

2021 COOK COUNTY

ANNUAL APPROPRIATION BILL

VOLUME 1
EXECUTIVE SUMMARY

Toni Preckwinkle

President, Cook County Board of Commissioners

OFFICE OF THE PRESIDENT
BOARD OF COMMISSIONERS OF COOK COUNTY
118 NORTH CLARK STREET
CHICAGO, ILLINOIS 60602
(312) 603-6400
TDD: (312) 603-5255

TONI PRECKWINKLE
PRESIDENT

I want to start this letter by saying thank you. Thank you to our residents for wearing masks, physically distancing and understanding that these sacrifices save lives. Thank you to our staff for continuing to provide services during these immensely difficult times. Thank you to the front-line workers at Cook County Health for rising to this extraordinary challenge by providing care to those in need.

After nearly eight months, this pandemic continues to be a dire public health and financial crisis. While I am incredibly proud of how we have instilled sound fiscal discipline, reduced headcount, closed billions of dollars of budget gaps and pushed for a more efficient government, Cook County has not been immune to the financial fallout of the pandemic.

Amid this pandemic, the daily challenges, and the precipitous drop in revenue, we do have positive news to share. This \$6.9 billion Appropriation Bill is balanced without the need for tax increases or severe cuts in the critical services our residents depend on.

With so many people experiencing the financial hardships of the pandemic, we have worked to avoid the need for tax increases. With foreclosures increasing, we didn't want to make it more expensive for people to own a home. With unemployment increasing, we are pleased to avoid increasing the sales tax and the cost of essentials. With more people moving into the gig economy to make ends meet, we avoided the need to increase the cost of owning a car or gasoline.

It took an extraordinary effort to close a \$222.2 million gap in the general fund without the need for new revenue. Through a combination of a decade of financially responsible efforts, the use of our rainy day savings, spending holdbacks, federal relief, higher than expected revenue and vacancy reductions we have closed a substantial budget hole and are putting forward a balanced budget for next year. We were also able to close a \$187 million budget gap at the hospital system. This means we have closed a \$400 million deficit without the need for new taxes. We are doing all of this while continuing to go above and beyond to pay down our unfunded pension liabilities and without kicking the can to our future generations.

We have taken many steps over the last decade to put us in a position to shoulder this financial and health crisis and are proud that we can do this without the need for any new taxes. We are weathering this storm in a fiscally responsible manner while being mindful of our long-term challenges – but our work is far from done.

Many of our communities have been historically marginalized and have experienced decades of disinvestment. They have also endured the widening of income inequality that has led to disparities in housing, food, education, workforce opportunities and healthcare. Unfortunately, the pandemic has only further exacerbated these disparities. In 2018, my administration presented the Policy Roadmap: Five-Year Strategic Plan for Offices Under the President, which has equity at its heart. It was a small but important step toward the County's commitment to righting historical wrongs. I am proud to say that despite a tough budget year, the County is still committed to making its equity investments in the areas of restorative justice, violence prevention and economic development.

We are not out of the woods yet. This pandemic isn't predictable. It doesn't adhere to our best laid plans. That means that things can change in a heartbeat and require a change of course at a moment's notice...but we will be ready. While this pandemic has tested us all, I know we can rise to these challenges and any future ones together as one Cook County.

Sincerely,

Toni Preckwinkle
President, Cook County Board of Commissioners

GOVERNMENT FINANCE OFFICERS ASSOCIATION

*Distinguished
Budget Presentation
Award*

PRESENTED TO

Cook County

Illinois

For the Fiscal Year Beginning

December 1, 2019

Christopher P. Morill

Executive Director

Government Finance Officers Association of the United States and Canada (GFOA) presented a Distinguished Budget Presentation Award to Cook County, Illinois, for its Annual Budget for the fiscal year beginning December 1, 2019. In order to receive this award, a governmental unit must publish a budget document that meets program criteria as a policy document, as a financial plan, as an operations guide, and as a communication device.

The award is valid for a period of one year only. We believe our current budget continues to conform to program requirements, and we are submitting it to GFOA to determine its eligibility for another award.

COUNTY GOVERNMENT

Cook County is governed by the County Board President and seventeen Board Commissioners who serve four-year terms. Commissioners are elected from single member districts while the County Board President is elected by a general vote countywide.

Under the Illinois Constitution, the County is a home rule unit of government and, except as limited by State law, may exercise any power and perform any function relating to its government and affairs.

The President is the Chief Executive Officer of the County and presides over the meetings of the County Board. The President has the power to veto County Board resolutions and ordinances. The County Board requires a two-thirds vote to override a Presidential veto. There are ten additional Cook County government offices. Seven of the offices have their own officers who are independently elected: the Assessor, the three commissioners of the Board of Review, the Clerk of the Circuit Court, the County Clerk, the Sheriff, the State's Attorney, and the Treasurer. Pursuant to a 2016 referendum, the County Clerk's office will assume the duties and responsibilities of the Recorder of Deeds office beginning in Fiscal Year 2021. The other three Cook County government offices have officers appointed or elected through other means. The Chief Judge of the Circuit Court is elected by and from the Circuit Court Judges. The Chairman of the Board of Election Commissioners is elected by and from the three commissioners and then appointed by the Circuit Court. The Governor of Illinois appoints the Public Administrator. The Committee on Finance of the Cook County Board consists of all members of the County Board. Commissioner John P. Daley is the Chairman of the Committee on Finance of the County Board. The President is required to submit an Executive Budget to the Committee on Finance as the basis upon which the Annual Appropriation Bill is prepared and enacted. The President and the Board of Commissioners are accountable to Cook County residents for budgeting and controlling financial resources for all Cook County governmental offices and departments. The President and the Board of Commissioners apply guidelines, set goals, and use fiscal control for all Cook County offices and departments.

PRESIDENT OF THE COOK COUNTY BOARD OF COMMISSIONERS OFFICE OF THE PRESIDENT

HONORABLE TONI PRECKWINKLE
PRESIDENT, COOK COUNTY BOARD
County Building

In addition to presiding at County Board meetings, the President of the Cook County Board of Commissioners, as Chief Executive of the County (Const. Art. 7 § 4 (b)), is responsible for preparing the Executive Budget Recommendation (submitted to the Board for final approval) and the administration of the County government, except for the responsibilities held by other elected officials. With the consent of the Board, the President appoints the heads of County departments falling under the Board's jurisdiction.

2021 COOK COUNTY ORGANIZATIONAL CHART

RESIDENTS OF COOK COUNTY

COUNTY PROFILE

Cook County, Illinois, is the Midwest's cultural and economic center. Home to 5.15 million residents, it is the second most populous county in the United States, while its County Seat, Chicago, is the third largest city in the United States containing 2.69 million people, or 52% of the County populace. There are eleven other municipalities with populations over 55,000 in the County: Arlington Heights, Cicero, Des Plaines, Elgin, Evanston, Oak Lawn, Orland Park, Palatine, Schaumburg, Skokie, and Tinley Park.

An Act of the Illinois State Legislature created Cook County on January 15, 1831. The new County was named after Daniel Pope Cook, Illinois' second congressman and first attorney general. The unincorporated Fort Dearborn settlement at the mouth of the Chicago River became the new county's seat.

Cook County comprises approximately 36% of Illinois' economic activity with 2.56M jobs and \$347B in annual output. Its industrial profile resembles that of the U.S. with a slightly larger services sector and somewhat smaller governmental presence. The County has a strong transportation network, with current expansion underway at both Chicago O'Hare International Airport and the Illinois Tollway. Twenty Fortune 500 companies have their headquarters located in the County: Boeing, Archer Daniels Midland, Allstate, United Airlines Holdings, Exelon, AbbVie, US Foods Holding, Kraft Heinz, McDonald's, Jones Lang LaSalle, Illinois Tool Works, LKQ, Conagra Brands, Anixter International, Motorola Solutions, Old Republic International, Arthur J. Gallagher, Northern Trust, R.R. Donnelley & Sons, and Ingredion.

GEOGRAPHY

Cook County sits on the shores of Lake Michigan in the northeast of Illinois. The County comprises 945 square miles of land or 1.7% of Illinois. The City of Chicago accounts for approximately 24% of County land, the suburban municipalities 63%, and unincorporated areas under County Board jurisdiction the remaining 13%. Within Cook County there are 237 special-purpose governments, 132 municipalities, 160 school districts, and 30 townships.

Although Cook County is densely populated, the Forest Preserve District protects over 69,000 acres of natural land or 11% of Cook County. Native prairies, woodlands, and waterways provide amenities for outdoor activities such as biking and hiking.

POPULATION GROWTH RATE

As of 2019, the population estimate for Cook County is 5,150,233 according to the United States Census Bureau, or an average of 5,495 people per square mile and comprises 41% of the population of Illinois. Cook County has shown a slight decrease in population year over year compared to the national rate and surrounding counties, especially given that Illinois has seen a consistent decrease in population in the last five years.

POPULATION GROWTH RATE BY AGE

Communities across the United States are getting older and grayer as baby boomers approach their retirement years. Cook County is aging at a lower rate than in our largest surrounding counties, Illinois and the US. Although the growth rate of the elderly population is lower than our largest surrounding counties, Illinois and the United States, it is still growing at a significant pace.

ETHNICITY

The County is racially and ethnically diverse, with a growing Latino and Asian population. 21% of Cook County residents are foreign-born and almost all nationalities are represented among its residents. African Americans make up 23.8% of the population, Asians 7.9% and Whites 42.0%. 25.6% of residents identify as Hispanic or Latino of Any Race. The remainder 0.7% of the population self-identifies as Two or More Races or as American Indian, Alaska Native, Native Hawaiian, or Other Pacific Islander (Other Race).

MEDIAN HOUSEHOLD INCOME

The County is a diverse industrial center and a leading economic center of the Midwest. The median household income is slightly higher than the national rate. Cook County rates are below those of the surrounding counties of DuPage County and Lake County and slightly lower than the rate for Illinois.

POVERTY RATE

Cook County has a higher poverty rate than the surrounding counties. Part of the reason is that Chicago has a poverty rate of 20.6%. The largest demographic living in poverty in Cook County are females between the ages of 25-34, followed by females between the ages of 18-24 and 35-44, respectively.

UNEMPLOYMENT RATE

As of June 2020, the unemployment rate stands at 17.4%. This is largely attributed to the impacts of COVID-19 on the economic base of the County. Cook County's unemployment rate is higher than the state and national rate, as well as both DuPage County and Lake County. The County's unemployment rate, which was 3.4% in February of 2020, quickly increased to a peak of 18.1% in April of 2020 as unemployment claims rose due to the shut-down orders put in place in the wake of the COVID-19 pandemic. The unemployment rate has decreased slightly since that time, but remains high, as the County begins to open up as shut-down orders have relaxed throughout the summer.

PRINCIPLE FUNCTIONS OF COOK COUNTY

County Government has the principal responsibility of the provision of public health services, the protection of persons and property, and the assessment of real property and the tax levy, and the extension and collection of property taxes. The County also has responsibility for maintaining County roads, supporting and driving economic development, and the provision of certain government services in unincorporated Cook County.

HEALTH CARE

Cook County is responsible for providing public health care access and services to residents, regardless of resident's ability to pay or citizenship status. The Cook County Health (CCH) system operates a health care delivery system composed of the following entities: John H. Stroger, Jr. Hospital of Cook County (Stroger Hospital), Provident Hospital of Cook County (Provident Hospital), the Ambulatory and Community Health Network of Cook County, Cermak Health Services of Cook County, the Ruth M. Rothstein CORE Center and the Cook County Department of Public Health. CCH cares for more than 300,000 patients each year.

Cook County Department of Public Health (CCDPH) serves suburban Cook County and provides service to 2.5 million residents in 124 municipalities with the public health needs of its jurisdiction through effective and efficient disease prevention and health promotion programs.

In 2012, the Illinois Department of Healthcare and Family Services and CCH received a Section 1115 Medicaid waiver from the Federal Center for Medicare and Medicaid Services. Under the terms and conditions of the waiver and an associated demonstration period,

County residents with income up to 133% of the Federal Poverty Level were eligible for Medicaid without being subject to an asset test through CountyCare. Following the waiver demonstration period concluding July 2014, CountyCare became a “Managed Care Community Network,” expanding the eligible patient population to families, children, seniors and person with disabilities.

CCH offers a broad range of services from specialty and primary care to emergency, acute, outpatient, rehabilitative, long-term and preventative care. The health system plans to employ approximately 6,741 full time employees in FY2021 making it one of the largest public health systems in the country. Operations and policy for CCH are governed by an independent Board of Directors.

PUBLIC SAFETY

Cook County provides services for the protection of persons and property through the provision of a court system, a jail system, a police force, prosecution, and public defense. The County operates the second largest unified court system in the United States (which hears civil, criminal, and administrative cases), the second largest prosecutor’s office in the nation (which is responsible for the prosecution of all misdemeanor and felony crimes committed in the County), and one of the largest criminal defense firms in the Country with over 500 attorneys charged with representing every type of criminal offense and child protection violation.

The Cook County Department of Corrections is one of the largest single-site pretrial detention facilities in the United States. The Juvenile Temporary Detention Facility was the first and largest juvenile detention facility in the country.

The Sheriff’s Police conducts investigations, makes arrests, and provides other police services to unincorporated Cook County, as well as coordinates with municipal police forces throughout the County.

The Cook County Department of Emergency Management and Regional Security coordinates countywide emergency and disaster preparedness planning and assists jurisdictions in recovery from a disaster.

PROPERTY AND TAXATION

Cook County administers the second largest property taxation system in the United States. There are 1.8 million taxable parcels of land within the County, with an annual collection of over 12 billion dollars. Tax funds are distributed to over 2,200 local government agencies including school districts, villages, cities, townships, parks and forest preserves, libraries, public health and safety agencies.

The County assesses one third of the region each year, rotating among the northern suburbs, the southern suburbs, and the City of Chicago. The value of each property is determined by a mass appraisal system rather than on an individual basis. Taxpayers can appeal their assessments before the tax rate is calculated. Bills are sent to property owners twice per year.

Budget Calendar

Ongoing

Quarterly allotments and monthly expenditure and revenue reports are implemented and reviewed by the Department of Budget and Management Services (DBMS) to manage resources allocated through the Appropriations Bill. President Preckwinkle established the Office of Research, Operations and Innovation (ROI) to further empower employees to adopt performance management and a culture of continuous improvement. ROI oversees performance management for Cook County government and the publication of public performance dashboards updated quarterly. Each dashboard tracks Key Performance Indicators (KPIs) that measure a department's goals and accomplishments.

BUDGET PROCESS

Cook County prepares an annual budget that provides a spending plan for the next fiscal year. The County produces a balanced budget, as required by the State of Illinois' Counties Code, which accounts for the County's estimated revenue and intended spending. The budgetary basis of accounting is a combination of cash plus encumbrances and accrual basis for property taxes. The County's Comprehensive Annual Financial Report (CAFR) is prepared in accordance with generally accepted accounting principles using the accrual basis of accounting for the government-wide financial statements and the modified accrual basis of accounting for the governmental fund financial statements. The Health Enterprise Fund's annual budget is also prepared on a cash plus encumbrances basis, while their financial report is prepared using the accrual basis. The funds in the appropriation are reported as required in the County's audited financial statements in the Schedules of Revenues, Expenditures and Encumbrances - Budget and Actual set forth in the County's CAFR.

The budget process begins in late spring when departments inform the Department of Budget and Management Services (DBMS) of their expected personnel and non-personnel needs for the next year. DBMS prepares revenue estimates and analyzes other resources available to accurately forecast the fiscal outlook for the coming year.

DBMS prepares the preliminary budget forecast based on the departmental request and estimated collected revenues. The preliminary forecast is required to be filed with the President's Office by June 30 of each year. The forecast is provided to the Cook County Board of Commissioners and made available to County residents. This year, the County presented its preliminary budget forecast on June 26, 2020. Pursuant to Executive Order 2012-01, the President holds a preliminary budget hearing to allow residents to express their opinions concerning items within the proposed budget. After receiving input from residents, the President of the County Board and DBMS work with each department to develop a final executive recommendation.

The executive budget, as recommended by the President, is submitted to the County Board's Committee on Finance, which in turn holds hearings with each department. The Finance Committee holds public hearings to hear resident comments regarding the budget. Due to the impact of COVID-19 on the ability to hold public gatherings in Illinois, the public hearings for the Fiscal Year 2021 budget will be hosted virtually online. The County Board considers the budget carefully and may submit amendments that have a net zero impact to the overall County operating budget.

How to Read Volume I of the Cook County Budget Book

This section contains sample tables for revenues, expenditures and grants to help better understand how to read the budget book. The color-coded tables below illustrate and summarize the past, present and projected collections and appropriations for Cook County as well as grants.

EXECUTIVE SUMMARY

Cook County government provides vital services for 5.15 million residents of northeastern Illinois, including the City of Chicago, surrounding suburbs and unincorporated areas of Cook County. These services include:

- A system of public hospitals and ambulatory clinics, as well as a Medicaid managed care insurance plan.
- Protection of persons and property through services that include policing, corrections, and justice administration through the Circuit Court System.
- Property valuation and administration of property taxes for Cook County and all underlying municipalities, townships, school districts and other local jurisdictions.
- Economic development activities, including transportation infrastructure development and maintenance.
- Election administration and vital records management.
- General municipal services like issuance of permits related to buildings in unincorporated areas of the County.
- Finance, administration and other central governmental services.

For Fiscal Year 2021 the Final Appropriation Bill is a \$6.9 billion spending plan, that is driven by several policy goals to enhance Cook County's services:

- Improve public health outcomes by expanding Medicaid coverage and investing in outpatient services to ensure vital health care access for the most vulnerable residents of Cook County.
- Foster a justice system that focuses on reducing recidivism and pretrial detention by investing in violence prevention programs, electronic monitoring, I-bonds, and probationary and pretrial services.
- Provide economic development opportunities for historically marginalized and disinvested communities in suburban Cook County through job training programs, public infrastructure funding, and affordable housing.
- Invest in highway and transportation infrastructure to ensure Cook County maintains its competitiveness as the Midwest's key distribution and logistics hub.
- Modernize delivery of County services by investing in technology infrastructure to streamline operations across agencies and allow residents to interact with County government electronically.
- Promote a long-term plan for fiscal sustainability to address legacy liabilities and preserve essential public safety and public health services by reducing the County government's real estate footprint, sustaining reductions in workforce, meticulously managing health benefit costs, and eliminating redundant programs.

TOTAL REVENUE

Cook County receives revenues from several sources: Property Taxes, Home-rule Taxes including Sales, Fees, and revenues generated through the Health System. Additional revenues are provided through Grants, dedicated Special Purpose Fund Fees and Miscellaneous and Intergovernmental revenues. Countywide revenues for FY2021 are budgeted at \$6.9 billion, which is comprised of Health Enterprise revenue at \$3.3 billion or 47%; Property Tax and Personal Property Replacement Tax revenue at \$847.5 million or 12%; other tax and fee revenues at \$1.8 billion or 26%; and Miscellaneous and Intergovernmental revenues at \$1.0 billion or 15%.

The total revenue for the Cook County General and Health Enterprise Funds, which are the two main operating funds, is estimated at \$5.3 billion, a \$540.4 million increase, or 11.4%, over the prior year's budget. This includes a \$76.8 million use of reserves from the General Fund to maintain service levels during this period of revenue shortfall caused by COVID-19. The total revenue increase for Cook County Health (CCH) of \$563.4 million is primarily driven by increases in CountyCare revenues, which are expected to be \$444.1 million greater than the FY2020 Budget. The CountyCare revenue increase is due to increased membership (\$275 million), Directed Payments for CountyCare (\$135.8 million) and the Medicare product (\$33.3 million). CountyCare membership is projected to grow to an average of 356,343 for FY2021 due to COVID-19, rising regional unemployment, and a relaxation in the State's automatic re-determination policies in reaction to this public health crisis. Net Patient Service Revenue is expected to be \$54.9 million higher in FY2021 due primarily to rate increases, anticipated revenue from newly eligible patients who had previously received charity care, and increased collection efforts. Other Revenues are expected to increase by \$2.5 million due to increases in indirect grant revenue. In addition to these operational impacts, funding from Cook County to CCH is also expected to increase with the property tax allocation from the County increasing by \$40.0 million over the prior fiscal year budget.

General fund revenues are expected to decrease by \$89.8 million, or 4.7%, from the FY2020 appropriation. The decreases in the General Fund revenues can be attributed to the COVID-19 pandemic's continued impact on the local economy, which is impacting Sales Tax revenues budgeted at \$830.2 million, a decrease of \$18.9 million or 2.2% from the FY2020 appropriation; Hotel Accommodation Tax revenues budgeted at \$19.5 million, a decrease of \$14.9 million, or 43.3% from the FY2020 appropriation; and Amusement Tax revenues budgeted at \$24.3 million, a decrease of \$15.5 million, or 39.0%, from the FY2020 appropriation.

WHERE THE DOLLARS COME FROM

Total Dollar Amount: \$6.9 Billion

TOTAL EXPENDITURES

Countywide expenditures of \$6.9 billion are allocated to Cook County's five service areas of Health Care, Public Safety, Property and Taxation, Economic Development and Finance and Administration. Additionally, operating expenses, such as building utility payments and technology maintenance costs, are categorized as Administrative Overhead. Debt service payments on Cook County's outstanding bonds and the County's employer contribution for pension are also major expenditures, with capital expenditures accounting for only 6.9% of the total budget.

Two major service areas are Healthcare and Public Safety representing 88% of the operating budget when capital, debt service, and pension related payments are excluded. The remaining areas are comprised of Finance and Administration, Economic Development, Property and Taxation and Administrative Overhead, which account for \$631.8 million of total expenditures. In FY2021, Annuity and Benefit allocations to the Pension Fund are \$543.9 million, which consist of \$201.9 million in statutory payments and \$312.0 million in supplemental pension payments. In addition, the County is also allocating \$30.0 million to the pension reserve account for future pension payment increases. Beyond that, capital project related expenditures are proposed at \$481.5 million and debt service payments are allocated to be \$295.0 million.

FY2021 expenses for the Cook County General and Health Enterprise Funds are \$5.3 billion, which is a \$540.4 million increase in total expenses over the prior year. Within CCH, there is an expected \$563.4 million increase. This increase can be largely attributed to the \$398.6 million increase in managed care claims related to increased membership in the CountyCare health-care program, which is expected to rise to 356,343 from the FY2020 projection of 326,000 members per month.

Within the General Fund, costs are projected to decrease by \$23.0 million or 1.2%. Budgeted personnel expenses decreased by \$56.3 million or 4.4% due to the elimination of 568 vacant full-time equivalent positions. Total requested positions in FY2021 is 13,546 compared to 14,114 in the FY2020 adopted appropriation, a 4.0% decrease. The remaining increase in non-personnel expenses can be attributed to the County's \$40.0 million investment in additional social equity and economic development initiatives spearheaded by the Justice Advisory Council and the Office of Economic Development.

WHERE THE DOLLARS GO

Total Dollar Amount: **\$6.9 Billion**

SUMMARY OF REVENUE AND EXPENDITURE BY SOURCES, USES AND FUND

Revenue of \$6.9 billion is appropriated into five major governmental funds of \$2.87 billion, three non-major governmental funds of \$823.3 million and one proprietary fund of \$3.24 billion. General Fund and Health Enterprise Fund are the two main operating funds accounting for 76% of the total appropriation. The General Fund will transfer out an additional \$342.0 million to the Annuity and Benefits Fund and \$33.1 million to the Debt Service Fund. A total of \$454.7 million will be transferred into the Self-Insurance Fund from the General Fund, Health Enterprise Fund, Special Purpose Funds, and Election Fund for employee insurance benefits and reserves for future settlements.

FUND BALANCE STATEMENT

It is Cook County's policy to maintain a prudent level of financial resources to protect against reducing service levels or raising taxes and fees due to temporary cyclical revenue shortfalls or unpredicted one-time expenditures. Cook County recognizes that financial reserve funds provide the flexibility to respond to unexpected circumstances that may help the County achieve long-term fiscal objectives.

Should an unforeseen event beset the County that warrants the use of the fund balance and should this use of fund balance cause it to dip significantly below the targeted level, the County will take steps to both ensure expenditures, to the extent possible, are adjusted to reflect the new economic reality and develop a plan to replenish the General Fund's fund balance over the next one to three years as necessary to return the balance to its targeted level.

FUND BALANCE TARGET

Cook County's financial reserve policy is to maintain a fund balance in the General Fund of no less than two months ("floor") of the year's audited General Fund operating expenditures, and that if the unassigned fund balance should exceed the three-month level ("ceiling"), the County can use these funds to pay for non-recurring expenses, an outstanding liability (i.e. Pension, Other Post-Employment Benefits (OPEB), or bonded debt) or transfer it to a committed or assigned fund balance in the following fiscal year, in accordance with the appropriate level of approval required within the fund balance policy. This is in accordance with Government Financial Officers' Association's best practices. The table below illustrates the two-month General Fund expenditure level target for FY2019 and a projection for FY2020. At the end of FY2020, Cook County is projected to be above the targeted reserve level of two months. Given the unprecedented nature of COVID-19, the FY2021 Appropriation Bill allocates \$76.8 million of the County's unassigned fund balance for General Fund operating purposes.

FY2019 Audited General Fund Expenditures	FY2019 General Fund Balance (Target)	FY2019 General Fund Balance	Variance (Balance minus Target)	FY2020 Estimated General Fund Expenditures	Projected FY2020 General Fund Balance (Floor)	Projected FY2020 General Fund Balance	Projected FY2020 General Fund Balance (Ceiling)
\$1,616,200,408	\$ 269,366,735	\$ 456,422,288	\$ 187,055,553	\$ 1,682,940,863	\$ 306,961,626	\$ 513,391,302	\$ 460,442,439

FUND DESCRIPTIONS

Cook County's operations are funded primarily through the General Fund and the Health Enterprise Fund. In addition to the General Fund and Health Enterprise Fund, the County utilizes special purpose funds that have revenues, generally fees, dedicated for a specific purpose. Significant special purpose funds include: the GIS Fee Fund, Law Library, and several automation funds that impact different County agencies. In FY2020, the County received \$428.6 million in federal Coronavirus Relief Funds (CRF) to reimburse the County for expenses incurred in mitigating the effects and spread of COVID-19. Together, the General Fund, Health Enterprise Fund, grants, and Special Purpose Funds are referred to as the operating budget.

MAJOR GOVERNMENTAL FUNDS

GENERAL FUND: The Corporate and Public Safety Funds together make up Cook County's General Fund.

- The Corporate Fund includes most of the property tax related functions of County government on behalf of underlying jurisdictions, as well as general administrative functions of Cook County. It funds such Agencies as the County Assessor, County Treasurer, County Clerk, Board of Review and the various Offices under the President, and most of the centralized Countywide costs in the Administrative Overhead accounts.
- The Public Safety Fund is comprised of Cook County's criminal justice system: jails, courts, and related programs. Agencies in this fund include: the Sheriff's Office, the State's Attorney's Office, the Public Defender's Office, Clerk of the Circuit Court, and the Office of the Chief Judge, including the Juvenile Temporary Detention Center.

SELF-INSURANCE FUND: Cook County administers a self-insurance program for health insurance as well as all risks, including workers' compensation, medical malpractice, auto and general liability and other liabilities subject to certain stop-loss provisions.

ANNUITY AND BENEFITS FUND: The County Employees' and Officers' Annuity and Benefit Fund is a single defined benefit, single employer pension and other post-employment benefits plan established by Illinois Compiled Statutes (Chapter 40, Acts 5/9 and 5/10).

CAPITAL PROJECTS FUND: Capital Projects Fund expenditures are used to fund capital projects like infrastructure and technology improvements.

DEBT SERVICE FUND: Cook County's Debt Service Fund is utilized for General Obligation debt service payments.

NON-MAJOR GOVERNMENTAL FUNDS

SPECIAL PURPOSE FUND: Special Purpose Funds are established for a specific and dedicated purpose and are intended to be self-balancing. In FY2020, the COVID-19 Cares Act Fund was established to track expenses related to the County's response to the Coronavirus Pandemic.

GRANT FUND: Cook County receives grant funds from federal, state and private agencies for a variety of direct and indirect services provided under various program areas.

ELECTION FUND: The Election Fund was established to pay for the costs of elections under the jurisdiction of the County Clerk. The fund's revenues are derived from property taxes levied for this purpose and interest earned on investments.

ENTERPRISE (PROPRIETY) FUNDS

HEALTH ENTERPRISE FUND: The Health Enterprise Fund receives revenue from the health system operations and supports the Department of Public Health, Stroger Hospital, Provident Hospital, Cermak Health Services, the Ambulatory/Community Health Network Clinics and Health Plan Services (consisting of the health system's CountyCare and MoreCare programs); along with a tax allocation to support Public Health and Correction Health operations.

FY 2021 BUDGET HIGHLIGHTS

SHORT-TERM FACTORS AFFECTING THE BUDGET

The County relies on revenues from a variety of sources to help fulfil its mandates and continue its investments that allow it to deliver services efficiently to its residents. Approximately, 65% of the County's revenues are economically sensitive, which pose additional risk to the County's operations, especially when the local economy is weak. Understanding that risk, the County just like any other organization or household needs to be prepared to manage its fiscal affairs accordingly. In order to plan for the upcoming fiscal year's budget, the County relies on sophisticated forecasting models that help project different scenarios that range from the best case to the worst case and the associated drivers. This exercise allows the County to understand how good things can be or how bad they can get, which informs the level of impact it will have on the County's operations, along with the actions needed to ensure critical services can continue. It is important for the County's various stakeholders like the County Board, taxpayers, separately elected officials, investors, employees and others to understand these possible scenarios, which in turn will help set clear expectations on the actions needed to adjust if any version of these scenarios come to fruition. While the County and all its stakeholders always begin every new fiscal year with optimism, it is prudent to understand how bad things can get to ensure we remain vigilant in managing our fiscal affairs and not take on unnecessary risk. To that end, the following sections provide a discussion of these scenarios and the drivers impacting them.

MAJOR DRIVERS OF THE OPERATING BUDGET

The COVID-19 pandemic has had historic impacts on the County's operations as well as the regional and national economy. The pandemic caused by COVID-19 continues to cause a partial shut-down of the U.S. economy and has had severe impacts on the everyday lives of County residents, including the full and partial closures of schools, restaurants, bars, and other businesses. The virus has also caused the cancellation of conferences, reduction of tourism and an accelerated shift from brick-and-mortar to online sales. The timeline of a widely available vaccine is still unknown. However, it is almost a certainty the pandemic will continue into FY2021 and continue to negatively impact economically sensitive County revenues. In the development of the County's revenue forecast for FY2021, departments were encouraged to assume that the City and County would remain in Phase 4 of the Governors Restore Illinois plan until the end of May. At that point, we assume that the region transitions into Phase 5. While the County received federal funding through the CARES Act's Coronavirus Relief Fund to reimburse the County for expenses incurred to mitigate the impacts of COVID-19 through the end of the FY2020, at the time the budget was developed and appropriated, the federal government had not extended the usage of the CARES Act for costs incurred beyond December 2020. Therefore, this Appropriation Bill was prepared and passed based on the availability of funds known at the time and made no assumption on additional federal relief.

In total, the annual FY2021 expense appropriation for the Health Enterprise and General Funds is expected to be \$5.3 billion, \$540.4 million higher than the FY2020 budget of \$4.7 billion. This increase can be largely attributed to Cook County Health which is expected to see a \$563.4 million expenditure increase over the FY2020 adopted budget. The financial impacts of COVID-19 have resulted in changes that have significantly increased membership in CountyCare. Individuals that find themselves unemployed are attracted to CountyCare's relatively inexpensive health insurance coverage. Additionally, administrative policies at the State, which has temporarily suspended automatic unenrollment in Medicaid, have allowed CountyCare and other managed care plans to retain a greater number of their members at a time when applications for Medicaid have been increasing.

Expenses within the General Fund decreased \$23.0 million or 1.2% less from the FY2020 adopted budget. The County's General Fund revenues are especially sensitive to financial downturns, and the additional impacts on sector-specific revenues and fees collected by the County have been significant. Despite the anticipated increases in costs and declining revenues, the County has been able to fill the gap between revenues and expenses through a combination of cost reduction measures, new revenues, and a one-time transfer of financial reserves from the General Fund.

LEGISLATIVE UPDATE: NEW REVENUES

As part of Public Act 101-0031 “Leveling the Playing Field for Illinois Retail Act,” two important provisions were passed. The first was the addition of Online Sales Tax, which allows Cook County to apply its 1.75% Sales Tax to online sales made within the County. This goes into effect in January 2021, and revenue from this source is included in the FY2021 budget. Under the provision of this tax, the County anticipates that we will receive approximately \$80.3 million in revenue. Without this additional revenue, total Sales Tax revenue would have been \$749.9 Million, 11.7% lower than the FY2020 budget. However, with this revenue we expect Sales Tax revenue of \$830.2 million, 2.2% lower than the prior year’s budget. The estimate for the value of Online Sales Tax was developed in coordination with the County’s Independent Revenue Forecasting Commission (IRFC) and leveraged national trends in E-Commerce data to extrapolate the impact for Cook County based on the percent share of personal income in Cook County. The total value received by the County will be heavily impacted by the State’s capacity to achieve full compliance with the new law. Further details can be found on the IRFC website (<https://www.cookcountyil.gov/service/independent-revenue-forecasting-commission>).

The second provision of Public Act 101-0031 concerns sports wagering. Under the Act, Cook County can receive 2% of all sports wagering activity completed in licensed sports wagering facilities within the County. The FY2020 budget anticipated that we would receive about \$1.8 million in additional revenue, with initial revenues estimated to be remitted by May. Disruptions attributable to COVID-19, the impact on sports wagering has been significant and varied and the County is currently expecting approximately \$3.6 million in sports wagering revenue in FY2021.

Public Act 101-0027 legalized the sale of cannabis across the State of Illinois and in Cook County, giving the County the authority to levy a 3% tax on the retail sale of cannabis from licensed dispensaries within the entire jurisdiction. By examining recent cannabis sale reports from Illinois and trends in Washington state and Colorado, we have estimated that this new revenue source will generate approximately \$13.9 million in FY2021.

Together, these new revenue sources have helped contribute a total \$97.8 million in additional revenues for the FY2021 Budget.

DECLINING AND STAGNANT REVENUES

Cook County has a diverse revenue base, but expenditures rise over time due to inflationary pressures (i.e. medical trends for health benefits, annual cost increases on specialty medications, technology contracts, and several other categories of expenditures are traditionally growing faster than general inflation across the nation). Natural growth in revenues struggle to keep pace. Many critical revenue sources are declining over time or growing at rates below general inflation. This makes structurally balancing the budget challenging and necessitates difficult decisions. Additionally, the Property Tax levy has not historically kept pace with inflation, and, accordingly, the value of the gross property tax levy will continue to decline net of inflation.

Cook County anticipates a continued decline in overall revenues and inflationary growth in expenditures in coming years and is taking steps towards long-term fiscal responsibility and preserving critical public safety and health services. In particular, brick-and-mortar based Sales Tax revenue is expected to decline in FY2021 at a faster rate than recent trends due to an accelerated increase in online shopping related to consumers shifting to online options during the COVID-19 pandemic. Public Act 101-0031 allows Cook County to apply its 1.75% Sales Tax to online sales made within the County, which will, to an extent, replace declining brick-and-mortar based Sales Tax revenue.

Projected Revenues in Relation to Inflation

FY 21 Projected Revenues	Amount	%
Declining	\$307,262,382	12.5%
Failing to keep Pace	\$1,028,904,248	41.9%
Growing with Economy	\$914,381,420	37.2%
Other Growth/Decline Patterns	\$206,578,146	8.4%
Grand Total	\$2,457,126,196	100.0%

ALTERNATIVE REVENUE SCENARIOS

In recognition of the uncertainty presented by COVID-19, it was necessary to establish a single set of assumptions about the progression of the County through the phases of the Governor's Restore Illinois Plan. The Plan establishes regulations on economic and social behaviors depending on COVID-19 tracking metrics within a defined geographical area. For this analysis, Regions 10 (Suburban Cook County) and Region 11 (Chicago) are assumed to progress through each of the phases in tandem.

As of October 6, 2020, both Regions 10 and 11 were in Phase 4. The chart below shows the underlying assumptions for each scenario, and the progression of the County through the phases in these scenarios. The base-case scenario reflects this Appropriation Bill. It assumes that the County will remain in Phase 4 of the Plan until May of 2021 and subsequently move into Phase 5 thereafter with the advent and widespread distribution of an effective COVID-19 vaccine. In the best-case scenario,

the vaccine is available earlier, in March of 2021. In the worst-case scenario, the County (a) sees a near-term steep increase in COVID-19 cases and hospital admissions, resulting in a regression to Phase 3 in November of 2020, (b) remains in Phase 3 until the winter months, when Phase 2 lockdowns are implemented in the region, (c) moves back to Phase 3 in February of 2021 and (d) finally moves back to Phase 4 in December of 2021, not reaching Phase 5 until June of 2022.

Using the base-case scenario as the foundation, the alternative revenue scenarios were determined by evaluating revenues that were most impacted by social distancing policies. Table 1, below, provides a list of the revenues that were adjusted for each scenario while Chart 2 provides an analysis of these sensitive revenues over time at the aggregate level for prior years and for each of the different scenarios. In total, 16 revenues were evaluated. These revenues were selected because they have been demonstrably impacted by social distancing policies.

	Best-Case Scenario	Base-Case Scenario	Worst-Case Scenario
401150-County Sales Tax	\$ 791.4	\$ 749.9	\$ 648.5
401130-Non Retailer Trans Use Tax	\$ 15.9	\$ 15.3	\$ 10.8
401170-County Use Tax	\$ 72.2	\$ 70.1	\$ 47.6
401190-Gasoline / Diesel Tax	\$ 89.0	\$ 87.0	\$ 63.3
401210-Alcoholic Beverage Tax	\$ 38.2	\$ 36.3	\$ 35.7
401230-New Motor Vehicle Tax	\$ 2.4	\$ 2.3	\$ 1.8
401330-II Gaming Des Plaines Casino	\$ 8.3	\$ 7.3	\$ -
401350-Amusement Tax	\$ 31.9	\$ 24.3	\$ 1.9
401370-Parking Lot and Garage Operation	\$ 44.6	\$ 43.0	\$ 10.0
401390-State Income Tax	\$ 16.5	\$ 12.6	\$ 10.6
401470-General Sales Tax	\$ 3.3	\$ 3.1	\$ 2.4
401490-Firearms Tax	\$ 1.1	\$ 1.2	\$ 1.3
401530-Gambling Machine Tax	\$ 5.2	\$ 3.5	\$ 0.2
401550-Hotel Accommodations Tax	\$ 22.7	\$ 19.5	\$ 5.6
402548-Clerk of the Circuit Court Fees	\$ 68.6	\$ 64.0	\$ 27.8
402950-Sheriff General Fees	\$ 16.0	\$ 15.8	\$ 9.2
Sum of Economically Sensitive Revenues	\$ 1,227.1	\$ 1,155.2	\$ 876.6
Non-Impacted Revenues	\$ 664.3	\$ 664.3	\$ 664.3
Use of Fund Balance	\$ 76.8	\$ 76.8	\$ 76.8
TOTAL	\$ 1,968.3	\$ 1,896.3	\$ 1,617.7

Table 1

Social distancing policies have had a significant impact on the County's Sales Tax revenue, which is highly sensitive to fluctuations in the economy and makes up a significant portion of the General Fund's total revenues. Accordingly, Sales Tax revenue alone is \$101.4 million lower in the worst-case scenario than in the base-case scenario.

When all revenues not determined to be significantly impacted by COVID-19 are included, total revenues within the best-case scenario would be \$1.97 billion, or \$71.9 million greater than the base-case scenario. In the worst-case scenario, revenues would be about \$1.62 billion. Beyond Sales Tax, Clerk of the Circuit Court Fees, Amusement Tax, and Parking Lot and Garage Operations Tax revenues would also be significantly impacted, with unfavorable variances relative to the base-case of \$36.2 million, \$22.4 million, and \$33.0 million, respectively.

Chart 2

Under the base-case scenario, the economically sensitive revenues (as defined in the first part of Table 1 above) are anticipated to be \$1.155 billion, \$169.8 million or 12.8% lower than the 2019 actuals. The economically sensitive revenues in the best-case scenario are anticipated to be \$1.227 billion, \$97.8 million or 7.4% lower than the 2019 actuals. Finally, in the worst-case scenario, the revenues are expected to be \$876.6 million, \$448.4 million or 33.8% lower than the 2019 actuals.

TRENDS IN UNCOMPENSATED CARE

In recent years CCH, being the main safety net provider of healthcare services in the County, has seen an increase in uncompensated care. FY2021, uncompensated care costs are expected to increase by approximately \$69.0 million over the projected FY2020 year-end estimates to \$487.0 million. This trend has been consistent with CCH's recent experience as more residents become uninsured or underinsured, despite the impact of the new law that provides Medicaid coverage for undocumented individuals over the age of 65. In FY2020, uncompensated care is expected to be lower due to a COVID-19-related suspension of non-emergent care activities. As the pandemic wanes, more uninsured residents will continue to seek care, which will continue to increase the cost of uncompensated care in FY2021. Despite the increase over the FY2020 projection, FY2021 uncompensated care is expected to be less than the FY2020 budgeted amount of \$590 million.

INVESTMENTS IN CRIMINAL JUSTICE REFORMS AND PROPERTY TAX ADMINISTRATION

In FY2021, President Preckwinkle will continue her commitment of investing in safe and thriving communities. A concentrated effort to decrease the divisional population of the Jail to allow for safer conditions during COVID-19 has allowed for a decrease

in FY2021 public safety FTEs. The decline in the Jail population has also allowed for continuing support of the President's Policy Goals of advancing the County's work to transform the criminal justice system into one that is fair, efficient, compassionate and transparent. By focusing on these efforts, the County's public safety offices that include the Sheriff, the Courts, the State's Attorney and the Public Defender have collaboratively worked to make their respective operations more efficient and free up resources for much needed violence prevention and recidivism reduction programs.

Cook County administers the second largest property and taxation system in the United States. Expenditures associated with Property and Taxation are increasing by \$0.4 million or 0.7% in FY2021. Although FTEs are decreasing by 27, or 4.4%, across the Property and Taxation agencies, investments in technology, including a \$5.8 million appropriation in FY2021 for the County's Integrated Property Tax System platform, will allow for increased collaboration and capacity across all offices. FY2021 will continue to see the multi-year implementation plan for an integrated property tax system within the Assessor's Office and the County Clerk's Office, and continued technology investments within the Board of Review will allow for increased capacity to administer and respond to the increasing volume of appeals. The Treasurer continues to ensure duplicate payments and other overpayments are automatically refunded to property owners. Since this program's launch in 2018, the Treasurer's office has automatically refunded more than \$65.1 million to over 110,000 property owners.

LONG-TERM STRATEGIC PLAN

In fiscal year 2018, the Offices Under the President (OUP) spearheaded the *Cook County Policy Roadmap: Five-Year Strategic Plan for Offices Under the President*. The *Policy Roadmap* is the first comprehensive, policy-driven strategic plan for OUP since the administration's 2011 transition plan and was completed in November 2018 through a process that included input and participation from the public, community organizations, industry partners and other stakeholders. The *Policy Roadmap* continues to drive long-term strategic planning in FY2021.

The *Policy Roadmap* aims to institutionalize reforms and ensure they provide long-lasting benefits to Cook County residents, specifically in the following six priority areas: health and wellness, economic and community development, criminal justice, environmental sustainability, public infrastructure, and good governance. Built upon the administration's core values of equity, engagement, and excellence, the *Policy Roadmap* incorporates strategic initiatives within these six key policy priorities to address the major public policy challenges facing Cook County residents.

While the majority of the *Policy Roadmap* focuses on OUP's specific roles and responsibilities, improving outcomes for residents through this policy framework requires continuously coordinating and collaborating with each separately elected Cook County official and other partners.

During the onset of the COVID-19 pandemic in early 2020, OUP adapted its *Policy Roadmap* framework to streamline its rapid response initiatives and begin to plan and implement equitable recovery strategies. This work, documented in the *Cook County COVID-19 Response Plan: From Rapid Response to Equitable Recovery*, combines ongoing public health and healthcare priorities with parallel agendas that respond to the longer-term economic and social impacts of the virus. In FY2021, OUP will continue to follow the guiding principles it established in its COVID-19 response:

- Provide support where Cook County can have the greatest impact;
- Prioritize support for the most vulnerable populations with a racial equity lens;
- Maintain continuity of essential public services;
- Coordinate efforts and leverage shared resources; and
- Focus on suburban Cook County, which has a great need, but limited resources.

As an overview of Cook County's upcoming work, including work related to both the COVID-19 response and recovery, and OUP's long-term priorities, the sections below highlight initiatives that Cook County will pursue in FY2021 within each *Policy Roadmap* policy area.

