of home rules sales tax revenues will remain until final maturity in November 2041.
- On January 28, 2021, the County issued the \$330.5 million General Obligation Bonds, Series 2021A with an interest rate of 5.00% to refund \$278 million of outstanding General Obligation Refunding Bonds Series 2010A and \$119.9 million of outstanding General Obligation Capital Equipment Bonds Series 2010G, which had a combined average interest rate of 5.30%. The refunding achieved net present value savings of \$104.1 million or 26.2% of total par amount. The Series 2021A Bonds will be payable through November 15, 2033.
- On November 30, 2021, the County issued the \$190.6 million General Obligation Refunding Bonds Series 2021B and the \$57.5 million Taxable General Obligation Refunding Bonds Series 2021C. These combined bond series refunded in full the \$164.1 million General Obligation Refunding Bonds Series 2011A and \$103.7 million General Obligation Capital Equipment Bonds Series 2011B, which had a combined average interest rate of 5.30%. The combined refundings achieved net present value savings of \$42.8 million or 16% of total par amount. The Series 2021B Bonds will be payable through November 15, 2028 and the Series 2021C Bonds will be payable through November 15, 2028.
- The General Obligation Bond Series 2014D and Series 2018 is a variable rate revolving line of credit with PNC Bank. It serves as the County's main source of interim financing, allowing the County to keep its borrowing costs low during the construction, implementation and acquisition phases of its capital improvement and equipment projects. The line of credit total drawn balance as of the end of the previous fiscal year was \$175 million. On January 26, 2021, the County used the proceeds from Sales Tax Revenue Bonds Series 2021A in order to repay in full the \$175 million. During fiscal year 2021, an additional \$72.4 million was drawn on the line which increased the total short-term liability. Out of this amount, \$5.9 million was used for Cook County Health capital expenditures.

Cook County, Illinois
Management's Discussion and Analysis
Year Ended November 30, 2021, continued

- In FY2021, the County allocated \$342 million to the Pension Fund for supplemental contributions as part of its intergovernmental agreement with the Fund.
- CountyCare membership experienced tremendous growth and went from 345,000 average membership in FY2020 to 400,000 average membership in FY2021, which contributed to increases in CountyCare revenue. The membership increase was primarily driven by a downturn in the economy due to the pandemic that shifted more people to Medicaid as well as member retention due to federal CMS' suspension of eligibility redetermination requirements.
- The County's total net deficit at November 30, 2021 was \$15,313.4 million, a decrease in the deficit of \$161.7 million from the prior year deficit of \$15,475.1 million (as restated). The deficit decrease is mainly attributable to increases in various revenue sources such as licenses, fees and charges for services as well as personal property replacement taxes and County sales tax, offset to a lesser extent with increases in expenses.
- Total FY2021 expenses for governmental activities were \$2,777.5 million, which represents an increase of \$497.4 million (21.8%) over FY 2020 expenses of \$2,280.1 million. Total FY 2021 expenses for business-type activities (CCH) were \$3,858.8 million, which represents an increase of \$483.3 million (14.3%) over FY 2020 expenses of \$3,375.5 million. Expenses increased primarily due to the impact of COVID-19 mitigations, and the Pension and OPEB expense County-wide increased by \$639.9 million from 2020 to 2021.
- Operating losses from CCH operations in fiscal year 2021 were \$489.2 million, which is a \$23.8 million reduction from the loss in the prior year of \$513.0 million, primarily because of the increase in CountyCare Capitation Revenue and Net Patient Service Revenue. CountyCare Capitation Revenue and Net Patient Service Revenue increased by \$437.4 million and \$149.5 million from 2020 to 2021, respectively.
- At the end of the fiscal year, the County's governmental funds reported combined fund balances of \$1,322.1 million, an increase of \$374.8 million (39.6%) in comparison with the prior year of \$947.3 million, as restated, primarily due to increases in American Rescue Plan Act federal funding.

Overview of the Basic Financial Statements

This discussion and analysis is intended to serve as an introduction to the County's basic financial statements. The reporting model focuses attention on the County as a whole (government-wide) and on major individual funds. Both perspectives are presented to enable the reader to address relevant questions, broaden the basis of comparison and enhance the County's accountability.

Cook County's basic financial statements are comprised of three components:

1. Government-wide financial statements
2. Fund financial statements
3. Notes to the basic financial statements

Government-wide Financial Statements

The government-wide financial statements are designed to provide the reader with a broad overview of the County's finances, in a manner similar to private sector businesses.

The **Statement of Net Position** presents information on all the County's assets, deferred outflows of resources, liabilities, and deferred inflows of resources with the difference reported as net position (deficit). Increases or decreases in net position, over time, may serve as a benchmark as to the improvement or deterioration in the County's financial position. Additionally, non-financial factors, such as changes in the County's property tax base or the condition of County facilities, should be considered to assess the overall financial health of the County.

The **Statement of Activities** presents information on how the County's net position changed during the fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal years, such as revenue pertaining

Cook County, Illinois
Management's Discussion and Analysis
Year Ended November 30, 2021, continued

to uncollected taxes and expenses relating to earned, but not used, compensated absences, and pension obligations.

The government-wide financial statements report the following different types of programs or activities:

- **Governmental Activities** – The majority of County services are reported under this category. Governmental activities of the County include public safety responsibilities through the operation of one of the largest unified court systems in the nation and the operation of one of the largest single site jail facilities in the United States. Also included in governmental activities are corporate functions that include the design, operation, and maintenance of a highway system; control of the environment; the assessment, levy, collection, and distribution of property taxes; and general administration and finance. The major revenue sources of these activities are property taxes, sales taxes and other non-property taxes, and various fees. Governmental activities include the primary government composed of the County itself.
- **Business-type Activities** – The business-type, or enterprise, activities of the County include the operation of the Cook County Health and Hospitals System (“CCH”). CCH is comprised of two Joint Commission-accredited hospitals, Stroger and Provident, more than a dozen community health centers, the Ruth M. Rothstein Core Center, a primary care center for patients with HIV and other infectious diseases, the Cook County Department of Public Health and Cermak Health Services, which provides primary and specialty care to individuals at the Cook County Jail and the Juvenile Temporary Detention Center, and CountyCare. As an enterprise activity, the intent of these entities is to provide primary, intermediate, acute, and tertiary medical care to patients, without regard to their ability to pay. The CCH Board oversees the operational, planning, and policy activities of the CCH.
- **Discretely Presented Component Units** – Component units are entities for which the GASB Standards view the County as financially accountable. The two discretely presented entities, based on their relationship with the County, are the Forest Preserve District of Cook County (the “District”) and the Emergency Telephone System, which provides Emergency 911 services primarily in unincorporated areas of the County. Under Illinois law, the Forest Preserve District is a separate body politic, as a non-home rule unit of government with a separate and distinct tax levy and financial resources from those of the County.

Fund Financial Statements

The fund financial statements are designed to report groupings of related accounts which are used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with budgetary and other financial-related legal requirements. All the funds of the County can be divided into the following categories: **governmental** funds, **proprietary** funds, and **fiduciary** funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements, e.g., most of the County’s basic services are reported in the governmental funds. These statements focus on (1) how cash and other financial assets can readily be converted to available resources and (2) the balances left at year-end that are available for spending. Such information may be useful in determining what financial resources are available in the near term to finance the County’s various programs.

Cook County, Illinois
Management's Discussion and Analysis
Year Ended November 30, 2021, continued

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, the reader may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County maintains several individual governmental funds organized according to their type (special revenue, debt service, and capital projects). Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund which is a major fund. The General Fund includes the following accounts: Corporate Account, Public Safety Account, Equity and Inclusion Account and the Self-Insurance Account. The other major governmental funds, Annuity and Benefit Fund (which is used to receive designated revenues that are later transmitted to a separate and distinct Fiduciary Fund discussed in greater detail below), the Debt Service Fund, Motor Fuel Tax Fund and Grants Fund, are individually presented. Data from the remaining governmental funds are combined into a single, aggregated presentation. Individual fund data for each of the non-major governmental funds is provided in the form of supplemental combining and individual statements and schedules within this report.

Proprietary funds. Proprietary funds are generally used to account for services for which the County charges a fee for services provided. Proprietary funds provide the same type of information as shown in the government-wide financial statements, only in more detail. The County uses one enterprise fund to account for the operations of its various healthcare activities. The proprietary fund financial statements provide information for CCH.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside of the primary government. The County Employees' and Officers' Annuity and Benefit Fund of Cook County is a separate unit of government that administers a defined benefit plan created by acts of the Illinois State Legislature to provide retirement and disability benefits to qualified employees and retirees of Cook County. Consistent with GASB standards, the County reports a Pension Trust Fund and a Postretirement Healthcare ("OPEB") Fund for associated employee benefit plans. These funds are used to report assets held in a trust for employees, retirees, and their beneficiaries, and cannot be used to support the County's programs and are controlled by a separate body of government as created and empowered under Illinois law. The County also uses fiduciary funds to account for resources controlled by the County for various individuals, and other governmental entities. The Pension Trust Fund, Postretirement Healthcare Fund, Private Purpose Trust Funds and Custodial Funds are reported in this fund category using the accrual basis of accounting. These funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County's programs.

Notes to the Basic Financial Statements

The notes to the basic financial statements provide additional information that is essential to provide a full understanding of the data presented in the government-wide and fund financial statements.

Required Supplementary Information

In addition to the basic financial statements and accompanying notes, the required supplementary information section presents certain required supplementary information concerning the funding of the County's Employees' and Officers' Annuity and Benefit Fund of Cook County ("CEOABF") as a separate unit of government that administers a defined benefit plan created by acts of the Illinois State Legislature to provide retirement, disability, and other post-employment benefits to qualified employees of Cook County. This section includes information on contributions made by the County to the CEOABF, and changes in the net pension liability and total OPEB liability. Budgetary schedules for the General Fund and budgeted major special revenue funds (Annuity and Benefit Fund and the Motor Fuel Tax Fund) are also presented in this section. The Grants Fund does not adopt an annual budget and is excluded from this section.

Government-wide Financial Analysis

Net Position

The County has presented summarized comparative financial statements below.

As noted earlier, over time net position may serve as a useful indicator of a government's financial position. In the case of the County, liabilities and deferred inflows exceeded assets and deferred outflows by \$15,313.4 million as of November 30, 2021.

Cook County, Illinois
Management's Discussion and Analysis
Year Ended November 30, 2021, continued

The County's total net position consists of the following three components:

Net Investment in Capital Assets

The County's net investment in capital assets of (\$577.4) million represents its investment in capital assets at depreciated cost (e.g., land, buildings and improvements, infrastructure, and equipment) less any related debt (net of unspent proceeds) and deferred outflows and inflows of resources used to acquire those assets that is still outstanding. This amount decreased by \$62.5 million primarily due to depreciation of \$209.9 million exceeding capital asset additions of \$157.2 million, deletions of \$1.1 million and a \$6.6 million increase in the amount of outstanding capital related debt. The County uses these capital assets to provide services to citizens. The County's governmental activities fund all construction in progress ("CIP") including the amount transferred to the CCH (Business-type activities) as capital assets. The associated debt to fund the capital assets is not transferred to CCH as it is General Obligation debt that will be retired by governmental activities. Other than the \$5.9 million line of credit reported by CCH, monies used to construct capital assets of the health facilities are obtained from governmental purpose bonds financed by the governmental funds of the County. Accordingly, the long-term debt is shown in the Government Activities and the corresponding capital assets are shown in the Business-type Activities. An adjustment column is included to properly report the County's net investment in capital assets at the total level for the primary government. As the County's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay the debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Restricted Net Position

Net position restrictions are primarily due to external restrictions imposed by legislation, grantors, and bond covenants. The County has a balance of \$780.7 million restricted for various specific purposes. Restricted net position increased \$113.3 million (17.0%) over the prior year due mainly to the timing of various program expenses.

Unrestricted Net Position (Deficit)

Unrestricted net position shows a \$15,516.7 million deficit at the end of the fiscal year. It should be noted that the deficit in unrestricted net position does not mean that the County does not have the resources available to pay its bills or other short-term liabilities.

The schedule and charts that follow, compare the revenues, expenses, and changes in net position for the governmental and business-type activities. The opening net position for FY2021 has been restated for the impact of implementing GASB Statement No. 84, *Fiduciary Activities*. The FY2020 column is as originally presented and is not restated.

Governmental Activities

The net position (deficit) of governmental activities was a negative \$10,739.1 million (as restated) at the beginning of the 2021 fiscal year. The net deficit of governmental activities decreased by \$264.4 million (2.5%) in FY 2021 to a deficit of \$10,474.7 million. The majority of the deficit relates to the net pension liability (\$9,869 million) and the total OPEB liability (\$1,457 million).

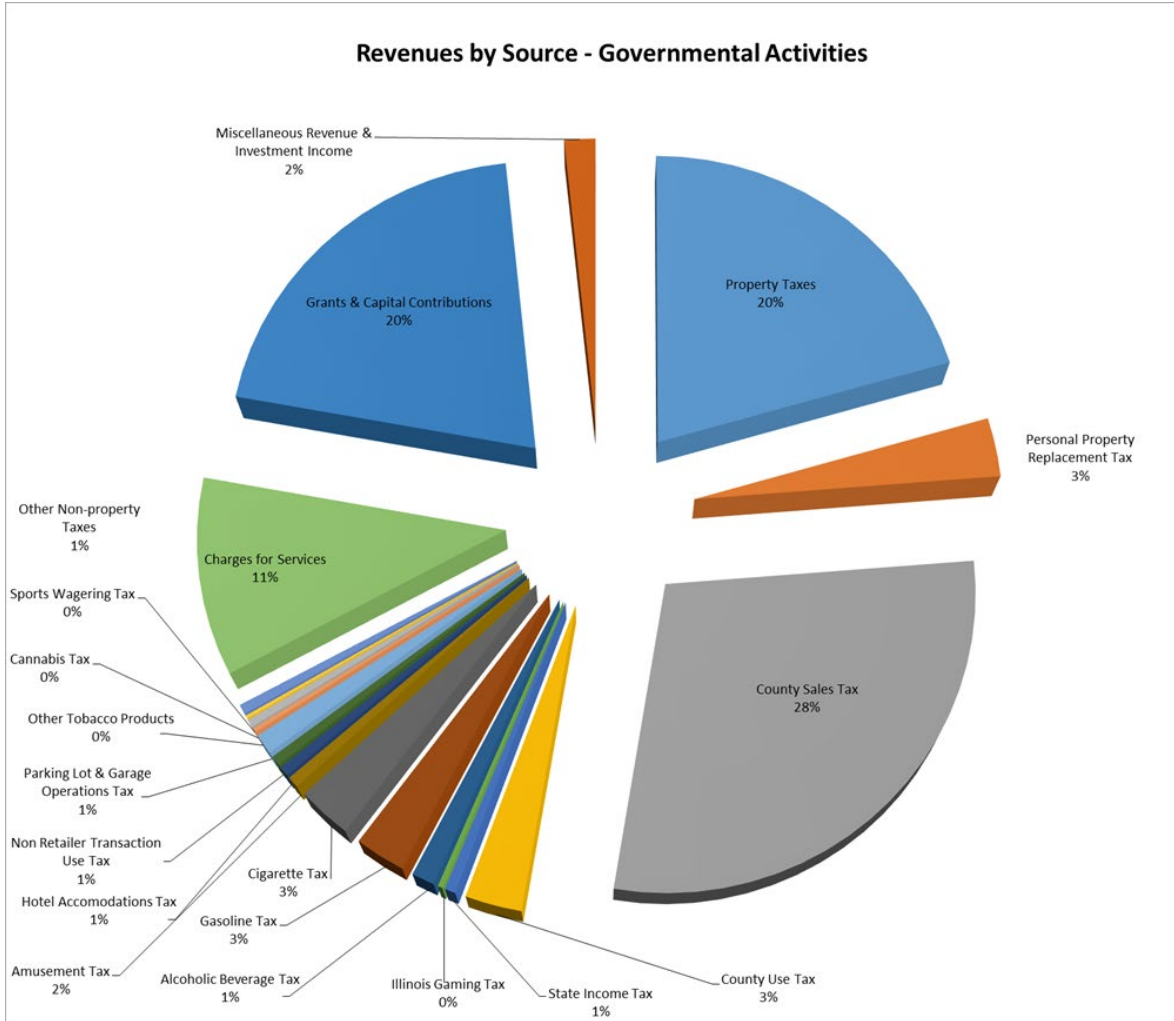

The following chart presents program revenues and expenses for governmental activities for the fiscal year ended November 30, 2021:

Program revenues are derived from the program itself and reduce the costs of operating the particular function of the County. In FY 2021, total program revenues of the County for governmental activities amounted to \$1,012.2 million, an increase of \$57.3 million (6.0%) from FY 2020 program revenues of \$955.0 million. The largest portion of program revenues are operating grants and contributions of \$505.1 million (49.9%), which primarily consisted of CARES Act funds. The other portions of program revenues were 1) licenses, fees & charges for services \$345.6 (34.1%) which are fees and fines from court operations and penalties on real estate taxes and 2) capital grants and contributions of \$161.5 million (16.0%) received from various federal and state agencies, including donated capital assets. Licenses, fees and charges for services (\$345.6 million) increased \$89.7 million (35.1%) from FY 2020 total of \$255.9 million and capital grants and contributions (\$161.5 million) increased \$22.6 million (16.3%) from the FY 2020 total of \$138.9 million.

**Cook County, Illinois
Management’s Discussion and Analysis
Year Ended November 30, 2021, continued**

The following chart presents revenues by source for governmental activities for the fiscal year ended November 30, 2021:

Sales tax, the County’s largest general revenue source, was \$254.0 million (37.0%) higher than the previous fiscal year. This positive variance is primarily due to online sales tax collections, the relaxing of COVID-19 mitigation efforts, and stimulus checks.

Property taxes, the County’s second largest tax revenue source, was \$35.2 million (-5.0%) lower than the previous year, decreasing from \$704.7 million in FY 2020 to \$669.5 million in FY 2021, primarily due to an allocation increase to CCH to \$117.6 million compared to \$79.4 million in FY2020. The County’s property tax rate for tax year 2020 was 0.453 per \$100 of equalized assessed valuation. The net property tax levy has been held constant at \$720.4 million since 1996, excluding expiring TIF districts and new properties.

**Cook County, Illinois
Management’s Discussion and Analysis
Year Ended November 30, 2021, continued**

Personal Property Replacement taxes for governmental activities increased by \$49.5 million from \$54.2 million in FY 2020 to \$103.8 million in FY 2021. The pandemic significantly affected the cash flow patterns for FY 2021; accordingly, year-over-year comparisons were distorted.

Program revenues recognized from licenses and fees increased by \$89.7 million (35.1%) from \$255.9 million in FY 2020 to \$345.6 million in FY 2021. The largest portion of program revenues is licenses, fees and charges for services of \$345.6 million, which primarily consisted of fees and fines from court operations and penalties on real estate taxes. The other portions of program revenues were operating grants and contributions of \$505.1 million. Operating grants and contributions decreased by \$55.1 million (9.8%) from \$560.2 million to \$505.1 million primarily due to a decrease in state funded grant programs. Capital grants and contributions increased by \$22.6 million (16.3%) from \$138.9 million to \$161.5 million due to increases in Motor Fuel Tax state allotments of revenue.

The following chart presents expenses by type for governmental activities for the fiscal year ended November 30, 2021:

Total FY 2021 expenses for governmental activities were \$2,777.5 million, which represent an increase of \$497.4 million (21.8%) over FY 2020 expenses for governmental activities of \$2,280.1 million.

As in previous years, the largest portion of expenses was used to fulfill the County’s public safety responsibilities, which include the operation of the court system (31%), and corrections (20%). The increase was mainly due to expenses that related to the County wide impact of COVID-19 mitigations, and pension and OPEB expense. The County is self-insured for various types of liabilities, including health insurance, medical malpractice, workers’ compensation, general automobile, and other liabilities. A private insurer administers health insurance claims for a monthly fee per member. Expenditures for health insurance claims are recorded in governmental funds as incurred in the form of direct contributions to the insurer for payment of employee health claims and administration fees. The County is a defendant in lawsuits alleging medical malpractice, work-related injuries, highway cases and other claims. Cases related to these areas are in various stages of the legal process. The County purchased excess liability insurance coverage related to medical malpractice and other claims. The medical malpractice policy is on a claim made basis. While it is difficult to estimate the timing or amount of expenditures, management of the County utilizes an

Cook County, Illinois
Management's Discussion and Analysis
Year Ended November 30, 2021, continued

independent actuary to calculate a liability and expense related to this function. The total self-insurance liability (governmental and business-type activities) increased \$52.5 million (7.5%) in FY 2021 to \$750.2 million from \$697.6 million in FY 2020. This increase was mainly due to an increase in workers' compensation (\$46.4 million) and claims expense reserve (\$16.9 million). The portion of self-insurance allocated to CCH amounts to \$181.9 million (24.3%) of the total \$750.2 million total self-insurance liability.

Business-type Activities

The County's major business-type activities include the following healthcare operations:

- Bureau of Health Services
- John H. Stroger, Jr. Hospital of Cook County
- Provident Hospital of Cook County
- Oak Forest Health Center
- Ambulatory and Community Health Network of Cook County
- Department of Public Health
- Correctional Health Services at Cermak
- Correctional Health Services at Juvenile Temporary Detention Center
- Ruth Rothstein Core Center
- CountyCare Health Plan

The net deficit of the County's business-type activities increased by \$102.7 million (2.2%) in FY 2021.

Capital contributions from the County decreased \$22.4 million to \$22.4 million in FY 2021 from \$44.8 million in FY 2020. Capital contributions represent the amount the County has contributed toward the construction and acquisition of significant capital assets for the operations of the Cook County Health and Hospital System.

Transfers from governmental to business-type activities were \$187.6 million in FY 2021, representing a decrease of \$31.0 million (14.2%) from \$218.6 million in FY 2020. These do not include the impact of County taxes that are dedicated to, and recorded in the business-type activities, as detailed on the following pages.

In addition, the County supports CCH by assuming a significant portion of CCH related long-term obligations. This consists primarily of CCH's share of General Obligation debt and capital outlay. The above activity is more fully described in Footnote I.C. & Footnote VII.

**Cook County, Illinois
Management's Discussion and Analysis
Year Ended November 30, 2021, continued**

The following chart presents revenues by source for business-type activities for the fiscal year ended November 30, 2021:

Total program revenues for the business-type activities were \$3,428.5 million in FY 2021 as compared to \$3,040.5 million in FY 2020, representing an increase of \$388.0 million (12.8%). This is primarily due to an increase in CountyCare Capitation revenue of \$437.4 million from increased CountyCare membership and in Net Patient Service revenue of \$149.5 million, offset by a decrease in provider relief funding and other grants of \$119.2 million and Provident Hospital access payments of \$78.8 million.

**Cook County, Illinois
Management’s Discussion and Analysis
Year Ended November 30, 2021, continued**

The following graph summarizes the FY 2021 program revenues and expenses of the business-type activities:

CCH is one of the largest public hospital systems in the United States operated by a unit of local government and is the largest provider of medical care to the uninsured, underinsured, and Medicaid populations in the State of Illinois. In 2021, the emergency department at John H. Stroger, Jr. Hospital was the one of busiest in the metropolitan Chicago area with approximately 83,000 patient visits. Provident Hospital’s emergency department was equally busy with over 19,000 patient visits.

In 2012, the CCH Board and the Cook County Board partnered to manage healthcare costs, improve County residents’ access to healthcare, and transform Cook County’s hospital system by jump-starting national health care reform in Cook County. In October 2012, the Federal government approved CCH’s Medicaid Expansion Program (“CountyCare”) by creating the CMS waiver under Section 1115 of the Social Security Act (“1115 Waiver”) for Cook County, allowing CCH to enroll more than 115,000 individuals who would become eligible for Medicaid in 2014 under the Affordable Care Act.

In 2017, CountyCare submitted a successful bid for the State of Illinois Medicaid Managed Care Request for Proposal (“RFP”) and through a strategic acquisition, grew membership to over 290,000 while balancing its member populations in various programs including Affordable Care Act (“ACA”) adults, Family Health

**Cook County, Illinois
Management’s Discussion and Analysis
Year Ended November 30, 2021, continued**

Plan (“FHP”) members, Integrated Care Program (“ICP”), and Managed Long Term Supports and Services (“MLTSS”) members. CountyCare membership remains steady at over 417,000 members in FY 2021.

Once enrolled in CountyCare, members receive covered services at no cost including but not limited to primary and specialty visits within a broad network of doctors and hospitals. The CountyCare network consists of 138 primary care access points including CCH facilities, all Federally Qualified Health Centers (“FQHCs”) in Cook County, over 35 community hospitals, and five major academic medical centers.

CountyCare began as an Illinois Medicaid Demonstration program. When the demonstration program period ended on June 30, 2014, CountyCare members were transitioned into a County Managed Care Community Network (“MCCN”) which is an Illinois-designated Medicaid managed care structure to ensure members can remain with their medical home and network of care. As of late November 30, 2017, the total membership for the FHP, ICP and Affordable Care Act programs totaled 320,000. During FY 2021, membership remained steady at over 417,000 members.

In fiscal year 2021, salaries, wages, and benefits (excluding pension and OPEB expense) decreased by \$15.3 million to \$719.6 million. Retirements and not filling vacant positions accounted for most of this decrease. Pension and OPEB expense increased \$195.8 million (89.5%) from the prior year. The large increase in pension and OPEB expense was primarily due to decreases in the discount rates used in the actuarial valuations.

Supplies expense, including pharmaceuticals, increased to \$158.2 million. This 11.7% increase is primarily due to an increase in admissions and supplies costs during fiscal year 2021 compared to fiscal year 2020. Purchased services, rental and other expenses increased \$94.7 million (30.0%) from the prior year to \$410.3 million in fiscal year 2021. The increase is primarily due to an increase in the hiring of professional services due to the need for contractors to assist in difficult to fill positions.

Foreign claims expense increased by \$223.8 million (11.9%) from the prior year to \$2,100.5 million in fiscal year 2021. The large increase is primarily due to the continued growth in CountyCare’s membership resulting in an increase in external claims in 2021.

Financial Analysis of the County’s Funds

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the County’s governmental funds is to provide information on near-term inflows, outflows, and balances of resources that are available for spending. Such information is used in assessing the County’s financing requirements. In particular, the unassigned fund balance may serve as a useful measure of a government’s net resources available for discretionary spending at the end of the fiscal year. The types of governmental funds reported by the County include the General Fund, Annuity & Benefit Fund, Debt Service Fund, Motor Fuel Tax Fund, Grants Fund, and Nonmajor Governmental Funds.

As of November 30, 2021, the County’s governmental funds reported a combined fund balance of \$1,322.1 million, an increase of \$374.8 million (39.6%) in comparison with the prior fiscal year fund balance of

Cook County, Illinois
Management's Discussion and Analysis
Year Ended November 30, 2021, continued

\$947.3 million (as restated). Of the current fiscal year total, \$608.4 million is restricted, \$5.5 million is committed, \$165.4 million is assigned and \$542.8 million is unassigned.

Revenues from all governmental funds for the current year were \$3,264.9 million which represented an increase of \$328.3 million (11.2%) from the previous year of \$2,936.6 million. Expenditures for all governmental funds in the current year were \$2,917.2 million representing an increase of \$144.2 million (5.2%) from the previous year of \$2,773.0 million.

The General Fund is the County's principal operating fund and is primarily used to account for its governmental activities. The General Fund had a total fund balance of \$869.1 million at November 30, 2021, which represented an increase of \$259.2 million (42.5%), as compared to \$609.9 million at the beginning of the fiscal year, as restated. Of the current fiscal year total, \$165.5 million is assigned and \$703.6 million is unassigned. General Fund revenues during the current year were \$2,015.2 million, which represented an increase of \$318.7 million (18.8%) from the previous fiscal year of \$1,696.5 million.

The following items explain significant changes in General Fund revenues and expenditures:

- Revenues from non-property taxes increased by \$255.5 million compared to FY 2020, due to increases in sales tax, personal property replacement tax, county use tax, and cannabis tax. Non-property taxes are for the most part taxes imposed by the County under the Home Rule authority granted by the 1970 Illinois Constitution. This positive variance was due to the pent-up demand, relaxing of COVID-19 mitigation and stimulus checks.
- Revenues from fee offices increased by \$76.9 million (39.4%) compared to FY 2020. These increases were primarily due to the higher collection of penalties on taxes for the County Treasurer, the higher collection of fees for the County Clerk due to strong housing sales and the increase in fee amounts under the new Predictable Fee Ordinance, and the reclass of revenue from Sheriff's accounts due to implementation of GASB Statement No. 84, *Fiduciary Activities*.
- The General Fund expenditures for FY 2021 increased by \$211.7 million (15.0%). The majority of the increased costs were labor expenses for the Police Department, Department of Corrections, Medical Examiner's office and Juvenile Temporary Detention Center.

The Annuity and Benefit Fund's total expenditures and transfers totaled \$213.3 million, a 0.1% increase from fiscal year 2020. Changes from year to year relate primarily to the timing of property tax collections and the related distribution to the Plan.

As of November 30, 2021, the Debt Service Fund reported a fund balance of \$98.4 million, which represented a \$43.7 million (-30.8%) decrease as compared to \$142.1 million on November 30, 2020. The change is primarily due to the \$66.4 million line of credit balance, the proceeds of which were transferred to the Capital Projects Fund. The entire fund balance for the Debt Service Fund is restricted to pay principal and interest on debt.

The Motor Fuel Tax Fund reported a fund balance of \$347.2 million on November 30, 2021. This amount represents an increase of \$94.5 million (37.4%) as compared to \$252.8 million as of November 30, 2020. The entire fund balance for the Motor Fuel Tax Fund is restricted for road improvements and construction. The change is due to the continued allocation of Rebuild Illinois Bond funds for transportation and improvement projects.

Cook County, Illinois
Management's Discussion and Analysis
Year Ended November 30, 2021, continued

As of November 30, 2021, Grant Fund reported a fund balance deficit of (\$76.2) million, which represents a decrease of \$3.7 million (5.2%) as compared to (\$72.5) million on November 30, 2020. Of the current fiscal year total, \$17.7 million is restricted and (\$93.9) million is unassigned due to the deficit balance. The deficit balance will be eliminated when the unavailable revenues are recognized, and other grant eligibility requirements are fulfilled.

Proprietary Funds

The County's proprietary fund statements provide similar information found in the government-wide business-type activities financial statements, but in more detail.

For the fiscal year ended November 30, 2021, the net position of the enterprise fund was a deficit of \$4,838.7 million compared to a \$4,736.0 million deficit on November 30, 2020.

General Fund Budgetary Highlights

The Board of Commissioners of the County adopted the County's FY2021 Budget on November 24, 2020. The total County operating budget for 2021 was \$6.9 billion. The General Fund, made up of the Corporate and Public Safety Funds, totaled \$1.896 billion and represented 35.9% of the total operating budget.

The accompanying basic financial statements include a Statement of Revenues, Expenditures and Changes in Fund Balances—Budget and Actual—on a Non-GAAP Budget Basis. The County's budgetary basis of accounting is discussed in the Notes to the Required Supplementary Information.

During FY2021, the County's actual General Fund revenues and other financing sources were \$2.054 billion on the budgetary basis, 4.0% above the budgeted estimates of \$1.975 billion. The favorable results in the home rule sales tax of \$31.4 million and use tax of \$23.4 million are largely attributable to increased spending over the course of the year as the economy re-opened and COVID-19 restrictions eased. The revenue increase offset negative variances seen in the County's tourism-based taxes such as the amusement tax of \$6.3 million, hotel accommodations tax of \$3.7 million, gas tax of \$2.0 million, and the parking lot tax of \$8.0 million. Actual budgetary basis General Fund expenditures and encumbrances for FY2021 were \$1.858 billion, \$38.4 million (2.0%) less than the budget due to lower than anticipated expenditures in both the County's personnel and non-personnel budgets.

Capital Assets

The County’s capital assets for its governmental and business-type activities decreased (\$53.7) million (2.5%), net of accumulated depreciation at November 30, 2021. Capital assets include land, construction in progress, buildings, infrastructure, machinery and equipment and intangible assets. The County uses these capital assets to provide services to its citizens; consequently, these assets are not available for future spending.

The County implements various capital improvement projects annually. Construction of County roads and replacements within County facilities are included in the improvement funding. Countywide projects are designed to target the changing needs of building systems and increase efficiency in maintaining higher building Leadership in Energy and Environmental Design (“LEED”) standards. Continuous improvements are being done to the County’s highway system. Major projects such as the resurfacing enhancements north and south are an important part of the Cook County transportation network.

The FY2021 Capital Improvement Program emphasized the County’s commitment to supporting the various agency missions and enhancing the experience and quality of life for its employees and residents. In FY2021, Department of Capital Planning and Policy completed many projects in all three portfolios: Health and Hospitals, Public Safety, and Corporate Facilities. Capital Improvement Program projects are organized into four categories: 1) Life Safety/ADA/Security; 2) Capital Renewals/Deferred Maintenance; 3) Energy/Department Initiatives; and 4) Redevelopment/Demolition. In addition to code compliance and functional priorities, sustainability, equity, operational efficiencies, and cost savings guide the development of the CIP. Significant projects for FY2021 included the third phase of the County’s shared conference room facilities, the continuation of construction on the Provident renal dialysis center, multiple renovations, mechanical system upgrades, and continued accessibility upgrades in various public safety facilities in both the County and Dunne buildings, which led to additional sustained reductions in operational expenses.

**Cook County, Illinois
Management’s Discussion and Analysis
Year Ended November 30, 2021, continued**

In addition, the County has continued investments in a number of technology-based efficiency initiatives that will reduce costs in the long run, including: the continued deployment of the Unified Communications telephone system which is scheduled to be completed in early 2022; the GIS Integrated Property Tax System which creates a centralized database of the County’s 1.8 million property parcels and streamlines information sharing between County property and taxation agencies; the Clerk of the Circuit Court’s (“CCC”) new Case Management System (“CMS”) is still in progress to improve court operations and allow the CCC’s customers to interact more efficiently with the office. The County has continued to prioritize projects that facilitate the migration of the County’s systems and data off the mainframe to save approximately \$5.5 million annually in maintenance and hosting costs once all data has been migrated in approximately five years.

Additional information on the County’s capital assets can be found in Note I.D.4. & Note III.B. of the Basic Financial Statements.

Debt Administration

General Obligation and Sales Tax Revenue bonds are issued pursuant to an authorizing Bond Ordinance which is adopted by the Cook County Board of Commissioners. The County has the authority to issue bonds under its home rule powers as defined by the 1970 Illinois Constitution. Each bond issue is sold to investors with the net proceeds from the bond sales being utilized to finance the costs, including design, construction and furnishing of the capital projects and capital equipment which are approved by the Board. Historically, in prior years the County has also sold bonds to fund interest during construction of the capital projects and capital equipment as well as finance working cash accounts and self-insurance accounts.

The full faith and credit of the County is pledged for the punctual payment of principal and interest due on the General Obligation bonds. The County has levied ad valorem real property taxes to provide for these payments. These taxes are required to be extended for collection against all taxable real property within the County, without limitation as to rate and amount. The Sales Tax Revenue bonds are limited obligations of the County and are payable solely from the pledged sales tax revenues, which comprise the first collection of Home Rule local option sales tax revenues.

The County continues to obtain long-term financing for the construction, acquisition, or renovation of various long-term assets. It is management’s objective to meet the County’s overall demands for capital improvements and capital equipment and, at the same time, to ensure that property taxpayers are not overburdened with General Obligation bonds payable from future ad valorem taxes.

**Cook County, Illinois
Management's Discussion and Analysis
Year Ended November 30, 2021, continued**

As of November 30, 2021, the total net outstanding bonded debt was \$3,217.6 million. The following table indicates the changes in the County's long-term debt that occurred during FY 2021 (in millions):

**Changes in Long-Term Debt
Primary Government - All activities
(\$ amounts in millions)**

Description	Governmental Activities		Business-type Activities		Total	
	2021	2020	2021	2020	2021	2020

Net Pension Liability	9,868.9	8,889.5	5,116.0	4,691.5	14,984.9	13,581.0
Total OPEB Obligation	1,456.6	1,314.6	648.6	586.4	2,105.2	1,901.0
Other	1.3	1.0	-	-	1.3	1.0
Totals	<u>\$ 15,256.1</u>	<u>\$ 14,257.7</u>	<u>\$ 6,007.4</u>	<u>\$ 5,533.9</u>	<u>\$ 21,263.5</u>	<u>\$ 19,791.6</u>

During the current fiscal year ended November 30, 2021, the County's liabilities for long-term obligations increased by \$1,472.0 million (7.4%). The increase was primarily attributable to increases in the reported Net Pension and OPEB liability. It should be noted that all debt associated with the capital assets of the CCH (business-type activities) are general obligations of the County (governmental activities).

Additional information on the County's long-term debt can be found in Note III.E. of the Basic Financial Statements.

Bond Ratings

Cook County continues to meet the needs of its ongoing Capital Program through the use of its current revenues for pay-as-you-go financing where practical, along with the use of municipal bonds for debt financing where efficient. The County's underlying ratings on its General Obligation bonds as of November 30, 2021 were:

Fitch Ratings	AA- (Stable Outlook)
Moody's Investors Service	A2 (Stable Outlook)
S&P Global Ratings	A+ (Stable Outlook)

As of November 30, 2021, the County's Sales Tax Bonds held ratings of "AAA" (stable outlook) from Kroll Bond Rating Agency and "AA-" (stable outlook) from S&P. On November 4, 2021, Fitch Ratings upgraded the County's General Obligation credit ratings from "A+" to "AA-" with a Stable outlook. On November 5, 2021, S&P Global Ratings revised its outlook to stable from negative on the County's General Obligation debt. Subsequently, S&P Global Ratings also revised its outlook to stable from negative on the County's Sales Tax Revenue bonds.

Cook County, Illinois
Management's Discussion and Analysis
Year Ended November 30, 2021, continued

Other Obligations

The County administers a self-insurance program for health insurance as well as all risks, including workers' compensation, medical malpractice, auto and general liability and other liabilities subject to certain stop-loss provisions. Detailed information about the County's liabilities related to the self-insurance program is included in Note 1 to the Basic Financial Statements. Other obligations reported include pension, OPEB and compensated absences earned by employees.

Economic Factors and Future Significant Information

The County's revenues and expenditures have been affected by changes in local, national, and international financial factors. The Cook County Administration has taken these economic changes into consideration and has implemented management initiatives to improve the County's fiscal future. Some of the key economic factors that influence the County's finances are noted below:

- The 2021 annual average Cook County unemployment was 7.1%, down from 10.4% in 2020.
- Home sales in the Chicago area were up in 2021, with a 14.5% increase from 2020.
- Median home prices rose by 11.6% in 2021 year over year.
- Real gross product decreased by -6.4% in 2020 (most recent available) for the County, vs. -3.4% nationally.
- Per capita personal income grew by 6.3% in 2019 (most recent available) for the County.
- Gasoline prices increased by 38.7% in 2021, on an annual basis.

The American Rescue Plan Act, signed into law by President Joseph Biden on March 11, 2021, provides \$1.9 trillion in stimulus to the national economy by the federal government. Through the Coronavirus State and Local Fiscal Recovery Funds (SLFRF), the County is expected to receive \$1.0 billion directly from the American Rescue Plan. These SLFRF funds can cover eligible costs incurred during the period of March 3, 2021 and ending on December 31, 2024. Further, obligated funds incurred by December 31, 2024 must be expended by December 31, 2026. The County received approximately 50% of its SLFRF allocation on May 9, 2021 and is expected to receive the remaining 50% no later than May 31, 2022.

