HVAC DIRECT REPLACEMENT EXPRESS PERMIT TIPS

1. This application is designed to expedite the permit process for Registered Contractors, replacing HVAC equipment. Please contact the HVAC Inspector when starting the replacement or as soon as possible in the event of an Emergency Replacement.
2. It is intended for "like for like" direct replacement only, reconnecting existing electrical and piping connections.
3. Any additional work that is required needs an appropriate permit.
4. After the replacement is completed, inspection by a Cook County HVAC Inspector is required to verify work done and code compliance. Call the appropriate Inspector to make an appointment for inspection.