FY2021 POLICY GOALS

HEALTHY COMMUNITIES

Cook County government's health and wellness work centers on improving the physical, mental, and social wellbeing of County residents and communities, especially as we continue responding to the COVID-19 pandemic. In light of COVID-19's disproportionate impact on Cook County's Black and Latinx residents, we reaffirm our commitment to reducing health inequities and the socioeconomic inequities that create them. Cook County continues to focus on integrating health and social services, addressing the structural¹ and social determinants of health and improving the health and wellness of County employees. The Healthy Communities work is led by Cook County Health (CCH), Cook County Department of Public Health (CCDPH), and the Department of Risk Management.

As guided by its strategic plans, CCH is transforming the provision of healthcare in Cook County by promoting community-based primary and preventative care; growing an innovative, collaborative health plan; and enhancing the patient experience. Despite operating only two of the 68 hospitals in Cook County, CCH serves as a safety net for many residents, and provides more than 50 percent of all charity care in the County. Through the Health System and the Health Plans, CCH serves more than 500,000 unique individuals annually and records nearly 1 million outpatient visits and 25,000 admissions.

CountyCare, the Medicaid health plan CCH owns and operates, remains the largest Medicaid managed care plan in Cook County. In September 2020, there were 371,000 CountyCare members (originally projected at 326,000) – the growth in plan membership is primarily due to the economic downturn as a result of COVID-19 and the State of Illinois' temporary suspension of Medicaid re-determination. The FY2021 budgeted membership of 356,343 assumes a slow economic recovery and return to the re-determination process by the State.

¹ Structural determinants include the governing process, economic and social policies that affect pay, working conditions, housing, and education. The structural determinants affect whether the resources necessary for health are distributed equally in society, or whether they are unjustly distributed according to race, gender, social class, geography, sexual identity, or other socially defined group of people.

In FY2021, CCH projects providing \$312 million in charity care. While recent trends have the County's charity care costs growing, the FY2021 projected decrease is based on the expectation that residents in general will continue to limit getting non-emergent care at hospitals due to fear of exposure of COVID-19. The Health System expects that as the pandemic wanes, the charity care growth trend will continue to grow.

In FY2020, CCH opened two new facilities. A new health center in Blue Island provides expanded and enhanced primary and specialty care services to South Suburban Cook County residents. Services formerly provided at Cicero Health Center will now be provided at CCH's new facility in North Riverside. This modern, state of the art facility, is equipped with exam rooms, lab and diagnostic services. Additional investments and improvements are also underway on the Provident Hospital campus, and in FY2021, additional services will include a new outpatient dialysis center and a lifestyle center, which will provide wrap-around service for patients with diabetes and other chronic conditions.

Containing COVID-19 at the Cook County Jail remains the County's Sheriff's and CCH's highest priority. Additional areas at the Jail were opened to accommodate social distancing and other mitigation efforts. As such, additional funding has been budgeted to ensure proper staffing of all areas and continue the testing and other prevention and mitigation strategies that have allowed officials to contain the virus.

Beyond providing health care, Cook County takes an expansive view of healthy communities by working to address the structural and social determinants of health. These include access to adequate and safe housing; behavioral health services; healthy affordable food; healthy physical environments and recreational spaces; and quality employment opportunities for residents.

Unfortunately, COVID-19 has highlighted long-standing racial and health inequities, rooted in historical and current systemic racism and discrimination. To address health inequities across suburban Cook County, the County will invest an additional \$2 million that will allow the Department of Public Health to continue to focus on the following in FY2021:

- Responding to COVID-19 by monitoring the data for surges and trends; conducting case and outbreak investigations and contact tracing; offering guidance to groups like nursing homes and schools to help control infections; investigating workplace violations; providing alternative housing to support first responders, healthcare workers and residents to safely isolate or quarantine; promoting mitigation strategies; and responding to inquiries.
- Leading the implementation of the Good Food Purchasing Policy (GFPP) adopted in 2018 by Cook County Resolution. GFPP is a procurement strategy that directs food purchasing across five core values: local economies, valued workforce, environmental sustainability, animal welfare and nutrition. CCDPH will finalize a baseline assessment of County purchasing patterns and will collaborate with the Chicago Food Policy Action Council to develop the capacity of local food owners and businesses to meet Good Food standards and institutional supply chain requirements.

- Launching a comprehensive opioid use and overdose prevention program, including law-enforcement driven diversion to treatment in three areas of Suburban Cook County. Three taskforces will engage law enforcement, treatment providers, harm reduction advocates, and community stakeholders to establish protocols and initiate the diversion programs. People with opioid and substance use disorder will be supported by care coordinators. CCDPH will also share data results with stakeholders and continue to examine data to inform programs and initiatives.

VITAL COMMUNITIES

Vital Communities, led by the Bureau of Economic Development, unifies the work of several agencies to pursue inclusive economic and community growth by supporting residents, growing businesses, attracting investment and nurturing talent. This work includes the Bureau of Economic Development, Bureau of Finance, and the Department of Planning and Development, and is supported by the Chicago Cook Workforce Partnership, Cook County Land Bank Authority, and Housing Authority of Cook County. The Vital Communities priority strategies are:

- Develop and invest in industry-led economic cluster initiatives;
- Align workforce efforts with regional needs;
- Expand toolbox to grow and attract businesses;
- Build partnerships to invest in community development; and
- Lead efforts to expand access to affordable housing.

As the COVID-19 pandemic's economic toll became clear, Cook County quickly shifted its focus to allocating \$82 million of Coronavirus Relief Funding (CRF) from the Coronavirus Aid, Relief, and Economic Security (CARES) Act to assist residents and businesses and \$51 million of CRF to assist municipalities' in addressing the impact of COVID-19. The Bureau of Economic Development has engaged dozens of partners to implement the following programs:

- \$20 million mortgage assistance program;
- \$20 million rental assistance program;
- \$10 million small business loan program;
- \$12.6 million small business grant program;
- \$3.4 million business advising network;
- \$4 million job training and placement program; and
- \$11.4 million to support critical social services.

In FY2021, our economic and community development initiatives will build on this work to:

- **Support the critical needs of residents and businesses** during the ongoing COVID-19 pandemic.
- **Invest over \$15M of federal funding in Suburban Cook County** to support housing investments, economic development, capital improvement projects, and social services.
- **Strengthen the small business ecosystem in Suburban Cook County** by joining a growing coalition of business service organizations – across Chicago and the suburbs of Cook County – to help business owners sustain and grow their businesses, recognizing the impacts of COVID-19.
- **Respond to the needs of manufacturers** in partnership with the Illinois Manufacturing Excellence Center (IMEC), based on outreach to over 5,000 firms with a manufacturing resiliency program.
- **Offer talent solutions** to businesses to attract, retain, and retrain employees. Cook County, selected by the State of Illinois, serves as an Apprenticeship Navigator for the 10 counties of the Chicago metro area to assist and educate employers about apprenticeships.

- **Support economic growth in the South Suburbs** through the Southland Development Authority's efforts to provide business advising services and mentors to small businesses and advance plans for significant sector-driven developments, including a Food Innovation Park and a Southland Metals Hub.
- **Target and leverage resources to increase availability of affordable housing** in communities with the greatest needs as a result of the County's new five-year Consolidated Plan and Comprehensive Economic Development Strategy.
- **Catalyze energy efficiency and renewable energy investments** on private commercial property through implementation of a Cook County Property Assessed Clean Energy (PACE) Program - PACE allows a property owner to finance the up-front cost of energy or other eligible improvements on a property and then pay the costs back over time through a voluntary assessment.

SAFE AND THRIVING COMMUNITIES

To create safe communities and an equitable and fair justice system for all residents, Cook County will continue to implement sustainable reforms within the criminal justice system, invest in community-based services for communities and residents and work with public safety stakeholders to advocate for and leverage the resources necessary to reduce violence through a comprehensive set of strategies proven to increase safety. In FY2021, the appropriation for the Public Safety Fund portion of the operating fund appropriation is \$1.3 billion. The Safe and Thriving Communities work is led by the Justice Advisory Council, Department of Emergency Management and Regional Security, and the Public Defender's Office.

Under President Preckwinkle's leadership and in partnership with public safety stakeholders, in 2016 Cook County began exploring ways to transform the criminal justice landscape through its built environment – namely facilities that support the system; reducing the overall costs of the criminal justice system; and re-investing in those communities most impacted by mass incarceration. This work has resulted in the demolition of several buildings at the Cook County Jail, closing underutilized courthouses, and engaging external consultants around a Master Plan for a more efficient jail campus.

The average daily County Jail population is at its lowest point since 1991. For decades, the average daily population detained in the Cook County Jail hovered at roughly 10,000 people. Today, the average daily Jail population is approximately 5,400 people, largely because of President Preckwinkle's continued criminal justice reform efforts, Chief Judge Timothy Evans' 2017 bail reform directive (General Administrative Order 18.8A) and a concentrated effort to decrease the divisional population of the Jail to allow for safer conditions during COVID-19. In the era of COVID-19, decarceration has become more than a priority; it has become a public health imperative. A smaller jail population makes it easier to practice social distancing, which helps reduce the risk of transmission among staff and people detained at Cook County Jail.

Bail reform has been achieved safely and has not led to an increase in violent crime. As detailed in the Office of the Chief Judge's 2019 Annual Model Bond Court report, of the 30,466 pretrial felony defendants released to the community, 99% of them were not charged with a new violent offense in the 15 months after implementation of General Order 18.8A. Court appearance rates have also improved after bail reform: 83.2% of released defendants make all scheduled court appearances post-reform, compared with the 82.5% court appearance rate pre-reform.

Cook County has also worked with the Illinois State Legislature to dramatically decrease the number of youth who are automatically transferred to adult court and oversaw the end of a federal monitor at the Cook County Juvenile Temporary Detention Center. These efforts have resulted in a decline in Cook County's detained youth population by 50% since 2009.

Source: Circuit Court of Cook County Model Bond Court Dashboard

Through the President's Office and the Justice Advisory Council, Cook County has made investments of more than \$23 million in wrap-around services for people involved in the criminal justice system through community-based grants, as well as Opportunity Works and other programming focused on employment opportunities for young adults.

In FY2021, President Preckwinkle will continue her leadership and commitment to investing in its most vulnerable residents by allocating an additional \$32.5 million to enhance Cook County's collaboration efforts with its public safety partners and continue work to transform the criminal justice system into one that is fair, efficient, compassionate, and transparent. Cook County will also receive \$700,000 from the John D. and Catherine T. MacArthur Foundation to fund these efforts through the Safety and Justice Challenge. Finally, the Justice Advisory Council will receive a \$500,000 grant from the Bureau of Justice Assistance to fund the Chicago Cook Workforce Partnership Re-entry Services.

In addition to these critical criminal justice and violence reduction efforts, keeping communities safe also requires engaging in emergency management and regional security planning and preparedness to ensure Cook County government and our municipalities can respond in times of crisis. While the widespread impacts of COVID-19 were unprecedented, Cook County government's swift and effective response was enabled by its ongoing preparation for any crisis. In addition to emergency management, our public safety work will continue to include a racial equity framework. The Department of Emergency Management and Regional Security will continue managing Cook County government's response to COVID-19 and supporting municipalities.

SUSTAINABLE COMMUNITIES

To support healthy, resilient communities that thrive economically, socially, and environmentally, Cook County will prioritize environmental justice, promote livable communities, address climate change, promote clean energy and green jobs, and create capacity for resilience in local communities. The Department of Environment and Sustainability (DES) coordinates sustainable community efforts with the support of many OUP departments, including the Bureau of Asset Management, Department of Planning and Development and Department of Transportation and Highways. Projects range from promoting affordable residential and community solar energy to supporting environmentally friendly transit, bike, and pedestrian projects that link people and jobs; making flood-relief investments in impacted communities; and launching a Property Assessed Clean Energy financing program for energy investments in commercial buildings without using taxpayer dollars.

COVID-19 has renewed Cook County government's commitment to supporting environmental justice communities, which are low-income communities and communities of color that experience disproportionate exposure to environmental harm. This exposure can mean residents are more susceptible to chronic respiratory and heart disease, which can contribute more severe and fatal COVID-19 outcomes.

Furthermore, Cook County must view COVID-19's disproportionate impacts on environmental justice communities as a warning for the impacts these communities are already facing as a result of climate change. Just like COVID-19, climate change most heavily impacts lower-income, minority, and vulnerable populations. DES will continue developing and supporting initiatives to mitigate climate change. In FY2021, Cook County government will adopt an equitable environmental justice policy that coordinates Cook County's administration of program, maintenance of assets and allocation of resources.

One environmental issue Cook County faces is the presence of brownfields: real estate on which the presence or possible presence of a pollutant complicates expansion, redevelopment, or reuse. Cleaning up and reinvesting in these properties protects the environment while generating jobs and revenue. Cleaning up brownfields also advances equity since land pollution disproportionately impacts communities that have higher rates of poverty, minority populations, and elderly and young people especially sensitive to pollutants. Over 120 acres of brownfield sites are undergoing reuse, planning, or redevelopment in the West suburbs, creating or retaining over 200 jobs. A new federal grant is allowing DES to assess another 40 sites in the south suburbs over the next three years. DES is also working with the Bureau of Economic Development to administer a federally funded Brownfield Revolving Loan Fund grant to clean up sites that have been assessed, opening the door for redevelopment.

***Federal grants for West Suburban Brownfield Assessment 2015-17; for South Suburban Brownfield Assessment 2019-21.*

In addition to supporting communities, sustainability requires Cook County government to address its own climate impact. The Cook County Board of Commissioners has committed to making Cook County facilities carbon neutral by 2050, and President Preckwinkle recently released the *Cook County Clean Energy Plan*, which outlines actions to achieve this goal as well as to use 100 percent renewable energy for electricity in County facilities by 2030. Since 2010, Cook County has reduced

greenhouse gas emissions from its buildings by approximately thirty percent, mainly through reductions in energy use. To continue these reductions and implement the actions of the Clean Energy Plan, the Bureau of Asset Management has created the Green Buildings Program. Through building standards, processes, and capital improvements, the Program looks holistically at the design, space use, operations, and life cycle impact of County properties to build a model of sustainable asset management that minimizes environmental impacts, improves the health of communities, and optimizes taxpayer dollars. To support the Clean Energy Plan, the program aims to reduce energy usage, water usage and waste, use smart building technology, and positively impact residents and communities.

SMART COMMUNITIES

To provide an innovative infrastructure that will change how residents live, work, and connect, Cook County prioritizes robust, inclusive, sustainable public infrastructure by maximizing the benefits of County buildings, improving transportation systems, and managing enterprise technology services. The Bureau of Administration, Bureau of Technology, and Department of Transportation and Highways spearhead initiatives in this policy priority.

Invest in Cook is an \$8.6 million transportation program that covers the costs of planning and feasibility studies, engineering, right-of-way acquisition, and construction associated with transportation improvements sponsored by local and regional governments and private partners. This program solicits applications for improvements consistent with the five priorities of Connecting Cook County, the County's first long range transportation plan in 75 years. In FY2021, Cook County will further advance Invest in Cook projects through strategic partnerships and grant applications to secure additional funding. DOTH has established an FY2021 target of funding 30 projects.

In FY2021, DOTH will also implement the Fair Transit Pilot, an outcome of the South Cook Mobility Study. Cook County and its transit agency partners will design this pilot to deliver better transit services and to more effectively use existing public transportation facilities in southern Cook County. Partners have discussed fare policy changes, increases in service, and better coordination between Metra, Chicago Transit Authority, and Pace as possible features of the pilot. This is the first step towards building a Cook County Transit Plan that defines how public transportation can be improved across the region.

Technology is also an integral part of Cook County infrastructure, but gaps in access remain. COVID-19 has substantially increased the demand for high-speed broadband internet services and equipment for students, those working from home and others relying on digital services to access goods and services. This increased demand has highlighted stark equity gaps in digital access. In FY2020, the President's Office created the Council on Digital Equity (CODE), an initiative to tackle this "digital divide" of limited access to broadband and technology, within Cook County. Federal Communication Commission (FCC) data from December 2018 indicates that up to 25% of Cook County residents lack high-speed internet, and more than 17% of Black and Latinx households lack a computer. In FY2021, Cook County government will build on CODE's first year of work to leverage capital dollars and augment current public infrastructure to tackle this problem and provide equitable access to technology to all residents. Cook County recently received a grant of \$1.8 million from the State of Illinois as part of the Connect Illinois broadband expansion initiative. This grant, together with an investment of over \$2 million from the County over 2 years, will help fund further expansion of the Chicago Southland Fiber Network throughout the south suburbs.

Finally, a core component of stewarding public infrastructure during COVID-19 is ensuring Cook County buildings are open to the extent possible. The safety of our residents and employees is of utmost importance as we think about the practicalities of keeping public buildings open. After initially closing buildings to the public, Cook County government reopened many buildings in July 2020. In FY2021, the Bureau of Asset Management will continue coordinating building entrances to control the flow of traffic, manage thermal scanning and wellness screenings upon entry, and continue with enhanced cleaning of County facilities. Additionally, the Bureau of Asset Management is developing manuals and guidance on reopening public buildings, which will be disseminated to all Cook County municipalities.

OPEN COMMUNITIES

In order for policies to be effective, they must be built upon a foundation of good governance. Therefore, the sixth policy priority focuses on the practice of governance itself, achieving operational excellence by being accountable to residents, investing in its workforce and continuously improving the effectiveness of County services. The Open Communities work is centered on ensuring that Cook County provides responsive, transparent services and develops a thriving, professional workforce that reflects the communities served. This work is led by the Bureau of Administration, Bureau of Finance, Bureau of Human Resources, Bureau of Technology, and Office of the President; however, all County departments and officials should strive towards further accountability, effectiveness, and transparency.

Cook County is committed to making “doing business” with the County simple and transparent and to promoting responsible and innovative fiscal management practices. The Office of the Chief Procurement Officer’s (OCPO) work to digitize and modernize the procurement process has successfully allowed vendors and the County to continue the procurement process through COVID-19. OCPO will continue its modernization efforts to support vendors and ensure the best use of County resources. The Department of Budget and Management Services (DBMS) has demonstrated their commitment to transparency and innovation by launching Cook County’s interactive budget website in FY2020. The newly developed budget site provides numerous interactive visualizations of budget data. These visualizations offer the ability to filter, drill down and sort, to provide detailed insight on County expenditures, revenues, grants and infrastructure spending. Prior to the development of the new site, all budget information and data were presented in static online documents and a three-volume budget book containing more than 1,000 pages. A more intuitive version of the interactive budget website is being launched simultaneously with this Appropriation Bill and will provide even greater clarity to the makeup of the County’s annual appropriation.

In FY2020, the Office of Research, Operations and Innovation (ROI) under the Bureau of Administration launched a redesigned version of the County’s performance management program. This new program provides a more comprehensive approach to continuous improvement and makes ROI a one-stop-shop for analyzing process improvement and performance management data and facilitating the improvement of mission-based and operational-based performance. ROI provides training to all levels of employees on continuous improvement tools and methodologies to improve their operations through creative, data driven solutions. In partnership with the Bureau of Technology’s Data Analytics division, ROI helped launch departmental public dashboards populated with key performance indicators and goals specific to each department within Offices Under the President. This initiative created unprecedented transparency for Cook County residents and cultivated data literacy and data-based decision making across the County. In FY2021, ROI will continue to shift the focus from “measuring and reporting” to “managing and improving results,” moving towards a data collection framework that focuses on internal usage and management rather than solely required reporting.

In FY2021, the Open Communities team will also promote greater accessibility and strive to create additional mechanisms for residents to provide meaningful feedback throughout the decision-making process. This includes drafting a multi-phased language access policy to ensure all residents can engage with and access Cook County government. Additionally, President Preckwinkle established the Cook County Community Advisory Council in FY2020, and the President’s Office will continue building up this initiative in FY2021. Composed of community leaders and advocates, the Community Advisory Council will provide feedback from their communities on Cook County’s COVID-19 response effectiveness, highlight any existing gaps in service and potential areas for partnership. The Council will also serve as an important conduit back out to their communities to let residents know what Cook County is doing and what resources we can provide. In FY2020, President Preckwinkle also established the Disability Inclusion Working Group as a cross-disciplinary group of leaders in our community who are knowledgeable about and passionate for actionable measures to promote the full inclusion of people with disabilities in the planning and delivery of County services. In FY2021, this group will work with the County to inform the design, coordination, implementation, monitoring, and evaluation of equity initiatives that support the *Cook County Policy Roadmap* and other County policies and programs from a disability lens.

COMMITMENT TO EQUITY

The *Policy Roadmap* has equity at its heart and in FY2021 the County is doubling down on its commitment by investing in programs that promote equity throughout our communities. Many of our communities have been historically marginalized and experienced decades of disinvestment. They have also endured the widening of income inequality that has led to disparities in housing, food, education, workforce opportunities and healthcare. Unfortunately, the COVID-19 pandemic has only further exacerbated these disparities. The FY2021 budget allows for close to a \$100 million to be invested over the next 2 years in the areas of restorative justice, violence prevention, digital equity, public health, workforce training, affordable transportation and housing assistance. The funding for these programs has been a result of prudent fiscal governance over the past several years under President Toni Preckwinkle's leadership, and is not coming at the expense of sacrificing critical public safety and public health services that all County residents need, regardless of their economic status, or by increasing taxes. The FY2021 budget ensures all residents who rely on the County for its services, get them in a more efficient manner. However, the communities who have suffered historical disinvestment will get a little more. That is true equity.

COUNTY LONG-TERM FINANCIAL FORECAST

Pursuant to Executive Order 2012-01, Cook County prepares a long-term financial forecast to support responsible long-term planning. Cook County's \$6.9 billion budget helps support vital public safety, public health and property tax related services for its residents. Although Cook County has a diverse revenue base, expenditures rise over time due to inflationary pressures (with medical trends for health benefits and several other categories of expenditures growing faster than general inflation), whereas natural growth in revenues struggle to keep pace. Several critical revenue sources are declining over time or growing at rates below general inflation. This makes structurally balancing the budget challenging and necessitates difficult decisions. The addition of Cannabis Revenue, Online Sales Tax and Sport-wagering Tax in FY2021 has the potential to help offset these structural deficits in the outer years. However, these new revenues represent an additional source of uncertainty that will not be fully understood until the County begins to receive payments from the State.

In October of 2018, the Cook County Board of Commissioners approved an ordinance establishing the Independent Revenue Forecasting Commission, which is intended to help the Board make informed budgetary decisions by evaluating an annual five-year forecast of Cook County revenues. In 2020, the Commission met on April 29, July 1, July 30, and August 31 to evaluate the assumptions and projections for the major tax revenue sources to Cook County. Their primary overarching recommendations are as follows:

- Explicitly describe the economic models and processes driving Cook County's revenues.
- Improve internal consistency of models.
- Expand the use of monthly data and event-specific information to improve forecasts.
- Document current and historical tax policies of Cook County.
- Develop capacity to prepare alternative revenue forecasts.
- Strengthen the practice of forecasting new revenues based on a systematic comparison of Cook County to other jurisdictions in terms of population, income, tax policies and other relevant factors.
- Clarify that the scope of the Commission includes the ability to review all County revenues.

The long-term financial forecast identified in the tables below incorporates many of the recommendations identified above, and we look forward to continued input from the Commission moving forward.

The IRFC proved to be particularly important this year in assisting with the development of new methodologies to account for the impacts of COVID-19. The long-term financial forecast identified in the tables below incorporate many of the recommendations identified above, and we look forward to continued input from the IRFC moving forward.

Though Cook County is required by statute to present a balanced budget annually, the long-term financial forecast provides a critical tool in evaluating potential fiscal challenges the County will face in the near future. This forecast examines the County's General Fund and Health Enterprise Fund only, as Special Purpose Funds are expected to be self-balancing based on the fees provided for service. The Health Enterprise Fund will receive a tax allocation in the FY2021 appropriation and is therefore included in the forecast analysis.

PROJECTED EXPENSES

Between FY2021 and FY2025 total expenses for the General and Health Enterprise Funds are expected to increase \$935.5 million, at a Compound Annual Growth rate (CAGR) of 4.2%. Expenditures within the Health Enterprise Fund are expected to increase by \$700.1 million at an annualized growth rate of 4.8%. Within the General Fund, total expenses are expected to increase by \$235.4 million, or about 3.0% annually. Approximately 63.3% of the General Fund increase is associated with Personnel expenses including Salaries, Other Personnel and Health Benefits which are expected to grow in total by \$149.0 million or 2.9%, combined. Non-Personnel Costs are expected to grow \$86.5 million largely due to Comm & IS Maintenance, which is expected to grow annually at 4.0% and be \$10.8 million greater than the FY2021 appropriation, additional Pension Contributions which will grow by \$28.1 million or about 2.0% annually and Equitable Investments which the County has committed to increase by \$5.0 million each year over the next four years for a combined quarter of a billion dollars in investments designed to promote more equitable economic growth in Suburban Cook County.

Within CCH, 77.3% of the increase in total expenses from FY2021 to FY2025 can be attributed to increases in external claim expenses within CountyCare which is increasing by \$562.6 million by FY2025 at a compound annual growth rate of 6.2%. Personnel costs make up 13.3% of the total increase and are expected to grow at a combined annual growth rate of about 3.0%.

PROJECTED REVENUES

By FY2025, the total revenue for the Cook County General and Health Enterprise Fund is estimated to increase by \$583.9 million, a CAGR of 2.7%. Within the General Fund, total revenues are expected to increase at a rate of 2.9% annually and be \$231.1 million higher by FY2025. This growth can be almost entirely attributed to the new revenue streams of Online Sales, Cannabis and Sports Wagering which are estimated at a combined value of \$215.5 million with Online Sales Tax contributing \$195.5 million alone. However, over half of Cook County's revenue streams are either declining or failing to keep pace with inflation. This includes Gas and Diesel Tax, Cigarette Tax and Property Taxes. The base tax levy on property has remained flat since 1992 and, therefore, has continuously declined in real terms, net of inflation. The brick and mortar component of Sales Tax is projected to largely grow with the economy with an expected increase of \$54.6 million or 1.8% annually, but it is also subject to potential economic volatility and sensitive to social distancing policies. In the near future, Cook County will need to either reduce expenses, identify new revenues, or replace existing revenues with ones that grow at the rate of inflation in order to maintain a balanced budget, particularly if new revenue sources do not meet expectations.

By FY2025, CCH revenues, after the Property Tax allocation, are expected to increase by \$352.8 million over the FY2021 budget, a compound Annual Growth Rate of 2.5%. Beginning in FY2021, the Health Enterprise Fund's portion of the property tax levy is assumed to increase by \$40 million and increase by another \$10 million each year thereafter. Patient Fee Revenues, composed of Medicaid, Medicare, Private Payors and Graduate Medical Education (GME) payments, are expected to increase by 46.2% from the FY2020 estimate to the FY2021 budget. Unfavorable results in these patient fees in FY2020 can largely be attributed to the impact of COVID-19, the associated reduction in Emergency Room visits, suspension of elective surgeries and routine appointments. In the succeeding years, from FY2021 to FY2025, these revenues are expected to increase at a compound Annual Growth rate of 2.3% as, management initiatives such as improving the internal capture rate for CountyCare, reducing CCH's proportion of Countywide uncompensated care and expediting application processing, are assumed within the model. Health Plan Services revenues, however, are expected to increase by \$277.2 million at an annual rate of 3.0% by FY2025.

PROJECTED FUND BALANCE

In FY2020, the County's beginning fund balance within the General Fund was \$456.4 million. In April of this year, the County received approximately \$428.6 million in Coronavirus Relief Funds to fund its COVID-19 Response Plan. Approximately, \$132.9 million was made available for economic development activities and as reimbursement to local governments in Suburban Cook County, \$49.9 million was reserved for use in FY2021, leaving approximately \$245.8 million to help offset expenses in FY2020 related to the County's efforts to contain the coronavirus at the Cook County Jail, hospital and across the County's Department's. As part of the FY2020 adopted budget, \$10 million in fund reserves was allocated to the General Fund, and \$20 million was reclassified from unassigned to assigned as part of the County's efforts to establish a Pension Stabilization reserve. Based on current estimates for FY2020, we anticipate a net change in the fund balance of approximately negative \$158.8 million prior to reimbursements from the Coronavirus Relief Fund. By the end of FY2020, the anticipated end of year fund balance will be approximately \$513.4 million. For FY2021, the Appropriation Bill allocates \$76.8 million of the unassigned Fund balance to the FY2021 budget resulting in an estimated end of year fund balance of \$436.6 million, which is just over 22% of the County's annual budgeted expenditures. According to the long-term revenue and expense forecasts for FY2022 to FY2025, the long term projected ending Fund balance is estimated to be \$396.6 million, \$383.8 million, \$375.7 million and \$371.4 million in FY2022, 2023, 2024, and 2025 respectively.

These long-term revenue estimates incorporate certain assumptions that contain inherent risks. Risk's associated with the new revenues of Online Sales Tax, Cannabis and Sports-wagering are particularly uncertain due to the lack of direct historical data. In addition to those are the risks associated with the trajectory of COVID-19 and its impact on the County's revenue sources.

LONG-TERM ALTERNATIVE REVENUE SCENARIOS

The continued progression of COVID-19 is likely to have fiscal impacts beyond FY2021, some of which we are just beginning to understand. The following analysis, however, focuses on the financial impact of the Governor's Five Phase Restore Illinois plan to the County's economically sensitive and COVID-19 sensitive revenue streams.

The Governors Restore Illinois Plan establishes regulations on economic and social behaviors depending on COVID-19 tracking metrics within a defined geographical area. As of October 6, 2020, both Chicago and the Suburban Cook County Region were still in Phase 4. In the County's Long-Term Alternative Revenue Scenario analysis, the following assumptions are made about the progression of COVID-19:

- **Base-case scenario:** This analysis reflects the budget and assumes that the County remains in Phase 4 until May of FY2021, when it moves to Phase 5 with the advent and widespread distribution of an effective COVID-19 vaccine.
- **Best-case scenario:** The COVID-19 vaccine is available earlier, in March of 2021.
- **Worst-case scenario:** The County sees a near-term steep increase in COVID-19 cases and hospital admissions, resulting in a regression to Phase 3 in November of FY2020, with Phase 2 lockdowns implemented in the region during the months of December and January. The County then moves back to Phase 3 for the remainder of the fiscal year and moving back to Phase 4 in December of 2021, but not reaching Phase 5 until June of 2022.

The long-term alternative revenue scenario methodology builds upon the short-term alternative revenue scenario methodology and current long-term forecast. The FY2021 methodology for the worst-case scenario is extended through FY2022 by specifically calculating the impact of each phase. After this point, the year-over-year percent changes seen in our base-case scenario is applied for FY2023-2025. The worst-case scenario essentially delays the recovery by one year, so the percent increase from FY2020 to FY2021 seen in the base case is applied to the FY2021 worst case to create FY2022 estimates. The worst-case scenario essentially delays the recovery by one year. The percent increase from FY2020 to FY2021 seen in the base-case is applied to the FY2021 worst-case to create FY2022 estimates.

If the County's expense projection remains unchanged during each scenario, we can leverage these alternative revenue scenarios to develop out-year alternative scenarios estimates of the ending fund balance. In the worst-case scenario, the Ending Fund Balance by FY2025 is expected to be negative \$18.8 million. In the best-case scenario, the Unassigned Fund balance could reach levels just over \$774.8 million by FY2025.

METHODOLOGY

In projecting each of the revenue sources, economic drivers like inflation, GDP growth, historical trends, operating initiatives and regulatory factors that may affect collection of those revenues were taken into consideration. This resulted in a variety of revenue specific models, which included linear regressions, compound annual growth rates, and inputs from subject matter experts. Additionally, specific methodologies were developed to take into account the potential impacts of COVID-19 with limited data.

Over the past few years, the County has relied upon statistical extrapolation techniques. These methodologies rely upon the assumption that past trends will continue in the future. However, amongst the economic impacts of COVID-19, this assumption is no longer true, and these statistical extrapolation techniques are less useful in the current year.

To account for the impacts of COVID-19, new methods needed to be developed. The Sales Tax estimate was based on US Census Advance Monthly Retail Trade reports showing national sector declines, and credit card data for Cook County. To pick between multiple forecasts, the most conservative methodology was chosen, after the elimination of unreasonable forecasts.

This was the County's first complete year of collaboration with the Independent Revenue Forecasting Commission (IRFC). This group of experts helped the County evaluate and finalize its revenue forecasting methods. Additionally, the County has strived for increased transparency, and has publicly posted datasets, methodologies, and IRFC meeting records on the IRFC website. More in depth technical explanations of methodologies are available on the IRFC website (<https://www.cookcountylil.gov/service/independent-revenue-forecasting-commission>).

- (i) Similarly, expenses were analyzed as falling into five primary categories: (i) Expenses that grow at or around the rate of inflation; (ii) Communication and IS Maintenance Costs that are projected to grow in accordance with recent experience; (iii) Internal estimates provided by CountyCare; (iv) Salary and Wages costs that are projected

to grow in accordance with the rate negotiated in our Collective Bargaining Agreements (CBA) and (v) Anticipated increases in Health benefits that are expected to increase at rates consistent with an analysis provided by the County's actuarial service provider.

- (ii) An estimate provided by the Survey of Professional forecasts of the Consumer Price Index (CPI) was used to develop the County's estimated out-year growth in the following categories: Contractual Services, and Contingencies within the General Fund; Supplies and Materials, Operations and Maintenance, and Rental and Leasing categories in both the General Fund and Health Enterprise Fund. These costs are expected to grow at a rate of 2.1% annual. Pension Reimbursements were expected to grow at rate consistent with the average annual CPI for the Chicago region, which has a Compound Annual growth rate (CAGR) of 2.0%. While energy costs, limited to oil, electricity, and gas is expected to grow at an inflationary rate of 3.5%, in accordance with the Energy CPI. The Supplies and Materials and Contingencies expenses at the hospital are expected to grow at a slightly higher rate that is consistent with the Average Annual Change in the Medical Care CPI of 3.5%.
- (iii) Communication and IS Maintenance includes expenses related to the licensing and maintenance of software. Recent reinvestment in Cook County's accounting software and other subscriptions have resulted in higher costs which experience accelerated cost patterns. This forecasting category is expected to grow annually by 4.0%.
- (iv) The third category is based on Managed Care claims and, more specifically, the anticipated reimbursements to our third-party care providers for services provided to foreign and domestic health care providers. Based on recent experience, CCH projected that Managed Care expenses would increase by an average of about 6.2%
- (v) Salaries and Other Personnel costs include the salaries of regular full-time employees and overtime costs respectively. These are estimated to increase in accordance with the value of our current CBA's by about 2.0% with an additional 0.2% growth rate added for the General Fund and 0.5% growth rate added for the Health Enterprise Fund to adjust for recent trends.
- (vi) Health benefits in both the General Fund and Health Enterprise Fund were increased at compound annual growth rate of 5.9% in accordance with actuarial recommendations based on National and County specific health care cost trends.

Every forecast includes statistical assumptions and policy decisions, including the level and type of risks to take. These forecasts have generally taken an approach that is both conservative and reasonable.

REVENUE ESTIMATE

The total funding for Cook County in FY2021 is estimated at \$6.9 billion compared to FY2020 total funding of \$6.2 billion. The increase of \$739.4 million is a change of 11.9%. This figure includes a \$563.4 million increase in the Health Enterprise Fund, driven primarily by an \$444.1 million increase in CountyCare revenue. The CountyCare revenue increase is due to increases in membership, in Directed Payments, and in the Medicare product. CountyCare membership is projected to grow to an average of 356,343 for FY2021. Directed Payments revenue, which replaces Access Payments revenue, is estimated to be \$240.8 million in FY2021. The remaining FY2021 revenue increase is attributed to Graduate Medical Education payments, estimated to be \$73.6 million, and an increase in the Property Tax Allocation of \$40 million.

Funding of \$6.9 billion in FY2021 is appropriated into five Major Governmental Funds at \$2.87 billion, three Non-Major Governmental Funds at \$840.4 million and one Proprietary Fund at \$3.24 billion. The General Fund and Health Enterprise Fund are the two main operating funds, accounting for 64.4% of the total appropriation. The Capital Projects Fund is \$350.7 million or 5%, while the remaining \$1.66 billion or 23.9% is appropriated to the County Employees' and Officers' Annuity and Benefits Fund, Debt Service Fund, Special Purpose Funds, Grant Funds and the Election Fund.

TOTAL FUNDING SOURCES AND ALLOCATIONS

The County uses a fund accounting system to present the financial position and the results of operation for each fund. It is also designed to provide budgetary control over the revenues and expenditures of each fund. Separate funds are maintained for the purpose of segregating various types of governmental activities. Each fund is an independent fiscal and accounting entity made up of a self-balancing set of accounts containing all transactions affecting that particular fund.

FISCAL YEAR 2021 FUNDING SOURCES AND ALLOCATIONS									
Funding Sources	Major Governmental Funds				Non-Major Governmental Funds			Proprietary Fund	Total
	General Fund	Annuity & Benefits Fund	Capital Projects Fund	Debt Service Fund	Special Purpose Fund	Grant Funds	Election Fund	Health Enterprise Fund	
Property Taxes	\$246.9	\$151.0		\$262.0			\$14.0	\$122.7	\$796.6
Personal Property Replacement Tax		\$50.9							\$50.9
Sales Tax	\$830.2								\$830.2
Non Property Taxes	\$452.4				\$6				\$453.1
Fees	\$180.2				\$57.0				\$237.2
Health Enterprise Revenue								\$3,249.7	\$3,249.7
Intergovernmental Revenues	\$70.7				\$2.3				\$73.0

Other Sources and (uses)	\$76.8				\$99.7		\$15.8		\$192.3
Total	\$1,896.3	\$201.9	\$350.7	\$262.0	\$445.7	\$364.9	\$29.8	\$3,387.4	\$6,938.6

GENERAL AND HEALTH ENTERPRISE FUNDS

The County's FY2021 General Fund and Health Enterprise Fund revenue is estimated to be \$5.3 billion, approximately \$540.4 million, or 11.4% above the FY2020 budgeted revenue of \$4.74 billion. Revenues are estimated for budgetary purposes through analysis of historical, demographic, micro-economic, macro-economic and regulatory trends. For major tax-based revenues, economic forecasting models are applied to account for the impact of the national and local economy.

The total budgeted revenue for FY2020 was \$1.92 billion for the General Fund. The FY2021 revenue is estimated at \$1.89 billion, representing a 4.7%, or \$89.8 million decrease. This decrease is attributed to the financial impact of the stay-at-home orders, the implementation of social distancing measures and limitations placed on business operations by the State of Illinois in order to mitigate the spread of the COVID-19 virus through FY2021. To offset that revenue loss and to avoid severe cuts in services, the County intends to use \$76.8 million from its reserves in FY2021.

FY2021 REVENUE BY SOURCE

GENERAL AND HEALTH ENTERPRISE FUND 5 YEAR SUMMARY					
Revenue by Source	Actuals	Actuals	Actuals	Projection	Adopted
	FY2017	FY2018	FY2019	FY2020	FY2021
Property Taxes	\$277,706,037	\$197,076,662	\$230,491,956	\$327,369,349	\$369,646,580
Sales Tax	\$810,959,174	\$842,649,449	\$838,744,833	\$739,119,855	\$830,214,301
Non-Property Taxes	\$568,733,230	\$512,746,047	\$512,204,354	\$355,084,489	\$452,415,474
Fees and Licenses	\$221,086,890	\$212,248,025	\$236,300,947	\$174,217,058	\$180,228,082
Intergovernmental Revenue	\$54,590,557	\$54,723,985	\$73,911,695	\$63,711,589	\$70,678,023

Total	\$3,396,251,107	\$4,403,319,107	\$4,386,413,066	\$4,768,536,614	\$5,283,710,820

The **Corporate Fund** is one of the general operating funds of the County. This fund includes the majority of the property tax-related functions of County government on behalf of underlying jurisdictions, as well as general administrative functions of the County. It funds such agencies as the County Assessor, County Treasurer, County Clerk, Board of Review and the various Offices under the President, including the supplemental pension appropriation of \$342 million. The Corporate Fund derives most of its revenue from departmental fees and the County Sales Tax.

The **Public Safety Fund** is comprised of the County's criminal justice system and certain departments responsible for ensuring certain aspects of public safety: jails, courts, and related programs. Agencies in this fund include the Sheriff's Office, State's Attorney's Office, Public Defender's Office, Office of the Chief Judge, the Juvenile Temporary Detention Center and the Department of Emergency Management & Regional Security. The revenue supporting this fund is mostly derived from the property tax levy, departmental fees and non-property taxes such as the County Sales Tax, Alcoholic Beverage Tax and Amusement Tax.

The **Health Enterprise Fund** encompasses the County's public health care system. Contained within this fund are the Department of Public Health, Stroger Hospital, Provident Hospital, Cermak Health Services, the Ambulatory/Community Health Network Clinics and Health Plan Services, commonly referred to as CountyCare (which was launched in 2013). The Health Enterprise Fund receives the majority of its revenue from patient fees (Medicaid, Medicare, other third party and private payers), Managed Care (revenues are allocated per member per month for an expanded Medicaid population under the Affordable Health Care Act), Disproportionate Share Hospital payments (DSH), payments from the Benefits Improvement and Protection Act (BIPA), and tax revenues in the form of an annual tax allocation for operations from the property tax levy (additional local tax payer funds are also used for debt service on bonded debt for health system facilities and health system employee pension costs that are not accounted for in the Health Enterprise Fund).

REVENUE FROM PROPERTY TAX

The County's total property tax levy is made up of two basic components: 1) the base property tax levy and 2) estimated revenue from expiring incentives, expired Tax Increment Financing (TIF) districts, and new property construction. As TIF districts and incentives expire, the County recognizes additional property tax revenue without increasing property taxes on Cook County taxpayers on a real (net of inflation) or nominal basis, absent any offsetting reduction in property removed from the tax roll. Similarly, the addition of new property through construction and economic activity allows the County to generate additional revenue without increasing property taxes for existing taxpayers in the same manner.

The County's 2021 base property tax levy continues to be \$720.4 million. This base property tax levy established by the County Board of Commissioners has not been adjusted to account for inflation since 1996. This amount is levied by adjustments to the property tax rate in order to offset increases or decreases to the assessed valuations in Cook County. As a result of the flat base levy, the Cook County portion of property tax bills has actually declined on a real basis, net of inflation annually since 1996 and is projected to continue to do so in the 2021 tax year.

In addition to the base property tax, the levy includes an estimate of \$54.9 million in property taxes that will be captured from new property, expiring TIF districts and expiring incentives from previous years; and \$8.7 million estimated for the coming 2021 levy. The new property calculation reflects the figures published by the Cook County Clerk for the 2019 tax year, which are the most recent available, published in June of 2020. The County is a Home Rule unit of government and is not bound by these estimates, but uses this estimate process to calculate the approximate property tax revenues to be generated in Tax Year 2021.

There is also an offset of 3% for loss in collections for the operating funds (Public Safety, Health, Elections, and Capital Projects) for an estimated net total property tax amount of \$773 million available for appropriations. The County Clerk is authorized to account for loss in collections as necessary and is consistent with State law to ensure adequate resources are collected to cover obligations in the Debt Service and Annuity and Benefit Funds.

In FY2021, the County's property tax levy revenue available for General Fund and Health Enterprise Fund operations is \$346.1 million, compared with \$305.4 million in FY2020. The \$40.8 million increase is primarily driven by a \$37.7 million reduction in the FY2021 Election Fund allocation due to an off-cycle election year, as well as an increase in the total tax levy of \$8.8 million. An increase in the debt service payment allocation of \$2.0 million and the pension contribution allocation of \$3.7 million results in the net increase.

Budgeted Property Tax revenues also reflect an estimate of declared TIF surplus remittance of the County's proportionate share of expiring TIF districts across the County. Budgeted TIF surplus revenues were \$22 million in FY2020. The FY2021 estimate is \$23.5 million, an increase of \$1.5 million from the previous year. This increase is due to the City of Chicago declaring a higher TIF surplus than in previous years.

GENERAL FUND – REVENUE BY SOURCE

NON-PROPERTY TAXES

The County is projecting to receive \$1.09 billion in non-property taxes by FY2020 year-end. The estimated revenue for non-property taxes in FY2021 is \$1.28 billion. This is \$69.5 million less than the FY2020 appropriation of \$1.35 billion. The implementation of social distancing measures, travel restrictions and shelter-in-place restrictions played a major contributing factor in the County's loss of non-property tax revenues.

Non-property Taxes are for the most part taxes imposed by the County under its Home Rule authority granted by the 1970 Illinois Constitution. Under the State Constitution, the County's taxing authority is limited only by a prohibition against an income-based tax and a tax upon occupations. All of the Non-property Taxes are administered and collected by the Cook County Department of Revenue, except Off Track Betting Commission, Illinois Gaming – Casino, General Sales Tax, Non-Retailer Vehicle Transaction Tax, Sports Wagering Tax, Cannabis Tax and the State Income Tax, which are collected by the State on the County's behalf. All Non-property Taxes are deposited into the General Fund.