Per Department of the Treasury guidelines, there are four statutory eligible uses for funds:

1. To respond to the COVID-19 public health emergency or its negative economic impacts.
2. To respond to workers performing essential work during the COVID-19 public health emergency by providing premium pay to such eligible workers of the recipient, or by providing grants to eligible employers that have eligible workers who performed essential work.
3. For the provision of government services, to the extent of the reduction in revenue of such recipient due to the COVID-19 public health emergency, relative to revenues collected in the most recent full fiscal year of the recipient prior to the emergency.
4. To make necessary investments in water, sewer or broadband infrastructure.

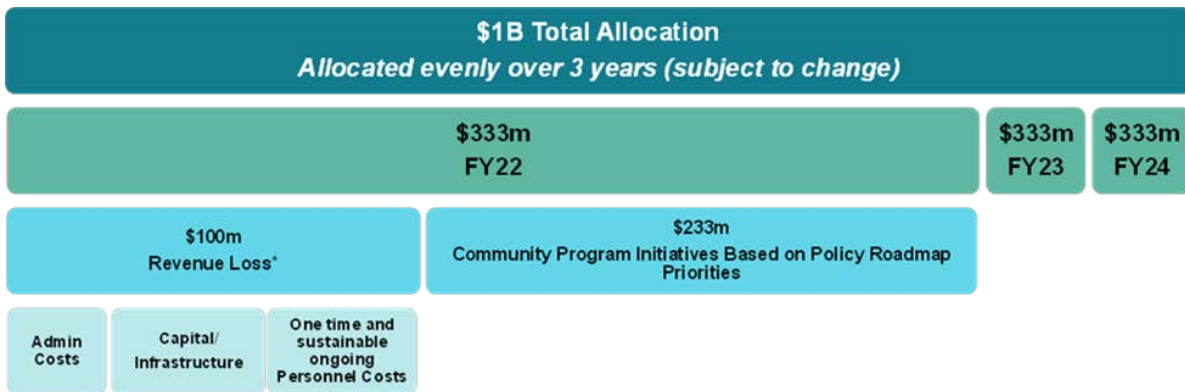

The Roadmap to Recovery, the County's strategy for use of the County's \$1.0 billion of SLFRF funds, is modeled on six policy priorities in the Cook County Policy Roadmap, a five-year strategic plan for Offices Under the County President released on November 14, 2018. These six policy priorities are Healthy Communities, Vital Communities, Safe and Thriving Communities, Sustainable Communities, Smart

**Cook County, Illinois
Management’s Discussion and Analysis
Year Ended November 30, 2021, continued**

Communities, and Open Communities (collectively, the “Six Policy Priorities”). More details on each of these policy priorities can be found in the Cook County Policy Roadmap. Broadly speaking, efforts under our Healthy, Vital and Safe and Thriving Communities address the Covid-19 Public Health Emergency and negative economic impacts outlined in the Treasury guidelines above, while Sustainable and Smart Communities work to address investments in water, sewer, and broadband infrastructure.

The County will set aside a portion of these SLFRF funds for uses consistent with the Open Communities goal and corresponding to the revenue loss eligible category under Treasury guidance. The County’s Executive Budget Recommendation for Fiscal Year 2022 (the “Fiscal Year 2022 Budget Recommendation”) sets aside \$100 million for revenue loss. The County operates on a fiscal year (“Fiscal Year”) basis ending each November 30. This use of the SLFRF funds will help to reduce the County’s estimated Fiscal Year 2022 budget gap of \$121.4 million. Please also see chart below providing an overview of the County’s expected use of SLFRF funds for Fiscal Years 2022-2024. These initiatives and funds largely work to address the Treasury guidelines related to the performance of essential work and provision of government services.

Overview of the County’s Expected Use of SLFRF Funds

SLFRF funds will also go towards strategic investments in the other six Policy Priorities. The design of these investments is intended to achieve the best outcomes for County residents by addressing the long-standing inequities that have been deepened by the COVID-19 pandemic. Investments will be made to encourage economic development, support public infrastructure, promote health and wellness, advance criminal justice goals and work towards environmental sustainability.

The County has embarked upon a plan to allocate SLFRF funds. Since June 2021, the County has received over 400 proposals for how to spend these funds from bureaus and departments, County Commissioners, separately elected officials, other County partners, and residents of the County community at large. As the demonstrated need for communities throughout the County exceeds the funds available from SLFRF, the County has activated Policy Pillar teams of experts to evaluate the strength of proposals in their respective areas of expertise, as well as the Executive Leadership Council, a body of County leaders who will provide overall recommendations of how the County should best spend its money. This process is currently ongoing, and final funding decisions are expected to go to the County Board of Commissioners for votes at the start of 2022.

Cook County, Illinois
Management's Discussion and Analysis
Year Ended November 30, 2021, continued

In addition to the funds directly received by the County, it is anticipated that a portion of the federal stimulus implemented by ARPA will return to the County in the form of sales tax revenue as spending by individual recipients increases. Recovery rebate credits for individuals (\$1,400 stimulus checks) account for 34% of 2021 ARPA spending (\$405 billion out of \$1.2 trillion). From research on prior stimulus check payments, 19% of these funds are expected to be spent, rather than saved or used to pay off debt. The County also expects an additional \$2 million in sales tax revenue from the expanded child tax credit across 2021 and 2022, following the same methodology. Together with the additional \$10 billion in funding allocated between the City and the State, the County anticipates that the SLFRF funding provided by the federal government will stimulate the economy and result in increased sales tax revenue for the region. The County's spending plan for the ARPA allocation is detailed in its FY2021 ARPA Annual Performance Report published on <https://www.cookcountyil.gov/ARPA>. The spending plan will be updated as additional uses of the funding are approved by the County Board.

Requests for Information

This financial report is designed to provide a general overview of the County's financial position for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Office of the County Comptroller, 50 West Washington Street, Suite CL-25, Chicago, Illinois 60602.

The notes to the financial statements are an integral part of this statement.

Exhibit 4
COOK COUNTY, ILLINOIS
RECONCILIATION OF THE GOVERNMENTAL FUNDS
BALANCE SHEET TO THE STATEMENT OF NET POSITION
November 30, 2021

Total Fund Balances - Governmental Funds \$ 1,322,093,379

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds. 1,538,028,301

Revenues which are reported as deferred inflows of resources in the governmental funds (unavailable), are recognized as revenue in the government-wide financial statements. 814,508,913

Long-term liabilities, as listed below, are not due and payable in the current period and therefore are not reported as fund liabilities:

Bonds and direct borrowing debt	(2,989,281,750)	
Notes payable (HUD)	(6,871,000)	
Premiums on bonds	(228,320,067)	
Deferred outflow/inflow (refunding)	(5,853,020)	
Contribution payable to the Pension Plan	(133,558,773)	
Property tax objections	(68,766,935)	
Self-insurance claims	(568,192,197)	
Pollution remediation	(811,174)	
Asset Retirement Obligation	(439,500)	
Compensated absences	(67,918,902)	
Net pension liability	(9,868,927,589)	
Total OPEB liability	(1,456,592,361)	
Prepaid expenses - debt insurance	93,168	
Accrued interest	(5,225,855)	
		(15,400,665,955)

Deferred outflows of resources related to pension and OPEB are not reported in governmental funds because they do not use current financial resources. Similarly, deferred inflows of resources related to pensions and OPEB do not provide current financial resources.

Deferred outflow (OPEB)	332,340,039
Deferred outflow (pension)	2,029,394,492
Deferred inflow (pension)	(900,036,471)
Deferred inflow (OPEB)	(210,384,701)

Total net deficit of governmental activities \$ (10,474,722,003)

The notes to the financial statements are an integral part of this statement.

Exhibit 6
COOK COUNTY, ILLINOIS
RECONCILIATION OF THE STATEMENT OF REVENUES,
EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
For the Year Ended November 30, 2021

Net change in fund balances - total governmental funds \$ 374,836,711

Amounts reported for governmental activities in the statement of activities are different because:

The governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

Capital outlay	145,534,009	
CCH transfers - contributed capital	(22,430,759)	
Depreciation and amortization expense	(171,034,700)	
Loss on disposal of capital assets	<u>(96,393)</u>	
		(48,027,843)

Some expenses reported in the statement of activities do not require the use of current financial resources such as changes in property tax objections, pollution remediation liabilities, compensated absences, self insurance liabilities, pension and OPEB obligations, and are not reported as expenditures in the governmental funds.

Property tax objections	8,491,782	
Pollution remediation	(213,674)	
Compensated absences	760,007	
Self-insurance claims	(62,389,298)	
OPEB expense	(8,675,823)	
Pension expense	<u>(144,192,159)</u>	
		(206,219,165)

The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of all prepaid bond insurance, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items:

Debt issuance	(747,875,000)	
Line of credit decreases	175,000,000	
Premium on refunding bonds	(138,908,113)	
Payment to Refunded Bond Escrow Agent	672,075,744	
Debt service principal payments	158,490,000	
Note payable principal payment	650,000	
Change in prepaid bond insurance	(14,135)	
Amortization of bond premium	63,444,476	
Change in accrued interest on bonds	703,620	
Change in deferred inflow and outflows - refundings	<u>(26,718,229)</u>	
		156,848,363

Revenues in the statement of activities that do not provide current financial resources are deferred inflows of resources in the fund financials. These amounts represent the changes in unavailable revenue over the prior year.

Deferred inflow of resources - property and other taxes	9,859,751	
Deferred inflow of resources - grants	<u>(22,937,268)</u>	
		<u>(13,077,517)</u>

Change in net position (deficit) of governmental activities \$ 264,360,549

The notes to the financial statements are an integral part of this statement.

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Cook County, Illinois (the “County”), a home rule unit under the Illinois Constitution of 1970, was created by the State of Illinois in 1831. The County is managed by 17 Commissioners elected from single member districts for four-year terms. The President of the County Board of Commissioners (the “County Board”) is also elected and serves as the chief executive officer; she/he may also be elected as a Commissioner. The current President is not a Commissioner. All 17 Commissioners serve as the legislative body.

The accompanying financial statements of the County have been prepared in conformity with generally accepted accounting principles in the United States of America (“GAAP”), as prescribed by the Governmental Accounting Standards Board (“GASB”).

The County implemented the following GASB Statements in the 2021 fiscal year:

- GASB Statement No. 84, *Fiduciary Activities*, was effective for the County in fiscal year 2021. This Statement is intended to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. In addition, this Statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities. The requirements of this statement resulted in the restatement of beginning net position for fiduciary funds as discussed in Note X. This statement had a significant impact on the 2021 statements.
- GASB Statement No. 90, *Majority Equity Interests*, was effective for the County in fiscal year 2021. This statement did not have a significant impact on the 2021 statements.
- GASB Statement No. 98, *The Annual Comprehensive Financial Report*. This statement did not have a significant impact on the 2021 statements.

Management is currently assessing the impact that the adoption of the following GASB Statements will have on the County’s future financial statements, which are not implemented and not required for the fiscal year ended November 30, 2021. The standards on Leases, Subscription Based Information Technology Arrangements, and Public-Private and Public-Public Partnerships and Availability Payment Arrangements are expected to have a material impact on the financial statements when implemented:

- GASB Statement No. 87, *Leases*, will become effective for the County in fiscal year 2022 due to the implementation of GASB Statement No. 95 issued in May 2020.
- GASB Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*, will become effective for the County in fiscal year 2022 due to the implementation of GASB Statement No. 95 issued in May 2020.

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

- GASB Statement No. 91, *Conduit Debt Obligations*, will become effective for the County in fiscal year 2023 due to the implementation of GASB Statement No. 95 issued in May 2020.
- GASB Statement No. 92, *Omnibus 2020*, will become effective for the County in fiscal year 2022 due to the implementation of GASB Statement No. 95 issued in May 2020.
- GASB Statement No. 93, *Replacement of Interbank Offered Rates*, will become effective for the County in fiscal year 2022 due to the implementation of GASB Statement No. 95 issued in May 2020. GASB Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*, will become effective for the County in fiscal year 2023.
- GASB Statement No. 96, *Subscription-Based Information Technology Arrangements*, will become effective for the County in fiscal year 2023.
- GASB Statement No. 97, *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans—an amendment of GASB Statements No. 14 and No. 84, and a supersession of GASB Statement No. 3*, will become effective for the County in fiscal year 2022.

A. Financial Reporting Entity

As required by GAAP, these financial statements present the County (the primary government) and its component units, the Forest Preserve District of Cook County, the Cook County Emergency Telephone System, and the County Employees’ and Officers’ Annuity and Benefit Fund. As used both on the face of the financial statements and in the footnotes, the term “Primary Government” includes both County funds and any Blended Component Units while the term “Component Units” includes only Discretely Presented Component Units. The component units discussed below are included in the County’s reporting entity because of the significance of their operational or financial relationships with the County.

Discretely Presented Component Units

The following two component units have been discretely presented due to the nature and significance of their relationship to the County as described below:

1. The Forest Preserve District of Cook County, Illinois (the “District”) was established pursuant to Illinois Compiled Statutes (Chapter 40, Act 5, Sections 9-101 to 10-108) on July 1, 1914. The District is governed by the same Board of Commissioners that currently serve as members of the County’s Board or Forest Preserve District Board of Commissioners (the “District Board”). The President of the District appoints management positions and has authority for budgets, fiscal management and the setting of charges and fees for the use of forest preserve facilities. As a separate taxing body the District is subject to its own statutory tax rate limitations. The District has the power to create forest preserve facilities and may issue debt secured by the full faith and credit of the District. The County is not responsible for financing operating deficits or debt service of the District and there is no benefit/burden relationship between the District and the County, nor does the County have operational responsibility for the District. The boundaries of the District are coterminous with the boundaries of the County.

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

The District's financial statements are discretely presented in the County's financial statements based on GASB Codification Section 2600 *Reporting Entity and Component Unit Presentation and Disclosure* ("GASB Section 2600").

2. The Cook County Emergency Telephone System (the "System") is a venture established by resolution of the Cook County Board of Commissioners in accordance with the Emergency Telephone System Act of the Illinois Compiled Statutes. The County Board and the Sheriff's Office appoint the System's board members. The County Board approves any surcharge changes requested by the System's management and the County funds salary expenses for System employees through an annual appropriation. As such, the System is presented as a discrete component unit in accordance with GASB Section 2600. The System was organized for the purpose of providing equipment, services, personnel, facilities and other items necessary for the implementation, operation, maintenance and repair of the E-911 Emergency Telephone System within the unincorporated portions of the County and the municipalities of Robbins, Ford Heights, Northlake, Golf, Phoenix, and Dixmoor, Illinois.

Although the County Employees' and Officers' Annuity and Benefit Fund is a legally separate entity for which the County is not financially accountable, it is included in the County's basic financial statements as fiduciary component units (Pension Trust and Other Post-Employment Benefits ("OPEB") Trust). The unfunded liabilities, and the trajectory of the Fund's solvency is such that exclusion might serve to render the County's financial statements misleading. The County Employees' and Officers' Annuity and Benefit Fund is a single defined benefit, single-employer pension and OPEB plan established by Illinois Compiled Statutes (Chapter 40, Acts 5/9 and 5/10). The Retirement Board is the administrator of the County Employees' and Officers' Annuity and Benefit Fund and consists of nine members, two of whom are appointed by County management and seven of whom are elected by plan participants. The Trust Funds are maintained and operated for the benefit of the employees and officers of the County. As a result, the Trust Funds are financed by investment income, employees' payroll deductions and employer contributions (property taxes levied and collected by the County).

Each of the County's component units issue separate reports. See Note I. D. 14. for information on how to obtain each report.

The County is not aware of any other entity over which it exercises significant operational or financial control which would result in the entity being blended or discretely presented in the County's financial statements.

The following component units included within the County's reporting entity, report on a calendar year basis; the Forest Preserve District of Cook County (discretely presented) and the County Employees' and Officers' Annuity and Benefit Fund (Pension Trust and OPEB Trust funds). The financial statements included for these entities are for calendar years that ended on December 31, 2020, as permitted, but not required, under GASB Section 2600.

The Housing Authority of the County of Cook (the "Authority" or "HACC") is the second largest public housing authority in Illinois. The Authority is a municipal corporation that was established in 1946 to serve 108 communities, as well as unincorporated areas in suburban Cook County. Funding is provided by the Federal Government through the Department of Housing and Urban Development ("HUD"). The Board of Commissioners of the Authority is comprised of individuals who are appointed by the Cook County Board President and confirmed by the full County Board

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

for five-year terms. The Authority is not a component unit of the County; however, under GASB Section 2600, the Authority is a related organization. The County is not aware of any other significant operational or financial control over the Authority that would require the Authority's financial activity to be presented in the County's financial statements.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the County and its component units. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on user fees and charges for services. Likewise, the primary government is reported separately from its discretely presented component units for which the primary government is financially accountable.

As a general rule, the effect of inter-fund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes where the amounts are reasonably equivalent in value to the inter-fund services provided and other charges between the County's governmental activities and business-type activities. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segments are offset by program revenues. Direct expenses are those that are clearly identified with a specific function or segment.

Program revenues include:

- 1) Licenses, fees and charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment.
- 2) Operating and capital grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment.

Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate fund financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the fiduciary funds are excluded from the government-wide financial statements. Major individual governmental funds and major individual proprietary funds are reported as separate columns in the fund financial statement.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The accounting system of the County, which is maintained by the County Comptroller (the "Comptroller") is a fund system implemented to present the balances and activities of each fund. It is also designed to provide budgetary control over the revenues and expenditures/expenses of each fund. Separate funds are segregated for the purpose of carrying on specific activities or

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

attaining certain objectives in accordance with special regulations, restrictions or limitations. Each fund is an independent fiscal and accounting entity made up of a self-balancing set of accounts, recording cash and other financial resources, together with all related liabilities and residual balances, and changes therein.

Accounting records for the Forest Preserve District, the Trust Funds, and the various fee offices are maintained by management of the respective entities.

The government-wide, proprietary fund and fiduciary fund financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Derived tax revenues and State shared revenues (home rule taxes, State sales tax, PPRT, etc.) are recorded when the underlying exchange takes place. Property taxes are recognized as revenues in the year for which they are levied.

Revenues such as property taxes, non-property taxes, investment income and miscellaneous in the governmental fund financial statements are mostly reported as general revenues on the government-wide statement of activities. Revenues such as fees and licenses, Federal government grants, State of Illinois (the "State") grants and charges for services are reported as program revenues on the government-wide statement of activities.

Governmental fund financial statements are reported using the flow of *current financial resources measurement focus* and the *modified accrual basis of accounting*. Under the modified accrual basis of accounting, revenues are recognized as soon as they are both measurable and available for financing current obligations. Accordingly, property taxes are recognized as deferred inflows of resources in the year of levy (because the collections are unavailable at year-end) and as revenue in the subsequent year when the taxes are collected throughout the year, or within 60 days thereafter. Uncollected taxes are written off by the County at the end of the fiscal year immediately following the year that the taxes become due.

Derived tax revenues and State shared revenues (home rule taxes, State sales tax, PPRT, etc.) are recorded when the underlying exchange takes place, subject to availability. Federal and State grant revenues are recognized when the County has met all eligibility requirements, subject to availability. Interest on investments is recognized when earned. The County considers amounts to be available if collected during the period, or within 2 months after fiscal year-end. Amounts related to the current fiscal year but not collected within the first 60 days of the subsequent year are recorded as deferred inflows of resources (unavailable).

Property taxes, most non-property taxes, intergovernmental grants and investment income are susceptible to accrual. Most other revenues (fees, fines, cigarette taxes, etc.) are recognized when collected by the County or its agencies on the cash basis.

In governmental funds, expenditures, other than long-term debt and other long-term obligations (compensated absences, pensions, OPEB, property tax objections, self-insurance claims, etc.) are expected to be paid with available expendable resources and are recognized when obligations are incurred. Debt principal retirements and other payments related to long-term obligations other than debt, are reported as expenditures when due.

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

In the fund financial statements, proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services, in connection with a proprietary fund's principal ongoing operations. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses. The principal operating revenue of the Cook County Health and Hospitals System ("CCH") enterprise fund is payments received under CountyCare, charges to patients for services performed, and certain grants. Operating expenses of the CCH include the cost of services, costs incurred to other providers, administrative expenses, and depreciation on capital assets.

In the fund financial statements, private-purpose trust and custodial fiduciary fund types recognize a liability to the beneficiaries of a fiduciary activity when an event has occurred that compels the government to disburse fiduciary resources. Pension trust funds report liabilities to Plan members when benefits are currently due and payable in accordance with the benefit terms.

Governmental Funds

The County reports the following major governmental funds:

General Fund – The General Fund is the general operating fund of the County. It is used to account for all financial resources not accounted for and reported in another fund. There are four accounts used by the County for General Fund financial resources: the Corporate Account, the Public Safety Account, the Self Insurance Account and the Equity and Inclusion Account. The Corporate Account includes all revenues and expenditures attributable to government management and supporting services; control of environment; assessment, collection and distribution of taxes; election; economic and human development; and transportation. The Public Safety Account includes the revenues and expenditures attributable to the protection of persons and property (corrections and courts), to include the costs of administering laws related to vehicles and transportation, government management and supporting services and revenues and expenditures of the Medical Examiner. The Self Insurance Account is used to account for employee health claims and various County risks, including workers' compensation and other liabilities. The Equity and Inclusion Account was created to address historical disparities and disinvestment in Black and Latinx communities as well as other communities that are marginalized or have experienced other social and economic disparities.

Annuity and Benefit Fund – The Annuity and Benefit Fund was established to account for the yearly revenues and expenditures the County receives and transmits to the separate body politic represented by the County Employees' and Officers' Annuity and Benefit Fund of Cook County. Revenues are derived from dedicated tax levies, personal property replacement taxes and interest earnings.

Debt Service Fund – The Debt Service Fund is used to account for the accumulation of resources to pay principal and interest, when due, of the bonded debt incurred by the County.

Motor Fuel Tax Fund – The Motor Fuel Tax Fund was established to provide for the design, construction and maintenance of streets, roads and highways. Revenues are derived from reimbursements from the State, the Federal Government, other governments and other miscellaneous sources. The revenue is derived from the County's share of the State's Motor Fuel

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

Tax on gasoline which is restricted for road/highway construction, improvements and related debt service.

Grants Fund – The Grants Fund is used to fund specific grant programs administered by the County. Revenues are obtained from federal, state, local and private grant sources.

Proprietary Funds

The County reports the following proprietary fund:

Enterprise Fund – The Enterprise Fund is used to account for certain costs of operating CCH. In May 2008, the County Board created the Cook County Health and Hospitals System Board (the “CCH Board”) to provide independent oversight of health care operations. The CCH Board is accountable to the County Board. The CCH Board and the Ordinance were originally scheduled to terminate in three years. In May of 2010, the County Board of Commissioners voted to make the CCH Board permanent. The CCH includes the following entities: John H. Stroger, Jr. Hospital of Cook County, Oak Forest Health Center, Provident Hospital, the Cook County Department of Public Health, the Bureau of Health Services, the Ambulatory and Community Health Network, the Ruth Rothstein Core Center, Cermak Health Services of Cook County, which provides primary and specialty care to individuals at the Cook County Jail and the Juvenile Temporary Detention Center, and CountyCare, a managed Medicaid health plan.

The operations and activities of CCH continue to be subsidized by the County as CCH continues to incur operating losses. The Cook County Board of Commissioners remain committed to the continued mission of CCH and provides revenue from other resources in order for CCH to complete funding of the adopted budget, such as property tax, and proceeds from debt restructuring savings. Certain significant activities/costs are paid directly by County governmental funds including debt principal and interest, capital asset acquisition/construction, and contributed services. If all CCH expenses and liabilities were recorded in the Enterprise Fund, the reduction in the CCH’s net position would be significant.

Financial Condition of CCH – Operating losses from operations for CCH totaled \$489.2 million for the year ended November 30, 2021. The health care industry is highly dependent upon a number of factors that have a significant effect on operations, such as laws and regulations, and continuing shifts in payor utilization. The COVID-19 pandemic significantly impacted CCH’s operations and utilization. Additionally, certain salaries in the health care industry have become very competitive as a result of the national shortage of health care professionals.

In 2012, CCH and the Cook County Board Officials collaborated to cut Medicaid costs, help County taxpayers, and transform Cook County’s hospital system by jump-starting national health care reform in Cook County. In October 2012, the Federal government approved CCH’s Medicaid Expansion Program (“CountyCare”) by creating the CMS waiver under Section 1115 of the Social Security Act (“1115 Waiver”) for Cook County, allowing CCH to enroll more than 115,000 individuals who would become eligible for Medicaid in 2014 under the Affordable Care Act.

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

Once enrolled in CountyCare, members receive covered services at no cost including but not limited to primary and specialty visits within a broad network of doctors and hospitals. The CountyCare network consists of 138 primary care access points including CCH facilities, all Federally Qualified Health Centers (“FQHCs”) in Cook County, over 35 community hospitals, and five major academic medical centers. CountyCare began as an Illinois Medicaid Demonstration program. When the demonstration program period ended on June 30, 2014, CountyCare members were transitioned into a County Managed Care Community Network (“MCCN”), which is an Illinois-designated Medicaid managed care structure to ensure members can remain with their medical home and network of care.

CCH management expects to reduce operating losses in the future by retaining CountyCare membership, growing specialty and clinical services, improving denials management, bending the cost curve and increasing patient satisfaction and retention. To this end, CCH is establishing initiatives to sustain the trend of managing operating losses. Like all Medicaid Managed care plans, CountyCare and by extension CCH, continues to be highly dependent on timely reimbursement from the Illinois Department of Healthcare and Family Services (“DHFS”) for cash flow. CCH management continues to work on strategies to increase revenues through making its services more attractive to patients, managed care organizations, and other providers. It is also working on decreasing costs by reducing overtime hours and bringing high cost services in-house where financially/operationally justifiable. The financial climate for safety net hospitals continues to be challenging and CCH must continue to grow its base activity and its ability to accurately capture, bill and collect for the services in the Medicaid managed care environment.

(1) Net Patient Service Revenue and Patient Accounts Receivable

A significant amount of CCH’s net patient service revenue is derived from the Medicaid and Medicare programs. Payments under these programs are based on a specific amount per case or on a contracted price or cost, as defined, of rendering services to program beneficiaries.

Net patient service revenue is reported at estimated realizable amounts from patients, third-party payors, and others for services rendered. Retroactive adjustments under reimbursement agreements with third-party payors are considered in the recognition of revenue on an estimated basis in the period the related services are rendered and are adjusted in future periods as final settlements are determined. Estimated amounts due from or to third-party payors are reported as third-party settlement liabilities in the statement of net position. Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates may change. Estimates for cost report settlements and contractual allowances can differ from actual reimbursements based on the results of subsequent reviews and cost report audits. Net patient service revenue decreased approximately \$10.3 million for the year ended November 30, 2021, for third-party settlements and changes in estimates related to services rendered in previous years.

Patient accounts receivable represents amounts owed to CCH for services provided to patients. The receivable is either due from a third-party payor, such as Medicaid, Medicare, or commercial insurance carriers, or directly from the patient. Patient accounts receivable are presented net of allowances for contractual discounts and uncollectible accounts. CCH evaluates the collectability of its patient accounts receivable based on the length of time the receivable is outstanding, payor class, and historical experience. Accounts receivable are

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

charged against the allowance for uncollectible accounts when they are deemed uncollectible. Medicaid patient accounts receivable (excluding Medicaid managed care) represented approximately 20% of patient accounts receivable, net, as of November 30, 2021.

(2) Charity Care

CCH’s mission is to treat all patients in need of medical services without regard to their ability to pay. Medical services are available at all CCH’s locations for those patients that are unable to pay for them. All patients are evaluated through the CCH financial counseling services. If a patient qualifies for Medicaid or other Federal programs, CCH will assist the patient in completing the applications for those programs.

For those patients that do not qualify for Medicaid or any other Federal programs, CCH has a charity care program for Cook County residents that evaluates the patient’s need based on family size and income. The guidelines to qualify for charity care are adjusted each year based on changes in the Federal Government’s poverty guidelines. The charity program covers patients with incomes up to 600% of the Federal Poverty guidelines.

Patients that are not residents of Cook County that need financial assistance in paying for their medical services are also offered a discount under the Illinois Uninsured Patient Discount program if their income is less than 600% of the Federal Poverty guidelines.

Charity care is measured based on the CCH’s estimated direct and indirect costs of providing charity care services. That estimate is made by calculating a ratio of cost to gross charges, applied to the uncompensated charges associated with providing charity care to patients. Fiscal year 2021 amounts are as follows:

Charges forgone for charity care	<u>\$ 256,035,567</u>
Estimated costs incurred for charity care	<u>\$ 173,176,744</u>

During FY 2021, the CCH’s payer utilization was as follows, based on gross patient service revenue:

Self-Pay	\$ 458,145,864
Medicaid (including CountyCare)	498,377,969
Medicare	244,771,508
Other	<u>100,732,749</u>
Total	<u>\$ 1,302,028,090</u>

For the year ended November 30, 2021, estimated gross charges associated with services provided to CountyCare patients totaled approximately \$263.0 million. Charges related to CountyCare patients are excluded from the table above as CCH is reimbursed through capitation rather than through patient service revenue, and any gross charges associated with CCH services provided to CountyCare patients are eliminated in combination.

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

(3) Intergovernmental Agreement

CCH receives enhanced Medicaid reimbursement by means of an Intergovernmental Agreement (the “Agreement”) between CCH and the Illinois Department of Healthcare and Family Services (“DHFS”). Under terms of the Agreement, DHFS will direct additional funding to CCH for cost reimbursement methodologies. In addition, the Agreement requires DHFS to provide CCH additional funding to assist the CCH in offsetting the cost of its uncompensated care from disproportionate share (“DSH”) and Medicare, Medicaid and SCHIP Benefits Improvement and Protections Act of 2000 (BIPA). Such adjustment amounts include federal matching funds.

Under the terms of the Agreement, CCH received \$342.2 million additional payments from DHFS during the fiscal year ended November 30, 2021. Of the amount received, \$71.9 million is unearned and included in unearned revenue on the Statement of Net Position. Unearned revenue is excluded from net patient service revenue and represents amounts to be earned during CCH’s following fiscal year. Included in net patient service revenue as earned is \$342.2 million which takes into consideration the prior year unearned revenue of \$71.9 million. Additionally, a liability of approximately \$23.8 million has been recorded as of November 30, 2021 for a potential BIPA overpayment due to a change in the Federal Medical Assistance Percentages (“FMAP”). This liability is included in due to State of Illinois in the Statements of Net Position.

Reimbursement under the Agreement will automatically terminate if federal funds under Title XIX are no longer available to match 50% of the amounts collected and disbursed according to the terms of the Agreement. The Agreement will also automatically terminate in any year in which the General Assembly of the State fails to appropriate or re-appropriate funds to pay DHFS’s obligations under these arrangements or any time that such funds are not available. The Agreements can be terminated by either party upon 15 days’ notice. Additionally, the Agreements require the parties to comply with certain laws, regulations, and other terms of operations.

(4) CountyCare

In October 2012, the Federal government approved CCH’s Medicaid Expansion Program (“CountyCare”) by creating the CMS waiver under Section 1115 of the Social Security Act (“1115 Waiver”) for Cook County. CountyCare began as an Illinois Medicaid demonstration project that ran through June 30, 2014, at which time CountyCare members were transitioned into a County Managed Care Community Network (“MCCN”). Before the waiver, most of the CountyCare members were already patients being treated by CCH without compensation. Under the 1115 Waiver, CCH received Per Member Per Month (“PMPM”) revenue for CountyCare members of \$629, but subject to the Federal Medical Assistance Percentage (“FMAP”), which CCH funded through the Interagency Transfer Agreement. Effective January 1, 2014, the PMPM increased to \$632, with no FMAP requirement. Currently, PMPM varies by membership type.

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

Claims Payments: All medical claims for payment of CountyCare are handled by Evolent, a third-party administrator (“TPA”) under contract, whether the claims are generated by CCH facilities (domestic claims) or the network of outside providers (foreign claims). Total estimated foreign claims expense for the year ended November 30, 2021, was approximately \$2.1 billion. Of this amount, total claims payable included in Statement of Net Position was approximately \$438 million. Throughout the course of the year CCH records intra-entity transactions between internal reporting units such as Stroger and CountyCare. These intra-entity transactions are eliminated upon consolidation for financial reporting purposes. One of the most significant intra-entity transactions relates to services provided by CCH facilities and providers, such as Stroger, to CountyCare members.

As of November 30, 2021, total receivables from the State of Illinois for Health Plan Services was \$240 million, in comparison to total payables of \$463 million, consisting of \$12 million of accounts payable and \$451 million of claims payable. The net difference between these receivable and payable amounts for Health Plan Services is (\$223 million).

Refundable Deposit: Under the agreements with the current TPA, CountyCare maintains a deposit of \$56 million with the TPA at November 30, 2021, which the TPA uses to pay claims and subsequently invoice CountyCare to replenish the deposit amount. This amount is included in noncurrent refundable deposits in the statement of net position. As of November 30, 2021, the balance of the deposits held by the TPAs was \$37 million. The remaining amount of \$19 million which represents amounts invoiced to CountyCare by the TPAs that have yet to be paid by CountyCare to replenish the \$56 million deposit, is included in claims payable.

(5) Directed Payments and Provident Hospital Access Payments

In 2014, the CCH Board entered into an agreement with the State of Illinois to receive payments from other Medicaid MCOs to continue to make services available at Provident Hospital. Through December 31, 2019, CCH received a payment of \$10 per member, per month, but these payments were subject to the Federal Medical Assistance Program (“FMAP”) which CCH funds through the Interagency Transfer Agreement.

Starting January 1, 2020, the capitated access payments ended and was replaced by directed payments from the State, passed through Medicaid MCOs to CCH. At November 30, 2021, estimated amounts due from various Medicaid MCOs for these directed payments totaled approximately \$4 million. These are included as directed payments receivable in the statement of net position.

Fiduciary Funds

The County reports the following fiduciary funds:

Pension Trust Fund and Postemployment Health Care Trust Fund – The Trust Funds are used to account for transactions, assets, liabilities and net position available for the pension and Other Postemployment Benefits (“OPEB”) provided by the County Employees’ and Officers’ Annuity and Benefit Fund of Cook County.

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

Private Purpose Trust Funds – The Private Purpose Trust Funds are used to account for all fiduciary activities that are not required to be reported in pension trust or investment trust funds, and are held in a trust or trust equivalent in which the County is not a beneficiary, the resources are legally protected from the County’s creditors, and the resources are dedicated to providing benefits to the recipients in accordance with the benefit terms. Private Purpose Trust Funds include amounts held by the following offices: the Public Guardian, the Public Administrator and the County Sheriff.

Custodial Funds – The Custodial Funds are used to account for all fiduciary activities that are not required to be reported in pension trust, investment trust or private purpose trust funds. Custodial Funds include amounts held by the following offices: the County Treasurer (the “Treasurer”), the Clerk of the Circuit Court, the County Sheriff, the County Clerk, the County Clerk Recorder Division and Adult Probation.

D. Assets, deferred outflows of resources, liabilities, deferred inflows of resources and net position or fund balance

1. Cash and Investments

The County’s cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with a maturity date of three months or less from the date of acquisition.

(1) The County (all Funds other than the Fiduciary Funds):

The County has an ordinance that directs all elected and appointed officials to invest public funds in their possession for which they are the custodians in interest-bearing accounts and that amounts in excess of insured limits must be collateralized at 102%.

The Treasurer has adopted an investment policy that limits the types of investments to be made for funds held by the Treasurer to the following investments authorized by the State’s Public Fund Investment Act:

- a. Bonds, notes, certificates of indebtedness, Treasury bills or other securities, now or hereafter issued, which are guaranteed by the full faith and credit of the United States of America as to principal and interest, and which have a liquid market with a readily determinable fair value;
- b. Bonds, notes, debentures or other similar obligations of the United States of America or its agencies;
- c. Repurchase agreements whose underlying purchased securities consist of the obligations described in paragraph (a) or (b) above;
- d. Interest-bearing savings accounts, interest-bearing certificates of deposit, interest-bearing time deposits, or any other investments constituting direct obligations of any bank as defined by the Illinois Banking Act, 205 ILCS 5/1, *et seq.*; provided, however, that any such bank is insured by the Federal Deposit Insurance Corporation, is rated in one of the two highest rating categories by at least two of the three major credit rating agencies, and meets all the Treasurer’s criteria of creditworthiness and soundness;

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

- e. Money market mutual funds registered under the Investment Company Act of 1940, as from time to time amended (including those funds managed by the Investment Advisor and its affiliates), *provided, however*, that the portfolio of any such money market fund is limited to obligations described in paragraphs (a) (b) or (d) above and to agreements to repurchase such obligations. All money market mutual funds must have a weighted average maturity of 60 days or less and be managed in accordance with rule 2a-7 of the Investment Company Act of 1940. All funds must be available for redemption on a daily basis. Repurchase agreements within the money market mutual fund must be collateralized using securities consisting only of obligations described in paragraph (a) and (b) above and must be collateralized at 102% of principal amount;
- f. Local government investment pools (such as the Illinois Funds or the Illinois Metropolitan Investment Fund), either state-administered or created pursuant to joint powers statutes and other intergovernmental agreement legislation; *provided, however*, that the pool is rated at the time of investment in one of the two highest rating categories by at least two of the three major credit rating agencies. The collateral requirement on County funds invested by the County Treasurer in a local government investment pool shall be maintained by the state agency administering the pool or by the pooled fund's custodial institution, provided that the state agency has collateralized all County funds in accordance with all State laws, County ordinances, and this Investment Policy;
- g. Any other investment instruments now permitted by the provisions of the Public Funds Investment Act or any other applicable statutes, or hereafter permitted by reason of the amendment of the Public Funds Investment Act or the adoption of any other statute or ordinance applicable to the investment of County funds, provided that such instruments prior to purchase are approved in writing by the Investment Policy Committee.

The Treasurer's policy prohibits the purchase of derivatives such as financial forwards, swaps, or futures contracts, and any leveraged investments, lending securities, or reverse repurchase agreements.

The County's investments in 2a-7 money market funds, (if any) and the Illinois Funds investment pool are reported at net asset value per share. All other investments are reported at fair value.

Temporary cash borrowings take place among the various operating funds. These inter-fund borrowings allow idle cash not currently required in some funds to be borrowed by other funds on a temporary basis. Since the County's operating bank accounts are maintained on a pooled basis, temporary inter-fund borrowings result from the issuance of checks in amounts in excess of the cash credited to the fund for which the check was issued. The County believes that prudent inter-fund borrowing of temporarily idle moneys constitutes an appropriate cash management practice since it reduces the need for external borrowings.

Inter-fund borrowings are not made from cash accounts maintained for debt service.

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

The County maintains separate and restricted trust accounts with trustees for almost all outstanding general obligation debt. These separate and restricted trust accounts are managed by the County's Office of the Chief Financial Officer. Current tax collections are transferred into individual trust accounts to satisfy the above liabilities as they become due. The County invests the principal in the accounts in accordance with the provisions of each bond ordinance. Investments are primarily investment grade commercial paper, certificates of deposit, treasury notes and money market funds.

(2) Private Purpose Trust and Custodial Funds

The Private Purpose Trust and Custodial Funds maintain their own cash and investment accounts to manage the various fiduciary responsibilities of the County. The funds are governed by the County's Taxpayers Interest Assurance Ordinance, which requires that all cash held by the fee offices be placed into interest-bearing bank accounts and for those amounts in excess of insured limits, to be collateralized at 102% except for economic reasons or if funds are prohibited by law from being invested (i.e. trust funds). The County's Public Guardian (Private Purpose Trust Fund) is the court appointed guardian of the assets of individuals deemed disabled and unable to control their estate. The Public Guardian does not actively manage the funds, but is simply a custodian. The investments are valued by the financial institutions/funds that manage the investments and are generally reported at fair value.