SALES TAX

The Cook County Sales Tax was established on September 1, 1992 and was imposed on general merchandise at a rate of 0.75%. As of January 1, 2016, the effective Sales Tax rate in Cook County increased to 1.75%. The tax is County-wide including both incorporated and unincorporated areas and has been adjusted over time by the County Board. The State collects the Sales Tax on behalf of Cook County, then remits the tax receipts to the County. Effective with the State's FY2019 budget, 1.5% of sales taxes collected on behalf of local units of governments by the State will be transferred to the State's Tax Compliance and Administrative Fund. This is essentially a service fee imposed by the State on local governments for the collection and remittance of Sales Tax revenue owed to local governments. Beginning on January 1, 2021 retailers will be required to collect both state and local taxes based on the address of delivery for online sales.

The FY2021 Cook County gross Sales Tax estimate is \$830.2 million and is distributed between the Public Safety Fund and Corporate Fund, with \$342.0 million dedicated to a supplemental appropriation for an additional payment to the Pension Fund. Projected Sales Tax revenues in FY2020 are expected to be \$739.1 million.

COOK COUNTY USE TAX

Beginning on December 1, 1995, the County imposed and began collecting the Cook County Use Tax. This tax applies to tangible personal property (e.g. cars, motorcycles & boats) titled or registered with a State agency, within the corporate limits of Cook County. The tax rate is 1%. The FY2020 Cook County Use Tax year-end projection is \$59.8 million, which is \$22.4 million lower than the FY2020 budget. This decrease is due to the on-going financial fallout from the COVID-19 pandemic. The Cook County Use Tax is estimated to bring in \$70.1 million in revenue for FY2021, which is \$10.4 million above the FY2020 year-end revenue projection.

CIGARETTE TAX

Prior to 1997, the Cigarette Tax was imposed at a rate of 10 cents per packet of 20 cigarettes. Beginning in FY1997, the Cigarette Tax began a series of increases, including the last increase in FY2013, which increased the tax from \$2 to \$3 per pack. The Cigarette Tax is estimated to bring in \$96.5 million in revenue for the Public Safety Fund in FY2021, compared to a year-end projection of \$88.8 million in FY2020, prior to settlements of \$59.5 million. Cigarette Tax has an adopted revenue of \$100.3 million in FY2020. This decline in revenue can be attributed to a reduction in consumption due to price sensitivity to higher tax rates, the State of Illinois raising the age for the legal purchase of tobacco to 21, the impact of smoking cessation programs, and the increased usage of alternative e-cigarettes.

GAS TAX

The Gas Tax is imposed on the retail sale of gasoline and diesel within Cook County. Since FY1997, the tax rate of 6 cents per gallon has also been imposed on propane, jet fuel, diesel fuel, and kerosene. The receipts generated from this tax are deposited entirely in the Public Safety Fund. The FY2020 year-end projected revenue of \$75.6 million is less than the \$87 million in revenue estimated for FY2021. The decrease in Gas Tax revenue in FY2020 is attributed to the decrease in motor vehicle usage during the COVID-19 pandemic.

PARKING LOT AND GARAGE OPERATIONS TAX

The Parking Lot and Garage Operations Tax (Parking Tax) is imposed upon the use and privilege of parking a motor vehicle in or upon any parking lot or garage in the County. Effective September 1, 2013, the Cook County Board of Commissioners approved a change to the structure of the Parking Tax. The structure imposes a rate of 6% of the charge or fee paid for parking for a 24-hour period or less and 9% of the charge or fee paid for parking for a weekly or monthly period. All tax receipts are deposited in the Public Safety Fund. The Parking Tax is estimated to bring in \$43.0 million in revenue for FY2021. This amount reflects an increase from the projected FY2020 year-end revenue for this tax of \$23.0 million. The revenue reduction in FY2020 was due to limitations on gathering sizes and reductions in travel due to the COVID-19 pandemic.

AMUSEMENT TAX

The Amusement Tax is imposed upon the patrons of amusement within the County of Cook, such as sporting events, concerts and theaters. The tax rate is 3.0% of the gross receipts from admission fees or other charges for larger venues; with lower tax rates applicable to live performances at smaller venues. All tax receipts are deposited in the Public Safety Fund. The Amusement Tax is estimated to bring in \$24.3 million in revenue for FY2021, which is above the projected \$6.3 million in FY2020. The decline of revenue in FY2020 is the result of limitations on gatherings and social distance guidelines imposed by the State of Illinois in order to mitigate the impacts of the COVID-19 pandemic.

ALCOHOLIC BEVERAGE TAX

The Alcoholic Beverage Tax is imposed on the retail sale of all alcoholic beverages in Cook County. The ordinance was enacted in 1975 and last amended in 2012. Wines containing 14% or less alcohol by volume are taxed at the rate of 24 cents per gallon, while those containing more than 14% are taxed at the rate of 45 cents per gallon. Alcohol and spirits are taxed at a rate of \$2.50 per gallon and beer is taxed at a rate of 9 cents per gallon. Once collected, all receipts are distributed to the Public Safety Fund. The Alcoholic Beverage Tax is projected to garner \$36.4 million in FY2020 and is estimated to bring in \$36.3 million in revenue for FY2021. Despite projected declines in consumption due to social gathering restrictions imposed by the State of Illinois as a result of the COVID-19 pandemic, revenues remain steady year-over-year.

NEW MOTOR VEHICLE TAX

This tax is imposed on the retail sale of new motor vehicles in Cook County at a rate of \$7.50 for 2-wheel motor vehicles, \$11.25 for 3-wheel motor vehicles, \$15.00 for 4-wheel motor vehicles, and \$22.50 for trucks, truck tractors, trailers, semi-trailers or pole trailers. All of the tax receipts are deposited in the Public Safety Fund. The New Motor Vehicle Tax is estimated to bring in \$2.3 million in revenue for FY2021, which is slightly above the FY2020 year-end projected revenue of \$2.2 million. This projection is below the FY2020 adopted revenue of \$2.9 million. The decline in automobile purchases can be attributed to the ongoing financial fallout from the COVID-19 pandemic.

NON-RETAILER TRANSACTION USE TAX

The non-retailer transactions tax is a use tax for non-retailer transfers of motor vehicles in Cook County. The tax is applied to the transfer or purchase of a motor vehicle that is titled or registered from a non-retailer located in Cook County with an agency of the State of Illinois. The FY2021 revenue for this tax is projected to be \$15.3 million, compared to projected FY2020 year-end revenue of \$12.0 million. Though revenues that the State collects on behalf of the County at registration are stable, revenue was negatively impacted by the COVID-19 pandemic. The FY2020 adopted budget was \$16.7 million or a year-over-year variance of \$1.5 million. All of the tax receipts are deposited in the Public Safety Fund.

GAMBLING MACHINE TAX

In FY2013, Cook County instituted a tax on electronic gambling machines. The tax rate is \$1,000 per year per electronic gambling device, such as a slot machine, and \$200 per year per video gaming terminal, such as a video poker machine. The Gambling Machine Tax is estimated to generate \$3.5 million for FY2021, an increase from the FY2020 projected year-end revenue of \$2.1 million. This is a decrease from the adopted FY2020 revenue of \$5.5 million. The decrease in revenue is largely due to the delay of the opening of new casinos and operating restrictions placed on businesses by the State of Illinois in order to mitigate the spread of COVID-19.

VIDEO GAMING

In FY2018, the Cook County Board voted to allow video gaming in unincorporated areas of the County. At that time, the Board also passed an Ordinance to regulate video gaming. As per Ordinance, a license fee of \$1,000 was instituted for video gaming terminals along with an annual application fee for gaming establishments. Additionally, the County will receive the municipal share of the Net Terminal Income as per Illinois Gaming regulations. Video Gaming is estimated to generate \$0.41 million by the end of FY2020 and increase to \$0.55 million in FY2021.

FIREARM AND FIREARM AMMUNITION TAX

In FY2013, Cook County established a tax on firearms sold in Cook County. The tax of \$25 per firearm is levied per new firearm sold and collected by the seller. In FY2016, Cook County established a tax on ammunition at a rate of \$0.05 per cartridge of centerfire ammunition and \$0.01 per cartridge of rim fire ammunition. The revenue generated by the Firearm and Firearm Ammunition Tax is deposited into the Public Safety Fund to help alleviate the cost of gun violence. Estimated revenue for FY2021 is \$1.2 million, which is slightly below the \$1.4 million projected to be collected by the end of FY2020.

WHEEL TAX

The Wheel Tax is an annual license fee authorizing the use of any motor vehicle within the unincorporated area of Cook County. Depending on the motor vehicle's class, weight, and number of axles, annual tax rates vary based on the vehicle and trailer type. All tax receipts are deposited in the Public Safety Fund. The Wheel Tax is estimated to bring in \$4.8 million in revenue for FY2021, compared to projected FY2020 year-end revenue of \$4.5 million. This slight increase is due to additional enforcement measures, which is projected to increase compliance amongst the townships that comprise unincorporated Cook County.

OTHER TOBACCO AND CONSUMABLE PRODUCTS TAX

In FY2012, the Home Rule Tax Ordinance was amended to close a loophole in the taxing of other tobacco products. In FY2020 the County is expected to collect approximately \$6.2 million from taxing tobacco products other than cigarettes including liquid nicotine as well as taxing “roll your own” tobacco on a per ounce basis. The FY2021 revenue estimate is \$6.6 million, which is \$0.4 million less than the FY2020 adopted revenue of \$7 million. The decrease in revenue is based on the City of Chicago having raised the age for the legal purchase of tobacco to 21 as well as an overall decrease in tobacco usage. All of the receipts from this tax are deposited in the Public Safety Fund.

HOTEL ACCOMMODATIONS TAX

In FY2016, Cook County established a Hotel Accommodations Tax at a rate of 1% of the gross rental or leasing charge effective May 1, 2016. In FY2020 the County is projecting to generate \$13.7 million, which is \$20.7 million below the adopted revenue of \$34.4 million. The decrease in revenue is largely due to the cancellation of major conventions and restrictions on gathering sizes imposed by the State of Illinois to mitigate the spread of COVID-19. The FY2021 revenue projection is \$19.5 million. The revenue generated will be deposited in the Public Safety Fund.

STATE INCOME TAX, GENERAL SALES TAX, ILLINOIS GAMING, AND OFF-TRACK BETTING COMMISSION

The remaining Non-property Taxes are generated beyond the authority of Cook County, but still remitted to the County. Some taxes and fees are imposed by other governmental units, i.e., the State, and a portion of those tax receipts are given to the County. All revenue received from the State Income Tax, General Sales Tax (retailer’s occupation tax), Illinois Gaming – casino, and Off-Track Betting Commissions, are deposited in the Public Safety Fund.

SPORTS-WAGERING TAX

In June of 2019, a bill that broadly expanded gambling was signed into State law. This gaming provision allows for in-person and online sports betting at Illinois casinos, racetracks, and sports venues. In FY2020, the Sports-Wagering Tax is projected to collect \$.25 million in revenue. This is below the \$1.75 million adopted for FY2020. The decrease in revenue can be contributed to the cancellation of sporting events and in-person sports books due to the COVID-19 pandemic. In FY2021 the Sports-Wagering Tax revenue projection is \$3.6 million due to the re-instatement of sport leagues.

CANNABIS TAX

Beginning on January 1, 2020, the State of Illinois introduced the Cannabis Regulation and Tax Act, which controlled legalization of Cannabis among adult users. The Cannabis Retailers’ Occupation Act, which allows County and municipal governments to tax the sales of cannabis, went into effect July 1, 2020. The FY2020 Appropriation Bill for Cook County did not include Cannabis Tax revenue but is projecting to collect \$2.4 million by year end. The FY2021 revenue projection from the sale of cannabis is \$13.9 million.

FEES AND LICENSES

The County imposes various General Fund fees for certain services that it performs. The fees charged by various County departments include fees for vital records, real estate transactions, court case filings, and delinquent taxes. The General Fund fees are distributed into the Corporate Fund and Public Safety Fund. Traditionally many of these fees are set by State statute or local ordinance. The County is estimated to receive \$174.2 million by the end of FY2020. For FY2021, total General Fund fees are estimated to be a \$170.8 million; which is \$30.6 million less than the FY2020 adopted revenue of \$201.4 million. Revenue from licenses and fees has been affected as a result of the closure of County operations early on during the COVID-19 pandemic in compliance with stay at home orders issued by the State of Illinois to mitigate the spread of the virus. The following estimates were prepared by the respective elected officials and department directors.

COUNTY TREASURER

The Treasurer's source of revenue primarily consists of penalties on delinquent taxes. The estimated revenue for FY2021 of \$35 million, which is \$5 million below the FY2020 adopted appropriation, is due to uncertainties related to how COVID-19 will affect future delinquent property tax collections.

RECORDER OF DEEDS

The Recorder of Deeds collects revenue from the recording and collection of transfer stamps for real estate transactions and other miscellaneous recordings including judgments and liens. The Recorder of Deeds Office projects to end FY2020 with \$42 million in revenue, which is slightly higher than the FY2020 adopted revenue of \$40.4 million. Beginning in FY2021, the functions and duties of the Recorder of Deeds office will merge into the Cook County Clerk's office and fees will be collected within the County Clerk's revenue stream.

CLERK OF THE CIRCUIT COURT

The Clerk of the Circuit Court collects revenue from a variety of fees and fines related to court case filings to cover costs in administering judicial facilities and satellite offices. The Court Clerk's projected year-end revenue for FY2020 is \$58.4 million, with \$64 million projected to be collected in FY2021. The FY2020 end-of-year revenue projection is \$17 million lower than the adopted amount of \$75.3 million. The decrease in revenue is largely due to court closures in compliance with stay-at-home orders, the increase in fee waivers, high unemployment, the reduction of tickets issued by municipalities and the Governor's Executive Order to cease evictions. A full recovery is not expected during FY2021 due to the continued resurgence of COVID-19.

COUNTY CLERK

The County Clerk collects revenue for sold and forfeited real estate taxes as well as a fee for each property index number sold at tax sale. In addition, the Clerk collects miscellaneous vital records fees. Beginning in FY2021, the County Clerk's Office will assume the duties of the Recorder of Deeds. The Clerk is projecting to receive year-end revenue of \$7.5 million and estimates revenue to increase to \$47.9 million in FY2021 due to the merger of offices.

SHERIFF

The Sheriff derives revenue from vehicle code violation tickets, alarm permits in unincorporated Cook County, and fees collected by the Sheriff's Municipal division for summons and evictions. On July 1, 2019 the Criminal and Traffic Assessment Act (CTAA) was created to reduce the burden of fines and fees on residents who cannot afford to pay them. It also streamlined the way fees are redistributed back to the County and associated agencies. The adopted revenue for FY2020 was \$16.3 million. However, the Sheriff is projecting to collect \$9.3 million in fees by the end of FY2020. This decrease in revenue can be attributed to a reduction in ticket citations due to stay-at-home orders, as well as a moratorium on evictions as a result to the COVID-19 pandemic. FY2021 revenue is projected to be \$15.8 million.

PUBLIC GUARDIAN

The Public Guardian's Office charges legal and other fees for the representation of disabled adult wards and for the maintenance of their estates in the Probate Division, and for minors in the Domestic Relations Division. The FY2020 year-end revenue estimate of \$1.4 million is below the budgeted revenue in FY2020 of \$3.2 million. Collections in FY2020 are substantially less than budget due to COVID-19, as the volume of work has declined and Probate Division hearings for fee petitions have been interrupted. As the pace of Probate hearings returns to normalcy, collections should rise. The office projects collections of \$2 million in FY2021.

BUILDING AND ZONING

The Department of Building and Zoning collects revenue through inspections and construction permitting for structures within unincorporated Cook County. In addition, the Department collects fees for violations, business occupancy certificates, contractor registrations, and zoning amendments. Building and Zoning is projected to receive \$3.5 million by the end of FY2020 and estimates revenue to increase to \$3.6 million for FY2021 due to proposed increases in permit and inspection fees.

PUBLIC ADMINISTRATOR

The Public Administrator derives revenue from administrative fees collected for the administration of estates for people who perish in Cook County without a will or where there is no person with the right or desire to administer the estate. The projected year-end revenues for FY2020 are \$1.7 million, which is \$0.4 million above FY2020 appropriated budget. The Public Administrator is projecting to collect \$1.4 million in fees for FY2021.

TRANSPORTATION AND HIGHWAYS

The Department of Transportation and Highways collects fees from construction and hauling permits. The projected year-end revenue for FY2020 is \$1 million and is estimated to be \$0.85 million for FY2021.

MEDICAL EXAMINER

The Medical Examiner collects fees related to the provision of services such as cremation permit fees. The Medical Examiner's office expects to increase the cremation fee permit in FY2021, raising the fees projected to be collected in FY2021 to \$3.9 million; which is an increase from the projected FY2020 adopted revenue of \$2.0 million.

ENVIRONMENTAL CONTROL

The Department of Environment and Sustainability issues fees for permits such as asbestos abatement, solid waste facilities, and hazardous chemical storage. The year-end revenues for the department's fees FY2020 are projected to be \$4.4 million, with the FY2021 revenues projected to increase slightly to \$4.8 million.

OTHER FEES (CONTRACT COMPLIANCE, LIQUOR LICENSES, COUNTY ASSESSOR)

Under Fees and Licenses are other various fees such as the certification and registration of MBE and WBE Vendors in Contract Compliance; fees related to the issuance of liquor licenses; and fees on FOIA requests from the County Assessor.

INTERGOVERNMENTAL REVENUE

Revenue from intergovernmental sources is granted by other governmental units such as the State of Illinois and the Cook County Forest Preserve District. The Cook County Forest Preserve District is estimated to reimburse Cook County \$2.1 million in FY2021 for administrative services rendered on their behalf. The State of Illinois through State statute agrees to partially reimburse for the salaries of the State's Attorney and the Public Defender. In addition, the State of Illinois through the Administrative Office of the Illinois Courts (AOIC) reimburses the salaries of probation officers and administrative staff that work on behalf of adult and juvenile probation. In total, the State of Illinois is estimated to reimburse Cook County \$49.1 million by the end of FY2020, with a projected reimbursement amount of \$54.7 million in FY2021, due to the State of Illinois increasing the value of the reimbursement in their fiscal year 2021 budget. Revenue received for the Juvenile Temporary Detention Center (JTDC), Adult and Juvenile Probation, State's Attorney and the Public Defender from the State of Illinois are deposited into the Public Safety Fund. Indirect Costs from Special Purpose Funds and Grants are reimbursed back to the County General Fund based on a cost allocation plan identifying indirect expenses and pension funding supplied by the County. For FY2021, the County is estimated to receive \$14.1 million in Indirect Costs.

MISCELLANEOUS REVENUES

Miscellaneous Revenues includes real estate rental income from various County buildings, sale of excess real estate, commissions on public telephones, pharmacy rebates, investment income, and other forms of miscellaneous revenue such as parking fees and the sale of salvage. For FY2021, Cook County is estimated to receive \$115.8 million in miscellaneous revenues.

HEALTH ENTERPRISE FUND

The Health Enterprise Fund is supported by Net Patient Service Revenue (NPSR) or patient fees, health plan revenues, and supplemental payments for care provided at Cook County Health (CCH) hospitals, pharmacies, and clinics. NPSR includes Medicare, Medicaid, private payers and insurance carriers. Health plan revenues through the Cook County Managed Care Community Network (MCCN), also known as CountyCare for Medicaid Managed Care and MoreCare for Medicare Advantage.

Supplemental payments include those from the Benefits Improvement and Protection Act (BIPA), Disproportionate Share Hospital (DSH), and Graduate Medical Education (GME). In addition, a new payment structure was implemented by the State of Illinois in FY2020 called Directed Payments, which includes the replacement of the Provident Access Payment revenue.

CCH also generates revenue through its Department of Public Health by way of inspection fees and grant reimbursement for the services it performs. There are also miscellaneous revenues from the cafeteria, medical records, parking, and physician's fees. Finally, tax revenues in the form of an annual tax allocation for operations are provided from the County. There is also additional local taxpayer support provided for debt service costs and employee pension costs that are paid for by Cook County outside of the Health Fund.

The FY2020 adopted revenue projection was \$2.74 billion, excluding the property tax allocation. The FY2021 revenue projection is \$3.26 billion (excluding the property tax allocation), which is \$523.4 million higher than the FY2020 adopted appropriation. The primary driver for the increase in revenue is due to increase in CountyCare enrollment.

CCH's health plan, CountyCare remains the largest Medicaid managed care plan in Cook County. CountyCare members are expected to grow to an average of 356,343 in FY2021. In 2021, CountyCare is expected to generate more than \$2.2 billion in revenue, which includes a reimbursement of \$204.1 million to CCH for care rendered to CountyCare members at CCH facilities.

As indicated above, the State initiated a new payment structure in FY2020 called Directed Payments. The aim of the Directed Payments from the State is to make CCH whole between the rates that are paid by Managed Care Organizations (MCOs), including CountyCare, and the established cost-based rates that the State pays CCH. The FY2021 budget projects \$240.8 million in Direct Payments, a \$138.1 million increase from the FY2020 projection of \$102.7 million. \$135.8 million of the new Directed Payments are related to CountyCare. There is another \$105 million in Directed Payments related to the other MCOs.

In addition to caring for CountyCare patients, CCH continues to increase its contracts with other managed care health plans and commercial insurers to further drive new reimbursement to the health system. In FY2020, CountyCare launched a Medicare managed care product, and this is anticipated to increase in revenue to \$34.8 million in FY2021 from the projected \$1.5 million in FY2020.

NPSR (patient fees) is expected to increase \$54.9 million in FY2021 from FY2020 budget projections. The net increase is due to reduced volumes as a result of the COVID-19 impact that are anticipated to steadily pick-up over the course of FY2021. The drop in volume is partially offset by normal rate increases. In addition, in FY2021 the State of Illinois will now cover a new cohort of the population (undocumented residents aged 65 and older) which is currently uninsured. Finally, there is a targeted increase of \$10 million in FY2021 related to various revenue cycle improvement initiatives.

HEALTH ENTERPRISE FUND REVENUE BY SOURCE

* In FY2021 the Revenue Estimate includes a \$76.8 million transfer from the FY2020 General Fund Balance.

SPECIAL PURPOSE FUND

The total amount of Special Purpose Funds revenue and fund balance used for the appropriation in FY2021 is estimated to be \$445.7 million. Special Purpose Funds are enabled through State statutes and have defined sources of revenue and uses for expenditures. In contrast to the General Fund, the County has traditionally considered the appropriation of fund balance for Special Purpose Funds as an available resource for appropriation, though it is not required to budget such fund balances and generally does not appropriate the entire fund balance where practical. In FY2021, there are 38 special purpose funds. The County anticipates incurring \$49.9 million in expenses associated with COVID-19 mitigation and response in December 2020, which will be reimbursed from the Coronavirus Relief Special Purpose Fund.

ELECTION FUND

The Election Fund revenue comes from the property tax levy and varies according to the election cycle. This fund is decreasing in FY2021 to \$14 million from \$51.7 million in FY2020 due to FY2021 being an off-cycle election year.

DEBT SERVICE FUND

Bond and Interest is utilized for County debt service payments. This fund receives revenue from a portion of the property tax levy. For FY2021, this fund is expected to receive \$262 million, comparable to the \$259.9 million in FY2020.

ANNUITY AND BENEFITS FUND

The Annuity and Benefits Fund is utilized for statutory payments to the Pension Fund. For FY2021, this fund will receive revenue from the property tax levy in the amount of \$151 million and a projected \$50.9 million from the Personal Property Replacement Tax (PPRT), for a total budget of \$201.9 million. This is an increase of \$940,655 from the FY2020 appropriated total of \$200.9 million.

In FY2019, the County established a Pension Stabilization account in the Annuity and Benefit Fund. In FY2021, this account will receive up to \$342 million in revenues to help offset unfunded liabilities of the County Officers' and Employees' Annuity and Benefit Fund.

*Self Insurance Fund not included.										

GRANT FUNDS

Cook County receives grant funds from federal, state, and private agencies for a variety of services. The FY2021 adopted grant budget is \$364.9 million in total, including \$95.6 million in new anticipated awards and \$269.3 million in anticipated carry-over. This is a 42% increase from FY2020 adopted appropriations. This increase is attributable to new grants received by the County to address the coronavirus public health crisis. Various programs and services are funded by grant funds. Fifty-four percent of FY2021 grant funds (\$197.3 million) will support Public Safety programs, such as the Child Support Enforcement Program and Urban Area Security Initiative (UASI), and 15.7% support Economic Development initiatives.

The County's grant programs are heavily reliant on federal funding. About 28.9% of grant funds are expected to come directly from federal agencies and 59.7% of the funds are expected to come from federal funding passing through non-federal agencies. 10.3% of the County's grants come directly from the State, and 1.1% come from other sources.

FY2021 GRANTS BY FUNDING TYPES

PROPOSED EXPENDITURES

The FY2021 Final Appropriation Bill proposes \$5.46 billion in operating fund appropriations comprised of \$3.46 billion for Healthcare, \$1.37 billion for Public Safety, \$327.5 million for Finance and Administration, \$112.7 million for Property and Taxation operations, \$80.8 million for Economic Development and \$145.6 million in Administrative Overhead. These expenditures include Special Purpose Funds and Grants.

\$5.46 BILLION TOTAL OPERATING EXPENDITURES

5.4 percent	Finance and Administration Expenditures
2.1 percent	Property and Taxation Expenditures
1.5 percent	Economic Development Expenditures
2.7 percent	Administrative Overhead Expenditures

GENERAL FUND - OPERATING EXPENDITURES BY PROGRAM AREAS

The Corporate and Public Safety Funds together make up the County's General Fund. The final appropriation of \$1.90 billion represents a decrease of \$23.0 million or 1.2% from the FY2020 adopted budget. A total of \$1.15 billion or 60.6% of the total General Fund expenditures are appropriated to the Public Safety program, a decrease of \$27.7 million or 2.4% compared to the FY2020 adopted budget. The amount of \$226.4 million, or 11.9% of the total General Fund expenditures, are allocated between Finance and Administration, Economic Development and Property and Taxation areas. These combined expenditures increased by \$1.2 million or 0.5% in FY2021. Administrative Overhead of \$520.6 million is 27.5% of the total expenditures and includes the additional pension contribution of \$342.0 million, debt repayment of \$33.1 million and other Administrative Overhead of \$145.6 million. In FY2021, the Administrative Overhead expenditures are expected to increase by \$3.6 million or 0.7% over FY2020 expenditures.

GENERAL FUND - OPERATIONAL HIGHLIGHTS BY PROGRAM AREAS

PUBLIC SAFETY

Cook County is responsible for the public safety of approximately 5.15 million residents. The public safety system makes up 60.6% of the General Fund and is comprised of the court system, corrections operations and the Sheriff's operations. The County operates the second largest unified court system in the world, which hears civil, criminal, and administrative cases. As part of its public safety system, Cook County operates a pretrial detention facility for adults at the County Jail and for juveniles at the Juvenile Temporary Detention Center (JTDC).

In FY2021, Public Safety expenditures are decreasing by \$27.7 million or 2.4% over the FY2020 appropriation; while the full-time equivalent (FTE) position count is decreasing by 530 positions or 4.4% year-over-year.

These year-over-year reductions are primarily driven by the elimination of vacant positions within the Sheriff's Court Services Division, the Chief Judge's Adult Probation Department, and within the Clerk of the Circuit Court's office, as the court system continues reduced in-person operations in order to mitigate the spread of COVID-19.

The year-to-date average daily Jail population has declined to about 5,400 detainees in FY2020 from over 10,000 in 2013. This is primarily due to policy changes and operational improvements to increase the number of non-cash orders and reducing cash bond amounts. Additionally, as a result of the outbreak of COVID-19 on the Department of Corrections campus, a concerted effort was undertaken by the various Public Safety departments and stakeholders to reduce the inmate population while balancing the safety of communities. Consequently, the population of individuals under the Sheriff's electronic monitoring supervision program has increased from a daily average of about 2,200 individuals to about 3,400 individuals. In order to mitigate the spread of COVID-19, the Sheriff's Office has had to implement various social distancing measures at the Department of Corrections facility including the reopening of shuttered divisions on the campus. This has also required the deployment of Court Services deputies to the Department of Corrections to assist in the supervision of inmates held in different areas of the Jail. Overall, the Sheriff's Office eliminated 306 vacant positions, or 5.2% of the bureau's total full-time equivalent positions, and had total reductions of \$25.7M or 4.3% compared to the FY2020 adopted appropriation.

FINANCE & ADMINISTRATION

Cook County has approximately 21,877 employees and a FY2021 budget of \$6.9 billion across all funds, including the Capital budget. Such a large organization requires sound management in the areas of budgeting, revenue collection, human resources, information technology, purchasing, along with fiscal and policy oversight.

In FY2021, expenditures in Finance and Administration are increasing by 0.8% or \$1.2 million, though the total FTE count is decreasing by 15 positions or 1.1% year-over-year. Irrespective of the reductions in FTE, the County continues to make crucial investments to modernize and reshape Cook County government, with major projects that include increasing electronic payment initiatives within the Home Rule taxes, increasing Tax Discovery to find unknown and unregistered businesses subject to Cook County taxation, and the launch of the iSupplier module to enhance the electronic bid process.

The Office of the Chief Administrative Officer will focus on reducing the County's paper storage footprint with proper record management, providing resources to County veterans, providing effective communication to residents in various mediums,

and continuing to make the County's operations and passenger fleet more efficient through the Countywide Fleet Management System adopted last year. Supporting efforts to provide more effective communication includes the creation of an Executive Producer position. This person will be responsible for ensuring the County speaks with one voice.

The Office of the Chief Medical Examiner (MEO) continues to adapt to the ongoing COVID-19 pandemic without cutting necessary and essential services rendered to the residents of Cook County. In addition to working closely with local hospitals, the MEO acquired a refrigerated warehouse to treat COVID-19 deceased with dignity and respect. A COVID-19 dashboard was published online to help the public identify virus clusters, areas where the virus is surging, trends, areas of concern, and socioeconomic factors, which is data that will be used to inform public policy.

The Justice Advisory Council, under the leadership of President Preckwinkle, will invest \$32.5 million over the course of FY2021 in additional programming aimed at addressing the effects of COVID-19 on, and economic disinvestment in, marginalized communities. While this commitment may be small compared to the total need in these communities; it nevertheless allows the County to address these crucial policy goals in a fiscally responsible manner.

PROPERTY AND TAXATION

On behalf of the County and over 2,200 underlying local taxing jurisdictions, Cook County government administers the second largest property taxation system in the United States, with 1.8 million parcels of real estate. Key functions of the system are assessment, appeals, billing and tax collection.

Expenditures associated with Property and Taxation are increasing by \$0.4 million or 0.7% in FY2021 with the FTE count decreasing by 27 or 4.4% year-over-year. The Property & Taxation area continues to have positive outcomes, with 2020 representing the ninth consecutive year of timely tax billing following 35 years of late second installment billing.

Investments in technology in this area are designed to increase collaboration and process improvement, most notably through an integrated property tax system that is underway and will continue a multi-year implementation in FY2021. Amongst other goals of the Property & Taxation offices for FY2021, Treasurer Pappas's office will continue to focus on the automatic refund initiative that since its launch in July 2018, has helped over 110,000 property owners receive about \$65.1 million in refunds without an application, along with the Stop Taxpayer Over-Payment System (STOPS), which ensures duplicate tax payment are automatically refunded. The Assessor will be focusing on continued investment in data integrity and automation as it prepares to reassess the City of Chicago. The Board of Review will continue to leverage enhancements to their Digital Appeals Processing System to absorb higher volumes of appeals and defend Property Tax Appeal Board cases. The County Clerk will assume the operational duties and functions of the Office of the Recorder of Deeds (which will cease operations at the end of FY2020) while continuing to maintain a high level of service to the public without interruption.

ECONOMIC DEVELOPMENT

Cook County strives to foster economic development and job growth, through regional collaboration, along with workforce and community development by strategically leveraging federal, state and local resources.

In FY2021, expenditures associated with the Bureau of Economic Development have reduced slightly, decreasing by \$0.5 million or 4.2%. However, FTEs are increasing in the General Fund by 4 or 5.5% due to the need for additional support for Bureau-led programs and initiatives geared towards the County's COVID-19 Economic Recovery Plan, Talent Driven Economic Development and continued Small Business Loan and Grant Support.

Despite its reduced Bureau operating budget, the Bureau of Economic Development, together with the Office of the President and the Office of the Chief Financial Officer, will take the lead in developing and implementing additional program initiatives in Cook County communities in FY2021. In total, these initiatives will invest an additional \$20 million throughout FY2021 on top of the \$82 million in CARES Act funding invested by Cook County in suburban communities in FY2020 under its COVID-19 Economic Recovery Plan. These initiatives cover a range of community needs from small business grants, to social services like homeless sheltering and food assistance, to mortgage and rental assistance programs. The needs existed before the COVID-19 pandemic and have only been exacerbated as a direct result of the pandemic. The Bureau of Economic Development plans to continue these efforts next year from the County's own resources and will increase the volume, if additional Federal assistance gets approved by the US Congress.

ADMINISTRATIVE OVERHEAD

Administrative Overhead can be defined as any fixed expense that recurs on a regular basis. The term refers to the grouping of expenses which are necessary to the continued functioning of an operation but cannot be immediately associated with the products or services being offered by a specific Office. In this area, the County accounts for Countywide technology costs, payments for utilities, expenses related to debt service and other costs.

In recent years, the County has made efforts to distribute costs in Administrative Overhead to the offices that incur the expenses. To date, expenses that have been distributed include employee benefit costs, licensing and other technology-related expenses.

FY2021 total Administrative Overhead increased by \$3.6 million dollars or 0.7% compared to the FY2020 appropriation due to increased payment to the Debt Service Fund. The County's overall debt service cost remain manageable and are in line with its policy goal of ensuring it doesn't increase by maximum 2% year over year, which is based on the long-term inflationary target of the Federal Reserve Bank.

GENERAL FUND - OPERATING EXPENDITURES BY TYPE

The FY2021 General Fund Appropriation for expenditures is \$1.90 billion. This includes \$342.0 million appropriated to address the outstanding unfunded pension liability in the County Employees' Annuity and Benefit Fund (the "Pension Fund"). This additional payment will be transferred to the Pension Fund subject to an intergovernmental agreement. Since 2016, the County has made \$1.68 billion in supplemental pension payments, which has resulted in a 4.5% increase in the Pension Fund's funded ratio over the past 5 years and put it on a path of sustainability. Net of the additional pension payment, the operating expenditures of the General Fund are \$1.55 billion, with personnel expenses budgeted at \$1.23 billion or 64.8% and the non-personnel expenses at \$325.9 million or 17.2%.

Personnel Expenditures	2017 Adopted	2018 Adopted	2019 Adopted	2020 Adopted	2021 Adopted
Personnel Services	1,297,712,297	1,213,299,253	1,253,114,975	1,284,742,752	1,228,432,312

Total	\$1,872,222,765	\$1,799,770,965	\$1,867,378,768	\$1,919,292,028	\$1,896,327,665

PERSONNEL SERVICES

Budgeted at \$1.23 billion, personnel expenses show a \$56.3 million or 4.4% decrease in the General Fund due to the reduction of 568 full-time equivalent positions. The total requested positions in FY2021 was 13,546 compared to 14,114 in the FY2020 adopted appropriation, a 4.0% reduction. Personnel expenses are comprised of 75.1% regular salary, 1.9% overtime compensation, 22.4% employee health benefits and 0.6% other personnel expenditures including training and transportation expenses. The FY2021 regular salary account is decreasing by \$70.7 million or 7.1% and health benefits are increasing by \$11.6 million or 4.4% compared to FY2020.

Even though the number of FTEs has decreased by 9.5% since 2017, the employee health benefits and regular salary have realized modest increases due to negotiated wage increases, the impact of medical inflation rates, and other external factors. Additional information on employee benefits are found in the Self-Insurance Fund section.

Personnel Expenditures	2017 Adopted	2018 Adopted	2019 Adopted	2020 Adopted	2021 Adopted
Regular Salary	1,009,173,994	936,989,661	973,374,328	993,607,432	922,943,348
Overtime	36,054,855	28,062,580	20,429,495	20,841,744	22,985,813
Insurance Benefits	244,201,482	240,352,139	251,398,260	263,701,597	275,270,917
Other	8,281,966	7,894,874	7,912,892	6,591,978	7,232,234
Total	\$1,297,712,297	\$1,185,236,673	\$1,253,114,975	\$1,284,742,752	\$1,228,432,312
FTEs	14,971	13,762	13,814	14,114	13,546

NON-PERSONNEL SERVICES

Non-personnel spending totals \$325.9 million, allocated to contractual services, operations, maintenance, supplies, rental and leasing, and other contingency expenses. These expenditures rose by 6.0% or \$18.3 million from FY2020.

This is primarily due to the fact that while it has been the County's policy to support justice reform efforts by investing funds into violence prevention and recidivism reduction initiatives for the past few years; in FY2021 the County is making an unequivocal commitment to racial and social equity investments. To that end the County will begin that commitment by investing \$40 million to address much needed resources for the historically marginalized and disinvested communities, through its Justice Advisory Council and Bureau of Economic Development. The programs will focus on restorative justice, violence prevention, workforce training and housing assistance. While the County recognizes that these investments are small compared to the immense need, it does allow the County to begin investing towards its racial and social equity policies in a meaningful and fiscally responsible way.

HEALTH ENTERPRISE FUND-OPERATING EXPENDITURES BY PROGRAM AREAS

The Health Enterprise Fund supports Cook County's healthcare functions. In FY2021, the fund proposed a \$3.39 billion budget, which is an increase of \$563.4 million in expenditures compared to FY2020. This increase can be attributed largely to a \$398.6 million increase in Managed Care Claims due to increased membership in the CountyCare Medicaid Managed Care plan.

Program Areas	2017 Adopted	2018 Adopted	2019 Adopted	2020 Adopted	2021 Adopted

HEALTH ENTERPRISE FUND - OPERATIONAL HIGHLIGHTS BY PROGRAM AREAS

HEALTH PLAN SERVICES

Health Plan Services contains CountyCare, which is a Medicaid health plan providing benefits to enrolled members resulting from the expanded Medicaid under the Affordable Care Act. CountyCare membership is a major cost driver for medical claims and administrative expenses. Membership initiatives will aim to retain and increase CountyCare membership, including assisting members with the re-determination process to maintain Medicaid eligibility. In FY2021, the average memberships per month are estimated to decrease to 356,000 from current memberships of 371,000 in FY2020 (originally projected at 326,000). FY2020 membership has increased due to the suspension of re-determination by the State in response to COVID-19. Membership is projected to normalize in FY2021 once re-determinations resume in December 2020.

The total expenditures of \$2.23 billion, appropriated primarily to pay claims to providers for members enrolled in CountyCare and third-party administrative expenses for the managed care program, shows an increase of \$429.3 million in FY2021. The increase is the result of expected cost and utilization trends for managed care claims which are increasing by \$398.5 million in FY2021. Health Plan Services will experience a decrease of 63 FTEs in FY2021 compared to FY2020, and a transfer of 125 FTEs to Stroger in an effort to allocate costs in the correct cost center and anticipate growth in membership in the CountyCare program.

HOSPITAL-BASED SERVICES

Cook County Health includes Stroger and Provident Hospitals, which serve over 300,000 patients annually. To grow and compete in FY2021, Hospital-Based Services will continue the expansion of clinical services, increase the utilization of operating rooms, expand dialysis services and ophthalmology care at Provident Hospital while continuing its commitment to work with CountyCare leadership to improve the CountyCare members' utilization of Stroger and Provident Hospitals.

Hospital-Based Services has a net increase of 281 FTEs in FY2021 compared to FY2020, which includes an increase of 294 FTEs at Stroger Hospital transferring integrated care programs from CountyCare to Stroger and increasing positions to reduce agency costs. Provident Hospital will experience a decrease of 13 FTEs in FY2021 due to staffing to volumes for inpatient services and converting the Emergency Department to a stand-by Emergency Department.

CORRECTIONAL HEALTH SERVICES

Correctional Health includes Cermak Health Services, which provides healthcare services for detainees at the Cook County Department of Corrections, and residents at the Juvenile Temporary Detention Center (JTDC). In FY2021, Correctional Health's budget request of \$104.5 million increased by \$15.7 million from FY2020, driven by an increase in salaries and wages, and medical, dental, and laboratory supplies for Cermak Health Services.

In addition, there will be an increase of 90 FTEs within Correctional Health Services, with an increase of 92 FTEs at Cermak Health Services and a reduction of 2 FTEs in JTDC- Health due to COVID-19 distancing requirements leading to staffing more locations on the Jail campus.

HEALTH SYSTEM ADMINISTRATION

Health System Administration's FY2021 budget seeks to further consolidate gains of FY2020 guided by the Impact 2023 Strategic Plan. The Strategic Plan presents an ambitious vision for the future of CCH, defines strategic opportunities that

establish a platform for the System's continued success, and reinforces CCH's commitment to serve its communities and patients. The FY2020 budget underlines organizational focus on quality improvements; patient satisfaction and regulatory compliance; and supports organizational capacity to improve clinical documentation, billing, coding, collections and other revenue cycle activities.

In FY2021, Health System Administration's budget of \$50.4 million includes salaries and benefits costs for 317 FTEs.

AMBULATORY HEALTH SERVICES

CCH's Ambulatory and Community Health Network (ACHN) consists of a network of 12 community health centers that coordinates primary and specialty outpatient care in community and hospital outpatient settings. The network emphasizes primary and preventative care and provides specialty outpatient and diagnostic services for persons of all ages. In FY2021, ACHN's budget of \$83.6 million includes salaries and benefits costs for 345 FTEs decreasing by \$3.2 million compared to FY2020. There has been a decrease in primary care visits from the FY2020 target due to COVID-19 and the change in expenditures is due to consolidation of Near South and Woodlawn clinics into the John Sengstacke Health Center, and other vacancy reductions. With the consolidation of the clinics, CCH will be able to offer the patient better access to specialty care and other improved services at the Sengstacke Health Center, which is within a 10-minute drive from both locations and has better access to transportation. In addition, some facility modernization milestones were achieved with the opening of the North Riverside (Cicero clinic replacement) and Blue Island (Oak Forest Clinic replacement) health centers in the Spring of 2020.

The CORE Center coordinates care for the prevention, care, and research of HIV/AIDS and other infectious diseases. In FY2021, the CORE Center's budget request of \$24.7 million includes salaries and benefits costs for 71 FTEs.

In FY2021, the Oak Forest Health Center (OFHC) services will transition to other locations, negating the need to maintain this campus for CCH.

PUBLIC HEALTH SERVICES

Cook County Department of Public Health (CCDPH) serves 2.5 million residents in 124 municipalities and serves the public health needs of its jurisdiction through effective and efficient disease prevention and health promotion programs. In FY2021, CCDPH's budget of \$16.9 million contains salaries and benefits for 128 FTEs.

HEALTH ENTERPRISE FUND – OPERATIONAL EXPENDITURES BY TYPE

The FY2021 budget of the Health Enterprise Fund is \$3.39 billion. The \$563.4 million increase of the Fund's expenditures is primarily due to associated third-party health care provider payments under CountyCare. In FY2021, Contractual Services represents \$2.33 billion (68.7%) of the budget, Personnel costs of \$779.8 million (23%), and Supplies and Materials combined with other categories, such as Operations and Maintenance, Rental and Leasing, and Capital are \$278.8 million (8.2%).

Health Enterprise Fund Expenditures by Type
\$3.39 billion

PERSONNEL SERVICES:

The Health Enterprise Fund's personnel expenditures represent \$779.8 million of the \$3.39 billion budget in FY2021, a 13.3% increase from FY2020. The overall FTE count from FY2020 to FY2021 increased by 201 FTEs, which is attributed to the expansion of CountyCare, an effort to reduce agency costs associated with Clinical Nurses, Medical Technicians and Care Coordinators, to comply with social distancing requirements at Cermak.

Personnel Expenditures	2017 Adopted	2018 Adopted	2019 Adopted	2020 Adopted	2021 Adopted

Total	\$692,492,006	\$701,706,568	\$748,639,575	\$688,201,530	\$779,831,580
FTEs	6,865	6,895	7,239	6,601	6,802

NON-PERSONNEL SERVICES:

Contractual services expenditures represent 68.7% of the Health Enterprises' total expenditures, or \$2.33 billion, of which 89.6% are payments associated with third-party health care providers under CountyCare.

The Health Enterprise Fund's Operations and Maintenance, Supplies and Materials, Rental and Leasing, and Capital expenditures accounts represent \$278.8 million, or 8.2% of the budget.

OTHER MAJOR FUNDS

SELF-INSURANCE FUND

The County administers a self-insurance program for employee health insurance, life insurance, unemployment compensation, workers compensation and liability related claims and expenses arising from operations subject to certain stop-loss provisions. The purpose of the Self-Insurance Fund is to insulate departments from these inherently volatile expenses while pooling the County's risk into a central fund. The below chart shows the distribution of expenses by risk type in the Self-Insurance Fund. Nominally, the cost of Group Health insurance is the largest amount, but Reserves for Claims represents the greatest potential risk.

The overall cost of employee and dependent health benefits coverage in FY2021 is expected to increase over the FY2020 appropriation by 4.4%, largely driven by changes in health and pharmacy costs. Cook County has seen an ongoing shift from HMO enrollment to the PPO plan, which is more costly. The cost of PPO coverage is expected to rise at a rate of 2.7%, and HMO rates are expected to increase by 5.2%. Pharmacy coverage costs per person are expected to increase by 12.5% over the prior year. Additionally, Reserves for Claims within the Self-Insurance Fund are expected to decrease by \$16.1 million in 2021. This decrease is attributed to a significant settlement paid out in FY2020.

CAPITAL PROJECTS FUND

Capital Projects Fund expenditures are used to fund construction and upgrade costs for County facilities, Highway and Transportation infrastructure projects along with capital equipment. Details are available in the Capital Improvement Programs section.

ANNUITY AND BENEFITS FUND

The County Employees' and Officers' Annuity and Benefit Fund (Pension Fund) is a single defined benefit, single employer pension and OPEB plan established by Articles 9 and 10 of the Illinois Pension Code (40 ILCS 5/Art. 9 and 40 ILCS 5/Art. 10). The FY2021 statutory contribution to the plan is \$201.9 million. An additional \$342.0 million is appropriated from the General Fund to address the outstanding unfunded pension liability at the Pension Fund. In 2019, the Pension Fund implemented healthcare and pharmacy related programs that allowed them to reduce the cost of retiree health care; in turn reducing the retiree health benefit valuation on an actuarial basis. Therefore, for FY2021, the additional pension payment is budgeted at \$312 million, increased from \$306.3 million in FY2020. The County established a Pension Stabilization account in the Pension Fund in FY2019, that serves as a reserve in line with its long-term goal of continued commitment to address the Pension Fund's liabilities in a responsible manner. For FY2021, the account is budgeted to receive up to \$30.0 million in revenues to help further cushion any future increases in funding needs to offset the unfunded liabilities of the Pension Fund.

Adopted for FY 2021

County Contributions for	
Salary Deductions	129,339,031
Refund Repayments	2,674,863

Add: Compensation Annuity Per Section 5/9-147	\$13,114
Less: Federal Grants	(\$5,783,059)
Net Tax Levy	\$201,879,823

DEBT SERVICE FUND

The County's Debt Service Fund is utilized for General Obligation debt service payments. General Obligation debt service is paid from the levy of ad valorem taxes upon all the taxable real property in the County. Debt service for Sales Tax Revenue Bonds is paid by making monthly deposits to a Trustee from Sales Tax revenue received by the County. In FY2020, the Fund is budgeted to have revenues from Property Taxes of \$261.9 million and transfers of \$33.1 million, all of which will go towards paying Debt Service. As of November 30, 2020, the total outstanding General Obligation debt is estimated at \$2.7 billion and Sales Tax debt is estimated at \$401.7 million. The County's General Obligation bond ratings are A2, A+, and A+ from Moody's, S&P, and Fitch, respectively. The Sales Tax bonds are rated AA- by S&P and AAA by Kroll.

NON-MAJOR FUNDS

SPECIAL PURPOSE FUNDS

In addition to the General Fund, the County's FY2021 Appropriation includes the budgets for non-major County funds. Special Purpose Funds are established for a specific and dedicated purpose and are intended to be self-balancing. Total FY2021 expenditures in Special Purpose Funds are increasing by \$79.0 million dollars compared to FY2020. In FY2021, the Motor Fuel Tax Special Purpose Fund is reflected in the Special Purpose Fund section of the Budget Book. In previous years, the Motor Fuel Tax Special Purpose Fund was only included in the Capital section of the Budget Book. Expenses in The Motor Fuel Tax fund is increasing by \$86.0 million dollars due to capital projects such as the Fair Transit Demonstration to bring affordable, accessible transit to more riders. Additional projects include the 175th/Ridgeland/Oak Forest Avenue Reconstruction in Tinley Park, Forest Preserve transportation infrastructure improvements and an expanded pavement preservation and rehabilitation program in FY2021. Expenses in the County Clerk's Document Storage System fund (previously the County Recorder Document Storage System prior to the merger of the two offices) increased by \$1 million dollars due to the Image Capture Project for old microfiche/microfilm, which seeks to modernize its hard copy and microfilm land records to facilitate electronic retrieval through digitization of existing hard copies of land records and microfilm of recorded documents prior to 1985. The project will duplicate in digital form the information that now exists on microfilm and in hard copy books and include indexing of the information to ensure internet accessibility and retrieval. Additionally, the Contract for Quality Assurance-Indexing Outsourcing Exception Processing Function is part of the assumption of Recorder of Deeds duties and includes the outsourcing of the indexing data entry function. Expenses in the Geographical Information System fund are increasing by \$1.9 million dollars which is associated with the new capital project LiDAR (Light Detection and Ranging) Capture. This project will collect very precise, accurate and high-resolution images of the surface of the earth, vegetation, and the built environment to support GIS, engineering, drainage, environmental, forest preserve, orthophoto and emergency management services. There is a critical need for current LiDAR data for many of GIS's partner County agencies as well as Municipal, State and Federal agencies. Internal agency benefactors include the County Assessor, Board of Review, Building and Zoning, and the Department of Emergency Management and Regional Security.

Expenses in the Adult Probation Service Fee fund decreased by \$1.1 million dollars and Social Services Probation Court Fee fund increased by \$182,910. The decrease in the Adult Probation Service Fee fund is due to declining fee collections. This decline in fees will not impact the services, as the court system will shift such costs onto its operating budget. Expenditures in the Clerk of the Circuit Court Document Storage fund are decreasing by \$1.9 million dollars as a result of shifting personnel costs into the Corporate Fund and eliminating vacancies. Expenses in the Cook County State's Attorney Forfeiture Fund are increasing by \$616,934 dollars as a result of increasing administrative staff to enhance the bureau's data analytics capacity as a means of informing its operations and management. Expenditures in the Sheriff's ETSB 911 – Intergovernmental Agreement fund are increasing by \$711,115 as expansion continues for emergency dispatch services to local municipalities and unincorporated Cook County. However, these expenditures are offset by the revenue received through intergovernmental agreements and the ETSB. Expenditures in the Cook County Assessor GIS Fee fund are increasing by \$727,024 as Assessor's Office continues to leverage GIS technology initiatives that allow for field work to be done more efficiently and accurately and reduce the need for in-person inspections. The Suburban TB Sanitarium District expenses are reducing by \$143,973 due to the discontinuance of the program anticipated to be finalized in FY2022. The Cook County Land Bank Authority Special Purpose fund expenses are decreasing by \$6.4 million dollars, which is directly related to a lower sales volume in the wake of COVID-19, as well as the decision to eliminate vacancies for the Fiscal Year FY2021.

ELECTION FUND

In FY2021, Election Fund expenditures are decreasing by \$21.9 million dollars compared to FY2020. This decrease is driven by the fact that only local elections will be held in FY2021.

GRANT FUNDS

The County receives grant funds from federal, state and private agencies for a variety of direct and indirect services provided under various program areas. In FY2021, grant funding to be received by the County will increase by \$108.3 million compared to FY2020. Additional details can be found in the Revenue section of the Budget Book.

The following tables reflect the Five-Year Summary of Appropriations and FTEs for each Non-Major Fund:

A decorative architectural element, possibly a pediment or crest, featuring intricate scrollwork and a central emblem, set against a background of stone arches.

CAPITAL BUDGET OVERVIEW

As part of the annual budget process, the County reassesses its capital programming needs regarding capital improvements for facilities, capital equipment purchases, and transportation & highway planning. The County determines its ability and willingness to issue new taxpayer-funded debt for capital expenditures and fund less wide-ranging capital projects through the operating budget via Pay-As-You-Go ("Pay-Go") financing. The determination of funding levels/funding types is made as part of the capital budget and re-evaluated annually considering legacy debt obligations, operating budget priorities, and debt service costs. Once a prudent level of financing is identified, the funding is matched to the projects and/or equipment to address critical needs as determined by the capital renewal and deferred maintenance assessment. The recommendation of the capital budget is part of the annual budget process.

The County's approved FY2021 Capital Budget appropriates \$481.5 million in Capital Investments and includes:

- \$264.6 million for the Capital Improvement Program (CIP) for County facilities;
- \$117.3 million for Transportation & Highways Program (THP) for County maintained road, bridges, and highways; and
- \$99.6 million for Capital Equipment Program (CEP) for County departments.

These amounts include all projects that are expected to be reasonably funded in FY2021, which includes re-appropriation of multi-year projects approved in prior years where funding was not completely utilized.

**Capital Investment Plan
\$481.5 million**

**Capital Investment by Function
\$481.5 million**

PURPOSE OF CAPITAL PROGRAMMING

The capital programming process allows for the identification, review, planning, and budgeting of capital investments. The process is designed to provide a comprehensive look at Cook County's present, mid-term, and long-term capital needs. This is essential for long-term fiscal planning including projected future debt service requirements.

Further, capital programming allows for the efficient and effective provision of public facilities, strategic renovation, and replacement or upgrade of capital assets. Programming capital assets such as facilities, highway infrastructure, and technological systems can promote more strategic use of Cook County's limited financial resources while fostering the coordination of public and private development. The capital programming process involves long-term planning allowing the County to go beyond basic year-to-year budgeting to maintain an effective level of service for County residents. Capital programming that coordinates planning, financing, infrastructure, and facilities improvements is essential to meeting the needs of a regional economic and transportation hub like Cook County.

TRENDS AFFECTING FISCAL PLANNING FOR THE CAPITAL BUDGET

Several different kinds of trends and economic indicators are reviewed, projected, and analyzed each year for their impact on the Capital Budget. These trends and indicators include:

INFLATION

Important as an indicator of future project costs or the costs of delaying capital expenditures.

POPULATION GROWTH/DECLINE

Provides the main indicator of the size or scale of required future facilities and services, as well as the timing of population-driven project requirements. Though Cook County's population has been largely stagnant for several decades, other factors may affect the use requirements for various facilities such as the Department of Corrections (DOC) pre-trial detainee population.

DEMOGRAPHIC CHANGES

Changes in the number and/or locations within the County of specific age groups or other special groups provides an indication of requirements and costs of specific facilities (e.g. the Health System's facilities).

IMPLEMENTATION RATES

Measured through the actual expenditures within programmed and authorized levels, implementation rates are important in establishing actual annual cash requirements to fund projects in the CIP portion of the Capital Budget. As a result, implementation rates are a primary determinant of required annual bond issuance.

SPENDING AFFORDABILITY

One of the most important factors in the capital budget development process is determining spending affordability. Spending affordability is determined by the amount of debt service and Pay-Go capital funds that can be reasonably afforded by the operating budget given the County's revenue levels, operating/service needs, and capital/infrastructure needs. The size and financial health of the Capital Budget is therefore somewhat constrained by the ability of the operating budget to absorb increased debt service amounts and/or operating requirements for Pay-Go capital expenditures. Realizing that maintenance and improvement of County infrastructure is important to the overall health of the County, policymakers will continue to work to balance the levels of capital funding required and its impact on operating expenditures.

GUIDING PRINCIPLES OF CAPITAL PROGRAMMING

For the capital programming included in the FY2021 Capital Budget, the County employed certain fundamentals of both zero-based and performance-based budgeting in the evaluation and recommendation of project funding. Some budgetary and programmatic principles invested in the Capital Budget include:

- To build facilities supporting County stakeholders' objectives and that are in line with the County's *Policy Roadmap*.
- To support the physical development objectives incorporated in approved plans, including the 10-year CIP plan, capital equipment plans and long-range transportation plan.
- To improve financial planning by comparing needs against resources through estimating future debt service, and debt issuance to fund the plan, which allows the County to identify future operating budget implications related to capital

programming and expenditures.

- To establish priorities among projects so that limited resources are put to the best use.
- To identify, as accurately as possible, the impact of public facility decisions on future operating budgets, in terms of energy use, maintenance costs, and staffing requirements.
- To provide a concise and centralized source of information on all planned rehabilitation of public facilities for residents, departments, and other stakeholders in the County.
- To ensure any unused funds from prior year appropriations are re-appropriated to multi-year projects.

FINANCIAL & DEBT MANAGEMENT POLICIES

The Cook County Board adopted financial and debt management policies that provide the parameters for the amounts of, and timing of, bond-financed projects to be included in the Capital Budget. This ensures the CIP is financially sustainable and it supports best practices in budgeting and capital programming.

FUNDING THE CAPITAL PROGRAMMING PROCESS

Capital funding will be made available using the following criteria:

- The use of debt to finance components of the capital budget will be used only when other financing sources have been evaluated and deemed unavailable.
- All equipment with a useful life of fewer than five years will be funded through Pay-Go means.
- The County will prioritize equipment/projects costing less than \$150,000 and equipment/projects with lower useful life to be funded through Pay-Go means.
- The County will decrease the planned budgeted expenditure on debt supported capital equipment every year with the goal of eventually funding capital equipment through Pay-Go means entirely, with the exception of large non-recurring multi-year initiatives to acquire entirely new depreciable technology.
- The County will utilize a Capital Equipment inventory submitted by all County departments in FY2020 to guide the long-term funding plan for a replacement cycle of all capital equipment Countywide.
- The County anticipates additional Pay-Go financial resources for the Capital Budget for FY2021 to reduce the amount of debt needed to fund shorter duration assets.
- The County will limit and clearly identify any County personnel that are associated with a capital project to be funded from debt proceeds and will seek to avoid the funding of personnel from debt proceeds.

DEBT OVERVIEW

Analysis of the County's legacy and current debt obligations is essential to determine a prudent level of debt financing that will allow for the critical renewal, repair/maintenance of capital projects and equipment, and will ensure that the County's debt does not unduly burden taxpayers or pose a risk to the County's credit ratings/overall credit-worthiness.

The County's debt is issued pursuant to the County's home rule powers under the 1970 Constitution of the State of Illinois (SOI) and authorizing ordinances adopted by the County Board. The County has authority to incur debt payable from ad valorem property tax receipts or from any other lawful source and maturing within 40 years from the time it is incurred without prior referendum approval.

As of November 30, 2020, the total debt portfolio is comprised of \$3.2 billion worth of General Obligation ("GO") Bonds, Sales Tax Revenue Bonds, and a GO Tax-Exempt Revolving Line of Credit. The following chart shows a breakdown of the County's debt portfolio:

Metric	Current	Maximum*
Direct Debt per Capita	\$629	\$1,000
Direct Debt as a percentage of Estimated Market Value of all taxable property	0.5%	1.3%
Direct Debt as a percentage of Equalized Assessed Value of all taxable property	1.9%	4.0%
Debt Service as a percentage of all operating funds	7.0%	15.0%
Variable Rate Debt as a percentage of overall debt portfolio	11.1%	25.0%

**Maximum values are self-imposed limitations as included in the County's Debt Management policies within the Financial Policies section of the FY2021 Annual Appropriation Bill*

DEBT SERVICE

The County's Debt Service Fund is utilized for GO debt service payments. The GO debt service is paid through the levy of ad valorem taxes upon all the taxable property in the County. Sales Tax bond debt service is paid through monthly deposits of sales tax revenue received by the County. The County is best served by a long-term plan to manage its legacy debt service costs and future borrowing needs in a responsible manner so that these costs do not provide undue stress on its operating budget in future years. To that end, the County is utilizing recent and anticipated refinancing opportunities to focus savings in key years which will help to ultimately create a debt structure that rises by no more than 2.0% annually until it reaches a \$400

million threshold, even when including all anticipated new issuances to support the Capital Budget. That growth rate would match the long-term Federal Reserve inflation target and ensure the County's bonded service obligation doesn't rise to a level that starts impacting funding for other critical services.

The following chart and the accompanying table show the County's anticipated debt service due in coming years based on debt currently outstanding and anticipated new future borrowing:

Fiscal Year	Principal	Net Interest ⁽¹⁾	Existing General Obligation Debt Service ⁽¹⁾⁽²⁾	Anticipated Refunding Adjustments	Net Existing General Obligation Debt Service	Existing Sales Tax Debt Service ⁽¹⁾	Anticipated Refunding Adjustments	Net Existing Sales Tax Debt Service	Projected New Debt Service to support Capital Budget	Total Projected Debt Service

⁽¹⁾ Interest is net of Federal subsidies received on Build America Bonds and Qualified Energy Conservation Bonds

⁽²⁾ Includes projected revolving line of credit interest payments

CREDIT FACILITY EXPIRATION TIMING

The County currently has four outstanding variable rate bond issuances and two lines of credits. The bank credit facilities associated with variable rate bonds and lines of credit are subject to expiration between fiscal years 2021 and 2023. The table below summarizes the expiration timing for each facility and type of credit facility. Specifically, bonds are supported by either Direct Pay Letter of Credit (DPLoC) or direct bank placements. The County does not have any interest rate derivatives associated with any of its outstanding indebtedness and these credit agreements generally terminate if the County's GO bond rating is downgraded below BBB/Baa2.

COUNTY BOND RATING

GENERAL OBLIGATION DEBT

Rating Agency	Rating	Outlook
Moody's Investor Services	A2	Stable
S&P Global Ratings	A+	Negative
Fitch Ratings	A+	Stable

SALES TAX DEBT

Rating Agency	Rating	Outlook
S&P Global Ratings	AA-	Negative
Kroll Bond Rating Agency	AAA	Stable

FY2020 RECAP

GENERAL OBLIGATION REFUNDING BONDS, SERIES 2019 ISSUANCE

On December 31, 2019, the County issued the \$125.5 million General Obligation Refunding Bonds Series 2019. These bonds refunded in full the General Obligation Refunding Bonds Series 2009C and General Obligation Capital Equipment Bonds Series 2009D. The refunding achieved net present value savings of \$5.7 million or 4.5% of total par amount. The Series 2019 Bonds will be payable through November 15, 2021.

USE OF TAXABLE LINE OF CREDIT, SERIES 2016

On April 30, 2020, the County executed a draw of \$3,000,000 on its taxable line of credit with BMO Harris Bank NA for the purpose of financing operational expenses and assessing the functionality of the line. The County repaid the line in full on October 30, 2020.

EXTENSION OF GENERAL OBLIGATION BONDS, SERIES 2014C DIRECT PLACEMENT

The County extended the General Obligation Bonds, Series 2014C on September 25, 2020 until September 29, 2023. Without this extension, the County would have been obligated to repay the full issuance of \$100.1 million. Although originally issued as variable rate interest bonds, the County transitioned the bonds to a fixed interest rate of 1.00% through the extension of the agreement. The Series 2014C has been held by a single bank since issuance.

EXTENSION OF TAX-EXEMPT REVOLVER, SERIES 2014D AND SERIES 2018

The County extended the \$175 million Series 2014D and Series 2018 Line of Credit on November 1, 2020 until October 31, 2022. The County will continue to use the Revolver as a funding source for various capital projects. The extension allows the County to fund new capital projects and keep borrowing costs low during the acquisition, implementation and construction phases of these projects.

USE OF TAX-EXEMPT REVOLVER, SERIES 2014D AND SERIES 2018

The capital investment allocated to debt proceeds in the FY2020 and FY2021 Capital Budget is currently expected to be funded in part from proceeds of draws on the Tax-Exempt Revolver, Series 2014D and Series 2018. The Revolver is expected to be the primary funding source for the Capital Budget in FY2021. Future bond issuances over time are expected to finance the larger projects of the Capital Budget funded in out-years.

The ending balance of the Tax-Exempt Revolver, Series 2014D and Series 2018 on November 30, 2020 was \$175.0 million, reflecting the funding of projects approved in recent Capital Budgets. The County anticipates issuing fixed-rate bonds with maturities that are commensurate with the average useful life of the projects funded by the drawn amount on the revolving line of credit to refinance the outstanding balance, as was done with the Sales Tax Revenue Bonds, Series 2017 and Series 2018.

EXTENSION OF TAXABLE-GENERAL OBLIGATION VARIABLE RATE BONDS, SERIES 2004D

The General Obligation Bonds, Series 2004D are the County's sole variable rate demand bonds. These bonds are backed by a Direct-Pay Letter of Credit held by a single bank since 2014 and are remarketed to investors through weekly pricing mode. This agreement was extended on November 20, 2020. The outstanding par amount of these bonds is \$130.0 million.

FUTURE FINANCING ANTICIPATED IN FY2021

SALES TAX BOND ISSUANCE

The County expects to issue fixed rate Sales Tax bonds with maturities that are commensurate with the average useful life of the projects funded by the drawn amount on the Tax-Exempt Revolver, Series 2014D and Series 2018 to refinance the outstanding balance, as was done with the Sales Tax Revenue Bonds, Series 2017 and Series 2018.

REFUNDING OF TAX-EXEMPT GENERAL OBLIGATION BONDS, SERIES 2010A AND 2010G

The General Obligation Bonds, Series 2010A and Series 2010G will become callable on November 15, 2020. The County expects to be able to complete an economical refunding and potential restructuring of these bonds to meet its financial goals. The outstanding par amount for Series 2010A and Series 2010G are \$278.0 million and \$119.9 million, respectively.

EXTENSION OF TAXABLE GENERAL OBLIGATION BONDS, SERIES 2012B DIRECT PLACEMENT

The General Obligation Bonds, Series 2012B is one of the County's variable rate bonds that has been held by two different banks since issuance. In August 2018, the County extended the bonds for an additional five years, with the agreement set to expire on August 2021. Without an extension to the agreement, the County would have to repay the full issuance of \$102.1 million.

REFUNDING OF TAX-EXEMPT GENERAL OBLIGATION BONDS, SERIES 2011A AND TAXABLE GENERAL OBLIGATION REFUNDING BONDS, SERIES 2011B

The General Obligation Bonds, Series 2011A and Taxable Series 2011B will be callable on November 15, 2021. The County expects to be able to complete an economical refunding and potential restructuring of these bonds to meet its financial goals. The outstanding par amounts for Series 2011A and Series 2011B are \$181.0 million and \$106.4 million, respectively.

Capital Funding Source \$481.5 million

FUNDING THE CAPITAL PROGRAM

The Capital Budget is predominately funded from sources outside of the County's operating funds. The primary source of funding for CIP and CEP is municipal debt issued by the County. A small portion of capital improvement and capital equipment programs are funded through grants and special purpose funds. Additionally, the County will continue funding more discrete capital equipment items, like technology hardware and vehicles from operating (Pay-As-You-Go) sources in FY2021. The County's road infrastructure projects are primarily funded through the County's allocation of the Motor Fuel Tax (MFT) funds from the State of Illinois as well as other Federal and State grants on a Pay-Go basis.

RELATIONSHIP BETWEEN CAPITAL & OPERATING BUDGETS

The County's Debt Service Fund is utilized to fund GO debt service payments through a designated debt service property tax levy. The County's Capital Budget is predominately funded through the issuance of municipal bonds. Accordingly, any further increase in debt service will further reduce available revenues from property tax receipts to fund general operations. Sales Tax Revenue Bonds also reduce Sales Tax revenues available for operations in future years as debt service claims a portion of these revenues in future years. As an example, if borrowing is used to fund the investment, a \$10.0 million investment in a capital equipment asset with an eight-year useful life would have a \$1.6 million impact in subsequent operating budgets through increased debt service. Similarly, if debt is used to fund a \$10.0 million investment in highways or County facilities, an impact of \$550,000 would be realized during the initial 10-year interest-only period with greater impacts in out-years. These factors underlie the need to prudently determine the best means of financing the Capital Budget, and to ensure investments resulting in reduced operating expenditures are prioritized.

The cost of operating and maintaining newly completed capital projects also has an impact on the operating budget. For example, the replacement of a building's roof, windows, and mechanical systems may result in a decrease in the cost of utilities, which would effectively lower the facility's operating costs. Conversely, the greatest operating impacts often occur with the construction of a new facility. In such cases, costs related to staffing the facility, including the required professional support and maintenance staff along with the additional operating and utility costs, would add expense lines to the operating budget. Completed information technology projects will also likely entail additional operating costs such as upgrades, license renewals, or the training of staff to operate new systems, but may have reduced operating costs associated with efficiencies.

Capital expenditures selected by the County in the Capital Budget can have positive impacts on the operating budget. Specific positive impacts are highlighted in the following section.

SUMMARY OF CAPITAL INVESTMENTS & THEIR IMPACT ON THE COOK COUNTY OPERATING BUDGET

Each year Cook County lays out its capital investment needs through its CIP for facilities, CEP for asset purchases, and THP for road and bridge infrastructure improvements.

CAPITAL IMPROVEMENT PROGRAM

The Bureau of Asset Management (BAM) works collaboratively with the Bureau of Finance to determine available resources and project the cash flow needs to implement the CIP. The intent is a long-term projection of debt service levels and funding implications for County initiatives over a ten-year period. The cost of capital improvements is not measured solely in terms of the initial cost but also the long-term fiscal impacts on the County's operating budget.

The Department of Capital Planning & Policy (DCPP) within BAM is responsible for implementing the CIP. DCPP is recommending approximately \$2.04 billion in spending over the next 10 years, which averages roughly \$204.0 million a year. The three guiding principles for the CIP are: life safety and compliance, operational savings, and right-sizing operations. The CIP projects are based on BAM's priorities that are aligned to President Preckwinkle's *Policy Roadmap*. These priorities are: Green Buildings Program, Unlocking the Value of County Assets, and Operational Efficiencies. For example, reducing operational expenses through the consolidation of underutilized space and disposal of assets that are no longer viable is an important outcome of the CIP.

In FY2021, the County will continue toward the goal of reducing one million square feet of real estate through the demolition of two additional divisions at the DOC, Divisions I and IA. This reflects the substantially reduced average pre-trial detained population.

As a result of the pandemic, the demolition of Divisions I and IA at the DOC Campus and other capital projects within the Jail were delayed to avoid potential health concerns for detainees and staff. DCCP worked with the CCSO to initially suspend construction activity and then determine the number of workers who could safely work on the site at any point in time. This slowed down the progress of needed work on the campus in FY2020, with the result that some expenditures planned for FY2020 are now projected to occur or be completed in FY2021.

For the Downtown Corporate campus, the continuous consolidation of user departments is right-sizing the County real estate footprint through the implementation of Workplace Strategy and Design (WS+D). This highly collaborative process leads to reductions in operational expenses, while at the same time supporting increased productivity, and results in additional space that is leasable for revenue. As part of the WS+D, the bureau is also evaluating space planning to address the health and safety needs of employees and incorporating lessons learned from COVID-19.

The FY2021 CIP also emphasizes the County's aggressive targets for reducing energy and water consumption throughout County facilities and reducing greenhouse gas emissions. In FY2021, efforts will also include county-wide mechanical and lighting upgrades for increased energy efficiency in support of the County's energy reduction goals.

COMMUNITY-BASED HEALTHCARE CLINIC

Capital Planning is completing the construction of a new community clinic in the Belmont Cragin neighborhood on the north side of Chicago. This facility will provide much needed healthcare services locally and will expand the network of community-based services. As a result of the pandemic, the construction of the new clinic and capital improvements at the John Stroger Hospital were delayed to avoid potential health concerns for the public, patients, and staff. DCCP worked with the CCH to initially suspend construction activity and then determine the number of workers who could safely work on the site at any point in time. This slowed down the progress of needed work on the campus in FY2020, with the result that some expenditures planned for FY2020 are now projected to occur or be completed in FY2021.

CORPORATE OFFICES RENOVATION & CONSOLIDATION

With the WS+D as a road map, the County is redesigning multiple floors in the Dunne Building and the County Building. The re-stacking of the various County functions will consolidate workspace in the buildings, freeing floors in the Dunne Building for lease. FY2021 will see the start of the complete renovation of the 5th floor of the County Building. When completed it will provide a fully accessible floor, including the Board room, the President's suite, and the Commissioners' offices. FY2021 will also see the renovation of the 1st and 2nd floors of the County Building which will help consolidate the functions under the County Clerk's office and free up space in the Pedway. The pandemic slowed the process of re-stacking the Dunne Building; moves and related construction were delayed because of allowable occupancies, which delayed some relocations scheduled for FY2020 into FY2021. The Department of Real Estate and Capital worked with the building's management to prioritize the most critical work to address building operational, safety, and security needs.

CRIMINAL JUSTICE INITIATIVES

The FY2021 CIP also includes multiple projects that are part of the President's broad-based Criminal Justice Initiatives. Intended to increase access to and reduce involvement in the justice system, the CIP includes funds to begin the community-based planning process for Access to Justice Centers. These facilities will house a spectrum of justice and related services. In FY2021 the County is also proposing the second phase of the Court Utilization Study, led by the National Center for State Courts, to provide the County with options for optimizing our court's system and facilities. The CIP also includes funding for the demolition of Divisions I and IA at the Jail and continued evaluation of redevelopment and restructuring opportunities that will further reduce the County's footprint while starting to clear the way for the proposed new Adult Detention Center, the long-term replacement for the Jail.

TRANSPORTATION & HIGHWAYS PROGRAM

The Cook County Department of Transportation and Highways (DOTH) FY2021-2025 Transportation & Highways Program (THP) totals \$1.1 billion, with \$275.5 million budgeted in FY2021 for planning, engineering, construction, right-of-way acquisition, and maintenance contracts. DOTH balances maintenance and preservation of existing infrastructure assets with transportation system modernization and expansion needs.

The FY2021 THP is the first time additional transportation funding is provided by the State of Illinois' 2019 REBUILD Illinois Capital Bill. The passage of the REBUILD Capital Bill was a historic moment that will support infrastructure investments in Illinois over the next decade. Cook County actively negotiated for its share of the funding, advocating for projects and programs that will benefit the region. In addition to generating bonded revenues for transportation agencies across the state

through the Transportation Renewal Fund, REBUILD Illinois further invigorated transportation funding by providing the first Motor Fuel Tax (MFT) increase since the mid-1990s. This increase allowed DOTH to close its five-year funding gap and focus on implementing its ambitious program of projects to meet the needs of Cook County residents.

The fiscal years 2021-2025 THP is funded primarily by MFT revenues, supplemented by State bond proceeds, Federal and State grants, local reimbursements, township MFT funds, and interest earnings. The projected MFT allotment for the 2021-2025 THP is calculated based on the historical allotment levels and projected revenues from the June 2019 amendment to Illinois' Motor Fuel Tax state statute (35 ILCS 505), which doubled Illinois' Motor Fuel Tax from nineteen cents to thirty-eight cents. The impact of these new revenue streams is substantial. However, the coronavirus pandemic and associated reductions in travel have reduced transportation funding. DOTH projects that monthly MFT allotments will be 25% lower than originally anticipated for the remainder of FY2020 and 5% lower than pre-pandemic levels for each year in the FY2021-2025 program.

While MFT revenue continues to represent the backbone of DOTH's program, the Department also receives project-specific revenue from federal, state, and local governments in the form of grants and reimbursements. DOTH has budgeted the expenditure of \$34.1 million in Federal and State grant funds in FY2021 to augment its program. In addition, DOTH also partners with other agencies including the Illinois Department of Transportation (IDOT), the Illinois State Toll Highway Authority (ISTHA), Metropolitan Water Reclamation District (MWRD), and municipalities to complete specific projects. When DOTH leads these projects, the other agencies often provide reimbursements for a portion of the project costs. A total of \$34.4 million is expected to be received in FY2021 from these reimbursements.

Transportation investments are investments in the economic health and vitality of the region. As such, the FY2021-2025 THP is guided by Connecting Cook County, the Long-Range Transportation Plan (LRTP) adopted by the Cook County Board of Commissioners in FY2016 as the County's first strategic transportation plan in 70 years. The LRTP was developed to guide where and how the County invests in transportation to improve mobility across the region. It allows the County to fully realize opportunities to attract and retain businesses, people, capital, and talent by thoughtfully balancing the needs of residents now with the region's needs for the future.

CAPITAL EQUIPMENT PROGRAM

The FY2021 CEP budget includes \$99.6 million of investments in capital equipment.

Several major IT projects are ongoing in FY2021. One project is the GIS Integrated Property Tax System (\$8.9 million) which creates a centralized database of the County's 1.8 million real property parcels and streamlines information sharing between the County's property and taxation agencies. Also, continuing into FY2021 are the Bureau of Technologies Disaster Recovery System project (\$7.0 million), the county-wide Unified Communications Project (\$3.6 million), and the Sheriffs Radio Channel Expansion Project (\$3.1 million). These major projects reflect the County's continued investment in technology that upgrades and modernizes county applications and software. The County will also make capital investments in surgical, diagnostic, and laboratory equipment for the Health System (\$9.2 million).

CAPITAL BUDGET HIGHLIGHTS & SIGNIFICANT PROJECTS FOR THE UPCOMING YEAR

CAPITAL IMPROVEMENT PROGRAM HIGHLIGHTS

CORPORATE PROJECTS

- County Building - 5th Floor ADA Renovation Construction
- Dunne Building - Office of the Public Defender re-stack
- County Building County Clerk re-stack

HEALTH & HOSPITALS PROJECTS

- Provident Hospital Mechanical Systems Replacements
- Community-Based Healthcare Clinics Energy Upgrades
- Oak Forest Campus Environmental Assessment and Demolition (moving to Corporate Portfolio)
- JH Stroger Mechanical and Electrical Upgrades

PUBLIC SAFETY PROJECTS

- Countywide PS Elevator Upgrade and Modernization
- Countywide PS Courthouse - Hardening/Physical Security Upgrades
- ADA Improvements
- Maywood ERPS HVAC Upgrades
- Parking Garage Assessment and Rehabilitation
- Skokie Envelope
- Department of Corrections Camera Project
- Roof Replacements
- New Post 8
- CCAB Plaza Deck Replacement
- Countywide Courtroom Sound System Upgrades
- Criminal Courts Building Holding & Lockup Area ADA Improvements

COUNTYWIDE PROJECTS

- Green Buildings Program
- Fire & Life Safety System Upgrades
- Flooring Covering Replacement
- Roof Replacements

TRANSPORTATION & HIGHWAYS PROGRAM HIGHLIGHTS

- CREATE the 75th Street Corridor Improvement Project (CIP)
- Burnham Multimodal Connector Project
- Roberts Road – Valley Drive to 87th Street
- Pavement Preservation and Rehabilitation Program
- Invest in Cook Program
- Fair Transit Demonstration

CAPITAL EQUIPMENT PROGRAM HIGHLIGHTS

- GIS Integrated Property Tax System
- State's Attorney Case Management System
- Bureau of Asset Management System
- Unified Communications
- Disaster Recovery Consolidation

CAPITAL IMPROVEMENT OVERVIEW

Under the Bureau of Asset Management (BAM), Cook County's Capital Improvement Program (CIP) sets forth a 10-year plan for the design, construction, and renovation of County assets to make them safe, functional, efficient, and cost-effective. The County's Real Estate Asset Strategic Realignment Plan (REASRP), Green Buildings Program (GBP), and the asset management lifecycle (develop, construct, operate, and dispose) provide the framework for developing the CIP. This work helps fulfill the policy priorities laid out in the *Policy Roadmap*, particularly Smart Communities and Sustainable Communities. The approximately 19 million square feet of real estate maintained by BAM is managed in three portfolios: Corporate, Health & Hospitals, and Public Safety. The CIP projects are organized into four categories: 1) Life Safety/ADA/Security; 2) Capital Renewals/Deferred Maintenance; 3) Energy/Department Initiatives; and 4) Redevelopment/Demolition.

The Department of Capital Planning and Policy (DCPP) is responsible for developing the CIP and works with various departments and programs within the Bureau and user agencies in its development. The CIP is then approved by the Cook County Board President and Board of Commissioners and implemented by DCPP.

Cook County Health – The FY2020 CIP included the project for a renovated facility for the Blue Island Health Center.

In FY2021, BAM proposed spending approximately \$264.6 million, allocated across approximately 369 projects. The FY2021 CIP emphasizes the County's commitment to supporting the various agency missions and enhancing the experience and quality of life for its employees and residents. In addition, code compliance, sustainability, operational efficiencies, and cost savings guide the development of the CIP. BAM works to be good stewards of Cook County assets through the consolidation of underutilized space and disposition of assets that are no longer viable or necessary. The FY2021 efforts build on the previous year's initiatives and continue with strategic developments across all three portfolios to realize these goals.

CAPITAL IMPROVEMENT PROGRAM: FY2021 – FY2030

STRATEGIC FRAMEWORK FOR CAPITAL IMPROVEMENTS

In FY2012, the County engaged a consultant team to conduct condition assessments of building structures, systems, utilities, and equipment at County-owned facilities. The team developed the Real Estate Strategic Realignment Plan (REASRP) which provides a long-term framework for BAM. The REASRP's comprehensive recommendations serve as a basis for asset utilization efforts and priority capital improvements. Using inspection data, a long-range capital improvement plan was developed to strategically address identified County asset needs. The REASRP consultant team also made high-level recommendations for each of the County's portfolios, detailing how to consolidate and make better use of County assets. This FY2021–FY2030 CIP continues to build upon, update, and implement the REASRP recommendations.

The FY2021–FY2030 CIP is a 10-year plan, with a budgetary appropriation of \$264.6 million in FY2021, to address capital renewals and renovations, as well as strategic redevelopments across all County portfolios.

BAM works collaboratively with the Bureau of Finance to determine available resources and cash flow requisites to implement the CIP. The intent is to project debt service levels and funding implications over a 10-year period, so the costs of capital improvements are not measured solely in terms of the initial cost.

In January 2019, President Preckwinkle announced a goal to be carbon neutral for County buildings by 2050. Carbon neutral means achieving a net of zero greenhouse gas emissions when accounting for the balancing of emissions with offsets such as renewable energy production and renewable energy credits. In FY2020, in coordination with the Department of Environment and Sustainability, BAM released the Clean Energy Plan. This plan lays out a series of actions the County will take to meet its environmental goals of 45% emissions reduction by 2030 from a 2010 baseline, 100% clean energy for electricity by 2030, and carbon neutral by 2050. Initial steps of the plan taken in FY2020 include in-depth building audits, preparation of an RFP for onsite renewable energy, and training for our electricians on the operation and maintenance of solar installations.

GREEN BUILDINGS PROGRAM (GBP)

The Bureau of Asset Management is developing metrics to track improvements in sustainability across the three portfolios. Using a points-based system that evaluates each new and existing facility on its adherence to the Green Buildings Program pillars and associated goals, a Facility Sustainability Condition Index (FSCI) score, from 0 (worst) to 100 (best) was generated for each facility. Year-over-year improvement of the average score will be a Key Performance Indicator (KPI) for evaluating the Green Buildings Program success. The average score for facilities that participated in FY2019 and FY2020 was 28.19. This is the baseline year and will be another metric to help determine where investments should be made to optimize taxpayer dollars.

DEVELOPMENT OF THE CAPITAL PLAN

DCPP develops the CIP by updating or gathering analytical information from the Facility Condition Assessment (FCA) reports, work order information, comprehensive reviews of individual users' business case requests, facility-specific studies, Green Building Program goals, facility master plans, and recurring or ongoing needs that span multiple facilities, years, and agency needs.

This enables the County to achieve the following:

- Identify and address critical system replacements and upgrades.
- Reduce long-term recurring operating expenses.
- Address new regulatory requirements and compliance directives.
- Prioritize improvements according to the County's long-term objectives, as expressed in the *Policy Roadmap*.
- Reduce energy, water and waste while meeting the County's carbon neutral goal by 2050.
- Run funding scenarios demonstrating the impacts of preventative maintenance spending.
- Develop a capital plan and balanced budget that will sustain County facilities and support their core functions in the long term.

Capital renewal and deferred maintenance assessments are used to maintain and update data that provides FCA reports for each County-owned facility. The FCA reports provide a detailed, system-level inventory of the County facilities and identify capital renewal and deferred maintenance deficiencies, which allow DCPD to prioritize, plan systematically, and bundle similar projects for cost-effective procurement.

Priority for Maintenance and Replacement

Priority 1 – Currently Critical (Immediate): Conditions require immediate action to correct a cited safety hazard, stop accelerated deterioration, or return a facility to operation.

Priority 2 – Potentially Critical (Years 1-2): Conditions, if not corrected expeditiously, will become critical within a year resulting in intermittent operations, rapid deterioration, potential life safety hazards, etc.

Priority 3 – Necessary/Not Yet Critical (Years 3-4): Conditions require appropriate attention to avoid predictable deterioration, potential downtime, or associated damage or higher costs if deferred further.

Priority 4 – Recommended (Years 5-10): Conditions include items that represent sensible improvement to existing conditions, but are not required for the basic function of the facility, overall usability improvements, or long-term maintenance cost reduction.

Priority 5 – Does Not Meet Current Codes but is "Grandfathered." No action is required at this time; however, renovation work performed in the future may trigger correction.

The facility condition data developed during the County assessment in FY2013 provided a Facility Condition Index (FCI) for each facility. A building's FCI is calculated by dividing the cost of required improvements by the building's current replacement value (see below).

$$\text{FCI} = \frac{\text{Cost of maintenance, replacements, deficiencies}}{\text{Current replacement cost}}$$

The industry standard for an FCI above 75% means that the cost to renovate has exceeded the reasonable potential for a return on invested capital. In FY2013, Cook County facilities had an average FCI of 40.40%, with many structures over 75%. The funding requested in the CIP is needed to gradually reduce the aggregate facility condition index. FCI is forecast with ongoing capital renewal needs and strategic redevelopments, retiring facilities that have exceeded their useful life, and investments in new facilities.

Capital projects are organized into four categories, to support generally-accepted accounting principles and to ensure a balanced approach to capital expenditures between near-term and long-term needs:

PORTFOLIO OVERVIEWS & SIGNIFICANT PROJECTS

The County's assets have been categorized into three separate portfolios as follows:

- Corporate Facilities
- Health and Hospitals
- Public Safety

CORPORATE FACILITIES PORTFOLIO

The Cook County Corporate Portfolio includes approximately 2.7M square feet of facilities, built between 1906 and 2013. The Corporate Portfolio include projects at facilities such as the County Building, George W. Dunne County Office Building, Warehouses, and Transportation & Highway Department.

Corporate Portfolio	FY2021 - FY2030	FY2021	FY2022	FY2023	FY2024	FY2025	FY2026 - FY2030
CCHD Maintenance Fac. Dist. 1 - Site	795,883	795,883	-	-	-	-	-
County Building	27,278,000	19,385,000	877,000	877,000	877,000	877,000	4,385,000
County-Wide Corporate Facilities	76,474,884	11,244,884	7,345,000	7,345,000	7,220,000	7,220,000	36,100,000
George W. Dunne Admin. Building- Main	55,145,500	20,240,500	6,545,000	3,545,000	3,545,000	3,545,000	17,725,000
Rockwell Warehouse - Main Building	2,680,000	2,680,000	-	-	-	-	-
Sheriff Vehicle Services - Site	205,000	205,000	-	-	-	-	-

Installation of new rooftop condensing unit on County Building for Bureau of Technology Data Center

CORPORATE CAPITAL PORTFOLIO PROJECTS FOR FY2021

5TH FLOOR ADA BOARD ROOM RENOVATION – COUNTY BUILDING

The Office of the President, County Commissioner Offices, and the Cook County Board Room are located on the 5th floor of the County Building. To increase public accessibility and capacity for these critical government functions, these facilities will be replaced over a phased, multi-year program, starting with the Board Room. The goals for the Board Room ADA Renovation project include providing full accessibility for the public, Commissioners, and staff, increased public and press seating, and support for meetings and public testimony from modern audio-visual systems.

ELEVATOR MODERNIZATION - COUNTY BUILDING

Started in FY2020, the County Building's elevators are undergoing a phased modernization, with completion planned for the end of FY2021. The work will improve the long-term operability, accessibility, and reliability of the system designed to afford more efficient public access to various County governmental functions.

CLERK AND RECORDER INTEGRATION - COUNTY BUILDING

Per changes in the County's governing structure, the Recorder of Deeds functions have become part of the Cook County Clerk's office. Under DCPD management, the consolidation of the Clerk's Office continues with the construction phase in FY2021. At the completion of the construction, the Clerk's Office will utilize less space and will free up space in the Dunne Building and in the Daley Center Pedway.

HEALTH AND HOSPITALS SYSTEM PORTFOLIO

Cook County Health (CCH) operates in 4.6 million square feet of facilities built between 1908 and 2018. Projects for this operating group are found at various locations throughout the County, including the John H. Stroger Hospital, Oak Forest Campus (moving to the Corporate Portfolio), Provident Hospital and various health clinics. CCH continues to carry out initiatives outlined in their Impact 2020 Strategic Plan to develop and upgrade facilities in their portfolio.