(3) Pension Trust Funds

The Pension Trust Funds are administered by the respective fund's Retirement Board and its cash and investments are held by a designated custodian. The Funds are authorized to invest in bonds, notes, certificates of indebtedness, mortgage notes, real estate, stocks, debentures or other obligations as set forth in the Illinois Compiled Statutes. Investments are reported at fair value. Certain alternative investments are carried at fair value using net asset value per share as a practical expedient.

2. Receivables and Internal Balances

Inter-funds/Internal Balances – Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as “due to/from other funds” (i.e., the current portion of interfund loans). Any residual balances outstanding between governmental activities and business-type activities are reported in the government-wide financial statements as “internal balances.”

Loans – Cook County HOME Investment Partnership Program (“HOME”) funds are awarded to eligible public, private or non-profit entities for the development of affordable housing within Suburban Cook County. These funds are awarded as loans with terms negotiated on a per-project basis. The County has established a formal program to monitor the status and repayment of these loans. In accordance with its policy, the County has recorded an allowance for loan losses for all loans past due 120 days or greater. Total loans outstanding at November 30, 2021 total \$144,699,917 and are offset with an allowance of \$127,196,464 resulting in a net loan receivable balance of \$17,503,453.

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

Cook County BUILT IN COOK (HUD Section 108 Loan Guarantee Program) funds are awarded to eligible public, private or non-profit entities to aid in the retention and creation of new jobs within Suburban Cook County. These funds are awarded as loans with terms negotiated on a per-project basis. The County has established a formal program to monitor the status and repayment of these loans. Total loans outstanding at November 30, 2021 total \$5,224,094. The County has determined that no allowance was necessary as of November 30, 2021.

Property taxes – Following the approval of the Annual Appropriation Bill proceedings as adopted by the County Board, authorization is given to provide for the collection of revenue by direct taxes on real property. This is known as the tax levy and must be certified to and filed in the Cook County Clerk's (the "Clerk") Office. The real property taxes become a lien on property and a receivable as of January 1st in the budget year for which taxes are levied.

The County Assessor (the "Assessor") is responsible for the assessment of all taxable real property within the County, except for certain railroad property and pollution control, which is assessed directly by the State. One-third of the County is reassessed each year on a repeating triennial schedule established by the Assessor.

Property assessed by the County is subject to equalization by the State. The equalized value is added to the valuation of property assessed directly by the State (to which an equalization factor is not applied) to arrive at the assessment base used by the Clerk in determining the tax rate for the County's tax levy. By virtue of its Constitutional "home rule" powers, the County does not have a statutory tax limit, except as described below.

The County Board passed The Property Tax Relief Ordinance, which voluntarily restricts the growth in the aggregate real property tax levy for the General (Corporate and Public Safety Accounts) and the CCH funds, to the lesser of 5% or the Consumer Price Index for All Urban Consumers. The Bond and Interest levy, the Pension levy and Election levy are excluded from this ordinance.

Property taxes are collected by the County Collector (who is also the County Treasurer), who remits to the County its respective share of the collections. Taxes levied in one year normally become due and payable in two installments, on March 1st and the latter of August 1st or 30 days after the mailing of the tax bills during the following year. The first installment is an estimated bill equal to 55% of the prior year's tax bill. The second installment is for the balance of the current year's tax bill, and is based on the current levy, assessment and equalization, and any changes from the prior year in those factors. Railroad property taxes (based on the State's assessments) are due in full at the time the second installment is due.

The 2021 levy year taxes are intended to finance FY 2021 and are recorded as revenue in the government wide statements (full accrual) even though the tax bills are prepared and collected in the next fiscal year. In the governmental fund financial statements, the 2021 levy year taxes are reported as deferred inflows of resources (amounts are unavailable). For the governmental fund financial statements, property tax revenue for FY 2021 represents the amount of property taxes levied in FY 2020 and collected in FY 2021 (and 60 days thereafter).

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

Property tax receivable at November 30, 2021 in governmental funds, governmental activities and custodial funds represents the FY 2021 taxes certified to the County Clerk in December 2021 and uncollected prior year taxes.

Property, on which property taxes are unpaid after the due date (see above), is eligible to be sold at a public sale. If property sold for taxes is not redeemed within two years, the tax buyer receives a deed to the property.

The Annual Appropriation Bill of the County contains a provision for an allowance for uncollectible taxes. It is the County’s policy to review this provision annually and to make adjustments accordingly. The County currently reports property tax receivables and allowances for the Current Year Levy (2021 Levy) and the First Prior Year Levy (2020 Levy). Any remaining receivables and allowances of a levy year prior to the First Prior Year Levy is eliminated at fiscal year-end. The allowance is estimated based on historical collection data.

Taxes receivable and the allowance are as follows for the year ended November 30, 2021:

	Governmental Activities and Governmental Funds	Business-type Activities and CCH Fund	Primary Government Total
Property taxes receivable	\$ 680,519,707	\$ 135,623,970	\$ 816,143,677
Allowance	(15,444,747)	(8,473,104)	(23,917,851)
Property taxes receivable, net	\$ 665,074,960	\$ 127,150,866	\$ 792,225,826

Additionally, as of November 30, 2021, the Cook County Treasurer (Custodial Fund) recorded property taxes receivable for all tax units within the County (\$17,180.2 million), net of an allowance for uncollectable amounts (\$620.5 million), resulting in a net receivable of \$16,559.7 million.

On July 29, 1981, State law requiring additional procedures in connection with the annual levying of property taxes, became effective. The law states that, if an aggregate annual levy, exclusive of election costs and debt service requirements, is estimated to exceed 105% of the levy of the preceding year, a public hearing shall be held on the proposed increase. If the final levy as adopted exceeds 105% of the prior year’s levy and exceeds the proposed levy specified in the notice, or is more than 105% of such proposed levy and no notice was required, notice of the adoption of such levy must be published within 15 days of the adoption thereof. No amount in excess of 105% of the preceding year’s levy may be extended unless the levy is accompanied by a certification of compliance with the foregoing procedures. The express purpose of the law is to require published disclosure of an intention to adopt a levy in excess of the specified levels. The County held public hearings on its 2021 budget, to comply with this law.

During 1995, the State extended the provisions of the Property Tax Extension Limitation Law (the “Limitation Law”) to non-home rule taxing districts in the County. Subject to specific exceptions, the Limitation Law limits the annual growth in property tax extensions for the

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

Taxing District to (i) 5% for taxes extended in 1995 and (ii) the lesser of 5% or the percentage increase in the Consumer Price Index for All Urban Consumers during the calendar year preceding the relevant levy year for taxes extended in years after 1995.

All personal property taxes in the State of Illinois were abolished, effective January 1, 1979. A personal property replacement tax (the "PPRT") was enacted, effective July 1, 1979.

The PPRT represents an additional income tax for corporations (including certain utilities) at the rate of 2.5% of net taxable income; an additional income tax for trusts at the rate of 1.5% of net taxable income; a new income tax for partnerships and Subchapter S Corporations at the rate of 1.5% of net taxable income; and a new tax at the rate of 0.8% of invested capital for public utilities providing gas, communications, electrical and water services. Partnerships and Subchapter S Corporations previously had not been subject to the Illinois income tax.

The PPRT law provides that monies received by the County from the tax shall be applied, first, toward payment of the proportionate amount of debt service (if any), which was previously levied and extended against personal property for bonds outstanding as of December 31, 1978, and, second, applied toward payment of the proportionate share of the pension or retirement contributions of the County to the County Employees' and Officers' Annuity and Benefit Fund of Cook County which were previously levied and extended against personal property. The County does not have any remaining applicable debt and all PPRT collections are deposited in the Annuity and Benefit Fund for distribution to the County Employees' and Officers' Annuity and Benefit Fund of Cook County.

3. Inventories, Prepaid Expenses and Property Held for Resale

Inventory (CCH) held for resale is valued at the lower of cost or market using the first-in, first-out method. Inventories of supplies are valued at cost. In the Statement of Net Position, prepaid expenses represent prepaid insurance, paid upon the issuance of insured debt. Property held for resale is part of the County's program for improving disadvantaged areas and is considered inventory and is valued at the lower of cost or market.

4. Capital Assets

Purchases of capital assets in the governmental funds are recorded as an expenditure of the fund from which the expenditure was made in the fund financial statements.

Capital assets, which include property, plant, equipment, intangible assets (easements, software) and infrastructure assets (e.g. roads, bridges, curbs and gutters, and sidewalks and lighting systems) are reported in the applicable governmental or business-type activities columns in the government-wide financial statements and in the Enterprise Fund. Capital assets are defined, by the County, as assets with an initial individual cost of \$5,000 or more (\$1,000 for CCH) and an estimated useful life in excess of one year. Capital assets are recorded at cost. In the governmental activities, costs recorded do not include interest incurred as a result of financing asset acquisition or construction. Assets acquired by gift, bequest or through developer and other contributions are recorded at their fair market value at the date of acceptance if accepted before November 30, 2015, and at acquisition value if accepted on or after November 30, 2015. Upon sale or retirement, the cost of the assets and the related accumulated depreciation, if any, are removed from the accounts. Maintenance and repair costs are charged to operations.

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

Depreciation and amortization is provided over the estimated useful life of each class of assets. The estimated useful lives for assets are as follows:

<u>Assets</u>	<u>Years</u>
Building & Other Improvements	
Buildings	40
Building Improvements	20
Land Improvements	20
Machinery & Equipment	
Fixed Plant Equipment	10
Institutional Equipment	10
Medical Dental Lab Equipment	5
Telecommunications Equipment	5
Computer Equipment and Software	5
Other Fixed Equipment	5
Furniture and Fixtures	10
Vehicle Purchases	5
Automotive Equipment	5
Intangible Assets other than software	4
Infrastructure	
Bridges	50
Tunnels	50
Traffic Signals	5
Streets and Highways	20

Depreciation and amortization on capital assets is computed on the straight-line method.

At November 30, 2021, the County was in the process of numerous construction and renovation projects at the various CCH sites. The construction in progress is recorded as expenditures in the governmental fund (Capital Projects Fund) and is recorded as a capital asset (“CIP”) in the Statement of Net Position - governmental activities, throughout the year. CIP and other expenditures from the capital projects fund of the County for capital items, which amounted to \$22,430,759, were transferred to CCH during fiscal year ended 2021 and are included in CCH as capital contributions.

5. Deferred Outflows and Inflows of Resources and Unearned Revenue

In addition to assets, the statements of net position will report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until then. In addition to liabilities, the statement of net position will report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The County reports deferred inflows and deferred outflows on the statements of net position related to pension and OPEB amounts and gains and losses on debt refunding.

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

The County reports deferred inflows of resources on its governmental fund financial statements. Deferred inflows of resources arise when potential revenue does not meet the "available" criteria for recognition in the current period in the governmental funds.

The Statement of Net Position and governmental funds' balance sheets' report unearned revenues. Unearned revenues arise when resources are received by the County before it has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures or the fulfillment of other eligibility requirements (other than time requirements). In subsequent periods, when revenue recognition criteria are met or when the County has a legal claim to the resources, the liability for unearned revenues is removed from the financial statements and revenue is recognized. See Note 1 C (3) for information about CCH's unearned revenue.

6. Compensated Absences

Governmental and Business-type Activities – Employees can earn from 10 to 25 vacation days per year, depending on their length of employment with the County. An employee can accumulate no more than the equivalent of two years' vacation. Accumulated vacation leave is due to the employee, or employee's beneficiary, at the time of termination or death.

Salaried employees can accumulate sick leave at the rate of one day for each month worked, up to a maximum of 175 days. Accumulated sick leave is forfeited at the termination of employment; therefore, sick leave pay is not accrued and is charged as an expenditure/expense when paid.

Sick leave does not vest, but any unused sick and vacation leave, up to six months in duration, accumulated at the time of retirement may be used in the determination of length of service for retirement benefit purposes.

Compensatory Overtime will accrue at a rate of 1 and ½ hours for every hour worked in a week over forty (40) hours. An overtime eligible employee may "bank" up to 240 hours of compensatory time. All overtime hours worked above this limit must be compensated with overtime pay at the rate of 1 and ½ hours for every hour worked in a week over forty hours after banking 240 hours of compensatory time.

7. Claims Payable – CountyCare and Third Party Administrator

This liability represents amounts payable to providers outside of CCH for services provided to CountyCare members. This estimate reflects the estimated ultimate cost of services incurred but not paid, net of expected stop loss insurance recoveries. Management believes the claims liability of approximately \$451 million is adequate to cover the claims incurred but not paid as of November 30, 2021.

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

8. Long-term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations (self-insurance claims, property tax objections, pollution remediation liabilities, asset retirement obligations, compensated absences, pension/OPEB liabilities) are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts, are deferred and amortized over the life of the bonds using the effective interest method. Bond issuance costs are expensed when incurred. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental funds recognize bond premiums and discounts, as well as bond issuance costs, during the current period.

The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures. Principal and interest payments are recorded as expenditures when due.

General obligation bonds and other forms of long-term debt supported by general revenues are obligations of the County as a whole and not of the individual constituent funds of the County. General obligation debt proceeds may be used to finance CCH projects, but are not recorded as liabilities in the Business-Type Activities. Un-matured obligations of the County are recorded as noncurrent liabilities in the Statement of Net Position.

Pensions and OPEB. For purposes of measuring the net pension liability, total OPEB liability, deferred outflows of resources and deferred inflows of resources related to pensions and OPEB, and pension/OPEB expense, information about the fiduciary net position of County Employees' and Officers' Annuity and Benefit Fund of Cook County ("the A & B Plan") and additions to/deductions from the A & B Plan's fiduciary net position have been determined on the same basis as they are reported by the A & B Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

9. Fund Balances / Net Position

In accordance with the provisions of Governmental Accounting Standards Board Statement No. 54 ("GASB 54"), "Fund Balance Reporting and Governmental Fund Type Definitions," fund balance classifications comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in the governmental funds.

In the General Fund, it is the County's policy to consider restricted resources to have been spent first when an expenditure is incurred for which both restricted and unrestricted (i.e. committed, assigned or unassigned) fund balances are available, followed by committed and then assigned resources. Unassigned amounts are used only after the other resources have been

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

used. In all other governmental funds, it is the County's policy to consider restricted resources to have been spent last when an expenditure is incurred for which both restricted and unrestricted (i.e. committed, assigned or unassigned) resources are available. In those funds, the County considers assigned resources to have been spent first, followed by committed and then restricted resources.

Within the governmental fund types, the County's fund balances are reported in one of the following classifications:

Nonspendable – includes amounts that cannot be spent because they are either: a) not in spendable form; or b) legally or contractually required to be maintained intact.

Restricted – includes amounts that are restricted to specific purposes, that is, when constraints placed on the use of resources are either: a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or b) imposed by law through constitutional provisions or enabling legislation.

Committed – includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the County's highest level of decision-making authority. Committed amounts cannot be used for any other purpose unless the County removes or changes the specified use by taking the same type of action it employed to previously commit those amounts. The County's highest level of decision-making authority rests with the County Board. The County Board passes Ordinances to commit their fund balances.

Assigned – includes amounts that are constrained by the County's *intent* to be used for specific purposes, but that are neither restricted nor committed. Intent is expressed by: a) the County Board itself; or b) a body or official to which the Board has delegated the authority to assign amounts to be used for specific purposes. The County Board has delegated authority to the CFO and Comptroller to assign amounts for pension stabilization. The County Board also assigns amounts for a specific purpose within the General Fund. Within the other governmental fund types (special revenue, debt service, capital projects) resources are assigned in accordance with the established fund purpose and approved appropriation. Residual fund balances in these fund types that are not restricted or committed are reported as assigned.

Unassigned – includes the residual fund balance that has not been restricted, committed, or assigned within the general fund and deficit fund balances of other governmental funds.

In the government-wide and proprietary fund statements of net position, equity is displayed in three components as follows:

Net Investment in Capital Assets – This consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, deferred outflows/inflows of resources attributable to capital assets or the related debt (offset by unspent capital debt proceeds), and other debt that are attributable to acquisition, construction or improvement of the assets.

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

Restricted – This consists of net position that is restricted to specific purposes, that is, when constraints placed on the use of resources are either: a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or b) imposed by law through constitutional provisions or enabling legislation.

Unrestricted – This consists of net position (deficit) that does not meet the definition of “restricted” or “net investment in capital assets.”

Net position for governmental activities follows the policy for the use of restricted and unrestricted resources outlined above. For Enterprise Funds and Business-type activities, the County considers restricted resources to have been spent first when an expense is incurred for which both restricted and unrestricted resources are available.

10. Cash Flows

For purposes of the Statement of Cash Flows, the County considers all unrestricted, highly liquid investments with a maturity date of ninety days or less from the date of purchase to be cash equivalents. Restricted investments consist only of investments with a maturity date greater than ninety days from the date of purchase.

11. Indirect Costs

Indirect costs are charged to various Federal programs, State programs and other funds based on a formal plan developed annually by the County. These costs are reflected as expenditures/expenses in those funds benefiting from the services provided and as reimbursements to the General Fund, which provides the services.

12. Use of Estimates

The preparation of financial statements, in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of certain assets, deferred outflows, liabilities, and deferred inflows and disclosures of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

13. Governmental Activities Column Statement of Net Position

The Governmental Activities column for the County excludes debt related to business-type activities in the “Net investment in capital assets” line item totaling \$664,550,265. The County issues debt to finance construction projects for its business-type activities (CCH); however, the CCH owns the assets and the County retires the debt. The Statement of Net Position reports an adjustment column to properly reflect the entity wide net investment in capital assets.

Copies of the financial statements and actuarial reports of the Pension Funds may be obtained from the plan's offices at 70 West Madison Street, Suite 1925, Chicago, Illinois 60602, or www.cookcountypension.com.

Copies of the Financial Statements of the Emergency Telephone System can be obtained at the Cook County Emergency Telephone System Board-911, 9511 West Harrison Street, Des Plaines, Illinois 60016.

II. Stewardship, compliance, and accountability

A. Budgetary information

1. The County

The development of the Cook County annual budget begins in April each year when departments submit requests of their capital needs for the upcoming fiscal year to the Department of Budget and Management Services. Approved capital projects are then folded into the President's executive budget recommendation for the next fiscal year.

The budget process continues in late spring with the publication of a preliminary forecast, required by Executive Order to be prepared annually by the Budget Director. The preliminary forecast presents an initial projection of the upcoming fiscal year's revenues and expenditures and also provides a mid-year estimate of current fiscal year revenues and expenditures through year-end. Public input on the upcoming year's budget priorities are provided through a public hearing.

Each department submits a detailed request for appropriation for the upcoming fiscal year starting in July. Meetings are subsequently held by the Budget Director with each department and elected official to review his/her budget request. The Budget Department, together with the Department of Revenue and the Chief Financial Officer, prepares an estimate of revenues and other resources available for appropriations. Based on overall County priorities, departmental budget requests, and available resources, the Budget Director prepares an Executive Budget Recommendation on behalf of the President. The Executive Budget Recommendation is then submitted to the County Board's Committee on Finance, which in turn holds public hearings with each department and elected official.

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

After public hearings on the executive budget recommendation are completed, the Committee on Finance recommends the budget to the County Board with such amendments as it may deem appropriate. The County Board reviews the recommended budget, along with any further approved amendments that may be decided upon by the County Board and approves the budget in the form of the Annual Appropriation Bill. Current state statute, enacted prior to the current state constitution, provides that the Annual Appropriation Bill is to be adopted before March 1st of the current fiscal year.

The fiscal year budget is prepared on a budgetary accounting basis in which the current year's encumbrances are treated as expenditures of the current period on the budgetary operating statements. Annual budgetary appropriation accounts are established for the General Fund, Debt Service Fund, Cook County Health and Hospital System ("CCH"), and many Special Revenue Funds (other than Township Roads, Grants, Mortgage Foreclosure Mediation Program, and the "Other Nonbudgeted Special Revenue Funds").

The County's total appropriation, including such sums as are appropriated on a continuing basis for the Health and Hospital System, represents the maximum expenditure amount authorized during the fiscal year, and cannot be legally exceeded unless subsequently amended by the County Board or as required by law. Unencumbered appropriations lapse at the end of each fiscal year. Unencumbered balances in the various fund accounts of the County and other fund accounts may be inadequate to pay for services already rendered because of unforeseen commitments at the time the Annual Appropriation Ordinance is passed. The Comptroller, Budget Director, and the Treasurer are authorized by the County Board to use unexpended balances as transfers so that fund deficiencies may be appropriately adjusted. The Capital Projects Fund applies project length budgets for fiscal control.

Under the FY2021 Annual Appropriation Bill and corresponding Budget Resolution promulgated under the County's constitutional home rule authority, total County operating expenditures may not exceed the total sum appropriated for FY2021 (including such sums as are appropriated on a continuing basis for the Health and Hospital System). The formatting arrangement of appropriations by object level in the FY2021 Annual Appropriation Bill does not per se limit spending at the object level, and expenditures greater than an object level may be accomplished through permissible transfers. Total County operating expenditures did not exceed the total sum appropriated through the FY2021 Annual Appropriation Bill.

By operation of Law, the County's Debt Service Funds are funded by relevant bond ordinances, not through the Annual Appropriation Bill. The County's bond ordinances and the indentures promulgated thereunder ensure that those who buy County Bonds receive payment without regard to whether the County appropriates real estate taxes by way of the appropriation bill. The sums set forth in the Annual Appropriation Bill for Debt Service Funds reflect the County's projections regarding variable rate and fixed rate bonds, and those sums are utilized primarily to estimate the sums to be collected through the annual real estate levy for the General and Health Funds.

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

For the Special Revenue Funds listed above which are not budgeted, the County controls expenditures by monitoring cash balances through its accounting and cash disbursement system.

B. Deficit Fund Balances

In addition to the CCH Enterprise Fund which reported a deficit net position of \$4,838,680,736, the following information provides deficit fund balances for governmental funds at November 30, 2021:

Major Funds:	
Grants	\$ (76,242,034)
Nonmajor Governmental Funds -	
County Library	(49,905)
Circuit Court Automation	(3,270,347)
Circuit Court Illinois Dispute Resolution	(29,097)
Cook count Emergency Telephone System	(420,862)
Vehicle Purchase	(279,495)
Land Bank Authority	(10,964,433)
Capital Projects	(51,913,913)

III. Detailed notes on all funds

A. Deposits and investments

1. The County (excluding the Pension Trust Fund as a separate Body Politic)

As of November 30, 2021, the County had the following investments in debt securities:

Investment Type County Funds	Investment Maturities (in Years)					Total
	Less Than 1	1 - 5	6 - 10	More than 10 Years	NA ***	
Other Debt Securities	\$ -	\$ -	\$ 117,050	\$ -	\$ 1,991,898	\$ 2,108,948
Annuities	-	-	-	681,202	-	681,202
Fannie Mae	-	7,913,655	-	5,865,784	-	13,779,439
Freddie Mac	-	-	-	5,156,796	-	5,156,796
Ginnie Mae	-	-	-	3,519,938	-	3,519,938
Debt Mutual Funds	177,517,154	-	-	-	-	177,517,154
Illinois Funds	-	-	-	-	1,191	1,191
Total	\$ 177,517,154	\$ 7,913,655	\$ 117,050	\$ 15,223,720	\$ 1,993,089	\$ 202,764,668

***Categorization is not applicable

The County categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The County's Level 1 investments reported below are quoted prices for identical securities in an active market. Level 2 investments are quoted prices for similar securities

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

in an active market and quoted prices for identical or similar securities obtained from markets that were not active.

As of November 30, 2021, the County's investments are measured as follows:

Investment Type County Funds	Level 1	Level 2	Level 3	Total
Equity mutual funds	\$ 7,467,722	\$ -	\$ -	\$ 7,467,722
Common stock	8,446,998	-	-	8,446,998
Annuities	-	681,202	-	681,202

Interest Rate Risk. Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County does not have a formal policy on interest rate risk.

Credit Risk. The County Code of Ordinances ("Code") limits investments in commercial paper to banks whose senior obligations are rated in the top two rating categories by two national rating agencies and maintain such rating during the term of such investment. This requirement is more restrictive than what is allowed under the State law. The Code also limits investments in domestic money market mutual funds to those regulated by and in good standing with the Securities and Exchange Commission.

Certificates of Deposit are also limited by the Code to national banks which are either fully collateralized by at least 102% with marketable U.S. Government securities marked to market at least monthly, or secured by a corporate surety bond issued by an insurance company licensed to do business in Illinois, have a claims-paying rating in the top rating category by a nationally recognized statistical rating organization, and maintain such rating during the term of such investment.

Custodial Credit Risk – Cash and Certificates of Deposit. In the case of deposits, this is the risk that in the event of a bank failure, the County’s deposits may not be returned to it. The Treasurer’s Investment Policy states that in order to protect the County’s public fund deposits, depository institutions are required to maintain collateral pledges on County certificates of deposit during the term of the deposit of at least 102%, consisting of marketable U.S. Government or approved securities or surety bonds issued by top-rated issuers. Collateral is required as security whenever deposits exceed the insured limits of the FDIC. Collateral is held by the County’s agent in the name of the County. The carrying value of Cash – Demand Deposits and Certificates of Deposit (deposits) was \$2,027,886,272 as of November 30, 2021. The County’s deposits were not exposed to custodial credit risk as of November 30, 2021

Custodial Credit Risk – Investments. For an investment, this is the risk that, in the event of the failure of the counterparty, the County will not be able to recover the value of its investments or collateral securities that are in possession of an outside party. The County had no custodial credit risk exposure as of November 30, 2021 because all investments are held by the County’s agent in the County’s name.

Foreign Currency Risk – This is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. The risk of loss is managed by limiting its exposure to fair value loss by requiring their international securities managers to maintain diversified portfolios. As of November 30, 2021, the County was not invested in any foreign investments or deposits.

Concentration of Credit Risk – The County does not have a formal policy on concentration of credit risk. As of November 30, 2021, the County had no investments in individual issuers that exceeded 5% of the County’s total investment portfolio.

Other – The Illinois Funds is an investment pool managed by the State of Illinois, Office of the Treasurer, which allows governments in the State to pool their funds for investment purposes. Illinois Funds is not registered with the SEC as an investment company. Illinois Funds does meet all the criteria in GASB Statement No. 79, paragraph 4 which allows the reporting of its investments at amortized cost. Investments in Illinois Funds are valued at share price, which is the price the investment could be sold for. There are no limitations or restrictions on withdrawals from the pool.

2. Pension Trust Fund (the “County Employees’ and Officers’ Annuity and Benefit Fund” which is a separate body politic from the County)

The Pension Trust Fund is authorized to invest in bonds, notes, certificates of indebtedness, mortgage notes, real estate, stocks, shares, debentures, or other obligations or securities as set forth in the “prudent person” provisions of the State Statutes. All of the Pension Trust Fund’s financial instruments are consistent with the permissible investments outlined in the State Statutes and any index-linked financial instruments are limited to those indices that replicate the permissible investments outlined in the State Statutes.

Short-term investments	267,036,118
Total Investments	<u>\$ 12,475,167,990</u>

The plan categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are unadjusted quoted prices in active markets for identical assets; Level 2 inputs are quoted prices in markets that are not considered to be active, or financial instruments for which all significant inputs are observable, either directly or indirectly; Level 3 inputs are significant unobservable inputs. The plan's Level 1 investments reported below for U.S. and international equities and exchange traded funds are traded in active markets on national and international securities exchanges and are valued at closing prices on the measurement date. Within Level 2 investments, U.S. Government and government agency obligations and corporate and foreign government bonds are generally valued by benchmarking model-derived prices to quoted market prices and trade data for identical or comparable securities. To the extent that quoted process are not available, fair value is determined based on a valuation model that includes inputs such as interest rate yield curves and credit spreads. Securities traded in markets that are not considered active are valued based on quoted market prices, broker to dealer quotations, or alternative pricing sources with reasonable levels of price transparency. Securities that trade infrequently and therefore have little or no price transparency are valued using the investment manager's best estimates.

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

The plan has the following recurring fair value measurements as of December 31, 2020:

Investment Type	Level 1	Level 2	Level 3	Total
U.S. and international equities	\$ 6,930,194,686	\$ -	\$ -	\$ 6,930,194,686

Investments measured at net asset value				3,091,178,570
Total investments				<u>\$ 12,475,167,990</u>

Investments measured at NAV:	Carrying Amount	Unfunded Commitments	Redemption Frequency (if Eligible)	Redemption Notice Period
Collective International Equity Fund (1)	\$ 82,904,306	\$ -	Daily	N/A
Commingled Fixed Income Fund (2)	40,925,720	-	Daily	5 days
Private global fixed income limited partnership (3)	244,996,202	-	Monthly	15 days
Private equities (4)	938,804,581	170,494,433	Closed Ended	N/A
Hedge funds (5)	740,040,004	-	Monthly	90 to 95 days
Real estate funds (6)	776,471,639	100,421,426	Quarterly	45 to 90 days
Short term investments (7)	267,036,118	-	Daily	N/A
	<u>\$ 3,091,178,570</u>	<u>\$ 270,915,859</u>		

- (1) Collective international equity fund – The fund’s investment objective is to achieve long-term capital appreciation by investing primarily in equity and equity-related securities of issuers that are located, or do significant business, in emerging market countries. The fair value of the investment in the fund has been determined using the net asset value (“NAV”) per share of the investment.
- (2) Commingled fixed income fund – The fund’s investment objective is to track the performance of the Barclays U.S. Aggregate Index. The fair value of the investment in the fund has been determined using the NAV per share of the investment.
- (3) Private global fixed income fund limited partnership – The partnership’s investment objective is to maximize total investment return by investing in a portfolio of fixed and floating rate debt securities and debt obligations of governments, government-related or corporate issuers worldwide, as well as derivative financial instruments. The fair value of the investment in the partnership fund has been determined using the NAV per share (or its equivalent) of the investment.
- (4) Private equities – This investment consists of 78 limited partnership investments with an investment objective to achieve long-term capital appreciation and capital preservation through investments in limited partnerships, privately issued securities, private equity funds, and other pooled investments. Closed-end limited partnership interest are generally illiquid and cannot be redeemed. It is expected that liquidation of the limited partnership interests will generally coincide with the terms of the various underlying partnership

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

agreements. These underlying private equity partnerships generally have a fund life per the Limited Partnership Agreements of approximately 10 to 12 years plus 2 to 3 one-year extensions. However, the underlying general partners may extend their funds indefinitely to facilitate an orderly liquidation of the underlying assets. The fair value of the investments in this type has been determined using the NAV per share (or its equivalent) of the investments.

- (5) Hedge funds – The investment objective of the hedge funds is to invest in non-traditional portfolio managers, diversified portfolios of hedge funds having a low correlation with major investment markets, and diversified groups of alternative investment funds that invest or trade in a wide variety of financial instruments and strategies. The fair value of the investment in the hedge funds has been determined using the NAV per share (or its equivalent) of the investment.
- (6) Real estate funds – This investment includes a commingled pension trust fund, an insurance company separate account, and other real estate funds that are designed as funding vehicles for tax-qualified pension plans. Their investments are comprised primarily of real estate investments either directly owned or through partnership interests and mortgage and other loans or income producing real estate. The fair values of the investments in this type have been determined using the NAV per share (or its equivalent) of the investments. Due to the nature of the investments and available cash on hand, significant redemptions in this type of investment may at times be subject to additional restrictions.
- (7) Short-term investments – This investment’s objective is to invest in short-term investments of high quality and low risk to protect capital while achieving investment returns. The fair value of the investment in the fund has been determined using the NAV per share of the investment.

Interest Rate Risk. Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Investments held for longer periods are subject to increased risk of adverse interest rate changes. The Pension Trust Fund has set the duration for each manager’s total fixed income portfolio to fall within plus or minus 30% of the duration for the fixed income performance benchmark (*Bloomberg Barclays US Aggregate Fixed Income*), which was 6.22 years at December 31, 2020.

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

The following table presents a summarization of the Plan's debt investments at December 31, 2020 using the segmented time distribution method:

Type of Investment	Investment Maturities (in Years)				Total
	Less Than 1	1 - 5	6 - 10	More Than 10	
Corporate and foreign government obligations	\$ 16,680,318	\$ 370,773,966	\$ 435,323,612	\$ 601,228,526	\$ 1,424,006,422

Credit Risk. Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. U.S. Government obligations or obligations explicitly guaranteed by the U.S. Government are not considered to have credit risk and do not require disclosure of credit quality. The Pension Trust Fund has set the average credit quality for the total fixed income portfolio of not less than A- by two out of three credit agencies (Moody's Investor Service, Standard & Poor's and/or Fitch).

The following table presents a summarization of the credit quality ratings of investments as of December 31, 2020 as valued by Moody's Investors Service /Standard & Poor's:

Type of Investment	Rating*	2020

Custodial Credit Risk. For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Pension Trust Fund will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. As of December 31, 2020, the Pension Trust Fund was not exposed to custodial credit risk.

Foreign Currency Risk. Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. The Pension Trust Fund's exposure to foreign currency risk as of December 31, 2020 is as follows:

Foreign Currency Risk	Fair Value (USD) 2020

Securities Lending. State Statutes and the Board of Trustees permit the Pension Trust Fund to lend its securities to broker-dealers and other entities with a simultaneous agreement to return collateral for the same securities in the future. The Pension Trust Fund's custodian, acting as the lending agent, lends securities for collateral in the form of cash, U.S. Government obligations and irrevocable letters of credit equal to 102% of the fair value of domestic securities plus accrued interest and 105% of the fair value of foreign securities plus accrued interest.

The Pension Trust Fund does not have the right to sell or pledge securities received as collateral unless the borrower defaults. The average term of securities loaned was 110 days for 2020; however, any loan may be terminated on demand by either the Pension Trust Fund or the borrower. Cash collateral was invested in a separately managed portfolio which had an average weighted maturity at December 31, 2020 of 76 days.

As of December 31, 2020, the fair value (carrying amount) of loaned securities was \$859,748,216 and the fair value (carrying amount) of cash collateral received by the Pension Trust Fund was \$594,408,571. Securities on loan included U.S. and international equities, U.S government and

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

government agency obligations, exchange traded funds and corporate and foreign government obligations. As of year-end the fair value of the non-cash collateral received by the Pension Trust Fund was \$287,720,165.

Although the securities lending activities are collateralized as describe above, they involve both market and credit risk. In this context, market risk refers to the possibility that the borrower of securities will be unable to collateralize the loan upon a sudden material change in the fair value of the loaned securities. Credit risk refers to the possibility that counterparties involved in the securities lending program may fail to perform in accordance with the terms of the contract.

Indemnification deals with the situation in which a client’s securities are not returned due to the insolvency of a borrower. The contract with the lending agent requires indemnification to the Pension Trust Fund if borrowers fail to return the securities or fail to pay the Pension Trust Fund for income distributions by the issuers of securities while the securities are on loan.

Derivatives. Derivative transactions involve, to varying degrees, credit risk, interest rate risk and market risk. Credit risk is the possibility that a loss may occur because a party to a transaction fails to perform according to the previously agreed upon terms. Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Market risk is the possibility that a change in interest or currency rates will cause the value of a financial instrument to decrease or become more costly to settle. The following table summarizes the derivatives held within the Fund’s investment portfolio as of December 31, 2020.

	(Amounts in thousands)	
	Notional Amounts	Fair Value
Hedging Derivative Instruments:		
Foreign currency contracts purchased	\$ -	\$ (96,197)
Foreign currency contracts sold	-	96,083
Futures:		
Equity	6,861	46
Fixed income	(161,115)	(504)
Swaps		
Interest rate swaps	-	740
Inflation rate swaps	-	89
Return swaps	-	(9)

Forward currency contracts are used to hedge against fluctuations in foreign currency denominated assets used primarily in portfolio trade settlements. These contracts are a cash contract in which a seller agrees to deliver a specific cash commodity to a buyer sometime in the future. Forward agreements are subject to the creditworthiness of the counterparties, which are principally large financial institutions. Forward currency contracts are reported at fair value within investments. The gain or loss on forward currency contracts is recognized and recorded as part of investment income. The foreign currency contracts are short-term in nature.

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

Futures are agreements to purchase or sell a specific amount of an asset at a specified maturity for an agreed-upon price. Futures contracts are reported at fair value in the equity and fixed income investments on the combining statement of pension plan fiduciary net position and postemployment healthcare plan net position. The gain or loss on futures contracts is reported as part of investment income on the combining statement of changes in pension plan fiduciary net position and postemployment healthcare plan net position. These instruments are not rated by the credit rating agencies.

Swaps are arrangements to exchange currency or assets. Swaps are reported at fair value in the fixed income investments. The gain or loss on futures contracts is reported as part of investment income. These instruments are not rated by the credit rating agencies.

Additional information on the forward currency contracts, futures and swaps are detailed in the Plan's separately issued financial statements.

When Issued Transactions. The Pension Trust Fund may purchase securities on a when-issued basis, that is, obligate itself to purchase securities with delivery and payment to occur at a later date. At the time the Pension Trust Fund enters into a commitment to purchase the security, the transaction is recorded at purchase price which equals fair value. The value at delivery may be more or less than the purchase price. No interest accrues to the Pension Trust Fund until delivery and payment takes place. As of December 31, 2020, the Pension Trust Fund contracted to acquire securities on a when-issued basis with a total principal amount of \$60,305,143.

C. Interfund receivables, payables, and transfers

During the course of normal operations, the County has numerous transactions between funds including expenditures and transfer of resources to provide services. These transactions are recorded as transfers, which move resources from revenue collecting funds and non-major funds to finance various programs in the General Fund in accordance with budgetary authorizations. During FY2021 the Debt Service Fund made a draw on the line of credit, and \$66.4 million of the draw

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

was transferred to the Capital Projects Fund. The County also contributes certain services, such as purchasing, data and payroll processing, to the operations of CCH. The transfers of services (\$3,864,880 for FY 2021) are reported as other financing (uses) – transfers out in the Governmental Funds and as transfers in the Enterprise Funds. Additionally, the County transfers amounts to CCH to help finance pension/OPEB contributions (\$183,694,401). The County also contributes capital assets to CCH, which are not recorded in the overall transfer amounts in the governmental funds. These capital contributions (\$22,430,759 for FY 2021) are reported separately as capital contributions on the Proprietary Fund Statement of Net Position, and as transfers in the Government-wide Statement of Net Position (see Note VII for further information). Transfers during FY 2021 included:

D. Leases

Operating Leases Revenue

The County leases office space in the George W. Dunne Cook County Office Building to third parties under operating leases. Assets included in County capital assets at November 30, 2021 applicable to these leases were carried at a cost of approximately \$31 million and accumulated depreciation of approximately \$19 million. For the year ended November 30, 2021, the County received \$7,349,026 in rent under these leases. Minimum future rentals to be received under these leases, excluding unknown escalation amounts and un-negotiated renewals, are as follows at November 30, 2021:

<u>Year</u>	<u>Amount</u>
2022	\$ 6,020,929
2023	6,321,975
2024	6,638,074
2025	6,969,978
2026	7,318,477
Thereafter	7,684,401
	<u>\$ 40,953,834</u>

The County entered into a ground lease with developers as part of a multi-phase redevelopment project of the old Cook County hospital building at 1835 W. Harrison Street (Harrison Square ground lease). The agreement consists of multiple projects that will be implemented in various phases. The most substantial projects to be performed by the Developer include:

- 1) Rehabilitation and reconstruction of the old Cook County hospital for use as retail space and a hotel; and the construction of parking on land adjoining the Old Cook County Hospital.
- 2) Construction of a new 210 residential “work force” housing structure occupying land that the County is currently receiving ground lease rent.
- 3) Construction of a new medical technology/research building, a medical office building, parking and a Hospital Campus Parkway that has yet to be determined.
- 4) An office tower with landscaped tiered low-rise retail and public open space located in Pasteur Park that has yet to be determined.

The old Cook County hospital building has been out of service and fully impaired since 2002 and has no cost basis or accumulated depreciation as of November 30, 2021. The value of any future improvements to the land and building belongs to the developers during the period of the lease agreement. The lease of the land and the old Cook County hospital building commenced on December 31, 2017 and expires on December 31, 2116, with two 25-year extension options. The rent consists of the base rent amount, plus an annual increase based on the percentage change in the CPI plus .05%. During the lease period, the developer (tenant) is responsible for all repair and maintenance expenditures. At the conclusion of the original or extended lease term, the land,

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

buildings and all improvements revert back to the County. For the year ended November 30, 2021, the County received \$546,876 in rent under these leases.

Potential Impact of Covid-19

The Harrison Square ground lease is structured with multiple phases estimated to occur at various dates within the 99-year lease. Each phase's revenue stream does not commence until the private developer closes on each phase, which occurs when the lease closing criteria is met. Because of the economic impact of the COVID-19 pandemic, the probable occurrence of the various phases is expected to significantly change and thus could significantly alter the total projected 99-year revenue.

Estimated minimum future rentals to be received under this lease for the next five years, excluding unknown escalation amounts and un-negotiated renewals, are as follows at November 30, 2021:

<u>Year</u>	<u>Amount</u>
2022	\$ 580,783
2023	594,721
2024	608,995
2025	623,610
2026	638,577
Thereafter	591,582,357
	<u>\$ 594,629,043</u>

Operating Leases Expense

The CCH leases data processing and other equipment. Lease agreements frequently include a renewal option and usually require the CCH to pay for maintenance costs. Rental payments for operating leases are charged to operating expense in the period incurred. Rental expense for operating leases was approximately \$31.1 million for FY 2021. Estimated minimum future lease payments under non-cancelable lease obligations for fiscal years ending November 30 are as follows:

<u>Year</u>	<u>Amount</u>
2022	\$ 25,761,680
2023	17,670,807
2024	10,232,883
2025	8,204,435
2026	4,929,579
Thereafter	8,907,337
	<u>\$ 75,706,721</u>

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS

E. Long-term debt

1. Outstanding Long-term Debt

The County’s debt is issued pursuant to the County’s home rule powers under the 1970 Constitution of the State of Illinois and authorizing ordinances adopted by the County Board. The County has authority to incur debt payable from ad valorem property tax receipts or from any other lawful source and maturing within 40 years from the time it is incurred without prior referendum approval. The annual debt service requirements to retire long-term bonds outstanding at November 30, 2021, as presented in Table 1 on the next page, are based on the stated maturities of the various bond indentures, including variable rate bonds (both direct placements and variable rate demand bonds) and assumes that these bonds will be remarketed and that credit facilities for these bonds will be renewed over the term of the bond indentures. As of November 30, 2021, the outstanding principal is comprised of \$2.7 billion of General Obligation and Sales Tax Revenue Bonds (“Bonds”), and \$330.7 million of Debt from Direct Borrowing and Direct Placement as shown in the following chart:

Table 1

Fiscal Year	G.O. and Sales Tax Revenue Bonds		Debt from Direct Borrowing and Direct Placement	
	Principal	Interest	Principal	Interest
2022	\$ 153,360,000	\$ 128,341,742	\$ -	\$ 2,616,500
2023	124,960,000	121,666,990	35,070,000	2,616,500
2024	167,705,000	115,752,298	-	2,415,198
2025	175,980,000	107,474,181	-	2,415,198
2026	173,875,000	99,056,842	10,520,000	2,415,198
2027-2031	860,395,000	393,711,777	235,151,750	5,888,618
2032-2036	762,410,000	147,668,034	50,000,000	574,000
2037-2041	239,855,000	28,282,600	-	-
Total	<u>\$ 2,658,540,000</u>	<u>\$ 1,141,954,465</u>	<u>\$ 330,741,750</u>	<u>\$ 18,941,212</u>

Interest on variable rate debt included in Table 1 above was calculated using the interest rate at fiscal year-end, November 30, 2021, and assumes that current rates remain the same through final maturity.

Bonds:

Series 2004D – 0.070%

Debt from Direct Borrowings and Direct Placements:

Series 2012A – 0.774%

Series 2012B – 0.574%

Series 2014C – 1.000% (fixed)

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

The County’s outstanding debt from direct borrowings and direct placements related to governmental activities of \$330.7 million contain a provision that in an event of default, outstanding amounts become immediately due if the County is unable to make payments.

2. General Obligation Bonds

General Obligation Bond Debt Service Funds are maintained for the retirement of bonded debt. Property tax receipts are directly deposited with a bond trustee by the County’s Treasurer for the payment of principal and interest.

The County’s Series 2004D are variable rate demand bonds (see details below and on following pages). The interest requirements reported below are based on the rates in effect as of November 30, 2021. Actual interest expense could be materially different.

The annual debt service requirements to retire long-term bonds outstanding at November 30, 2021, as presented in Table 1, are based on the stated maturities of the various bond indentures, including variable rate demand bonds (both direct placements and variable rate demand bonds) and assumes that these bonds will be remarketed and that credit facilities for these bonds will be renewed over the term of the bond indentures. Should the variable rate demand bonds not be remarketed or direct placement credit facilities are not extended, the actual debt maturities as presented could accelerate significantly (see additional information pertaining to series 2004D, 2012A, 2012B and 2014C on the pages that follow).

Governmental Activities outstanding bonds and debt from direct borrowing and direct placement at November 30, 2021:

2004C County taxable bonds of \$135,000,000, issued to finance the cost of various capital projects and to finance the County's self-insurance program. \$31,000,000 term bonds due November 15, 2023 with an interest rate of 5.70%; \$98,000,000 term bonds are due November 15, 2029 with an interest rate of 5.79%; \$6,000,000 term bonds are due November 15, 2029 with an interest rate of 5.76%. \$ 125,075,000

2004D County variable rate taxable bonds of \$130,000,000 were issued to finance the cost of various capital projects and to finance the County's self-insurance program. The bonds are due in two installments of \$15.6 million and \$114.4 million on November 1, 2029 and 2030, respectively. The bonds were used to finance the cost of various capital equipment projects; interest rate is estimated at 0.15% and is supported by Direct Pay letter of credit. 130,000,000

2009B County taxable bonds of \$251,410,000 were issued to finance the cost of various capital construction and equipment projects. \$120,205,000 of the bonds mature from November 15, 2029 through November 15, 2031 and have an interest rate of 6.31% that qualifies for the 35% Direct Pay Subsidy. The remaining \$131,205,000 of the bonds have a final maturity on November 15, 2033 and have a rate of 6.36% that qualifies for the 45% Recovery Zone Rate Direct Pay Subsidy. 251,410,000

Variable Rate Demand Bonds

As of November 30, 2021, the County had one bond series that was variable rate demand bonds – Series 2004D. Additional series with similar features that were held as direct purchase agreements with commercial banks includes the Series 2012A, Series 2012B and Series 2014C.

All variable rate demand bonds are direct general obligations of the County to which the County has pledged its full faith, credit and resources. Under certain circumstances, investors in these variable rate demand bonds have the right to demand payment of their demand bonds. If any such demand bonds are not remarketed to other investors, the County is required to purchase the demand bonds. The County has entered into agreements to prepare for such demands. The details of the agreements are outlined below.

The rate basis for the Variable Rate Demand Bonds is calculated in a Weekly Rate Mode and bears interest (computed on the basis of a 365-day or 366-day year as applicable for the actual number of days in the period) at the Weekly Rate from the closing date and from each Weekly Rate Conversion Date to the earlier of the following: Conversion Date or its Maturity. The Weekly Rate for each Weekly Interest Period shall be the lowest rate of interest which will, in the judgment of the Remarketing Agent, have due regard for prevailing financial market conditions, permit the Bonds to be remarketed at par, plus accrued interest, on the first day of such Weekly Interest Period. Each determination of a

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

Weekly Rate by the Remarketing Agent shall be conclusive and binding upon the County, the Trustee, the Tender Agent, the Liquidity Provider and the Bondholders. As of November 30, 2021, the County had one bond series that was a variable rate demand bond, which had the following rates:

Series 2004D – 0.070%

The County also had three series of Bonds (2 variable rate and 1 fixed rate) that were directly purchased by commercial banks and that were subject to variable rates of interest, but that were not remarketed or subject to investor put options. The variable rate series are:

Series 2012A – 0.774%

Series 2012B – 0.574%

Direct Pay Letter of Credit

On December 1, 2014, the County converted the credit facility for the Series 2004D bonds (\$130 million) which were supported by the Barclays Bank PLC Standby Bond Purchase Agreement to a direct pay letter of credit also with Barclays Bank PLC. The direct pay letter of credit agreement (reimbursement agreement) allows the County to borrow money, under certain conditions, for the purchase of any demand bonds not remarketed. The agreement was extended on November 20, 2020 and is scheduled to expire December 1, 2022. The trustee is entitled to draw an amount sufficient to pay the purchase price of the bonds delivered to the bank. Under the reimbursement agreement, any liquidity drawing or advance would incur an interest rate equal to the Bank Rate, which is the Base Rate for the first 60 days. For the 61st day through the 180th day, interest would accrue at the Base Rate plus 1.0%, and from the 181st day, and thereafter, interest would accrue at the Base Rate plus 2.0%. The Base Rate is equal to the highest of 8.0% per annum, the Federal Funds Rate plus 2.50% per annum or 150% of the yield on the 30 year United States Treasury bonds. As of November 30, 2021, the Base Rate is 8.0%. The principal of each advance would be payable by the County in equal annual installments on each amortization payment date, with the final installment in an amount equal to the entire then outstanding principal amount of such advance due and payable of the amortization end date (three year anniversary date of the advance).

Although County management believes it would be unlikely, for purposes of illustration and included in the table below, if the County were to encounter a scenario that required the County to advance the full amount (\$130 million) of the credit facility on November 30, 2021, and applying the November 30, 2021 blended interest rates averaging 9% in 2021 and 10% thereafter, on the first business day in January, following the advance date, or January 1, 2023, reimbursement of the full amount of the liquidity drawing would be due to Barclays. The County has no current intention to draw on the liquidity facility, but if an advance of some portion of the liquidity facility became necessary, the County would

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

request the draw and would comply with all terms under the reimbursement agreement. The County is required to pay Barclays Bank PLC a quarterly commitment fee for the letter of credit currently at 0.75% of the bond par outstanding. These bonds have a final maturity date of November 1, 2030. The County is required to comply with the agreed bank covenants. In an event of default, the Bank may declare all obligations due and payable, in accordance with the agreement, which states all outstanding bonds shall be redeemed on the 1st business day of January following the first 15th day of February following the occurrence of default. In the event of default, the rate would be equal to the Base Rate plus 4%. As of November 30, 2021, the County had not drawn any funds under its existing Direct Pay Letter of Credit.

Direct Placements Agreements

Series 2012A

On March 1, 2019, the County and the Trustee amended the original Series 2012A trust indenture to alter certain trust provisions. In July 2012, the County issued \$145.5 million Series 2012A variable rate bonds in a direct purchase with JP Morgan Chase Bank. The interest rate for the series is reset monthly and is equal to the sum of 79% of the one-month LIBOR rate and an applicable spread, which is subject to the maintenance of the lowest current long-term, unenhanced credit rating(s) assigned to unsecured general obligation bonded debt of the County. Based on the lowest current long-term rating of A2 from Moody's and AA- from Fitch, the interest rate is presently the sum of 79% of one-month LIBOR and 70 basis points. At November 30, 2021, one month LIBOR was 0.094% and the series rate was 0.774%.

The bonds are subject to a tender date of March 1, 2022 at a purchase price equal to par plus accrued and unpaid interest at the end of the initial interest rate period. In the event the bank has not received the purchase price of the bonds on the tender date, the bonds will incur interest at the Term-out Rate. The Term-out Rate is the Base Rate plus 3%. The Base Rate is the higher of: 1) the one-month LIBOR plus 2.5%, or 2) the Prime Rate. At

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

November 30, 2021, the Base Rate was 3.25%, which is the Prime Rate, and the Term-out Rate was 6.25%.

If the County's ratings adjust downwards, the applicable spread is set to increase by 15 basis points per notch with the default rate being applicable if the rating drops to BBB-/BBB-/Baa3 for Fitch, S&P and Moody's, respectively. In an event of default, the rate would be equal to the Base Rate plus 4%. The maximum allowable rate under the Master Bond Ordinance is 10% per annum. In accordance with the Trust Indenture, the County is required to comply with the agreed bank covenants; non-compliance would result in an event of default triggering a mandatory redemption of the bonds. In the event of a mandatory redemption of the bonds, all outstanding bonds shall be mandatorily redeemed on the 1st day of January following the 15th day of February following the first business day after the Bonds began to bear interest at the Term Out rate.

Series 2012B

On July 30, 2021, the County and the Trustee amended the existing Series 2012B trust indenture to accommodate the sale of the bonds to a new purchaser and to alter certain trust provisions. The County entered a direct purchase agreement with JPMorgan Chase, N.A. for Series 2012B variable rate taxable bonds with outstanding principal of \$85,070,000. The interest rate for the series is reset monthly and is equal to the one month LIBOR rate plus an applicable margin, which is subject to the maintenance of the lowest current long-term, unenhanced credit rating(s) assigned to unsecured general obligation bonded debt of the County. Based on the lowest current long-term rating of A2 from Moody's and AA- from Fitch, the interest rate is presently at LIBOR plus 45 basis points. At November 30, 2021, one month LIBOR was 0.094% and the series rate was 0.574%.

The bonds are subject to a mandatory purchase date of August 1, 2024 at a purchase price equal to 100% of the principal amount thereof plus accrued interest on the purchase date, unless extended pursuant to Section 2.3(a)(iii) of the Amended Trust Indenture. In the event that the bank has not received the purchase price of the bonds on the mandatory purchase date, the bonds will incur interest at the Term-out Rate. The Term-out Rate is the Base Rate plus 3%. The Base Rate is the higher of: 1) the one-month LIBOR plus 2.5%, or 2) the Prime Rate. At November 30, 2021, the Base Rate was 3.25%, which is the Prime Rate, and the Term-out Rate was 6.25%.

If the County's ratings adjust downward, the applicable spread is set to increase by 15 basis points per notch with the default rate being applicable if the rating drops to BBB-/BBB-/Baa3 for Fitch, S&P and Moody's, respectively. In an event of default, the rate would be equal to the Base Rate plus 4% per annum. The maximum allowable rate under the Master Bond Ordinance is 10% per annum. In accordance with the Trust Indenture, the County is required to comply with the agreed bank covenants; non-compliance would result in an event of default triggering a mandatory redemption of the bonds. In the event of a mandatory redemption of the bonds in Term-Out mode, all outstanding bonds shall be

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

redeemed on the 1st day of January following the 15th day of February following the first business day after the mandatory Term-Out redemption date at the redemption price of 100% of the principal amount plus accrued interest to the Term-Out redemption date.

Series 2014C

In October 2014, the County issued \$100.1 million Series 2014C variable rate bonds in a direct purchase with Wells Fargo Municipal Capital Strategies LLC. The direct purchase agreement was extended to September 29, 2023 in September 2020. This extension fixed the interest rate at 1.00%.

The bonds are subject to a tender date of September 29, 2023 at a purchase price equal to par plus accrued and unpaid interest at the end of the initial interest rate period. In the event the bank has not received the purchase price of the bonds on the tender date, the bonds will incur interest at the Term-out Rate, which is the highest of the Prime Rate plus 1.00%, Federal Funds Rate plus 2.00%, and 7%. After 180 days, the Term-out rate increases by 1% until the redemption date.

If the County's ratings adjust downwards, the applicable rate could increase. The increase amount is dependent on the resulting rating. However, the maximum applicable increase is 1.9%. The default rate is applicable if the rating drops to Baa3/BBB-/BBB- for Moody's, Fitch and S&P, respectively. In an event of default, the rate would be equal to the Base Rate plus 3%. The Base Rate (7% at November 30, 2021) is the higher of: 1) the Prime Rate plus 1.0%, or 2) the Federal Funds Rate plus 2.0%, or 3%). The maximum allowable rate under the Master Bond Ordinance is 10% per annum. In accordance with the Trust Indenture, the County is required to comply with the agreed bank covenants; noncompliance would result in an event of default triggering a mandatory redemption of the bonds. In the event of a mandatory redemption of the bonds in Term-Out mode, all outstanding bonds shall be mandatorily redeemed on the 1st day of January following the 15th day of February following the first business day after the Bonds began to bear interest at the Term-Out rate.

Revolving Line of Credit-Series 2014D and Series 2018

On November 1, 2018, the County extended an agreement for \$125.0 million General Obligation Bond Series 2014D and \$50.0 million Series 2018, as a variable rate revolving line of credit ("LOC") with PNC Bank. The purpose is to provide a short-term financing mechanism for capital projects during the acquisition/construction phase of each such project. Initially, the County pays for any capital equipment purchases from operating cash on hand, and then subsequently reimburses the operating funds from the line of credit on an as-needed basis. Currently, the interest rate for the line of credit is reset daily and is equal to 80% of the daily LIBOR Rate plus an applicable spread, which is subject to the maintenance of any two of the lowest current long-term, unenhanced credit rating(s) assigned to unsecured general obligation bonded debt of the County. Based on the lower

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

of the two highest current long-term ratings of A2 from Moody’s and AA- from Fitch, the interest rate is presently at 80% of LIBOR plus 85 basis points. As of November 30, 2021, LIBOR was 0.094% and the series rate was 0.925%.

Each year the County determines the best available alternative for paying the line including, extending the agreement, using available resources to pay the line, or issuing new debt. At the end of the previous fiscal year, \$175.0 million of the LOC balance was classified as long-term debt in Governmental Activities because at issuance, the principal was due more than twelve months from the date of the draw. On January 26, 2021, the County issued \$169.3 million Sales Tax Revenue Bonds Series 2021A in order to refund currently in full the \$175.0 million LOC with PNC Bank. The 2021A bonds will be payable through November 15, 2041. There was no gain or loss on refunding. The difference in cash flows between the new debt and the old debt was approximately \$65.2 million and the present value amount (economic loss) was (\$24.2) million.

During FY2021, an additional \$72.4 million was drawn on the line. The line of credit agreement expires on October 31, 2022, and is recorded in the Debt Service Fund and the CCH Fund as a LOC payable. The County expects to extend this agreement prior to its expiration. Out of the amount drawn, \$6.0 million was used to reimburse CCH’s capital expenditures.

The LOC activity during FY2021 is outlined below:

Governmental Activities:

	Short-term Line of Credit			
	Balance as of 11/30/2020	Additions	Reductions	Balance as of 11/30/2021

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

Refundings and Defeased Debt

On January 28, 2021, the County issued the \$330.5 million General Obligation Bonds, Series 2021A with an interest rate of 5.00% to refund \$278 million of outstanding General Obligation Refunding Bonds Series 2010A and \$119.9 million of outstanding General Obligation Capital Equipment Bonds Series 2010G, which had a combined average interest rate of 5.30%. The net proceeds of \$403 million were remitted by the Series 2021A trustee for the redemption of the Series 2010A and 2010G refunded bonds. The trustee serves as an escrow agent to provide for all future debt service payments on the Series 2021A bonds.

As a result, Series 2010A and 2010G bonds are considered to be defeased and the liability for those bonds has been removed from the financial statements. The defeased balance outstanding as of November 30, 2021, was \$277,950,000 for Series 2010A and \$119,855,000 for Series 2010G. Both Series were called on February 16, 2022.

The cash flow requirements on the refunded debt prior to the advance refunding was \$395,932,988 for Series 2010A and \$158,536,750 for Series 2010G from November 15, 2021 to November 15, 2033. The cash flow requirements on the 2021A Series bonds are \$436,605,666 from November 15, 2021 to November 15, 2033. The difference in cash flows between the new debt and the old debt was approximately \$117,864,072. The County paid accrued interest on the date of the refunding of \$5,203,462. The County refunded Series 2010A and 2010G to reduce its total debt service payments. The economic gain on refunding (the net present value of the difference between debt service payments on the old and new debt) was \$104.1 million.

On November 30, 2021, the County issued the \$190.6 million in General Obligation Bonds, Series 2021B at an interest rate of 3.91% and \$57.5 million in General Obligation Bonds, Series 2021C with an interest rate of 1.68% to refund \$164.1 million of outstanding General Obligation Refunding Bonds Series 2011A and \$103.7 million of outstanding General Obligation Capital Equipment Bonds Series 2011B, which had a combined average interest rate of 5.30%. The net proceeds of \$269 million were remitted by the Series 2021B&C trustee for the redemption of the Series 2011A and 2011B refunded bonds. Series 2011A and 2011B bonds are considered to be defeased and the liability for those bonds has been removed from the financial statements. The defeased balance outstanding as of November 30, 2021 was \$164,050,000 for Series 2011A and \$103,650,000 for Series 2011B. Both Series were called on December 20, 2021.

The cash flow requirements on the refunded debt prior to the advance refunding was \$199,887,025 for Series 2011A and \$127,045,943 for Series 2011B from November 15, 2021 to November 15, 2028. The cash flow requirements on the 2021B bonds are \$220,542,308 from November 15, 2021 to November 15, 2028. The cash flow requirements on the 2021C bonds are \$61,534,724 from November 15, 2021 to November 15, 2027. The difference in cash flows between the new debt and the old debt was approximately \$44,855,936. The County paid accrued interest on the date of the refunding of \$1,367,282. The County refunded Series 2011A and 2011B to reduce its total debt service payments. The economic gain on refunding (the net present value of the difference between debt service payments on the old and new debt) was \$42.8 million.

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

Section 108 Guaranteed Notes (Notes Payable)

The County's Bureau of Economic Development has 3 contracts with the Secretary of Housing and Urban Development (HUD) under the Section 108 Guaranteed Loan Program as of November 30, 2019. The outstanding note balance at November 30, 2021 is \$6,871,000 due in various annual amounts not exceeding \$3,000,000 through August 1, 2035. On March 28, 2019, CCBED participated in HUDs Public Offering which provided an opportunity to lock-in fixed interest rates for its Section 108 variable rate loan, thereby eliminating uncertainty and permitting the Note's principal and interest payments to be accurately budgeted. These fixed interest rates were based on market conditions at the time of the public offering and tied to the yields on the 2-yr, 5-yr, 7-yr, and 10-yr U.S. Treasury obligations at that time (the rate for the 8/1/2019 maturity is tied to a short term Treasury rate). The proceeds of the three HUD Section 108 loans have been loaned to secondary authorized representatives under the guidelines of the County and HUD contract, for capital infrastructure projects, for the acquisition of equipment for the Cermak Fresh Market Grocery Store, and for the acquisition of equipment for the Alsip MiniMill Paper Mill to aid in the creation and retention of new jobs.

Taxable Line of Credit

On February 25, 2016, the County closed on a \$100 million Line of Credit Agreement with BMO Harris Bank NA. The Line of Credit Agreement was extended on April 11, 2019. The Line of Credit is a General Obligation of the County and the full faith and credit of the County is pledged to the repayment of its principal and interest. It is issued on a taxable basis and is envisioned to be largely undrawn to provide the County flexibility for unforeseen contingencies. It carries an interest cost of LIBOR plus 0.80% on any outstanding principal and 0.25% on any unused principal portion, and is for a three-year agreement set to expire in February 2022. As of November 30, 2021, the line was undrawn.

Revolving Line of Credit to the Cook County Land Bank Authority

On March 17, 2017, the County entered in a \$3 million Revolving Line of Credit Agreement with Chicago Community Loan Fund. An amendment to the Agreement, effective December 1, 2019, extended the maturity date to December 1, 2021. The Line of Credit is used for the acquisition of properties, primarily single-family homes, from various sources. It carries a fixed interest cost of 6.0% on any outstanding principal. As of November 30, 2021, the principal balance owed on the line was \$626,723 which is included in accounts payable in the Land Bank Authority Fund.

Sales Tax Revenue Bonds

The \$90 million 2012 Sales Tax Revenue Bonds were issued for highway capital projects and are to be paid from the County's home-rule sales tax revenues. Principal amounts are due in annual installments of \$600 thousand to \$5.96 million and interest at 2% to 5% through November 15, 2037. The pledge of home rule sales tax revenues will remain until all bonds are retired in FY 2037. The amount of pledges remaining as of November 30, 2021 is \$100,041,775.

The \$25 million 2013 Sales Tax Revenue – Qualified Energy Conservation Bonds, with an interest rate of 5.354%, a bullet maturity in November 2035, and invested sinking fund installments due in earlier years to create overall level debt service, were issued to fund energy conservation projects

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

during the next several fiscal years. As of November 30, 2021, the County has deposited \$6.5 million into the principal sinking fund. The pledge of sales tax will remain until the final maturity in November 2035. The amount of pledges remaining at November 30, 2021 is \$30,028,622.

The \$165 million 2017 Sales Tax Revenue Bonds were issued to repay approximately \$107 million of the outstanding General Obligation Bond Series 2014D variable rate revolving line of credit (2014D Revolver bonds) and to fund the remaining costs associated with the Central Campus Health Clinic. Principal amounts are due in annual installments of \$5 million to \$20 million and interest at 4% to 5% through November 15, 2040. The pledge of home rule sales tax revenues will remain until all bonds are retired in FY 2040. The amount of pledges remaining as of November 30, 2021 is \$281,750,000.

The \$155.6 million 2018 Sales Tax Revenue Bonds were issued to repay outstanding General Obligation Bonds Series 2014D variable rate revolving line of credit (2014D Revolver bonds). Principal amounts are due in annual installments of \$5.0 million to \$16.5 million and interest at 3.00% to 5.25%. The pledge of home rules sales tax revenues will remain until final maturity in November 2038. The amount of pledges remaining as of November 30, 2021 is \$226,015,750.

The \$169.3 million 2021A Sales Tax Revenue Bonds were issued to repay outstanding General Obligation Bonds Series 2014D and 2018 variable rate revolving line of credit (2014D Revolver bonds). Principal amounts are due in annual installments of \$1.7 million to \$36.4 million and interest at 4.00% to 5.00%. The pledge of home rules sales tax revenues will remain until final maturity in November 2041. The amount of pledges remaining as of November 30, 2021 is \$281,582,200.

All of the Sales Tax Revenue Bonds are paid from the County's home-rule sales tax revenues. A 100% pledge of home rule sales tax revenues will remain until all bonds are retired. Deposits are made monthly to the financial institution serving as trustee for the bonds, Bank of New York Mellon, as detailed in an associated trust indenture, though interest payments are made semi-annually and principal payments are made annually.

The annual debt service requirements to retire the sales tax revenue bonds outstanding at November 30, 2021, is presented below:

<u>Fiscal Year</u>	<u>Total Principal</u>	<u>Total Interest (1)</u>	<u>Total Requirements</u>
2022	\$ 2,965,000	\$ 25,354,832	\$ 28,319,832
2023	3,060,000	25,258,207	28,318,207
2024	3,200,000	25,120,207	28,320,207
2025	3,360,000	24,960,207	28,320,207
2026	3,525,000	24,792,207	28,317,207
2027-2031	76,465,000	117,672,536	194,137,536
2032-2036	231,705,000	85,169,629	316,874,629
2037-2041	239,855,000	28,282,600	268,137,600
Total	<u>\$ 564,135,000</u>	<u>\$ 356,610,425</u>	<u>\$ 920,745,425</u>

⁽¹⁾ Interest subsidy assumes 70% of 5.33 tax credit rate less 5.7 % sequestration cut for the life of the Series 2013 Bonds.

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

A comparison of FY 2021 pledged revenues collected per series is shown below:

2021 Debt Service Expenditures (in Millions)

Pledged Revenue Source	2021 Pledged Revenue Collected (in Millions)	Principal	Interest	Total
2012 Sales Tax	\$ 861.6	\$ 2.825	\$ 3.430	\$ 6.255
2013 Sales Tax	861.6	-	1.336	1.336

the note payable relating to HUD section 108 loans will be repaid from the HUD Section 108 Loan Program Fund.

4. Property Tax Objections

The County refunds property taxes collected in error and those pertaining to the settlement of prior year property tax objection suits. Property tax objection suits are classified as either specific objections or tax rate cases. Specific objections have substantially been resolved through 2016. The tax rate cases, filed against Cook County, have been settled through and including 2010. The County settled tax years 2005-2010 on March 2, 2021. Rate cases for years 2011-2014 were opened by the court on March 11, 2021 and remain open. The County has estimated potential amounts payable relating to such years for which suits have been filed but are not settled or adjudicated. Additional amounts have been estimated for other specific property tax objections and errors for which refunds are expected to be paid.

All settlements and tax refunds are payable from current collections of relevant taxing districts associated with the property at issue, in tax objections or the refund applications.

These amounts are reflected as noncurrent liabilities since payments will be made from future property tax collections (including refunds pertaining to prior tax levy years).

The following schedule summarizes the activity of property tax objections during the fiscal year ended November 30, 2021:

	Business-type Activities/CCH	Governmental Activities
Property tax objection liability, November 30, 2020	\$ 10,522,431	\$ 77,258,717
Claims incurred	2,554,837	23,621,774
Claims paid	<u>(3,393,486)</u>	<u>(32,113,556)</u>
Property tax objection liability, November 30, 2021	<u>\$ 9,683,782</u>	<u>\$ 68,766,935</u>

5. Pollution Remediation

The County's Department of Facilities Management consistently responds to the urgent or immediate needs of other departments whenever asbestos removal is required due to a remodeling project, valve, piping or other necessary repair, the entire area is abated, not just the immediate need. In accordance with GASB 49, the County has developed a list of known areas to have contaminated materials and the projected remediation costs. In the opinion of County management, the amount recorded of \$811,174 as of November 30, 2021 appears to be adequate to reflect future payments which constitute an estimate of manpower and materials. This has been recorded as a noncurrent liability, due within one year on the government-wide Statement of Net Position.

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

6. Asset Retirement Obligation

In accordance with GASB 83, the County has developed a list of legally enforceable liability associated with the retirement of a tangible asset. The retirement of a tangible capital asset occurs when the asset is permanently removed from service, through its sale, abandonment, recycling, or disposal in some matter, but does not include a temporary idling event. In the opinion of County management, the amount recorded of \$439,500 as of November 30, 2021 appears to be adequate to reflect future payments which constitute an estimate of manpower and materials.

F. Categories of Fund Balance

At November 30, 2021, the County's fund balances were classified as follows:

Restricted purpose:	General	Debt Service	Motor Fuel	Grants	Nonmajor Governmental Funds	Total
Grant funded loan program	\$ -	\$ -	\$ -	\$ 17,503,453	\$ -	\$ 17,503,453

IV. Other Information

A. Risk Management

1. The County

The Self Insurance Fund, a sub-fund of the General Fund, is used to account for certain risk financing activities of the County. Additionally, liabilities pertaining to self-insured claims for CCH are reported in the CCH Fund. The County is self-insured and believes that it is more economical to manage its risks internally within certain risk tolerances and to set aside funds as needed for current claim settlements and adverse judgments through annual appropriations, surplus funds, and bond proceeds. Since December 31, 2000, the County has purchased excess liability insurance coverage related to medical malpractice and other claims. The current medical malpractice policy, as of November 30, 2021, is on a claims-made basis and provides up to \$75,000,000 of limits above the County's self-insured retention of \$35,000,000 per claim. The municipal policy is on an occurrence basis and provides \$20,000,000 of coverage above the County's retention of \$30,000,000 per claim.

The municipal policy provides coverage not only for bodily injury and property damage losses but extends coverage to include employment practices liability, law enforcement liability, public official's liability and employee benefits liability. Beginning in 2011, the County purchased property insurance which provides replacement cost coverage for physical damage to the County's buildings, contents and inventory from covered causes of loss. It also provides coverage for extra expenses incurred to continue operations after a loss. The County's deductible is \$1,000,000. There is no excess coverage for workers' compensation claims. The County annually evaluates risk transfer options within the insurance marketplace and adjusts limits and retentions accordingly. Settled claims have not exceeded the County's insurance coverage in any of the past three years for all the policies noted above.

The claims liabilities reported on the government-wide statement of net position and within the CCH enterprise fund have been determined by management with the assistance of an external actuary and include an estimate of incurred but not yet reported losses ("IBNR"). Estimated losses for workers' compensation include allocated loss adjustment expenses ("ALAE"). ALAE are the direct expenses for settling specific claims such as legal defense fees, expert witness fees and court reporting fees. They do not include internal defense costs. Unallocated loss adjustment expenses are the indirect expenses to settle claims, primarily administration and claims handling expenses. The litigation expense reserve (present value) is \$88.6 million.

The County is also self-insured for health coverage plans that are made available to County employees and their dependents. A private insurer administers claims for a monthly fee per member. Expenditures are recorded as incurred in the form of direct contributions to the insurer for payment of employee health claims and administration fees. The County's liability will not exceed \$2,000,000 per member, as provided by stop-loss provisions incorporated in the plan.

As of November 30, 2021, the County has recorded a government-wide total liability (present value) of \$750.2 million for self-insurance claims. The County has estimated \$148.4 million of the total liability as a long-term liability that is due within one year. Of the total liability for self-

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

insurance claims, \$568.2 million is reported in general governmental activities of the County and \$182.0 million is reported in business-type activities (“CCH”).

The County funds its self-insurance claims, including those of the CCH, on a current basis and has the authority to finance such liabilities through the issuance of bonds, the levy of property taxes, or other means. While it is difficult to estimate the timing or amount of expenditures, management of the County believes that the self-insurance liabilities recorded in the statement of net position on November 30, 2021, represent probable losses resulting from medical malpractice, workers' compensation, general liability, automobile, civil rights, and other liability claims including incurred but not reported claims. The self-insurance liabilities recorded are based on facts known at the current time (and IBNR as discussed above). However, the discovery of additional information concerning specific cases could affect estimated losses in the future.

The following table presents the activity of the County during fiscal years 2019 through 2021 for the risk management estimated liabilities (in millions):

Type	Balance at Nov. 30, 2019	Insurance and Claims Payouts	Expense, Net of Actuarial Adjustments	*Balance at Nov. 30, 2020	Insurance and Claims Payouts	Expense, Net of Actuarial Adjustments	*Balance at Nov. 30, 2021
Medical malpractice	\$ 144.8	\$ (48.2)	\$ 41.7	\$ 138.3	\$ (23.6)	\$ 22.1	\$ 136.8
Workers' compensation	144.1	(43.6)	89.9	190.4	(44.9)	53.9	199.4
General	1.6	(0.4)	1.0	2.2	(0.5)	0.9	2.6
Automobile	6.3	(0.2)	6.5	12.6	(0.2)	2.3	14.7
Claim expense reserve	64.1	(12.9)	29.8	81.0	(11.5)	22.0	91.5
Civil	262.7	(26.4)	15.2	251.5	(12.5)	44.0	283.0
Employee health claims	20.7	(191.7)	192.6	21.6	(225.2)	225.8	22.2
Total Claims Liability	<u>\$ 644.3</u>	<u>\$ (323.4)</u>	<u>\$ 376.7</u>	<u>\$ 697.6</u>	<u>\$ (318.4)</u>	<u>\$ 371.0</u>	<u>\$ 750.2</u>

* Represents the present value of the estimated losses based on a 0.81 % interest rate.

B. Encumbrances/Commitments

The encumbrance system of accounting is followed in all governmental funds under which current year's appropriations are charged when purchase orders, contracts and other commitments are made in order to reserve that portion of the applicable appropriation.

Encumbrances are not the equivalent of expenditures/expenses in GAAP operating statements; therefore, the reserve for encumbrances is reported as part of the restricted, committed or assigned fund balance. The County's total encumbrances were \$36.1 million at November 30, 2021: General Fund - \$22.8 million; Motor Fuel Tax Fund - \$7.2 million; and Nonmajor Governmental Funds - \$6.1 million.

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

C. Contingent liabilities

1. Federal and State grant programs

The County participates in a number of Federal and State grant programs. The County’s participation in these programs is subject to financial and compliance audits by the grantors or their representatives. Such audits could lead to requests for reimbursement to the grantor agency for expenditures disallowed under terms of the grant.

2. Arbitrage Liability

The Tax Reform Act of 1986 requires issuers of state and local government bonds to rebate to the federal government arbitrage profits earned on those bonds under certain circumstances. There was no arbitrage liability at November 30, 2021.

D. Conduit debt obligations

The following information represents outstanding limited obligation non-government debt issues, which bear the name of the County. These debt issues are not obligations of the County, and the County solely served as a conduit issuer for these non-recourse debt issuances. As of November 30, 2021, the County has participated in eighteen (18) Revenue and Industrial Development Bonds or Multi-Family Housing Revenue Bond issues for the purpose of assisting private for profit or non-profit entities in financing various capital projects on a tax-exempt basis. As of November 30, 2021, the following Conduit Debt Obligations remained outstanding:

Issue Date	Issue Amount	Outstanding Amount	Description	Maturity
February 1, 2005	\$ 28,500,000	\$ 20,856,000	The County of Cook, Illinois Adjustable Rate Demand Revenue Bonds, Series 2005 (Catholic Theological Union)	2/1/2035

V. Pension plans

A. County Pension Plan

Plan description. The County Employees’ and Officers’ Annuity and Benefit Fund of Cook County (“the A & B Plan”), is the administrator of the single employer defined benefit pension plan established by the State of Illinois on January 1, 1926. The A & B Plan is governed by legislation contained in the Illinois Pension Code particularly Chapter 40 of the Illinois Compiled Statutes (“ILCS”), Article 9 (the “Article”). The A & B Plan (including employer and employee contribution requirements) can be amended only by the Illinois Legislature. The A & B Plan was created for the purpose of providing retirement, death (spouse or children) and disability benefits for full-time employees of the County and the dependents of such employees. The A & B Plan Board consists of nine members – two members of the Board are ex officio, four are elected by the employee members of the A & B Plan and three are elected by the annuitants of the A & B Plan. The two ex officio members are the Comptroller

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

of Cook County, or someone chosen by the Comptroller, and the Treasurer of Cook County, or someone chosen by the Treasurer. The County Employees' and Officers' Annuity and Benefit Fund of Cook County issues a publicly available financial report that includes financial statements and required supplementary information for the A & B Plan. This report may be obtained by writing to the Pension Board at 70 West Madison Street, Suite 1925, Chicago, Illinois 60602, or through their website at <http://www.cookcountypension.com>.

Benefits provided. The A & B Plan provides retirement, disability, and death benefits to plan members and beneficiaries. Tier 1 employees age 50 or over and Tier 2 employees age 62 or over with at least 10 years of service are entitled to receive a minimum formula annuity of 2.4% for each year of credited service to a maximum benefit of 80% of the final average monthly salary. For Tier 1 employees under age 60 and Tier 2 employees under age 67, the monthly retirement benefit is reduced 0.5% for each month the participant is below the age. This reduction is waived for Tier 1 participants having 30 or more years of credited service.

Benefit terms provide for annual cost-of-living adjustments to each employee's retirement allowance subsequent to the employee's retirement date. The annual adjustments are 3.0% compounded annually for Tier 1 participants, and the lesser of 3.0% or one half of the increase in the Consumer Price Index for Tier 2 participants.

If a covered employee leaves employment without qualifying for an annuity, accumulated employee contributions are refundable with interest (3% or 4% depending on when the employee became a participant).