HEALTH AND HOSPITALS CAPITAL PROJECTS FOR FY2021

JOHN H. STROGER JR. HOSPITAL CAMPUS

DCPP is working with CCH to complete engineering designs for multiple capital renewal projects stemming from a FY2018 analysis of the existing mechanical and electrical systems at Stroger Hospital. This work identified numerous systems requiring replacement at the 19-year-old hospital. In FY2021, the facility improvements will include the restoration and modernization of the parking garage, interior and exterior wayfinding and signage, replacement of antiquated or dysfunctional system mechanical components, and installation of new LED lighting throughout the hospital. These projects will reduce the operating energy costs to Cook County and more importantly, ensure compliance with the authorities having jurisdiction over the facility.

PROVIDENT HOSPITAL CAMPUS – MEP UPGRADES

Capital Planning, in partnership with CCH, is planning to replace or repair mechanical pumping and air handling systems in FY2021 at Provident Hospital that are original to the 40-year-old facility. Planning and design that started in FY2018 continues at the new Provident facility. Campus improvements for FY2021 include completing the demolition of the existing Sengstacke Clinic, restoration and modernization of the Provident parking garage, replacement of mechanical systems at Renal Dialysis Center, and replacement of the Vincennes Street sewer.

OAK FOREST CAMPUS (MOVING TO CORPORATE PORTFOLIO)

DCPP is working with the Department of Real Estate Management (DREM) and a Master Planning team to identify more efficient uses for the substantially underutilized Oak Forest Campus. A feasibility analysis was kicked off in FY2020 by DREM to provide the Bureau with a guideline in FY2021 on how to address the long-range uses in parallel with the changing community needs. In a coordinated effort, DCPP issued solicitations for proposals in FY2020 to engage qualified teams to assess the presence of environmental hazards at the campus and plan for their safe removal; engineer the demolition of the first six buildings on the campus; and manage the demolition construction activities. This project will be moving to the Corporate portfolio in FY2021 once CCH terminates any remaining operations on the campus.

COMMUNITY-BASED HEALTH CENTERS

DCPP continues to assist CCH to implement its community-based health initiative. This includes construction of the new Belmont-Cragin Health Center located on the north side of Chicago. Delayed due to COVID-19, this facility will provide much-needed healthcare services locally. Additional efforts in FY2021 will include parking lot improvements at Englewood Health Center and design of upgrades at the Ruth Rothstein CORE Center.

PUBLIC SAFETY PORTFOLIO

The Circuit Court of Cook County and the Cook County Department of Corrections occupies or operates approximately 11 million square feet of leased and owned facilities with structures built between 1910 and 2012. Projects in this portfolio are found at various locations throughout the County, including at the Criminal Courts Administration Building (“CCAB”) at 26th and California, the Maywood Courthouse and Campus, the Juvenile Courthouse and Temporary Detention Center, Domestic Violence Courthouse, Daley Center, and five other outlying courthouses.

Window Replacement and Re-roofing projects at the South Campus of the Department of Corrections

FY2021 Public Safety (PS) by Project Type
\$117.4 million

PUBLIC SAFETY CAPITAL PROJECTS FOR FY2021

DEMOLITION OF DIVISIONS I & IA

As the detainee population has declined, DCCP has proceeded with plans to demolish vacant and unused facilities in accordance with the recommendations from the REASRP. As a result of the pandemic, the demolition of Divisions I and IA at the DOC Campus and other capital projects within the Jail were delayed to avoid potential health concerns for detainees and staff. DCCP worked with the Cook County Sheriff's Office (CCSO) to initially suspend construction activity and then determine the number of workers who could safely work on the site at any point in time. This slowed down the progress of needed work on the campus in FY2020, with the result that some expenditures planned for FY2020 are now projected to occur or be completed in FY2021. The design and bidding phases for the demolition of Division I & IA are complete and the Notice to Proceed (NTP) is scheduled for Q4 FY2020. Demolition of these huge and outdated structures will continue through FY2021 into FY2022. The continued evaluation of redevelopment and restructuring opportunities will continue through FY2021.

COURT UTILIZATION STUDY

The County, in partnership with the Office of the Chief Judge (OCJ) and the National Center for State Courts (NCSC), conducted a Courtroom Utilization Study in FY2018 and FY2019 of the criminal caseloads in the Circuit Court system and operations, with a goal of optimizing the use of the County's courtrooms. The study is based upon an understanding of the number of cases, durations, geographic distribution, staffing needs, program needs, support space needs, and other relevant data. The report was divided into three broad categories: national trends, Cook County specific observations, and recommendations. The results of the Phase I study will be supplemented by a similar evaluation, Phase II, to be conducted in FY2021. Phase II will provide similar analysis and recommendations for the civil and other non-criminal courts, unlike Phase I, which focused solely on criminal courts. Upon receipt of that consolidated evaluation, best practices, and functional recommendations from the NCSC, DCCP will begin development of a Courts Facilities Master Plan. The Plan will be informed by the Access to Justice Initiative being conducted by the Justice Advisory Council, by the Court Utilization Study findings and recommendations, and by the earlier recommendations from the REASRP.

ADA ASSESSMENTS AND UPGRADES

For FY2021, the Department will be working with professional consultants to conduct full accessibility assessments of all Public Safety facilities. These will include wrap-around evaluations of both the DOC campus and the outlying courthouses, to supplement prior evaluations and to expand upon and update the barriers report issued by the Department of Justice in 2015. FY2021 will also include the completion of design and the beginning of construction of a new fully accessible courtroom in the Skokie courthouse.

COUNTYWIDE MAJOR INFRASTRUCTURE UPGRADES

ELEVATOR UPGRADES

A larger Countywide Elevator project RFP has been developed and is scheduled for the procurement of AOR services in FY2021 which, in general, involves 25 buildings and 150 elevators / escalators. The larger project is targeted to be in multiple procurement packages over a 5-year period. The packages would be released at different times and require extensive collaboration

with the DOC Campus and Courts user groups (e.g. Sheriff's Office, Department of Facilities Management (DFM), Office of the Chief Judge, and CCH) and involve staggered and phased work.

COURTHOUSE SECURITY ENHANCEMENTS

In partnership with the Cook County Department of Homeland Security & Emergency Management, supported by a US Department of Homeland Security UASI grant, a full-spectrum assessment was conducted of security needs in FY2019 at ten County courthouses including all six district courthouses, Leighton Criminal Courts Building, Domestic Violence Courthouse, Juvenile Center, and the County-owned Branch Courthouse at 111th Street. This is to provide a consistent and prioritized system of renovations to deter various potential threats to the safety of the public and staff who occupy these high-profile public buildings. The assessments were completed in FY2020 and include detailed recommendations for the hardening of those facilities, along with preliminary costs. Implementation of the first phase of such measures will consist of the translation of the detailed recommendations into architectural/engineering bid documents, by a diverse team of design firms and begin in FY2021. Construction is to be phased, coordinated with the Office of the Chief Judge and the Sheriff's needs, and the program is expected to continue through FY2026, including over \$55 million in improvements.

COUNTYWIDE MECHANICAL/ELECTRICAL/PLUMBING SYSTEMS REPLACEMENTS

Some core building systems in the CCAB, erected in FY1978, are reaching the end of the asset lifecycle and need to be significantly renovated or replaced. Work completed in FY2019 included improvements to the systems and components identified by Building Assessment Reviews, DFM and DCPD projects. The larger mechanical-electrical-plumbing project at the DOC Campus involves over 30 buildings and support tunnels. The procurement of architectural/engineering (AE) services for this larger work is scheduled to be awarded in FY2020. The AE will conduct their comprehensive assessments and develop the design improvements in FY2021 to begin, in a phased program, in FY2022, with the construction of larger work scheduled to start in FY2023.

CCB MAIN HOLDING & LOCKUP AREA ADA IMPROVEMENTS

The existing holding cell areas in the Leighton Criminal Courts Building (CCB) were designed prior to current requirements for accommodations for persons with disabilities. DCPD, partnering with the Office of the Chief Judge and the Sheriff's Office, initiated a project for major renovations of these areas to improve functionality and provide equality of treatment. The design work for the required scope of renovations is expected to be finalized and bid in early FY2021. Because of the need to conduct work while the Courthouse is otherwise fully operational, it is expected that the phased ADA holding area renovations will take approximately four years to complete. In FY2020, the reconstruction of the "bridge" into the Courthouse from the tunnel system was separated from the larger project. The bridge project is projected to be substantially complete by the end of FY2020.

COUNTYWIDE CAPITAL PROJECTS FOR FY2021

HVAC upgrades at County facilities to enhance energy efficiency

The Countywide Capital Projects Program comprehensively targets the needs of various facilities with similar systems, across all three portfolios. These countywide programs increase efficiency by packaging similar projects together for cost effective procurement and project delivery. Properties are assessed regularly for the need to replace or upgrade building systems such as HVAC, elevators, roofs, fire and life safety systems, and telecommunications.

FIRE & LIFE SAFETY SYSTEM UPGRADES

Fire & Life Safety Systems are critical to the wellbeing of employees and visitors of all County facilities. Throughout the portfolio, the County has a variety of aging and antiquated Life Safety Systems that need replacement, renovation or upgrades. An aggressive, multi-year, countywide program is in place to assess and address these core building systems.

Halon Fire Suppression systems were first-generation dry suppression systems employed years ago to provide a means of fire suppression, primarily in rooms with high-value electronics equipment. New codes and standards have been created since these systems were installed. The gaseous chemical used in Halon Suppression systems was identified to cause ozone depletion and is no longer allowed for recharging the existing systems. These systems will be replaced across the portfolios on a rolling basis, including at outlying courthouses, either complete replacement and installation or conversion of a pre-action Fire Suppression System.

ROOF REPLACEMENTS & COUNTYWIDE SOLAR

With a countywide portfolio that contains 70% of facilities built before 1970, the requirement for new roofs and significant replacements is a critical need for many buildings. In FY2017, a professional roofing consultant was engaged to inspect

and prioritize County facilities' roof replacements. The options for roofing systems to appropriately marry the existing and new systems, maximizing its useful life and energy efficiency were reviewed. In association with the President's Carbon Neutral Initiative and utilizing LEED principles, BAM is utilizing roofing systems that reduce the heat island effect and provide increased life expectancy.

With the Carbon Neutral initiative, photovoltaic systems will become an important part of the overall strategy to be carbon neutral. Since expected roof life and solar life expectancy are very similar, it is prudent to align both projects to maximize environmental and operational benefits. BAM will train and use in-house trades to install solar systems on new roofs.

DEPARTMENT OF CAPITAL PLANNING & POLICY

ACCOMPLISHMENTS FOR FY2020

In FY2020 DCPD completed many projects in all three portfolios. DCPD staff has been augmented by a pre-qualified pool of professional consultants, a Job Order Contracting program, increased capital project support by DFM forces, and cloud-based project management software. These additional resources have allowed the delivery of more projects on time and within budget during the fiscal year. The following are projects that were completed in FY2020:

CORPORATE PORTFOLIO

- County Building – Clerk – Recorder of Deeds / Vital Records Consolidation
- Dunne Building – 22nd Floor Shared Conference Facilities – Phase III
- Dunne Building – Multiple office renovations
- Dunne Building – Multiple ADA Upgrade Improvements
- Dunne Building – Life Safety and Security enhancements
- County Building – Board Room ADA Accessibility improvement (Wheelchair lift)
- Cicero Records Center – Security upgrades and Mail Ballot Handling Improvements
- Rockwell Warehouse – Records Destruction Center
- Rockwell Warehouse – Energy Efficiency Lighting Project
- Dunne Building – Multiple Mechanical and Electrical Systems Upgrades
- Dunne Building – Elevator Control Upgrades
- County Building – Multiple County Offices Renovations

HEALTH AND HOSPITALS PORTFOLIO

- Oak Forest Admin (Matteson)
- Oak Forest Regional Outpatient Center (Blue Island)
- Oak Forest DHSEM Secondary Power
- Cook Medical Group at North Riverside (Cicero)
- Harrison Square
- Provident Renal Dialysis
- Provident Replacement of Domestic Hot Water Heater
- Provident Parking Garage—Lighting Upgrades

- Provident Parking Garage—Life Safety Upgrades
- Provident DX Cooling Add-On System for HVAC
- JHS ComEd Vault Repair
- JHS Powerhouse Roof Supplemental
- Cottage Grove BAS & RTU Replacement
- Des Plaines TB Clinic Roof Replacement
- RJ Stein Toxicology Walk-In Freezer/Cooler
- RJ Stein Autopsy Modernization

PUBLIC SAFETY PORTFOLIO

- Juvenile Courthouse and Juvenile Temporary Detention Center Elevator Upgrades
- DOC Campus Roofs – Division V, Division X, Division IX Rotunda, CCB Courtyards
- CCB Install Floor Drains Penthouse and Equipment Rooms
- Enhanced Security Access for Public Defender in CCB
- Emergency Project Rolling Meadows Parking Garage Netting
- Skokie Roof / Parapet Project
- PD Space Request in Skokie
- CCAB Renovation Floors 7, 8, & 9
- Jefferson Building - ADA Bathroom Upgrade
- Division III Demolition (JOC) Supplemental II (103rd and Woodlawn)
- Countywide Courthouse Security Enhancements CCB Lobby Security Enhancements (Assessment)
- Markham Replace Carpet – CCSO
- Maywood Courthouse – Energy Efficient Upgrades Assessment and Implementation
- Maywood Courthouse Environmental Lab; Clean Room
- DOC – RTU ADA CPAP Electrical Outlets
- DOC RTU (Division 8) Shower Secure Enclosures
- States Attorney Carpet Replacement Project
- Renovate Court Reporter Reception Space at CCAB to Address Security Concerns
- Courthouse Gallery Seating Replacement Phase III
- Raise Judge Bench in Domestic Relations Courtroom Maywood
- JTDC / Rolling Meadows Concrete Sidewalk
- CCB Replace 29 DX Units Phase 2
- Juvenile West Court Carpeting
- District 6 Markham – New Carpet/Tile
- District 3 Rolling Meadows – New Carpet/Tile
- Whitcomb & Jefferson Flooring Replacement
- CCB Main Holding & Lockup Area ADA Improvements - ADA Bridge reconstruction work

TRANSPORTATION AND HIGHWAYS OVERVIEW

Cook County's transportation system is one of its greatest assets – key to the national and international movement of people and goods and to the economic health of the region. The Cook County Department of Transportation and Highways (DOTH) recognizes that transportation is an investment in the economic future and is committed to providing the region with the highest level of service by identifying and responding to changes in demands on the multi-modal transportation network. Accordingly, Connecting Cook County, DOTH's Long-Range Transportation Plan (LRTP), establishes policy goals that enhance transit and transportation alternatives while also supporting the efficient movement of freight and passenger vehicles. This Capital Budget demonstrates how DOTH intends to advance the goals of the LRTP by providing a detailed forecast of spending for the next five years.

DOTH has jurisdiction over 561 miles of roadway and maintains 1,620 lane miles of pavement, 365 traffic signals, 7 pumping stations, and 4 maintenance facilities. It also has jurisdiction over 93 structures and shares responsibility with other agencies for another 42 structures. The Capital Budget presents work to be implemented in fiscal years 2021-2025 that will maintain, modernize, and strategically expand this network.

DOTH relies on a variety of funding sources to meet the needs of its complex inventory of transportation assets. Leveraging outside funding is an important part of DOTH's programming strategy. The Department has an established track record of securing project-specific funding from federal, state, and local sources in the forms of grants and reimbursements. Motor Fuel Tax (MFT) revenue, however, continues to represent the largest proportion of DOTH's program, bolstered by new revenues generated from the passage of the State's REBUILD Illinois capital program. These new revenues have closed the five-year funding gap identified in last year's budget, and this year's Capital Budget represents a well-rounded and fiscally balanced plan for investments in the region.

DOTH recognizes that the metropolitan region is facing unprecedented challenges due to pandemic-induced economic uncertainty and that strong, sustained investment in the regional transportation network is vital. The Department is uniquely positioned to provide the leadership, expertise, and resources required to advance regionally significant projects that promote equity and economic growth. Through important municipal and interagency partnerships, such as the Invest in Cook (IIC) program and the Fair Transit Demonstration, DOTH can help alleviate the economic strain that our communities are experiencing.

BUDGET DEVELOPMENT

The budgeting process is principally guided by two documents that are central to transportation planning and investment: the Long-Range Transportation Plan (LRTP) and the Multi-Year Transportation Improvement Program (MYP).

Connecting Cook County, the Department's LRTP, is a policy document that serves as the strategic framework for DOTH's capital planning. The LRTP expands on DOTH's previous role as a highway maintenance agency and broadens its scope to take an active leadership role in addressing challenges to the mobility of people and goods throughout the region. The plan encourages the County to approach transportation holistically and leverage its assets to influence the development of transportation infrastructure across multiple modes and jurisdictions. The LRTP identifies five policy priorities to guide future implementation of transportation projects:

- Prioritize transit and other transportation alternatives
- Support the region's role as North America's freight capital
- Promote equal access to opportunities
- Maintain and modernize what already exists
- Increase investments in transportation

At the program level, the MYP provides a five-year outlook on how DOTH will advance its wide portfolio of planned improvements and implement LRTP goals. It previews potential opportunities to the transportation industry by project, phase, and estimated cost. The project development cycle involves multiple phases of work, including planning, engineering, land acquisition, construction, and maintenance, each of which may span several years. Projects are programmed within the MYP to reflect the updated status of the project year-to-year, and they may be removed, deferred, or replaced with other projects in the plan based on a variety of circumstances including funding, safety considerations, right of way acquisition, or coordination with other regional projects. As a recipient of state Motor Fuel Tax (MFT) revenues, Cook County is required to publish an MYP each year.

Figure 1: Project development cycle. A project's development is a complex and time-consuming process that proceeds through multiple phases, each of which can span multiple years.

The Capital Budget implements the goals of the LRTP by advancing projects in the five-year program. The Capital Budget also provides a detailed, cashflow-based look at the next five years to ensure that adequate funding will be available to support ongoing and future projects over multiple phases. Most projects presented in the Capital Budget are a continuation of work that began in previous years, with many projects advancing from one phase to the next, while others continue work on a current phase.

*Figure 2: Budget development process.
The 2021 Capital Budget implements the goals of the LRTP by advancing projects in the MYP.*

CONSTRUCTION HIGHLIGHTS

The Department's active construction projects vary in scope, complexity, and duration. Current projects include:

Lake Cook Road from Raupp Boulevard to Hastings Lane – DOTH awarded the \$58.5 million contract for the reconstruction of Lake Cook Road in late 2019 and construction is underway. The regional project will improve mobility by reducing congestion, improving access to businesses, improving arterial connections, and incorporating new bicycle and pedestrian facilities. Work is anticipated to be complete by 2022.

Figure 3. Installation of new storm sewer on the Lake Cook Road project.

Roberts Road from Valley Drive to 87th Street – The 2.8 miles Roberts Road rehabilitation was awarded in July 2020. The \$6.3 million contract includes concrete paving, hot-mixed asphalt patching, ADA improvements, and other appurtenant work. The rehabilitation will be completed in 2021.

Pavement Preservation and Rehabilitation South – DOTH has recently concluded work on various pavement improvements in southern Cook County. The specific locations include: Sauk Trail from Governors Highway to Lakewood Boulevard, Kedzie Avenue from Country Aire Drive to 147th Street, Stoney Island Avenue from Joe Orr Road to Glenwood Lansing Road, and Harlem Avenue from Steger Road to Sauk Trail. Rehabilitation activities included hot-mix asphalt paving, concrete patching, ADA ramp improvements, and other appurtenant work.

West Lake Avenue from Wolf Road to Landwehr Road – The \$6.5 million project to rehabilitate West Lake Avenue is anticipated to be

completed in 2021. The project scope includes pavement rehabilitation and patching, curb and gutter replacements, ADA ramp improvements, and bridge repairs.

FY2021-FY2025 PRIORITIES

With Connecting Cook County as a guide for capital planning, and the Multi-Year Plan as a tool for implementing a capital program, Cook County has emerged as a leader in supporting and improving the regional transportation network. DOTH successfully leads project teams involving multiple municipalities, public entities, and private agencies as part of strategic transportation investments to boost economic outcomes and quality of life for Cook County residents. These investments are guided by the five LRTP policy priorities. The projects undertaken in the capital improvement program all address at least one of the priorities, and many address multiple. Consistent across the program is an emphasis on collaboration and a commitment to use transportation investments as a vehicle for economic development.

Project Alignment with LRTP Priorities

Chart 1: Percent of FY2021-FY2025 projects that advance each LRTP policy priority

PRIORITIZE TRANSIT AND OTHER TRANSPORTATION ALTERNATIVES

The regional roadway system must be complemented by other modes of transportation such as transit, walking, and biking, to create an efficient and sustainable transportation network. Of these modes, transit is the single most important. Cook County's newly initiated Transit Plan will build on the LRTP and refine how the County can support improvements to public transportation through investing in transit facilities and services, working with sister agencies, and conducting broader advocacy. The County's involvement with public transportation is guided by the following principles.

1. Increase ridership and maximize the use of existing transit assets.
2. Apply a consistent cost and benefit analysis framework to all proposed major transit capital projects, services modifications, and policy changes.
3. Integrate the different transit agencies' services by making them complementary rather than competitive.
4. Make the transit experience more seamless.

Acting on these principles, the Five-Year Capital Budget includes \$30.2 million for Cook County's Fair Transit Demonstration. DOTH is teaming with the region's public transit agencies to improve service and reduce fares on the Metra Electric and Rock Island lines in Chicago's South Side and South Suburban Cook County. The demonstration will also support seamless interoperability between agencies with free transfers between the Metra Electric and Rock Island lines and CTA and Pace. South Side and southern Cook County residents have fewer options for public transportation making for longer commutes with more transfers, a structural inequity that has stifled access to opportunities, stymied economic development, and hindered job growth. By making transit more affordable and reliable, residents will have better access to the region's largest employment centers.

The Department was also just awarded a \$330,000 Federal Transit Administration Accelerating Innovative Mobility (AIM) grant for the Fair Transit Demonstration. The AIM grant will support public engagement and data evaluation efforts to assess the impacts of the improved service and fare reduction as recovery strategies for ridership.

The Capital Budget also includes funding for other transportation alternatives. DOTH has entered into an intergovernmental partnership with the Forest Preserve District of Cook County (FPDCC) in which DOTH has agreed to reimburse the FPDCC up to \$25.0 million for costs associated with the engineering and construction of transportation infrastructure improvements across Forest Preserve properties. Eligible improvements include projects like the Paul Douglas Paved Trail rehabilitation which consists of pavement patching, storm sewer construction, landscape restoration, and other related work to improve the flooding condition that causes frequent trail closures. The proposed projects will increase accessibility to FPDCC facilities and help repair and maintain the extensive trail network throughout Cook County.

The Invest in Cook (IIC) grant program is another tool that the Department uses to support transportation innovation and alternatives. The 2019 IIC program included a \$125,000 award for Pace's First/Last Mile Pilot at the Harvey Transportation Center and the O'Hare South Cargo Area-Rosemont CTA Station. Pace will pilot a subsidized late-night ride hailing service as a supplement to regular bus operation at these two locations, improving residents' access to employment opportunities in the City of Chicago and beyond. DOTH and Pace have recently entered into an agreement to advance the pilot and its development is underway.

SUPPORT THE REGION'S ROLE AS NORTH AMERICA'S FREIGHT CAPITAL

Northeastern Illinois is North America's busiest freight hub, and freight is a crucial economic driver in Cook County; nearly 27% of all jobs in the County are associated with the freight sector. Freight's economic impact extends beyond transportation infrastructure and providers to include the many manufacturers, wholesalers, and retailers that depend upon and interact with the transportation sector. The County's central location makes it a crossroads for national and global markets and it is incumbent upon the local transportation agencies to support the region's status as the premier shipping and logistics center in the nation.

One major way that the Department is supporting that status is through its membership in the Chicago Region Environmental and Transportation Efficiency (CREATE) Program, a public-private partnership of railroads and public-sector agencies that advances critical rail improvements across northeastern Illinois. In 2019, DOTH formalized an agreement with the State to participate with \$77.8 million in matching funds for the 75th Street Corridor Improvement Project, which is the largest single remaining component of the CREATE program. This commitment was key to the State in securing a \$132.0 million federal grant for the improvement. Design of the project is underway and construction will begin in 2021.

Figure 4: The 75th Street CIP includes several grade separation projects that will eliminate the conflict between trains, motorists, and pedestrians.

The Department is also actively involved with other CREATE program projects, such as the Cottage Grove Avenue grade separation. In 2019, the Village of Dolton was awarded \$2.0 million in federal FY2023 Surface Transportation Program (STP) Shared Funds to advance preliminary engineering for the elimination of the at-grade crossing of Cottage Grove Avenue and the four IHB and CSX railroad tracks. DOTH has accepted the invitation by the Village to lead project implementation given its in-house technical expertise, cash flow capacity, and experience in coordinating regionally significant grant funded projects. In June 2020, DOTH began the development of a feasibility study to evaluate the most practical solution for the grade separation. The study is expected to be completed by the end of 2021.

City of Northlake to advance a preliminary engineering study for improvements to Railroad Avenue, which connects numerous commercial and industrial properties and the Union Pacific intermodal facility to major freight corridors. This project will bring Railroad Avenue up to modern design standards, facilitating the movement of trucks in the area. The preliminary engineering study is underway and will be completed in early 2021. The improvements to freight mobility will complement the adjacent DOTH-led improvements to County Line Road, Lake Street, and North Avenue at the I-294 ramp, a project which will begin construction in 2021.

Many projects within the IIC program have also been freight focused. The 2019 program included a \$50,000 award to the

PROMOTE EQUAL ACCESS TO OPPORTUNITIES

The economic health of the County is defined by how easily people can get to jobs, schools, healthcare centers, recreational activities, and much more. Due to historical practices in land use and economic development, transportation services and the opportunities they afford are not equally distributed. The County is committed to combating these inequities through thoughtful and significant transportation investments in disadvantaged communities.

The Burnham Multimodal Connector (BMC) project will fill a critical quarter-mile gap in the Burnham Greenway Trail with a proposed \$6.8 million pedestrian bridge over five rail lines. This is the last gap in the Burnham Greenway Trail, which connects regionally to the Calumet Sag Trail, Chicago Lakefront Trail, the Pennsy Greenway, the Grand Illinois Trail, and various Northwest Indiana paths. Currently, pedestrians along Burnham Avenue pass through three at-grade crossings, an uncomfortable and often time-consuming trek that hinders access to the Metra Hegewisch station. First awarded funding through the 2018 IIC program, this Burnham-led project will improve local community mobility, providing an economically disadvantaged population with better access to both transit and the regional trail network. Given the project's regional significance and alignment with the Department's LTRP priorities, the County has since taken a larger leadership role in implementation in addition to providing monetary support. Preliminary engineering commenced earlier this year and is expected to be completed by mid-2021. A two-year design phase will follow, setting the project up for construction in 2024.

Figure 5: The Burnham Multimodal Connector will close a gap in the regional trail network and increase safety for pedestrians by providing an alternative to at-grade crossings.

The County is also committed to providing equal access to people with disabilities. All proposed improvements to DOTH facilities comply with the Americans with Disabilities Act (ADA). DOTH is also making targeted investments to improving ADA accessibility in local communities. The 2019 IIC program included a \$200,000 award to the Village of Posen and a \$225,200 to the City of Hometown to make ADA improvements. The improvements in Posen are at various locations where there is heavy pedestrian traffic from transit users and nearby elementary schools. The project, which is nearly 100% complete, has removed and replaced sidewalks and curbs that are in poor condition and are difficult to travel for people with disabilities, providing safer passageways for residents to reach their destinations. Similarly in Hometown,

improvements for intersections which have substandard ADA ramps, with missing detectable warnings or excessive slopes, are advancing to construction this year as part of the City's efforts to bring all sidewalks and ramps up to compliance.

DOTH is also working across departments to promote equal access to opportunities by partnering with the Cook County Department of Planning and Development to provide funding for MFT eligible community infrastructure projects, such as roadway resurfacing and sidewalk replacements. These local agency infrastructure improvements were awarded funds in the 2019 Community Development Block Grant (CDBG) program and DOTH's investment will support construction activities with expenditures anticipated in FY2020 and FY2021. This partnership has enabled CDBG funds to be reallocated into eligible social service items and aid in the countywide COVID-19 response.

MAINTAIN AND MODERNIZE WHAT ALREADY EXISTS

The maintenance and modernization of transportation system assets remains a top priority for DOTH. These projects improve the service life, capacity, and safety of existing transportation assets.

The Department's Pavement Preservation and Rehabilitation Program (PPRP) is the main method by which DOTH upkeep the condition of its 1,620 lane miles of pavement. Historically, DOTH programmed two PPRP contracts per year, one for the northern half of the County and the other for the southern half. Due to the new revenues generated from the REBUILD Illinois capital program, DOTH is expanding its commitment to keep its roadways in a state of good repair and doubling the size of the PPRP. The total budget request for the PPRP over the 5-year program is about \$184.0 million, up from about \$94.0 million in last year's budget request. Locations slated for maintenance and rehabilitation are based on data-driven evaluations of roadway conditions.

DOTH is also increasing investments in its bridge maintenance program, shifting to more of an asset management approach. Asset management is a strategic process of programming scheduled-based and condition-based improvements to slow the rate of bridge deterioration and maximize the structural health of the overall inventory. To keep the system of bridges in good condition, in-house crews perform preventive maintenance, such as power washing and bridge cleaning, annually. For more significant maintenance activities, DOTH relies on contractual services. The Capital Budget includes \$1.0 million in annual contracts for general bridge maintenance activities for each half of the County. It also includes a \$3.0 million contract to repair and strengthen four Calumet Sag Channel bridges.

The FY2021-FY2025 Capital Budget also includes about \$15.2 million for the implementation of a biennial Traffic Signal Modernization/Replacement Program (TSMRP). The TSMRP will provide updates to the County's aging traffic signal equipment, most of which is twenty to thirty years old. The program will incorporate the latest technological and safety standards to improve operations, increase safety, and minimize life-cycle maintenance costs. The program is expected to start in FY2021 with a \$6.0 million construction package that will replace thirteen traffic signals and modernize ten others.

INCREASE INVESTMENTS IN MUNICIPAL & REGIONAL TRANSPORTATION

Cook County is playing an increasingly active role in supporting local governments in their efforts to build and maintain comprehensive transportation networks. The County has provided monetary and staff support to help municipal and regional transportation agencies leverage revenues to complete or expedite transportation improvements. Through cooperation with local municipalities, high priority projects have secured full funding and been completed in a timely and efficient manner. The Department's involvement has helped advance projects that might otherwise have languished due to insufficient funding. DOTH has been especially successful in helping local municipalities secure federal or state funds by assisting with the local match required for those projects.

The IIC grant program is one avenue by which DOTH supports its municipal partners. Annually, applicants can apply for up to a combined \$8.5 million in transportation funds to cover the cost of planning and feasibility studies, engineering, and construction for improvements that meet the goals of the LRTP. The FY2020 program included fifteen bicycle/pedestrian projects, six freight projects, eight roadway projects, and one transit project. Fifteen of these awards were for construction activities and eighteen went to high need communities, demonstrating DOTH's commitments to support the advancement of local improvements and provide equal access to opportunities. Since the initiation of the IIC Program in FY2017, 37% of all awards have been for construction activities and 52% of awards have gone to high need communities.

FY2021 BUDGET

In FY2021, DOTH projects \$490.2 million in funding and \$332.8 million in total expenditures. Available funding for projects (i.e., what remains after accounting for operations expenditures and debt service payments) totals \$433.2 million. Project expenditures, in contrast, total \$275.5 million in FY2021, of which \$117.3 million are capital expenditures and \$158.2 million are maintenance or non-capitalizable expenditures. The imbalance between revenues and expenditures is largely due to the front-loaded nature of DOTH's new revenue streams. As part of the REBUILD Illinois capital bill, DOTH will receive \$251.1 million in funding from State bond proceeds by the end of FY2022. A majority of this funding will have been received by the end of FY2021, but the expenditure of these funds will be spread over the five-year program as demonstrated in the FY2021-FY2025 Forecast section below. The anticipated total FY2021 expenditure level is 21.9% higher than the expenditures requested in the FY2020 appropriation, reflecting the continued advancement of major improvements.

REVENUES

DOTH's revenue is comprised of a mix of state Motor Fuel Tax (MFT), federal and state grants, and local agency reimbursements. The 2019 REBUILD Illinois capital bill has provided DOTH with two new sources of revenue: the Transportation Renewal Fund (TRF) and REBUILD Illinois Bond Funds.

Motor Fuel Tax revenue is the Department's primary funding source for its operations and projects. The TRF, created by the Motor Fuel Tax rate increase from 19 cents to 38 cents per gallon in 2019, supplements the traditional monthly allotments that DOTH has received from the Motor Fuel Tax Fund (MFTF). Based on actual allotment data from the past year, the TRF allotment will be about two-thirds of the monthly MFTF allotment. The capital bill also included a provision to index the tax rate to increase annually with inflation. The rate is up to 38.7 cents as of July 2020.

By the end of 2021, DOTH will have received four disbursements of REBUILD Illinois Bond Funds, or about \$167.4 million out of an expected \$251.1 million total award. These funds will be expended on bondable capital improvements in accordance with the State's policy, which, in general, requires that projects have an average useful life of greater than or equal to 13 years. Bond funds are considered local funds, and as such, are deposited in the Department's MFT account and represented as traditional MFT funds. DOTH is currently coordinating with IDOT regarding which projects will use bond funds.

The impact of these new revenue streams is substantial. However, the coronavirus pandemic and associated reductions in travel have reduced transportation funding. Vehicle travel is undergoing unprecedented changes which impact the amount of MFT the County receives. It's unclear how long vehicle travel will be reduced and when volumes will rebound back to pre-pandemic levels. Considering this uncertainty, DOTH is taking a cautious approach to forecasting MFT revenues based on industry consultation. DOTH projects that monthly MFT allotments will be 25% lower than originally anticipated for the remainder of FY2020 and 5% lower than pre-pandemic levels for each year in the FY2021-FY2025 program. Despite the decrease in potential revenues due to the ongoing pandemic, the additional funding created by REBUILD Illinois bonds will provide a net increase in revenue compared to previous years, allowing planned projects in the near term to progress as programmed.

Taking all these factors into consideration, total MFT funds for FY2021 (i.e., the sum of MFTF, TRF, and REBUILD Illinois Bond Funds) are anticipated to be \$240.7 million. MFT funds are invested on DOTH's behalf by the Cook County Treasurer, creating an estimated \$600,000 in interest revenue in FY2021. A total of \$51.0 million will be used from MFT funds to cover DOTH's oper-

ating expenses which, include staff salaries and benefits, office supplies, materials, and equipment. Additionally, \$6.3 million is used for debt service payments for the 2012 Sales Tax Bond. This leaves \$184.0 million from the allotments that can be used for capital improvement projects in FY2021. This is further supplemented by a carryover balance from FY2020 of \$176.5 million resulting in a total of \$360.6 million in MFT funds available for capital projects in FY2021. A large portion of that carryover is the \$83.7 million DOTH has already received in REBUILD Illinois Bond Funds, the expenditure of which will be spread over multiple years.

The Department also receives project-specific revenue from federal, state, and local governments in the form of grants and reimbursements. In FY2021, anticipated grant revenues total \$34.1 million and local reimbursements total \$34.4 million. DOTH will continue to aggressively compete for grant funding and partnering with local agencies to advance projects.

The last revenue source is Township MFT funds. DOTH serves as the central repository for the monthly Township MFT allotments and has fiduciary responsibility over these accounts on behalf of 23 townships in a separate special revenue fund. Townships advance projects for their roadway construction and maintenance needs and seek reimbursement for these efforts from DOTH. A total of \$641,000 in new township revenues is projected for FY2021, in addition to the approximately \$3.3 million in carryover township revenues from prior years.

Chart 2: FY2021 transportation funding resources.

EXPENDITURES

The total FY2021 recommended total project expenditure is \$275.5 million, predominantly funded by \$203.1 million in MFT funding, followed by \$34.4 million in local reimbursements, \$34.1 million in grant funding, and \$4.0 million in Township MFT. Of the recommended expenditures, \$158.2 million (or 57.4%) is in non-capitalizable projects or maintenance activities in the County. The remaining \$117.3 million (42.6%) are capitalizable expenditures, including preliminary and design engineering activities, right-of-way acquisition, and construction. FY2021 expenditures also include a \$2.0 million annual transfer to the Chicago Transportation Authority (CTA) as shown in the chart below.

Chart 3: FY2021 transportation expenditures by task

Expenditures are also categorized into three primary work types: preservation, modernization, and expansion. Preservation projects, which account for about 34% of FY2021 expenditures, extend the service life of transportation assets to minimize life cycle costs. Modernization projects, which make up 29% of FY2021 expenditures, provide safety and capacity improvements to the system and accommodate future enhancement opportunities. Expansion projects, which represent 37% of the FY2021 expenditures, typically involve additions to the system in the form of new multi-use paths, lanes, ramps, or roadways.

FY2021 Capital Improvement Expenditures by Work Type
\$275.5M

FY2021-FY2025 FORECAST

DOTH's project costs typically span over several years as they advance through the development pipeline and through construction. The Budget Book includes a five-year forecast of revenues and expenditures to enable more accurate financial management and planning. The Cook County Board of Commissioners, however, authorizes expenditures for the upcoming fiscal year. Since Connecting Cook County was first published in 2016, DOTH's projected expenditures were not constrained in the later years of the program, allowing the Department the flexibility to adapt to changes in system needs, project schedules, and funding opportunities. This resulted in a funding gap in the five-year program, which DOTH reported as \$361.6 million in last year's budget request. The ambitious program and associated funding gap demonstrated the level of investment that a complex, regional transportation system requires which was important in building the case for more funding. With the new revenues generated from the REBUILD Illinois capital program, this funding gap is now closed and DOTH's program is balanced. Estimated funding and expenditures both total to \$1.1 billion over the five-year program.

FIVE-YEAR REVENUE PROJECTIONS

The five-year revenue projections for the fiscal years 2021-2025 period total \$934.9 million. MFT revenues available for projects (i.e., those remaining after operations expenditures and debt service payments) are projected to represent more than half of total revenues for DOTH's capital improvement program, accounting for \$507.7 million, or 54.3% of the total. REBUILD Illinois Bond funds are the next largest share of revenues, accounting for \$167.4 million, or 17.9% of the total. Grants are expected to make up a significant share of total revenues at \$152.5 million or 16.3%. Local reimbursements are expected to total \$101.1 million, or 10.8% of the total, and township MFT allotments and interest from investments make up \$3.2 million (0.3%) and \$3.0 million (0.3%), respectively. No transfers or carryover balances are assumed in the five-year projections.

Revenue Source	FY2021	FY2022	FY2023	FY2024	FY2025	Total

Table 2: Five-year revenue projections by funding source, excluding carryovers of MFT and township fund balances

FIVE-YEAR EXPENDITURE PROJECTIONS

The five-year expenditure projections for the fiscal years 2021-2025 total \$1.1 billion. About 73% of expenditures are allocated to construction projects. Planning and preliminary engineering projects are predicted to account for 8% of expenditures, design engineering is 6%, and right of way and maintenance are 1%, and 11%, respectively.

Phase	FY2021	FY2022	FY2023	FY2024	FY2025	Total
Planning & Prelim. Engineering	20,046,150	26,839,711	25,642,999	9,424,999	8,425,000	90,378,859
Design Engineering	16,938,699	14,552,594	15,931,713	13,630,002	8,025,000	69,078,007
Right-of-Way	4,120,520	2,556,941	1,853,235	1,300,000	1,490,000	11,320,696
Construction	190,010,059	174,168,104	165,057,899	149,809,576	137,622,533	816,668,171
Maintenance	44,433,213	26,736,830	16,059,340	17,921,000	22,176,000	127,326,383
Total	\$275,548,640	\$244,854,180	\$224,545,186	\$192,085,577	\$177,738,533	\$1,114,772,115

Table 3: FY2021-FY2025 expenditures by task

Expenditures are also categorized by work type. Over the 5-year program, it's expected that 36% of expenditures will be for preservation projects, 36% for modernization projects, and 28% for expansion projects. The fairly even split among work types is reflective of DOTH's diverse portfolio of projects.

FY2021-FY2025 Capital Improvement Expenditures by Work Type
\$1.1B

Chart 5: FY2021-FY2025 expenditures by work type

Projected funding sources and expenditures are balanced over the five-year program. The annual comparisons of revenues and expenditures are imbalanced though, with the earlier years showing a carryover and the later years showing a deficit. This is because the infusion of cash from REBUILD Illinois bond funds happens between FY2020-FY2022, but its expenditure will be spread out between FY2021-FY2025. Chart 6 shows the cash flow over the five-year program, including the drawdown of the fund balance.

*Chart 6: FY2021-FY2025 cash flow*

With the historic influx of funding, DOTH is positioned to advance a robust program that supports the transportation needs of Cook County residents and businesses, and more fully realizes the vision set forth in Connecting Cook County. That vision is more pertinent than ever in the context of the challenges posed by the pandemic. It is vital that people and goods are able to move safely and efficiently through the regional transportation network, from transit to trail. Transportation investments are critical in building a stronger, more resilient economy and healthier communities. DOTH is ready to collaborate with regional partners to meet the moment and implement meaningful improvements and, at the same time, prepare for the challenges and opportunities on the horizon.

COOK COUNTY DEPARTMENT OF TRANSPORTATION AND HIGHWAYS FY2021-FY2025 NON-CAPITALIZABLE PROJECTS

Project Name		Primary Work Type	FY2021	FY2022	FY2023	FY2024	FY2025	Est. Total Cost	County Funding	Outside Funding
Project Tasks	IIC 2019 - OAKTON STREET SIDEPATH 19-ICBP-04-ES (DES PLAINES)	Modernization	-	-	-	-	-	-	-	-
Project Tasks	IIC 2019 - PACE FIRST MILE/LAST MILE PILOT (PACE)	Modernization	43,875	-	-	-	-	43,875	43,875	-
Total Project Cost			\$43,875					\$43,875	\$43,875	
Project Tasks	IIC 2019 - POSEN ADA IIC 19-ICBP-08-SW (POSEN)	Modernization	100,000	-	-	-	-	100,000	100,000	-
Total Project Cost			\$100,000					\$100,000	\$100,000	
Project Tasks	IIC 2019 - PROVISO DR IIC 19-ICFR-00-PV (BERKELEY)	Expansion	275,000	-	-	-	-	275,000	275,000	-
Total Project Cost			\$275,000					\$275,000	\$275,000	
Project Tasks	IIC 2019 - RAILROAD AVE RECONSTRUCTION 19-ICFR-05-ES (NORTH LAKE)	Expansion	50,000	-	-	-	-	50,000	50,000	-
Total Project Cost			\$50,000					\$50,000	\$50,000	
Project Tasks	IIC 2019 - RICHTON 19-ICRD-11-ES (RICHTON PARK)	Expansion	25,000	-	-	-	-	25,000	25,000	-
Total Project Cost			\$25,000					\$25,000	\$25,000	
Project Tasks	IIC 2019 - SAUK VILLAGE MULTI-USE PATH 19-ICBP-09-ES (SAUK VILLAGE)	Expansion	153,000	153,000	-	-	-	306,000	181,200	124,800
Total Project Cost			\$153,000	\$153,000				\$306,000	\$181,200	\$124,800
Project Tasks	IIC 2019 - SKOKIE VALLEY TRL 19-ICBP-10-BT (WILMETTE)	Expansion	150,000	-	-	-	-	150,000	150,000	-
Total Project Cost			\$150,000					\$150,000	\$150,000	
Project Tasks	IIC 2019 - SOUTHWEST HWY 19-ICBP-07-ES (OAK LAWN)	Modernization	123,000	-	-	-	-	123,000	123,000	-
Total Project Cost			\$123,000					\$123,000	\$123,000	
Project Tasks	IIC 2019 - ST CHARLES RD 19-ICRD-00-SW (BELLWOOD)	Design Engineering	100,000	-	-	-	-	100,000	100,000	-
Total Project Cost			\$100,000					\$100,000	\$100,000	
Project Tasks	IIC 2019 - STONY ISLAND IIC 19-ICRD-07-PV (LYNWOOD)	Modernization	200,000	-	-	-	-	200,000	200,000	-
Total Project Cost			\$200,000					\$200,000	\$200,000	
Project Tasks	IIC 2019 - US30 (LINCOLN HWY) 19-ICRD-05-ES (FORD HEIGHTS)	Modernization	400,000	-	-	-	-	400,000	400,000	-
Total Project Cost			\$400,000					\$400,000	\$400,000	
Project Tasks	INVEST IN COOK 2021-2025 PROGRAM	Modernization	150,000	75,000	-	-	-	225,000	225,000	-
Total Project Cost			\$150,000	\$75,000				\$225,000	\$225,000	
Project Tasks	LAKE COOK RD 14-A5015-03-RP	Expansion	2,385,178	-	-	-	-	2,385,178	348,883	2,036,295
Total Project Cost			\$2,385,178					\$2,385,178	\$348,883	\$2,036,295
Project Tasks	LOCAL AGENCY INFRASTRUCTURE	Preservation	2,100,000	-	-	-	-	2,100,000	2,100,000	-
Total Project Cost			\$2,100,000					\$2,100,000	\$2,100,000	
Project Tasks	METRA A-20 19-MEA20-00-ES	Modernization	85,000	-	-	-	-	85,000	85,000	-
Total Project Cost			\$85,000					\$85,000	\$85,000	
Project Tasks	MUNICIPAL MAINTENANCE PARTNERSHIP - BERWYN	Preservation	50,000	50,000	50,000	50,000	-	200,000	200,000	-
Total Project Cost			\$50,000	\$50,000	\$50,000	\$50,000		\$200,000	\$200,000	

COOK COUNTY DEPARTMENT OF TRANSPORTATION AND HIGHWAYS FY2021-FY2025 NON-CAPITALIZABLE PROJECTS

CAPITAL EQUIPMENT OVERVIEW

Cook County's capital equipment acquisition strategy is a two-pronged approach designed to improve customer service and contribute to taxpayer savings. These goals are achieved by updating aging technologies, replacing existing infrastructure, refreshing outdated computer systems, purchasing vehicles and making cost-conscious purchases on various discrete equipment, like technology hardware and software, furniture, and institutional equipment. The County's Capital Equipment Program (CEP) provides for long-term investments in major countywide systems and ensures that the essential tools for day-to-day operations are adequate and operational.