Employees covered by benefit terms. The following employees were covered by the benefit terms at the December 31, 2020 measurement date:

Inactive employees and beneficiaries currently receiving benefits	19,442
Inactive employees entitled to benefits, but not yet receiving them	16,404
Active employees	<u>19,102</u>
Total plan membership	<u><u>54,948</u></u>

Contributions. The Plan is a single employer defined benefit pension plan with a defined contribution minimum. Illinois Compiled statutes (40 ILCS 5/9-169) establishes the contribution requirements of the County and may only be amended by the Illinois legislature. The County is required to levy a tax at a rate not more than an amount equal to the total amount of contributions by the employees to the A & B Plan made in the fiscal year two years prior to the year for which the annual applicable tax is levied, multiplied by a factor of 1.54.

For the year ended November 30, 2021, employees were required to contribute 8.5% (9% for County Police) of their salary to the A & B Plan, subject to the salary limitations for Tier 2 participants in 5/1-160 of the ILCS. The County's regular contributions to the A & B Plan for pensions were \$158.5 million. These contributions which are legally due to the A & B Plan for the County's FY 2021, are reported as a payable to the A & B Plan in governmental activities, business-type activities and the CCH enterprise fund. Amounts remitted to the A & B Plan during FY 2021 represent collections of the FY 2020 levy and personal property replacement taxes ("PPRT") collected during FY 2021.

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

In addition, in December 2020, the Cook County Board authorized an Intergovernmental Agreement with the County Employees’ and Officers’ Annuity and Benefit Fund (“Pension Fund”) to establish a mechanism by which the County can disburse additional funds to the Pension Fund, from the County’s Retailers’ Occupation and Services Occupation Tax. The Pension Fund can receive these funds from the County, independent and in addition to the sums provided for in Sections 9-169 of Illinois Pension Code (40 ICS 5/9-169). The County Board authorized this supplemental contribution in the sum of \$342.0 million in the County’s FY 2020 Appropriation Bill and the entire amount was remitted to the A & B Plan during FY 2021. \$314.0 million of this amount was remitted after the December 31, 2020 measurement date and is included as a deferred outflow of resources in governmental activities, business-type activities and the CCH fund financial statements.

Net Pension Liability

The County’s net pension liability was measured as of December 31, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2020.

Actuarial assumptions. The total pension liability in the December 31, 2020 actuarial valuation was determined using the Entry Age Normal actuarial cost method and using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75%
Salary increases	3.5% to 8.0%
Investment rate of return	7.25%
Municipal Bond Rate	2.12%
Discount rate	3.68%
Postretirement annuity	
Increase	Tier 1 participants – 3.0%, compounded annually Tier 2 participants – lesser of 3.0% or one-half of the increase in the CPI

Mortality rates were based on an experience analysis of the County Employees’ and Officers’ Annuity and Benefit Fund over the period 2013 through 2016. The RP-2014 Blue Collar Mortality Table, base year 2006, Buck Modified MP-2017 projection scale was used.

The long-term expected rate of return on the Fund’s investments was determined based on the results of an experience review performed by a consultant. The investment return assumption was based on the target asset allocation of the A & B Plan. In the experience review, best estimate ranges of expected future real rates of return were developed (net of pension plan investment expense and inflation) for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

Best estimates of arithmetic real rates of return (net of inflation) for each major asset class included in the Fund's target asset allocation are listed in the table below.

	<u>Target</u>	<u>Long-term</u>
	<u>Allocation</u>	<u>Expected Real</u>
		<u>Rate of Return</u>
Fixed income	26.00%	1.43%
Domestic equity	33.00%	5.58%
International equity	21.00%	5.88%
Real estate	9.00%	4.52%
Private equity	4.00%	6.91%
Hedge funds	6.00%	2.91%
Short-term investment	1.00%	0.03%
Total investments	<u>100.00%</u>	

Discount rate. The discount rate used to measure the total pension liability was 3.68%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that County contributions will be made at rates required by the Illinois Pension Code (40 ILCS 5/9-169). Based on this assumption, the A & B Plan's fiduciary net position was projected to be insufficient to make all projected future benefit payments of current plan members.

A municipal bond rate of 2.12% was used in the development of the blended discount rate after that point. The 2.12% rate is based on the S&P Municipal Bond 20-Year High Grade Rate Index as of the measurement date (December 31, 2020). Based on the long-term rate of return of 7.25% and the municipal bond rate of 2.12%, the blended discount rate was 3.68%, which is a 0.46 decrease from the discount rate used in the prior valuation of 4.14%. There were no other significant changes in assumptions or inputs since the previous measurement date.

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in the separately issued A & B Plan financial report.

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended November 30, 2021, the County recognized total pension expense of \$817.3 million, consisting of \$472.4 million in governmental activities and \$344.9 million in business-type activities.

At November 30, 2021, the County reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

County Primary Government	<i>(Amounts in thousands)</i>	
	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 138,494	\$ (54,041)

Payable to the Pension Plan

At November 30, 2021, the County reported a payable of \$158.4 million for the outstanding amount of pension contributions payable to the A & B Plan (\$105.0 million for governmental activities and \$53.4 million for CCH and business-type activities).

Changes Subsequent to the Measurement Date

In December 2020, the Cook County Board authorized an Intergovernmental Agreement with the Cook County Officer and Employees Annuity and Benefit Fund (“Pension Fund”) to establish a mechanism by which the County can disburse additional funds to the Pension Fund, from the County’s Retailers’ Occupation and Services Occupation Tax. The County Board authorized a sum of \$342.0 million in the County’s FY2021 Appropriation Bill for this additional payment; for which approximately \$28.0 million was paid to the Plan and included in the measurement period, and approximately \$314.0 was paid to the Plan subsequent to the measurement date. All disbursements were paid by November 30, 2021. Of the amount paid subsequent to the measurement date, \$206.8 million pertains to governmental activities and \$107.2 million pertains to business-type activities.

VI. Other Postemployment Benefits (OPEB)

Plan Description. The County Employees’ and Officers’ Annuity and Benefit Fund of Cook County (“Plan”) administers the Healthcare Premium Plan (“HPP”), a single-employer defined benefit post-employment healthcare plan. HPP provides a healthcare premium subsidy to annuitants who elect to participate in HPP. The Plan is included in the County’s financial statements as a Post-employment Healthcare trust fund. Although the Plan is administered through a trust, the fiduciary net position of the Plan at the end of each year is zero, and is administered on a “pay as you go” basis. The

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

financial statements of the Plan are audited by an independent public accountant and are the subject of a separate report. Copies of the Plan’s report for the year ended December 31, 2020 are available upon request from the Retirement Board at 70 West Madison Street, Suite 1925, Chicago, Illinois 60602, or through their website at <http://www.cookcountypension.com>.

The Pension Board of Trustees states that HPP is administered pursuant to Chapter 40, Article 5/9 of the Illinois Compiled Statutes, which establishes the authority to provide an optional OPEB benefit to the Pension Board of Trustees.

Benefits provided. The HPP provides healthcare and vision benefits for annuitants and their dependents.

Employees covered by benefit terms. At the December 30, 2020 measurement date, the following employees were covered by the benefit terms:

Inactive employees and beneficiaries currently receiving benefits	11,905
Inactive employees entitled to benefits, but not yet receiving them	1,708
Active employees	<u>19,102</u>
Total plan membership	<u><u>32,715</u></u>

Contributions. The premium contribution requirements of Plan members are established by and may be amended by the Pension Board of Trustees. The funding source for employer contributions are derived from the real estate taxes as authorized under Chapter 40, Article 5/9 of the Illinois Compiled Statutes for employer pension contributions, with no separate designated employer contribution for the Plan (“OPEB”), and the legislature retains authority to amend employer and active employee contributions to the County Employees’ and Officers’ Annuity and Benefit Fund of Cook County which administers the Plan. The employer contribution is based on projected “pay-as-you-go” financing requirements as determined by the Pension Board of Trustees. For FY2021, the portion of the County’s contribution to the Plan dedicated to paying OPEB was \$43.4 million (\$28.4 million for governmental activities and \$15.0 million for business-type activities/CCH).

The Plan may pay all or any portion of the premium for health insurance on behalf of each annuitant who participates in any of the Plan’s healthcare plans, subject to the determination of the Pension Board of Trustees. The employee and spouse annuitants pay between 55% - 67% and 48% - 62% of the annual medical costs, respectively, which increased from the prior year ranges by 1% - 10% depending upon Medicare eligibility and coverage type. The remaining costs are funded by an allocation from the Plan.

Total OPEB Liability

The County’s total OPEB liability was measured as of December 31, 2020 and was determined by an actuarial valuation as of December 31, 2020.

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

Actuarial assumptions. The total OPEB liability in the December 31, 2020 actuarial valuation was determined using the Entry Age Normal cost method and using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75%
Salary increases	3.50% to 8.00%
Health care cost trend rates	7.00% in the first year, decreasing by .25% per year until an ultimate rate of 4.75% is reached for pre-Medicare; 5.50% in the first year, decreasing by .25% per year until an ultimate rate of 4.75% is reached for post-Medicare
Municipal bond rate (discount rate)	2.12%

Mortality rates were based on an experience analysis of the County Employees Annuity and Benefit Fund over the period 2013 through 2016. The RP-2014 Blue Collar Mortality Table, base year 2006, Buck Modified MP-2017 projection scale was used.

Discount rate. The discount rate used to measure the total OPEB liability was 2.12%. Because the Plan is “pay as you go”, a municipal bond rate of 2.12% was used in the development of the discount rate. The 2.12% rate is based on the S&P Municipal Bond 20-Year High Grade Rate Index as of the measurement date (December 31, 2020). The discount rate used of 2.12%, is a 0.63 decrease from the discount rate used in the prior valuation of 2.75%. Additional changes in benefits and assumptions or inputs since the previous measurement date are also noted below:

Changes in the Total OPEB Liability

Payable to the OPEB Plan

On November 30, 2020, the County reported a payable of \$43.4 million for the outstanding amount of OPEB contributions payable to the A & B Plan (\$28.8 million for governmental activities and \$14.6 million for CCH and business-type activities).

VII. Cook County Health and Hospital System (CCH)

Certain expenses incurred by various departments of the County in the operation of the CCH have been recorded in the financial statements of the CCH (e.g., Data Processing, Purchasing and Auditing, net of medical claim reimbursements) as an expense, with a corresponding credit to transfer in for the subsidy. These net expenses amounted to \$18,343,404 in FY 2021. These expenses are included in the cost reimbursement reports submitted by the CCH to the State and Federal health care intermediary. Additionally, pension/OPEB contribution amounts (\$183,694,401) were transferred to CCH whereby they were then remitted to the plan.

Construction-in-progress and other capital expenditures affecting the CCH are accounted for in various Capital Project Funds maintained by the Comptroller as expenditures. These expenditures amounted to \$22,430,759 for FY 2021. The corresponding debt which finances these expenditures is not expected to be liquidated by CCH and thus is not reflected as a liability within business-type activities (or CCH).

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

CCH is included in the County's financial statements as a Proprietary fund. CCH issues a publicly available financial report that includes financial statements and required supplementary information. That report is available online at www.cookcountyhhs.org.

VIII. Component Unit – Forest Preserve District (District)

A. The Forest Preserve District Reporting Entity

The Forest Preserve District of Cook County, Illinois ("the District") was established in July 1914. The District is a separate governmental entity with boundaries coterminous with Cook County, Illinois. The District operates on a calendar year and its December 31, 2020 statements are reported herein. The District operates under a Board of Commissioners form of government and provides the following services as authorized by its charter: law enforcement, recreation, resources management, planning and development, and general administrative services.

Reporting Entity - The accounting policies of the Forest Preserve District of Cook County, Illinois, conform to accounting principles generally accepted in the United States of America ("GAAP") as applicable to governmental units. The accepted standard-setting body for establishing governmental accounting and financial reporting principles is the Governmental Accounting Standards Board ("GASB").

The District includes all of the funds of the Forest Preserve District of Cook County, Illinois. The reporting entity for the District includes the following component units:

Presented Discretely With the Reporting Entity - The Chicago Horticultural Society (Chicago Botanical Garden) and Chicago Zoological Society (Brookfield Zoo) maintain their own boards, however their annual property tax levy requests require the District's approval. The District owns the land sites of the Chicago Botanical Garden and Brookfield Zoo. The Chicago Botanical Garden and the Brookfield Zoo are subject to agreements with the District to operate and maintain their respective land sites.

The Chicago Botanical Garden's agreement expired in 2015; however, the contract was automatically renewed for an additional 40 years through 2055. The Brookfield Zoo's agreement expires in 2026. Because of the nature of the Chicago Botanical Garden's and Brookfield Zoo's financially integrated relationship to the District, they are presented discretely beside the District's financial statements.

Information contained in this section (Note VIII) is for the Forest Preserve District only, and omits information for the District's two discretely presented component units - the Chicago Horticultural Society (Chicago Botanical Garden) and Chicago Zoological Society (Brookfield Zoo).

Complete financial statements for the Forest Preserve District, the Chicago Horticultural Society (Chicago Botanical Garden) and Chicago Zoological Society (Brookfield Zoo) may be obtained by request from the District at 69 West Washington Street, Suite 2060, Chicago, Illinois 60602.

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

B. Cash and Investments

Illinois Statutes authorize the District to make deposits/investments in insured commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. Agencies, insured credit union shares, money market mutual funds with portfolios of securities issued or guaranteed by the United States or agreement to repurchase these same obligations, repurchase agreements, short-term commercial paper rated within the three highest classifications by at least two standard rating services, and the Illinois Funds Investment Pool. The District maintains a cash and investment pool that is available for use by all funds except its Pension Fund. This pool holds deposits, certificates of deposit, and other investments with a maturity of less than one year. The portion of each fund's share of this pool is displayed as cash and cash equivalents. Investments are stated at fair value. Accrued interest on investments is separately stated. The Illinois Statutes authorize the District to discretionarily allocate interest income to the various funds, except for the pro rata share belonging to the Bond and Interest Fund. The District has adopted an investment policy. That policy follows the Illinois Statutes (Public Funds Investment Act of the State of Illinois) for allowable investments.

Interest Rate Risk

The District's investment policy seeks to ensure preservation of capital in the District's overall portfolio. Return on investment is of secondary importance to safety of principal and liquidity. The District's policy limits the District to investments with a maturity of no more than 3 years from the date of purchase, unless matched to a specific cash flow. Reserve funds and other funds with longer-term investment horizons may be invested in securities exceeding 5 years if the maturities of such investments are made to coincide as nearly as possible with the expected use of funds. The intent to invest in securities with longer maturities is required to be disclosed to the Board of Commissioners in writing. In addition to the maturity restrictions, the policy requires the District's investment portfolio to be sufficiently liquid to meet all cash flow requirements as they come due.

As of December 31, 2020, the District's investments were as follows:

<u>Investment Type</u>	<u>Fair Value</u>	<u>Maturity (in Years)</u>	
		<u>Less than 1</u>	<u>1-5</u>
Money Market Mutual Funds	<u>\$ 17,620,917</u>	<u>\$ 17,620,917</u>	<u>\$ -</u>

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. State statutes limit the investments in commercial paper to the top three ratings of two nationally recognized statistical rating organizations ("NRSROs"). The District's investment policy authorizes investments in any type of security allowed for in Illinois statutes regarding the investment of public funds.

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

As of December 31, 2020, the District has the following investments and ratings:

<u>Type of Investment</u>	<u>Standard & Poor's Rating</u>	<u>Moody's Rating</u>
Money Market Mutual Funds	AAAm	Not Rated

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The District's investment policy requires diversification of the investment portfolio to minimize risk of loss resulting from over-concentration in a particular type of security, risk factor, issuer, or maturity. The District's policy further states that no financial institution shall hold more than 25% of the District's total portfolio at the current time of investment placement. In addition, no more than 33% of total investments may be invested in commercial paper at any time. The District operates its investments as an internal investment pool where each fund reports its pro rata share of the investments made by the District. In this internal investment pool there were no investments which are subject to concentration for credit risk that represent more than 5% of the portfolio as of December 31, 2020.

Custodial Credit Risk – Deposits

Custodial credit risk is the risk that in the event of a financial institution failure, the District's deposits may not be returned to the District. The District's investment policy limits the exposure to deposit custodial credit risk by requiring all deposits in excess of FDIC insurable limits to be secured with collateralization pledged by the applicable financial institution to the extent of 110% of the value of the deposit.

Custodial Credit Risk – Investments

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District's investment policy requires all securities to be held by a third party custodian designated by the Comptroller's Office and evidenced by safekeeping receipts.

Fair Value Levels

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets and liabilities; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The District's Money Market Mutual Funds totaling \$17,620,917 were all Level 1.

COOK COUNTY, ILLINOIS

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

The District is subject to the Illinois Municipal Code, which limits the amount of certain indebtedness to 0.345% of the most recent available equalized assessed valuation of the District. As of December 31, 2020, the statutory debt limit for the District was \$575,865,760, providing a debt margin of \$456,090,760.

E. Pension Plan

Plan Description

Any employee of the District employed under the provisions of the District personnel ordinance is covered by the Forest Preserve District Employees' Annuity and Benefit Fund of Cook County (the "Plan"), which is a single-employer defined benefit pension plan with a defined contribution minimum. Although this is a single-employer plan, the defined benefits, as well as the employer and employee contribution levels, are mandated in the Illinois Compiled Statutes (Chapter 40, Pensions, Article 5/1 0) and may be amended only by the Illinois legislature. Effective with the signing of Public Act 96-0889 into law on April 14, 2010, participants that first became contributors on or after January 1, 2011 are Tier 2 participants. All other participants that were contributing prior to January 1, 2011 are Tier 1 participants. The District accounts for the Plan as a pension trust fund.

The Plan provides retirement as well as death and disability benefits. Tier 1 employees age 50 or older and Tier 2 employees age 62 or older are entitled to receive a minimum formula annuity of 2.4% for each year of credited service if they have at least 10 years of service. The maximum benefit is 80% of the final average monthly salary. For Tier 1 employees under age 60 and Tier 2 employees under age 67, the monthly retirement benefit is reduced by 1/2% for each month the participant is below that age. The reduction is waived for Tier 1 participants having 30 or more years of credited service. Participants should refer to the applicable state statutes for more complete information.

Plan Membership

As of December 31, 2020	
Inactive employees and beneficiaries currently receiving benefits	538
Inactive employees entitled to benefits, but not yet receiving them	1,468
Active employees	521
Total plan membership	<u>2,527</u>

Contributions

Covered employees are required to contribute 8.5% of their salary to the Plan, subject to salary limitations for Tier 2 participants in Article 5/1-160. If an employee leaves covered employment without qualifying for an annuity, accumulated contributions are refunded with interest (3% or 4% depending on when the employee became a participant). The Forest Preserve District total contribution is the amount of contributions made by the employees to the Plan in the calendar year two years prior to the year for which annual applicable tax is levied, multiplied by 1.30. The source of funds for the District's contributions has been designated by State Statute as the Forest Preserve

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

District's annual property tax levy. The District's payroll for employees covered by the Plan for the year ended December 31, 2020 was \$35,159,979.

Net Pension Liability

The net pension liability measured as of December 31, 2020, and the total pension liability used to calculate the net pension liability was determined by actuarial valuation performed as of that date.

Changes in the Net Pension Liability

	Increase (Decrease)		
	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability (a) - (b)
Balances at beginning of year	\$ 496,379,240	\$ 211,687,354	\$ 284,691,886
Service cost	11,099,720	-	11,099,720
Interest on total pension liability	18,774,499	-	18,774,499
Differences between expected and actual experience of the total pension liability	(2,400,863)	-	(2,400,863)
Changes of assumptions	41,724,080	-	41,724,080
Benefit payments, including refunds of employee contributions	(19,140,336)	(19,140,336)	-
Contributions - employer	-	3,291,529	(3,291,529)
Contributions - employee	-	3,192,954	(3,192,954)
Net investment income	-	21,851,955	(21,851,955)
Administrative expense	-	(158,367)	158,367
Other (net transfer)	-	714,659	(714,659)
Balances at end of year	\$ 546,436,340	\$ 221,439,748	\$ 324,996,592

Discount Rate

The discount rate used to measure the total pension liability for the Plan was 3.22%. The projection of cash flows used to determine the discount rate assumed that the employer's contributions will continue to follow the current funding policy. Based on this assumption, the Plan's fiduciary net position was projected to be insufficient to make all projected future benefit payments of current plan members. A municipal bond rate of 2.12% and 2.75% at December 31, 2020 and 2019, respectively, and the long-term investment rate of return of 7.25% at December 31, 2020 and 2019 were used in the development of the blended discount rate after that point. The municipal bond rates are based on the S&P Municipal Bond 20 Year High Grade Rate Index as of December 31, 2020. Based on the long-term investment rate of return of 7.25% and the municipal bond rate of 2.12%, the blended discount rate would be 3.22%.

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

Discount Rate Sensitivity

The following is an analysis of the net pension liability's sensitivity to changes in the discount rate at December 31, 2020. The following table presents the pension liability of the employer using the blended discount rate of 3.22% as well as the employer's net pension liability calculated using a discount rate that is 1 percentage point lower (2.22 %) or 1 percentage point higher (4.22 %) than the current rate:

	1% Decrease (2.22%)	Current Discount Rate (3.22%)	1% Increase (4.22%)
District's net pension liability	\$ 415,577,011	\$ 324,996,592	\$ 252,686,640

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended December 31, 2020, the District recognized pension expense of \$53,317,874. The District reported deferred outflows and inflows of resources related to the pension from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ -	\$ 1,379,455
Changes of assumptions	31,470,522	-
Net difference between projected and actual earnings on pension plan investments	-	11,732,600
	\$ 31,470,522	\$ 13,112,055

The amounts reported as deferred outflows and inflows of resources to pensions \$18,358,467 will be recognized in pension expense as follows:

Year Ending December 31	Amount
2021	\$ 21,731,319
2022	3,459,403
2023	(5,445,142)
2024	(1,387,113)
Total	\$ 18,358,467

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

Actuarial Assumptions

The total pension liability was determined by an actuarial valuation performed as of December 31, 2020 using the entry age normal actuarial methods and the following assumptions:

Inflation	2.75% per year, compounded annually
Salary increases	3.50% to 8.00%, based on age
Investment rate of return	7.25% per year, compounded annually
Retirement age	Rates of retirement for each age from 50 to 80 based on recent experience of the Plan, where all employees are assumed to retire by age 80
Mortality	RP-2014 Blue Collar Mortality Table, base year 2006, Buck Modified MP-2017 projection scale
Postretirement annuity increases	Tier 1 participants - 3.00% compounded annually Tier 2 participants - the lesser of 3.00% or one half of the increase in the Consumer price index

The discount rate was based on S&P Municipal Bond 20 Year High Grade Rate Index. Bond Rate as of December 31, 2020.

Mortality rates were based on the RP-2014 Study, with rates improved generationally using the Buck Modified 2017 projection scale.

The actuarial assumptions used in the December 31, 2020 valuation were based on the results of an actuarial experience study conducted by Buck (Formerly Conduent, Inc.) over the period 2013 through 2016.

F. Other Postemployment Benefits (OPEB)

Plan Description

The Forest Preserve District Employees' Annuity and Benefit Fund of Cook County ("Plan") administers the Postemployment Group Health Benefit Plan ("PGHBP"), a single-employer defined benefit postemployment healthcare plan. PGHBP provides a healthcare premium subsidy to annuitants who elect to participate in the PGHBP. The Plan is currently allowed, in accordance with state statute, to pay all or a portion of medical insurance premiums for the annuitants. Under state law, the PGHBP is embedded in the Plan rather than being a separate plan. The Plan subsidizes 55% and 70% of the monthly premiums from employees and spouse annuitants, respectively.

The Plan funds the PGHBP on a "pay as you go" basis. Administrative costs associated with the PGHBP are paid by the Plan.

The separately issued financial statements of the Retiree Health Plan, included in the Forest Preserve District Employees' Annuity and Benefit Fund of Cook County, may be obtained from the District at 69 West Washington Street, Suite 2060, Chicago, Illinois 60602. The Plan considers

**COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021**

the premium supplement an additional retirement benefit, with no contribution rate or asset allocation associated with it. The cost for postemployment healthcare benefits is approximately equal to the premium subsidy. Actual cost may differ based on claims experience. Healthcare premium subsidies are recognized when due and payable.

Employees Covered By Benefit Terms.

At December 31, 2020, the following employees were covered by the benefit terms:

Inactive plan members or beneficiaries currently receiving benefit payments	395
Active plan members	<u>521</u>
Total	<u>916</u>

Total OPEB Liability

The District reported a liability for its total OPEB liability measured as of December 31, 2020 and determined by an actuarial valuation as of December 31, 2020.

Actuarial Assumptions And Other Inputs

The total OPEB liability in the December 31, 2020 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.75%
Salary increases	3.50% to 8.00%, based on age
Healthcare participation rate	Currently participating - 40%; Currently waiving - 0%
Healthcare cost trend rates	Initial – 7.00%; Ultimate – 4.75%

The discount rate was based on S&P Municipal Bond 20-Year High Grade Rate Index. Bond Rate as of December 31, 2020.

Mortality rates were based on the RP-2014 Study, with rates improved generationally using the Buck Modified 2017 projection scale.

The actuarial assumptions used in the December 31, 2020 valuation were based on the results of an actuarial experience study conducted by the independent actuary over the period 2013 through 2016.

Discount Rate

At December 31, 2020, the discount rate used to measure the total OPEB liability was a blended rate of 2.12%, which was a change from the December 31, 2019 rate of 2.75%. Since the plan is

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

financed on a pay-as-you-go basis, the discount rate is based on the S&P Municipal Bond 20-year High Grade Rate index.

Changes in the total OPEB liability

	Amount
Balances at December 31, 2019	\$ 43,728,394
Service cost	1,903,291
Interest	1,245,850
Benefit changes	(1,816,766)
Difference between expected and actual experience	(66,097)
Changes in assumptions or other inputs	4,866,962
Benefit payments	(660,611)
Balances at December 31, 2020	\$ 49,201,023

Sensitivity of the Total OPEB Liability to Changes in the Discount Rate

The following presents the total OPEB, as well as what the total OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (1.12%) or 1-percentage-point higher (3.12%) than the current discount rate:

	1% Decrease (1.12%)	Discount Rate (2.12%)	1% Increase (3.12%)
Total OPEB liability	\$ 58,647,639	\$ 49,201,023	\$ 41,797,795

Sensitivity of the Total OPEB Liability to Changes in the Healthcare Cost Trend Rates

The following presents the total OPEB liability, as well as what the total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rates:

	1% Decrease	Healthcare Cost Trend Rates	1% Increase
Total OPEB liability	\$ 40,900,068	\$ 49,201,023	\$ 60,272,801

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

OPEB expense and deferred outflows of resources and deferred inflows of resources related to OPEB.

For the year ended December 31, 2020, the District recognized OPEB expense of \$1,488,566. At December 31, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ -	\$ 1,623,418
Changes of assumptions	<u>10,195,025</u>	<u>4,749,189</u>
Total	<u>\$ 10,195,025</u>	<u>\$ 6,372,607</u>

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

<u>Year Ended December 31,</u>	<u>Amount</u>
2021	\$ 156,191
2022	156,191
2023	342,637
2024	1,133,992
2025	1,544,694
Thereafter	<u>488,713</u>
Total	<u>\$ 3,822,418</u>

IX. Tax Abatements

Tax abatements are a reduction in tax revenues that results from an agreement between one or more governments and an individual or entity in which (a) one or more governments promise to forgo tax revenues to which they are otherwise entitled and (b) the individual or entity promises to take a specific action after the agreement has been entered into that contributes to economic development or otherwise benefits the governments or the citizens of those governments.

Cook County provides tax reductions under numerous programs with individuals, local businesses, and developers. The objective of the agreements is to encourage the development and rehabilitation of new and existing industrial and commercial property, encourage industrial and commercial development in areas of severe economic stagnation, and increase multi-family residential affordable rental housing throughout Cook County by offering a real estate tax incentive. An eligibility application must be filed prior to commencement of a project and include a resolution from the municipality where the real estate is located. Once the project has been completed, the applicant must file an Incentive Appeal Form with the County Assessor's Office. Upon approval by the County Assessor's Office and based on the property classification, the applicant is eligible to receive one of the following tax incentives:

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

- Property will be assessed at 10% of market value for the first 10 years, 15% in the 11th year and 20% in the 12th year.
- Property will be assessed at 10% of market value for the first 3 years, 15% in the 4th year and 20% in the 5th year.
- Property will be assessed at 10% of the market value for ten years from the date of completion of major rehabilitation.

In the absence of the incentive, the property tax would be assessed at 25% of its market value. This incentive constitutes a substantial reduction in the level of assessment and results in significant tax savings for eligible applicants. For FY 2021, the amount of property tax revenue forgone by the County due to these incentives is estimated at \$16.8 million. Of this amount, \$9.9 million was for the purpose of development and rehabilitation of new and existing industrial property, \$3.3 million was for the purpose of development and rehabilitation of commercial property, \$1.3 million was for the purpose of industrial and commercial development in areas of severe economic stagnation, and \$2.3 million was for the purpose of increasing multi-family residential affordable rental housing.

X. Implementation of Accounting Standard

The County’s financial statements have been restated as of December 1, 2020 as a result of the implementation of GASB Statement No. 84, *Fiduciary Activities* (GASB 84), which requires fiduciary activities to be evaluated and reported based on new guidance. Under GASB 84, the County’s funds previously reported as agency fund types under pre-GASB 84 guidance are now reported as custodial funds, private purpose trust funds, or have been incorporated into the General Fund. The County restated beginning net position/fund balance as a result of implementation of GASB 84 as follows:

	Governmental Activities	General Fund	Custodial Funds	Private Purpose Trust Funds
Fund balance/Net position December 1, 2020				
As previously reported	\$ (10,755,829,588)	\$ 593,129,813	\$ -	\$ -
Amount resulting from implementation of GASB 84	16,747,036	16,747,036	185,260,698	65,170,112
As restated	<u>(10,739,082,552)</u>	<u>609,876,849</u>	<u>185,260,698</u>	<u>65,170,112</u>

XI. Subsequent Events

A. Extension of Taxable Line of Credit

On February 25, 2022, the County extended a Revolving Credit Agreement with BMO Harris Bank, NA to February 25, 2025. The note is authorized to be issued in the aggregate principal amount at any time of not to exceed \$100 million to provide funds for the punctual payment of expenses incurred by the County for its corporate purposes.

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

B. Extension of Purchase and Continuing Covenants Agreement related to the General Obligation Variable Rate Refunding Bonds, Series 2012A

On March 1, 2022, the County extended the direct purchase agreement with JP Morgan Chase Bank, NA. from March 1, 2022 to November 1, 2028.

C. Planned Issuance Private Activity Bonds

At the April 25, 2019 meeting of the County's Board of Commissioners, an ordinance was introduced to provide for the issuance of not more than \$14,000,000 of private activity bonds. The Multifamily Housing Revenue Bonds (Plum Creek of Markham SLF Project), Series 2019 will fund a portion of the construction of an affordable supportive housing facility in the County. The ordinance was approved at the May 23, 2019 meeting of the Board of Commissioners. The closing is expected in 2022.

D. Additional Pension Contribution

The County Board authorized a sum of \$345.0 million in the County's FY 2022 Appropriation Bill for an additional pension contribution payment; for which the first six disbursements were made through May 31, 2022, for a sum of \$156.0 million.

E. Revolving Line of Credit – Series 2014D and 2018

On May 6, 2022, the County executed a draw of \$52,620,00 on the Series 2014D portion of the revolving line of credit with PNC Bank for the purpose of financing capital projects. On May 6, 2022, the County executed a draw of \$18,035,000 on the Series 2018 portion of the revolving line of credit with PNC Bank for the purpose of financing capital projects.

F. Property Tax Delay

The County's second installment of property tax bills are expected to be issued up to six (6) months later than usual. This delay can be attributed primarily to the following: (1) ongoing efforts to modernization technology within the various Cook County Property Tax agencies; (2) personnel shortages and turnover attributable to the COVID-19 pandemic; and (3) the complicated nature of the reassessment of property taxes in the City of Chicago, Illinois. The payment for the 2021 Second Installment of the County's property taxes will be due 30 days after the issuance of the tax bills. The full impact of the delay in issuing the tax bills for the 2021 Second Installment on the County's Corporate Fund is not measurable at this time. However, based on certain preliminary estimates and assumptions regarding the collection of the property taxes and the availability of certain other funds, the County anticipates that it will continue to: (a) timely make its debt service payments and (b) fund its operations. The delay of the second installment of the property tax bills is going to create potential cash shortfalls for local taxing jurisdictions within Cook County.

COOK COUNTY, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
November 30, 2021

G. US Supreme Court Case Cook vs Road Builders Union (Pending on States' Attorney's response)

On April 21, 2022, the Illinois Supreme Court held in the case of Illinois Road and Transportation Builders Assn, et al. v. County of Cook, 2022 IL 127126, that a 2016 state constitutional amendment known as the "Safe Roads Amendment" applies to revenues generated through the acts of home rule units of local government like Cook County. The Amendment requires proceeds from transportation-related bond proceeds, taxes, fees, excises, and license taxes to be used for transportation-related purposes. The decision reversed the Cook County Circuit Court's dismissal of the complaint, which had been affirmed by the Illinois Appellate Court, and remanded the case for further proceedings. Plaintiffs' complaint alleges that, since the amendment was passed in 2016, Cook County has improperly "diverted" revenues from the Cook County Home Rule County Use Tax, Cook County Retail Sale of Gasoline and Diesel Fuel Tax, Cook County New Motor Vehicle and Trailer Excise Tax, Cook County Home Rule Use Tax for Non-Retailer Transfers of Motor Vehicles, Cook County Wheel Tax, and the Cook County Parking Lot and Garage Operations Tax for non-transportation purposes. The true fiscal impact of the Amendment is not yet known, as litigation continues over the Amendment's scope.

Net Total OPEB liability as a percentage of covered-payroll	134.02%	97.30%	118.56%

Notes to Schedule:
Changes of Benefits -

The 2020 subsidy for member health benefits was changed from 34% to 33% for annuitants in the Choice Plus Plan Medicare.
The 2020 subsidy for survivor health benefits was changed from 48% to 38% for survivors in the Choice Plan Medicare, and from 44% to 38% for survivors in the Choice Plus Plan Medicare.
The 2020 subsidy for survivor health benefits was changed from 58% to 52% for survivors in the Choice Plan non-Medicare, and from 53% to 48% for survivors in the Choice Plus Plan non-Medicare.

Changes of Assumptions -

The discount rate used changed from 2.75% in FY2020 to 2.12% in FY2021.
The Mortality tables used in FY 2021 remained the same as FY 2020, RP-2014 Blue Collar.
Generational mortality improvement factors were also added (0.75% ultimate improvement rate) in FY 2018.
The percentage of active employees who elect medical coverage upon retirement remained at 65%.
The percentage of those retirees who elect spouse coverage remained at 35%.
The percentage of vested terminated participants who elect medical coverage upon retirement remained at 40%.
The age at which vested terminated employees retire and elect medical coverage remained at age 61, from an assumption that varied by age.
The per capita plan costs were updated to reflect the most recent year of claims experience and working premium rates were updated for 2021.
Future retirees are assumed to elect among the plan choices in the same proportion as employees who retired during the last year. This election percentage was updated to reflect current retiree experience.
The estimate of the High-Cost Plan Excise Tax was updated based on the 2021 working premium rates.
Projected salary increases in FY 21 remained the same as in FY 20, 3.50%-8.00%.
Healthcare Cost Trend Rate changed to 7.00% in FY 2021 and grading down to 4.75% through 2030.
The inflation rate in FY2021 remained at 2.75%.

The County implemented the provisions of GASB 75 in FY2018. The County has presented as many years as is available.

COOK COUNTY, ILLINOIS

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

November 30, 2021

I. Budgetary Basis of Accounting

The accompanying Schedules of Revenues, Expenditures and Encumbrances – Budget and Actual have been prepared on a legally prescribed budgetary basis of accounting that differs from GAAP. The significant differences in accounting practices between the operating statements presented under GAAP and the budgetary operating statements include:

- Property tax levies are recognized as revenue in the budgetary statements in the year they are earned (levied). The operating statements prepared under GAAP recognize property tax levies as revenue when they are earned and available (collected during the period or within 60 days after year-end).
- Expenditures related to specific property tax levies (i.e. pension obligation, principal and interest on general obligation bonds, rental obligations, and allowances for uncollectible taxes) are recognized in the budgetary statements in the year the taxes are levied. The GAAP operating statements recognize these expenditures when the related liability is incurred with the exception of principal and interest on general long-term debt, which is recognized when due.
- Encumbrances are combined with expenditures in the budgetary statements but are excluded in the GAAP operating statements.
- Revenue other than property taxes is recognized when received in the monthly budgetary statements (cash basis), while the GAAP operating statements recognize these items when measurable and available for financing current obligations (modified accrual).

The following schedule provides a reconciliation of the change in fund balance on the budgetary basis to the change in fund balance on a GAAP basis for the General Fund and budgeted major special revenue funds:

	<u>General Fund</u>	<u>Annuity & Benefit Fund</u>	<u>Motor Fuel Tax Fund</u>
Change in fund balances - GAAP basis from Exhibit 5	\$ 259,188,302	\$ -	\$ 94,449,684
Effect of deferring 2020 property tax levy	20,299,923	16,800,497	-
Effect of accruing certain revenue	(47,415,516)	(15,198,000)	(2,719,056)
Effect of not including encumbrances as expenditures	(248,858,196)	(79,482,678)	586,589
Effect of excluding unbudgeted transfers	<u>134,022,377</u>	<u>77,880,181</u>	<u>-</u>
Revenues and other financing sources over expenditures and encumbrances and other financing uses - budgetary basis from Budget and Actuals, respectively	<u>\$ 117,236,890</u>	<u>\$ -</u>	<u>\$ 92,317,217</u>

The expenditures in the Annuity and Benefit Fund exceeded budget by \$1,915 for the year ended November 30, 2021.

GENERAL FUND

COOK COUNTY, ILLINOIS

MAJOR GOVERNMENTAL FUND

GENERAL FUND

The General Fund of the County consists of four accounts: the Corporate Account, the Public Safety Account, the Self Insurance Account and the Equity and Inclusion Fund. They are the general operating accounts of the County. The accounts are used for all financial resources except those accounted for in another fund.

The Corporate Account includes the expenditures of such departments as the County Assessor, the County Treasurer, the County Clerk, the Recorder of Deeds, the County Highway Department, the Payroll Deduction and Flexible Spending Accounts. Revenues for this account are derived from the property tax levy, non-property taxes, interest earned on investments, departmental fees, reimbursements from other governments and other miscellaneous sources.

The Public Safety Account consists of the expenditures of the County's criminal justice system: jails, courts, and related programs. County Departments included are the Corrections, State's Attorney, Public Defender, Adult Probation, Juvenile Division of the Judicial Administration, and the Juvenile Temporary Detention Center. Revenues supporting this account are obtained from the property tax levy, home-rule taxes (County Sales Tax), departmental fees, interest earned on investments, reimbursements from other governments and other miscellaneous sources.

The Self Insurance Account for the County accounts for self-insurance risks for employee health claims and various County risks, including medical malpractice, workers' compensation, general, automobile and other liabilities including the liabilities of the Cook County Health and Hospitals System (CCH). The County funds its self-insurance liabilities, including those of the CCH, on a current basis and has the authority to finance such liabilities through the levy of property taxes.

The Equity and Inclusion Fund was created to address historical disparities and disinvestment in Black and Latinx communities as well as other communities that are marginalized or have experienced other social and economic disparities. Revenues are derived from seeded investments from CCH, Bureau of Economic Development and Justice Advisory Council.