**FY2021 Adopted Capital Equipment
\$99.6 million**

**FY2021 Capital Equipment Funding Sources
\$99.6 million**

CAPITAL EQUIPMENT SUMMARY

All Cook County departments were required to identify specific capital equipment needs for FY2021. The initial capital equipment requests submitted by departments totaled \$153.0 million for FY2021. Following the completion of a County capital equipment review process designed to judiciously determine priorities and projects, the capital equipment appropriation for funding was reduced from \$153.0 million to \$99.6 million, or 65.1%. Of the FY2021 capital equipment appropriation, a total of \$71.2 million or 71.5% is devoted to information technology, with the remaining \$28.4 million or 28.5% composed of vehicle purchases, fixed plant assets, institutional equipment, furniture and medical lab equipment.

REVIEW PROCESS

Each year, as part of the annual budget process, Cook County departments provide the Department of Budget and Management Services (DBMS) with cost estimates, project details and explanations of how capital equipment investments have the potential to improve services/yield value to taxpayers. In an effort to improve oversight and reduce waste, capital equipment requests undergo an extensive review process. This ensures the appropriated projects or items are indeed necessary, produce operational savings, or improve services to County residents and employees. DBMS reviews requests in partnership with the Bureau of Technology (BOT), Chief Administrative Officer, Department of Capital Planning and Policy and Department of Facilities Management to prioritize limited resources and ensure compatibility with the County's long-term strategic plan and vision.

All County departments are required to submit an annual capital equipment inventory which includes a replacement cycle for all IT and non-IT assets under their control. Departments are also required to provide a business case to justify their FY2021 capital equipment request and a review of alternative financing for acquiring the item. A separate analysis is performed for vehicle requests to determine if vehicles are being utilized as intended by the County's fleet vehicle policy and to ensure that additional or replacement vehicles are required due to safety reasons or useful life parameters. The departments requesting furniture for FY2021 were required to submit a space request form to the Space Allocation Committee to evaluate departmental needs as well as conduct site visits and interviews to confirm certain criteria were met. Combined, these processes further enhance the ability to provide a long-term funding plan for capital equipment in FY2021 and future years.

The appropriation to fund \$99.6 million in FY2021 resulted from this collaborative, transparent review process. Review committees identified investments that:

- Support County strategic priorities such as: centralized vehicle management, reuse of equipment in good condition, and standardizing County computer hardware and software,
- Have a useful life of at least five years,
- Secure operational savings and process efficiencies to support departments' core functions,
- Achieve strategic savings through Countywide contracts when possible, and
- Have a viable implementation plan.

OVERALL CAPITAL EQUIPMENT STRATEGY

As part of President Preckwinkle's comprehensive plan for Cook County, the capital equipment appropriations have historically been driven by four key goals: fiscal responsibility, innovative leadership, transparency and accountability, and improved services. Additionally, capital equipment appropriations are guided by the County's *Policy Roadmap* goals of Open Communities and Smart Communities; focusing on investments that improve data integration and analysis, promotes transparency, and innovative IT solutions. Investments in capital equipment support these goals while providing departments and employees with the tools they need to better serve all residents.

FISCAL RESPONSIBILITY

- Implementation of a Countywide fleet vehicle management software which allows for improved tracking of vehicle maintenance and repairs.
- Upgrading the County's GIS systems will continue to allow the County to maintain property tax information and ensure collection of a critical revenue source.
- Ongoing countywide replacement of outdated phone systems with the Unified Communications (VoIP) project improves overall communications, reduces costs, ensures compliance with Federal and State laws, and provides disaster recovery with business continuity capabilities.

INNOVATIVE LEADERSHIP

- Countywide data integration projects will help County agencies and the public more efficiently access and utilize data to make better data-driven policy decisions.
- Clerk of the Circuit Court's case management system will provide an efficient and cost-effective operational system that will increase productivity while simultaneously complying with all court designated laws on technology improvement and public records.
- Continued migration to cloud-based applications and phasing out use of outdated, cost-prohibitive legacy mainframes.

TRANSPARENCY & ACCOUNTABILITY

- Centralized citation management solution will provide real-time account status, improved audit controls, eliminate paper citations and integrate workflows for the entire County.
- New case and document management systems will eliminate manual data entry, enhance reporting abilities, and improve data analysis for numerous departments.
- Establishing a Countywide consolidated, unified disaster recovery plan to protect against service disruptions and recovery of lost data.

IMPROVED SERVICES

- Enhancement of Public Safety with continued investment in the Sheriff's radio channel expansion project.
- Upgrades and improvements to the County Clerks web-based tax portals.
- Continued commitment to Public Health by investing in new and advanced medical equipment for hospitals and clinics.

INVESTMENTS IN TECHNOLOGY

The County's continued investment in technology has allowed for upgrades to critical IT infrastructure, software, and systems that support key human resource, public safety, public health, finance, and tax related functions. Partnered with those investments the County is also able to modernize countywide infrastructure and improve system security.

BOT and the DBMS met with departments with major information technology (IT) requests to review computer, software, case management system, and other IT infrastructure needs. In addition to specifically evaluating FY2021 requests, BOT and DBMS reviewers and user departments discussed spending-to-date on approved FY2019-2020 IT equipment. The initial IT requests went through the capital review process that determined which requests would best meet the County's most critical IT needs and provide the highest return on investment, resulting in the acceptance of a \$71.2 or 71.5% appropriation out of the \$99.6 million of the total capital equipment approved for FY2021.

FY2021 Major IT capital equipment projects include:

- GIS Integrated Property Tax System (\$8.9 million)
- Disaster Recovery System (\$7.0 million)
- Unified Communications (\$3.6 million)
- Radio Channel Expansion (\$3.1 million)
- Asset Management System (\$3.0 million)
- State's Attorney Case Management System (\$1.5 million)
- CCC Case Management System (\$1.25 million)

The Integrated Property Tax System (IPTS) is a landmark collaborative effort for the County's property tax agencies. IPTS creates an improved central database of the County's 1.8 million real property parcels and all the related data behind each parcel from each of the agencies engaged in the County's property tax system. It will also provide more streamlined ways of processing property services as information travels between agencies.

The Unified Communications project is a 5-year project that started in May 2017 and is scheduled to be completed February (winter) 2022. The project is modernizing the County's outdated legacy telephone system by consolidating the telecommunications and data networks into a single infrastructure; helping to reduce outages and maintenance costs. The Unified Communications project has currently migrated 5,500 phones and completed 15 sites since the start of the project in 2017. The project is modernizing phone systems for elected officials, CCH, and the Forest Preserve.

Bureau of Asset Management (BAM) does not currently have an asset management solution. Departments currently rely on their own, internal processes to manage assets and deliver services. These are generally manual, paper-based processes

with heavy reliance on disparate spreadsheets. In the absence of a unified system, departments are unable to efficiently and effectively store and share data. The procurement and implementation of an asset management solution that supports the full BAM asset lifecycle will allow the departments to increase transparency, improve workflows, enhance reporting, introduce new capabilities, and overall, increase BAM's ability to make sound, strategic decisions. The project is estimated to take one to two years to complete and consists of five phases starting with defining the scope (completed), vendor selection, implementation, testing, and training.

Upon the full implementation of the IT systems and applications mentioned above, the County will be able to fundamentally transform the way it operates while providing more innovative and transparent services to its residents.

VEHICLE POLICY IMPLEMENTATION

To reduce costs and improve efficiencies, the countywide fleet continues to undergo a comprehensive internal fleet assessment. In coordination with the County's Vehicle Steering Committee (VSC), a review of all passenger and light duty vehicles resulted in the second phase of a fleet reduction effort. This assessment process examines criteria such as: vehicle utilization, odometer readings, and fleet age. All FY2021 vehicle requests were reviewed against these criteria to ensure that the County's established requirements for new or replacement vehicles were met.

The Bureau of Administration is responsible for managing, coordinating and replacing of all passenger and light duty vehicles. All departments under the Offices of the President coordinate with the Bureau of Administration for future vehicle requests and all non-routine repairs. Using departments will continue to coordinate their own routine preventative maintenance, such as oil changes, tires, brakes, belts, spark plugs, filters, and lights.

Per the Cook County Vehicle Ordinance, the VSC will annually review all take-home vehicle assignments, not including Law Enforcement or Specialty Vehicles. The County will continue to move into a cost-efficient replacement cycle for passenger vehicles by establishing a replacement plan for all passenger vehicles.

For FY2021, vehicle requests were approved by the capital committee in the amount of \$10.1 million.

The Countywide Fleet Management System will give the County and using departments a better understanding of their fleet operations. By having a comprehensive fleet system, it will improve operational costs and increase efficiency. A fleet management system can produce fleet reports to help departments understand their fleet and make the necessary adjustments. In addition, a fleet management system will track all maintenance and repairs throughout the life cycle of the vehicle.

CAPITAL EQUIPMENT FUNDING

Currently, the primary source of capital equipment funding is debt proceeds. Debt will fund \$86.1 million or 86.4% of the \$99.6 million in capital equipment appropriation in this budget. The debt funded capital includes several major IT projects, discussed in the Investments in Technology section, that are expected to transform the way the County operates. The remaining \$13.5 million or 13.6% is funded on a "Pay-As-You-Go" basis by using operating funds, grant funds and special purpose funds (SPF), to reduce the reliance on debt proceeds.

The County is allocating \$2.4 million or 2.4% of its General Fund operating revenues toward the acquisition of various discrete capital equipment like technology, hardware, and vehicles. The largest projects being funded by these revenues are planned equipment purchases for the Sheriff.

Grant funds are also used to offset capital needs in the amount of \$4.3 million or 4.4% in FY2021. These will be used to fund IT and vehicle projects for the Department of Emergency Management and Regional Security (DEMRS). The remaining funds will go toward vehicle purchases for the State's Attorney's Office and radio equipment refresh for the Chief Judge (Adult Probation).

Special Purpose Funds (SPF) will fund \$6.8 million or 6.8% of the total capital equipment requests recommended. The largest projects funded with SPF are the improvements for Geographic Information Systems (GIS) data collection and software upgrades (\$3.6 million) and the County Clerks Election Asset-Inventory Tracking System (\$1.2 million). By utilizing SPF, the County avoids funding these projects with long-term debt.

OPERATING BUDGET IMPACT

Funding Capital Equipment Projects (CEP) with debt, special purpose funds and grant funds allows Cook County not only to fund vital projects but reduce the impact on a department's fiscal operating budget. Financing projects with debt instead of operating funds allows County agencies to use operating dollars to fund core functions for corporate, public safety, and health services.

The decision to fund various capital equipment projects often provides some additional savings to the operating budgets of County offices. The continued investment in cloud-based software applications allows the County to continue to migrate computing and data operations off on-premise mainframes leading to lower operating and maintenance expenses. This move towards cloud computing also helps to reduce energy costs associated with on-premise mainframe operations.

The implementation of new vehicle management software will allow the Offices Under the President and other user agencies the opportunity to better manage routine maintenance projects on vehicles to prevent the need for costly major repairs. Also, the continued replacement of aging or end of life county fleet vehicles helps to reduce fuel consumption as departments procure newer more fuel efficient or hybrid vehicles.

Finally, the replacement of outdated, end of life fixed plant and institutional equipment will provide savings to departments in the form of reduced maintenance and repair costs within their operating budgets. The purchase of newer, modern equipment can not only save on maintenance costs but reduce employee down time.

RESOLUTION

SPONSORED BY

THE HONORABLE TONI PRECKWINKLE

PRESIDENT OF THE COOK COUNTY BOARD OF COMMISSIONERS

RESOLUTION AND ANNUAL APPROPRIATION BILL FOR THE FISCAL YEAR 2021

A **RESOLUTION** providing for the Annual Appropriation for the Fiscal Year 2021 and for the closing of accounts of the County of Cook, Illinois, under the Annual Appropriation Bill for the Fiscal Year 2020.

PREAMBLES

WHEREAS, Section 6(a) of Article VII of the 1970 Constitution of the State of Illinois provides that “a County which has a Chief Executive Officer elected by the electors of the County...(is) a Home Rule Unit”, and the County of Cook, Illinois (the “County”) has a Chief Executive Officer elected by the electors of the County and is therefore a Home Rule Unit and may, therefore, under the powers granted by said Section 6(a) of Article VII of said Constitution of 1970, exercise any power and perform any function pertaining to its government and affairs; and

WHEREAS, appropriation of funds is a necessary annual function of government; and

WHEREAS, the County will close out its accounts as of November 30, 2020 and render an account and make settlements with the County for the Annual Appropriation Bill for the Fiscal Year 2020.

NOW THEREFORE, at a meeting convened and concluded on November 24, 2020, Be It Hereby Resolved by the Board of Commissioners of the County of Cook, Illinois as follows:

**RESOLUTION AND ANNUAL APPROPRIATION BILL
FOR THE FISCAL YEAR 2021**

BE IT RESOLVED BY THE BOARD OF COMMISSIONERS OF COOK COUNTY:

- Section 1.** That the Board of Commissioners of Cook County (the "County Board" or "Board") hereby finds that all recitals contained in the preambles to this resolution are full, true and correct and does incorporate them into this resolution by this reference.
- Section 2.** That the County Board, hereby establishes and ordains Fiscal Year 2021 as commencing on December 1, 2020 and concluding on November 30, 2021.
- Section 3.** That this Resolution be and the same is hereby termed the "Annual Appropriation Bill" of the County of Cook for Fiscal Year 2021 and governs all Elected Officials, Departments, Offices, Institutions or Agencies of the County, including but not limited to the offices and departments under the jurisdiction of the County Board President, the Board of Commissioners, Cook County Health and Hospitals System, Cook County State's Attorney, Cook County Sheriff, Cook County Public Defender, Clerk of the Circuit Court of Cook County, Cook County Treasurer, Cook County Clerk, Cook County Assessor, Chief Judge of the Circuit Court of Cook County, Board of Review, the Office of the Independent Inspector General, the Cook County Land Bank Authority, and the Public Administrator (hereinafter, "Agencies" or "Agency"). The Estimates of Current Assets and the Revenues of the Fiscal Year 2021 Available for Appropriation, and the amounts appropriated and the objects and purposes thereof, are as specified in the following: Executive Budget Recommendations for Fiscal Year 2021, Volumes I, II, and III as amended by the County Board through the amendment process and the Estimate of Revenue and Available Resources for Fiscal Year 2021, as amended by the County Board through the amendment process.
- Section 4.** That the amounts set forth herein and the same are hereby appropriated for Fiscal Year 2021 and as further noted in Sections 26 and 27.
- Section 5.** That the salaries or rates of compensation of all officers and employees of the County or Agencies when not otherwise provided by law, shall be governed and administered by the compensation plans in force and effective in the Fiscal Year 2021 Appropriation Bill. Amounts paid may vary due to rounding based upon the payroll automated system rounding conventions, which is anticipated not to exceed plus or minus 20 cents per pay period. Step advancement, cost of living increases and/or non-compounding cost of living allowances for union employees will be dictated per the terms of the applicable collective bargaining agreements. Step advancement for non-union employees will be dictated per the salary schedules and/or compensation plans in force and effect in Fiscal Year 2021, unless otherwise amended. Any and all changes in classification shall be subject to the approval of the Chief of the Bureau of Human Resources. In the event union employees receive cost of living increases and/or a non-compounding cost of living allowance, or a step freeze, in Fiscal Year 2021 as a result of negotiated and approved collective bargaining agreements, non-union employees may also receive cost of living increases, non-compounding cost of living allowances and/or step freezes. In the event union employees receive health-care benefits plan design or cost changes as a result of negotiated and approved collective bargaining agreements, non-union employees shall also receive healthcare benefits plan design or cost changes. Implementation

of any non-union cost of living increases, non-compounding cost of living allowances and/or step freezes will be subject to the approval of the Department of Budget and Management Services Director ("Budget Director"), Chief of the Bureau of Human Resources and the Cook County Board of Commissioners. A non-compounding cost of living allowance shall be considered a one-time payment and offered only as a non-pensionable incentive. Any employee who accepts the non-compounding cost of living allowance does so voluntarily and with the knowledge and on the express condition that the payment is not included in any pension calculations.

Section 6. That whatever appropriations for salaries or wages of any office, agency or place of employment are supported by a detailed salary schedule, all expenditures against such appropriations shall be made in accordance with such schedule and classification plan, and no payroll item shall be submitted to the Comptroller of the County (the "Comptroller") by any Agency of the County for a sum exceeding the amount shown in said salary schedule, except for rounding and except that the County Board may direct the Agencies of the County to expend all or any portion of the appropriation herein contained reserved for adjustments in wages of employees, when approved by the County Board.

Section 7. Only full-time employees working 30 hours per week on average during a standard measurement period as established by the Director of Risk Management, may receive healthcare benefits unless otherwise authorized by a Collective Bargaining Agreement, or Employment Agreement, as approved by the Chief of the Bureau of Human Resources. Employees shall contribute towards the cost of health (including pharmacy), dental or vision benefits as required and for the duration of their employment. Employers shall certify employment and payroll status to the Comptroller and shall be charged back the full premium cost for inaccurate or incomplete certifications. The Budget Director shall implement such a chargeback upon notification of an inaccuracy by the Risk Management Director or Comptroller. All employers shall promptly utilize the payroll and timekeeping systems to identify duration and type of all Leaves of Absence including Personal Leave of Absence. County healthcare benefits are not available to (i) judges and associate judges of the Circuit Court, (ii) employees who work less than 30 hours per week for standard measurement periods, (iii) Chairman and members of the Cook County Sheriff's Merit Board, (iv) commissioners of the Chicago Board of Elections and (v) employees (excluding workers compensation claimants or those with other regulatory exemptions) on an authorized leave of absence in excess of 365 days; unless such individuals contribute the full cost of the healthcare premium associated with said County healthcare benefits.

Section 8. That the Budget Director is hereby authorized to utilize or transfer amounts between the Salaries and Wages of Regular Employees (501010), Planned Salary Adjustment (501166), Planned Overtime Compensation (501211), Planned Benefit Adjustment (501226), Per Diem Personnel (501296), and Salaries and Wages of Employees per Contract (501421) accounts where necessary to support salaries, increases and wages for employees carried on these accounts and consistent with pay plans, salary schedules or the classification authority authorized in Chapter 44, Article II, Section 44-44 of the Cook County Code. Transfers in the Corporate, Public Safety, and Health Enterprise Fund, out of the Personal Services account series (501000) to the Contractual Services (520000), Supplies and Materials (530000), Operations and Maintenance (540000), Rental and Leasing (550000), Capital Equipment and Improvements (560000), or Contingency and Special Purposes (580000) account series will be required to follow the provisions outlined in Section 9 of this Resolution.

Section 9. Agencies must request and receive advance approval from the Budget Director in order to make necessary transfers of \$50,000 or less in the Corporate, Public Safety and Health Enterprise Funds, within and between the Personal Services (501000) (other than from the Salaries and Wages of Regular Employees (501010) account), Contractual Services (520000), Supplies and Materials (530000), Operations and Maintenance (540000), Rental and Leasing (550000), or Contingency and Special Purposes (580000) accounts/account series. Upon request and justification from the Agency, the Budget Director is hereby authorized to review said transfer requests and approve said transfer requests in an amount equal to \$50,000 or less within and between accounts without Board approval. The Budget Director shall issue a report of such approved transfers to the Cook County Board of Commissioners and the Cook County Health System Board, where applicable, on a quarterly basis for the preceding quarter.

Except for transfers authorized in Section 8, agencies including Land Bank Authority and CCH must request and receive advance approval from the Board of Commissioners or in the case of Cook County Health, the Cook County Health System Board, in order to make necessary transfers that are (i) equal to or less than \$50,000 from the Salaries and Wages of Regular Employees (501010) account or (ii) greater than \$50,000 that are between the Personal Services (501000), Contractual Services (520000), Supplies and Materials (530000), Operations and Maintenance (540000), Rental and Leasing (550000), or Contingency and Special Purposes (580000) account. The Agencies of the County, including Land Bank Authority and CCH, are prohibited from incurring any liability against any account in excess of the amount herein authorized for such account without securing prior approval by the Budget Director for transfers under \$50,000, or the Budget Director, and the Board of Commissioners or the Cook County Health System Board, as applicable, for the pledging of appropriate unencumbered balances over \$50,000 for subsequent transfer as provided for by the Board of Commissioners or the Cook County Health System Board, as applicable.

Transfers made by Department 1018 from the Office Supplies (530605) account are restricted to the following accounts: Seminars for Professional Employees (501770), Transportation and Other Travel Expenses for Employees (501838), Communication Services (520150), Printing and Internal Reproduction (520508), Technical Services (521265) or Rental of Office and Data Processing Equipment (550010).

No transfers are allowed from the Workers' Compensation (501541), Group Life Insurance Program (501590), Group Health Insurance (501610), Group Dental Insurance Plan (501640), Unemployment Compensation (501660), Vision Care Insurance (501690), Group Pharmacy Insurance (501715) and Reserve for Claims (580010) accounts, except for the purposes of payment of employee benefit claims and related expenses.

Any newly Elected or appointed Official who assumes office on or after December 1, 2020, but before September 1, 2021 is hereby authorized to transfer funds within and between the Personal Services (501000), Contractual Services (520000), Supplies and Materials (530000), Operations and Maintenance (540000), Rental and Leasing (550000), or Contingency and Special Purposes (580000) accounts/account series under their respective departments or business units for 90 days after assuming office. Newly Elected or appointed Officials may also create and/or transfer positions among departments under their control during that 90-day period, subject to any necessary approval of any monitor appointed pursuant to the Shakman Consent Decree; provided however, that any funding of existing or newly created positions or transfer of funds within or

between the Personal Services (501000), Contractual Services (520000), Supplies and Materials (530000), Operations and Maintenance (540000), Rental and Leasing (550000), or Contingency and Special Purposes (580000) account/account series by a newly Elected or appointed Official may not increase the total appropriation of their Office as Approved and Adopted in the 2021 Cook County Appropriation Bill. Any newly Elected or appointed Official subject to this provision shall provide a report to the Budget Director and the Board of Commissioners summarizing any transfers made under this provision.

The Budget Director is hereby authorized to issue rules governing transfers and the limitations of authority placed on the Land Bank Authority and CCH in furtherance of Sections 8 and 9.

Section 10. Agencies of the County are prohibited from taking any employment action such as posting employment opportunities, offering employment or promotional opportunities, transferring personnel, changing funding sources, or implementing demotions without obtaining written approval and confirmation from the Budget Director that funds are available for said employment action.

Before any individual is extended an offer of employment and added to the payroll system or employees are recommended for a reclassification, the relevant Agency of the County must obtain the prior approval of the Budget Director to validate those funds as "available." Should employees be put onto the payroll system without these requisite prior approvals, while they will be paid for time worked, the Budget Director has the authority to withhold funding from an available account to pay for the unauthorized hire.

The Department of Budget and Management Service's validation of funds available for the purpose of position control shall include the combined Salaries and Wages of Regular Employees (501010), Planned Salary Adjustment (501166), Planned Overtime Compensation (501211), Planned Benefit Adjustment (501226), Per Diem Personnel (501296), and Salaries and Wages of Employees per Contract (501421) accounts. In those instances where the Department of Budget and Management Services has determined that an Agency or Department's annualized payrolls will exceed the turnover requirement for the next funding period, for purposes of position control, funds will be deemed to be unavailable.

Section 11. That persons funded from accounts designated as Extra Employees (501131), Salaries and Wages of Replacements for Employees on Authorized L.O.A. (501137), Salaries and Wages of Extra Employees (501140), Per Diem Personnel (501296) and Salaries and Wages of Employees per Contract (501421) must subscribe to account definitions and salary schedules, or classification authority as outlined in the Appendices or Chapter 44, Article II, Section 44-44 of the Cook County Code. Appointments to Salaries and Wages of Extra Employees (501140) positions are limited to new positions, programs or emergencies that were not anticipated during the budget process. New appointments to Salaries and Wages of Extra Employees (501140) positions must be authorized for Salaries and Wages of Regular Employees (501010) funding in the next fiscal year or the position will be deleted at year-end. The employment of persons as Extra Employees shall be in accordance with the rules established by the Bureau of Human Resources.

Section 12. The Budget Director will create internal service accounts for consolidating payments to a single vendor for goods and services rendered to the various agencies of county government into which the County Comptroller may from time to time make transfers from corresponding amounts budgeted to each agency. Payment of claims, premiums and other associated costs may be made directly from these internal service accounts. Each month, the County Comptroller shall make available to the County Board the Appropriation Trial Balance Report which shall include information related to said transfers.

That appropriations for Personal Services, Contingency and Special Purposes shall be assigned to the Self-Insurance Fund during the fiscal year based upon premium and premium equivalent calculations and projections, including reserves as recommended by the Director of Risk Management, and shall be utilized to pay claims and costs associated with those items.

Section 13. Workers' compensation costs including indemnity and medical, and related payments associated with each workers' compensation claim shall be charged to the department, agency or elected office's workers' compensation funds in instances where the previous three year's annual workers' compensation expenditures generally averaged more than \$50,000, calculated under policies jointly established by the Director of Risk Management and the Budget Director.

Section 14. That, in the event the Department of Facilities Management, Bureau of Technology or Comptroller's Office performs work on behalf of and at the behest of another County agency, the work performed on straight time using County employees shall not be charged to the beneficiary agency, but for all work performed on overtime, the overtime differential may be charged to the beneficiary agency's overtime account. Discretionary projects may be charged to beneficiary agency by approval of the space committee.

Section 15. That capital equipment purchases will follow an ongoing equipment replacement policy for each major category of equipment used by Agencies, as articulated in the County Performance Based Management and Budgeting Ordinance Article X Section 2-932, including but not limited to vehicles, telecommunications and technology equipment, office furniture, fixed plant and institutional equipment, and medical and lab equipment. During Fiscal Year 2021, all County Agencies shall submit an inventory of capital equipment to include specific inventories of software assets and technology hardware assets which shall identify such a replacement cycle. Capital Improvement projects shall be approved by the Board of Commissioners, with a replacement cycle where applicable, as identified in the Appropriation Bill. Total appropriations for approved capital equipment, capital improvements, and transportation and highway capital projects shall not exceed the amount as appropriated by the Board of Commissioners for said purposes during Fiscal Year 2021, except as permitted pursuant to Section 26. Capital equipment, capital improvements, and transportation and highway capital equipment should be funded, if possible, through a mix of funding sources including operating funds, special revenue funds, grant dollars, and short- and long-term financing alternatives including sales tax bonds, general obligation bonds, revolving lines or credit, or other debt instruments available to the County. In connection with any such short- and long-term financing alternatives, the Chief Financial Officer is authorized from time to time during Fiscal Year 2021 to declare in writing official intent that all or a portion of the proceeds from such financing alternatives be used to reimburse the County, which writing shall be filed and received with the Finance Committee.

That appropriation authority to procure capital equipment by Special Revenue Funds using short-term financing arrangements shall require repayment by the Special Revenue Fund over the period approved by the Chief Financial Officer. These repayments will be deposited annually to reimburse the funding source that was initially used to finance the project.

Section 16. That appropriations for Capital Improvements and Capital Equipment are made by projects and classified by a project type. The Budget Director is authorized to allocate available appropriations to projects within a project type. Additionally, the Budget Director is authorized to allocate available appropriations between Capitalizable and Non-Capitalizable projects within the Motor Fuel Tax fund. Upon completion or deprioritization of a Capital Improvement project, the Chief of the Bureau of Asset Management shall submit a formal request to the Budget Director to close or deprioritize the project and may request a reallocation of excess appropriations to other approved Capital Improvement projects. With regards to Capital Equipment, the respective requesting agency shall submit a formal request to the Budget Director to close or deprioritize the project. In the event, excess appropriations remain, the Budget Director may reallocate the associated appropriations to other approved Capital Equipment projects within said fiscal year.

In the event of the Capital Equipment Appropriation reserves being exhausted, and Capital Equipment projects are not available to be deprioritized, the Budget Director is authorized to process a transfer from the Capital Improvement Appropriation with the approval of the Chief Financial Officer and Director of Capital Planning provided Internal Revenue Service Useful Life conditions are met.

The Budget Director and the Director of Capital Policy & Planning shall jointly submit on a quarterly basis to the County Board a Capital Improvements and Equipment Funding and Project Report, which consists of three sections. The first section of the report will identify all Capital Improvement and Capital Equipment expenditures, encumbrances and unencumbered balances by funding sources and shall show the bond funding by source and gross funds available through the end of the fiscal year. The second section of the report shall show all Capital Improvements by bond series and project number; and for each project, the funding allocated towards each project, the total amount of expenditures paid, the balance of encumbered funds, the amount of unencumbered funds, any transfers of funding allocated between projects, any adjustments made by the Budget Director upon the completion of a Capital Improvement project pursuant to this section, and the status of each project. The third section of the report shall show all Capital Equipment by bureau/department by bond series and project number; and for each project, the funding allocated towards each project, the total amount of expenditures paid, the balance of encumbered funds, the amount of unencumbered funds, any transfers of funding allocated between projects, and any adjustments made by the Budget Director upon the final purchase of Capital Equipment pursuant to this section.

Section 17. For the purpose of enabling the County to have in its treasury at all times sufficient money to meet demands thereon for ordinary and necessary expenditures and to provide adequate support for the County's bond ratings and protection against unanticipated revenue shortfalls, the total of the County's Working Cash Funds shall be maintained in the estimated amount of \$209,969,390 projected as of November 30, 2020 (unless the Cook County Board of Commissioners elects to change this said amount as necessary), notwithstanding any provisions of the Illinois Compiled Statutes. The Working Cash Funds shall be reimbursed from time to time

by authority of the Chief Financial Officer. The amount due to the Working Cash Funds after December 1, 2020 shall be repaid in its entirety by no later than November 30, 2021.

The Chief Financial Officer may direct the Comptroller to make a permanent transfer not to exceed \$25 million after County Board approval by roll call vote, from the Working Cash Fund to defer future borrowing requirements for the Self-Insurance Fund and Capital Equipment. The Comptroller shall transfer all interest earnings from the Working Cash Fund to the County General Fund. Such transfers shall not be subject to the Annual Working Cash Repayment Resolution.

Section 18. The Chief Financial Officer, in accord with relevant authorizing ordinance or ordinances, and the associated forms of agreement as approved by the Board of Commissioners, may pay or pre-pay, from any unrestricted source, monies owed by the County as a result of a note or bond associated with a line of credit agreement, a revolver, or other debt instrument under which the County is a borrower, under such terms as are set forth in the governing documents and associated agreements.

Section 19. That the Comptroller and the Treasurer be and are hereby authorized and directed to close the accounts of the County pursuant to the Annual Appropriation Bill for the Fiscal Year 2020 and that such unexpended balances of the Annual Appropriation Bill for the Fiscal Year 2020 be placed to the credit of each specific fund.

Section 20. That there may be unencumbered balances in the various accounts in the different funds of the County that will be adequate to pay for services already rendered because of unforeseen deficiencies at the time the Annual Appropriation Bill for the Fiscal Year 2020 was passed and last adjusted. The Comptroller, Budget Director, and the Treasurer be, and are hereby authorized, to use these unexpended balances by way of transfers so that the deficiency may be liquidated, as part of closing out the year. For each fiscal year, the formatting arrangement of appropriations by object level in the relevant Appropriation Bill does not per se limit spending at the object level provided that total county expenditures do not exceed the total sum appropriated for the relevant fiscal year (including such sums as are appropriated on a continuing basis for the Health and Hospitals System) and, when required by this Resolution or other applicable law, expenditures greater than an object level are accomplished through permissible transfers made by the Board of Commissioners, or the Budget Director as authorized by the Board of Commissioners, pursuant to Section 9.

Per the Encumbrance Policy promulgated by the Chief Financial Officer, all operating expenses will be applied to the fiscal year in which the goods or services are received. Any outstanding operating encumbrances will therefore be released to the appropriate fund at the close of the fiscal year. Grant, and Capital Improvement programs have fiscal calendars that span more than one fiscal year. Therefore, Grant and Capital Improvement programs may have their encumbrances carried forward into the following fiscal year as appropriated, in accordance with the provisions of the encumbrance policy.

Section 21. When all accounts and books for Fiscal Year 2020 are closed and final amounts determined, the Comptroller shall report back to the County Board with the revised revenues, fund balances and balance sheets in the Comprehensive Annual Financial Report (CAFR). All appropriated amounts for Fiscal Year 2020 shall be reported as adopted by the County Board in the Annual Appropriation Bill for Fiscal Year 2020 and as subsequently adjusted by transfers of funds. Said information will be made available to the County Board and to the

public via the Final Appropriation Trial Balance for 2020. The Final Appropriation Trial Balance for 2020 will be posted alongside the 2021 line item budget in a single document on the County's website by April 30, 2021, and shall be made concurrently available on the County's Open Data website in a format compatible with the County's Open Government Ordinance.

Section 22. That the Annual Appropriation Bill for Fiscal Year 2021 shall be made available on the Cook County website at www.cookcountyil.gov/Budget.

Section 23. As submitted in the 2021 Revenue Estimate, that the amounts equal to three percent of the estimated property tax levy allocated to the Public Safety Fund, Corporate Fund, Health Enterprise Fund and Election Fund are hereby appropriated for Fiscal Year 2021 for the Funds indicated for purposes of covering the loss and cost of collecting taxes levied for said Funds, and also the amounts of taxes so levied for the nonpayment of which real estate shall be forfeited to the State and abatements in the amounts of such taxes as extended upon the collectors' books; and to ensure the County meets its obligations for indebtedness as represented by the Bond and Interest Fund, and that the actual collections of property taxes received by the Annuity and Benefit Fund are commensurate with the amounts so levied, the County Clerk is authorized to extend loss and collections for these funds in a manner that is sufficient for these purposes.

Section 24. That the Chief Financial Officer shall cause the disbursement to the County Officers' and Employees' Annuity and Benefit Fund, from the Annuity and Benefit Fund 1590, sub-account 501226, Additional Board Appropriated Pension, in the sum of \$342,000,000, provided that the County Board of Commissioners and the County Officers' and Employees' Annuity and Benefit Fund agree to the disbursement and receipt of such funds by way of an intergovernmental agreement; and further provided that until such time as the parties enter into said intergovernmental agreement, the Chief Financial Officer shall work with the Cook County Treasurer to invest the funds in sub-account 501226, in such manner as is permitted by law or intergovernmental agreement, the corpus and proceeds of which shall be fully reserved for the purpose stated in this Section 24.

Further, the Chief Financial Officer may from time to time transfer into a Pension Stabilization Account within the Pensions and Annuity Fund otherwise permissible funds, provided that each transfer of funds into the Pension Stabilization Account is, in the opinion of the Chief Financial Officer, feasible and prudent, taking into account the then-current and projected state of the County's revenues and authorized expenditures; provided further that such transfers do not, in the aggregate, exceed \$20,000,000; and provided further that the Chief Financial Officer shall notify the Board of Commissioners immediately upon such transfer. Funds so transferred into the Pension Stabilization Account shall be available for payment to the County Officers' and Employees' Annuity and Benefit Fund, provided the disbursement, receipt, and purposes of such funds are authorized through an intergovernmental agreement between the County Board of Commissioners and the County Officers' and Employees' Annuity and Benefit Fund.

Section 25. The following accounts have additional requirements imposed on expenditures therefrom:

FIXED CHARGES AND SPECIAL PURPOSE APPROPRIATIONS

(1490/1499-521313) - Special or Cooperative Programs. All grants of funds from this account administered by any department to entities outside of Cook County, must first be approved by the Office of the Chief Procurement Officer in accordance with the procurement code or shall be disbursed and administered pursuant to Chapter 2, Article VI, Division 4 of the Cook County Code or as otherwise authorized by the Cook County Board of Commissioners.

Section 26. All Grants or other financial awards, including grants and financial awards that may be awarded to the Land Bank Authority and CCH, and their intended purpose must first be approved by the Cook County Board of Commissioners, unless otherwise authorized pursuant to this Section or by the Cook County Board of Commissioners. In accordance with procedures prescribed by the Budget Director, and subject to the limitations of this section, the President of the County Board and the heads of the various County Agencies are authorized to apply for grants or other financial awards from governmental and private grantors. With respect to such grants or other financial awards, the President of the Board and the heads of various County Agencies are authorized to execute agreements and amendments to effectuate the purposes of such grants or other financial awards and appropriations and provide such additional information, assurances, and certifications as are necessary, in connection with any of the foregoing.

All grant applications and renewals as well as any financial awards regardless of amount must be submitted to the Department of Budget and Management Services no later than two business days prior to submission to the granting or awarding agency. With respect to grants that do not require an application process, and are automatically renewed by the grantor, the date in which the Board authorized the previous grant, and the amount granted at that time shall be included in the current request to renew to the Department of Budget and Management Services.

Grants identified in the Annual Appropriation Bill include estimated award amounts. No expenditures will be allowed against a grant until the actual grant has been awarded and confirmed with an agreement or other commitment notice from the Funding Agency, in such form as is approved by the Budget Director. Additionally, no amount shall be expended on any grant except to the degree approved by the Budget Director. To the extent that revenue of a grant or other financial award is not described in the Annual Appropriation Bill, or that an amendment increases the budget of a project beyond the appropriation described in the Annual Appropriation Bill, in each case, in an amount greater than \$150,000, no expenditure of such grant revenues or other financial award, including grants or awards applicable to the Land Bank Authority or CCH, shall be made without prior approval of the County Board or Health System Board, as applicable. Grants, grant amendments, grant renewals or other financial awards received in an amount of \$150,000 or less, or solely for time extensions, shall not require approval by the County Board or the Health System Board, as applicable, but shall be approved by the Budget Director.

Transfers of grant budgets or other financial awards are allowable subject to the terms of the specified agreements and advance approval from the Budget Director. Departments shall request capital appropriations during the annual budget process to expend grant funds on capital projects. Upon request from the Department, the Budget Director is authorized to allocate additional capital appropriation to projects when the grantor authorizes grant funds or other financial awards for use on such capital projects.

All grants are required to include indirect cost, unless otherwise disallowed by the granting agency or waived by the Budget Director during negotiations with the granting agency.

All grants or other financial awards submitted for inclusion on the County Board Agenda shall state the following: Budget and Management Services has received all requisite documents and determined the fiscal impact of such grant or financial award on Cook County, if any.

The Comptroller and the heads of the various departments and agencies of County Government shall administer the revenues of grants or other financial awards received by standard accounts, in accordance with the standard classification of accounts.

The Budget Director shall issue a report to the Board of Commissioners by the 15th day of the end of each quarter identifying (i) all awards received and (ii) any grants, grant amendments, grant renewals or financial awards approved by the Budget Director pursuant to the terms of this Section 26, during the preceding quarter.

The Budget Director shall promulgate rules to County Agencies regarding the contents of a grant application, and the review and approval process for grant or financial awards, as well as the limitations of authority placed on the Land Bank Authority and CCH and the documents that must be submitted for review by the Department of Budget and Management Services prior to seeking approval by the County Board or seeking the application, renewal or acceptance of a grant or financial award.

Section 27. Notwithstanding any other provision of this Resolution and Annual Appropriation Bill for Fiscal Year 2021, the maximum amounts available for appropriation to each budgetary unit or groups of budgetary units shall be set at 97% of the Final Adopted Appropriation for personnel and non-personnel accounts. The Budget Director has the sole discretion and is hereby authorized to release a portion of this holdback or allotment upon request and justification by the Agency. Should an Agency's request for a release of the holdback be denied by the Budget Director, the Agency may request a release directly from the Board of Commissioners. Should the Budget Director deny a request from the Cook County Health System or the Cook County Land Bank Authority for a holdback release, the Cook County Health System or the Cook County Land Bank Authority may request the release directly from the Board of Commissioners with notice to their applicable governing board.

For purposes of controlling expenditures, the expenditure of or incurring of obligations against any appropriation may be further delayed, restricted, or terminated with regard to any object or purpose for which appropriations were made in the appropriation bill or resolution. A monthly schedule for the year of proposed expenditure, including any limitations or conditions against appropriations for each bureau and/or agency shall be made within 30 days of the adoption of the annual appropriation bill, and such schedule, as amended by

the President of the County Board, shall be binding upon all Agencies, and such schedule of expenditure or of incurring obligations may not be exceeded, provided that any such schedule may be revised after three calendar months have elapsed since the last schedule. The monthly schedule and holdback provisions may differ across bureau/or agency based upon expenditures and revenues.

Section 28. Where Agencies identify new revenues for purposes of avoiding decreases in appropriations, such new revenues shall be allocated based on the Allocation of Revenue to Appropriations, by Fund and Program as shown in the Revenue Section. In like fashion, where such new revenues fall short of their Revenue Estimate, the Chief Financial Officer, the Comptroller, or the Budget Director shall report the shortfall to the Board of Commissioners for an amendatory reduction in appropriation authority previously granted to the budgetary unit(s), based on the Allocation of Revenue to Appropriations, by Fund and Program.

Annual revenue projections for all fees administered by Elected Officials shall be determined by the office of the Elected Official with appropriate jurisdictional authority over the fee(s). Each office, department, or agency with said authority shall be responsible for preparation of an annual plan to collect revenues at a sufficient level to meet projections. In the event that revenue generated from a fee does not meet the annual projection and a shortfall is projected, as determined by the Budget Director at the end of each quarter, and when it is further determined that the shortfall is a result of a failure to impose a fee as required by law, or a failure to properly administer and collect a fee as required by law, the Budget Director shall report the shortfall to the Board of Commissioners for an amendatory reduction in appropriation authority previously granted, based on the Allocation of Revenue to Appropriations, by Fund and Program.

Notwithstanding this Section, when any Elected Official (or head of a department, office, institution, or agency) files a written Notice of Non-Concurrence with the Chief Financial Officer, the Comptroller, and the Budget Director of the County, not more than ten (10) days after amendatory action by the County Board, when such action results in an upward revision of any previously stated revenue estimate wherein the budgetary unit(s) so stated has management authority over the revenue generating activities, appropriations shall not be reduced as provided above.

Section 29. The Comptroller shall make available to the Finance Committee of the County Board a monthly report of revenue and expenses for the General Fund (which includes the Corporate and Public Safety Funds), the Health Enterprise Fund and Special Purpose Funds. The Comptroller shall also issue a monthly Appropriation Trial Balance that includes appropriations, expenditures, and unencumbered balances for the current fiscal year to the Board of Commissioners, other County elected officials, bureau chiefs, and department heads.

Section 30. Any employee who is required and is authorized to use his or her personally owned automobile in the regular conduct of official County business shall be allowed and reimbursed under the Cook County Transportation Expense Reimbursement and Travel Regulations Policy. This policy will supersede any other travel policy, except those provisions that may be contained in contracts approved by the County Board of Commissioners between the County and recognized collective bargaining agents. The Cook County Transportation Expense Reimbursement and Travel Regulations Policy is subject to change and such changes shall be issued by the Chief Financial Officer and the Comptroller.