NONMAJOR GOVERNMENTAL FUNDS

COOK COUNTY, ILLINOIS

NONMAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS

The Geographical Information Systems Fund was established to account for equipment, materials, and necessary expenditures incurred in implementing and maintaining this new project. The fund's revenues are derived from fees, and interest earned on investments.

The Motor Fuel Tax Illinois First (1st) Fund was established to coordinate planning for road infrastructure improvements with the State of Illinois and Federal Government. Revenues are derived mainly from state motor fuel taxes and interest earned on investments.

The Township Roads Fund was established to provide for construction and maintenance of streets, roads and highways. Revenues are derived from non-property taxes, and interest earned on investments.

The Election Fund was established to pay for the costs of elections under the jurisdiction of the County Clerk. The fund's revenues are derived from property taxes levied for this purpose, and interest earned on investments.

The County Law Library Fund was established to provide for organized book collections, bibliographical and reference services to lawyers and judges and general law library services to the public. Revenues are derived from fees received from users of library resources.

The Animal Control Fund was established to control and prevent the spread of rabies. Revenues are derived from fees charged for animal licenses and tags, and interest earned on investments.

The County Recorder Document Storage System Fund was established to pay for the expenditures involved in starting and maintaining a document storage system. Revenues are received from fees for such services as record retrieving.

The County Clerk Automation Fund was started to upgrade and establish computerized files for voter registration and election judges. Revenues are derived from fees and license charges for record retrieving.

The Circuit Court Document Storage Fund was started to assist in the preparation of documents to be microfilmed or microfiched, and also to perform the actual filming at times. Revenues are derived from fees for services such as retrieving, updating, and refilling and transporting record orders.

The Circuit Court Automation Fund was established to actively participate in the selection, acquisition, installation and maintenance of all computer hardware, system analysis and design, programming, system implementation, documentation and maintenance of all computer programs. Revenues are derived from fees from users for such items as reports and statistical data.

The Circuit Court Illinois Dispute Resolution Fund was established to support activities to mediate disputes in an attempt to relieve the court system of lengthy lawsuits. Revenues are obtained from fees charged to the disputing parties and other principals and interest earned on investments.

The Cook County Emergency Telephone System Fund was established to provide the public with detailed information on all inmates held at Cook County Jail. Revenues are derived from fees.

The Adult Probation Services Fee Fund was established to supervise people convicted of criminal and civil offenses. Revenues are derived mainly from fees charged to individuals on probation and interest earned on investments.

The Social Services Probation Fund was established to provide social service casework expertise for probation and court service cases. Revenues are derived mainly from fees and interest earned on investments.

The County Treasurer Tax Sales Automation Fund was established to pay for the expenditures required to start and maintain a computerized system to conduct delinquent property tax sales. Revenues are derived mainly from fees and interest earned on investments.

The Lead Poisoning Prevention Fund was established to begin programs to prevent lead poisoning in Cook County. Revenues are derived from fees charged and interest earned on investments.

The State's Attorney Narcotics Forfeiture Fund was established to work with State, City and County Agencies on various drug related cases. Revenues are derived through monies forfeited through narcotics investigations.

The Suburban Tuberculosis Sanitarium District Fund was established to account for monies committed for the prevention, care, treatment and control of tuberculosis within the suburban Cook County area. All assets and liabilities were transferred to the Cook County Board July 24, 2007 per Public Act 094-1050 by the State of Illinois. Revenues are derived from rentals and interest earned on investments.

The Clerk of the Circuit Court Administrative Fund was established to account for all monies per Illinois Statute to create a Circuit Court Operation and Administrative Fund, to be used to offset the costs incurred by the Circuit Court Clerk in performing additional duties required to collect and disburse funds to entities of State and Local Government as provided by law. Revenues are derived from fees.

The Geographical Information System (GIS) Fee Fund was created solely to be used for the equipment, personnel, materials, and necessary expenditures incurred in implementing and maintaining an enterprise Cook County geographical information system. The fund is administered by the Cook County Bureau of Technology. Policy and priority are determined by the multi-agency Land Information Committee consisting of all the land based agencies within Cook County.

The County Clerk Rental Housing Support Fee Fund was established to assist property owners with maintaining ownership of their properties by offering early warning notification to property owners whenever documents are filed that may affect ownership. Revenues consist mainly of fees and interest earned on investments.

The Chief Judge Children's Waiting Room Fund was created for the collection and disbursement of fees to finance various court services. Revenues are derived from fees generated from Chapter 18, Section 18-41 and interest earned on investments. They are credited to this fund to operate and administer the children's waiting rooms in Cook County.

The Assessors Special Revenue Fund was established to collect fees from marketing previously unutilized commercial opportunities related to, but not limited to, the Assessor's Website, Assessor's Database, and Assessment Notices. These fees and interest earned on investments shall be placed in such special fund for the Assessor to be held by the Treasurer of the County.

The Sheriff Women's Justice Service Fund is utilized for purposes related to the operation of rehabilitation programs including mental health and substance abuse services. Revenues are provided mainly by fees and interest earned on investments.

The Vehicle Purchase Fund was created for the collection of fees from individuals who violate the Illinois Vehicle code or any similar ordinance. This is in compliance with Illinois General Assembly Act 625ILCS 5/16-104C. The fees shall be disbursed to the law enforcement agency and used for the acquisition and/or maintenance of police vehicles.

The Circuit Court Electronic Citation Fund is used to defray expenditures incurred by the office in performing its required duties of establishing and maintaining electronic citations in any traffic, misdemeanor, municipal ordinance, or conservation case upon a judgment of guilty or grant of supervision. Revenues are derived from fees and interest earned on investments.

The State's Attorney Records Automation Fund was created for the collection of fees that shall be remitted monthly by such clerk to the county treasurer, to be retained by the Treasurer in a special fund designated as the court automation fund. The fund shall be audited by the county auditor and the board shall make expenditure from the fund in payments of any cost related to the automation of court records, including hardware, software, research, and development costs and personnel-related thereto, provided that the expenditure is approved by the clerk of the court and by the chief judge of the circuit court or his designate.

The Public Defender Records Automation Fund was created for the collection of fees that shall be remitted monthly by such clerk to the county treasurer, to be retained by the Treasurer in a special fund designated as the court automation fund. The fund shall be audited by the county auditor, and the board shall make expenditure from the fund in payment of any cost related to the automation of court records, including hardware, software, research and development costs and personnel-related thereto, provided that the expenditure is approved by the clerk of the court and by the chief judge of the circuit court or his designate.

The Environmental Control Solid Waste Management Fund was created to include, but not limited to, consulting fees; long-term monitoring and maintenance of air pollution emitting sites; proper management of Cook County waste streams; environmental initiative planning, implementation, inspection, and enforcement; operational expenses for personnel and equipment procurement; and other activities consistent with activities of the Cook County Environmental Control Ordinance. Revenues are derived from fees and interest earned on investments.

The Land Bank Authority Fund will use available resources to facilitate the return of vacant, abandoned and tax-delinquent properties to productive use thereby combating community deterioration, creating economic growth and stabilizing the housing and job market. The County Board establishes the Cook County Land Bank Authority which shall be an agency of and funded by Cook County. Revenues are derived from State and miscellaneous sources.

The HUD Section 108 Loan Program Fund was created to account for the Cook County BUILT IN COOK (HUD Section 108 Loan Guarantee Program). Funds are awarded to eligible public, private or non-profit entities to aid in the retention and creation of new jobs within Suburban Cook County. These funds are awarded as loans with terms negotiated on a per-project basis. Revenues are mainly program income related to the loans and expenditures related to principal and interest payments to HUD.

The Erroneous Homestead Exemption Fund was created to account for the Erroneous Homestead Exemption program. The purpose of the program is to end abuse of existing erroneous homestead exemptions, stop future abuse of homestead exemptions, and recoup lost tax district revenue. Revenues are derived from fees received related to this program.

The Sheriff Pharmaceutical Disposal Fund was created to account for the registration fees in accordance with the Cook County Safe Disposal of Pharmaceuticals Ordinance. The purpose of the program is to collect, transport, and dispose of unwanted covered drugs. Revenues are derived from fees received related to this program.

The Public, Educational and Governmental (PEG) Access Support Fund was created to account for fees received for cable or video service in unincorporated Cook County. Revenues are derived from fees received related to this program.

The Assessor Geographic Information System (GIS) Fee Fund was created to account for fees received by other County offices for providing GIS data. Revenue will be generated by Assessor's Website, Database and Assessment Notices. Revenues are derived from fees received related to this program.

The Sheriff Money Laundering State Asset Forfeiture Fund was created to account for the sale proceeds of all property forfeited and seized for conducting or participating in money laundering investigations resulting in forfeiture. Revenues are derived from fees received related to this program.

The Sheriff Operations State Asset Forfeiture Fund was created to account for the sale proceeds of all property forfeited and seized for conducting or participating in drug and controlled substance investigations resulting in forfeiture. Revenues are derived from fees received related to this program.

The Mortgage Foreclosure Mediation Fund was created for people facing foreclosure. The mediation program will provide homeowners who are behind on their monthly payments and facing foreclosure with access to face to face sessions with lenders as well as professionally trained mediators. Revenues are derived from fees received related to this program.

The Medical Examiner Fund collects fees related to the provision of services such as cremation permit fees and various postmortem reports. Revenues are derived from fees and interest earned on investments.

The Other Nonbudgeted Special Revenue Funds consist of miscellaneous funds established to account for all monies designated for use by programs within these funds. The programs are administered by the County, but are not included in the County's Annual Appropriation bill (Budget). The funds are categorized as nonbudgeted because they tend to be temporary in nature. Revenues are derived from Federal, State, private sources, interest earned on investments, and other taxes.

Generally all interest earned and miscellaneous revenue is restricted or committed to the specific activity reported in each fund.

CAPITAL PROJECTS FUND

The Capital Projects Fund is used to account for the acquisition, construction and renovation of major capital facilities of the County. The Capital Projects Fund includes the following accounts: government management and supporting services, protection of health, courts, corrections, capital outlay and debt service.

STATISTICAL SECTION

**COOK COUNTY, ILLINOIS
STATISTICAL SECTION (UNAUDITED)
For the Year Ended November 30, 2021**

The information in this section is not covered by the Independent Auditor's Report, but is presented as supplemental data for the benefit of the readers of the comprehensive annual financial report. The objectives of statistical section information are to provide financial statement users with additional historical perspective, context, and detail to assist in using the information in the financial statements, notes to financial statements, and required supplementary information to better understand and assess the County's overall financial health.

Contents	Page
Financial Trends	
These schedules contain trend information to help the reader understand how the County's financial performance and well-being have changed over time.	236 - 243
Revenue Capacity	
These schedules present information to help the reader assess the County's most significant local revenue source, the property tax.	244 - 250
Debt Capacity	
These schedules present information to help the reader assess the affordability of the County's current levels of outstanding debt and the County's ability to issue additional debt in the future.	251 - 256
Demographic and Economic Information	
The schedules offer demographic and economic indicators to help the reader understand the environment within which the County's financial activities take place.	257 - 258
Operating Information	
These schedules contain service and infrastructure data to help the reader understand how the information in the County's financial report relates to the services the County provides and the activities it performs.	259 - 270

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

Notes:

- (1) Accounting standards require that net position be reported in three components in the financial statements: net investment in capital assets; restricted; and unrestricted. Net assets are considered restricted when (a) an external party, such as the state or federal government, places a restriction on how the resources may be used, or (b) enabling legislation is enacted by the County, such as bond covenants.
- (2) 2012 Net Position for the primary government includes a decrease in "Net investment in capital assets" and an increase in "Unrestricted" deficit of \$915,431,089.
- (3) 2013 Net Position for the primary government includes a decrease in "Net investment in capital assets" and an increase in "Unrestricted" deficit of \$397,439,170.

Note:

(1) Net (expense) / revenue is the difference between the expenses and program revenues of a function or program. It indicates the degree to which a function or program is supported with its own fee and program-specific grants versus its reliance upon funding from taxes and other general revenues. Numbers in parentheses indicate that expenses were greater than program revenues and therefore general revenues were needed to finance that function or program. Numbers without parentheses mean that program revenues were more than sufficient to cover expenses.

Notes:

- (1) Data Source: FY20 Annual Performance Measure Data Report-CCH. Obtained from Bureau of Administration
- (2) Obtained from Department of Corrections
- (3) Average length of stay is calculated from various levels of care by dividing the total days for each level by the number of discharges and averaging the result.
- (4) Oak Forest Hospital was downgraded by the State of Illinois in 2011 and now serves as a clinic called Oak Forest Health Center. The statistics for the procedures performed category are captured in the Stroger Hospitals procedures performed category.

Unavailable data refers to data that fit one or more of the following criteria: (a) data are no longer being collected for that indicator due to a change in metrics; (b) the Performance Management Office has not yet received comparable data from the relevant department; or (c) data are only available for part of not the entire year.

APPENDIX B
County Employees' and Officers' Annuity and Benefit Fund of Cook County

[THIS PAGE INTENTIONALLY LEFT BLANK]

APPENDIX B

COUNTY EMPLOYEES' AND OFFICERS' ANNUITY AND BENEFIT FUND OF COOK COUNTY

The County Employees' and Officers' Annuity and Benefit Fund of Cook County (the "Retirement Fund") is established, administered and financed under the Illinois Pension Code, specifically Articles 1, 1A, 9 and 22 therein (the "Pension Code") (40 ILCS 5). The Retirement Fund is a separate body politic and corporate, distinct and apart from the County, established for the benefit of the eligible employees of the County and their beneficiaries. The Retirement Fund provides retirement, survivor, death, health and disability benefits for certain eligible employees of the County and eligible employees of the Retirement Fund, as set forth in the Pension Code. Unless otherwise stated, all references to "employee," "member," or "retiree" in this APPENDIX B of the Official Statement are references to both the County employees and retirees and the Retirement Fund employees and retirees participating in the Retirement Fund.

Section 5 of Article XIII of the Illinois Constitution provides that "membership in any pension retirement system of the State, any unit of local government or school district, or any agency or instrumentality thereof, shall be an enforceable contractual relationship, the benefits of which shall not be diminished or impaired."

This APPENDIX B of the Official Statement describes, in part, the current provisions of the Pension Code applicable to the County's funding of the Retirement Fund. The provisions of the Pension Code may be amended only by the State of Illinois, acting through its legislature (the "General Assembly"). No assurance can be made that the statutory provisions governing the Retirement Fund, as described in this APPENDIX B of the Official Statement, will not be amended in the future by the General Assembly.

The Retirement Fund's primary sources of funding come from the County property tax levy; receipts from sums disbursed to the County from the State Personal Property Tax Replacement Fund; contributions made by active County employees; investment income generated by the Retirement Fund's assets; and, since 2016, receipts from Cook County sales taxes. The amount of benefits paid to retirees and beneficiaries under the Retirement Fund, the County contribution and employee contribution levels and other aspects of the Retirement Fund are established in the Pension Code. The statutory County contribution and the employee contribution determined pursuant to statutory formulas do not necessarily correlate to the Actuarially Required Contribution (as defined below) as determined by an independent Actuary (as defined under "Source of Information" below) engaged by the Retirement Fund. Under current law, the level of statutory contributions is affected only by a change in current payroll with respect to active Retirement Plan members, as described in "Determination of County's Contribution" below. The Pension Code has no mechanism for adjusting the funding to reflect any changes in benefits, assets or demographics.

The Unfunded Actuarial Accrued Liability of the Retirement Fund reported in the 2021 Actuarial Valuation Report (as described under "Source of Information") is \$6.27 billion, which shows a decrease from approximately \$6.66 billion for the fiscal year ended December 31, 2020, resulting in a Funded Ratio (as defined under "Actuarial Valuation" — "Actuaries and the Actuarial Process") of 67.16% (which is an increase from 63.87% in 2020), determined on an actuarial basis. This actuarial liability was calculated to include both the pension obligations and the optional OPEB, as defined below. Based on the 2021 Actuarial Valuation Report (as defined under "Source of Information" below), under current Illinois statutes, the Funded Ratio is projected to decline in future years. These projections are prepared by the Retirement Fund's Actuary based on a variety of factors and assumptions that may be more or less favorable than the actual experience. These assumptions are based on the results of an Experience Study done by the Actuary for the years from January 1, 2017 through December 31, 2020. The actual funding levels of the Retirement

Fund in future years may differ from the Actuary's projections. The County was not involved in the actuarial process and is making no representation as to the accuracy or validity of the actuarial projections made by the Retirement Fund's Actuary.

According to the comprehensive annual financial report of the Retirement Fund for the fiscal years ended December 31, 2020 (the "2020 Retirement Fund CAFR"), the Retirement Fund Board (as defined below) that governs the Retirement Fund and the Retirement Fund's staff continue to allocate resources in an effort to address the funding of the Retirement Fund. County officials are likewise investigating strategies to enhance the vitality of the Retirement Fund. As part of its efforts to promote the long-term fiscal viability of the Retirement Fund, the County entered into an Intergovernmental Agreement (as defined under "Determination of County's Contribution" — "Intergovernmental Agreements between the County and Retirement Fund" below) with the Retirement Fund Board (as defined below), under which the County made total supplemental contributions to the Retirement Fund of \$339,961,760 in 2021, \$309,214,508 in 2020, and \$320,296,720 in 2019, \$378,436,000 in 2018, \$353,800,000 in 2017 and \$270,526,000 in 2016¹. On December 27, 2021, the County entered into a one-year Intergovernmental Agreement with the Retirement Fund, under which, in Fiscal Year 2022, the County committed to making supplemental contributions to the Retirement Fund in the sum of \$324,200,000 which the County would begin as of December 2021. As of the date of this Official Statement, no party has challenged the validity of the Intergovernmental Agreements or the related disbursement of an additional contribution to the Retirement Fund. No assurances can be given that the County will have the ability to enter into similar agreements in the future or that the Intergovernmental Agreements or any future agreements and the funds disbursed by the County to the Retirement Fund in 2021, 2022, 2023 or any subsequent years would survive legal challenges as to their validity under Illinois statutes. The funding mechanism for the Retirement Fund is set forth in the Pension Code and changes to these statutory funding provisions will be accomplished only through legislative action by the General Assembly.

The Retirement Fund administers post-employment group health benefits, through which it provides an optional healthcare premium subsidy to annuitants who elect to participate in its group health plan. Under Illinois State statutes, the Retirement Fund is not obligated to pay a portion of the healthcare insurance premiums for the annuitants. According to the Retirement Fund's 2021 Financial Statements (as defined under "Source of Information" below), the Retirement Fund subsidizes approximately 44% of the monthly premiums for retirees and for spouse annuitants. The remaining premium cost is borne by the retiree or annuitant. The Retirement Fund funds retiree healthcare premium subsidies on a "pay-as-you-go" basis. The foregoing references to the Retirement Fund's payment of retiree healthcare benefits are for accounting reporting purposes only and shall not be construed as a legal obligation of the Retirement Fund. Section 9-239 of the Pension Code (40 ILCS 5/9-239) specifically states that the post-employment healthcare benefits "are not and shall not be construed to be pension or retirement benefits for purposes of Section 5 of Article XIII of the Illinois Constitution of 1970."

Under the current Internal Revenue Code and Treasury Regulations, neither the County nor its employees are required to, nor do they, contribute to the Social Security system, so long as County employees participate in a qualified public retirement system (such as the Retirement Fund). No assurances can be made that the County and its employees will, in the future, continue to be exempt from a requirement that they contribute to the Social Security System².

¹ Payments reflects Retirement Fund Fiscal year.

² 26 U.S.C. § 3121(b)(7)(F) and 26 C.F.R. § 31.312(b)(7)-2(e)(1).

Source of Information

The information presented herein comes from and is prepared in reliance on the documents produced by the Retirement Fund, the Actuarial Valuation Report as of December 31, 2021 (the "2021 Actuarial Valuation Report" prepared by the independent actuaries Cavanagh Macdonald Consulting, LLC, engaged by the Retirement Fund Board (the "Actuary" or "Actuaries"), and the Financial Statements December 31, 2021 and 2020 (the "2021 Financial Statements") audited by independent auditors RSM US LLP, Chicago, Illinois (the "Retirement Fund Auditors") (the 2021 Actuarial Valuation Report, the 2020 Retirement Fund CAFR and the 2021 Financial Statements are referred to, collectively, as the "Source Information"). The County has not independently verified the Source Information and makes no representations nor expresses any opinion as to the accuracy of the Source Information. The 2021 Financial Statements and the 2021 Actuarial Valuation Report are the most recent audit and actuarial valuation available to the County as of the date of this Official Statement. Questions about any information provided in Source Information should be addressed to: County Employees' and Officers' Annuity and Benefit Fund, Attention: Executive Director, 70 W. Madison Street, Suite 1925, Chicago, IL 60602.

The financial statements of the Retirement Fund for the fiscal years ending December 31, 2008 through December 31, 2021 (each, a "set of Annual Financial Statements" and together, the "Financial Statements"), the comprehensive annual financial reports of the Retirement Fund for the fiscal years ending December 31, 2011 through December 31, 2020 (each, a "Retirement Fund CAFR" and together, the "Retirement Fund CAFRs"), and the Actuarial Valuations of the Retirement Fund as of December 31, 2009 through December 31, 2021, which contain a detailed statement of the affairs of the Retirement Fund, its income and expenditures, and its assets and liabilities as of December 31 of the years 2007 through 2021, may be obtained by contacting the Retirement Fund. The majority of these reports are also generally made available on the Retirement Fund's website at www.cookcountypension.com; provided, however, that the content of these reports and of the Retirement Fund's website is not incorporated herein by such reference.

Any discussion herein with respect to actuarial assumptions, methodology, results or projections are strictly from the sources cited and should not be construed as statements or information from the County. The County makes no representation with respect to the accuracy or completeness thereof.

Cautionary Statement

The information included in the following tables relies on Source Information produced by the Actuaries. Actuarial assessments are "forward-looking" statements that reflect the judgment of the Retirement Fund fiduciaries. A variety of factors impact the Retirement Fund's Unfunded Actuarial Accrued Liability, Net Pension Liability and Funded Ratio (as defined below). Increases in member salary and benefits, a lower rate of return on investment than that assumed by the Retirement Fund and insufficient contributions when compared to the Actuarially Required Contribution (as defined under "Actuarial Valuation — Actuaries and the Actuarial Process") plus interest will all cause an increase in the Unfunded Actuarial Accrued Liability and Net Pension Liability and a decrease in the Funded Ratio and Fiduciary Net Position (as defined below). Conversely, decreases in member salary and benefits, a higher return on investment than assumed and employer contributions in excess of the statutory contributions will decrease the Unfunded Actuarial Accrued Liability and Net Pension Liability and increase the Funded Ratio. In addition, changes in actuarial assumptions and certain other factors will have an impact on the Unfunded Actuarial Accrued Liability and Net Pension Liability and the Funded Ratio and Fiduciary Net Position.³

³ The terms Net Pension Liability and Fiduciary Net Position denote accounting concepts set forth in the GASB Statement No. 67.

These assumptions are based on the results of an Experience Study done by the Actuaries for the years from January 1, 2017 through December 31, 2020.

Retirement Fund

Membership and Benefits

The Retirement Fund was created by the State of Illinois, under State statute, as a separate body politic and corporate for the benefit of the eligible employees of the County and their beneficiaries. The corporate purposes of the Retirement Fund are separate and apart from the corporate purposes of the State of Illinois, and any county, city, town, municipal corporation, or other body politic and corporate in the State of Illinois.

According to the 2021 Actuarial Valuation Report, the Retirement Fund had a total membership of 55,489, consisting of 18,320 active members, 16,945 retired members and surviving annuitants receiving benefits, and 17,313 inactive members, as of December 31, 2021.

The Retirement Fund is a single-employer, defined benefit, public employee retirement plan. "Single-employer" refers to the fact that there is a single employer, in this case, the County. "Defined benefit" refers to the fact that the Retirement Fund pays a periodic benefit to retired employees (and upon their death to their surviving spouses and in certain instances, their children) in an amount determined pursuant to a statutory formula on the basis of the employees' service credits and salary. Members have no accounts in a defined benefit plan, and the amount of their benefits is not dependent on the investment performance of the plan assets.

The benefits available under the Retirement Fund accrue throughout the time a member is employed by the County or the Retirement Fund. Although benefits accrue during employment, a member must satisfy certain age and service requirements to receive periodic retirement or survivor benefit payments upon retirement or other eligible separation from the County's employ.

To fund the benefits payable by the Retirement Fund, both employees and employers make contributions to the plan's assets. Both the employees' contribution and the County's contribution are established and calculated in accordance with the Pension Code, which may be amended only by the General Assembly. See "Determination of Employees' Contribution" and "Determination of County's Contribution" below.

Governance and Duties of Retirement Fund Board

The Retirement Fund is governed by a nine-member board of trustees (the "Retirement Fund Board"). The trustees are the officials of the Retirement Fund, vested with the powers and duties set out in the Pension Code. Two trustees are the Comptroller and Treasurer of the County or their respective appointees. The remaining trustees are elected as follows: three from active employees of the County; two from annuitants of the Retirement Fund; one from active employees of the Forest Preserve District of Cook County (the "Forest Preserve District"); and one from annuitants of the Forest Preserve District Employees' Annuity and Benefit Fund of Cook County (the "Forest Preserve Retirement Fund").

The Retirement Fund Board members are fiduciaries of the Retirement Fund and are authorized to perform all functions necessary for operation of the Retirement Fund. The Retirement Fund Board is authorized by the Pension Code to make certain autonomous decisions, including decisions regarding the investment of funds; the management of assets; the disbursement of benefits; and the hiring of staff, financial advisors and asset managers for the Retirement Fund.

The Retirement Fund Board is authorized to promulgate rules and procedures regarding its administration of benefits and other matters in accordance with the Illinois Administrative Procedure Act (5 ILCS 100), and its decisions in awarding, limiting, or denying benefits are subject to the Illinois Administrative Procedure Act. Certain aspects of the Retirement Fund, however, including the amount of pension benefits and the employer and employee pension contribution levels, are established in the Pension Code and may be amended or terminated only by the General Assembly.

Oversight

The State of Illinois, through the Public Pension Division (the "Public Pension Division") within its Department of Insurance, regulates public pension funds. The Public Pension Division is required to make periodic examinations and investigations of all pension funds established under the Pension Code. In lieu of making an examination and investigation, the Public Pension Division may accept and rely upon a report of audit or examination of any pension fund made by an independent certified public accountant. The Retirement Fund is required to provide the Public Pension Division with a statement, which shall include but need not be limited to, the following: (i) a financial balance sheet as of the close of the fiscal year; (ii) a statement of income and expenditures; (iii) an actuarial balance sheet; (iv) statistical data reflecting age, service, and salary characteristics concerning all participants; (v) special facts concerning disability or other claims; (vi) details on investment transactions that occurred during the fiscal year covered by the report; (vii) details on administrative expenses; and (viii) such other supporting data and schedules as in the judgment of the Public Pension Division may be necessary for a proper appraisal of the financial condition of the Retirement Fund and the results of its operations. The annual statement shall also specify the actuarial mortality and interest tables used in the operation of the Retirement Fund.

The Illinois Attorney General and annuitants may bring a civil action to obtain relief for violations of a fiduciary duty to the Retirement Fund or any act or practice which violates any provision of the Pension Code.

Investments

The Retirement Fund Board manages the investments of the Retirement Fund. The provisions of the Pension Code regulate the types of investments in which the Retirement Fund's assets may be invested.

Furthermore, the Retirement Fund Board is required to invest the Retirement Fund's assets in accordance with the prudent person rule, which requires members of the Retirement Fund Board, who are fiduciaries of the Retirement Fund, to discharge their duties with the care, prudence and diligence that a prudent person acting in a like capacity and familiar with such matters would use in a similar situation.

The Retirement Fund has adopted a formal investment policy in accordance with the Pension Code. Such policy and an asset allocation strategy adopted and reviewed by the Retirement Fund Board from time to time are further described in the 2021 Retirement Fund financial statements.

In carrying out its investment duty, the Retirement Fund Board may appoint investment managers with a discretionary authority to manage, in a fiduciary capacity, all or a portion of the Retirement Fund's assets in accordance with the prudent person rule.

Additional information regarding the Retirement Fund's investments, investment management and authority, policy provisions, diversification principles, performance objectives and asset allocation may be found in the Retirement Fund financial statements, CAFRs and on the Retirement Fund's website at www.cookcountypension.com; provided, however that the content of such website is not incorporated into this Official Statement by such reference.

The Actuarial Valuations assume an investment rate of return on the assets in the Retirement Fund. For the December 31, 2021 Actuarial Valuation Report, the Retirement Fund investment return assumption was lowered from 7.25% to 7.00%. Due to the volatility of the marketplace, however, the actual rate of return earned by the Retirement Fund on its assets may be higher or lower than the assumed rate.

As a result of the use of the Asset Smoothing Method (as hereinafter defined), only a portion of investment gains or losses is recognized in the year when realized, and the remaining gain or loss is spread over the remaining four years. See “Actuarial Valuation — Actuarial Value of Assets and Fiduciary Net Position” for additional explanations regarding the Asset Smoothing Method.

Table 1 provides information from the Actuarial Valuations as of December 31 of the years 2012 through 2021 and the 2020 Retirement Fund CAFR regarding the investment returns experienced by the Retirement Fund based on the fair market value of Retirement Fund’s assets for the period 2012 through 2021.

TABLE 1
INVESTMENT RATE OF RETURN —
PENSION AND POSTEMPLOYMENT HEALTHCARE BENEFITS COMBINED⁽¹⁾

Year Ended December 31,	Investment Rate of Return (Net of Fees)
2012	12.5%
2013	15.1%
2014	5.9%
2015	-0.1%
2016	7.7%
2017	15.4%
2018	-3.8%
2019	19.1%
2020	12.7%
2021	17.1%

Source: The 2020 Retirement Fund CAFR and 2021 Actuarial Valuation Report.

⁽¹⁾ For actuarial purposes, the Retirement Fund assumes an investment rate of return of 7.00%, a reduction from 7.25% in 2020. See “Actuarial Assumptions” herein.

⁽²⁾ Calculated based on the fair market value of Retirement Fund’s assets as of December 31 of each year.

Determination of Employees’ Contribution

The Pension Code sets forth the level of contributions that the County’s employees are required to contribute to the Retirement Fund as a condition of eligibility for benefits thereunder. To that extent, the County's ability to deduct a portion of employees’ salaries and disburse these proceeds to the Retirement Fund is circumscribed by the Pension Code. County employees are required to contribute 8.5% (9.0% for County police) of their salary to the Retirement Fund. This contribution consists of 6.5% (7.0% for County police) for the retirement annuity, 1.5% for the surviving spouse’s annuity, and 0.5% for the automatic increase in retirement annuity. Because State statute defines and limits employee contributions, those contributions do not necessarily have a direct correlation to the Actuarially Required Contribution (as hereinafter defined).

Determination of County's Contribution

Statutory Basis for County's Contribution

The Pension Code provides that County contributions to the Retirement Fund are to be made from the proceeds of an annual levy of property taxes (the "Pension Levy") by the County for such purpose. The Pension Code further provides that, with some exceptions, no money of the County derived from any source other than the Pension Levy or the sale of tax anticipation warrants may be used to provide revenue for the Retirement Fund. The Pension Levy is levied solely for the purpose of contributing to the Retirement Fund, and such levy is exclusive of and in addition to the amount of tax which the County may levy for general purposes. Under the Pension Code, the amount of the Pension Levy may not exceed 1.54 (the "Multiplier") times the amount contributed by the County's employees to the Retirement Fund two years prior to the year in which the tax is levied. Because State statute defines and limits the County's contributions, those contributions do not necessarily have a direct correlation to the Actuarially Required Contribution (as hereinafter defined). See "Actuarial Valuation — County's Statutorily Required Contribution Not Related to GASB Standards."

The Pension Code provides that the Retirement Fund Board must annually certify to the County a determination of the County's contribution to the Retirement Fund, based on the statutorily capped Multiplier of 1.54. In making its request for the County's annual contribution, the Retirement Fund, acting through the Retirement Fund Board, annually approves and then submits a resolution to the County Board requesting that the County Board adopt a particular tax levy rate. The Retirement Fund Board most recently requested a Pension Levy at the statutory maximum amount based on the 1.54 Multiplier and has done so for at least the last 38 years.

Intergovernmental Agreements between the County and Retirement Fund

Although the Pension Code sets forth the sole mechanism and the source and amount of revenues that the County can contribute to the Retirement Fund, as part of its efforts to promote the long-term fiscal viability of the Retirement Fund, for County Fiscal Year 2019-2021, the County entered into Intergovernmental Agreements with the Retirement Fund Board (collectively, the "Intergovernmental Agreements" and each an "Intergovernmental Agreement"), under which the County made total supplemental contributions to the Retirement Fund of \$339,961,760 in 2021, \$309,214,508 in 2020, \$320,296,720 in 2019, \$378,436,000 in 2018, \$353,800,000 in 2017 and \$270,526,000 in 2016. On December 27, 2021, the County entered into a one-year Intergovernmental Agreement with the Retirement Fund, under which, in Fiscal Year 2022, the County would commit to making supplemental contributions to the Retirement Fund in the sum of \$324,200,000 which the County would begin as of December 2021. These additional sums were appropriated by the County Board of Commissioners in the County's Fiscal Year 2019 - 2022 Annual Appropriation Bills.

In entering into the Intergovernmental Agreements, the parties thereto relied on the Illinois Intergovernmental Cooperation Act (5 ILCS 220 et seq.), and other laws that encourage cooperation among governmental units in the performance of their functions and responsibilities. In the event that any future intergovernmental agreements are executed with the Retirement Fund, the moneys committed thereunder will be subject to the annual County appropriation process. Nothing in the Intergovernmental Agreements obligates the County to make any contributions or disbursements to the Retirement Fund above the statutory maximum in any future year.

As provided in the Intergovernmental Agreements, the additional Fiscal Year 2016 - 2022, contributions from the County to the Retirement Fund were and are subject to relevant law and any order entered by a court regarding the matter.

No assurances can be given that the County will enter into similar agreements in the future, or that the County has or will have the authority or ability to enter into similar agreements in the future or that the Intergovernmental Agreements or any future agreements and the funds disbursed by the County to the Retirement Fund in Fiscal Year 2022, or any subsequent years would survive legal challenges as to their validity under Illinois statutes. Any future intergovernmental agreements with the Retirement Fund, and the moneys committed thereunder, will be subject to annual County appropriation. If these Intergovernmental Agreements or any possible future agreements relating to similar appropriations for additional pension funding by the County are challenged in court and do not withstand legal challenges, it is likely that the only mechanism for increased funding of the Retirement Fund would be through legislative action by the General Assembly.

Actuarial Valuation

General

In addition to the process outlined above, the Pension Code requires that the Retirement Fund annually submit to the County Board a report containing a detailed statement of the affairs of the Retirement Fund, its income and expenditures, and assets and liabilities, which would include the Actuarial Valuation. According to the 2021 Actuarial Valuation Report, the Actuary determines the financial position of the Retirement Fund for reporting purposes pursuant to statements of the Governmental Accounting Standards Board ("GASB").

GASB, which is part of a private non-profit corporation known as the Financial Accounting Foundation, promulgates standards regarding accounting and financial reporting for governmental entities. Although these principles are not legally binding and do not impose any legal liability on the County, independent auditors that audit governmental entities require such entities to follow these principles.

On June 25, 2012, GASB approved two new standards for employee pension accounting and financial reporting by state and local governments. The two new GASB Statements, Nos. 67, Financial Reporting for Pension Plans and 68, Accounting and Financial Reporting for Pensions ("GASB 67" and "GASB 68," respectively), replace some of the concepts in the previous statements (Nos. 25, 27, and 50) related to pension plans.

Some of the key changes imposed by these new standards include: (1) requiring governments for the first time to recognize the difference between the total pension liability (i.e., the present value of projected benefit payments to employees based on their past service) and the assets (mostly investments reported at fair value) as a liability of the employer; (2) immediate recognition of annual service cost and interest on the pension liability and immediate recognition of the effect on the net pension liability of changes in benefit terms; (3) the effects on the net pension liability of differences between expected and actual investment returns will be recognized in pension expense over a closed 5-year period (previously a 15-30-year period); (4) with respect to benefits not covered by projected plan assets, the use of a discount rate based on a yield or index rate on tax-exempt 20-year, AA-or-higher rated municipal bonds rather than the expected rate of return on plan investments; and (5) revising the presentation of pension liabilities in a government's financial statements. The use of the new standards may produce lower funded ratios and higher unfunded liability ratios than those determined under the previous principles. GASB 67 is effective for fiscal years beginning after June 15, 2013 and GASB 68 is effective for fiscal years beginning after June 15, 2014. The Retirement Fund Board adopted GASB 67 beginning with the 2014 fiscal year of the Retirement Fund. The Retirement Fund Board adopted GASB 68 beginning with the 2015 fiscal year.

A description of the statistics generated by the Actuary in the Actuarial Valuation follows in the next few paragraphs. This information was derived from the 2021 Financial Statements, the 2021 Actuarial

Valuation Report and the 2020 Retirement Fund CAFR. For the 2014 fiscal year, the year of transition to GASB 67, the funding information for pension benefits in the 2014 Actuarial Valuation and the 2014 Retirement Fund CAFR reflected statistics and other information produced in accordance with the principles of both GASB 67 and the previously adopted GASB Statement No. 25, Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans ("GASB 25").

Actuaries and the Actuarial Process

According to the 2021 Actuarial Valuation Report, in producing the Actuarial Valuation, the Retirement Fund's Actuary uses demographic data (including employee age, salary and service credits), economic assumptions (including estimated salary and interest rates), and decrement assumptions (including employee turnover, mortality and retirement rates) to determine, as of the valuation date, the Normal Cost, the Actuarially Required Contribution, the Actuarially Determined Contribution, the Actuarial Accrued Liability, the Total Pension Liability, the Actuarial Value of Assets and the Fiduciary Net Position (each such term having the meaning defined below) for the Retirement Fund. The Retirement Fund's Actuarial Valuations are publicly available and may be obtained from the Retirement Fund. Certain of these Actuarial Valuations are available on the Retirement Fund's website, at www.cookcountypension.com; provided, however, that the content of these reports and of the Retirement Fund's website is not incorporated herein by such reference.

According to the 2021 Actuarial Valuation Report, the primary purpose of the Actuarial Valuation is to determine the amount that is necessary, without consideration of the Pension Code, to be contributed to the Retirement Fund in a given fiscal year to fund the Retirement Fund in an actuarially sound manner (the "Actuarially Required Contribution")⁴ to satisfy its current and future obligations to pay benefits to eligible members of the Retirement Fund. The 2020 Retirement Fund CAFR provides that the Actuarially Required Contribution consists of two components: (1) that portion of the present value of pension plan benefits which is allocated to the valuation year by the actuarial cost method (as described in "Actuarial Methods — Actuarial Accrued Liability and Total Pension Liability" below), termed the "Normal Cost"; and (2) a portion required to amortize any Unfunded Actuarial Accrued Liability (as defined below). For purposes of GASB 67, the 2015 Actuarial Valuation reports separately an actuarially determined contribution for pension benefits and an actuarially determined contribution for optional retiree healthcare benefits. GASB 67 defines an "Actuarially Determined Contribution" as a target or recommended contribution to a pension plan that is determined by an actuary for the reporting year in accordance with the Actuarial Standards of Practice based on the currently available information. GASB no longer prescribes, as was the case under GASB 25, specific parameters for calculating contributions necessary for sound funding of public pension plans but rather broadly relies on the Actuarial Standards of Practice. In the 2021 Actuarial Valuation, the Retirement Fund's Actuary uses the terms Actuarially Required Contribution and Actuarially Determined Contribution interchangeably.

As part of the Actuarial Valuation, the Retirement Fund's Actuary also calculated the Retirement Fund's "Actuarial Accrued Liability" and "Total Pension Liability" and "Actuarial Value of Assets" and "Fiduciary Net Position." According to the 2021 Actuarial Valuation, the Actuarial Accrued Liability,

⁴ Prior GASB pronouncements referred to this concept as the Annual Required Contribution. For the convenience of the reader, this disclosure (as well as the 2021 Actuarial Valuation Report) refers to the concept as the Actuarially Required Contribution to denote the fact that the Actuarially Required Contribution is the amount an Actuary would require to be contributed in a given year, to differentiate it from the amount the County will be permitted to contribute under applicable law.

determined by a particular actuarial cost method as of any date, is the value of all past accumulated Normal Costs. The 2021 Actuarial Valuation also provides that the Actuarial Value of Assets is the value of the pension plan assets determined for purposes of the Actuarial Valuation by spreading the effect of each year's investment return in excess of or below the expected return over a five-year period. For a discussion of the methods and assumptions used to calculate the Retirement Fund's Actuarial Accrued Liability and Actuarial Value of Assets, see "Actuarial Methods" and "Actuarial Assumptions" below.

As stated in the 2021 Actuarial Valuation, the excess of the Actuarial Accrued Liability over the Actuarial Value of Assets is referred to as the "Unfunded Actuarial Accrued Liability" or "UAAL." The Retirement Fund's Actuary computes the "Funded Ratio," which is equal to the ratio of the Actuarial Value of Assets to the Actuarial Accrued Liability, expressed as a percentage.

The Actuarial Accrued Liability, Actuarial Value of Assets, UAAL and Funded Ratio are all concepts developed under the previously applicable GASB Statements Nos. 25 and 50. GASB 67 prescribes a different set of measurements and ratios that together represent a pension plan's financial position. According to the 2021 Actuarial Valuation, the Retirement Fund's funding status is measured by the net pension liability ("Net Pension Liability"), which is determined as the difference between the Total Pension Liability (as defined under "Actuarial Accrued Liability and Total Pension Liability" below) and the Retirement Fund's Fiduciary Net Position (as defined below). GASB 67 uses Fiduciary Net Position to measure the value of pension plan assets (rather than the Actuarial Value of Assets). In lieu of the Funded Ratio, under GASB 67 the Retirement Fund's Fiduciary Net Position is also expressed as a percentage of its Total Pension Liability and the Net Pension Liability of the Retirement Fund expressed as a percentage of the covered-employee payroll.

Notably, new GASB standards prescribe rules for financial accounting for public pensions. These standards no longer link plan funding (which is actuarially determined) to accounting measures. The funding measures remain valid for purposes of valuing a pension plan's funding levels. However, the disconnect between the funding and accounting standards for governmental employers results in potentially disparate representation of employers' accounting liability for pensions on the one hand and the actuarial liability for pension obligations on the other hand. The new GASB standards tend to present pension liabilities for accounting purposes at a lower level than they are otherwise determined by actuaries for funding purposes. Additionally, GASB 67 measures only pension liabilities and does not apply to the optional post-employment healthcare benefits provided through the Retirement Fund.

Actuarial Value of Assets and Fiduciary Net Position

The Retirement Fund's Actuary calculates the Actuarial Value of Assets by smoothing investment gains and losses over a period of five years, a method of valuation referred to as the "Asset Smoothing Method." In accordance with the Asset Smoothing Method, recognized by the previous GASB standards, the Retirement Fund's Actuary calculates the Actuarial Value of Assets by recognizing in the current year 20% of the investment gain or loss realized in each of the previous four years.

As described in the interpretive guidance released by GASB upon adoption of GASB 25, the Asset Smoothing Method prevents extreme fluctuations in the Actuarial Value of Assets, the UAAL and the Funded Ratio that may otherwise occur as a result of market volatility. However, asset smoothing delays recognition of gains and losses, thereby providing an Actuarial Value of Assets that does not reflect the true value of pension plan assets at the time of measurement. As a result, presenting the Actuarial Value of Assets as determined under the Asset Smoothing Method might provide a more or less favorable presentation of the current financial position of a pension plan than would a method that recognizes investment gains and losses annually.

Table 2 provides a comparison of the assets of the Retirement Fund on a fair value basis to the value of the assets after application of the Asset Smoothing Method.

TABLE 2
SCHEDULE OF ACTUARIAL VALUE OF ASSETS VS. FAIR VALUE OF ASSETS —
PENSION AND POSTEMPLOYMENT HEALTHCARE BENEFITS COMBINED

YEAR ENDED DECEMBER 31,	ACTUARIAL VALUE OF ASSETS ⁽¹⁾	FAIR VALUE OF ASSETS	ACTUARIAL VALUE AS A PERCENTAGE OF FAIR VALUE
2012	7,833,882,926	8,059,935,628	97.2%
2013	8,381,444,287	8,927,366,656	93.9%
2014	8,810,509,070	9,068,398,780	97.2%
2015	8,991,018,918	8,643,044,275	104.0%
2016	9,488,223,349	9,115,657,870	104.1%
2017	10,148,203,834	10,407,883,443	97.5%
2018	10,512,756,514	9,862,023,782	106.6%
2019	10,983,364,279	11,490,959,220	95.6%
2020	11,765,568,459	12,649,610,438	93.0%
2021	12,822,498,767	14,281,527,562	89.7%

Source: The 2020 Retirement Fund CAFR and 2021 Actuarial Valuation Report.

⁽¹⁾ The Actuarial Value of Assets is calculated through use of the Asset Smoothing Method.

For purposes of GASB 67, in lieu of determining the Actuarial Value of Assets, the Actuary determines the "Fiduciary Net Position," which has several components and represents the (i) Retirement Fund's assets (e.g., cash receivables, investments at fair value and other assets used in pension plan operations), *plus* (ii) deferred outflows of resources, and *minus* (iii) deferred inflows of resources. The assets are generally valued at fair value.

Actuarial Accrued Liability and Total Pension Liability

The 2020 Retirement Fund CAFR provides that the Actuarial Accrued Liability is calculated by a particular actuarial cost method as the value of all past accumulated Normal Costs. The 2020 Retirement Fund CAFR further provides that for purposes of determining Normal Cost, the Retirement Fund uses the entry age actuarial cost method (the "Entry Age Method"), which is a GASB-approved actuarial cost method. As stated in the 2020 Retirement Fund CAFR, the Entry Age Method is a cost method under which the Normal Cost is computed as the level percentage of pay which, if paid from the earliest time each member would have been eligible to join the Retirement Fund if it then existed (thus, entry age) until his retirement or termination, would accumulate with interest at the rate assumed in the valuation to an amount sufficient to pay all benefits under the Plan. Under this method, the actuarial gains (losses), attributable to deviations in experience from the actuarial assumptions, generally reduce (increase) the UAAL.

For purposes of GASB 67, the Actuary determines the "Total Pension Liability" as the portion of the actuarial present value of projected benefit payments that is attributed to past periods of the Retirement Fund member service, including all benefits to be provided to current active and inactive members of the Retirement Fund in accordance with its current terms. The main difference between the presentation of the Retirement Fund's pension liabilities under GASB 25 for funding purposes and GASB 67 for accounting purposes is the use of the discount rate for calculating present values of projected benefit payments. If the Retirement Fund's Fiduciary Net Position were projected to be insufficient to make projected benefit payments, then the discount rate is a blended single rate based on the long-term expected rate of return on the Retirement Fund's investments and a yield or index rate for 2-year, tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The use of a blend rate instead of the long-term expected rate of return on plan investments may produce a higher liability figure for the Retirement Fund.

Actuarial Assumptions

In its Actuarial Valuation, the Retirement Fund's Actuary uses a variety of assumptions as to future events affecting pension costs. The assumptions used by the Retirement Fund in the fiscal year ending on December 31, 2021 are based on the experience of the Retirement Fund for the years from January 1, 2017 through December 31, 2020, as set forth in an Experience Study prepared by the Actuaries in 2021 and adopted by the Retirement Fund. Variances between the assumptions and actual results may cause an increase or decrease in the Actuarial Value of Assets, the Fiduciary Net Position, the Actuarial Accrued Liability, the Total Pension Liability, the UAAL, the Net Pension Liability, the Funded Ratio, the Actuarially Determined Contribution or the Actuarially Required Contribution.

Additional information on the Retirement Fund's actuarial assumptions is available in the Retirement Fund's 2021 Actuarial Valuation.

County's Statutorily Required Contribution Not Related to GASB Standards

The Pension Code requires that the County contribute to the Retirement Fund through the levy, collection, and contribution of a real-estate Pension Levy. See "Table 3 — Information Regarding Contributions" below. Because the County's contribution limit is based on the amount of employee contributions made two years prior to the year in which the Pension Levy is collected and the Multiplier, as established by State statute, the County's contribution to the Retirement Fund does not necessarily correlate to the manner of calculating a contribution as established by GASB 25 or actuarial standards. As stated in the Actuarial Valuations through 2020, the Retirement Fund's Actuarially Required Contribution was equal to its Normal Cost plus a 30-year level-dollar amortization of the Retirement Fund's UAAL. This method of calculating the Actuarially Required Contribution was developed under the standards previously promulgated by GASB. However, the statutory limit on the members' and the County's contributions has in the past prevented and could in the future prevent contributions to the Retirement Fund on an actuarial basis, as demonstrated in the Actuarial Valuations. Therefore, the statutory structure pursuant to which the County and the members contribute to the Retirement Fund does not conform to the actuarial cost and needs of the Retirement Fund. Consequently, the County entered into the Intergovernmental Agreement with the Retirement Fund that provides an alternative funding policy.

For at least the past 38 years, the County budgeted a contribution to the Retirement Fund for the maximum amount permitted by statute, as requested by the Retirement Fund Board. Some variances in the actual amounts contributed in those years compared to the amount requested by the Retirement Fund (as shown in Table 3 below) are attributable to discrepancies between budgeted and sums disbursed to the County from the State Personal Property Tax Replacement Fund. However, as evidenced by the Actuarial Valuations, the amount contributed by the County and the active employees has often been lower than the Actuarially Required Contribution.

Table 3 provides information on the Actuarially Required Contribution, the County's actual contributions in accordance with the Pension Code and the percentage of the Actuarially Required Contribution made in each year that would have been necessary in each year had the County been in a position to contribute the Actuarially Required Contribution for each year 2010 through 2020, all of which was derived from the Retirement Fund CAFRs and Actuarial Valuations. Based on the 2021 Actuarial Valuation, the Multiplier that would have been required for the County's contribution to equal the Actuarially Required Contribution for the 2021 fiscal year was 4.76 instead of the statutory maximum of 1.54.

TABLE 3
SCHEDULE OF EMPLOYER CONTRIBUTIONS

FISCAL YEAR ENDED DECEMBER 31,	ACTUARIALLY DETERMINED CONTRIBUTION (ADC)	EMPLOYER CONTRIBUTION	PERCENTAGE CONTRIBUTED
2012	454,327,461	152,734,539	33.62%
2013	493,724,370	147,720,014	29.92%
2014	540,218,287	146,075,414	27.04%
2015	595,370,046	136,075,504	22.86%
2016	519,642,931	414,703,155	79.81%
2017	514,888,487	511,750,985	99.39%
2018	562,815,816	549,437,252	97.62%
2019	523,625,965	488,003,692	93.20%
2020	536,955,558	465,778,715	86.74%
2021	650,512,479	507,070,170	77.94%

Sources: The 2020 Retirement Fund CAFR and 2021 Actuarial Valuation Report.

According to the 2020 Retirement Fund CAFR, the Actuary determines separately, for purposes of GASB 67, the Actuarially Determined Contribution needed to fund pension benefits and the Actuarially Determined Contribution needed to fund retiree optional healthcare benefits. Table 4 below provides information on the Actuarially Determined Contribution, the County's statutory contributions in relation to the Actuarially Determined Contribution for pension liability only, contribution deficiency and contribution as a percentage of covered-employee payroll for each year 2012 through 2021, for purposes of GASB 67.

TABLE 4
SCHEDULE OF EMPLOYER CONTRIBUTIONS
(\$ IN THOUSANDS)

FISCAL YEAR	ACTUARIALLY DETERMINED CONTRIBUTION	CONTRIBUTIONS IN RELATION TO THE ACTUARIALLY DETERMINED CONTRIBUTION	CONTRIBUTION DEFICIENCY	COVERED- EMPLOYEE PAYROLL	CONTRIBUTIONS AS A PERCENTAGE OF COVERED- EMPLOYEE PAYROLL
2011	352,851	160,652	192,199	1,456,444	11.0
2012	454,327	152,735	301,592	1,478,253	10.3
2013	492,724	147,720	346,004	1,484,270	10.0
2014	540,218	146,075	394,143	1,514,550	9.6
2015	595,370	136,076	459,295	1,572,417	8.7
2016	519,643	414,703	104,940	1,580,251	26.2
2017	514,888	511,751	3,138	1,567,480	32.7
2018	562,816	549,437	13,379	1,533,721	35.8
2019	523,626	488,004	35,622	1,553,499	31.4
2020	536,956	465,779	71,177	1,532,744	30.4
2021	650,512	507,070	143,442	1,520,620	33.4

Sources: The 2021 Financial Statements.

Funded Status of the Retirement Fund

The fact that the contributions received from all sources by the Retirement Fund were less than the Actuarially Required Contribution, in conjunction with other factors, had the effect of increasing, over the years, the Retirement Fund's UAAL, according to the 2021 Actuarial Valuation. In addition, expenses related to the optional other post-employment benefits ("OPEB") provided by the Retirement Fund Board are paid from the funds received from the County, which has the effect of reducing the Actuarial Value of Assets and decreasing the Funded Ratio.

According to the 2021 Actuarial Valuation, the Retirement Fund had a UAAL, including the optional OPEB, of approximately \$6.3 billion on an actuarial basis (using the Asset Smoothing Method) as of December 31, 2021. This represents a decrease of \$387 million in the UAAL from last year. The 2021 Actuarial Valuation provides that the respective Funded Ratio for this UAAL is 67.16%. According to the 2019 Actuarial Valuation, the statutory contributions to the Retirement Fund are not sufficient to meet the Retirement Fund's funding needs. As noted in the 2021 Actuarial Valuation, the Actuary projects that in the absence of action by the General Assembly to establish an actuarially based funding policy and without regard to the County's alternative funding method developed pursuant to the Intergovernmental Agreement, the Funded Ratio is expected to continue to trend downward until the Retirement Fund's assets are exhausted by 2054.

The following tables, which were produced from information provided in the Retirement Fund CAFRs, the Financial Statements and the Actuarial Valuations, summarize the current financial condition and the funding progress of the Retirement Fund.

(1) The Healthcare Plan is funded on a “pay-as-you-go” basis.

The 2021 Actuarial Valuation indicates that a variety of factors (as identified in Table 9 below) impact the Retirement Fund’s UAAL and Funded Ratio. The effect of certain factors on the Retirement Fund’s UAAL from the 2011 through the 2020 fiscal year is demonstrated in Table 9 below.

⁽¹⁾ "Other Sources" includes, but is not limited to, health insurance, optional retirement experience and death, retirement and withdrawal experience.

The 2021 Actuarial Valuation also includes information on the Retirement Fund's Net Pension Liability which in accordance with GASB 67 measures the extent to which the Total Pension Liability is covered by the Fiduciary Net Position. Various Net Pension Liability Ratios and new supplemental disclosure schedules will track changes in the Retirement Fund's Net Pension Liability from year to year and will measure the extent to which the Retirement Fund's funding keeps pace with the Actuarially Determined Contributions. As discussed above, the Pension Code requires that the County contribute the Pension Levy according to a statutory formula as opposed to making contributions on an actuarial basis and, as such, the County's contribution differs from the amount identified by the Retirement Fund's Actuary as the Actuarially Determined Contribution. The 2021 Actuarial Valuation was prepared by the Actuary based on a variety of assumptions that may not necessarily be realized. These assumptions were based on the results of an Experience Study done by the Actuary for the years from January 1, 2013 through December 31, 2020.

Table 10 below shows the Retirement Fund's Fiduciary Net Position and the Fiduciary Net Position as a percentage of the Total Pension Liability for the fiscal years ending on December 31, 2019 through December 31, 2021. In measuring the Retirement Fund's Total Pension Liability in accordance with GASB 67 as of December 31, 2020, the Retirement Fund's Actuaries used a blended discount rate of 3.68%. The Actuaries developed this discount rate based on the Retirement Fund's long-term investment rate of return of 7.00% and a 2.05% rate based on the S&P Municipal Bond 20-Year High Grade Rate Index as of December 31, 2021. The use of a lower discount rate present's the Retirement Fund's unfunded liabilities at a significantly higher rate than the Retirement Fund's UAAL determined based on the previous GASB 25.

Projection of Funded Status

Table 11 below contains a projection, provided by the Retirement Fund, of the Actuarial Value of Assets, the Actuarial Accrued Liability, the UAAL and the Funded Ratio through 2057, based on certain assumptions, including a 2.50% salary increase for new hires and 7.00% rate of return on investments. This table assumes no future supplemental contributions to the Retirement Fund or the County's alternative funding policy as outlined in the Intergovernmental Agreements beyond Fiscal Year 2022 or future legislative changes.

Source: 2021 Actuarial Valuation Report

⁽¹⁾ 2022 County Contribution also includes a \$324.2M Supplemental contribution.

As shown in Table 11 above, based on the current legislative structure, the Retirement Fund's Actuary projects a decrease in the funding level of the Retirement Fund, which would jeopardize the solvency of the Retirement Fund. The Retirement Fund's Actuary further projects that the existing Statutory funding regime is insufficient to meet the needs of the Retirement Plan and that based on the current statutes and certain assumptions and trends, the Retirement Fund would be expected to deplete its assets by 2054. The County is not making any representation as to the accuracy or validity of these projections.

The projections in Table 11 are based upon numerous variables that are subject to change and are forward-looking statements regarding future events based on the Retirement Fund's actuarial assumptions and assumptions made regarding such future events, including that there are no changes to the current legislative structure and that all contributions to the Retirement Fund are made as required by statute. No assurance can be given that these assumptions will be realized or that actual events will not cause material changes to the data presented.

The projections set forth in this APPENDIX B of the Official Statement rely on information produced by the Retirement Fund's independent Actuaries and were not independently verified by the County as to their validity, accuracy or conformance to any acceptable accounting, actuarial or reporting standards. This information should not be relied upon as being necessarily indicative of future results, and readers of this Official Statement are cautioned not to place undue reliance on the prospective financial information. Neither the County, the County's independent auditors, nor any other independent accountants, have compiled, examined, or performed any procedures with respect to the prospective financial information contained in the projections, nor have they expressed any opinion or any other form of assurance on such information or its achievability, and assume no responsibility for, and disclaim any association with, the prospective financial information.

GASB Statement No. 68

In accordance with the standards of the GASB Statement No. 68, the Retirement Fund is considered to be a component unit of the County. Beginning with the County's fiscal year ended November 30, 2015, the Retirement Fund is included in the County's financial statements as a pension trust fund. The County adopted GASB 68 effective for its 2015 fiscal year. Under GASB 68 the County now recognizes the Net Pension Liability on its financial statements. In addition, most changes in the Net Pension Liability are recognized in the year of the change and other changes are recognized over a closed period of five years. Due to this recognition of pension liabilities, the implementation of GASB 68 will have a material impact on the County's financial statements and net position. The County's Audited Financial Statements for the Fiscal Year Ended November 30, 2019 reflect the Retirement Fund's Net Pension Liability as determined for the Retirement Fund's fiscal year ended December 31, 2018.

Significant and Recent Legislative Enactments and Courts' Response

On April 14, 2010, the Governor of the State signed Public Act 96-0889 (the "2011 Pension Reform Act") into law. The 2011 Pension Reform Act establishes a "two-tier" benefit system with less generous benefits for employees who become members of any public retirement system, including the Retirement Fund, on or after January 1, 2011 (Tier 2), as compared to those provided to individuals who were County employees prior to such date (Tier 1). Among other changes, the new Tier 2 from the 2011 Pension Reform Act:

- Increases the time required for pension benefits to vest to ten years from five years;
- Increases the minimum age at which an active employee may retire with unreduced benefits to age 67 from age 60 or younger based on a formula combining the age of the employee and the number of years of service;

- Increases the minimum age at which an active employee may retire with reduced benefits to age 62 from age 50;
- Reduces the cost of living adjustment to the lower of 3% or 50% of the change in the consumer price index for all urban consumers, whichever is lower, and eliminates compounding for employees hired after January 1, 2011, from a cost of living adjustment of 3%, compounded; and
- Caps the 2011 salary on which a pension could then be calculated at \$106,800 (subject to annual adjustments for inflation at a 'A of the Consumer Price Index, referred to as "CPIU", on a simple basis).

The 2011 Pension Reform Act does not impact persons who first became members or participants prior to its effective date of January 1, 2011. Taken independently of any other legislative or market effects, the reduced benefits afforded new hires by the 2011 Pension Reform Act are expected to reduce the growth in the Actuarial Accrued Liability and the UAAL. In calculating the Actuarial Accrued Liability, the actuaries make assumptions about future benefit levels. As the value of future benefits decreases, as will occur when a greater percentage of the County's workforce is covered by the 2011 Pension Reform Act, the growth in Actuarial Accrued Liability is expected to slow down. As the growth in the UAAL slows, the amount of UAAL to be amortized decreases. However, the County makes no representation and no assurance can be given that these expectations will be the actual experience of the Retirement Fund going forward.

As noted above, Section 5 of Article XIII of the Illinois Constitution provides that "membership in any pension retirement system of the State, any unit of local government or school district, or any agency or instrumentality thereof, shall be an enforceable contractual relationship, the benefits of which shall not be diminished or impaired."

On July 1, 2012, the Governor of the State signed Public Act 97-0695 into law. Under the terms of that Act, the value of certain healthcare benefits for certain retirees of the State of Illinois would have been decreased. On July 3, 2014, the Illinois Supreme Court reversed on appeal the decision of the Circuit Court of Sangamon County that initially dismissed constitutional challenges to the Act.⁵ The Illinois Supreme Court found that the State's provision of subsidies for retiree health coverage is a benefit of membership in a pension or retirement system, which is protected by the Pension Protection Clause of the Illinois Constitution and may not be diminished or impaired.

On December 5, 2013, the Governor of the State signed Public Act 98-0599 (the "2013 Pension Reform Act") into law. The 2013 Pension Reform Act purported to affect certain aspects of annuities with respect to members of the General Assembly Retirement System, State Employees' Retirement System of Illinois, State Universities Retirement System and Teachers' Retirement System (including, among other changes, delays in benefit commencement, reductions in the cost-of-living adjustments, and a cap on the maximum salary taken into account in calculating annuity benefits). On May 8, 2015, the Illinois Supreme Court affirmed on appeal the decision of the Sangamon County Circuit Court declaring the 2013 Pension Reform Act unconstitutional in its entirety and permanently enjoining the State of Illinois from enforcing or implementing this act.⁶ On June 9, 2014, the Governor of the State signed Public Act 98-0651 into law. That Act was intended to stabilize the funding for certain municipal pension funds associated with the City of Chicago in exchange for certain reductions in member benefits (including increases in employee contribution rates and certain reductions in the value of annual cost-of-living increases). On March 24, 2016, the Illinois Supreme Court declared the Act unconstitutional in its entirety.⁷ The Court's position on the constitutionally protected status of pension benefits apparently forecloses the possibility that the courts

⁵ *Kanerva v. Weems*, 2014 IL 115811 (July 3, 2014).

⁶ *In re Pension Reform Litigation*, 2015 IL 118585 (May 8, 2015).

⁷ *Jones v. Municipal Employees' Annuity and Benefit Fund of Chicago*, 2016 IL 119618 (March 24, 2016).

would uphold any legislation that would unilaterally reduce pension benefits for existing public pension participants.

On July 6, 2017, the Illinois General Assembly overrode The Governor's veto of Senate Bill 42, causing Public Act 100-0023 to become law (the "FY2018 Budget Implementation Act"). The FY2018 Budget Implementation Act sets up possible optional benefits ("Tier 3") for certain prospective County employees. Tier 3 includes a defined benefit and defined contribution plan model. Prospective employees would not be eligible unless and until the County Board adopts an ordinance or resolution affirming that the County opts into the Tier 3 model. Under the FY2018 Budget Implementation Act, if the County Board takes such action, employees hired six months after the board action will be Tier 3 employees unless they affirmatively and irrevocably opt for the Tier 2 plan within 30 days of hire. Among other changes, Tier 3:

- Changes the retirement age for full pension benefits to the greater of 67 years old or the normal retirement age established under Social Security, as opposed to 67 years per se for Tier 2 employees;
- Decreases employees' service multiplier to 1.25% from 2.4% otherwise used for County Tier 2 employees;
- Calculates final average salary over the last 10 years of employment in which the total salary was the highest (vs. the 8 highest paid years over the 10 most recent years for Tier 2 employees);
- For purposes of calculating both employee contributions and pension payouts, limits employees' final average salary to no more than the federal Social Security base wage then in effect;
- Changes cost of living adjustments to CPI-W instead of CPI-U for Tier 2 employees;
- Decreases employee contributions to the lesser of the normal cost of their pension benefits or 6.2% of their salary, as opposed to the 8.5% contribution they would make under Tier 2. In the event the maximum 6.2% employee contribution doesn't meet normal costs, the employer is required to contribute the additional sums necessary to meet normal cost; and
- Creates a defined contribution plan into which Tier 3 employees must contribute at least 4% of their salaries while the employer must contribute between 2% and 6% of individual employees' salaries. All contributions will be 100% vested when contributed. Employer contributions are not required until the employee completes one year of employment with the employer.

The defined contribution aspects of Tier 3 will have no effect until the defined contribution plan attains qualified plan status and receives all necessary approvals from the United States Internal Revenue Service.

As of the date of this Official Statement, the County has not considered the impact of the FY2018 Budget Implementation Act on the funding of the Retirement Fund.

This subsection does not purport to address every item of legislation recently enacted affecting the Pension Code or every case affecting the Pension Code; rather, it addresses only the most comprehensive pension legislation enacted and cases decided to date. Additional information is included in the 2021 Actuarial Valuation.

Legislative Proposals

As of the date of this Official Statement, the Retirement Fund's website at www.cookcountypension.com states that there are no active legislative proposals that affect the Retirement Fund's benefits. There can be no assurances that legislative proposals will not be enacted in the future that could have a material effect on the Retirement Fund's benefits or required County contributions to the Retirement Fund.

Forest Preserve Retirement Fund

For accounting purposes, the Forest Preserve District is a component unit of the County. See Note I.A. to the County's Comprehensive Annual Financial Report for the fiscal year ended November 30, 2020 (the "County CAFR"). The Forest Preserve Retirement Fund, which provides retirement benefits to Forest Preserve District employees, is funded through a tax levied by the Forest Preserve District. The County is not responsible for making any payments to fund the Forest Preserve Retirement Fund. As such, information regarding the Forest Preserve District and the Forest Preserve Retirement Fund is not incorporated into this APPENDIX B of the Official Statement. For additional information on the Forest Preserve Retirement Fund, see Note VIII.E to the County CAFR.

APPENDIX C
Forms of Opinions of Co-Bond Counsel

[THIS PAGE INTENTIONALLY LEFT BLANK]

PROPOSED FORM OF OPINION OF CO-BOND COUNSEL – SERIES 2022A BONDS

[TO BE DATED CLOSING DATE]

The County of Cook, Illinois
Chicago, Illinois

Re: The County of Cook, Illinois, General Obligation Refunding Bonds, Series 2022A

Ladies and Gentlemen:

We have acted as Co-Bond Counsel in connection with the issuance by The County of Cook, Illinois (the “County”), of its \$268,530,000 aggregate principal amount General Obligation Refunding Bonds, Series 2022A (the “Series 2022A Bonds”). The Series 2022A Bonds are issued pursuant to the Counties Code of the State of Illinois, as supplemented and amended by the Local Government Debt Reform Act of the State of Illinois, and as further supplemented and, where necessary, superseded by the County’s home rule powers under Section 6 of Article VII of the 1970 Constitution of the State of Illinois.

The Series 2022A Bonds are being issued, along with the County’s Taxable General Obligation Refunding Bonds, Series 2022B, for the purpose of providing for the refunding of a portion of the County’s outstanding General Obligation Refunding Bonds, Series 2012C, and to pay certain costs of issuance relating to the Series 2022A Bonds.

The Series 2022A Bonds are dated the date hereof, bear interest at the rate of 5.00% per annum payable on May and November of each year, commencing November 15, 2022, and are due on November 15 of the years and in the amounts set forth below:

Year	Principal Amount (\$)
2022	3,235,000
2023	18,060,000
2024	74,220,000
2025	77,215,000
2026	2,660,000
2027	2,925,000
2028	3,270,000
2029	71,385,000
2033	15,560,000

The Series 2022A Bonds maturing on November 15, 2033, are subject to optional redemption prior to maturity at the option of the County on or after November 15, 2032, at a redemption price of par plus accrued interest to the date fixed for redemption, in whole or in part, as further set forth in the hereinafter defined Bond Ordinance.

In our capacity as Co-Bond Counsel, we have examined, among other items, the following:

- (a) a certified copy of the record of proceedings of the Board of Commissioners of the County (the “Proceedings”) adopting an ordinance authorizing the issuance of the Series 2022A Bonds on July 28, 2022 (as supplemented by a Bond Order, Notification of Sale and Direction to Levy Taxes, the “Bond Ordinance”);

- (b) a certified copy of the Bond Ordinance;
- (c) the form of Series 2022A Bond; and
- (d) such other documents and showings and related matters of law as we have deemed necessary to render these opinions.

Based upon the foregoing, we are of the opinion, under present law, that the Proceedings show lawful authority for the issuance of the Series 2022A Bonds by the County under the laws of the State of Illinois now in force, that the form of Series 2022A Bond is in due form of law, and that the Series 2022A Bonds, to the amount named, are valid and legally binding upon the County and are payable from unlimited ad valorem taxes levied on all of the taxable property in the County without limitation as to rate or amount.

The rights of the owners of the Series 2022A Bonds and the enforceability of the Series 2022A Bonds may be subject to bankruptcy, insolvency, reorganization, moratorium and other similar laws affecting creditors' rights heretofore and hereafter enacted and such enforcement may be subject to the exercise of judicial discretion in accordance with general principles of equity. Further, the rights of the owners of the Series 2022A Bonds and the enforceability of the Series 2022A Bonds may be subject to the valid exercise of the constitutional powers of the State of Illinois and the United States of America.

The Internal Revenue Code of 1986, as amended (the "*Code*"), sets forth certain requirements which must be met subsequent to the issuance and delivery of the Series 2022A Bonds for interest thereon to be and remain excluded from gross income for federal income tax purposes. Noncompliance with such requirements could cause the interest on the Series 2022A Bonds to be included in gross income for federal income tax purposes retroactive to the date of issue of the Series 2022A Bonds. The County has covenanted in the Bond Ordinance and the Tax Regulatory Agreement dated the date hereof (the "*Tax Certificate*") to comply with the applicable requirements of the Code in order to maintain the exclusion of the interest on the Series 2022A Bonds from gross income for federal income tax purposes pursuant to Section 103 of the Code. In addition, the County has made certain representations and certifications in the Tax Certificate. We have not independently verified the accuracy of those certifications and representations.

Under existing law, and assuming compliance with the tax covenants described above and the accuracy of the aforementioned representations and certifications of the County, interest on the Series 2022A Bonds is excluded from gross income for federal income tax purposes under Section 103 of the Code. We are also of the opinion that such interest is not treated as a preference item in calculating the alternative minimum tax imposed under the Code.

Except as expressly stated herein, we express no opinion as to any other federal, state, local or foreign tax consequences related to the ownership or disposition of, or the accrual or receipt of interest on, the Series 2022A Bonds. Furthermore, we express no opinion as to any federal, state, local or foreign tax consequences with respect to the Series 2022A Bonds, or the interest thereon, if any action is taken with respect to Series 2022A Bonds or the proceeds thereof upon the advice or approval of other counsel.

We have not been engaged nor have we undertaken to review the accuracy, completeness, or sufficiency of any official statement or other offering materials relating to the Series 2022A Bonds, and we express no opinion herein as to the accuracy, adequacy or completeness of the Official Statement or other offering materials relating to the Series 2022A Bonds.

The opinions expressed herein may be relied upon by the addressee and may not be relied upon by any other person without our prior written consent.

Our opinions represent our legal judgment based upon our review of the law and the facts that we deem relevant to render such opinion, and are not a guarantee of a result. This opinion is given as of the date hereof and we assume no obligation to revise or supplement this opinion to reflect any facts or circumstances that may hereafter come to our attention or any changes in law that may hereafter occur.

Very truly yours,

PROPOSED FORM OF OPINION OF CO-BOND COUNSEL – SERIES 2022B BONDS

[TO BE DATED CLOSING DATE]

The County of Cook, Illinois
Chicago, Illinois

Re: The County of Cook, Illinois, Taxable General Obligation Refunding Bonds, Series 2022B

Ladies and Gentlemen:

We have acted as Co-Bond Counsel in connection with the issuance by The County of Cook, Illinois (the “County”), of its \$9,175,000 aggregate principal amount Taxable General Obligation Refunding Bonds, Series 2022B (the “Series 2022B Bonds”). The Series 2022B Bonds are issued pursuant to the Counties Code of the State of Illinois, as supplemented and amended by the Local Government Debt Reform Act of the State of Illinois, and as further supplemented and, where necessary, superseded by the County’s home rule powers under Section 6 of Article VII of the 1970 Constitution of the State of Illinois.

The Series 2022B Bonds are being issued, along with the County’s General Obligation Refunding Bonds, Series 2022A, for the purpose of providing for the refunding of a portion of the County’s outstanding General Obligation Refunding Bonds, Series 2012C, and to pay certain costs of issuance relating to the Series 2022B Bonds.

The Series 2022B Bonds are dated the date hereof and are due on November 15 of the years and in the amounts and bear interest payable on May and November of each year, commencing November 15, 2022, at the respective rates per annum as set forth below:

<u>Year</u>	<u>Principal Amount (\$)</u>	<u>Interest Rate (%)</u>
2022	1,000,000	3.475
2023	1,000,000	3.625
2024	1,450,000	3.825
2025	1,550,000	3.930
2029	3,065,000	4.189
2033	1,110,000	4.578

The Series 2022B Bonds are subject to optional redemption prior to maturity at the option of the County on any business day at the Make-Whole Redemption Price, as further set forth in the hereinafter defined Bond Ordinance. In our capacity as Co-Bond Counsel, we have examined, among other items, the following:

- (a) a certified copy of the record of proceedings of the Board of Commissioners of the County (the “Proceedings”) adopting an ordinance authorizing the issuance of the Series 2022B Bonds on July 28, 2022 (as supplemented by a Bond Order, Notification of Sale and Direction to Levy Taxes, the “Bond Ordinance”);
- (b) a certified copy of the Bond Ordinance;
- (c) the form of Series 2022B Bond; and
- (d) such other documents and showings and related matters of law as we have deemed necessary to render these opinions.

Based upon the foregoing, we are of the opinion, under present law, that the Proceedings show lawful authority for the issuance of the Series 2022B Bonds by the County under the laws of the State of

Illinois now in force, that the form of Series 2022B Bond is in due form of law, and that the Series 2022B Bonds, to the amount named, are valid and legally binding upon the County and are payable from unlimited ad valorem taxes levied on all of the taxable property in the County without limitation as to rate or amount.

The rights of the owners of the Series 2022B Bonds and the enforceability of the Series 2022B Bonds may be subject to bankruptcy, insolvency, reorganization, moratorium and other similar laws affecting creditors' rights heretofore and hereafter enacted and such enforcement may be subject to the exercise of judicial discretion in accordance with general principles of equity. Further, the rights of the owners of the Series 2022B Bonds and the enforceability of the Series 2022B Bonds may be subject to the valid exercise of the constitutional powers of the State of Illinois and the United States of America.

We have not been engaged nor have we undertaken to review the accuracy, completeness, or sufficiency of any official statement or other offering materials relating to the Series 2022B Bonds, and we express no opinion herein as to the accuracy, adequacy or completeness of the Official Statement or other offering materials relating to the Series 2022B Bonds.

The opinions expressed herein may be relied upon by the addressee and may not be relied upon by any other person without our prior written consent.

Our opinions represent our legal judgment based upon our review of the law and the facts that we deem relevant to render such opinion, and are not a guarantee of a result. This opinion is given as of the date hereof and we assume no obligation to revise or supplement this opinion to reflect any facts or circumstances that may hereafter come to our attention or any changes in law that may hereafter occur.

Very truly yours,

[THIS PAGE INTENTIONALLY LEFT BLANK]

APPENDIX D
Book-Entry Only System

[THIS PAGE INTENTIONALLY LEFT BLANK]

BOOK-ENTRY ONLY SYSTEM

The following information has been furnished by DTC for use in this Official Statement and neither the County nor the Underwriters take any responsibility for its accuracy or completeness.

The Depository Trust Company (“DTC”), New York, New York, will act as securities depository for the Bonds. The Bonds will be issued as fully-registered bonds registered in the name of Cede & Co. (DTC’s partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully-registered bond certificate will be issued for each maturity of the Bonds, each in the aggregate principal amount of such maturity, and will be deposited with DTC.

DTC, the world’s largest securities depository, is a limited-purpose trust company organized under the New York Banking Law, a “banking organization” within the meaning of the New York Banking Law, a member of the Federal Reserve System, a “clearing corporation” within the meaning of the New York Uniform Commercial Code, and a “clearing agency” registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934, as amended (the “1934 Act”). DTC holds and provides asset servicing for over 3.5 million issues of U.S. and non-U.S. equity issues, corporate and municipal debt issues, and money market instruments (from over 100 countries) that DTC’s participants (“Direct Participants”) deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities through electronic computerized book-entry transfers and pledges between Direct Participants’ accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation (“DTCC”). DTCC is the holding company for DTC, National Securities Clearing Corporation (“NSCC”) and Fixed Income Clearing Corporation (“FICC”), all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly (“Indirect Participants”). DTC has a Standard & Poor’s rating of AA+. The DTC Rules applicable to its Participants are on file with the Securities and Exchange Commission (the “SEC”). More information about DTC can be found at www.dtcc.com.

Purchases of the Bonds under the DTC system must be made by or through Direct Participants, which will receive a credit for the Bonds on DTC’s records. The ownership interest of each actual purchaser of each Bond (“Beneficial Owner”) is in turn to be recorded on the Direct and Indirect Participants’ records. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial Owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the Bonds are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in the Bonds, except in the event that use of the book-entry system for the Bonds is discontinued.

To facilitate subsequent transfers, all Bonds deposited by Direct Participants with DTC are registered in the name of DTC’s partnership nominee, Cede & Co. or such other name as may be requested by an authorized representative of DTC. The deposit of Bonds with DTC and their registration in the name of Cede & Co. or such other DTC nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the Bonds; DTC’s records reflect only the identity of the Direct Participants to whose accounts such Bonds are credited, which may or may not be the Beneficial

Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time. Beneficial Owners of Bonds may wish to take certain steps to augment the transmission to them of notices of significant events with respect to the Bonds, such as redemptions, tenders, defaults, and proposed amendments to the Bond documents. For example, Beneficial Owners of Bonds may wish to ascertain that the nominee holding the Bonds for their benefit has agreed to obtain and transmit notices to Beneficial Owners. In the alternative, Beneficial Owners may wish to provide their names and addresses to the Trustee and request that copies of the notices be provided directly to them.