- Section 31.** The County's Financial and Anti-Fraud Policies set forth in Volume I of this Appropriation Bill are fully incorporated herein by reference and hereby fully adopted. Said Financial and Anti-Fraud Policies apply to all Agencies, Employees, Appointees and Elected/Appointed Officials and are supplemental to provisions mandated in the County's Code of Ordinances. To maintain the fiscal stability considered important by credit rating agencies and in accordance with Government Finance Officers Association recommended best practices, an unreserved fund balance shall be carried to provide adequate support for the County's bond ratings, to protect against unanticipated revenue shortfalls, and to guard against contingencies. Cook County will maintain a prudent level of financial resources, as established in said Financial Policies, to protect against reducing service levels or raising taxes and fees due to temporary revenue shortfalls or unpredicted one-time expenditures in the current and future fiscal years.
- Section 32.** Any excess Cook County Health and Hospitals System "CCH" or "Cook County Health" revenues received in Fiscal Year 2021, shall be designated to fund CCH, as approved by the County Budget Director. A continuing appropriation is established for all amounts necessary for the express purpose of allowing the Health System to comply with payment terms of its Managed Care agreements. Any such continuing appropriation, under such controls as imposed by the County Budget Director, shall be appropriated strictly and solely to the Managed Care Claims (521155) account to pay for costs associated with managed care members. Any such continuing appropriation for Managed Care Claims is contingent on Health Systems managed care expenditures not exceeding capitation revenue. Excess revenues shall not include a designated financial award; financial awards not anticipated in the annual appropriation may be appropriated in accordance with Section 26.
- Section 33.** Any additional revenues received in the State's Attorney's Narcotics Forfeiture, the Sheriff's Operations State Asset Forfeiture and Money Laundering State Asset Forfeiture special purpose funds in excess of the appropriation on a cash basis for Fiscal Year 2021 shall be designated to the aforementioned special purpose funds, respectively, under controls as imposed by the County Budget Director to pay for additional costs within these funds. This provision shall constitute a continuing appropriation of amounts necessary for such purposes subject to applicable procurement rules. A continuing appropriation is also established for all revenues received under the Cannabis Retailer Occupation Tax in Fiscal Year 2021, with any such revenues received in Fiscal Year 2021 being designated to the Public Safety Fund. Any such continuing appropriation for Cannabis Retailer Occupation Tax revenues shall be allocated under such controls as imposed by the County Budget Director and shall be appropriated strictly and solely to the Public Safety Fund. Any such continuing appropriation is contingent on Public Safety expenditures not exceeding revenue collection. Excess revenues shall not include a designated financial award; financial awards not anticipated in the annual appropriation may be appropriated in accordance with Section 26.
- Section 34.** Any excess Land Bank Authority revenues received in Fiscal Year 2021 shall be designated to fund the Land Bank. This provision shall constitute a continuing appropriation of amounts necessary for such purposes as may be authorized pursuant to Chapter 103, Article I, Section 103-1, et seq., of the Cook County Code.

The Land Bank may expend such sums as it draws against a Line of Credit that it is party to as approved by the Board of Commissioners, under such limits of repayment requirements as established by such Line of Credit. Excess revenues shall not include a designated financial award; financial awards not anticipated in the annual appropriation may be appropriated in accordance with Section 26.

Section 35. The County has established a Motor Fuel Tax Fund and the Illinois Highway Code authorizes any and all expenditures resulting from capital projects approved by the Illinois Department of Transportation to be paid from Motor Fuel Tax revenues, such projects having been funded by the County's Series 2012 Sales Tax Revenue Bonds. The County issued the Series 2012 Bonds as Sales Tax Revenue Bonds as was in the best interest of the County, and as would provide the County with a lower cost of borrowing than traditional Motor Fuel Tax Revenue Bonds. With the 2021 Appropriation Bill the County shall transfer \$6,254,525 from the Motor Fuel Tax Fund to the Public Safety Fund to specifically reimburse the Public Safety Fund for Sales Tax Revenues that will be deposited into the pledged debt service account for the Series 2012 Sales Tax Revenue Bonds during the course of Fiscal Year 2021. The Treasurer of the County is hereby directed to execute the transfer from the Motor Fuel Tax Fund upon written request by the Comptroller. The Comptroller shall provide notice to the Cook County Board of Commissioners of the executed transfer within thirty days of the transfer of dollars from the Motor Fuel Tax Fund to the Public Safety Fund.

Section 36. Using Agency or Department Name Revision – Office 4896 – Managed Care – of the Cook County Health System will have a name change to Health Plan Services.

Section 37. Employment Grievance and Labor Resolution by the Bureau of Human Resources – The Chief of the Bureau of Human Resources for Cook County shall be granted the authority to settle employment related grievances, arbitrations and mediations without Board approval at the same settlement authority level as the Cook County State's Attorney's Office has in litigation matters. A monthly report of such settlements approved by the Chief of the Bureau of Human Resources shall be directly provided to the Litigation Committee, a subcommittee of the Cook County Finance Committee.

Section 38. Claim Resolution by the Department of Risk Management - The Department of Risk Management shall be granted the authority to resolve and execute small liability claims and settlements and recoveries for an amount not to exceed \$25,000.00 for bodily injury and \$25,000 for property damage per occurrence, and the resolution of medical bills in accordance with the County Jail Act and Cook County Ordinance 10-O-48. A report of such approved claim resolutions shall be made available to the Finance Committee of the County Board on a monthly basis by the Director of Risk Management.

Section 39. Severability - If any section, paragraph or provision of this resolution shall be held to be invalid or unenforceable for any reason, the invalidity or unenforceability of such section, paragraph or provision shall not affect any of the remaining provisions of this resolution.

Section 40. Repealed - All ordinances, resolutions or orders, or parts thereof, in conflict with the provision of this resolution are to the extent of such conflict hereby repealed.

Section 41. Constitutional power of the County - The Resolution is adopted pursuant to the constitutional and home rule powers of the County notwithstanding any provisions of the Illinois Compiled Statutes to the contrary.

Section 42. The Budget Director and the Comptroller are authorized to correct any factual errors or appropriation adjustments from the Appropriation Adjustments (580380) account in the Annual Appropriation Bill and to implement the adopted Amendments with any required modifications.

Section 43. Effective Date - The County Board hereby finds that this Resolution shall be in full force and effect immediately upon its adoption by the Board and approval by the President of the County Board.

Approved and Adopted this 24th day of November 2020.

TONI PRECKWINKLE

President of the Cook County Board of Commissioners

Attest: **KAREN A. YARBROUGH**, County Clerk

POLICIES

Cook County government is dedicated to delivering the highest levels of public service, while minimizing the use of taxpayer resources. The County recognizes that the best method for achieving this goal is to incorporate strong, goal-oriented financial policies and practices into all of its operations. Through the use of strategic planning and a sound resource allocation process, the County strives for fiscal resiliency that will ensure its core functions and mission are met even in the face of economic adversity.

The Cook County financial policies contained in this section provide a framework for the efficient and fiscally responsible management of County operations. The financial policies have been developed to (1) conform to Government Finance Officers Association (GFOA) and the National Advisory Council on State and Local Budgeting (NACSLB) best practices; (2) comply with the Cook County code of ordinances and State of Illinois statutes; and (3) provide various County entities with sound direction in managing the County's operations in an efficient and fiscally responsible manner.

1. BUDGETING POLICIES

ADOPTION OF A TIMELY BALANCED BUDGET

Cook County is committed to producing a balanced budget in a timely fashion.

The Cook County Board of Commissioners, in accordance with the applicable County code ordinance, will adopt an annual appropriation, which will appropriate sums of money to defray all necessary expenses and liabilities of Cook County. The County is committed to adhering to a balanced budget under normal circumstances and will provide disclosure when deviations are expected in either the preliminary budget forecast and/or executive budget proposal before the start of the next fiscal year.

Illinois statute provides that the Board of Commissioners adopt the annual appropriation bill prior to or during the first quarter of each fiscal year. County ordinance requires a budget forecast to be published no later than June 30th in any given year, in order to identify both the expected year-end status of the current fiscal year and to provide an initial estimate for the ensuing fiscal year. An executive budget proposal shall be presented no later than October 31st and be designed with the County's long-term financial outlook in mind, minimizing the use of non-recurring measures in favor of a structurally balanced approach. The final budget and appropriations are approved and adopted by the Cook County Board of Commissioners, with a target of adopting a balanced budget prior to the start of the ensuing fiscal year. Adopting a structurally balanced budget before the start of the fiscal year allows for greater accountability and enhanced capacity to make mid-year corrections.

The annual budget document will also include:

- An overview of all available funding in a "Revenue Section".
- Identification of the key variables that affect the level of revenue.
- Assessments of the level at which capital investment can be made in a "Capital Budget".
- Identification of future commitments and resource demands in a long-term forecast.

MULTI-YEAR FORECASTING OF REVENUES AND EXPENDITURES

The County recognizes the importance of forecasting revenues, other resources and expenditures in order to understand the level of funding available for services and investment in capital improvement and equipment. The County will employ a conservative, but realistic forecasting approach allowing it to forecast revenues and expenditures as accurately as possible, rather than dealing in worst- or best-case scenarios. Assumptions for expenditures forecasts are consistent with parallel revenue and program performance assumptions. Forecasting methodology will include the following criteria:

- Analysis of historical, demographic, micro-economic, macro-economic and regulatory trends.
- Understanding of the impact of strategic operational initiatives on future revenue and expenditures.
- Linear regression analysis for revenues to predict possible trends.

FINANCIAL POLICY REVIEW AND ADOPTION

Cook County will review the financial policies contained herein and any potential new policies annually during the budget process to ensure continued relevance and to identify any gap areas that should be addressed by new policies.

2. REVENUES

REVENUE DIVERSIFICATION

Prudent planning requires understanding the revenue streams that finance County operations. County revenue policies aim to achieve financial resiliency and thus minimize or eliminate service disruptions caused by revenue shortfalls through (1) limiting the exposure to one-time revenues; (2) conservatively estimating unpredictable revenues that fund ongoing expenditures; and (3) by diversifying its revenue base to avoid a single point of failure or overreliance on a single revenue solution.

The County requires a diversity of revenue sources in order to improve its ability to handle fluctuations in individual revenue sources associated with economic conditions. The County will review its projected revenue stream annually in conjunction with the executive budget proposal in order to (1) improve its revenue diversity to the extent feasible, and (2) ensure that taxes levied do not pose an undue burden on County residents or businesses or result in adverse economic effects when measured against the associated public services provided.

ONE-TIME AND UNPREDICTABLE REVENUES

The County defines one-time revenues as those that cannot be relied on in future budget periods. In order to decrease the County's dependence on these types of revenues, as well as mitigate the risk of not having these revenues in the future, the County shall use one-time revenues sparingly for recurring expenses. Prior to using one-time revenue for recurring expenses, the County must ensure that the source is structurally sound and that other revenue sources have been ruled out or exhausted. The source of one-time revenues must be thoroughly vetted, and a determination must be made whether the revenue will be used for either general fund or capital expenditures. The County will identify the one-time non-recurring revenues and aggregate them within the Executive Budget Recommendation.

When dealing with unpredictable revenues, revenue estimates must be made in a conservative manner, and accompanied by a commitment to reduce expenditures mid-year if the updated revenue estimates within the mid-year budget forecast show revenues not meeting projections.

FEES

Cook County imposes certain user fees to fund the provision of goods and services. A fee is imposed as a result of the public need to regulate activities, typically related to health, safety, or other protective purposes. Fees result in the purchase of a privilege or authorization and are applied to such activities as building permits and certain property tax-related services.

Per County code, Cook County maintains a comprehensive list of County fees. Some fees may be set at levels sufficient to cover the entire cost of service delivery or the service may be subsidized, as the County deems appropriate. The County will systematically review user fees and rates and consider adjustments as necessary to take into account the effects of additional service costs and inflation and to ensure that the rates will continue to support direct and indirect costs of operations, administration, plant maintenance, debt service, depreciation of capital assets, and moderate system extensions. The fee setting process will include (1) a calculation of the full cost of providing a service to provide the basis for setting the fee; and (2) a periodic review of the fees to ensure they are set at competitive rates.

3. GRANTS

Cook County Grants Management Policies are developed and enforced to (1) strengthen the oversight and requirements for internal controls; (2) ensure accountability of County agencies managing grant funds; and (3) ensure compliance with applicable federal, state, and County laws and regulations.

Each County agency applies and implements grant programs based on agreed upon compensation, performance, regulations, and guidelines outlined by each granting agency through a written and executed grant agreement. The County will only seek out grants that are consistent with its public mission and stated priorities and when the cost of administering the grant is at least fully offset by the funds received.

All County agencies shall adhere to procedures outlined in the County's Grants Manual for general administration of the grant, including accounting, budgeting, revenue recognition, eligible expenditure and reporting.

4. ASSET MANAGEMENT, CAPITAL IMPROVEMENT PLANNING AND BUDGETING OF CAPITAL

The following policies establish the framework for the County's overall capital asset planning and management. They provide guidance for current practices and a framework for evaluation of proposals for future projects. These policies also seek to improve Cook County's financial stability by providing a consistent approach to long-term fiscal strategy.

CAPITAL BUDGET

- The appropriation of the capital budget is part of the annual budget process. The capital budget will be directly linked to, and flow from, the multi-year Capital Improvement Program, the Transportation and Highway Program, and the annual Capital Equipment Program. Modifications, however, may be necessary based on changes in the project scope, funding requirements, or other issues.

CAPITAL IMPROVEMENT PLAN

The County's Capital Improvement Program (CIP) sets forth the plan for the design, construction and renovation of buildings and building systems, making them safe, functional, efficient, and cost-effective to deliver Cook County services to the public.

The CIP will be based on the capital renewal and deferred maintenance priorities of the County and will contain an analysis of the following:

- A 10-year plan for future investments
- The impact on future debt service costs
- The impact on the operating budget

CAPITAL FUNDING

Capital funding will be made using the following criteria:

- Use of debt to finance components of the capital budget will be used only when other financing sources have been evaluated and deemed unavailable.
- To the extent possible, improvement projects and major equipment purchases will be funded on a pay as-you go basis from existing or foreseeable revenue sources.
- All equipment with a useful life of less than 5 years will be funded through pay-as-you-go means.
- The County will prioritize equipment/projects costing less than \$150,000 and equipment/projects with lower useful life to be funded through pay-as-you-go means.
- The County will seek to decrease the planned budgeted expenditure on debt supported capital equipment every year with the goal of eventually funding capital equipment through pay-as-you means entirely, with the exception of large non-recurring multi-year initiatives to acquire entirely new depreciable technology.
- The County will limit and clearly identify any County personnel that are associated with a capital project to be funded from debt proceeds and will avoid the funding of recurring personnel costs from debt proceeds.

DEBT ISSUANCE

Because interest costs impact our taxpayers and long-term financial flexibility, debt financing should be utilized only for the creation or full replacement of capital assets. Debt (including capital leases) may only be used to finance capital, including land acquisition, not ongoing operations. Projects that are financed through debt must have a useful service life at least equal to the debt repayment period.

FIXED ASSET INVENTORY

The County shall have a policy to inventory and assess all major capital assets annually. Accurate inventories of all physical assets, their condition, life spans, and cost will be maintained to ensure proper stewardship of public property.

ACHIEVEMENT OF MAXIMUM USEFUL LIFE

Cook County shall operate and maintain its physical assets in a manner that protects the public investment and ensures achievement of the assets' maximum useful lives. Establishing clear policies and procedures for monitoring, maintaining, repairing and replacing County equipment and essential components are central to good management practices. The County will develop written policies and procedures that address:

- Determination of ideal inventory totals per asset category.
- Multi-year planning for renewal and replacement cycles using steady state analysis.
- Determination of the best available funding stream for asset classes.
- Annual maintenance plans that avoid unnecessary deferred maintenance costs.

NEW FACILITIES

New County facilities will be planned within the overall business and service objectives of Cook County. To ensure that the public gains the maximum utility from the new facility or capital asset, the County will identify the full cost of building

and operating the facility throughout its useful life. Resources generated from its operation or other sources will be identified to meet these needs. Acquisition or construction of new facilities shall be done in accordance with County adopted facility and/or master plans. Prior to approving the acquisition or construction of a new asset, an estimate of the full cost to operate and maintain the facility through its useful life and the plan for meeting these costs will be established.

5. DEBT MANAGEMENT

- The County will prudently manage the issuance of debt to ensure that debt does not unduly burden County taxpayers or pose a risk to the County's credit ratings and overall credit worthiness.

Accordingly, the following self-imposed limitations will be observed:

- Direct debt will not exceed 1.25% of the estimated market value of County property or 4% of Equalized Assessed Valuation (EAV).
- Direct debt measured per capita will not exceed \$1,000.
- Annual debt service costs associated with long-term debt obligations, as measured by the Debt Service Fund, should not be reasonably projected to exceed 15% of all funds' operating expenditures of the County in any given year.
- Any capital project or equipment funded through the issuance of bonds will be financed for a weighted average period not to exceed the life of the project or equipment.
- Annual debt service growth (including any issuance of new money) is aligned with the Federal Reserve's long-term aim for inflation at 2%.
- Variable rate debt will not exceed 20% of the total debt portfolio without a commitment to an analysis of variable rate assets and liabilities reflected on the County's balance sheet.
- Variable rate debt will not exceed 25% of total debt at any time.

The County may use various types of short-term borrowing as a cash management tool to provide interim financing for temporary cash flow deficits within a 12-month period and may not exceed in aggregate the amount of one month of general fund operating expenditures. Such types include, but are not limited to, short-term debt obligations (like commercial paper, tax anticipation notes, taxable short-term bonds, working cash notes, bond anticipation notes, lines of credit as well as any other appropriate instruments). In addition, the following processes will be observed:

- Communication will be maintained with bond and credit rating institutions, as well as capital market participants, lending institutions and financial advisors, regarding current and future financial conditions.
- Timely and comprehensive market disclosures will be provided, to include third-party credit agreements, budgets and Comprehensive Annual Financial Reports (CAFR).
- Post filings promptly within 15 days of execution.
- In accordance with changes made in 2009 to Rule 15c2-12, those filings must be made electronically at the Electronic Municipal Market Access (EMMA) portal (www.emma.msrb.org).

- Maintain an up to date Investor Relations Page.
- Provide full and comprehensive disclosure of annual financial, operating and other significant information in a timely manner.
- The County's credit agreements will not contain immediate acceleration provisions and acceleration will only be allowed upon the completion of a tax levy, extension and collection cycle.
- Use of Swaps/interest rate derivatives may only be used to achieve a specific objective consistent with the County's overall Debt Policy and as a measure to reduce or hedge interest rate risks the County is otherwise exposed to, furthermore:
 - The County will not use interest rate swaps that are speculative in nature or increase the overall risk profile of the County.
 - The County will not execute such agreements with counterparties that are rated lower than A2/A/A from Moody's Investors Service/Fitch Ratings/Standard & Poor's and will require collateral from any counterparties that are downgraded below such a threshold.

6. OPERATING/CAPITAL EXPENDITURE ACCOUNTABILITY

At a minimum, on a quarterly basis, operating expenditures will be reviewed via the budget forecast to ensure that they follow the plan set forth by the current year's Adopted Appropriation. If the budget forecast finds that operating expenditures will exceed the Adopted Appropriation, corrective actions, such as expenditure reductions, shall be implemented.

An annual review of capital expenditures shall be completed. This shall include a review of capital expenditures and encumbrances in relation to both the current budget and over the entire life of the respective project. This will be completed in order to ensure that capital funding is being spent according to the original plan approved when funds were obtained. If funds are not being spent according to plan, corrective action shall be taken. Corrective actions can include, but are not limited to, expenditure reductions, reallocation of capital funds and the sweeping of associated funds.

In FY2021, appropriations and authorized expenditures for County issued parking contracts; County owned or operated parking garages; the purchase, lease, rental, repair, and maintenance of motor vehicles utilized for County purposes or operations; authorized travel; ambulance services; Geographic Information Systems operations and costs; County costs associated with vehicular accidents (such as medical treatment, law enforcement, risk management, and the like); and various court costs as determined by the Director of Budget and Management Services are for transportation purposes authorized by the 2021 Appropriation Bill. The foregoing itemized list is not exhaustive, and the Director of Budget and Management Services is further authorized to deem additional appropriations and expenditures as for transportation purposes.

ENCUMBRANCES

An encumbrance is an accounting transaction where funds from a specific budgetary account are claimed for a specific purpose. Encumbrances allow the County to properly fund services that have been rendered and invoiced, but not yet paid. A fiscally sound encumbrance policy allows the County to liquidate encumbrance balances that are no longer required, while ensuring that our financial obligations are fully funded.

Accordingly, all operating fund encumbrances are available for the fiscal year following the date they are issued. One year later, all associated purchase orders that have not been expended are cancelled, unless the Department of Budget and Management grants an extension per the using department's request. While capital improvement and capital equipment encumbrances tend to have a longer encumbrance period, they are still evaluated using the same methodology for operating fund encumbrances.

7. LONG-TERM FINANCIAL PLANNING STRATEGY

The County recognizes that long-term financial planning is a key process to the County's goal of being fiscally responsible. Within the Annual Appropriation, the County shall forecast general fund revenues and expenditures five years into the future. This forecast will help the County plan where to allocate resources in future budgets. This forecast shall be updated annually with each budget and published in the Revenue Estimates section of Volume I of the Annual Appropriation. The revenue forecast will be informed by recommendations provided by the Independent Revenue Forecasting Commission. The deliberations of the Independent Revenue Forecasting Commission and their annual recommendation will be published on the County's website.

The County's long-range financial planning will help recognize the effects of economic cycles on the demand for services and the County's resources. Cook County financial planning will help ensure the delivery of needed services (many of which become more critical during economic downturns) by assuring adequate reliance on ongoing resources in order to support continued County services during economic downturns. The County is a major force in a complex regional economic system; hence, it must understand and anticipate changes in both regional and national economic trends in order to engage in strategic financial and management planning. Therefore, to the extent possible the long-term growth rate of the County's expenditures will be targeted to match the long-term growth rate of the County's revenue sources.

8. INVESTMENT MANAGEMENT

Cook County recognizes the need for a prudent, professional, and practical approach to the investment of its funds. The County shall maintain liquid cash balances that reflect its cash flow needs. It is the policy of the County to manage public funds in a manner that will meet cash flow needs, ensure security of principal, and provide the highest investment return while voluntarily complying with the Illinois Public Funds Investment Act (30 ILCS 235), although the County as a home rule unit of government is not bound by the Act. A separate investment policy is maintained by the Cook County Treasurer's Office.

Cook County acknowledges three inherent risks associated with investing public funds: (1) credit risk, the risk of investing in instruments that may default; (2) market risk (liquidity), the risk of selling an investment prior to maturity at less than book value; and (3) opportunity risk (yield/return), the risk of investing long term and having rates rise or investing short term and having rates fall, or foregoing investment income on a risk-adjusted basis based on inefficient investment selection.

The County will at all times consider actions to mitigate these risks. These include voluntarily abiding by the set of permitted investments authorized in the Illinois Public Funds Investment Act to reduce credit risk, maintaining good cash

flow estimates to reduce market risk, and integrating knowledge of prevailing and expected future market conditions with cash flow requirements to reduce opportunity risk. As with investment decisions made with other public funds, the balance is weighted heavily towards avoiding risk; accordingly, safety first, liquidity second, and yield third.

9. FUND DIVERSITY AND STABILIZATION/FINANCIAL RESERVE POLICY

PURPOSE

In its effort to achieve financial resiliency, Cook County has established a diversity of funds. Some of these different funds are used to account for non-current liabilities, like workers' compensation and legal settlements, while others are self-supporting internal funds that contribute to efficient overhead services. The diversity of funds helps reduce the burden on the General Fund and keeps it from becoming a single source of fiscal stress.

Cook County will maintain a prudent level of financial resources to protect against reducing service levels or raising taxes and fees due to temporary cyclical revenue shortfalls or unpredicted one-time expenditures. The County recognizes that financial reserve funds provide the flexibility to respond to unexpected circumstances that may help the County achieve long-term fiscal objectives.

DEFINITIONS

GASB Statement 54 distinguishes fund balances based on the relative strength of the constraints that control the purposes for which specified amounts can be spent. Beginning with the most restrictive constraints, fund balance amounts will be reported in the following categories, though not all Governmental funds will have these fund balances:

- Non-spendable fund balance – amounts that are not in a spendable form (e.g., inventory) or are legally or contractually required to be maintained intact (e.g., permanent fund principal).
- Restricted fund balance – amounts that can be spent only for the specific purposes stipulated by external parties either constitutionally or through enabling legislation (e.g., grants or donations).
- Committed fund balance – amounts that can be used only for the specific purposes determined by a formal action of the Cook County Board of Commissioners (the "Board"). Commitments may be changed or lifted only by referring to the formal action that imposed the constraint originally (e.g. the Board's commitment in connection with future construction projects).
- Assigned fund balance – amounts intended to be used by the government for specific purposes. Intent can be expressed by the Board or by a designee to whom the governing body delegates the authority. In non-major governmental funds, the assigned fund balance represents the amount that is not restricted or committed. In major governmental funds (like the General Fund) the assigned fund balance represents amounts that are intended to be used by the government for a specific purpose.
- Unassigned fund balance – includes all amounts not contained in other classifications and is the residual classification of the General Fund only. Unassigned amounts are available for any legal purpose. The unassigned category is also used to fund any deficit balance amounts.

POLICY

Cook County's financial reserve policy is to maintain an unassigned fund balance for the General Fund ("unassigned fund balance") of no less than two months (16.67%) or "floor", and a "ceiling" of three-months-worth (25.0%), of the General Fund's total expenditures, plus total other financing uses (e.g. transfers out) from the most recent audit. This calculation will be based on the values reported in the Statement of Revenues, Expenditures and Changes in Fund Balance of Governmental Funds in the most recently published Comprehensive Annual Financial Report ("CAFR").

MINIMUM UNASSIGNED FUND BALANCE

Should the unassigned fund balance fall below the two-month "floor", the County will develop an action plan to replenish it in coordination with the annual adopted budget. The action plan will include the unassigned fund balance from the most recent audit, an estimate of the current year's ending unassigned fund balance and a projection of the following three-year's-ending unassigned fund balance (as needed) derived from the County's annual long term financial plan. It will also address potential remedial actions that may need to be approved by the Board to achieve the two-month threshold over the next one-to-three years, as necessary, to return the balance to the two-month floor.

MAXIMUM UNASSIGNED FUND BALANCE

If the unassigned fund balance should exceed the three-month "ceiling", the County can use these funds to pay for non-recurring expenses, an outstanding liability (i.e. Pension or Other Post-Employment Benefits (OPEB) or bonded debt) or transfer it to a committed or assigned fund balance in the following fiscal year, subject to the level of approval necessary in the definitions above. Appropriation of any excess unassigned fund balance for any of these uses will be approved in the annual adopted budget and should only be considered if doing so will mean that the projected unassigned fund balance at year-end will not fall below the two-month floor in the upcoming fiscal year.

ASSIGNED FUND BALANCE

The County will maintain an assigned fund balance for the following purpose(s):

Pension Stabilization Fund: The value retained in the General Fund's fund balance for Pension Stabilization will be determined by the CFO, and will be used to offset unanticipated increases in the pension contributions to the Annuity and Benefit Fund, subject to the adoption of the Resolution and the Annual Appropriation Bill.

10. SELF-INSURANCE FUND

Cook County shall maintain a Self-Insurance Fund for employee health benefits, life insurance, unemployment compensation, workers compensation and liability related claims and expenses arising from operations. The purpose of the Self-Insurance Fund is to centralize and mitigate risk to the County and provide certainty to the operating units, while properly allocating indirect costs to operational units. The County will establish a premium or premium equivalent to represent the actuarial estimate of specific health plans based on which funds will be appropriated to each department within the General, Health Enterprise, Special Purpose, and Grant Funds annually. On a monthly basis, the premium or premium equivalent will be charged to each department and credited to the Self-Insurance Fund. The premium equivalent calculation shall be revised as necessary, but at least annually. The County will also establish an actuarial estimate of projected workers compensation and liability claim payments which will be appropriated to the General and Health

Enterprise Funds annually. On a monthly basis, the cost of workers compensation and liability claims will be credited to the Self-Insurance Fund.

Cook County recognizes that it is prudent to maintain a sufficient level of financial resources to protect against reducing service levels or raising taxes or fees due to large, unexpected or catastrophic events. The County shall strive to maintain a fund balance in the Self-Insurance Fund of not less than one and one-half times the three year average of claims and payments to provide financial support to cover unforeseen or catastrophic events and emergencies not covered by any stop-loss insurance procured by the County. However, the intent of the Self-Insurance Fund is not to accumulate a fund balance that is greater than what is required to offset the volatility inherent in such claims. At the end of the fiscal year, if the fund balance is greater than three times the three-year average of claims and payments, only then may funds be transferred to the General Fund for operating purposes at the request of the Chief Financial Officer (CFO).

11. ACCOUNTING, AUDITING & FINANCIAL REPORTING

Regular monitoring of budgetary performance provides an early warning of potential problems and gives decision makers time to consider actions that may be needed if major deviations in budget-to-actual results become evident. It is also an essential input in demonstrating accountability.

An open government is essential for citizen-driven governance. The importance of this aspect in financial reporting cannot be overstated. Regular and frequent reporting is necessary to provide accountability, educate and inform stakeholders, and improve their confidence in County government. The financial reporting process should include the following criteria:

- The documentation of accounting policies and procedures will be evaluated annually and updated periodically, no less than once every three years, according to a predetermined schedule.
- Maintain an accounting system adequate to provide all of the data needed to allow for the timely preparation of financial statements for the entire financial reporting entity in conformity with GAAP and GASB standards.
- Issue timely audited financial statements, no greater than 180 days after the completion of the fiscal year, in conformity with GAAP and GASB standards as part of a CAFR.
- On or before June 30th of each year, the Department of Budget and Management Services shall issue an assessment of the fiscal condition of the County prior to the next year's budget cycle in the form of a budget forecast.
- On or before September 1st of each year, the Cook County Board President shall conduct a public hearing on the budget forecast to hear from the public on budget priorities. This input will be taken into account as the executive budget is prepared.
- The Executive Budget Recommendation shall be presented to the Cook County Board of Commissioners by October 31st of each year.

12. PERFORMANCE MANAGEMENT

The use of performance measures and standards in the planning and resource allocation processes, as well as the public reporting of performance information, will result in a more efficient and effective utilization of County resources. Performance management will also yield improved results for the public and will ensure that the County as a whole is addressing its core functions and mission.

Cook County believes performance management can assess accomplishments and identify areas for improvement on an organization-wide basis. Performance management is used in both long-term and short-term strategic planning and decision-making processes that in turn drive financial performance. The goals and initiatives derived from performance management are used to appropriately determine the allocation of limited county resources.

Performance management utilizes a statement of program mission that identifies the goals and objectives of functional areas within the County. The goals and objectives are prioritized in order to allocate resources over a specific period of time. The outcomes from the objectives must be verifiable, understandable and timely.

These benchmarks are evaluated for program efficiency and effectiveness, which are constantly assessed for improvement. A transparent outcome evaluation is produced which allows for managerial decision-making.

13. EQUITY IN FINANCIAL DECISION-MAKING

Cook County recognizes the disparate impact of many of our revenue sources. Many of the County's revenue streams are regressive by nature. Flat taxes, such as the sales tax, place a higher burden on low-income communities and communities of color, in that these communities often have access to less financial resources, and must pay a higher proportion of their disposable income in order to pay the same amount in taxes as wealthier communities. As a part of our responsibility to promote Open Communities and ensure the best and most equitable use of taxpayer dollars, we commit to limiting our reliance on additional regressive revenue sources.

By endeavoring to forecast our revenues as accurately as possible, we can ensure that we do not raise the existing financial burden on these communities beyond what is required for the functioning of the County government. In the long run, this could allow us to begin correcting historical and current disinvestment in low-income communities and communities of color.

We commit to considering and tracking the specific burdens and historical contexts of the communities we are taxing. By holding true to these principles, we can lower the burdens placed disproportionately on low-income communities and communities of color, while simultaneously ensuring that resources are allocated more equitably to these communities going forward.

COOK COUNTY ANTI-FRAUD POLICY

PURPOSE

Cook County Government is committed to maintaining an environment containing high standards of honesty and ethical behavior by its Officials, Agencies, Board or Commissioner Appointees and Employees. The purpose of this Cook County Government Anti-Fraud Policy ("Policy") is to:

- Prohibit dishonest acts and/or fraudulent activity;
- Advise Officials, Agencies, Appointees and Employees of their responsibility to report suspected fraudulent activity;
- Guide appropriate behavior;
- Assign responsibility for the development of adequate management controls;
- Identify responsibility for performance of investigations relating to allegations of fraud; and
- Inform all Officials, Appointees and Employees regarding their obligations not to engage in fraud, and to assist in deterring fraud, as part of their fiduciary duties to the County.

SCOPE OF POLICY

This policy applies to any fraud, or suspected fraud, involving Officials, Agencies, Appointees or Employees. This Policy supplements, but does not supersede, any fraud-related provisions of the Cook County Independent Inspector General Ordinance, Cook County Ethics Ordinance, Cook County Auditor Ordinance, and the Cook County Procurement Code.

DEFINITIONS

AGENCY OR AGENCIES OF THE COUNTY means offices and departments under the jurisdiction of the Cook County Board President, the Cook County Board of Commissioners, Cook County Health and Hospitals System, Cook County State's Attorney, Cook County Sheriff, Cook County Public Defender, Clerk of the Circuit Court of Cook County, Cook County Treasurer, Cook County Clerk, Cook County Assessor, Chief Judge of the Circuit Court of Cook County, Cook County Board of Review, the Office of the Independent Inspector General, the Cook County Land Bank Authority, and the Cook County Public Administrator.

APPOINTEE means individuals appointed by an Official to any Boards or Commissions created by State Statute or County Ordinance whose members are appointed by the President or Official and is subject to the approval, confirmation or advice and consent of the Cook County Board.

BOARD OR COMMISSION means any Board or Commission created under County Ordinance or State Statute whose members are appointed by the President or Official subject to the approval, confirmation or advice and consent of the County Board.

COOK COUNTY OR COUNTY means Cook County Government and Agencies of the County.

EMPLOYEE means an individual employed by an Agency whether part-time or full-time or by a contract of employment.

FRAUD OR FRAUDULENT ACTIVITY means a deceptive act committed with the intent to secure an improper benefit to oneself or another. A fraudulent act may also involve an omission designed to conceal or mislead.

OFFICIAL means any elected official (or appointed official) of any Agency of the County, regardless of whether the official is compensated.

CONDUCT CONSTITUTING FRAUD

A fraudulent act encompasses a broad range of behavior, including anything calculated to deceive another, whether by presenting false information or concealing the truth. It is conduct involving dishonesty and is willful in nature. As used in this Policy, the term “fraud” and “fraudulent activity” may include, but is not limited to, the following conduct:

- Forgery or alteration of any document or account belonging to the County;
- Forgery or alteration of a check, bank draft, or any other financial document;
- The provision of false or misleading information in a County document or record made with the intent to deceive;
- Misappropriation or theft of funds, services, securities, supplies, or other assets through deceit or willful scheme;
- Impropriety in the handling or reporting of money or financial transactions, when done with an intent to deceive;
- Offering, accepting or seeking bribes or illegal gratuities;
- Destruction, removal or inappropriate use of Cook County Government property, records, or equipment, when done with an intent to deceive;
- Conduct that involves ghost-payrolling or timecard fraud, including assisting another in this conduct.

DUTIES AND RESPONSIBILITIES

- Officials, Appointees and Employees have a duty to comply with all applicable Federal, State, and County laws, rules, regulations and policies.
- Officials, Appointees and Employees should be alert for any indication of fraud within their areas of responsibility.
- Any Official, Appointee or Employee of Cook County Government who has a reasonable basis for believing a fraudulent act has occurred, or is occurring, has a responsibility to report such activity to the Office of the Independent Inspector General and, if appropriate, his or her supervisor or department head.
- Any manager who receives a report of fraudulent activity from a subordinate must conduct a reasonable investigation into the matter and, if warranted, report such activity to the Office of the Independent Inspector General without undue delay. Reporting detected or suspected fraud to the Office of the Independent Inspector General in no way limits management’s ordinary responsibility to investigate detected or suspected fraud itself and

- impose appropriate discipline on subordinates. In addition to the Office of the Independent Inspector General, management may report detected or suspected fraud to other appropriate authorities if warranted.
- Any Official, Appointee or Employee who is unsure if an event or situation constitutes a violation of the Policy may contact the Board of Ethics, the Office of County Auditor or Office of the Independent Inspector General for consultation or clarification.
 - Agencies are responsible for establishing and maintaining proper management controls that will provide for the security and accountability of the resources entrusted to them. The Board of Ethics, Office of County Auditor and Office of the Independent Inspector General can be consulted for additional information or assistance in establishing such controls.
 - Annual countywide training will be provided by the Board of Ethics, Office of County Auditor and Office of the Independent Inspector General. Officials and Employees have a responsibility to take this training when it is provided and to assist in the provision of this training within their Agencies as requested by the Board of Ethics, Office of County Auditor or Office of the Independent Inspector General. A copy of the training will be provided to Appointees upon appointment.

NON-RETALIATION

No Official, Appointee, or Employee who has acted in accordance with the reporting requirements of this Policy shall be:

- Disciplined or threatened with disciplinary action for following the Policy;
- Retaliated against, punished, harassed or penalized for following the Policy;
- Intimidated or coerced in retaliation for reporting fraud or fraudulent activity in accordance with this Policy.
- Employees found to have engaged in retaliatory conduct shall be subject to discipline, up to and including discharge.

FALSE ALLEGATIONS

It shall also be a violation of this Policy for any complainant to knowingly make a false allegation of fraudulent activity and/or to make an allegation with reckless disregard for its truth and that is intended to be disruptive or to cause harm, or to harass another individual. Any violation of this section will result in disciplinary action, up to and including discharge.

CONFIDENTIALITY

Any Official, Appointee or Employee contacted with respect to a suspected fraud or an ongoing audit/investigation into fraudulent activity shall treat the matter in a confidential manner. Any violation of this section may result in disciplinary action, up to and including discharge.

SANCTIONS

- In accordance with applicable personnel rules, employees may be suspended or placed on administrative leave during the course of an investigation into allegations involving fraud.
- Employees found to have participated in fraudulent activity may be subject to disciplinary action, up to and including discharge from employment, criminal prosecution or civil action, and/or fines levied by the Board of Ethics, consistent with the Cook County Ethics Ordinance.

- Employees found to have knowledge of fraudulent activity and who knowingly failed to report the activity may be subject to disciplinary action up to and including discharge from employment.

STATUTORY REFERENCES

Sources of County law related to the protection of the County against fraud include but are not limited to the following:

- Cook County Independent Inspector General Ordinance – Cook County Code, Ch. 2, Art. IV, Sec. 2-281, et seq.
- Cook County Ethics Ordinance – Cook County Code, Ch. 2, Art. VII, Sec. 2-541, et seq.
- Cook County Auditor Ordinance – Cook County Code, Ch. 2, Art. IV, Sec. 2-311, et seq.
- Cook County Procurement Code – Cook County Code, Ch. 34, Art. IV, Sec. 34-120, et seq.

GLOSSARY OF TERMS

ACCRUAL BASIS	An accounting method where expenditures are recorded when good and services are received and where revenues are recorded when they are earned. It does not take into account when the payment was made or received.
ADMINISTRATION	A functional grouping of County departments that provide select services to other County departments and offices, and to the general public.
ANNUAL APPROPRIATION BILL	An Ordinance approved by the Cook County Board of Commissioners establishing the budget for Cook County government for the fiscal year.
ANNUAL BUDGET	The financial plan for maintaining Cook County government for one 12-month period.
APPROPRIATION	The legal authorization granted by the Cook County Board of Commissioners to make expenditures and to incur obligations for specific purposes. An appropriation is usually limited in amount and as to the time when it may be expended.
ASSESSED VALUATION	The estimated value of all land and real property in Cook County. The valuation is used as the basis for computing the Property Tax Levy.
BALANCED BUDGET	A budget that has total revenues equal to total expenses.
BOND	A written promise to pay a specified sum of money (called the face value or principal amount) at a specified date or dates in the future, called the maturity date(s), together with periodic interest at a specified rate.
BONDED DEBT	The portion of indebtedness represented by outstanding bonds.
BUDGET	The budget is an estimate of proposed expenditures and the proposed means of financing them.
BUDGETARY ACCOUNTS	Accounts used to enter the formally adopted annual operating budget into the General Ledger.
BUDGETARY CONTROL	The management of a government in accordance with an approved budget to monitor and control expenditures within the limitations of approved appropriations and available revenues.
BUREAU	Organizational unit in which departments with related missions report to single executive such as Bureau Chief. Cook County has a Bureau of Administration, Bureau of Economic Development, Bureau of Finance, Bureau of Human Resources, Bureau of Technology, and Bureau of Asset Management.

BUSINESS UNIT (COST CENTER)	The division of the County which may require an income statement or balance sheet. This is where all accounting transactions are recorded. For the purpose of recording expenses, these divisions were previously called sub-activities or cost centers.
CAPITAL BUDGET	The estimate of capital project costs. It sets forth each project and equipment purchase, and specifies the resources estimated to be available to finance the projected expenditures.
CAPITAL EQUIPMENT	Equipment items that have physical substance, valued at \$5,000 or more with a useful life of five years or more and depreciable, such as: institutional equipment, office furnishings and equipment, computer equipment, vehicles, automotive equipment, telecommunications equipment, and other equipment.
CAPITAL EXPENDITURES	Expenditures resulting in the acquisition of, or addition, to the County's general fixed assets.
CAPITAL IMPROVEMENT	Improvements or additions to fixed County assets and the acquisition of new County assets. Capital Improvements are detailed in a separate section of the budget and are financed through the direct issuance of general obligation bonds.
CAPITAL RENEWAL	A systematic management process to plan and budget for known cyclic repair and replacement requirements that extend the life and retain usable condition of facilities and systems. Capital renewal is a planned investment program that ensures that facilities will function at levels commensurate with the facilities mission. Included are major building and infrastructure systems and components that have a maintenance cycle in excess of one year.
CHARGEBACK	A transaction used for the financing of goods or services provided by one department to other departments or agencies of a government, or to other governments to reimburse costs.
CHART OF ACCOUNTS	A chart detailing the system (numbered and descriptive) of general ledger accounts used to designate funds, expenditures, revenues, and balance sheet accounts. Operating Accounts – Provide funding for the purchase of goods and services deemed necessary throughout the fiscal year, excluding purchases categorized as Capital Outlay (See Object Classification). Capital Accounts (New/Replacement) – These funds provide financing for the purchase of capital equipment. Capital Equipment is defined as durable goods with a useful life of five or more years.

	Major Capital Accounts – These funds provide funding for certain projects with requirements and with a depreciable life of at least five (5) years. Major Lease of Capital Accounts – These funds provide funding for projects that would benefit from lease financing arrangements. Projects include the lease of the mainframe computer, mainframe printers, and large capacity document printers.
CORPORATE FUND	The funds used to account for all financial resources attributable to government management and supporting services; control of environment; assessment, collection and distribution of taxes; election; economic and human development; and transportation.
COMPREHENSIVE ANNUAL FINANCIAL REPORT (CAFR)	The official annual report stating the financial position and result of operations of Cook County for the fiscal year. It incorporates an opinion on the Report's general-purpose financial statements by an independent certified public accounting firm.
COST-OF-LIVING-ALLOWANCE (COLA)	A periodic adjustment to salaries and wages to allow for inflation.
DEBT	An obligation resulting from the borrowing of money or from the purchase of goods and services.
DEBT SERVICE REQUIREMENTS	The amount of money required to pay interest on outstanding debt, the principal of maturing bonds and required contributions to accumulate money to pay off term bonds.
DEFERRED MAINTENANCE	The practice of postponing maintenance activities such as repairs on both real property (i.e. infrastructure) and personal property (i.e. equipment) in order to save costs, meet budget funding levels, or realign available budget monies. The failure to perform needed repairs could lead to asset deterioration and ultimately asset impairment. Generally, a policy of continued deferred maintenance may result in higher costs, asset failure, and in some cases, health and safety implications.
DEPARTMENT	A unit of Cook County government.
DEPRECIATION	A reduction in the value of an asset with the passage of time.
DERIVATIVES	A contract whose value is determined by performance of the underlying asset. The most common underlying assets include stocks, bonds, commodities, currencies, interest rates and market indexes.