Redemption notices shall be sent to DTC. If less than all of the Bonds are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant to be redeemed.

Neither DTC nor Cede & Co. (nor any other DTC nominee) will consent or vote with respect to the Bonds unless authorized by a Direct Participant in accordance with DTC's MMI Procedures. Under its usual procedures, DTC mails an Omnibus Proxy to the County as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts the Bonds are credited on the record date (identified in a listing attached to the Omnibus Proxy).

Redemption proceeds, distributions, principal and interest payments on the Bonds will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts upon DTC's receipt of funds and corresponding detail information from the County or the Trustee, on the payable date in accordance with their respective holdings shown on DTC's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participant and not of DTC, the County or the Trustee, as applicable, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of redemption proceeds, distributions, and principal and interest payments to Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is the responsibility of the County, disbursement of such payments to Direct Participants will be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners will be the responsibility of Direct and Indirect Participants.

DTC may discontinue providing its services as securities depository with respect to the Bonds at any time by giving reasonable notice to the County. Under such circumstances, in the event that a successor securities depository is not obtained, bond certificates are required to be printed and delivered. The County may decide to discontinue use of the system of book-entry transfers through DTC (or a successor securities depository). In that event, bond certificates are required to be printed and delivered.

The foregoing concerning DTC and DTC's book-entry system has been obtained from sources that the County believes to be reliable, but the County takes no responsibility for the accuracy thereof.

NEITHER THE COUNTY NOR THE UNDERWRITERS HAVE ANY RESPONSIBILITY OR OBLIGATION TO THE PARTICIPANTS OR THE BENEFICIAL OWNERS WITH RESPECT TO THE ACCURACY OF ANY RECORDS MAINTAINED BY DTC, CEDE & CO. OR ANY PARTICIPANT; THE PAYMENT BY DTC OR ANY PARTICIPANT OF ANY AMOUNT WITH RESPECT TO THE PRINCIPAL OF, PREMIUM, IF ANY, OR INTEREST ON THE BONDS; ANY NOTICE WHICH IS PERMITTED OR REQUIRED TO BE GIVEN TO BENEFICIAL OWNERS UNDER THE BOND

ORDINANCE; THE SELECTION BY DTC OR ANY PARTICIPANT OF ANY PERSON TO RECEIVE PAYMENT IN THE EVENT OF A PARTIAL REDEMPTION OF THE BONDS; OR ANY CONSENT GIVEN OR OTHER ACTION TAKEN BY DTC.

[THIS PAGE INTENTIONALLY LEFT BLANK]

APPENDIX E
Demographic and Economic Information

[THIS PAGE INTENTIONALLY LEFT BLANK]

APPENDIX E

DEMOGRAPHIC AND ECONOMIC INFORMATION

This Appendix E presents certain historical information relating to the County. Such information is provided as of the respective dates and for the periods specified herein and may have occurred before the COVID-19 pandemic and before realizing the economic impact of measures instituted to slow the spread of COVID-19. Accordingly, the historical information in this Appendix E may not be indicative of future results or performance due to these and other factors. For additional information regarding certain impacts of the COVID-19 pandemic on the County, see “CERTAIN IMPACTS OF THE COVID-19 PANDEMIC ON THE COUNTY” and “INVESTMENT CONSIDERATIONS – The COVID-19 Pandemic” in the Official Statement.

Demographic and economic developments are best understood in a comparative framework. This appendix provides material for analyzing and comparing trends in the County with those in other major counties in the nation. To maximize the value of the comparisons, the counties utilized in the tables were selected on the basis of several criteria in addition to size. These include:

(1) Governmental functions similar in magnitude and scope to those of the County. This requirement resulted in the exclusion of counties that exist in form but perform no, or only minor, government activities. This group includes, among others, the five counties comprising New York City; Middlesex, Massachusetts; and such city-counties as Philadelphia and Baltimore.

(2) A large central city within the county. This requirement led to the exclusion of such populous counties as Orange, California and Nassau and Suffolk in New York State.

Several tables in this appendix compare economic trends in metropolitan areas rather than in counties since timely data are available only on a metropolitan area basis.

Extensive revisions have been made to the definitions of U.S. metropolitan areas. These changes have not affected all metropolitan areas equally. For example, “Primary Metropolitan Statistical Areas” are now obsolete. Under the 2000 standards, “Metropolitan Statistical Area” (“MSA”) is the term used for the basic set of county-based areas defined under this classification. In addition, eleven (11) MSAs were deemed large enough to be subdivided into “Metropolitan Divisions” (“MD”). The MDs are the most comparable in concept to the now obsolete Primary Metropolitan Statistical Area.

Housing Market

As an indicator of the housing market of the County, S&P CoreLogic Case-Shiller Home Price Indices have been used to analyze home price growth since October 2012. The S&P CoreLogic Case-Shiller Home Price Indices are designed to be a reliable and consistent benchmark of housing prices in the U.S. Their purpose is to measure the average change in home prices in one or more particular geographic markets. The S&P CoreLogic Case-Shiller U.S. National Home Price Index (the “*U.S. National Index*”) tracks the value of single-family housing within the U.S. The index is a composite of single-family home price indices for the nine U.S. Census divisions and is calculated quarterly. Two additional indices are calculated monthly based on aggregate information from 10 and 20 major metropolitan areas nationwide.

As shown in the table below, home prices in the Chicago MSA have increased by approximately 12.91% during the twelve-month period ended April 2022, according to S&P CoreLogic Case-Shiller. Comparatively, the S&P CoreLogic Case-Shiller 20-City Composite Index and S&P Case-Shiller U.S. National Home Price Index, increased 20.39% and 21.22%, respectively, during the same period.

APPENDIX F
Summary of Certain Provisions of the Bond Ordinance

[THIS PAGE INTENTIONALLY LEFT BLANK]

APPENDIX F

SUMMARY OF CERTAIN PROVISIONS OF THE BOND ORDINANCE

The following is a summary of certain provisions of the Bond Ordinance and does not purport to be complete. Reference is made to the Bond Ordinance for the complete provisions thereof.

Bond Fund

The Bond Fund will be held and maintained as a separate and segregated account by the Trustee and the Trustee may establish a separate account within the Bond Fund for each Series of Bonds issued under the Bond Ordinance. Accrued interest and premium, if any, received upon delivery of the Bonds shall be deposited into the Bond Fund and applied to pay first interest coming due on the Bonds.

The Pledged Taxes will either be deposited into the Bond Fund and used solely and only for paying the principal of and interest on the Bonds or be used to reimburse a fund or account from which advances to the Bond Fund may have been made to pay principal of or interest on the Bonds prior to receipt of Pledged Taxes. Interest income, investment profit earned or other amounts accumulated in the Bond Fund and not expected to be needed to pay debt service shall be retained in the Bond Fund for payment of the principal of and interest on the Bonds on the interest payment date next after such interest or profit is received or, to the extent lawful and as determined by the Chief Financial Officer of the County (the “*Chief Financial Officer*”), transferred to such other funds as may be determined.

Investment of Funds

The moneys on deposit in the Bond Fund may be invested from time to time by the Trustee at the written direction of the Chief Financial Officer in any investment of proceeds of Bonds as may be permitted under the investment policy of the County and as further described in the Bond Ordinance. Any such investments may be sold from time to time by the Trustee without further direction from the County as moneys may be needed for the purposes for which the Bond Fund has been created. In addition, the Chief Financial Officer shall direct the Trustee to sell such investments when necessary to remedy any deficiency in the Bond Fund or any accounts created therein. All other investment earnings shall be attributed to the account for which the investment was made.

Payment and Discharge

The Bonds may be discharged, payment provided for, and the County’s liability terminated as follows:

(a) *Discharge of Indebtedness.* If (i) the County shall pay or cause to be paid to the registered owners of Bonds the principal, premium, if any, and interest to become due thereon at the times and in the manner stipulated in such Bonds and the Bond Ordinance, (ii) all fees and expenses of the Trustee shall have been paid, and (iii) the County shall keep, perform and observe all and singular the covenants and promises in such Bonds and in the Bond Ordinance expressed as to be kept, performed and observed by it or on its part, then the rights granted by the Bonds and the Bond Ordinance shall cease, determine and be void. If the County shall pay or cause to be paid to the registered owners of a particular series of Bonds, or of a particular maturity thereof, the principal, premium, if any, and interest to become due thereon at the times and in the manner stipulated in such Bonds and the Bond Ordinance, such Bonds shall cease to be entitled to any lien, benefit or security under the Bond Ordinance, and all covenants, agreements and obligations of the County to the holders of such Bonds shall thereupon cease, terminate and become void and discharged and satisfied.

(b) *Provision for Payment.* Bonds for the payment or redemption or prepayment of which sufficient monies or sufficient Defeasance Obligations (as defined in the Bond Ordinance) have been deposited with the Trustee or an escrow agent having fiduciary capacity (whether upon or prior to the maturity or the redemption date of such Bonds), and accompanied by an express declaration of defeasance of such Bonds by the County Board, will be deemed to be paid within the meaning of the Bond Ordinance and no longer outstanding under the Bond Ordinance; provided, however, that if such Bonds are to be redeemed prior to the maturity thereof, notice of such redemption will have been duly given as provided in the Bond Ordinance or arrangements satisfactory to the Trustee shall have been made for the giving thereof. Defeasance Obligations will be considered sufficient only if said investments mature and bear interest in such amounts and at such times as will assure sufficient cash to pay currently maturing interest or principal and redemption premiums if any when due on such Bonds without rendering the interest on any Tax-Exempt Bonds taxable under the Code. The County may at any time surrender to the Trustee for cancellation by it any Bonds previously authenticated and delivered under the Bond Ordinance, which the County may have acquired in any manner whatsoever, and such Bonds, upon such surrender and cancellation, will be deemed to be paid and retired.

(c) *Termination of County's Liability.* Upon the discharge of indebtedness under paragraph (a) above, or upon the deposit with the Trustee of sufficient money and Defeasance Obligations (such sufficiency being determined as provided in paragraph (b) above) for the retirement of any particular Bond or Bonds, all liability of the County in respect of such Bond or Bonds will cease, determine and be completely discharged and the holders thereof shall thereafter be entitled only to payment out of the money and the proceeds of the Defeasance Obligations deposited with aforesaid for their payment.

Events of Default

Each of the following events constitutes an "Event of Default" under the Bond Ordinance:

(A) If default shall be made in the payment of the principal of or redemption premium, if any, or Make-Whole Redemption Price of, on any outstanding Bond when the same shall become due and payable, either at maturity or by proceedings for redemption or otherwise; or

(B) If default shall be made in the payment of any installment of interest on any outstanding Bond when and as such installment of interest shall become due and payable; or

(C) If the County shall (1) commence a voluntary case under the federal bankruptcy laws or any other applicable federal or state bankruptcy, insolvency or other similar law, (2) make an assignment for the benefit of its creditors, (3) consent to the appointment of a receiver of itself or of the whole or any substantial part of its property, or (4) be adjudicated a bankrupt or any petition for relief is filed in respect of an involuntary case under the federal bankruptcy laws or any other applicable federal or state bankruptcy, insolvency or other similar law and such order continue in effect for a period of 60 days without stay or vacation; or

(D) If a court of competent jurisdiction shall enter an order, judgment or decree appointing a receiver of the County, or of the whole or any substantial part of its property, or approving a petition seeking reorganization of the County under the federal bankruptcy laws or any other applicable federal or state law or statute and such order, judgment or decree shall not be vacated or set aside or stayed within 60 days from the date of the entry thereof; or

(E) If under the provisions of any other law for the relief or aid of debtors, any court of competent jurisdiction shall assume custody or control of the County or of the whole or any substantial

part of its property, and such custody or control shall not be terminated or stayed within 60 days from the date of assumption of such custody or control.

Enforcement

Upon the happening and continuance of any Event of Default, the Trustee may, and upon the written request of the registered owners of 25% in aggregate principal amount of the Bonds affected by the Event of Default and then outstanding under the Bond Ordinance shall proceed to protect and enforce its rights and the rights of the holders of the Bonds by a suit, action or special proceeding in equity or at law, by mandamus or otherwise, either for the specific performance of any covenant or agreement contained in the Bond Ordinance or in aid or execution of any power granted in the Bond Ordinance or for any enforcement of any proper legal or equitable remedy as the Trustee, being advised by counsel, shall deem most effectual to protect and enforce the rights aforesaid.

During the continuance of an Event of Default, all Pledged Taxes received by the Trustee under the Bond Ordinance from the County shall be applied by the Trustee in accordance with the terms of the Bond Ordinance described in this APPENDIX F under “Application of Monies After Default.”

Notices of Default Under Ordinance

Promptly after the occurrence of an Event of Default or the occurrence of an event which, with the passage of time or the giving of notice or both, would constitute an Event of Default, the Trustee shall mail to the Bondholders at the address shown on the Bond Register notice of all Events of Default or such events known to the Trustee unless such defaults or prospective defaults shall have been cured before the giving of such notice.

Termination of Proceedings by Trustee

In case any proceedings taken by the Trustee on account of any default shall have been discontinued or abandoned for any reason, or shall have been determined adversely to the Trustee, then and in every such case the County, the Trustee, and the Bondholders shall be restored to their former positions and rights under the Bond Ordinance, respectively, and all rights, remedies and powers of the Trustee shall continue as though no such proceeding had been taken.

Right of Holders to Control Proceedings

Anything in the Bond Ordinance to the contrary notwithstanding, the registered owners of a majority in aggregate principal amount of the Bonds then outstanding shall have the right, by an instrument in writing executed and delivered to the Trustee, to direct the method and place of conducting all remedial proceedings to be taken by the Trustee under the Bond Ordinance in respect of the Bonds, respectively; provided that such direction shall not be otherwise than in accordance with law and the Trustee shall be indemnified to its satisfaction against the costs, expenses and liabilities to be incurred therein or thereby.

Right of Holders to Institute Suit

No holder of any of the Bonds shall have any right to institute any suit, action or proceeding in equity or at law for the execution of any trust under the Bond Ordinance, or for any other remedy under the Bond Ordinance or on the Bonds unless such holder previously shall have given to the Trustee written notice of an Event of Default as provided in the Bond Ordinance, and unless also the registered owners of 25% in aggregate principal amount of the Bonds then outstanding shall have made written request of the Trustee after the right to exercise such powers, or right of action, as the case may be, shall have accrued,

and shall have afforded the Trustee a reasonable opportunity either to proceed to exercise the powers granted in the Bond Ordinance, or to institute such action, suit, or proceeding in its name; and unless, also, there shall have been offered to the Trustee security and indemnity satisfactory to it against the costs, expenses and liabilities to be incurred therein or thereby, and the Trustee shall have refused or neglected to comply with such request within a reasonable time; and such notification, request and offer of indemnity are declared in every such case, at the option of the Trustee, to be conditions precedent to the execution of the powers and trusts of the Bond Ordinance or for any other remedy under the Bond Ordinance; it being understood and intended that no one or more holders of the Bonds shall have any right in any manner whatever by his, her or their action to affect, disturb or prejudice the security of the Bond Ordinance, or to enforce any right under the Bond Ordinance, except in the manner therein provided, and that all proceedings at law or in equity shall be instituted, had and maintained in the manner provided in the Bond Ordinance and for the equal benefit of all holders of the outstanding applicable Bonds.

Nothing contained in the Bond Ordinance shall, however, affect or impair the right of any Bondholder, which is absolute and unconditional, to enforce the payment of the principal of and redemption premium, if any, and interest on his or her Bonds, respectively, out of the Bond Fund or the obligation of the County to pay the same, at the time and place expressed in the Bonds.

Suits by Trustee

All rights of action under the Bond Ordinance, or under any of the Bonds, enforceable by the Trustee, may be enforced by it without the possession of any of the Bonds or the production thereof at the trial or other proceeding relative thereto, and any such suit, or proceeding, instituted by the Trustee shall be brought in its name for the ratable benefit of the holders of the Bonds affected by such suit or proceeding, subject to the provisions of the Bond Ordinance.

Remedies Cumulative

No remedy under the Bond Ordinance conferred upon or reserved to the Trustee or the owners of the Bonds, is intended to be exclusive of any other remedy or remedies, and each and every such remedy shall be cumulative, and shall be in addition to every other remedy given under the Bond Ordinance or now or hereafter existing at law or in equity or by statute.

Waiver of Default

No delay or omission of the Trustee or of any owner of Bonds to exercise any right or power accruing upon any default shall impair any such right or power or shall be construed to be a waiver of any such default, or an acquiescence therein; and every power and remedy given to the Trustee and the owners of Bonds, respectively, may be exercised from time to time, and as often as may be deemed expedient. In the event any Event of Default shall be waived by the owners of Bonds or the Trustee, acting at the direction, or with the consent of, the owners of such Bonds, such waiver shall be limited to the particular Event of Default so waived and shall not be deemed to waive any other Event of Default under the Bond Ordinance.

Application of Monies After Default

The County covenants that if an Event of Default shall happen and shall not have been remedied, the Trustee shall apply all monies, securities and funds received by the Trustee pursuant to any right given or action taken as follows:

(1) First, to the payment of all reasonable costs and expenses of collection, fees, and other amounts due to the Trustee under the Bond Ordinance; and thereafter

(2) Second, to the payment of amounts, if any, payable to the United States Treasury pursuant to the tax agreement executed and delivered by the County with respect to the Bonds;

(3) Third, all such remaining monies shall be applied as follows:

(A) first, to the payment to the persons entitled thereto of all installments of interest on outstanding Bonds then due, in the order of the maturity of such installments, and, if the amount available shall not be sufficient to pay in full any particular installment, then to the payment ratably, according to the amounts due on such installment, to the persons entitled thereto, without any discrimination or preference; and

(B) second, to the payment to the persons entitled thereto of the unpaid principal of and premium, if any, on any of the outstanding Bonds which shall have become due (other than Bonds matured or called for redemption for the payment of which monies are held pursuant to the provisions of the Bond Ordinance), in the order of their due dates, with interest upon such Bonds from the respective dates upon which they became due, and, if the amount available shall not be sufficient to pay in full outstanding Bonds due on any particular date, together with such premium, then to the payment ratably according to the amount of such principal and premium due on such date, and then to the payment of such principal ratably according to the amount of such principal due on such date, to the persons entitled thereto without any discrimination or preference.

Whenever monies are to be applied by the Trustee pursuant to the provisions described above, such monies shall be applied by the Trustee at such times, and from time to time, as the Trustee shall determine upon consultation with the County, having due regard to the amount of such monies available for application and the likelihood of additional monies becoming available for such application in the future. The deposit of such monies with the paying agents, or otherwise setting aside such monies, in trust for the proper purpose, shall constitute proper application by the Trustee; and the Trustee shall incur no liability whatsoever to the County, to any Bondholder or to any other person for any delay in applying any such funds, so long as the Trustee acts with reasonable diligence, having due regard to the circumstances, and ultimately applies the same in accordance with such provisions of the Bond Ordinance as may be applicable at the time of application by the Trustee. Whenever the Trustee shall apply such funds, it shall fix the date (which shall be an interest payment date unless the Trustee shall deem another date more suitable) upon which such application is to be made and upon such date interest on the amounts of principal paid on such date shall cease to accrue. The Trustee shall give such notice as it may deem appropriate of the fixing of any such date and of the endorsement to be entered on each Bond on which payment shall be made, and shall not be required to make payment to the holder of any unpaid Bond until such Bond shall be presented to the Trustee for appropriate endorsement, or some other procedure deemed satisfactory by the Trustee.

Supplemental Ordinances

Supplemental ordinances may be passed as follows:

(a) *Supplemental Ordinances Not Requiring Consent of the Owners of Bonds.* The County by the County Board, and the Trustee from time to time and at any time, subject to the conditions and restrictions in the Bond Ordinance, may pass and accept an ordinance or ordinances supplemental to the Bond Ordinance, which ordinance or ordinances thereafter shall form a part of the Bond Ordinance, for any one or more of the following purposes:

(i) to add to the covenants and agreements of the County in the Bond Ordinance, other covenants and agreements thereafter to be observed or to surrender, restrict or limit any right or power reserved in the Bond Ordinance to or conferred upon the County;

(ii) to make such provisions for the purpose of curing any ambiguity, or of curing, correcting or supplementing any defective provision contained in the Bond Ordinance, or in regard to matters or questions arising under the Bond Ordinance, as the County may deem necessary or desirable and not inconsistent with the Bond Ordinance and which in the opinion of the Trustee shall not adversely affect the interests of the registered owners of the Bonds, as evidenced by an opinion of counsel delivered to the Trustee;

(iii) to designate one or more tender or similar agents of the Trustee, bond registrars or paying agents;

(iv) to comply with the provisions of the Bond Ordinance relating to payment and discharge when money and the Defeasance Obligations designated therein sufficient to provide for the retirement of Bonds shall have been deposited with the Trustee; and

(v) as to Bonds which are authorized but unissued under the Bond Ordinance to change in any way the terms upon which such Bonds may be issued or secured.

Any supplemental ordinance authorized by the above-described provisions may be passed by the County and accepted by the Trustee without the consent of or notice to the registered owners of any of the Bonds at the time outstanding, notwithstanding any of the provisions of paragraph (b) below, but the Trustee shall not be obligated to accept any such supplemental ordinance which affects the Trustee's own rights, duties or immunities under the Bond Ordinance or otherwise.

(b) *Supplemental Ordinances Requiring Consent of the Owners of Bonds.* With the consent of the registered owners of not less than a majority in aggregate principal amount of the Bonds at the time outstanding, the County, by the County Board, may pass, and the Trustee may accept from time to time and at any time an ordinance or ordinances supplemental to the Bond Ordinance for the purpose of adding any provisions to or changing in any manner or eliminating any of the provisions of the Bond Ordinance or of any supplemental ordinance; *provided* that no such modification or amendment shall extend the maturity or reduce the interest rate on or permit the creation of a preference or priority of any outstanding Authorized Bond or outstanding Authorized Bonds over any other outstanding Bond or outstanding Bonds, or otherwise alter or impair the obligation of the County to pay the principal, interest or redemption premium, if any, at the time and place and at the rate and in the currency provided therein of any Bond, without the express consent of the registered owner of such Bond or permit the creation of a preference or priority of any Bond or Bonds over any other Bond or Bonds, or reduce the percentage of Bonds, respectively, required for the affirmative vote or written consent to an amendment or modification, or deprive the registered owners of the Bonds (except as aforesaid) of the right to payment of the Bonds from the Pledged Taxes or alter or impair the obligations of the County with respect to tax exempt status, the registration, transfer or exchange or notice of redemption of Bonds without the consent of the registered owners of all the outstanding Bonds affected; nor shall any such modification or amendment reduce the percentage of the registered owners of outstanding Bonds required for the written consent of such modification or amendment without the consent of the owners of all of the outstanding Bonds. Upon receipt by the Trustee of a certified copy of such ordinance and upon the filing with the Trustee of evidence of the consent of the owners of Authorized Bonds as aforesaid, the Trustee shall accept unless such supplemental ordinance affects the Trustee's own rights, duties or immunities under the Bond Ordinance or otherwise, in which case the Trustee may in its discretion, but shall not be obligated to, accept such supplemental ordinance.

Promptly after the passage by the County and the acceptance by the Trustee of any supplemental ordinance pertaining to the Bonds pursuant to the provisions described in paragraph (b) above, the County shall publish a notice, setting forth in general terms the substance of such supplemental ordinance, at least once in a financial newspaper or journal printed in the English language, customarily published on each business day and of general circulation among dealers in municipal securities in the City of New York, New York. If, because of temporary or permanent suspension of the publication or general circulation of any financial newspaper or journal or for any other reason it is impossible or impractical to publish such notice of supplemental ordinance in the manner herein provided, then such publication in lieu thereof as shall be made with the approval of the Trustee shall constitute sufficient publication of notice. Any failure of the County to give such notice, or any defect therein, shall not, however, in any way impair or affect the validity of any such supplemental ordinance.

APPENDIX G
Form of Continuing Disclosure Undertaking

[THIS PAGE INTENTIONALLY LEFT BLANK]

**CONTINUING DISCLOSURE UNDERTAKING
FOR THE PURPOSE OF PROVIDING
CONTINUING DISCLOSURE INFORMATION
UNDER PARAGRAPH (b)(5) OF RULE 15c2-12**

This Continuing Disclosure Undertaking (this “*Undertaking*”) dated _____, 2022 is executed and delivered by The County of Cook, Illinois, a home rule county organized under the Constitution and laws of the State of Illinois (the “*County*”), in connection with the issuance of its \$268,530,000 General Obligation Refunding Bonds, Series 2022A (the “*Series 2022A Bonds*”) and its \$9,175,000 Taxable General Obligation Refunding Bonds, Series 2022B (the “*Series 2022B Bonds*” and together with the Series 2022A Bonds, the “*Bonds*”). The Bonds are being issued pursuant to an ordinance adopted by the Board of Commissioners of the County on July 28, 2022, as supplemented by a Bond Order, Notification of Sale and Direction to Levy Taxes (together, the “*Bond Ordinance*”).

In consideration of the issuance of the Bonds by the County and the purchase of such Bonds by each Participating Underwriter (as defined below), the County covenants and agrees as follows:

1. PURPOSE OF THIS UNDERTAKING. This Undertaking is executed and delivered by the County as of the date set forth above for the benefit of the Beneficial Owners (as defined herein) of the Bonds and in order to assist each Participating Underwriter in complying with the requirements of the Rule (as defined below). The County will be the only "obligated person" (as defined in the Rule) with respect to the Bonds at the time the Bonds are delivered to each Participating Underwriter.

2. DEFINITIONS. The terms set forth below shall have the following meanings in this Undertaking unless the context clearly otherwise requires.

“*Annual Filing*” means any information provided by the County pursuant to and as set forth in Section 4 and *Exhibit I*.

“*Annual Filing Date*” means the date by which the Annual Filing is to be filed with the Repository, which must not be later than November 30th of each year commencing with November 30, 2022; *provided, however*, if November 30th falls on a day that is not a Business Day, the Annual Filing will be due on the first Business Day thereafter. The County may adjust the Annual Filing Date upon a change of the then current Fiscal Year by providing written notice of such change and the new Annual Filing Date to the Repository.

“*Annual Financial Information*” means the information described in *Exhibit I*.

“*Audited Financial Statements*” means the audited financial statements of the County for the prior Fiscal Year: (a) prepared in accordance with the principles and standards for financial reporting set forth by the Government Accounting Standards Board; (b) in accordance with accounting principles generally accepted in the United States of America; (c) audited by various

firms of independent auditors retained by the County; and/or (d) subject to any express requirements of State law.

“Beneficial Owner” means any beneficial owner of the Bonds. Beneficial ownership is to be determined consistent with the definition thereof contained in Rule 13d-3 of the Commission, or, in the event such provisions do not adequately address the situation at hand (in the opinion of nationally recognized bond counsel), beneficial ownership is to be determined based upon ownership for federal income tax purposes.

“Business Day” means a day other than: (a) Saturday or a Sunday, (b) a day on which banks are required or authorized by law to be closed, (c) a day on which the County is authorized or required to be closed, or (d) a day on which the New York Stock Exchange is closed.

“Commission” means the United States Securities and Exchange Commission.

“Comprehensive Annual Financial Report” means the comprehensive annual financial report of the County for the prior Fiscal Year.

“Dissemination Agent” means any entity designated as dissemination agent by the County. In the absence of such designation, the County will act as the Dissemination Agent.

“EMMA” means the Electronic Municipal Market Access system, a service of the MSRB, or any successor thereto.

“Financial Obligation” means a (a) debt obligation, (b) derivative instrument entered into in connection with, or pledged as security or a source of payment for, an existing or planned debt obligation, or (c) guarantee of (a) or (b), *provided, however*, that the term Financial Obligation does not include municipal securities as to which a final official statement has been provided to the MSRB consistent with the Rule.

“Fiscal Year” means the fiscal year of the County, which currently is the twelve month period beginning December 1 and ending on November 30 of the following year or any such other twelve month period designated by the County, from time to time, to be its fiscal year.

“MSRB” means the Municipal Securities Rulemaking Board established pursuant to Section 15B(b)(1) of the Securities Exchange Act of 1934, as amended.

“Official Statement” means the Official Statement, dated August 11, 2022 and relating to the Bonds.

“Participating Underwriter” means each broker, dealer or municipal securities dealer acting as an underwriter in the primary offering of the Bonds.

“Notice Event” means the occurrence of any of the events with respect to the Bonds set forth in Section 5 and *Exhibit II*.

“Notice Event Filing” means any notice of the occurrence of a Notice Event that the County files, or causes to be filed, with the Repository pursuant to and as set forth in Section 5 and *Exhibit II*.

“Repository” means each entity authorized and approved by the Commission from time to time to act as a repository for purposes of complying with the Rule. As of the date hereof, the only Repository recognized by the Commission for such purpose is the MSRB, which currently accepts filings through the EMMA website at <http://emma.msrb.org>.

“Rule” means Rule 15c2-12 of the Commission promulgated pursuant to Securities Exchange Act of 1934 in effect as of the date hereof.

“State” means the State of Illinois.

3. IDENTIFYING INFORMATION. All documents provided to the Repository pursuant to this Undertaking shall be accompanied by identifying information as prescribed by the MSRB, including the initial CUSIP numbers assigned to the Bonds as set forth in *Exhibit III*.

4. ANNUAL FILING. Subject to Section 8 of this Undertaking, the County will file, or caused to be filed, the Annual Filing, which will include the Annual Financial Information and the Audited Financial Statements, with the Repository in the appropriate format required by the MSRB and no later than the Annual Filing Date. If Audited Financial Statements are not available on the Annual Filing Date, unaudited financial statements (if any) shall be included in the Annual Filing, and the Audited Financial Statements will be filed with EMMA within 30 days after they become available. The Annual Filing will be filed on the Repository in a word-searchable portable document format (PDF), without regard to diagrams, images and other non-textual elements.

The County reserves the right to modify from time to time the specific types of information provided in the Annual Filing or the format of the presentation of such information in the Annual Filing, to the extent necessary or appropriate in the judgment of the County. To the extent that any of the Annual Financial Information includes information that is no longer available and/or prepared by the County and/or its consultants, a statement to that effect will satisfy the requirements of this Section 4.

If any amendment is made to the Annual Financial Information required to be filed pursuant to Section 7 of this Undertaking, the Annual Filing for the year in which such amendment is made should contain a narrative description of the reasons for such amendment and the impact of the change on the type of information being provided.

To the extent that the Annual Financial Information is included in the Audited Financial Statements, it need not be separately delivered to the Repository. To the extent that the Annual Financial Information and/or the Audited Financial Statements are included in the Comprehensive Annual Financial Report and the Comprehensive Annual Financial Report is filed with the Repository, the Annual Financial Information and/or the Audited Financial Statements, as applicable, need not be separately delivered to the Repository.

All or a portion of the Annual Financial Information and the Audited Financial Statements may be included by reference to other documents which have been submitted to the Repository or filed with the Commission. If the information included by reference is contained in an official statement, such official statement must be available from the Repository. The County shall clearly identify each such item of information included by reference.

5. NOTICE EVENT FILING. Subject to Section 8 of this Undertaking, the County will file, or caused to be filed, a Notice Event Filing with the Repository, in the appropriate format required by the MSRB and in a timely manner not in excess of ten Business Days after the occurrence of such Notice Event. Notwithstanding the foregoing, notice of optional or unscheduled redemption of any Bonds or defeasance of any Bonds need not be given under this Undertaking any earlier than the notice (if any) of such redemption or defeasance is given to the Beneficial Owners of the Bonds pursuant to the Bond Ordinance.

In addition, the County shall file, or cause to be filed, a Notice Event Filing with the Repository, in the appropriate format required by the MSRB and in a timely manner, after the occurrence of a failure of the County to provide the Annual Filing on or before the Annual Filing Date with respect to the Bonds.

Each Notice Event Filing will be filed on the Repository in a word-searchable portable document format (PDF), without regard to diagrams, images and other non-textual elements.

The County reserves the right to exclude from any Annual Filing and/or Notice of Event Filing any information which is exempt from disclosure under the State Freedom of Information Act and/or is not permitted to be publicly disclosed under any applicable law, including, without limitation, any data confidentiality or privacy law, or other legal requirement.

6. DEFAULTS; REMEDIES. The County shall be in default of its obligations hereunder if it fails or refuses to carry out or perform its obligations hereunder for a period of five Business Days following notice of default given in writing to the County by a Beneficial Owner, unless such default is cured within such five Business Day notice period. An extension of such five Business Day cure period may be granted for good cause (in the reasonable judgment of the Beneficial Owner(s) granting the extension) by written notice from the Beneficial Owner(s) who gave the default notice.

If a default occurs and continues beyond the cure period specified above, the Beneficial Owner that provided the notice of default may seek, as its sole and exclusive remedy, specific performance of the County's obligations hereunder as the sole and exclusive remedy available upon any such default. Any such action must be filed in the Circuit Court of Cook County.

Notwithstanding any provision of this Undertaking or the Bond Ordinance to the contrary, no default under this Undertaking shall constitute a default or event of default under the Bond Ordinance.

7. AMENDMENTS; WAIVER. Notwithstanding any other provision of this Undertaking, the County may amend this Undertaking, and any provision of this Undertaking may be waived, if:

(a) The amendment or waiver is made in connection with a change in circumstances that arises from a change in legal requirements, including without limitation, pursuant to a “no-action” letter issued by the Commission, a change in law, or a change in the identity, nature, or status of the County, or type of business conducted; or

(b) This Undertaking, as amended, or the provision, as waived, would have complied with the requirements of the Rule at the time of the primary offering of the Bonds, after taking into account any amendments or interpretations of the Rule, as well as any change in circumstances; and

(c) The amendment or waiver does not materially impair the interests of the Beneficial Owners, as determined by an unqualified opinion of counsel expert in federal securities laws retained by the County or by the approving vote of the Beneficial Owners of the Bonds pursuant to the Bond Ordinance.

No amendment, waiver or termination of all or any part of this Undertaking shall be construed to be, or operate as, amending, waiving, or terminating in any way the provisions of the Bond Ordinance.

8. TERMINATION OF UNDERTAKING. This Undertaking shall terminate upon: (a) the defeasance, redemption or payment in full of all Bonds, in accordance with the Bond Ordinance or (b) the delivery of an opinion of counsel expert in federal securities laws retained by the County to the effect that continuing disclosure is no longer required under the Rule as to the Bonds.

9. DISSEMINATION AGENT. At any time during the term of this Undertaking, the County may appoint and/or remove a Dissemination Agent in connection with the Bonds.

10. ADDITIONAL INFORMATION. Nothing in this Undertaking shall be deemed to prevent the County from (a) disseminating any other information, using the means of dissemination set forth in this Undertaking or any other means of communication and/or (b) including any other information in any Annual Filing or Notice Event Filing, in addition to that which is required by this Undertaking. If the County chooses to disseminate such information in addition to that which is specifically required by this Undertaking whether by including it in any Annual Filing or Notice Event Filing or otherwise, the County shall have no obligation under this Undertaking to update such information or include it in any future Annual Filing or Notice Event Filing.

11. BENEFICIARIES. Neither this Undertaking, nor the performance by the County hereunder, shall create any third-party beneficiary rights, shall be directly enforceable by any third-party, or shall constitute a basis for a claim by any person except as expressly provided herein and except as required by applicable law, including, without limitation, the Rule; *provided, however*, each Beneficial Owner is hereby made third-party beneficiary hereof and shall have the right to enforce the obligations of the County hereunder pursuant to Section 6 hereof.

12. ASSIGNMENT. The County shall not transfer its obligations under the Bond Ordinance unless the transferee agrees to assume all obligations of the County under this Undertaking.

13. GOVERNING LAW AND JURISDICTION. This Undertaking shall be governed by and interpreted in accordance with the laws of the State and applicable federal law, and any action to enforce the terms hereof shall be subject only to the jurisdiction of the Circuit Court of Cook County.

14. SEVERABILITY.In case any part of this Undertaking is held to be illegal or invalid, such illegality or invalidity shall not affect the remainder or any other section of this Undertaking. This Undertaking shall be construed or enforced as if such illegal or invalid portion were not contained therein, nor shall such illegality or invalidity of any application of this Undertaking affect any legal and valid application.

THE COUNTY OF COOK, ILLINOIS

By: _____
Acting Chief Financial Officer and
County Comptroller

Address: The County of Cook, Illinois
118 North Clark Street
Room 1127
Chicago, Illinois 60602

EXHIBIT I

ANNUAL FINANCIAL INFORMATION

(a) financial information and statistical data generally consistent with that contained in the tables under the captions “TAXATION OF REAL PROPERTY – STATISTICAL INFORMATION” and “DEBT INFORMATION” in the Official Statement, and

(b) financial information and statistical data generally consistent with that contained in the Tables 1-3 and 5-9 in APPENDIX B – “COUNTY EMPLOYEES’ AND OFFICERS’ ANNUITY AND BENEFIT FUND OF COOK COUNTY” attached to the Official Statement (collectively referred to as the “*Third-Party Sourced Pension Tables*”).

The information contained in the Third-Party Sourced Pension Tables is sourced from documents published by the County Employees’ and Officers’ Annuity and Benefit Fund of Cook County, and the County takes no responsibility for the accuracy and completeness of such information. If the information contained in the Third-Party Sourced Pension Tables is not publicly available on the Annual Filing Date, the County will include a statement in the Annual Filing to that effect. The County will promptly file such information if and when it becomes available.

[Remainder of Page Intentionally Left Blank]

EXHIBIT II

NOTICE EVENTS

1. Principal and interest payment delinquencies;
2. Non-payment related defaults, if material;
3. Unscheduled draws on debt service reserves reflecting financial difficulties;
4. Unscheduled draws on credit enhancements reflecting financial difficulties;
5. Substitution of credit or liquidity providers, or their failure to perform;
6. Adverse tax opinions, the issuance by the Internal Revenue Service of proposed or final determinations of taxability, Notices of Proposed Issue (IRS Form 5701-TEB) or other material notices or determinations with respect to the tax status of the Bonds, or other material events affecting the tax status of the Bonds;
7. Modifications to the rights of holders of the Bonds, if material;
8. Bond calls, if material, and tender offers (other than scheduled mandatory redemptions);
9. Defeasances;
10. Release, substitution or sale of property securing repayment of the Bonds, if material;
11. Rating changes (excluding any changes to the outlook on such ratings);
12. Bankruptcy, insolvency, receivership or similar event of the County*;
13. The consummation of a merger, consolidation, or acquisition involving the County or the sale of all or substantially all of the assets of the County, other than in the ordinary course of business, the entry into a definitive agreement to undertake such an action or the termination of a definitive agreement relating to any such actions, other than pursuant to its terms, if material;
14. Appointment of a successor or additional trustee or the change of name of a trustee, if material;
15. Incurrence of a Financial Obligation of the County, if material, or agreement to covenants, events of default, remedies, priority rights, or other similar terms of a Financial Obligation of the County, any of which affect holders of the Bonds, if material; and
16. Default, event of acceleration, termination event, modification of terms, or other similar events under the terms of a Financial Obligation, any of which reflect financial difficulties.

* This event is considered to occur when any of the following occur: the appointment of a receiver, fiscal agent or similar officer for the County in a proceeding under the U.S. Bankruptcy Code or in any other proceeding under state or federal law in which a court or governmental authority has assumed jurisdiction over substantially all of the assets or business of the County, or if such jurisdiction has been assumed by leaving the existing governing body and officials or officers in possession but subject to the supervision and orders of a court or governmental authority, or the entry of an order confirming a plan of reorganization, arrangement or liquidation by a court or governmental authority having supervision or jurisdiction over substantially all of the assets or business of the County.