EMPLOYEE EXPENSES	A sub-category of the Personal Services object classification. Employee expenses consist of expenditures that are related to employees, but not considered salary or fringe benefits. An example of an employee expense would be the cost of a training program or professional seminar.
ENCUMBRANCES	Encumbrances represent the estimated amount of expenditures from unperformed contracts that would occur if the unperformed contracts in process are completed. Expenditures and liabilities, as defined by GAAP, are not encumbrances. GAAP is a set of accounting standards created by the Financial Accounting Standards Board to create financial consistency and transparency across organizations.
ENTERPRISE FUND	Budget and accounting units created for particular self-sustaining operations, to separate the revenue and financial control of such operations from the County's General Fund.
EQUALIZED ASSESSED	The assessed value of real property, as determined by the Cook County Assessor, multiplied by an annual equalization factor determined for the County by the Illinois Department of Revenue. The Assessed Valuation is the basis for levying property taxes.
EXPENDITURE	Any use of financial resources by Cook County for the provision or acquisition of goods and services for operations, debt service, capital outlay, transfers, or other financial uses.
FISCAL YEAR	A 12-month period for which the Annual Appropriation Bill is enacted. For Cook County, the fiscal year begins on December 1 and ends on November 30 of the succeeding year.
FRINGE BENEFITS	Personnel costs (hospitalization insurance, dental insurance, vision insurance, life insurance, employer match of employee's Medicare contribution, and pension) supplemental to an employee's salary or wages which are paid wholly or in part by the County.
FULL TIME EQUIVALENT (FTE)	A position converted to the decimal equivalent of a full-time position based on 2,080 hours per year. A full-time position would be 1.0 FTE while a part-time position scheduled for a 20-hour week would be 0.5 FTE.
FUNCTION	Specific (or like group) activities or organizational units directed at attaining specific purposes or objectives. The principal functions of Cook County are health care, courts, and corrections.
FUND (COMPANY)	An independent, self-balancing account used to record revenue and expenditures within the budget. For Cook County, the major funds are the General Fund, comprised of Corporate and Public Safety; the Health Enterprise Fund; special purpose funds; and grant funds.

FUND BALANCE	The difference between assets and liabilities of governmental funds.
FUND TYPES	Enterprise - Budget and accounting units created for particular purposes, particularly self-sustaining operations, to separate the revenue and financial control of such operations from the General Fund. Fiduciary - Funds that are used to account for assets held in trust by the Cook County Government for the benefit of individuals or other entities. Governmental - Funds that are not concerned with profitability and usually rely upon a modified accrual basis. This involves recognizing revenue when it becomes both available and measurable, rather than when it is earned. Major - Local governments often manage and account for their financial activities in a limited number of funds, designated as major funds. Special Revenue - Fund types that are required to account for the use of revenue earmarked by the law for a particular purpose.
GENERAL FUNDS	The funds used to account for all financial resources, except those accounted for in special purpose funds and enterprise funds. The General Fund consists of the Corporate and Public Safety Funds.
GENERAL OBLIGATION DEBT	Debt backed by the full faith and credit of Cook County government.
GENERAL PUBLIC	The individuals that Cook County serves.
GRANTS	Contributions of cash or other assets from another government, public or private foundation, or department to be used for a specified purpose, activity, or facility.
GROSS BONDED DEBT	The total amount of direct debt that is composed of outstanding bonds.
HOME RULE COUNTY	A county that has authority to exercise any power and perform any function pertaining to its government and affairs including; but not limited to, the power to regulate for the protection of the public health, safety, morals, and welfare; to license; to tax; and to incur debt.
INFRASTRUCTURE	Public domain fixed assets such as roads, bridges, curbs and gutters, streets and sidewalks, drainage systems, lighting systems, and similar assets that are immovable.

INSURANCE	The transfer of risk of loss from one party (the insured) to another party (the insurer) in which the insurer promises to pay the insured (or others on the insured's behalf) an amount of money for economic losses sustained from specific events.
INTERGOVERNMENTAL REVENUES	Revenues from other governments (federal, state, and local) in the form of grants, entitlements, or shared revenues.
INVESTMENTS	Securities and real estate held for income in the form of interest, dividends, rentals, or lease payments.
LEASE-PURCHASE AGREEMENTS	Contractual agreements that are termed leases, but in substance, are purchase contracts.
LEVEL OF SERVICE	Used generally to define the current services, programs, activities, and/or facilities provided by a government to its residents.
LINE-ITEM BUDGET	The presentation of the County's budget in a form which lists each expense in a separate line along with the dollar amount budgeted.
LONG-TERM DEBT	Any obligation of the County with a remaining maturity term of more than one year.
MAJOR CAPITAL EQUIPMENT	Certain equipment items involved in projects with funding requirements greater than \$1,000,000 and with a depreciable life of greater than five (5) years.
NON-RECURRING REVENUES	Revenues collected by to the County that are unique and occur at one time only, or follow a sporadic, unpredictable pattern.
OBJECT CLASSIFICATION	The categorization of expenditures grouped by similarity of purpose. For Cook County, the following object classifications are used: Personal Services - Include expenditures for salaries and wages, fringe benefits, and other costs directly related to the support of employees. All budgetary accounts 100 through 199 are included in this object classification. Contractual Services - Include expenditures for routine office/department activities such as, printing, transportation, communications and other purchased services. Also, included in this classification are all professional and technical services contracted by Cook County. All budgetary accounts 200 through 299 are included in this object classification. Supplies and Materials - Include expenditures for necessary supplies for each department. All budgetary accounts 300 through 399 are included in this object classification.

	Operations and Maintenance - Includes expenditures for routine operation and maintenance, such as utility costs and repair of equipment. All budgetary accounts 400 through 499 are included in this object classification. Rental and Leasing - Includes expenditures for the rental and leasing of office, automotive, medical equipment, and facilities. All budgetary accounts 500 through 599 are included in this object classification. Capital Outlay - Includes expenditures for the acquisition of fixed assets including land, buildings and equipment. All budgetary accounts 600 through 699 are included in this object classification. Contingencies and Special Purpose Appropriations - Include various unanticipated and estimated expenditures, and reserves. All budgetary accounts 800 through 899 are included in this object classification.
OBJECT ACCOUNT	The numeric system that uniquely distinguishes each account in the County's Chart of Accounts.
OFFICE	A unit of Cook County government. Offices are generally managed by elected County officials. However, the term is also used to designate some non-elective units of County government.
OPERATING BUDGET	The primary means by which most of the financing, acquisition, spending, and service delivery activities of a government are controlled. The Operating Budget excludes capital improvements.
PERFORMANCE-BASED BUDGETING	Performance-based budgeting uses statements of missions, goals and objectives to explain why the money is being spent. It is a way to allocate resources to achieve specific objectives based on program goals and measured results.
PUBLIC SAFETY FUND	The funds used to account for all financial resources attributable to the protection of persons and property (corrections and courts), to include the costs of administering laws related to vehicles and transportation; and government management and supporting services related to ensuring public health and safety in postmortem examinations.
PROGRAM	The functional units of a County Department or Agency focused on particular objectives and further delineated with employee and cost data specific to that function.
PROGRAM INVENTORY	A comprehensive listing of services offered by each Cook County Agency or Department to both external and internal users; organized to provide transparency into Cook County governmental services provided to Cook County residents, employees and elected officials.

RESERVED FUND BALANCE	Those portions of fund balance that cannot be used for expenditure or that are legally restricted for a specific future use.
REVENUE	The amount of monies collected from taxes, fines, fees, and reimbursements from others for the purpose of financing governmental operations and services.
REVISED REQUEST	A modification to a department's initial request, as deemed necessary, by a department; in conjunction with the Department of Budget and Management Services.
RISK MANAGEMENT	Use of the various ways and means to avoid accidental loss, or to reduce its consequences if it does occur.
SPECIAL PURPOSE FUNDS	These funds are used to account for the proceeds from special revenue sources, and the expenditures for specified or restricted purposes.
TAX EXTENSION	The process of calculating tax rates for all local governments.
TAX LEVY	The total dollar amount of the Cook County Annual Appropriation Bill that is to be covered by property taxes.
TAX RATE	The rate calculated to generate the revenue required from the tax levy. For Cook County, the rate is determined by dividing the final tax levy by the total Equalized Assessed Valuation of County real property.
TURNOVER ADJUSTMENT	The amount used to adjust the projected spending in salaries to account for the decrease in expenditures resulting from vacated positions.
ZERO-BASED BUDGETING	A budgeting approach which breakdowns service delivery functions into meaningful identifiable unit costs. Resources are allocated based on the fundamental level of service and budget priorities.

ACRONYMS

ACA	Affordable Care Act
ADA	Americans with Disabilities Act
AOIC	Administrative Office of the Illinois Courts
BIPA	Benefits Improvement and Protection Act
BOT	Bureau of Technology
CAFR	Comprehensive Annual Financial Report
CCDOC	Cook County Department of Corrections

DEPARTMENT DIRECTORY

The **Department of Administrative Hearings** is an independent entity that hears cases relating to violations of the County Ordinance and violations of the Cook County Human Rights Ordinance.

The **Adult Probation Department** provides the courts with quality information and offers viable, cost-effective sentencing options. Under the Office of the Chief Judge, the department provides a balance of enforcement and treatment strategies, holds offenders accountable, and affords them opportunities to become productive, law-abiding citizens.

Ambulatory and Community Health Network (ACHN) provides quality primary and specialty care services to children and adults in their own communities.

Animal and Rabies Control provides health protection to the residents of Cook County through preparation, education, rabies vaccination and stray animal control.

Asset Management is responsible for implementing and monitoring the County's capital improvement program and reviewing policy concerning capital construction in the County. Additionally, it maintains, operates, and repairs County properties and operating equipment. It also provides the personnel and supervision needed to remodel, rehabilitate, construct, and install the facilities, offices, and equipment needed to keep the County functioning.

The **Board of Commissioners** is the governing board and legislative body of the County. It is comprised of 17 Commissioners; each serving a four-year term and elected from single member districts; and is responsible for the management of the affairs of Cook County.

The **Board of Election Commissioners** is responsible for providing a fair electoral system for all citizens, promoting convenient voter registration, encouraging voter turnout, and maintaining state-of-the-art equipment and registration records.

The **Board of Review** provides an efficient and citizen-focused review process to adjudicate real estate assessment appeals in a prompt manner pursuant to the Illinois Property Tax Code.

Budget and Management Services prepares the Annual Appropriation Bill of Cook County and coordinates the development of annual and long-term budgetary projections. Additionally, it coordinates budgetary and central reporting for all County grants, directs an expansive capital equipment program and monitors annual appropriations.

Building and Zoning enforces provisions of the Cook County Building Code and Cook County Zoning Ordinance while governing the erection, construction, alteration, demolition, relocation and/or inspections of all buildings and structures within zoning districts of unincorporated Cook County.

Cermak Health Services of Cook County provides high-quality, effective and cost-efficient clinical services as well as early disease detection to the detainees at the Cook County Department of Corrections.

The **Chief Administrative Officer** coordinates the activities of the following seven Cook County departments: Animal and Rabies Control, Environment and Sustainability, Transportation and Highways, Law Library, Medical Examiner, Emergency Management and Regional Security and the Office of the Chief Administrative Officer.

The **Chief Financial Officer** coordinates and supervises all the financial activities of the County. The Chief Financial Officer manages the Bureau of Finance to ensure financial integrity, encourage streamlined governance, and promote long-term fiscal responsibility.

The **Chief Procurement Officer** leverages the County's purchasing power by managing the contracting process for all County agencies, except those in the Health and Hospital System and Forest Preserve District. Additionally, the office is responsible for the disposition and auctioning of salvage and surplus items no longer needed by the County.

The **Clerk of the Circuit Court** keeps records for all judicial matters brought to the Circuit Court. The Clerk is responsible for attending all sessions of the courts, preserving all files and papers associated with judicial proceedings, maintaining a complete record of all determinations made in the Circuit Court, and performing all administrative duties required by law or the rules and orders of the Circuit Court.

Contract Compliance is responsible for the day to day operation of the Cook County Minority Business Enterprise/Women's Business Enterprise/Veterans' Business Enterprise Ordinance. In an effort to make Cook County a more attractive business partner for minority, women and Veteran-owned businesses, the office monitors contractor activities for compliance.

The **Cook County Law Library** provides professional library services at seven branch locations, offering one of the largest and broadest collections of law books in the nation.

The **Community Corrections Department** under the Sheriff includes Electronic Monitoring (EM), the Sheriff's Work Alternative Program (SWAP), and Restoring Neighborhoods Workforce (RENEW). These programs provide public safety, alternatives to incarceration, and community supervision for participants in these programs.

The **County Assessor** is responsible for setting accurate values for 1.8 million parcels of real property in Cook County, maintaining fair and equitable real property assessments and maximizing services for Cook County citizens in the processing and understanding of their assessments.

The **County Auditor** audits County fee offices and information systems, works with external auditors on the County's annual audit and performs special audits as directed by the President and the County Board of Commissioners.

The **County Clerk** is the official custodian of Cook County records and books. The office is charged with issuing tax extension rates, permanent real estate tax numbers and new tax codes. As the Clerk of the County Board of Commissioners, the office also keeps all minutes and agendas of Board proceedings. Its vital statistics department is responsible for the safe-keeping of all birth, death and marriage records generated within Cook County and for issuing all marriage applications and licenses, certifying notary publics and registering businesses operating under an assumed name. Its ethics division follows State and County laws by receiving and administering statements filed under the Illinois Governmental Ethics Act, the Illinois Campaign Financing Act and the Cook County Lobbyist Registration Ordinance. As of December 2020, the County Clerk assumed the former Recorder of Deeds duties. The County Clerk now records, stores, and provides accurate and easily retrievable information including public records for land transactions, federal and state tax liens, articles of incorporation, and Uniform Commercial Code filings.

The **County Comptroller** reviews and discharges all debts or credits in which the County is financially concerned. The Comptroller maintains a record of all budgetary appropriations, expenditures, encumbrances and revenues made or received during each fiscal year.

The **County Treasurer** is responsible for the collection of real estate tax revenues and the distribution of those funds to taxing agencies throughout Cook County. The Office also serves as the County's banker responsible for the prudent investment of public funds.

Court Services Division under the Sheriff executes all court orders issued by the Circuit Court of Cook County; maintains decorum and security in the courtrooms of all divisions of the Circuit Court; and is responsible for the apprehension of defendants who fail to respond to court orders. Court Services also supervises the Child Support Enforcement Division of the Sheriff's Office and coordinates the Sheriff's Preventive Programs section.

The **Department of Corrections** under the Sheriff has the statutory responsibility for the detention of persons awaiting trial and those persons convicted of crimes and sentenced for up to one year of incarceration. Additionally, the department coordinates various programming for inmates. The various programs provide substance abuse counseling, vocational skills training, GED services, family counseling and health education to male and female nonviolent offenders. It also houses the fastest growing population within the Cook County Department of Corrections – women. The department consolidates, coordinates, and strategically plans the future intervention, supervision, and service plans for all females within the Sheriff's jurisdiction.

The **Department of Emergency Management and Regional Security (DEMRS)** provides a Countywide security and emergency management system that responds to, coordinates and communicates with all county departments, local governments, state and federal governments, and private entities. DEMRS directs efforts to ensure an appropriate County strategy for terrorist threats, attacks or natural disasters within Cook County. DEMRS develops, coordinates, biennially reviews, and revises strategies and emergency operations plans.

The **Employee Appeals Board** is charged with hearing all appeals of any career service employee, not represented by a union, for disciplinary action relating to discharge, demotion or suspension for a period of more than ten days to assure fair and equitable treatment of employees in a professional manner.

Enterprise Technology works to plan, develop, and manage enterprise software, hardware, infrastructure, and technology services in conjunction with numerous Cook County agencies. It works to provide County government services that are cost-effective and easy to use for residents and employees. It also identifies opportunities for cross-agency collaboration to improve efficiency and a greater return on technology investments.

The **Department of Environment and Sustainability** protects the health and welfare of the people of Cook County through the preservation, protection and improvement of the environment.

Facilities Management is charged with maintaining and operating Cook County's physical plant, which is comprised of approximately eleven million square feet.

Forensic Clinical Services under the Chief Judge gathers psychosocial histories of defendants and performs psychiatric and psychological examinations. Results and recommendations based on these studies are reported to the appropriate judges of the Circuit Court. The examining clinicians also provide direct testimony in court on issues of fitness to stand trial, questions of sanity at the time of offense and fitness for custody of children.

Health Plan Services, as part of the Health and Hospital System, provides comprehensive medical care to enrollees in CountyCare, the County's Medicaid expansion program offered through the Affordable Care Act. Health Plan Services coordinates and manages patient care through a Primary Care Medical Home model while creating and implementing all aspects of CountyCare.

Health Services – Juvenile Temporary Detention Center provides quality, timely, effective and cost-efficient clinical services, and early disease detection to the detainees in the Juvenile Temporary Detention Center in accordance with acceptable community, accreditation and regulatory standards.

Health System Administration administers all operational, planning and policy matters of the health care institutions, programs and agencies under the jurisdiction of the Cook County Board of Commissioners.

The **Human Resources Bureau** oversees the County's personnel functions. The department is charged with attracting and retaining exemplary and helpful County employees. It provides the President and other County executives with the necessary flexibility and management control to assure the delivery of quality public service. Additionally, it establishes and enforces equitable hiring and promotion procedures for employees and applicants.

Human Rights and Ethics implements the activities of the Cook County Commission on Human Rights and the Cook County Board of Ethics. The department investigates and adjudicates complaints filed under the Cook County Ethics Ordinance. It also works to prevent discrimination, improve human relations, and encourage ethical conduct in County government. The department works with Administrative Hearings to hear cases related to violations of the Cook County Human Rights Ordinance.

The **Office of the Chief Judge** administers the Circuit Court of Cook County by providing administrative support and legal research for judges, supervising approximately 2,100 non-judicial employees, reviewing and addressing the Court's space requirements, providing conciliation services in domestic relations proceedings, summoning jurors, drafting court rules and general orders, and educating the public about the Circuit Court. The Chief Judge also administers the Court's fiscal operations by representing the Court before the Cook County Board of Commissioners and preparing grant applications, budgets, and compliance reports.

The **Office of Economic Development** strives to improve the quality of life for the residents of Cook County by implementing programs to ensure affordable housing, infrastructure improvements, and economic growth through effective and coordinated strategic planning.

The **Office of the Independent Inspector General** investigates citizen complaints relative to the performance of County employees with respect to any fraud, corruption or deceit in operating procedures.

John H. Stroger, Jr. Hospital is the flagship of the Cook County Health & Hospitals System, with a staff of more than 340 attending physicians along with more than 450 medical residents and fellows, offering a full range of specialized medical services. The hospital maintains a strong commitment to the healthcare needs of Cook County's underserved population, while partnering with communities and providers to enhance public health, and advocate for policies that promote the physical and mental well-being of the people of Cook County.

The **Judiciary** under the Chief Judge administers one of the largest unified court systems in the nation. Through the efforts of over 400 judges and associate judges, the Court completes approximately 1 million cases annually. The judges of the Court are assigned to the County Department, the Municipal Department, or the Juvenile Justice and Child Protection Department.

The **Justice Advisory Council** works to improve the administration of justice in the County and formulates recommendations concerning legislation and other measures designed to encourage appreciable improvements.

The **Juvenile Probation and Court Services Department** under the Chief Judge serves the welfare of children and their families within a sound framework of public safety. The department is committed to providing the guidance, structure and services needed by every child under its supervision. In partnership with the community, the Department promotes the healing and recovery of neglected children and directs delinquent children toward reforming their behavior and making responsible decisions.

The **Juvenile Temporary Detention Center** under the Chief Judge provides the children in its custody with a caring environment, useful programs, and a structure that enhances personal development and improves opportunities for success.

The **Land Bank Authority** facilitates the return of abandoned and tax-delinquent properties to productive use to combat community deterioration, create economic growth and stabilize the housing and job markets. The Land Bank will acquire, hold, and transfer interest in real property throughout Cook County as approved by its Board of Directors to promote redevelopment, support targeted efforts to stabilize neighborhoods, and stimulate residential, commercial and industrial development.

The **Medical Examiner's Office** determines the cause and manner of death of those decedents whose death falls under the jurisdiction of the office.

Planning and Development is committed to developing sustainable communities by fostering economic opportunities and business development; preserving and expanding the supply of safe, decent, and affordable housing; facilitating infrastructure improvements; promoting fair housing; and supporting programs that address the problems of homelessness.

The **President of the Cook County Board of Commissioners** is the Chief Executive Officer of Cook County. As such, the President directs the administrative functions of the County.

Provident Hospital of Cook County continuously improves the quality and availability of comprehensive primary health care services to residents of Cook County. It works to enhance access to inpatient obstetrical, medical, surgical and diagnostic services, offer unique teaching, training and research opportunities, and provide comprehensive emergency services.

The **Public Administrator** provides comprehensive investigative and estate administrative services for Cook County decedents with unknown heirs.

The **Public Defender** is appointed by the court to act as attorney, without fee, for all persons who are held in custody or charged with criminal offense and who the court finds are unable to employ counsel.

The **Public Guardian** under the Chief Judge provides guardianship to adults with disabilities, acts as Guardian ad Litem and/or attorney for minors whose parents are charged with abuse, neglect or are involved in disputed proceedings.

Public Health is responsible for protecting and promoting the health of the citizens of suburban Cook County.

The **Revenue Department** is responsible for the administration, collection and enforcement of all Cook County home-rule taxes.

Risk Management plans, directs, and coordinates a comprehensive risk management program, which minimizes the County's potential exposure to loss.

The **Ruth M. Rothstein CORE Center** is a specialized health care facility operating as a joint venture with Rush Medical Center to provide a broad range of outpatient care to individuals and families affected by HIV/AIDS and other infectious diseases.

The **Secretary to the Board of Commissioners** provides legislative support and information for the Cook County Board of Commissioners, President, elected officials, agencies, departments and members of the public. By providing information regarding Board proceedings, it helps ensure an open, accessible and transparent government.

The **Office of the Sheriff** directs and administers eight departments: Administration, Information Technology, Court Services, Police Department, Community Corrections, Department of Corrections, Merit Board, and the Office of Professional Review, Professional Integrity and Special Investigations.

The **Sheriff's Administration** streamlines the fiscal, legal, policy, and communications administrative functions to ensure that the operational departments of the Sheriff's Office are provided with the necessary resources to carry out their mission. This bureau is comprised of the Legal Department, Office of Policy and Communication, Office of Intelligence Center, Fiscal Administration, and Payroll Department.

The **Sheriff's Department of Information and Technology** promotes the integration of technology, provides reliable, predictable and stable technology services to all Sheriff's Office departments. The Department provides project transparency through clear governance processes and predictability. In addition, the Department administers human resources, training, support, and vehicle services. This bureau is comprised of the Office of Information Technology, Office of Policy and Accountability, Vehicles Department, Department of Support Services, Training Institute, Office of Peer Support, and Human Resource's Administration.

The **Sheriff's Merit Board** adopts rules and regulations for governing the Sheriff's departments and conducts promotional exams for the Police Department and the Department of Corrections. The Board investigates all disciplinary problems within the Sheriff's budgetary units.

The **Sheriff's Office of Professional Review, Professional Integrity & Special Investigations** audits and evaluates activities in order to deter and prevent corruption, fraud, waste, mismanagement and unlawful political discrimination within the Sheriff's Office.

The **Sheriff's Police Department** is responsible for the preservation of peace, suppression of crime, and enforcement of regulatory ordinances. The police patrol unincorporated areas of Cook County, coordinate activities, and provide assistance to other police agencies throughout the County.

Social Service is a community corrections and court services department under the Chief Judge mandated by the Court to direct adult felony and misdemeanor offenders in satisfying court-ordered conditions and penalties. Staff craft and employ offender-specific strategies to achieve the sentencing objective of the court, which the Illinois Constitution defines as restoring the offender to useful citizenship. In partnership with the Court and the community, the Department increases public safety by redirecting offenders toward noncriminal behavior in the home, school, workplace, and community.

The **State's Attorney** works to preserve public safety, ensure the fair and efficient administration of justice, improve the delivery of services to the citizens of Cook County in the prosecution of criminal offenses, provide assistance to victims and witnesses, and vigorously represent Cook County and its officers in all civil proceedings.

Transportation and Highways is responsible for maintaining the highways in order to provide safe and economical movement of people and goods. It is also charged with creating a system of roads and highways that supports the development of the regional economy.

The **Zoning Board of Appeals** considers and hears all zoning appeals pertaining to land uses in unincorporated Cook County. Public hearings for Map Amendments and/or Special Use applications are conducted in the townships in which the property is located to decide a just and lawful determination of issues involved.

CHART OF ACCOUNTS FISCAL YEAR 2021

CLASSIFICATION DESCRIPTIONS AND CODING DEFINITIONS BY OBJECT AND PURPOSE OF APPROPRIATIONS BUREAU OF FINANCE DEPARTMENT OF BUDGET AND MANAGEMENT SERVICES

Expenditures for imaging County records. This includes the cost of document preparation, transfer and image processing.

520650 Media Storage Services**520670 Professional Services**

Cost of purchased services not specified in other accounts in this category.

520675 Purchased Services**520725 Loss and Valuation**

Premium cost paid to insurance companies to provide bonding services and liability insurance coverage to the County. It includes protection against catastrophic liability claims and losses of certain types of capital equipment.

520730 Loss and Valuation**520790 Malpractice Insurance****520810 Premiums for Equipment Insurance****520825 Professional Services**

Charges for services that by their nature can only be performed by persons or firms with specialized skills and knowledge. Included in this account are the services of architects, engineers, auditors for the independent County-wide audit and professional non-medical consultants. Also included are charges for consultant, technical and special services (e.g., court interpreters, data processors and security services).

520830 Professional Services**520894 Auditing Services****521005 Professional Legal Expenses**

Charges for the services of law firms, attorneys, medical consultants, expert witnesses and court reporters relating to labor law, statutory compliance, union negotiation, and other legal county matters.

521010 Professional Legal Expenses**521019 Court Reporting****521024 Medical Consultation Services****521044 Legal Fees Regarding Labor Matters****521054 Legal Services****521074 Expert Witnesses****521119 Registry Services**

Charges for the services of professionals, who are required to be registered, licensed or certified in their specialty and whose services are obtained through businesses established as professional registries to provide services as needed.

521120 Registry Services**521155 Managed Care Claims**

Reimbursement to service providers for managed care members.

521160 Managed Care Claims

521200 Laboratory Testing and Analysis

Charges for professional laboratories or scientific professionals for performing or analyzing specimens.

521205 Laboratory Testing and Analysis**521210 Laboratory Test for Indigent Patients****521225 Hospital Billings for Prisoners****521235 Laboratory Related Services****521245 Expenses for the Cook County Board of Health Directors****521265 Other Technical Services****521300 Special or Cooperative Programs**

For all county-wide costs of special or cooperative programs established by the County as self-sustaining or as a cooperative program with private or other governmental agencies.

521306 Confiscated Vehicles in Accordance with Illinois Revised Statutes**521308 Revolving Fund Not Otherwise Classified****521310 Economic Development Cable TV****521313 Special or Cooperative Programs****521515 Other Contractual Services**

Charges for services not specified in other accounts are in this category which are not professional, managerial or technical in nature, and are not transportation services or purchased services. Services for which funding is requested should be specified in the appropriation request.

521520 Impersonal Services Not Otherwise Classified**530000 Supplies and Materials**

This category includes expenditures in connection with current operations to purchase articles of a consumable nature which show material change or depreciation with use. These items may also lose their identity through fabrication or incorporation into different or more complex units or substances. These accounts should not be used for outside services relating to operation, maintenance and repair of equipment or facilities but solely for the purchase of consumable supplies and materials. Items of equipment with a unit cost of less than \$1,000 are considered supplies and not capital equipment.

530005 Food Supplies

Expenditures for the acquisition of all fresh, frozen, canned or otherwise preserved foods and beverages commonly associated with food service, including delivery cost. Also included are cost of items allied with food service, such as dietary sets, paper and plastic serving ware, utensils, paper products and other items not for consumption.

530010 Food Supplies**530100 Wearing Apparel**

Cost of all uniforms, protective clothing and specialized wearing apparel, including shoes, for employees and non employees. Material for fabrication of wearing apparel should not be charged to this account (refer to account 530228).

530105 Wearing Apparel

530170 Institutional Supplies

Operating expenses for the purchase of supplies that are directly related to the administration of a department's or program's stated purpose or mission.

530175 Institutional Supplies**530188 Institutional Supply Expense****530212 Miscellaneous Dietary Supplies****530221 Formula****530224 Road Materials for Maintenance****530226 Other Maintenance Supplies****530228 Supplies and Materials Not Otherwise Classified****530257 Office Expense Secretary to the Board of Commissioners****530259 Office Expenses Chairman, Committee on Finance****530600 Office Supplies**

Charges for office machine supplies, writing supplies, art supplies, markers, chair pads, calendars and other items commonly considered stationer supplies. Also included are such items as bottled drinking water and coffee service (including delivery, supplies, and use of cooler or coffee maker). Items considered office equipment and furnishing should not be charged to this account unless the unit cost is less than \$1,000.

530605 Office Supplies**530635 Books, Periodicals and Publications**

Charges for the acquisition of vital records, books, periodicals, publications and on-line data services for facility or institutional use. LexisNexis and data services for PTAB are included.

530640 Books, Periodicals and Publications**530646 County Wide LexisNexis Contract****530649 Data Services for PTAB****530700 Multimedia Supplies**

Charges for supplies directly related to copier, photographic and printing operations. Included in this account are film, developers, papers, inks, toners, solvents and similar products. Excluded are computer printer-related supplies (refer to account 531670).

530705 Multimedia Supplies**530785 Medical, Dental, and Laboratory Supplies**

Charges for consumable supplies used in medical, dental and laboratory functions. Items such as utensils, disposable personal care items (health facilities only), oxygen, gases, reagents, solutions, therapy supplies, dentistry supplies and general laboratory supplies should be charged to this account.

530790 Medical, Dental, and Laboratory Supplies**530804 Clinical Laboratory Supplies****530814 Radioactive Agents****530822 Blood Derivatives**

530905 Pharmaceutical Supplies

Charges for all drugs, such as controlled substances, agents, liquids (including I.V. solutions), enzymes, vitamins and unclassified therapeutic substances which are prescribed in a medical service facility. Charges for surgical instruments, applicators, bandages, trays, packs, kits and similar surgical supplies are also included.

530910 Pharmaceutical Supplies**530941 Surgical Supplies****530963 AZT Drugs****531645 Computer and Data Processing Supplies**

Charges for all data processing supplies, including cut and continuous feed papers, forms, diskettes, connectors, cables, toner cartridges for computer printers, and other computer supplies. Software and other computer equipment should not be charged to this account unless the unit cost is less than \$1,000.

531670 Computer and Data Processing Supplies**531900 Other Supplies and Materials**

Charges for supplies and materials not specified in other accounts are in this category.

531906 Miscellaneous Supplies and Materials**540000 Operations and Maintenance**

This category includes all accounts to which charges are made for the operation and maintenance of facilities, office equipment, automotive equipment, road repair equipment and all other plant or institutional equipment. Charges may include contractual maintenance, emergency repairs, cost of heating, public water supply, natural and propane gas for heating, electricity, remodeling, and maintenance work done by the Department of Facilities Management and site improvements. Cost of parts and charges from providers of repair and maintenance service are included in this group of accounts. Generally, expenditures made for operation and maintenance are related to a capital item such as a vehicle or building. They are necessary for either the basic operation of the capital item, such as gasoline for cars, or to preserve the value of the capital item, such as tuckpointing of facilities.

540005 Utilities

Charges made for utilities such as electricity, water and gas at County facilities.

540008 Utilities**540010 Utilities Oil****540016 Water****540022 Utilities Electricity****540028 Utilities Gas****540034 Other Utilities****540105 Moving Expenses and Remodeling**

Charges related to the minor remodeling of County facilities at the request of the department and performed by the Department of Facilities Management. Also included are moving expenses for relocation of County facilities, equipment, or materials.

540110 Moving Expenses and Remodeling

540129 Maintenance and Subscription Services

Non-capitalizable expenses related to the maintenance and repair of equipment, including mainframe and personal computers, peripherals, and software. The costs may include any charges for usage, parts, labor, travel, etc. as billed by the vendor or provider of the maintenance or repair service.

540130 Maintenance and Subscription Services**540135 Working Capital Maintenance and Repair of Data Processing Equipment and Software****540140 Repair of Medical Equipment****540146 Operation of Automotive Equipment****540149 Other Maintenance Services****540165 Countywide Contract for Maintenance of Data Processing Equipment**

Charges for Countywide contracts for maintenance and repair of data processing equipment, such as mainframe and personal computers, peripherals, software and similar equipment. The costs may include any charges for usage, parts, labor, travel, etc. as billed by the vendor or provider of the maintenance or repair service. Charges for accessories, non-replacement parts or upgrades purchased from any supplier or vendor, which include or exclude installation, should not be charged to this account, but to the appropriate supply or equipment account.

540170 Countywide Contract for Maintenance of Data Processing Equipment**540245 Automotive Operations and Maintenance**

Charges for maintenance and repair of all automotive equipment, including automobiles, trucks, hauling and other motorized road equipment. The costs may include any charges for replacement parts, oil, filters, tires, labor or other items included in billing for the commodity or service. Charges for accessories, non-replacement parts or upgrades purchased from the manufacturer or other vendor, which include or exclude installation, should not be charged to this account, but to the appropriate supply or equipment account. Charges related to the operation of the vehicle that are consumable, such as fuel, should be charged to account 540146-Operation of Automotive Equipment.

540250 Automotive Operations and Maintenance**540345 Property Maintenance and Operations**

Charges for the operation, grounds improvement and maintenance of County facilities including the Richard J Daley Center and 69. W. Washington.

540350 Property Maintenance and Operations**540370 Maintenance of Facilities****540390 Operating Costs for the Richard J. Daley Center****540402 Operating Costs for the Cook County Adm. Bldg. 69 W. Washington****540410 Maintenance by the Department of Facilities Management****540430 Grounds Improvement****550000 Rental and Leasing**

This category includes accounts from which payments are made for rental or leasing of automotive, institutional, medical and office equipment, and rental of offices or other facilities as required by various departments or elected officials of the County. Rental or lease agreements may include the cost of maintenance and utilities or other stipulated cost. Appropriate agencies of the County should be consulted before entering into negotiations for rentals or leases.

550005 Office and Data Processing Equipment Rental

Charges for the rental or lease of typewriters, computers, proprietary software, copiers and other office equipment. Costs may include delivery, maintenance, parts or upgrades as stipulated in the rental or lease agreement. All rented or leased office equipment remains the property of the lessor.

550010 Office and Data Processing Equipment Rental**550029 Countywide Office and Data Processing Equipment Rental**

Expenses related to the leasing and maintenance of Cook County's multi-functional printing and scanning devices.

550030 Countywide Photocopier Lease**550059 Automotive Equipment Rental**

Charges for the rental or lease of automobiles, trucks, buses and other automotive equipment. Costs may include delivery, routine repair and maintenance, parts or other provisions as stipulated in the rental or lease agreement. All rented or leased automotive equipment remains the property of the lessor. Charges for vehicles obtained through Lease Purchase Plan Agreements should not be charged to this account (refer to account 560269). If leased vehicle usage by an elected official is less than 100 percent for County business then the percentage of vehicle usage attributable to County business must be specified and substantiated with a mileage log that documents date, location of County activity, and round trip miles for the day as a substantiation of the daily portion of County business use being claimed. Mileage logs must be submitted with any request for reimbursement.

550060 Automotive Equipment Rental**550079 Medical Equipment Rental**

Charges for the rental or lease of radiography, patient care or clinical laboratory equipment. Costs may include delivery, maintenance, parts or upgrades as stipulated in the rental or lease agreement. All rented or leased medical equipment remains the property of the lessor.

550080 Medical Equipment Rental**550099 Institutional Equipment Rental**

Charges for the rental or lease of durable equipment which is considered necessary to the function of an institution, such as refrigeration units and kitchen or laundry equipment. Costs may include delivery, maintenance, parts or upgrades as stipulated in the rental or lease agreement. All rented or leased institutional equipment remains the property of the lessor. Charges for institutional equipment obtained through Lease Purchase Plan Agreements should not be charged to this account (refer to account 560269).

550100 Institutional Equipment Rental**550129 Facilities and Office Space Rental**

Charges for the rental or lease of space, equipment or facilities.

550130 Facilities and Office Space Rental**550137 Rental and Leasing Not Otherwise Classified****560000 Capital Equipment and Improvements**

This category includes those accounts to which expenditures are charged for capital equipment and improvements to buildings. Items funded in this series of accounts are considered durable and are generally expected to be useful for five or

more years and cost more than \$5,000. Certain equipment, although not expected to be useful for five or more years, is also considered capital in nature and should be charged to accounts in this series. Typical capital equipment items are automobiles, trucks, road building vehicles, computers, computer peripherals, computer software, office machines, office furnishings and durable equipment, parts or accessories. Included in this category are accounts established for capital equipment obligations and reimbursement for capital equipment purchased in prior years. For additional detail and restrictions, see the Capital Equipment New Replacement Policy.

560005 Real Estate Operations

Expenditures related to enhancements to a plot of land to make it more usable.

560010 Real Estate Operations**560019 Land Improvements****560100 Property Maintenance and Operations**

Capitalizable costs related to the purchase of buildings, land and easements, including the costs associated with the completion of the purchase process.

560105 Property Maintenance and Operations**560107 Building Improvements****560109 Fixed Plant Equipment****560111 Equipment - Special Fund****560150 Institutional Supplies**

Charges for the acquisition, at delivered price including transportation and assembling/installation costs, of such equipment as power-driven kitchen or laundry machines, stoves, refrigerators, implements, power tools and other portable machinery valued over \$5,000. In general, equipment other than fixed equipment which is necessary for the functioning of a particular facility, which is considered durable and retains specific identity, can be charged to this account.

560155 Institutional Supplies**560180 Medical, Dental and Laboratory Equipment**

Charges for the acquisition, at delivered price including transportation and assembling/installation costs, of such equipment as EKG machines, X-ray machines, scopes, respirators, dental drills, test analyzers, microscopes and all other similar equipment for use in a medical, dental or laboratory facility.

560185 Medical, Dental and Laboratory Equipment**560200 Communication Services**

Charges for telephone instruments, switchboards, answering devices, facsimile machines, data terminals, interconnection equipment and all radio based, mobile, portable or paging equipment, including transmission and receiving antennae. Cost may include delivery, setup or installation charges as approved.

560205 Communication Services**560220 Computer & Data Processing Supplies**

Charges for the acquisition of durable equipment for electronic data processing use, including transportation and assembling/installation costs, such as mainframe computers, personal computers, peripherals, software and

similar equipment. Certain items under \$1,000 per unit (such as monitor, CPU and keyboard) should be grouped together and purchased as "desktop set". Expenditures for "proprietary software", which remains the property of the supplier and is leased by agreement, should not be charged to this account (refer to account 550010).

560225 Computer & Data Processing Supplies

560240 Furniture Supplies

Charges for the acquisition, at delivered price including transportation and assembly/installation costs, of such equipment and furnishings as typewriters, cash registers, copiers, microfilm machines, desks, chairs, tables, file cabinets, floor covering (carpeting, tile, etc.), draperies and other furnishings suitable for office or institutional use. Certain items individually under \$1,000 (such as a conference room set of chairs and table) may be grouped and purchased through this account. Excluded from this account are charges for medical, communications, and computer equipment, for which separate accounts have been established (refer to accounts 560185, 560205, and 560225). For individual items under \$1,000 in unit value, refer to account 530605.

560245 Furniture Supplies

560260 Vehicle Equipment & Supplies

Charges for the acquisition of vehicles and the equipment used for the repair of vehicles.

560265 Vehicle Equipment & Supplies

560267 Automotive Equipment

560269 Lease Purchase Plan Vehicles

560300 Capital Projects

Funds allocated for payment over a period defined by the Bureau of Finance for capital improvement programs.

560305 Capital Projects

560311 Expenses on CIP Projects

560318 Alterations and Remodeling by the Department of Facilities Management

560320 Bond Expenses

560350 Capital Equipment

Charges for durable equipment not included in other Capital Equipment and Improvement accounts. Included are reimbursements for capital equipment purchases made in prior years from operating funds.

560355 Capital Equipment

560371 Reimbursement for Capital Equipment

580000 Contingency and Special Purposes

This category includes accounts established to provide funds for general expenses, special programs and other expenses which fluctuate each fiscal year and require contingent funding. These accounts are established by the Bureau of Finance as authorized.

580001 Reserve for Claims

Funds appropriated to be used for the payment of awards or settlements as a result of litigation arising out of liability.

580010 Reserve for Claims

580031 Reimbursement to Designated Fund

Amounts allocated for transfer to designated fund for reimbursement of expenses incurred or to supplement available resources, including grant matching funds. Specify recipient fund in the appropriation request.

580033 Reimbursement to Designated Fund**580050 Cook County Administration**

Reimbursement for administrative services provided by offices in the County Corporate Fund.

580055 Cook County Administration**580060 Fees of Counsel and Expert Witnesses for Indigent**

Expenses for attorneys and expert witnesses for the indigent as authorized upon request of the Office of the Public Defender.

580065 Fees of Counsel and Expert Witnesses for Indigent**580070 Expenses by Order of Appellate Court**

Expenses for implementing orders of the Appellate Court as a result of litigation.

580075 Expenses by Order of Appellate Court**580080 Federal Court Fines**

Costs of fines levied by the United States District Court as a result of litigation.

580085 Federal Court Fines**580090 Reimbursement of Estates**

Funds for distribution to heirs after an estate is settled.

580095 Reimbursement of Estates**580105 Workers' Compensation Settlements**

Amounts paid to settle Workers' Compensation claims against the County and paid from the County Self-Insurance Fund.

580110 Workers' Compensation Settlements**580135 Self-Insurance Settlements**

Amounts paid to settle claims against the County and paid from the County Self-Insurance Fund.

580140 Self-Insurance Settlements**580165 Grant Disbursements**

Funds disbursed to other agencies or individuals from a grant administered by the County.

580170 Grant Disbursements**580175 Expenditures Related to the Redistricting Process**

Costs associated with the mandated redistricting of Cook County.

580180 Expenditures Related to the Redistricting Process

580195 Expenses Related to External Borrowing

Expenses include but are not limited to interest payments for a line of credit, rating agency service fees, trustee fees, arbitrage rebate calculations and investor relationship service fees.

580200 Expenses Related to External Borrowing**580215 Institutional Memberships & Fees**

Charges for membership of various County institutions in professional organizations related to their function or service or for licensure or certification by professional organizations as desired or required by the County agency.

580220 Institutional Memberships & Fees**580235 Public Programs and Events**

Costs for County-sponsored public programs and events, such as County Awareness Day and similar activities.

580240 Public Programs and Events**580279 Contingency (As Mandated by Law)**

Contingency funds for purposes and in amounts as mandated.

580280 Contingency (As Mandated by Law)**580299 General and Contingent Expenses Not Otherwise Classified**

County contingency funds for miscellaneous expenses and purposes not otherwise provided for; the Comptroller shall render a final account to the County Board and return any surplus remaining to the County Treasurer.

580300 General and Contingent Expenses Not Otherwise Classified**580339 Contingencies for Investigations**

Special County contingency funds for special investigative purposes at the request of the President and the Board of Commissioners. The President of said Board shall report all expenditures made, and all unexpended funds shall be returned to the County Treasurer at the end of the fiscal year.

580340 Contingencies for Investigations**580359 Contingency Fund for the Use of the State's Attorney**

Special contingency funds for the use of the State's Attorney. The State's Attorney shall report all expenditures made to the County Board, and unexpended funds shall be returned to the County Treasurer at the end of the fiscal year.

580360 Contingency Fund for the Use of the State's Attorney**580379 Appropriation Adjustments**

Funds approved to adjust appropriations as authorized.

580380 Appropriation Adjustments**580399 Reimbursement for Special Purposes Programs**

Amounts allocated for transfer to designated fund for reimbursement of expenses incurred.

580400 Reimbursement for Special Purposes Programs

580419 Appropriation Transfer

Amounts designated as transfer from a designated fund for reimbursement of expenses incurred or to supplement available resources.

580420 Appropriation Transfer**580431 Interest on Tax Anticipation Notes**

Interest paid to financial institutions for funds made available on a short-term basis in anticipation of repayment by the County when revenues from taxes are received.

580432 Interest on Tax Anticipation Notes**580435 Allowance for Delinquent Taxes**

An allowance for that portion of the property tax levy which is anticipated to be delinquent in the year due. This amount is determined by the DBMS. In FY 1993 and subsequent years, this appropriation was made as a subsection of the Budget Resolution.

580436 Allowance for Delinquent Taxes**580439 Short-Term Financing Expenses**

Expenses incurred related to the issuance of short-term debt, such as tax anticipation notes, tender notes and letters of credit. Interest expense related to the short-term financing instrument should not be charged to this account (see account 580432).

580440 Short-Term Financing Expenses**580451 Reserve for Flexible Spending Account Program**

Contingent funds reserved to pay the cost of Flexible Spending Account charges incurred or not recovered.

580452 Reserve for Flexible Spending Account Program**580455 Reserve for County Health Insurance Program**

Contingent funds reserved to pay the cost of medical treatment or to reimburse insurance carriers for benefits assigned on behalf of employees and eligible dependents.

580456 Reserve for County Health Insurance Program**580499 Capital Outlay**

Used to account for the acquisition, construction, and renovation of major Capital facilities of the County.

580500 Capital Outlay**580549 Principal**

To record principal payments due on the general long-term debt incurred by the County.

580550 Principal**580559 Interest and Other Charges**

To record interest payments due on the general long-term debt incurred by the County.
